**ABBREVIATED BOOKKEEPING**, the term **abbreviated bookkeeping** has been used to mean **bookkeeping** which by-passed and ignored the use of personal accounts. In other words, the double entry is effected by entries made directly between the organization's bank account and another impersonal account of the organization. (BPL 14 Nov 70 VI)

**ABERRATED CONDITION**, mental mass accumulates in a vast complexity solely because one would not confront something. To take apart a problem requires only to establish what one could not or would not confront. When no-confront enters, a chain may be set up which leads to total complexity and total unreality. This, in a very

complex form, we call an **aberrated condition**. People like that can't solve even rudimentary problems and act in an aimless and confused way. To resolve their troubles requires more than education or discipline. It requires processing. Some people are so "complex" that their full **aberration** does fully not resolve until they attain a high level of OT. (HCO PL 18 Sept 67)

**ABERRATION**, 1. by definition "a crooked line." It is from the Latin *aberratio*, "a wandering from, and from the Latin *errare*, to wander or to err. A sane person thinks, looks and sees in straight lines. Black is black, white is white. The **aberrated** person looks toward black and wanders off in his gaze to something else and makes the error of say-

ing it is "grey." You can consider aberration in a passive way (supinely, of no force or action). A person is sane or not sane. He thinks straight or crookedly. Now consider **aberration** in a forceful way. A person looks, then an opposing force to him pushes aside his gaze or distracts it. But the really sane, forceful person looks right on through and past the opposition and sees what is there anyway. (HCOB 19 Aug 67) 2. the number of out-points the guy is carrying around in his skull is how aberrated he is. That has very little to do with his sanity. It has everything to do with his competence. (ESTO 10, 7203CO5 SO 11) 3. **aberration** is just the basis of out-points. (ESTO 4, 7203CO2 SO 11) 4. a chain of vias based on a primary non-confront. (HCO PL 18 Sept 67) 5. **aberration** is non-straight line by definition. (HCOB 5 Dec 73)

Aberration (Def. 1)

**AB FACTOR**, we don't wholly guarantee you and your co-auditor that you will co-audit in the Level VI co-audit for one team member may be case type A and the other B. A case type A can run through anything. A case type B stops at a comma. Thus one gets too far out of pace with the other and it's just too hard on one member of the team who would be, of course, the type B and already in trouble. It would be selfish indeed of a type A to force a type B to run GPMs far beyond where he or she has had them run. We will try to put the team together in the Level VI co-audit and mostly

do but this AB factor is a technical one and we can't do anything about it short of good auditing. (HCO PL 11 Jun 64) [See PC TYPE A, PC TYPE B in Dianetics and Scientology Technical Dictionary.]

**ABILITY, 1. the ability** to complete a cycle of action, to handle the matter so it does not have to be handled again. (HCO PL 22 Feb 68) 2. **ability** is measured not by opinion, but by the person's ability to raise statistics and produce the product of the particular post. (BPL 4 Jul 69R V)

**ABILITY MAGAZINE**, *Ability magazine* should be issued semi-monthly. Issues shall be used broadly as mailing pieces and are not to go just to the membership and be forgotten. The first *Ability* of the month shall be an *Ability* major issue, the second issue of the month shall be an *Ability* minor issue. *Ability* major: shall consist of informative technical material, advertisements and programs. *Ability* minor: shall be dedicated only to programs such as extension course, such as training, such as processing results. *Ability* major is mainly of interest to the membership and informed Scientologists. *Ability* minor shall be of interest to the broad public. (HCO PL 24 Oct 58, *Ability Magazine*) [Ability is published by the Church of Scientology Washington D.C.]

**ABLE-BODIED SEAMAN**, 1. a Sea Org AB is a Sea Org member in good standing who has completed his AB checksheet. Gender or age are irrelevant. The vital datum is that an AB knows enough to make himself useful aboard a Sea Org ship. An AB knows the basic tech of the sea and he can survive on the sea. (FSO 156) 2. a permanent rating as **able-bodied seaman** is required before any higher deck rating or appointment can be considered permanent. An AB rating requires the completion of checksheet and demonstration of competence on deck. (LRH Def. Notes, circa Aug 67) 3. a trained seaman more highly skilled than

an ordinary seaman. Able = having enough power, skill, etc., to do something; capable; worth of being. Bodied = having a body or substance, especially of a specific kind. Seaman = a sailor, mariner. (SO ED 214 INT) 4. qualified sailor. (FO 196) *Abbr.* AB.

**ABLE-BODIED SEAMAN CONFERENCE**, instituted on a trial basis at Flag only. It is composed of all present ABs on the ship, as active members. Its purpose is to make and keep Sea Org ship tech known and applied. To back up command in all phases of ship operation, and to ensure optimum survival for its members including their rapid promotion as deserved. (FSO 156)

Able Bodied Seaman (Def. 1)

**ABSENTEE MANAGEMENT**, see MANAGEMENT, ABSENTEE.

**AC-1A FORM**, this form is filled in by the Treasury Secretary each Friday evening. The form provides additional data and verification for the AC-1/2 for financial management purposes. (BPL 4 Dec 72 IIRB)

**AC-1 FORM, 1.** reports the gross income of the organization for the week, shows the calculation of the corrected gross income and the allocation of the corrected gross income. The corrected gross income is the income available for use and is calculated by deducting various items as detailed on the form. The **AC-1 form** does not apply to an AO, SH, FOLO, Estates Org or any non-service org. These orgs will use the AC-2 form. (BPL 4 Dec 72 IIRB) 2. HCO

WW form AC-1 is the only proportionate breakdown acceptable to HCO WW Accounts. (HCO PL 19 Sep 62) [The above HCO PL was cancelled by BPL 10 Oct 75 IV.]

**AC-2 FORM**, the AC-1 form does not apply to an AO, SH, FOLO, Estates Org or any non-service org. These orgs will use the **AC-2 form**. The **AC-2 form** follows the AC-1 form exactly except that the management bills payment does not conform to the scale laid out for the AC-1 and the allocation of the proportionate amount is not per the percentages given. (BPL 4 Dec 72 IIRB)

**ACADEMY, 1.** in Sen the academy is that department of the Technical Division in which courses and training are delivered; Department 11, Division 4. (BTB 12 Apr 72R) **2. (Academy of Scn)** headed by the Director of Training, the **academy** is responsible for the technical excellence of Scn practice tomorrow. Precise scheduling, crisp training and true, direct answers to the students' questions make an **academy**. A bad **academy** results in a bad HGC tomorrow as many graduates become staff auditors. A good **academy** is known by its snappy scheduling and the degree of basic data and action the student actually absorbs. (HCO PL 20 Dec 62) **3. Academy of Scn** purpose: to train the best auditors in the world. To coach outside and staff auditors for employment in the HGC. (HCO London, 9 Jan 58) *Abbr.* Acad.

**ACADEMY COURSES**, 1. **academy** training Level 0-IV. (HCO PL 4 Nov 7III) 2. **an academy course** then hereafter means 160 hours of class instruction to certificate for all levels zero to IV. (HCO PL 11 Dec 64)

**ACADEMY INSTRUCTOR**, duties of an **Academy Instructor**: (1) to train with accuracy and precision the students we have, (2) to leave administrative duties to the academy administrator, (3) to get coaches to do a better job of coaching, (4) to read TRs to the students. If they have a question on them to read again the TR and ask them what the TR said. If they still do not get it, repeat the above. (5) to get the students to execute the TRs with the same snap and precision as was expected of students in the 18th ACC, (6) to run a tight 8-C on the students. (SEC ED 37, 15 Jan 59)

**ACADEMY SENIOR INSTRUCTOR**, should handle the advanced class and do no administrative work. His job is making sure the student is an auditor at course end. (HCOB 9 May 58)

**ACC ADMINISTRATOR**, purpose: to ensure a smooth running ACC as regards material. Works under ACC Chief Instructor and ACC Conductor. Supervises ACC Clerk. (HCO PL 24 Feb 60) [The above HCO PL was cancelled by BPL 10 Oct 75 III.]

**ACC CHIEF INSTRUCTOR**, purpose: to turn out auditors who are responsible for clearing their PCs and who know and can use the best methods of doing so; makes an ACC the greatest real education on this planet. (HCO PL 24 Feb 60) [The above HCO PL was cancelled by BPL 10 Oct 75 III.]

**ACC CLERK**, purpose: to create an orderly ACC by performing efficiently the routine work of ACC Administration. The ACC

**ACCEPTANCE TEST**, testing a program or project early in development to determine whether or not the completed final work will produce the expected result.

**ACCEPTING AN ALMOST**, *Example*: a messenger **accepting the almost** of *turning down* the heat. The order was to *turn it off*. An executive or communicator or messenger who accepts and forwards **an almost** is permitting dev-t. Orders given are to be executed and reported done, not to be nearly done or almost done. A communicator can often be tripped up by this form of dev-t. It is most easily spotted by insisting that the original order or orders be returned with the compliance so that any terminal on the fine can tell at a glance what was ordered, and what was done. (BPL 30 J an 69)

**ACCIDENT PRONENESS**, a manifestation of a tendency to succumb. (HCO PL 3 Nov 70 II)

**ACC INSTRUCTOR HAT**, purpose: to train the best auditors on earth. Works directly under ACC Chief Instructor, who is

under ACC Conductor. (HCO PL 24 Feb 60)  
[The above HCO PL was cancelled by BPL  
10 Oct 75 III.]

**ACCOMMODATION COUNSELORS**, (Flag) room and food registrars are to be called **Accommodation Counselors**. They reg immediately after the training and service reges have completed. *Abbr. AC.*

**ACCOUNT**, simply a sheet of paper (or page of a book) headed at the top as to the category of inflow or outflow of the organization or else the name of the outside person with whom the organization deals. It is divided by a line down the middle to give a left-hand side and right-hand side. The left-hand side of an **account** is the receiving or inflow side and the right-hand side is the outflow side. (BPL 14 Nov 70 II)

**ACCOUNT, EXPENSE**, 1. a special **account** out of which an employee of a firm is reimbursed for expenses incurred in the transaction of business affairs. 2. a record of business expenses paid for by an employee and submitted to his employer for approval and reimbursement.

**ACCOUNTING**, the game of **accounting** is just a game of assigning significances to figures. The man with the most imagination wins. But there must be correct figures and there must not be gross misassignment of debts as profits or the whole thing won't hang together. (HCO PL 25 Jun 67)

**ACCOUNTING**, the action of noting down, classifying, ensuring the accuracy of, evaluating and interpreting the financial facts and figures of an organization or business.

**ACCOUNTING COST CONTROL**, the use of accounting procedures to study the recorded transactions of a business in an effort to control costs. Accounting cost control can spot the inefficient use or misappropriation of funds and establish responsibility for such. Bills paid twice, ove-

rexpensures, unauthorized expensures etc., are all the subject of accounting cost control. See OPERATIONAL COST CONTROL.

**ACCOUNT, LEDGER**, a page or several pages in a ledger listing all the transactions with a specific firm. The page is divided in half with a record of transactions resulting in debts to that firm posted on the left-hand side of the page or debit side and a record of transactions resulting in credit with that firm posted on the right-hand or credit side of the account. By totaling each side of the account it can be seen if one owes money to that firm or has credit with that firm.

**ACCOUNTS AND MATERIEL BUREAU**, 1. bureaux accounts will be handled under Supply and Materiel Bureau which will be **renamed Accounts and Materiel Bureau and operate under** the Coordination Bureau and LRH Comm authority. (CBO 27) 2. supply and materiel becomes **Accounts and Materiel** and is the Division 3 of bureaux with Supply and Materiel as Branch 4. (CBO 28)

**ACCOUNTS ASSISTANT TO THE ORGANIZATION SECRETARY**, there will no longer be income and disbursement posts as separate personnel. Both these posts will be held by one person with the title **Accounts Assistant to the Organization Secretary**, effective at once. (HCO PL 18 Jun 64)

**ACCOUNT, SAVINGS**, a private account into which a depositor puts savings money that the bank pays interest on, with the right of withdrawing funds by presenting his passbook so that the bank teller may record the transaction or by giving required notice to the bank.

**ACCOUNTS CLEARANCE**, it does not mean "bills known" or "bills arranged to be paid." It means "all bills paid." (HCO PL 1 Aug 72) [The above HCO PL was cancelled by BPL 10 Oct 75 X]

**ACCOUNTS CLEARANCE SLIP**, slip which says-John Jones has been cleared by Accounts for one HCA course, April 25, 1965, signature in full of cashier. (HCO PL 15 Mar 65 II) [The above HCO PL was cancelled by BPL 10 Oct 75 V.]

**ACCOUNTS DEPARTMENT**, there are two sections to the **Accounts Department**. One is the Income Section. The other is the Disbursement Section. (HCO PL 6 May 64)

**ACCOUNTS DIVISIONS**, these are: the Income Division and the Disbursement Division. They are in separate areas and are run by different persons. (HCO PL 23 Nov 61)

**ACCOUNTS FILES ADMINISTRATOR**, this staff member will help the accounts assistant with files and in other ways as contained in the administrative directive of the post. (HCO PL 18 Jun 64)

**ACCOUNTS PAYABLE**, 1. accounts of sums payable to a company's creditors. 2. the amounts thus owed to a creditor.

**ACCOUNTS POLICING**, it is the specific duty of the Treasury Secretary in an org to pick up and trace the course of every particle of money through the entire organization, from the time it enters through the mail or with a customer, until it exits from the org as a disbursement or a reserve action. That is quite a job, and it is the most important job a Treasury Secretary has got. It sums up the purpose of the post. It is called **accounts policing**. To **police** something means "to control, regulate, keep in order, administer." The anatomy of **accounts policing** is: (1) **policing** income to ensure that the org is collecting the income from the services that it delivers, and that all org income is channeled into treasury and into the bank without

delays. (2) **policing** disbursements to ensure that financial planning occurs and that only monies which are so designated and authorized are allocated out of the org accounts. (3) **policing** reserves to ensure that the org never spends more than it makes, and that it builds up substantial reserves through excellent control of its income-outgo flows. (BPL 1 Feb 72 1)

**ACCOUNTS RECEIVABLE**, accounts which show money owed by a customer to the company. Depending on the collectibility of these accounts receivable, they may be acceptable as collateral for a loan or sold outright to a commercial factor for a percentage of their value giving the commercial factor the authority to collect and retain the debts thus collected.

**ACCOUNTS RECORDS**, any and all items that may be considered to be **accounts records** meaning: bills, cancelled checks, invoices, receipts, chits, lists, record books, and any other item that may be considered by you to have to do with accounts. (HCO PL 25 Sept 59)

**ACCOUNTS SYSTEM**, a Scn accounts system is simple. It works. It consists of writing an invoice on a four-copy machine for everything received and a disbursement voucher on a four-copy disbursement machine for everything expended, even petty cash, with a completed statement of what Accounts knows of the expenditure. The system consists of four files-one with a file for every creditor, one with a file for every debtor, one with a complete file for every bank account and one with a file for every weekly breakdown envelope. A board with nails on it for pinning up invoices for every category on the breakdown sheet and a book to put income sheets in plus an adding machine and cabinets completes the entire system. (HCO PL 20 Dec 62)

**ACCOUNTS UNIT FOR SAINT HILL**, manages the accounts. Handles all financial

**ACCRUED INTEREST**, interest accumulated by or accrued on a bond since the last interest payment so that the buyer pays the market price plus the accrument.

**ACC SUPERVISOR**, purpose: to ensure for HCO that the administration of an Advanced Clinical Course runs smoothly from beginning to end. That proper quarters are secured in accordance with HCO policy. That all required supplies and materials are acquired and on hand as scheduled. (HCO PL 24 Feb 60)

**ACCUMULATING GRAPH**, an **accumulating graph** merely means you keep adding one day's statistic to those of the day before. (BPL 8 Feb 72)

Accumulating Graph

**ACE FIGHTER TEAMS**, the Battle of Britain has two Ace **Fighter Teams**. Ace **Fighter Team One** is a Division 6 trouble

shooter set of establishers on rotation building up and strengthening org Division 6s to pour new people into orgs. Ace Fighter Team Two is the second prong of the UK group operation. In this **Ace Fighter Team Two**, only seasoned veterans and star fighters will be assigned with CS-6 permission (touring to spread the word on Sen to every town and leaving behind new groups). (BO 37 UK)

**ACID TEST RATIO**, (or quick ratio or liquid ratio) the ratio of total cash, accounts receivable and the market value of saleable investments of a business to its current liabilities, the result acting as a guide to credit rating and establishing a company's ability to handle current obligations.

**ACK**, 1. a despatch thanking the person (for the report) with the report and date of it and some mention of what was in it so he isn't left in mystery as to which one or what it was. (CBO 348R) 2. the first answer to a telex origination may add data which requires a third telex in the cycle. This would be sent by the originator to get done or find out whatever more is needed. This similarly requires a speedy answer. If the originator is now satisfied and has gotten the needed information or compliance desired, he sends the ack, which ends the comm cycle. That "ack7" indicates that the reply was received and thus ends the telex comm cycle. (This takes the place of the nod or smile at the end of the face-to-face comm cycle described in chapter ten of *Dianetics* '55.) (BPL 12 Jun 73R II) 3. this word ends a comm cycle. It is the best way to end a telex comm cycle. It is the final telex on that cycle. (BPL 8 Apr 73 1) 4. the **acknowledged** yellow copy of a communication. (HTLTAE, p. 117) -v. to **acknowledge**. To stamp "ack" and initial. (HTLTAE, p. 117)

Ack (Def. 2)

**ACKNOWLEDGEMENT**, something said or done to inform another that his statement or action has been noted, understood and received. "Very good," "okay," and other such phrases are intended to inform another who has spoken or acted that his statement or action has been accepted. An **acknowledgement** also tends to confirm that the statement has been made or the action has been done and so brings about a condition not only of communication but of reality between two or more people. Applause at a theater is an acknowledgement of the actor or act plus approval. Acknowledgement itself does not necessarily imply an approval or disapproval or any other thing beyond the knowledge that an action or statement has been observed and is received. In signaling with the morse code the receiver of a message transmits an R to the sender as a signal that the message has been received, which is to say acknowledged. There is such a thing as **over-acknowledgement** and there is such a thing as **under-acknowledgement**. A correct and exact **acknowledgement** communicates to someone who has spoken that what he has said has been heard. An acknowledgement tends to terminate or end the cycle of a communication, and when expertly used can sometimes stop a continued statement or

continued action. An acknowledgement is also part of the communication formula and is one of its steps. The Scientologist, sometimes, in using Scientologese abbreviates this to "ack"; he "acked" the person. (LRH Def. Notes) *Abbr.* Ack.

**ACKNOWLEDGEMENT OFFICER**, you have an Acknowledgement Officer who is doing acknowledgements of standard reports coming in. He just plain acks them. (BPL 9 Apr 73 II)

**ACKNOWLEDGEMENT REPORT**, a staff member who does some action which is above the call of duty of his or her post hat may write an **acknowledgement report** on himself detailing what it was he did and how it benefited the org. This is sent to Division 1 for filing in his or her personnel file. In reviewing staff for promotion, such self **acknowledgements** are taken into account in assessing the staff member's responsibility level, along with other data and statistics. (HCO PL 11 Nov 66) [The above HCO PL has been cancelled by BPL 10 Oct 75 IV.]

**ACQUIRE**, to gain possession, ownership or power over something as an acquiring of funds or property.

**ACQUISITION**, 1. the act of gaining possession, ownership or power over something as an acquiring of funds or property. 2. the thing so gained or acquired.

**ACTAD**, 1. action addressee, the person to whom the communication goes for action. (HTLTAE p. 117) 2. **the actad** message has four copies, each of which is under the eye of some individual and each of which is demanding that the message be acknowledged and completed. (HTLTAE p. 88)

**ACTING**, 1. a prefix to a title meaning appointed conditionally and if shows good statistics for a year will become of permanent title. (HCO PL 13 Mar 66) 2. if it is appointed from Saint Hill why then that be-

comes an acting, which is the first rank, and for a while the post is held under an acting status and then is held in a full status. The acting is simply removed. (SH Spec 61, 6505C18) 3. acting is prefixed to a title until checksheets are passed. (FO 79) 4. where other posts are held without qualification above the rating of able bodied seaman or engineman first class the word acting will always be used in writing title and name and these may not be written or used without acting before them, or the letter "A." (LRH Def. Notes circa Aug 67)

**ACTING ETHICS OFFICER**, any Ethics Officer is to be known only as Acting Ethics Officer until he or she has covered the OEC section on ethics and has proven competent on post. (LRH ED 39 INT)

**ACTING FLAG OFFICER**, there is always an Acting Flag Officer. It may be the Commodore, which is signed simply "Commodore," or in his absence it may be one of his deputies. The title Acting Flag Officer means that for that time, he is head of the flotilla, the ships' senior officers and crews wherever they may be, and all connected organizations. (FO 3342)

**ACTION**, Action Bureau. (7012CO4)

**ACTION**, 1. that motion which makes planning an actuality. 2. the carrying out of assigned tasks.

**ACTION AFFLUENCE**, the formula for action affluence is: (1) economize on needless or dispersed actions that did not contribute to the present condition. Economize financially by knocking off all waste. (2) make every action count and don't engage in any useless actions. Every new action to contribute and be of the same kind as *did* contribute. (3) consolidate all gains. Any place we have gotten a gain, we keep it; don't let things relax or go downhill or roller-coaster. Any advantage or gain we have, keep it, maintain it. (4) discover for yourself what caused the condition of affluence in

your immediate area and strengthen it. (LRH Def. Notes)

**ACTION BUREAU**, 1. where an org is in trouble (stats down) the Action Bureau Flag takes it over. Based on searching and accurate evaluation, mission orders are written to correct the outpoints and get the stats up and the org viable. If it is a major situation in a major org the mission goes from Flat to the org. The mission is operated by Flag **Action**. (FBDL 191R) 2. evaluates the extreme condition and establishes the why or decides on special investigation, writes up appropriate mission orders for another liaison bureau to run or briefs and sends, via the Comm Bureau, missionaries, and keeps after the matter until the extreme condition up is understood and published for use or the extreme condition down is gotten back up. (CBO 7) 3. is responsible for the speed and quality of the mission and for operating it while it is out. All missions, immediate, courier, emergency, garrison, go through Action. (FO 2756) 4. the basic purpose of **Action** is planning and emergencies. When all else fails you have to sent it to the **Action Bureau**. Somebody isn't complying with your orders and so forth and your orders being valid orders would have to be implemented by a mission. That's how we force the thing home. (7012CO4) 5. Operations. Called the **Action Bureau** on Flag, they run missions into orgs to handle extreme conditions and to do special projects for clients. Any special service a client might need is handled by them expertly and flawlessly. They must have a pool of management experts to draw from who are fully trained in Flag mission tech. They operate strictly by Sea Org mission procedure. If need be, they can call on org staff who are qualified to go on missions. They have priority. Missions are sent by approved evals only. There is a complete and highly refined technology of mission operation in the Sea Org. (BPL 13 Feb 73R) **6. FOLO Action Bureau** selects missionai-

res from MU, prepares, briefs, fires Flag missions, sends preparations file via External Comm Bureau to Flag and gets missionaries trained and controls the missionary unit. (CBO 192) 7. the Sea Org **Action Bureau** is established in the Office of LRH Flag. It is headed by the Chief of Sea Org Operations. It consists of: Evaluation Branch, Action Orders Branch, Operations Branch. It is clearly the purpose of an Admin Unit to collect, file and compile, post and organize data. And it is clearly the function of the **Action Bureau** to find the situations in that data that urgently need handling, to demand action and obtain a proposal from the Action Orders Branch that can be passed at an aides or assistant aides conference and the Flag Org or continental commanding officer that can then be written up and launched as a mission. (FO 2474) 8. consists of Evaluation Branch, Planning Branch, Mission Preparations Branch and Operations Branch. (CBO 18) **9. Action** has planning, briefing, operations. (FBDL 12)

**ACTION FILES**, it is possible, through a communications system, to organize files so that they are **action files**, so that they are the memory of a mind which thinks. A file should have three sections: (1) the **action file**, which holds a datum that calls for **action** at a certain time, and injects it back into the system at the proper moment, (2) working files, which hold the information that is valuable to the operation, (3) dead files, which could be junked without any loss of value to the operation. (HTLTAE, p. 64)

**ACTION SKILL**, the ability to take the right action to handle a situation.

**ACTIVE**, 1. engaging in Scn full or part time in an org, forming org, city office, franchise or individually in the field. (LRH ED 259 INT) 2. a major issue of the continental magazine must be mailed out every other month to all **active** persons in the files. **Active** means members and **active** files. (HCO

PL 23 Sept 64) 3. (CF and address) the simple test for **active** is do they ever answer? (HCO PL 23 Sept 64)

**ACTIVE FIELD STAFF MEMBER**, one who is in constant communication with his selectees for the purpose of getting them onto the bridge and into the org for service. (BPL 15 Jun 73R I)

**ACTIVE FILES**, are simply "the **files** of those persons who are members and those persons who have been trained or processed and those persons who have expressed a desire to be trained or processed." (HCO PL 8 Apr 65)

**ACTIVE MONEY**, funds that are in active use being exchanged hand to hand within society or those funds being used in business dealings.

**ACTIVITY LEARNING (OR TEACHING)**, a method of learning which requires that one get involved in or carry out the practical aspects of how to do something as opposed to learning straight theory in textbooks and lectures, with little practical application. This can take the form of workshops, field trips, projects, group discussions, etc.

**ACTUALS**, commodities or products traded on a market (i.e. spot market) that one can take delivery of immediately as opposed to futures markets where a commodity becomes available in the future.

**ADDED INAPPLICABLE DATA**, just plain added data does not necessarily constitute an out-point. It may be someone being thorough. But when the data is in no way applicable to the scene or situation and is **added** it is a definite out-point. In using this out-point be very sure you also understand the word *inapplicable* and see that it is only an out-point if the data itself does not apply to the subject at hand. (HCO PL 30 Sept 73 1)

**ADDED TIME**, in this out-point we have the reverse of dropped time. In **added time** we have, as the most common example, something taking longer than it possibly could. (HCO PL 30 Sept 73 1)

Added Time

**ADDED VALUE**, increase in value of an item by reason of production and distribution. *Example:* cloth to manufacture a shirt cost \$1.00 per square yard. Production cost = 509. Distribution cost = 509. Added value per square yard of cloth = \$1.00.

**ADDENDUM**, an addition to a report, book or motion at a formal meeting etc. An addendum does not change the original but adds to it.

**ADDITIVES**, 1. in the period up to 1966 we were plagued by an occasional obsessiveness to add to any process or policy. Additives made things unworkable. (HCO PL 30 May 70, Important, Cutatives) 2. people

add things that aren't there. If it isn't written into the line-up it isn't there. (HCO PL 16 Jan 61)

**ADD-ON SALES**, additional sales made to a customer after a prior purchase. Such sales can account for as much as 50% of a company's income.

**ADDRESS FILES**, see ADDRESS.

**ADDRESS -IN -CHARGE**, under Address-In-Charge, the up-to-date addresses of all persons in the live and inactive files of CF are kept readily useable on a proper address machine. All mailing and mail functions of the organization properly come under **Address-In-Charge**. This is external mailings. The internal dispatch system can also be included here if in use. All franking machinery also comes under **Address-In-Charge** as well as stamps and their safekeeping. (HCO PL 20 Dec 62)

**ADDRESSOGRAPH**, 1. the card file system of central files, and **addresso** plates are tabbed and reflect CF exactly without further card files. **Addresso** gives letter reg card files from the addresso plates. (HCO PL 12 Jan 62) 2. **addresso** is the na-

me-status index of central files. The **address** files contain, ready for use in mailings, all the names in central files and ready reference designations about these people. The **addresses** are normally stored in some sort of **addressing** equipment. Addresso plates are tabbed in such a way that they reflect CF exactly. As a person's grade or training level increases the tabbing is changed to reflect this. Copies of all invoices are routed via reception and **addresso** to CF so that **addresses** can be kept up to date and accurate. Copies of training and processing certificates are sent via addresso to CF so that the tabbing is updated. (BPL 17 May 69R) *Abbr.* Addresso.

**ADDRESSOGRAPH MACHINE**, a machine which prints addresses on mail. It uses little stencils, each of which has a desired address typed on it. It feeds these stencils and the mail through it so that each piece of mail gets neatly addressed with a different address.

**ADDRESS SECTION**, section in Department 2, Department of Communications. Address section handles all address actions and equipment, keeps address files. (HCO PL 17 Jan 66 II)

**ADDRESS UNKNOWN**, if a person's address is unknown, his plate should be removed from active addressograph files until a correct address is obtained, and his CF folder must be marked **address unknown**. (BPL 11 Nov 66R) *Abbr.* add unk.

**ADEQUATE DATA**, a plus-point. No sectors of omitted **data** that would influence the situation. (HCO PL 3 Oct 74)

**ADJUSTMENT DIVISION**, your next **division** after Technical Division is not really Qualifications but Correction. It would be called the Correction Division or the **Adjustment Division**. But Qualifications would also serve. (SH Spec 77, 6608C23)

**ADMIN CHECKLIST**, the head of an org or portion of an org is directly responsible for all admin functions and actions in that org or ist portion. The head of an org (or the HCOES where there is no Commanding Officer) must have routinely (at least weekly) submitted to him a checklist of all admin functions in that org showing their state. This checklist is to contain every basic action of **admin** in that org such as finance summaries to (date), payroll, bills files, tax summaries, CF files, OIC graphs, addresses, FSM commission files, FSM commissions etc. Anything administrative that has to be worked on and kept up must be on that checklist. (FO 2286)

**ADMIN CYCLE**, the correct sequence is: (1) have a normal information flow available, (2) observe, (3) when a bad indicator is seen become very alert, (4) do a data analysis, (5) do a situation analysis, (6) obtain more data by direct inspection of the area indicated by the situation analysis, (7) handle. (HCO PL 15 May 70 II, Data Series No. 5, Information Collection)

**ADMIN CYCLE DRILL**, (1) study and grasp the Data Series PLs. (2) study out the ideal scene for your post, section, department and division. (3) work a stat for post, section, department and division. (4) work out the ideal scene for your org or ship or activity and its stat. (5) work out the ideal scene for the whole SO. (6) work out the stat for the whole SO. (7) work out how your post ideal scene contributes to the whole SO. If not refine your own ideal scene. (8) work out how your stat expresses your own ideal scene. To do this requires a lot of data to be dug up. But when you finish it you really got it. (FO 2584)

**ADMIN DUTIES**, when one says **admin duties** one refers to the org functions. There is a great deal of Admin Org actions for a ship's officer-personnel, personnel control, conferences, FP, con or OOD in port, org

boards, hats, checksheets and packs for division personnel-a lot of purely org duties that prevent a technical officer from doing his job. We put a Deputy Fourth Mate to take care of the org duties of Qual. This has worked out at least to permit the Fourth Mate to C/S and run the technical aspects of the product of the division. (FO 2660)

**ADMINISTER**, "to have charge of; direct: manage." It is taken from the Latin *administrare*, to be an aid to: *ad-*, to + *ministrare*, to serve. From minister, servant. (HCO PL 29 Oct 7III)

**ADMINISTRATION**, 1. (**admin**) A contraction or shortening of the word **administration**, **admin** is used as a noun to denote the actions involved in administering an organization. The clerical and executive decisions, actions and duties necessary to the running of an organization, such as originating and answering mail, typing, filing, dispatching, applying policy and all those actions, large and small, which make up an organization. You will also see the word **admin** in connection with the three musts of a well run organization. It is said that its ethics, tech and **admin** must be "in," which means they must be properly done, orderly and effective. The word derives from *minister*, which means to serve. Administer means to manage, govern, to apply or direct the application of laws, or discipline, to conduct or execute religious offices, dispense rights. It comes from the Latin, *administrare*, to manage, carry out, accomplish, to attend, wait, serve. In modern English, when they use **administration** they mean management or running a government or the group that is in charge of the organization or the state. (LRH Def. ment, materiel and so forth of a production group so as to establish optimum volume, quality and viability. (HCO PL 4 Jun 71) 4. the principles, practices and rationalized techniques employed in achieving the objectives or aims of an organization. We commonly call this "**admin**" as a shortening of it and to designate the work of doing it. (HCO PL 9 Nov 68) 5. a form of communication. Adequate administration consists of keeping certain communication terminals in place and making sure that the proper particles go to and through the proper terminals. (PAB 78) 6. consists of the formation and handling of the lines and terminals involved in production. (HCOB 25 Aug 71) 7. includes promotion, personnel, lines or anything, not ethics, mentioned in policy letters. (FO 495) *Abbr.* Admin.

(HCO PL 29 May 61)

**ADMINISTRATIVE TRAINING DRILLS**, 1. these TRs fall into six categories: (1) MEST TRs 0-4 (2) people TRs 0-4 (3) MEST bull-bait TRs 0-4 (4) people bull-bait TRs 0-4 (5) reach and withdraw MEST (6) reach and withdraw people. The dynamics they cover are 3 (groups) and 6 (physical universe). The purpose of these TRs is to train the student to\* get compliance with, and complete a cycle of action on administrative actions and orders, in spite of the randomities, confusions, justifications, excuses, traps and insanities of the third and sixth dynamics, and to confront such comfortably while doing so. (BTB 7 Feb 71) 2. the purpose of the admin TRs was to drill and train FEBC students to get through the noise created by staff members and to get the job done. (FO 2982)

**ADMINISTRATOR**, 1. one who can make things happen at the other end of a communication line which result in discovered data or handled situations. A very good administrator can get things handled over a very long distance. A mediumly skilled administrator has a shorter reach. As this scale declines we get people who can make things happen only at arm's length. A skilled administrator therefore can be defined as one who can

establish and maintain communication lines and can thereby discover, handle and improve situations and conditions at a distance. (HCO PL 15 Oct 73) 2. an auditor on the third dynamic, only he audits lots of people at the same time. (FO 3005) 3. the terms Administrator and Director of Administration are interchangeable. goals  
purposes  
policy  
plans  
programs  
projects  
orders  
ideal scenes  
stats  
valuable final products.

This scale is worked up and worked down until it is (each item) in full agreement with the remaining items. In short, for success all these items in the scale must agree with all other items in the scale on the same subject. (HCO PL 6 Dec 70) See SCALE OF IMPORTANCE.

**ADMIN TRAINING CORPS**, 1. purpose: to build strong teams of administrative executives for the Sea Org to take it to new heights of production. (FO 3324R-5) 2. the **Admin Training Corps** modeled on the already successful Tech Training Corps

(TTC) is established in each AO/SH, FOLO and CC, and EULO, as training corps for the orgs themselves. (FO 3324) *Abbr.* ATC.

**ADMIN UNIT**, 1. the Admin Unit and CIC are now the Data Bureau. (OODs 15 Aug 70) 2. it is clearly the purpose of an Admin Unit to collect, file and compile, post and organize data. (FO 2474) 3. the "office" or Admin Unit heretofore placed under CS-7 (then CS-9) is now an autonomous unit under the Staff Captain called the Flag Executive Office Unit and the person in charge is the Flag Executive Office Manager. (FO 2381) 4. a person assigned to the Office Manager is an expeditor. The Officer Manager plus expeditors plus Flag Org internal actions makes up the **Admin Unit**. Every duty in the Admin Unit is assigned by functions, not hats. These functions are written up as to how they are done. They are such things as address, posting graphs, briefing, debriefing, mission files, CIC traffic boards, etc. (FO 2379) 5. composed of all clerical and operational personnel. CIC is kept up by the Admin Unit. (FO 2439)

**ADMIN UNIT SPECIALIST**, a person entering the Admin Unit automatically becomes an expeditor and will remain so until trained up on the following functions: stats, posting and pinning, mail logging in and out, CIC filing, excerpting, handling of requests from LRH and aides. When the above training is completed the expeditor is qualified as an Admin Unit specialist. (FO 2493)

(HCOB 8 Oct 71 II) 2. that **organization** which runs the advanced courses. Its production then is OTs. (FO 508) 3. **organization** whose function is to run the Clearing and OT Courses. (FO 1151) 4. Advanced Organizations deal in the upper levels of OT. They are staffed with Sea Org members. They have direct lines to Flag. (FO 1604) *Abbr.* AO.

**ADVANCE ENROLLMENT REGISTRATION**, deals in future business, and is a function of the Advance Scheduling Registrar. The game with future business is to: (1) get the advance scheduling book evenly filled up, and (2) then more full, and (3) to concentrate on persons advance scheduled, keeping them hot, encouraging advance payments, helping them overcome stops, etc., and driving them into the org for service, (4) then keeping Tech advised of what's in the book from week to week and what its future is, (5) and rescheduling those persons who don't arrive on their scheduled date. (HCO PL 28 Nov 71R I)

**ADVANCE! MAGAZINE**, 1. the **magazine** of the Advanced Organization. Its purpose is to sell advanced courses, solo training, books, tapes and meters, and monitor the line of information and reality to those following the route to OT. (FO 688RA) 2. **magazine** mailed by an **advanced** org each month to all persons in their CF. (BPL 20 May 72R)

**ADVANCE PAYMENT RECEIVED**, payment received by an AO (or OTL or ship) from a student in advance of the time when he will use the service. Any payment which results in the student having unused credit in his account can be considered an **advance payment**, whether the student qualifies for a 5% discount or not. For the 5% discount to apply, the student makes his payment well in advance of using the service,, usually prior to his arrival at the org. (FO 1828)

**ADVANCE PAYMENT REPORT**, the Income Department (Director of Income) must fill in the **advance payment report** each week. This report is compiled by taking the total amount of APs unused, adding the APs received this week and minusing the amount of the APs used this week. This will show you the total amount of APs you have unused each week. (HCO PL 26 Nov 65R)

**ADVANCE PAYMENT USED**, 1. the statistic of the Advance Scheduling Registrar is: total amount of **advance payments used** for the week. The definition of **advance payment used** is the total of the week's debit (APU) invoices written against previous advance payments. (Refunds on AP do not count as APUs for stat purposes.) (HCO PL 15 Sept 71 I) 2. any use of services or items (such as bookstore) against existing credit, i.e., for which the student has paid previously. The exact value of that individual service, based on what the student paid for it, is the **advance payment used**. As an example, a student having paid for OT 1-8 as a package, now begins OT 1. The cashier writes a debit invoice for the value of OT 1. at a prorated price consistent with the package price paid by the student. This (debit invoice) amount then becomes an **advance payment used** and is marked as such on the debit invoice. Where and when the student's previous payment was made is not important - - except that the payment must have been received eventually by the Sea Org at one of its AOs, bases or ships before the **payment** can be considered received or used. (FO 1828) 3. APU-this is written on the invoice when the student starts a service for which he has already paid the advanced payment. (FO 2988) *Abbr.* APU. See PREPAYMENT.

**ADVANCE PAYMENT USED PUBLIC STUDENT**, (Flag) the value of AP used by public students whose training is being paid for by themselves and is validly part of delivery sum only on a completion. Org future promises then paid off by orgs do not count as this is a form of student freeloaderism. (FSO 667RC)

**ADVANCE REGISTRATION PACK**, each org has an advance registration pack. Combined AO-SH orgs have a reg pack for AO services and a separate reg pack for SH services. Advanced registration packs are mailed out to persons in CF who have expressed a want to be trained and/or processed. The packs even include filled out sign-up forms for the person's signature and give the person the opportunity to pay for his service in advance or at least make a reservation payment. (BPL 20 May 72R)

**ADVANCE RESERVATION BOOK**, this **book** (also called the **book** of letter scheduling) is a date-order reference of what people are due to arrive when. (HCO PL 18 Feb 73 1)

**ADVANCE RESERVATIONS RECORDS I/C**, mainly concentrates on those people who have made a decision i.e., to come to Saint Hill. Her function is giving information and encouraging the person in all possible ways to get here fast fast fast. Not to be found by their schedule date, as this gives a stuck point in time which is a lie. We want them here now. This terminal pushes, pressures, shoves and gets them here. At this stage the whole concentration is on getting them to enroll. It is also to be understood that this unit totally concentrates on the upstat person. This differs from the Letter Registrar who is weeding out the able from the less able. When an individual has said he is coming, and is eligible for SH, he is then entirely in the hands of the Advance Reservations Records I/C. The Advance Reservations Records I/C mainly concentra-

tes on those people who are coming within six weeks to four months ahead. **Advance Reservations Records I/C** continues writing to people and calling them in, even after they have enrolled. (HCO PL 29 Nov 68)

**ADVANCE SCHEDULING REGISTRAR**, the prime purpose of the **Advance Scheduling Registrar** is: to help LRH schedule and secure individuals by mail in advance for technical services and ensure the future prosperity of the organization. The Advance Scheduling Registrar keeps two large heavy books. One is for students; one for preclears. It is laid out one page per week two years in advance. He receives letters from the letter registrar that are hot prospects and schedules the person promptly and informs him asking for any correction of date. As individuals are scheduled their names and addresses are entered in the book for the week they are arriving. This registrar uses also prepared registration packets which even include sign-up forms and give the opportunity to pay for the service in advance, or at least, make a reservation payment in advance. (HCO PL 21 Sept 65 VI)

**ADVANCE SO ISSUES**, issues sent in Flag mail packs to provide SO Orgs, ships and units with fast information from Flag in advance of bulk issues from their CLO or OTL or mimeo distribution point. They contain: FOs, Base Orders, FCOs. (FO 3124)

Usually designated general non-remimeo. Remain in force until cancelled. (HCO PL 13 Jun 69) [The above HCO PL was cancelled by BPL 10 Oct 75 VII.]

**ADVISOR**, the executive secretaries have one Advisor for each of his or her divisions who operate as liaison officers. An Advisor has the rank of officer. The **Advisor** advises the executive secretary not the division he is in liaison with and issues no orders with his own authority and uses only the authority of the executive secretary even in conversation or letters. He must be given express orders to issue by the executive secretary even though he in fact writes them. An **Advisor** is really an aide to the executive secretary for the division he is appointed to advise upon. The **Advisor** is there to lighten the executive secretary's burden in all possible ways as they relate to the area of responsibility for which the **Advisor** is named. The executive secretary usually seeks the **advice of an Advisor** before handling a situation in that Advisor's type of division but is in no way bound to take it, whereas the **Advisor** is bound to issue and get executed any orders expressly given by the executive secretary. (HCO PL 20 Jan 66 II)

**ADVISORY**, the title **advisory** where used as a helper to an executive secretary is changed to "(HCO or Org) Exec Sec Communicator for (division represented)." (HCO PL 21 Jan 66)

**ADVISORY COMMITTEE**, **1. an Advisory Committee**, as the **advisory** group of a division, meets every Friday about 5:30 PM and conducts its meeting on the statistics of the division for the week ending Thursday 2:00 PM (the day before). The Ad Comm assigns conditions for its departments, sections and persons for the division in accordance with statistics and confirms any personnel appointments or transfers or dismissals. (HCO PL 11 Jan 66) **2. an Advisory Committee** exists for each division in the org (seven) and is advisory to the Ad Council and is appointed by the Ad Council of the org and consists of the secretary of the division and the three directors (heads of departments) or in an Executive Division, the

three office coordinators of the three executive division offices, who are the same as directors but have a different title. (HCO PL 13 Mar 66) 3. there will be one **Adcomm** for each division except Division 7. It will be composed of the three directors of the division or their representatives, and chaired by the secretary of the division or his or her representative. The Divisional Adcomm has ready the statistics of the division and takes these up in an effort to improve them. The entire purpose of the Adcomm is to arrange to improve statistics for its departments, sections and units. The period taken up is the week closed on Thursday. (HCO PL 12 Aug 65) 4. Advisory Councils are senior to **Advisory Committees**. An Adcouncil runs the whole org, an Adcomm runs only one of its divisions. (HCO PL 13 Mar 66) 5. Adcomms establish and assign statistics for their departments and sections or units and individuals. (HCO PL 12 Oct 65) 6. the basic purpose of an Adcomm is to advise the Assoc/Org Sec on promotional matters relating to the various departments. (HCO PL 9 Sept 64, Purpose of Adcomm) 7. purpose: to advise the executives of the organization as to the needed changes and policies. To act as a meeting ground of department heads. (HCO PL 8 Apr 57) *Abbr.* Adcomm.

**ADVISORY CONFERENCE**, a group meeting at which new or altered policy or plans of action are suggested or advised for use but which does not necessarily formulate definite recommendations.

**ADVISORY COUNCIL**, 1. the income of the org and its delivery is the primary busi-

ness of an **Advisory Council**. When it has accomplished its business in this it may then consider the limitation of expenditures. The **Advisory Council** planning is expressed in an executive directive drawn up for executive council approval. This usually covers the coming week but may also take up longer range planning. **Advisory Council** collects up all divisional FP submissions, sees to it that those things necessary to execute its planning have been FPed for, sees that at least 15% of the allocation is allotted to promotion and that there are adequate promo items to utilize this 15% without waste. This is the extent of Advisory Council in financial planning. The divisional FP submissions and the completed checklist with **Advisory Council** proposals and all work papers are then forwarded to executive council for approval. (HCO PL 23 Jun 75) 2. does income and delivery planning. (HCO PL 23 Jun 75) 3. the **Advisory Council** of an organization shall be composed of the heads of divisions and various representatives, duly elected, of field auditors, students, preclears and public bodies and representatives of subordinate organizations and a representative of the senior organization or, in case of the highest **Advisory Council**, a representative of the senior officer of Scn and the Board. Executive secretaries may not be members of the **Advisory Council**. All representatives of an **Advisory Council** must be elected to it by a majority vote of the **Advisory Council** and the appointment confirmed by the two executive secretaries, on submission of the results of election by the Secretary of the **Advisory Council**. Exception: heads of divisions are automatically appointed to the **Advisory Council**. The **Advisory Council** purpose is: to advise the executive secretaries or executive council as to required directives and policies and to implement directives and policy for approval and to examine statistics and conditions and implement remedies or intensification for approval and to originate and recommend for approval promotion i-

deas. (HCO PL 21 Dec 66 1) 4. **Advisory Councils** are senior to Advisory Committees. An **Adcouncil** runs the whole org, an **Adcomm** runs only one of its divisions. **Advisory Councils are advisory** to the Board of Directors or the Executive Director or the Guardian and have no other powers. They cannot open or close bank accounts or change corporate status. They are appointed by a senior **Adcouncil** or the Executive Director or the Guardian. An **Adcouncil** consists of the two executive secretaries of an organization and the Executive Director. (HCO PL 13 Mar 66) 5. it is composed of the HCO Executive Secretary and the Organization Executive Secretary and is understood to include LRH. Receiving all Adcomm statistics, the **Advisory Council** determines the states of conditions of the organization, each division or separate departments, and publishes the states assigned as from the Office of LRH. The **Advisory Council** does all minor planning and adjustments necessary as an executive admin letter, local. Should large changes be envisioned, the change must be authorized by LRH also and is issued as a SEC ED from Saint Hill. (HCO PL 12 Aug 65) 6. at WW, the prime concern of the **Advisory Council** is the competence of executive secretaries of other organizations in keeping their divisions going well. In Area Orgs the concern of the Advisory Council is the competence of divisional secretaries, in keeping their divisions going well. All actions are taken only on statistics. (HCO PL 21 Jan 66) 7. handles the gross divisional statistics, looking for steep ups (to assign affluence) or steep downs (to assign emergency). (HCO PL 30 Sept 65) 8. we will call the **Advisory Council the Ad-Council**, never *AdCoun*, to avoid any errors in confusing it with Adcomm. (HCO PL 30 Sept 65) 9. is composed of bureaux deputies who head internal bureaux functions on Flag, formerly division heads. (ED 1 Flag) 10. that body of executives in immediate charge of an organization subject to supervi-

sion by a further governing authority. (HCO PL 1 Nov 66 II) 11. purpose: to advise the executives of the organization as to needed changes and policies. To act as a meeting ground for department heads. To assemble and report the statistics of finance and action to the Executive Director. To advance ideas for promotion and improvement. (HCO PL 27 Nov 59) *Abbr.* Ad council.

**ADVISORY COUNCIL CHECKLIST**, an **Ad Council** must know every corner of the org's marketing, promotion, pricing, sales and delivery. This means surveys, pricing and things to sell. Things to promote. How to promote and who can one reach (CF, address, new publics). How to sell. How to deliver. How to get in repeat business. These actions have been assembled into an **Advisory Council checklist**, BPL 22 June 1975. Use of this checklist now becomes mandatory for **Ad Council** who may not touch expenditure matters until it has reviewed all points of the checklist and formulated an income planning which forces in promotion, delivery, and sales, and which remedies the weak points and removes the barriers to achieving these. The checklist serves as a guide to direct Ad Council's attention to vital areas, but may not be taken to supplant policy. (HCO PL 23 Jun 75)

**ADVISORY COUNCIL WW**, the **Advisory Council World Wide** meets every Wednesday afternoon. Its procedure is as follows: it takes up the Adcouncil SH minutes and passes or alters them and sends them on to the Executive Director for OK as a SEC ED. The **Adcouncil** then takes up the statistics of the International Division itself. It issues any orders as a SEC ED and forwards it to the Executive Director for approval and issue. It then takes up international statistics org by org and draws up general SEC EDs WW or individual SEC EDs for orgs and sends them to the Executive Director for approval and issue. (HCO PL 11 Jan 66)

**AFFILIATION**, the establishment of a close relationship with; a joining or connecting up so that the parts or branches so connected come under common control.

**AFFLUENCE**, sudden peaks of income (SH Spec R9 RRORC195)

Affluence

**AFFLUENCE ATTAINMENT**, consists of: (1) hard work, (2) in ethics, (3) standard tech, (4) doing the things that won, not new things untried as yet, (5) applying the formula of the condition one is in. (HCO PL 13 Nov 72)

**AFFLUENCE FORMULA**, (1) economize. Now the first thing you must do in **affluence** is economize and then make very very sure that you don't buy anything that has any future commitment to it, don't buy with any future commitments -nothing. That is all part of that economy, clamp it down. (2) pay every bill. Get every bill that you can possibly scrape up from any place, every penny you owe anywhere under the sun, moon and stars and pay them. (3) invest the remainder in service facilities, make it more possible to deliver. (4) discover what caused the condition of affluence and strengthen it. (HCO PL 23 Sept 67)

**AFTER SERVICE INTERVIEW**, an individual completing a major service is routed from Success to the registrar via the Promotion Department for an "**after service**" interview. Every single person has a story to tell of a major win or interesting occurrence from applying Scn technology, but the results being obtained and the wins in tech are unknown to promotion people. To remedy this situation, a line is established in order that promo people: (a) get data for current and future promotion of Scn and org services, and (b) are well informed of the wins and successes through the application of Scn technology. (BPL 22 Dec 7III1)

**AGAINST ORGANIZATION**, "**against organization** or posts and protesting at org behavior or existence." (HCOB 19 Aug 63)

**AGAINST SCIENTOLOGY**, attention off **Scn** and protesting Scn behavior or connections. (HCOB 19 Aug 63)

**AGENDA**, that which is placed before a committee, meaning a table of actions. (7201CO2 SO)

**AGENT**, one who has the power or authority to act for or represent another as in the acquisition or disposal of goods, property, services, funds, etc.

**AGENT FOR GREAT BRITAIN**, [HASI was a foreign corporation doing business in UK. As such it had to have a designated **agent** responsible in law for the activities of the corporation in the UK. This is because without a legally assigned representative (called **agent**) the corporation would have no legal identity in the foreign country.]

**AGFA GEVAFAX**, photocopier machine. (FO 2152) [Agfa Gevafax is a brand name of a photocopier machine.]

**AIDA**, attention, interest, desire and action. These four things have been isolated as necessary ingredients to successful sales. A number of sales training courses are built around AIDA.

**AIDE**, 1. an aide in a bureau (Flag, CLOs, OTLs, Org Liaison Office) is defined as the bureaux specialist and leading officer for that division, internal and external, in all its functions. Aide is the title of a Flag Staff Officer on Flag. "Assistant aide" is the title in a CLO. The org equivalent in duties and hat is a divisional secretary. In the case of an aide it is understood that the person **aided** is the Commodore. In the case of an assistant aide, the person **aided** is the Flag aide. (CBO 52) 2. an aide has a certain exact part of the functions of the org board to handle and keep going in all Scn, SO and Scn orgs. They could be considered the head of a division or function of a planet-wide org board. When that part of the planet-wide org board declines or is in trouble, it is the aide who is held responsible. Similarly, when the area is upstat it is the aide who is commended. (FO 2945) 3. an aide, by definition, has to be an expert on the Data Series and how to conduct investigations. Otherwise an aide will consistently operate on "whys" derived from a dispatch line. The bulk of an aide's duties should consist of discovering, tracing, finding the data about and the real whys of situations and then getting ideas to handle them and programming and handling them. The remaining time at the disposal of an aide should be spent in implementing programs that have already been released to handle things and getting them in fully and completely. (FO 3064) 4. the duties of an aide and an assistant aide could be broken down roughly into the following categories: (1) assistance to the Commodore, (2) assistance to their FB and CLO seniors, (3) administrative duties (including dispatches), (4) evaluations, (5) programming, (6) implementation of existing programs including logging compliances, (7) conference duties, (8) executive responsibility to juniors, (9) inspections and assistance in the nearby service org on those functions which apply to their post so as to maintain and continue familiarity with the existing scene. (FO

3064) 5. an aide in the Flag Bureaux is required to do the following evaluations each week using the data available in the Data Bureau and applying the technology of the Data Series: (a) each branch of their own bureau at Flag based on the international stat of Scn organizations (plus franchise for CS-6), (b) each branch of their own bureau at Flag for Sea Org organizations based on the international Sea Org stat, (c) each assistant aide in CLOs covering their division or activity, (d) their divisional continental stat for each continental area. (FO 3064) 6. it is clearly the function of aides and assistant aides to manage their opposite numbered divisions over the world. (FO 2474) 7. there are now six aides to the Commodore. These are: CS-1, CS-2, CS-3, CS-4, CS-5, CS-6. (FO 795) 8. the primary purpose of a Commodore's Staff Aide is to forward the actions and targets established by the Commodore and to assist him in accomplishing these. The next important purpose is to assist the Commodore in the planning and establishment of actions and targets. (CS Order 71) 9. Aide is the title of a Flag Staff Officer on Flag who aids LRH with respect to a particular division, bureau, or zone of activity. (BTB 12 Apr 72R) 10. International Secretary. (HCO PL 7 Mar 72)

**AIDE'S COMMUNICATOR**, all **communications** to any aide from any terminals other than staff must be routed via that **aide's communicator**. The **Aide's Communicator** sorts out all dev-t and handles as per dev-t policy. All out-going comms from aides to terminals other than staff go via the **Aide's Communicator** for logging orders. (FO 1548)

**AIDES CONFERENCE**, (DOC and **Aides Conference**) these fail by misuse. They are bodies to approve or modify prepared CSW of members for passing by higher authority. They are not planning bodies which originate. It can approve, reject or modify. Its individual members prepare CSW for the com-

mittee before its meeting. Authority senior to the committee is then assisted. The whole upset with committees is they are used wrongly. They are not there to plan. They are there as individuals to be informed and have a say in modifying or approving or rejecting material drawn up before. This is also true of the Aides Conference, FOs and PLs sent direct to me, for instance, is a committee or conference by-pass. These deny information and a say to all the other aides. Also I often have to submit them back to other individual aides to see if it is all right—a function of the **Aides Conference**. (FO 2653)

**AIDES COUNCIL**, 1. it is a coordinating body for an evaluation. It is a coordinating body so that somebody isn't trying to do something that somebody else is doing. They should be doing an evaluation of what should be evaluated, so that nothing gets away from it. (7205C18SO) 2. the aides and the pure bureau functions are all devoted to a body called the **Aides Council**, which is engaged in management of external orgs. (ESTO 2, 7203COI SO 11) 3. an **Aides Council** or **A/Aides** (or International Secretary or Assistant International Secretary) Council is held as (1) a product conference or (2) a program conference or (3) an establishment conference, but never two or three of these at the same time. (HCO PL 7 Mar 72) 4. the aide or assistant aide in the CLO is a member of the **Aides Council**. Such a **council** is used for briefing and for recommending. A **council** handles situations by spotting them and requiring evaluations, plans and programs. The **council** reviews old programs and progress on them. (CBO 52) *Abbr.* AC.

**AIDES LEVEL**, the business you're in (aides) is putting up the stats of orgs. The action in which you're engaged, is find an org that has been responsible for income in the past and evaluate it, and that's at **aides level**, and that's what's known as Staff. Evaluations

and MOs would be at aides level, Staff Aides. (7205C18SO)

**AIDES ORDER**, 1. covers external matters having to do with FOLOs and outer orgs. Usually contains evaluations by myself or Flag management personnel. The program of an evaluation is sometimes issued as an FPGMO issued to senior executives on Flag and personnel concerned. They are numbered by area to which they apply. (HCO PL 24 Sept 70R) 2. the basic order form of Flag is the **Aides Order**. This is an evaluation done by a Flag evaluator. It contains targets. (HCO PL 7 Aug 73 1) 3. all programs and projects come from evaluations. They are the handling part of the evaluation in the program or project. These evaluations are issued as **Aides Orders**. (CBO 218RB) 4. Aides Orders cover external matters having to do with CLOs and outer orgs, or whenever orders refer to both internal and external. Aides Orders are not exported: they go only to bureaux personnel and those on Flag who might be concerned in the order. (ED 1 Flag) *Abbr.* AO.

**AIMS**, the organizational goals and intentions. These are usually expressed in the policies of the organization.

**ALERT COUNCIL WW**, these eight posts work in close liaison and must meet weekly as the **Alert Council WW**: International Communications Officer, International Ethics Officer, International Admin Officer, International Special Programs Execution Officer, International Promotion Officer, International Technical Officer, International Declarations Officer and the International Treasurer WW. This **council** has advisory powers and is to draw up weekly for the LRH Comm WW, the Guardian WW and the HCO and Org Exec Sees WW an alert bulletin org by org giving a prediction of good expansion or trouble or contraction based on their respective fields of comm, ethics, admin pattern, tech, programs execu-

tion, public expansion and money with recommendations for any action in each org or generally. They are then to execute the action as individual officers when it is approved or as modified unanimously by the executives to whom it is sent. (HCO PL 21 Sept 67 International Officers at WW, Alert Council)

**ALERT OFFICER**, 1. the major stats of an org are plotted in big stat books. The gross divisional stats are plotted in folders. These are gone through carefully each week by an **Alert Officer**. He is looking for dangerous stat situations or extremely good ones. All this information is written up in a published weekly Data Bureau stat report. (FBDL 192R) 2. **officer** trained up to spot orgs in trouble or orgs shooting the moon and to make sure situations do get handled. (OODs 4 Jun 72) 3. the **Alert Officer's** main duty is to find the things that need to be handled. The first thing he looks for is down stats. The second thing he looks for is unanswered comm-he ensures that Program Chiefs take care of the correspondence in the Data Bureau folders. He would also find high stats that need to be reinforced. He ensures the relevant terminals are informed of all these situations and maintains the necessary administrative procedures to see they are located, called to attention and handled. A routine duty of the **Alert Officer** is the weekly stat summary. (CBO 204)

**ALL AUDITORS ACTION**, whenever an org has a Tech or Qual backlog it is usual to call an **all auditor action**. Any admin personnel assist with scheduling and getting PCs in to the **auditors** without making PCs wait or wasting an **auditor's** time. All tech trained personnel in the org devote a certain number of hours in the day to delivering **auditing** for Tech or Qual and spend a certain amount of time on their regular posts until the backlog is gone. Too many of these "**all auditors**" can cut an org to bits. They

are only done so long as there is a backlog. (LRH ED 49 INT)

**ALL HANDS**, an action requiring a huge burst of activity is called an **all hands** action. Thus a mailing to be stuffed in envelopes and mailed, a huge doorbell ringing campaign to get individual purposes, a big drive to persuade civic groups by individual calls-all these are **all hands** actions. (HCO PL 3 Dec 68)

**ALLOCATION**, how much one can pay or is going to pay (ED 459-28-1 Flag)

**ALLOCATION**, 1. a sum of money or a quantity set aside or allotted for a specific purpose. 2. the calculation of the correct amount of personnel, materials, machines or finances needed to obtain the planned results.

**LLOCATION BOARD**, in Department 1, an **allocation board** is kept which shows vacancies. This **board** is a piece of cardboard which shows all divisions and departments of the org board aligned such as the org board. It is kept by personnel procurement and when a request for a staff member comes in, the personnel procurement officer writes on a small strip of paper the post that is vacant and who requested the personnel on the reverse side of the paper. A pin is then stuck through the end of the paper and it is stuck in the department where the vacancy is. At the top of each division and department is the maximum quota of personnel authorized for that department or division by the Ad Council and the current number of persons in the department concerned and the division. (HCO PL 14 Jan 66 II)

**ALLOCATION PRODUCTION RATIO**, the FBO has as a statistic the **allocation production ratio** of the org. If his **allocation** buys VFPs, he can expect a rising **allocation production ratio** statistic. Normally, this is assured by the use of an **allocation**

system which **allocates** against VFPs. (BPL 4 Sept 71R)

**ALLOCATION SUM**, 1. calculated by subtracting from gross income any bounced checks or refunds, book moneys, and "reimbursement" type receipts (payments for phone calls, postage, etc., by students or crew). **Allocation** percentages are then calculated from this figure. ' (FO 1980) 2. that figure from which percentage- **allocations** are derived. The **allocation sum** is gross income after adjustments have been made (per FO 1681) for bounced checks, refunds, advance payments received, advance payments used, and book monies. Also called "net income" or "corrected gross income." (FO 1828) 3. the **allocation sum** for AOs (also called "corrected gross income" or "net income") is defined as: gross income less advance payments received, plus advance payments used. There are also adjustments for refunds or returned checks on services *used*, and a deduction for book income. The final result is the **allocation sum**, from which the allocation percentages are then derived. (FO 1681) 4. the gross income less the congress, books and tapes sum. (HASI PL 19 Apr 57 Proportionate Pay Plan)

**ALTERED COMPLIANCE**, a type of dev-t where something was introduced or changed in the orders which made them non-optimum. This sometimes wastes and repeats all earlier traffic. (HCO PL 27 Jan 69)

**ALTERED IMPORTANCE**, an **importance** shifted from its actual relative **importance**, up or down. An out-point. (HCO PL 19 Sept 70 III)

**ALTERED SEQUENCE**, any things, events, objects, sizes in a wrong sequence is an out-point. The number series 3, 7, 1, 2, 4, 6, 5, is an altered sequence, or an incorrect sequence. Doing step two of a sequence of actions before doing step one can be counted

on to tangle any sequence of actions. (HCO PL 19 Sept 70 III)

Altered Sequence

**ALTER-IS**, 1. a composite word meaning the action of **altering** or changing the reality of something. Is-ness means the way it is. When someone sees it differently he is doing an alter-is; in other words, is altering the way it is. (LRH Def. Notes) 2. alteration of orders and tech is worse than non-compliance. **Alter-is** is a covert avoidance of an order. Although it is apparently often brought about by non-comprehension, the noncomprehension itself and failure to mention it, is an avoidance of orders. (HCOB 22 Mar 67) 3. uncertainty comes totally from lack of understanding. Understanding is barred out by the misunderstood word. All **alter-is** comes after the misunderstood word. (LRH ED 154 INT)

Alter-is (Def. 1)

**ALTER-IS REPORT**, staff member **report** of the **alteration** of design, policy, technology or errors being made in construction. (HCO PL 1 May 65)

**AMENDS PROJECT**, an individual may clean his own file by approaching ethics and offering to make amends. Any **amends project** must benefit the org and be beyond the routine duties. It may not only benefit the individual. Offers to "get audited at own expense in Review" are acceptable as auditing will benefit everyone. No work one would normally do himself on post is acceptable **amends**. Doing what one should do anyway is not **amends**, it is the expected. No org funds may be employed in an **amends project**. (HCO PL 1 May 65)

**AMERICAN COLLEGE OF PERSONNEL EFFICIENCY, DUBLIN**, this establishment and its personnel cease to be in any way connected with the admin or information lines of HASI London, Founding Church D.C., or HCOs. This entire establishment reverts to status of Field Audi-

tor. (HCOB 3 Nov 58) [This college, located in Dublin, Ireland, gave PE lectures and functioned to introduce people to Scn.]

**ANALYSIS**, the breakdown of anything into clearly definable and understandable parts and the study of the relationship of the parts to the integrated whole. **ANALYSIS, COST-BENEFIT**, the evaluation of the worth of company benefits against costs so as to make choices that will give maximum benefits at minimum cost.

**ANALYSIS, COVERAGE**, a mathematical procedure to discover and establish the optimum stock levels to be carried by an organization in order to minimize stock costs while still meeting a standard level of production.

**ANALYSIS, CRITICAL PATH**, sophisticated evaluation technique wherein a complete plan is made for a project as to sequence of tasks involved, provisions for labor, material and overhead costs, tight time schedules and regular checks to be done at various stages along the way. Once in operation, reports on progress and results are made so that corrections of any variance or bottlenecks may be done at once. *Abbr.* CPA.

them as to the principal tasks they hold in common sufficiently to be able to group them under broader occupational titles such as sales, service, clerical, etc.

**ANALYSIS OF FAULTS**, in repair or conversion of a ship, never repair a thing to fail the same way again. Do not be afraid of solving. If gauges break, don't just replace them. Find out why they broke. Be sure you have the real answer. Fix that; then replace the gauges. Don't keep leaving the same error in. It is a very expensive practice. It means continual repair bills doing the same repair over and over. Find and correct why it has to be repaired! If something is broken find out why it broke. Don't just put it back to be broken again. Eradicate the **fault!** (Ship's Org Bk.)

**ANALYSIS, PRODUCT**, market research study of products that finds out which product features are most valued by consumers, develops new products and improves old ones so they are suited to new uses.

Also called technical research.

**ANALYST**, a person who can break something down to its component parts, study them and establish the relationship of each of the parts to the others and to the integrated whole. He would then be capable of re-

commending desirable changes or improvements to increase productivity or efficiency, reduce cost or errors in personnel or equipment, etc.

**ANALYTIC METHOD OF SELECTION**, see SELECTION, ANALYTIC METHOD OF.

(2) such a person deals mainly in bad news, critical or hostile remarks, invalidation and general suppression. (3) the **antisocial personality** alters, to worsen communication when he or she relays a message or news. Good news is stopped and only bad news, often embellished, is passed along. (4) a characteristic, and one of the sad things about an **antisocial personality**, is that it does not respond to treatment or reform or psychotherapy. (5) surrounding such a personality we find cowed or ill associates or friends who, when not driven actually insane, are yet behaving in a crippled manner in life, failing, not succeeding. (6) the **antisocial personality** habitually selects the wrong target. (7) the **antisocial** cannot finish a cycle of action. (8) many **antisocial** persons will freely confess to the most alarming crimes when forced to do so, but will have no faintest sense of responsibility for them. (9) the **antisocial personality** supports only destructive groups and rages against and attacks any constructive or betterment group. (10) this type of **personality** approves only of destructive actions and fights against constructive or helpful actions or activities. -(11) helping others is an activity which drives the **antisocial personality** nearly berserk. Activities, however, which destroy in the name of help are closely supported. (12) the **antisocial personality** has a bad sense of property and conceives that the idea that anyone owns anything is a pretense made up to fool people. Nothing is ever real-

ly owned. (HCOB 27 Sept 66) 2. the suppressive person. You, in speaking of it, actually marry up with old technology because they have looked for this fellow called the **antisocial person** for a long time. Freud used the term. Psychologists use the term. They've used the term for a long time. They know there is such a person called the **antisocial personality** and this is the personality for which they have been groping. We're calling it a suppressive because it is more explicit. (SH Spec 78, 6608C25)

**A01 FORM**, see FORM A01.

**A02 FORM**, see FORM A02.

**A03 FORM**, see QUALIFICATIONS FORM A03.

**ARC**, a word from the initial letters of **Affinity, Reality, Communication**, which together equate to understanding. It is pronounced by stating its letters, A-R-C. To Scientologists it has come to mean good feeling, love or friendliness, such as "He was in ARC with his friend." One does not, however, fall out of ARC, he has an ARC break. (LRH Def. Notes)

**ARC BREAK**, a sudden drop or cutting of one's affinity, reality or communication with someone or something. Upsets with people or things come about because of a lessening or sundering of affinity, reality or communication or understanding. It's called an ARC break instead of an upset, because, if one discovers which of the three points of understanding have been cut, one can bring about a rapid recovery in the person's state of mind. It is pronounced by its letters A-R-C break. When an ARC break is permitted to continue over too long a period of time and remains in restimulation, a person goes into a "sad effect" which is to say they become sad and mournful, usually without knowing what is causing it. This condition is handled by finding the earliest ARC break on the chain, finding whether it was a break in affinity, reality, communication, or understanding and indicating it to the person, always, of course, in session. (LRH Def. Notes)

**ARC BREAK AUDITOR**, see ARC BREAK PROGRAM.

**ARC BREAK PROGRAM**, I routinely order orgs to pick up and smooth out at any org expense every **ARC broken** PC they can find in their files or areas as a special program. They put in an ARC break registrar who liaisons with accounts and with review and with CF searching for ARC broken PCs and students. A special genned-in full time auditor is put in review and at no charge to PCs is kept busy on ARC breaks only with it being an ethics offense to use

him or the **ARC Break** Registrar for any other student, PC or duty. And you clean up the whole field from years and years back. This ARC break auditor cures the ARC breaks with Level III tech and sends the person to the usual registrar when done. This is his stable datum: if your PC is not smiling and happy at the end of session you are not auditing. The ARC Break Registrar has a special dual stat-how many ARC broken PCs have been found, in files, etc., how many contacted. The ARC Break Auditor has a special dual stat-how many ARC breaks (not PCs) found, how many handled. (ED 473 WW, 842 SH)

**ASSISTANT TO THE ORG SEC FOR ACCOUNTS**, manages the Accounts Unit and is in full charge of its personnel. (HCO PL 18 Dec 64, Saint Hill Org Board)

**ASSISTANT TO THE SUPERCARGO**, to prevent the Supercargo from continually going into non-existence, due to having many duties ashore and ship duties becoming neglected a new post is created-named, Assistant to the Supercargo. This person handles ship duties for the Supercargo while she is ashore and is to ensure the smooth running of the post. The Supercargo and Assistant to the Supercargo may never be ashore at the same time. Assistant to the Supercargo also handles all the clerical work: typing, filing, etc., and can also be ashore on duties providing the Supercargo remains aboard. (FO 489)

**ASSIST AUDITOR**, he's just an Assist Auditor. He gives touch assists and runs out the last automobile accident and the delivery and something, something, something. That's all he does. It's usually one of the better wordclearers. He's also assigned the double hat of Assist Auditor. (ESTO 11, 7203CO6 SO I)

**ASSOCIATED COMPANY**, see COMPANY, ASSOCIATED.

**ASSOCIATE MEMBER**, 1. (Gung-ho Group) one must sharply differentiate in

giving out membership cards between the contributor of money or things and the action member, by always calling the money contributor an "associate" or "patron" and the time and effort contributor a "full member" or a "true group member" or an "active member" on the card. An active member should have a full credentials card with picture, thumb print and description. An associate just a name typed on a card. (HCO PL 3 Dec 68) 2. giving money or things to a group are both a form of participation and contribution. But while this is an important matter, it does not involve actual action. Thus a contributor of money or objects to a group is yet withholding himself and his time. One should seek contribution of money and things. But the status granted for this is that of patron or associate, not of a true member of the group. (HCO PL 3 Dec 68) 3. receives no discounts or services, pin and card only. (HCO PL 26 Oct 59) 4. a member without time limit of Scn. An **associate member** does not receive publications but does receive a pin and a membership card. (PAB 74)

**ASSOCIATION SECRETARY**, 1. in early days there was an HCO Secretary in charge of the functions of the first three divisions (Executive, HCO, Dissemination) and an **Association Secretary** in charge of the functions of the last four divisions. The org board evolved further and the HCO Executive Secretary became the person in charge of the functions of the first three divisions and the Organization Executive Secretary the last four. In the Sea Org these titles became Supercargo and Chief Officer but the functions were similar. (HCO PL 9 May 74) 2. Organization Secretaries (US and Saint Hill) or **Association Secretaries** (Commonwealth and South Africa). (HCO PL 5 Mar 65 II) 3. the **Association Secretary** runs the Central Organization. He is usually assisted by a secretary who expedites his communications, writes his letters and gets in his

reports for the OIC and keeps it. (HCO PL 20 Dec 62) 4. proper operation, willing performance of duty of its executives and personnel, its ample financial solvency and general high effectiveness of the technical and administrative functions of the Central Organization are all the responsibility of the Association Secretary. (HCO PL 20 Dec 62) 5. the Association Secretary is looked upon to keep the organization in existence and functioning at a high level. HCO helps but the final responsibility of keeping an organization going is the **Association Secretary's**. (HCO PL 14 Feb 61, The Pattern of a Central Organization) 6. the **Association Secretary** or Organization Secretary has full authority over his or her organization and personnel. It is his or her task to cope when policy does not exist, to hold the form of the organization, to keep it busy and prosperous and its morale high. (HCO PL 31 Jan 61, Spheres of Influence) 7. procures persons, puts them bodily on post, puts the person's hands on the equipment or MEST of the job, handles pay, supervises the actual conduct of the work (gets the work done), sees that the proper hours are kept, etc., and changes, transfers, or dismisses the personnel. (HCO PL 27 Feb 59) 8. purpose: to execute policies and orders. To coordinate organizational activities. To care for legal and public concerns of the organization. (HCO London 9 Jan 58) *Abbr.* Assoc Sec, Assn Sec.

**ASSURANCE**, often used as a synonym of insurance. Assurance policies normally cover the occurrence of inevitable events which will occur at an unknown time. Life assurance is such an example. Insurance policies connote protection against random or chance mishaps occurring at any time. Fire or theft insurance is an example.

**ATHENA**, 1. formerly the *Avon River*. (6903C27 SO) 2. was phased over from a training vessel to a cramming vessel on 19 Jan 1972. The basic plan was to have a place where a rapid (one week) cramming action

can take place for SO and EU Org staff members to get them in on their posts and scene and on such things as translated tape use, tape recorder use, correct auditing comm cycle, and other short cycle matters and expertise they vitally need in their orgs. (FO 3132)

**A TO I HAT**, hat content. A hat must contain: (a) a purpose of the post. (b) its relative position on the organizing board. (c) a write-up of the post (done usually by people who have held it before relief and when so done it has no further authority than advice). (d) a checklist of all the policy letters, bulletins, advices, manuals, books and drills applicable to the post (as in a course checklist). (e) a full pack of the written materials plus tapes of the checklist plus manuals or equipment or books. (f) a copy of the organizing board of the portion of the org to which the post belongs. (g) a flow chart showing what particles are received by the post and what changes the post is expected to make in them and to where the post routes them. (h) the product of the post. (i) the statistic of the post, the statistic of the section, the statistic of the department and division to which the post belongs. (HCO PL 22 Sept 70)

A to I Hat

**A TO J**, types of persons who have caused us considerable trouble. These persons can be grouped under "potential trouble sources." (HCO PL 27 Oct 64)

**ATTESTATION**, 1. to assert the validity of by oath or testimonial. 2. the signing of a written statement that asserts the validity, occurrence, genuineness, value, completion, etc., of something. 3. the signature itself.

**ATTITUDE**, the opinion one holds or the behavior one expresses toward some person, place, thing or symbol as a result of the concept he has of it. Attitudes can be changed through public relations, advertising, education, realization or the like.

**ATTITUDE SURVEY**, a survey designed to isolate the attitudes a person has to new or existing products, other people, the organization he works for, etc.. etc.

**ATTRITION**, 1. a gradual breaking down due to friction or erosion. 2. a reduction in strength due to constant stress. 3. the reduction of staff in an organization due to unavoidable circumstances such as old age, retirement, death, etc. 4. a gradual decrease in salary levels paid due to hiring personnel at lower wages than their predecessors. This occurs because new staff do not qualify for the additional wages provided in an incremental payment system due to lack of seniority, proven value, etc.

**AUDIO AID**, any piece of equipment that records, reproduces, intensifies or carries sound over a distance which is used as an aid to education, work, research or the like. Tape recorders, microphones and PA systems are some examples.

**AUDIO-VISUAL AID**, any piece of equipment that records, reproduces, intensifies or carries both sound and visual images over a distance, which is used for education, work, research, etc. These can be used to instruct on how to do a job, inform one of company procedures or many other things. Television, motion pictures or slide films are examples.

**AUDIT**, 1. the process whereby an auditor inspects the accounts of a company to ensu-

re they are correctly recorded, tallied and summarized and that profit, loss and expenditure figures have been honestly represented. A company may have an independent auditor audit its accounts as a check on the company's own financial and accounting systems. 2. any systematic study and evaluation of a problem or situation.

**AUDIT BY ROTATION**, procedure for auditing the accounts of a company in which the major parts of the accounts are examined in depth by rotation over a period of years as opposed to trying to audit all of a company's accounts regularly each year. Often auditors will take care not to establish a predictable pattern of handling any company's or group of companies' accounts.

**AUDIT CYCLE**, the period (usually about three years) during which an audit by rotation covers all the sections of the concern being audited.

**AUDITED AT CAUSE**, you have heard that a PC has to be **audited at cause**. This means he has to be **audited** in a way **which puts him at cause over** his bank and environment. Posts are the same way. (OODs 26 May 75)

**AUDITING FLUBS**, consist of corny things like running a rud but no F/N, failure to flatten a chain, bad TRs, auditing over out-ruds, chopping the PC before full end phenomena is attained. Evaluation or even chatter after the session can upset a PC that ended session on F/N VGIs. (WO PL 8 Sept 70R)

**AUDITING RUDIMENTS CHECKSHEET**, used in straightening up HGC PCs or canceling sessions on students. The checksheet should be used by Ds of P, supervisors and instructors seeking to establish whether or not the HGC or student auditor got the **rudiments** in during a session. (HCO PL 1 Jun 62)

**AUDITING SECTION**, 1. **that section** of a training course where **auditing** occurs. It is not where auditing is taught. It is that **section** where **auditing** is experienced, as an auditor, as a preclear. Auditing is taught in theory and practical. It is only guided in the **auditing section**. (HCO PL 21 Oct 62) 2. the student when he has passed minimal theory and practical for an auditing class, is then also assigned to the **auditing section**. While working in the **auditing section**, the student completes the requirements of the level he or she is auditing in. The **Auditing Section** is there to instill the fact that standard auditing gets results, that only results are acceptable and that extraordinary solutions get bad results. (HCO PL 14 May 62)

**AUDITING SESSION**, a precise period of time during which the auditor listens to the preclear's ideas about himself. (HCO PL 21 Aug 63)

**AUDITING SUPERVISOR**, 1. the post of **Auditing Supervisor** is abolished since all instructors are doing **auditing supervision** as a training measure. The missing action is that of Case Supervisor. (HCO PL 24 Jan 64, Case Supervisor) 2. the Auditing Section is headed by the **Auditing Supervisor** (usually the Director of Training). The Auditing Supervisor does most of his or her inspection by studying auditing reports written by the auditor. In the event of no gain or worse, the **Auditing Supervisor** investigates the auditor's auditing in terms of gross auditing errors and finds and corrects these by close inspection of the next session. The **Auditing Supervisor** -is not there to crack cases. The **Auditing Supervisor** is there only to get good auditing done. His or her attention is on the auditor, not the PC, an important fact which, if overlooked, will stagnate auditing results. (HCO PL 14 May 62) 3. on the Saint Hill Special Briefing Course and in academies, supervision of the **Auditing Section** is done by the **Auditing Supervisor** and Auditing Instructor or instructors. The **Auditing**

**Supervisor** and instructors are not there to audit cases. The **Auditing Supervisor** (or in some cases, the Course Supervisor as at Saint Hill) assigns all sessions and teams. There are three sources of observing auditing used by the **Auditing Supervisor** and instructors. These are: (a) direct observation of the session; (b) study of the auditor's report; (c) observation of the preclear. The Auditing Supervisor combines all three, giving the most time to (a) direct observation of the session. WO PL 21 Oct 62) 4. ensures students can audit. (HCO PL 15 May 63)

**AUDITING TIME**, time spent in sessions and does not include doing the folder admin which is done at once after the session and sent to case supervisor. (FO 2151)

**AUDIT, INTERNAL**, a relatively independent investigation activity within an organization carried on by an internal audit executive or group as an aid to management, having the responsibility of verifying the reliability of records and reporting on the financial effectiveness of programs and operations.

**AUDIT LEDGER**, in this ledger one can see how much was banked, how much was drawn out of the bank, what the income was, what the money was spent on, and how much you have in the bank. In other words, you have all your money affairs condensed into eight sheets of paper instead of spread over thousands upon thousands of invoices, vouchers, checks and other pieces of paper of different types. (HCO PL 10 Oct 70 I)

**AUDIT, MANAGEMENT**, an analysis and recommendation by a qualified and impartial person, such as an outside management consultant, of the quality of management in a business. It looks at how efficiently the current management handles finances, personnel, personnel training, production, sales, planning, organization, etc. In analyzing this it usually gets around to looking at the management personnel as well. The resulting

recommendation shows the current picture and recommends an appropriate handling to increase the efficiency of management.

**AUDIT, MARKETING**, in overall marketing planning, the review and appraisal of marketing strategy, current services, activities and accomplishments.

**AUDITOR, 1.** Scn processing is done on the principle of making an individual look at his own existence, and improve his ability to confront what he is and where he is. An **auditor** is the person trained in the technology and whose job it is to ask the person to look, and get him to do so. The word **auditor** is used because it means one who listens, and a Scn **auditor** does listen. (Scn 0-8, p. 14) **2.** an **auditor** (literally: one who listens) is a trained Scn minister or minister-in -training, who delivers Scn or Dn. **auditing.** (BPL 24 Sept 73RA XIII)

Auditor (Def. 1)

**AUDITOR**, that person who inspects the accounts of a company to ensure they are correctly recorded, tallied and summarized and that profit and loss figures have been honestly represented as such.

**AUDITOR CONFERENCE**, normally follows directly after the departmental meeting. Keep conference brief. Ensure all **auditors** adequately set up with PCs for the day (scheduled by Director of Processing). Set production targets for each unit **auditor** dai-

ly. (Director of Processing sets overall **auditing** hours and completion targets for each unit.) (BPL 23 Nov 72)

**AUDITOR CORRECTION LIST**, HCO Bulletin 27 March 1972, *Auditor Correction List, Study Correction List 3*. This one **corrects auditors** who are having a rough time. (LRH ED 257 INT)

**AUDITOR CORRESPONDENTS**, **correspondents** needed in every org to provide ample materials for use in the *Auditor* so that the *Auditor* can show the world successful Sen and Scientologists and make them want more Sen. (LRH ED 159R-I)

**AUDITOR ESTIMATION TEST**, general test questions used directly or to make up tests for HGC auditor proficiency or for students or internes seeking to qualify as HGC **auditors**. It may be required of any HGC *en masse* at any time to rate the tech proficiency of that department. The test is verbal and accompanied by the **auditor** having to demonstrate with the examiner marking the form used in the test. (HCO PL 21 Sept 65 II)

**AUDITOR -IN -CHARGE OF CO-AUDIT**, those terminated from the SHSBC may join the Co-audit Unit, listing their goals to Clear. One of themselves is to be in charge of the unit and will be known as the **Auditor-In-Charge of Co-audit**. (HCO PL 20 Sept 62)

**AUDITOR MAGAZINE**, see AUDITOR, THE.

**AUDITOR MAJOR ISSUE**, it is the vital statistics motif of the original *Auditor*, containing proper ads and specializing in the names and faces of people, graduates from SH and academies, etc.; long lists, lots of lists of names, even in tiny type, as provided by correspondents in orgs and by SH. This issue is a fat *Auditor*. (HCO PL 25 Nov 68)

**AUDITOR MINOR ISSUE**, an *Auditor minor* is sent out to the entire list we have

every two months. This is a thinner, more elementary, *Auditor*. (HCO PL 25 Nov 68)

**AUDITOR NEWS OFFICER**, the executive who handles and supervises all correspondents for the editor, responsible to see that the editors are supplied with more than enough on-policy materials for issues. (BPL 29 Nov 68R)

**AUDITOR'S CLUB**, **club for auditors** and for those who wish to be **auditors**. It has free membership. Those belonging to this **club** are entitled to (1) all mailings of the *Auditor* magazine, (2) **auditor's club** identification card for special admission to special functions, (3) Gradation Chart to show the next step as an auditor, (4) mailings of new HCOBs up to their training level, (5) complete information pack on training, (6) personal help of the Auditor's Club Reg in speeding their progress as a fully trained auditor. (SO ED 41 INT)

**AUDITOR'S DAY**, in recognition of all the auditors throughout the world, **Auditor's Day** is officially established. It is to be held each year on the second Sunday of September. This day is set aside for any **auditor**, anywhere, so he can receive the full acknowledgement of his or her valuable abilities and actions in the freeing of man. He can receive this validation in many different forms and ways. This is his day. (BPL 12 Jul 73R II)

**AUDITORS DIVISION**, the Enrollment Division is transferred from HCO (Saint Hill) Ltd. to HCO (WW) Ltd., and is renamed **Auditors Division**. The head of the **Auditors Division** is the Director of Auditors. The purpose of the **Auditors Division** is to make all **auditors** well trained and successful. Enrollment in academies, proper certification, enrollment at Saint Hill are all functions of the **Auditors Division**. Central files and address comes under the **Auditors Division**. Saint Hill *News* comes under the **Auditors Division**. Keeping the Saint Hill

course fully enrolled is the responsibility of the **Auditors Division**. (HCO PL 11 Mar 64, Departmental Changes Auditors Division)

**AUDITOR, THE**, 1. the Journal of Sen. Journal means: a daily newspaper; a periodical dealing especially with matters of current interest. (HCO PL 27 Nov 68) 2. a magazine issued at Saint Hill called the *Auditor*, the Saint Hill journal of the Auditors Division. (HCO PL 11 Mar 64, Auditors Division New HCO WW Organization) 3. the *Auditor* magazine is the number one main income-getter in the long run for SH Orgs. Aside from letters and advance registration and selectee advice packs planned in advance, on-policy, hardsell Auditors that offer the services of Saint Hill with heavy impact and that are mailed all at once on schedule are the backbone of SHs. (LRH ED 159R-I INT) [The Auditor is published by the Saint Hill organizations.]

**AUDITOR TRAINEE PROGRESS BOARD**, a vertical **auditor trainee progress board** is kept by the Interne Supervisor. This has a space under each of the headings, left to right. Boxes along the top, left to right, serve to indicate the exact action the trainee is doing. The trainee's name is on a tab that is pinned to the space. The name tab is merely dated each time it is moved to the right. Thus the Interne Supervisor can chase up any faltering student. (HCOB 7 Jan 72)

**AUDIT, PERSONNEL**, a periodic evaluation of a company's personnel policies and practices in relationship to all its employees, to ascertain how closely they approximate reliable personnel administration and to what extent they are adhering to the organization's original tenets.

**AUDIT, SALES**, an accounting of sales by product, size of product, methods and locations of distribution, heaviest purchasing periods, replacement rate, etc.

**AUTHORITARIAN**, - n. a person who gives orders without reasons. A person who arbitrarily tries to think for others instead of letting them think for themselves. (HTLTAE, p. 118)

**AUTHORITARIAN ACTIONS**, arbitrary actions. (DAB Vol. II, 1951-52, p. 141)

**AUTHORITARIANISM**, is little more than a form of hypnotism. Learning is forced under threat of some form of punishment. A student is stuffed with data which has not been individually evaluated. (DAB, Vol. II, 1951-52, p. 9)

**AUTHORITY**, the degree of power or right to give orders, demand obedience or assume control that is vested in a specific job. Authority cannot function properly without responsibility.

#### **AUTHORITY AND VERIFICATION**

**UNIT, 1.** is going in at LRH Personal Communicator level so that **authorities and verifications** of correctness are done at that level instead of my own. (OODs 14 Apr 72) 2. the unit at Flag that does exactly those functions. (HCO PL 28 Jul 73RA) 3. orders may only be issued from Flag to orgs or areas or any part thereof whether by dispatch or telex, with proper and passed evaluation. An area will sag if: (1) the evaluation it is being handled on is not severely pure per Data Series, (2) it receives orders that are part of no evaluation at all. The second is by far the most serious. Only if the Data Series is in full and exact use will a consequent increase of SO and Sen strength and stats occur. This is the mission of AVU. AVU sees that: (a) needed evaluations are done, (b) evaluations are severely pure per Data Series and are on the exact scene, (c) that barriers to (a) and (b) are rapidly called to attention and are properly handled per (a) or (b). (FO 3149-1) **4. the Authorization and Verification Unit** is in Department 21 (Source). All actions must have the **unit's authorization** before they are taken. This is

one of the keys to the workability of the multiple viewpoint management system. (BPL 13 Feb 73R) 5. it is the point at which all Staff, FB and other evaluations and resulting plans, programs, projects and orders are **authorized and verified** for issue. The unit has the responsibility of catching and handling all errors in such traffic before they are issued. (CBO 301-2) *Abbr.* AVU.

**AUTOCRATIC CONTROL**, tight control exercised over a company or part of it by the person in charge. The person acts similarly to an autocrat who must have absolute control and maintains a domineering status over those below him.

**AUTO-EVALUATION SLIPS**, on the American Personality Analysis or the Oxford Capacity Analysis, there are the personality traits, lettered from A to J. For purposes of auto-evaluation, the total span of the top (+ 100) to the bottom (- 100) for each trait has been divided into sections numbered 1, 2, 3 and 4. These sections are divided as follows: from +70 and above to +100 is section 1. From +20 and above to +69 is section 2. From - 40 and above to + 19 is section 3. From - 100 and above to -39 is section 4. Each trait therefore has four possible **auto-evaluation** cards. The cards, say, for happy, trait B, are lettered B1, B2, B3 and B4. According to the score made by the person tested, a card is selected on the basis of that person's score. A person scoring +50 on active would have card E2 selected scoring +10 on appreciative would have card 13 selected, and so on. These **auto-evaluation slips** and the graph are part of the eight unit automatic evaluation packet for the PE foundation. (See HCO Policy Letter of March 2, 1961, Automatic Evaluation Packet For PE Foundation) (BPL 28 Apr 61R)

**AUTO FINANCING**, the concept that if a company establishes the right profit margin it can meet the costs of expenditure on capi-

tal assets without having to rely on financing.

**AUTOMATED**, automatically run by machinery, not people. (HCO PL 30 Aug 70)

Automated

**AUTOMATIC EVALUATION PACKET**, the following items are the current extent of the evaluation packet. It is intended that when a person is tested, his test is marked and automatically evaluated, and the evaluation (with the literature tentatively listed below) is sent to the evaluator. When the person tested comes in for his or her evaluation appointment, **evaluation** is done from the **automatic evaluation** strictly in accordance with the model evaluation script. The person is then given the whole packet and is directed to the registrar or whatever routing is arranged. The packet is his or her property. (1) graph, evaluation slips. (2) form letter giving IQ and future. (3, 4, 5, 6 and 7 are letterpress sheets.) (3) What is Scn? (4) the cheapest way-PE Co-audit. (5) the fastest way-individual processing. (6) the educational way-books, training. (7) the state of release. (8) two free tickets for a test they can give their friends. (HCO PL 2 Mar 61)

**AUTOMATIC REGISTRAR**, automatic registrar machines are used so enrollment in training and in individual processing can be effected at once by any visitor. An automatic registrar has all the information about trai-

ning or processing and all the forms and routing displayed on a board with pigeonholes. It is prominently displayed. One is for training. One is for processing. Each is a full sales talk and has all forms. (HCO PL 23 Jan 61)

**AUTOMATION**, 1. the reduction of the need for human labor in an activity because of the introduction of self operating machinery to do the same functions. 2. the use of electronic devices and servomechanisms to perform physical or mental tasks which then obviate the need for people to do such. Modern security systems are an example with their use of electronic sensing devices to open or close doors, sound alarms or silently alert security personnel remote from the area.

**AUTOMATIZATION**, the use of machines to either replace or assist human control.

**AUTONOMOUS**, it operates independently of local control and is under the direct control of its own seniors. (BPL 10 Feb 72R I)

**AUTONOMOUS ACTION**, something dreamed up all by themselves, pushed forward all by themselves, not coordinated in any way with any other management anywhere. (7208CO2 SO)

**AUTONOMOUS UNIT**, an **autonomous unit** is totally self-sufficient and operates with no higher orders. (FBDL 12)

**AUTONOMOUS WORK GROUPS**, see GROUPS, AUTONOMOUS WORK.

**AUTONOMY**, "self-government" and "independence." In other words areas or orgs operated independently on self-government. (FO 2534)

**AVERAGE**, 1. the figure that results from adding a quantity of figures and dividing the sum by the number of figures added together. The average of the numbers 1, 2, 3 and 4 is 2.5. 2. the general tendency, attitude

or figure indicated by the total of related figures, statistics or data available.

**AVERAGES**, various formulas for measuring the trend of stock prices with built-in devices to compensate for stock splits and dividends.

**AVOIDABLE COSTS**, see COSTS, AVOIDABLE.

**AVON**, the (ship) *Avon River*. (BO 11, Circa 10 Jun 67)

**AVON RIVER**, 1. yacht *Avon River*. (BO 14, 6 Jun 67) 2. the *Avon River* remains the flagship and her company are Flag personnel. (FO 327) [The *Avon River*, later renamed the *Athena*, was a converted North Sea trawler approximately 145 feet long and steam driven.]

**AVU AUTHORIZATION OFFICER**, the purposes of AVU Authorization Officer are (1) to receive and authorize submissions which are on-origin and on-policy and which apply the relevant Dn. and Scn technology to the subject of the submission. (2) to bring about corrections and improvements in submissions so as to increase effectiveness by increasing numbers of exact applications of technology. (CBO 230)

**AVU VERIFICATION OFFICER**, the purposes of AVU Verification Officer are (1) to verify in evaluations submitted that the data as stated does exist and has been taken fully into account according to existing PLs and FOs. (2) to verify that the statistics as stated in evaluations are correct and do exist and do require evaluation. (3) to verify that completed handlings have brought about the ideal scene and that opportunities for further expansion are taken. (4) to verify that no necessary evaluation has been omitted. (CBO 225)

**AWARD OF MERIT**, (The Franchise Award of Merit) the Award of Merit is an award given quarterly to those missions who have produced consistently high statistics.

The award, introduced in 1965, has been successful in encouraging production in missions. One award-one voucher equal to ten currency units. We define a currency unit as the full cost of one auditing hour at the local per policy cost. (At this time for example this is \$50 in the U.S.) Each voucher may be exchanged as credit for ten currency units against any training at any org, Saint Hill or AO. (BPL 10 Sept 65R)

**AWARE**, marked by realization, perception or knowledge. (OODs 27 Apr 72)

**AWARENESS**, is the ability to perceive the existence of. (OODs 27 Apr 72)

**AXIOMS OF EDUCATION**, the logics of Dn. are the science of **education**. Those are the **axioms of education**. (OS 2, 561OC18)

**AZIMUTH METER**, a good auditor is expected to see his meter, PC and worksheet all at one time. No matter what he is doing he should always notice any meter movement if the meter needle moves. If he cannot

## B

**BABIES**, 1. anyone below six years old is to be called "little children" or "babies." (FO 1630) 2. (babies-small children) people who are under six years of age who are not cadets. (FO 3167)

Babies

do this he should use an **Azimuth meter** and not put paper over its glass but should do his worksheet looking through the glass at his pen and the paper-the original design purpose of the **Azimuth meter**. Then even while writing he sees the meter needle move as it is in his line of vision. (HCOB 28 Feb 71)

Azimuth Meter

**BACHELOR OF SCIENTOLOGY COURSE**, 1. the Academy also teaches an upper level course once or more a year known as the B. Scn (Hubbard Clearing Scientist) course. (HC 0 PL 20 Dec 62) 2. the tapes for B. Scn and HCS courses are now as follows: 5th London ACC tapes, 21st US supplementary tapes. These are the total data given in these units. (HCO PL 10 Mar 59) 3. the standard B. Scn/HCS course is in actuality the 20th ACC. The tapes to be used are the 20th ACC tapes. The texts are *Scientology Clear Procedure, Issue One* and *ACC Clear Procedure* as published in booklet form. The B. Scn/HCS course is five weeks in length. If comm course and upper indocs have not been covered by the student, the course becomes seven weeks in length. (HCOB 26 Dec 58) 4. B. Scn (UK) or Hubbard Clearing Scientist (US). (HCO PL 12 Feb 61) *Abbr.* B. Scn.

**BACKFLASH**, an unnecessary response to an order. This can get fairly wicked. They are not acknowledgments, they are comments or refutals. Example: "sell the bricks" as an order, is replied to by "bricks are hard to sell" or "we should have sold them yesterday." This is a disease peculiar to only a few staff members. They cannot receive an order directly and are seeking to be part of the communication, not the recipient. This goes so far as senseless "wilco's" or "I'll take care of it" when the executive only wants to know "is it done?" (HCO PL 10 Apr 63)

**BACKLOG**, n. 1. an increasing accumulation of tasks unperformed or materials not processed. (HCO PL 26 Jan 72 I) 2. (AVU) the definition of a **backlog** is anything in AVU for more than an hour. (CBO 340R) 3. a **backlog** is negative production. (HCO PL 19 Mar 72 II) 4. for Tech Services a backlog is any service paid in full but not delivered. The service isn't delivered until it is completed. (BPL 8 Dec 72R)-v. to accumulate as a **backlog**. WO PL 26 Jan 72 I)

Backlog (Def. 1)

**BACKLOGGING**, a type of dev-t where if traffic or bodies begin to be **backlogged**, one can stall completely just handling the queries about the **backlog** without getting anything really done. WO PL 27 Jan 69)

**BACK ORDERS**, orders received for items temporarily out of stock. This is different from backlog in that backlog applies to all unfilled orders. Backlog accumulates where

orders arrive at a faster rate than staff and equipment can process them.

**BACK PAY**, wages or additional wages owed to an employee for past work due to errors in the calculation of wages, changes in legislation awarding retroactive wage payments, arbitration awards, etc. Also called retroactive pay.

**BACK-SELLING**, a form of promotion that skips certain progressive steps in the sales chain of a product (manufacturer to wholesaler to retailer to consumer) such as a manufacturing company that promotes its products either directly to consumers or directly to retailers so that they in turn will demand the product from wholesalers.

**BAD ACTION**, is really just an out-point. (OODs 11 Apr 72)

**BAD COMMUNICATION LINE**, a **bad communication line** would be too slow, one on which messages become altered or get delivered to, or seen by, the wrong people, or where the message arrived in incomprehensible form or not at all. It could also be one that was so expensive it could not be used freely. Here is an uncertain, balky or dangerous comm line. (FO 2528)

**BAD CONTROL**, we define **bad control** as notcontrol, or as an unknown attempt at **control** without actually effecting **control**. (POW, p. 44)

**BAD DEBT**, a debt which is known or believed to be uncollectible and is written off as a loss.

**BAD EXECUTIVE**, he simply tries to do several posts, thus leaving many posts unsupervised and leaving many details uncoordinated and depriving staff of necessary liaison and supervision amongst the various posts. He takes the juicy tidbits which require "command decision" away from the posts and leaves each post a naked drudgery of petty detail; in other words, he scoops off the cream and does, to a slight degree, each

of the jobs around and thus brings about a state of irresponsibility on the various terminals. (HCO PL 30 Oct 62)

**BAD INDICATOR**, what is a **bad indicator** really? It is merely an out-point taken from the five primary out-points. It is not "bad news" or "entheta" or a rumor. The "bad news" could easily be a falsehood and is an out-point, because it is false bad news! "Good" news when it is a falsehood is an out-point! (HCO PL 15 May 70 II, Data Series No. 5, Information Collection) *Abbr.* BI.

Bad Indicator

**BAD INDICATORS**, PC sour, mean, sad, etc. WO PL 10 Feb 66 II) *Abbr.* BIs.

**BAD LEADERSHIP**, **bad leaders** (1) issue no or weak orders (2) do not obtain or enforce compliance. Bad leadership isn't "grouchy" or "sadistic" or the many other things man advertises it to be. It is simply a **leadership** that gives no or weak orders and does not enforce compliance. (HCO PL 3 Nov 66)

**BAD POLICY**, ideas or procedures that were unsuccessful in assisting the basic purpose of an individual, species, organism, organization, become **bad policy**. (HCO PL 13 Mar 65, Division 1, 2, 3 The Structure of Organization What is Policy?)

**BAD PROGRAM**, a program is a **bad program** if it detracts from programs which are already moving successfully or distracts staff people or associates from work they are already doing (doing that is adding up to

successful execution of other programs). (HCOB 12 Sept 59)

**BAD SITUATION**, 1. a situation is something that applies to survival and if you evaluate the word "situation" against survival, you've got it. A good situation is a high level of survival; a **bad situation** is a threatened survival and a no-situation is something that won't affect survival. (7201C02SO) 2. a departure from the ideal scene. (HCO PL 17 Feb 72)

**BAD WORKER**, one who is unable to control the equipment he is supposed to control or the communication lines he is supposed to handle. (POW, P. 40)

Bad Worker

**BAIT AND BADGER**, a busy executive or division is not necessarily a producing executive or division. So if no products from him or staff for whatever reason, he's below danger. You don't have a head of div or org if you don't have products coming off and exchange occurring. Only *these*, not excuses or motions, tell the tale. You can get "PR" and glowing (but false) reports. You can get all sorts of things. But where are the products. So you **bait** (tease) **and badger** (nag) the head of div (or org) to impinge on him (draw his attention) until he snarls or cries or screams and spits out an out-point. You don't ask him like repetitive commands, "Why aren't you working?" You ask in many ways "Where are the products?" and he'll eventually tell you an out-point. Like "But I can't get out any products because they aren't products until they are back home tel-

ling people how good we are so how can I . . . " Or "I just keep running around here and nothing happens." Or some other nonsense that is nonsense. That's his WHY. So you tell him, "Look, you don't get out products because you don't think you can!" or "You are just trying to look busy so you won't be thought idle." And if you're smart and on the ball, that will be it. The exec will cognite and go into smooth 2WC at once and you got him out of the Esto P/L Series 13 state into a confront. This is "**bait and badger**" to get him broken out of non -confronting. That's all that's wrong with him really. He doesn't look. (HCO PL 24 Apr 72)

**BALANCE OF PAYMENTS**, the balance between a nation's imports and exports (of products and services) and the attendant inflow and outflow of income over a given period of time, usually a fiscal year.

**BALANCE SHEET**, 1. is composed of all the accounts representing either assets or liabilities. These accounts are not terminatedly handled at the **balance sheet** date and so remain as "balances." Hence the term "**balance**" **sheet-it** is simply a sheet of paper listing down all those accounts not terminatedly handled and therefore still showing a "**balance.**" (BPL 14 Nov 70 IV) 2. simply a financial statement which lists down all the assets and liabilities of the organization at the end of the financial period concerned. (BPL 14 Nov 70 III)

**BALANCE SHEET RATIOS**, the ratios that are disclosed on balance sheets or financial accountings of a division, department, project or an entire company giving the breakdown of the relationship of specific assets to specific liabilities, investments to working capital, production costs to sales revenue, etc.

**BALLOON MATURITY**, the instance of completing the payment of a loan by making a final payment that is substantially larger than previous installments.

**BANDA**, a Methyl alcohol duplicator. (HCO PL 8 May 65 II)

Banda

**BANK**, an establishment which loans money and receives deposits for which interest is paid or safety is guaranteed. Various types of banks offer other financial services such as issuing or exchanging currency, cashing checks, safe deposit **boxes etc**

**BANK-AGREEMENT**, the common denominator of a group is the reactive **bank**. Thetans without banks have different responses. They only have their **banks** in common. They agree then only on **bank** principles. Person to person the **bank** is identical. So constructive ideas are individual and seldom get broad agreement in a human group. An individual must rise above an avid craving for agreement from a humanoid group to get anything decent done. The **bank-agreement** has been what has made earth a hell. (HCO PL 7 Feb 65)

**BANK BALANCE**, the amount of money that a depositor has in his bank account; the difference between deposits and withdrawals.

**BANK, COMMERCIAL**, a business organization authorized to receive and protect money and other valuables, lend money at interest, etc., as exemplified in customer checking and savings accounts, safe deposit vaults and loan and credit services.

**BANK, CORRE SPONDENT**, a bank which regularly performs services for a-

nother bank in an area to which the other does not have direct access, such as foreign countries or far removed states.

**BANK GROUP THINK**, I differentiate between **bank group think** which occurs in the absence of leadership, and theta group agreement which is possible and a source of power when leadership exists. (FO 1844)

**BANK HOLIDAY**, a legal holiday or weekday when banks are not open for business.

**BANK, INVESTMENT**, a bank which sells stocks and bonds, sometimes in large blocks, and may buy outright from corporations new issues of securities.

**BANK, NATIONAL**, a commercial bank which is granted a charter by the federal government instead of by the state in which it is established.

**BANK RECONCILIATION**, the **bank reconciliation** is to show the name of each account, the balance per **bank** statement for each account, to which is added the outstanding deposits for each account (not credited by **bank**) less outstanding checks for each account (all checks expended which have not yet been debited to the account by **bank** statement). This will give you the **reconciled** balance for each account. A **bank reconciliation** basically shows the state of the account if all deposits and checks clear the **bank**. (BPL 4 Dec 72RA II) [The above BPL was cancelled and replaced by BPL 4 Dec 72 11 RB.]

**BANK RECONCILIATION SECTION**, the **Bank Reconciliation Section** of the Department of Records, Assets and Material makes up the latest **bank** records of monies on deposit concurrent with the monthly bills summary. This **section** once each month (concurrent with the monthly bills summary) **reconciles all bank** statements, tapes all cancelled checks on their counterfoils and in

short makes certain there are no **bank** errors or omissions. (HCO PL 26 Nov 65R)

**BANKRUPTCY**, the state of an individual or company legally declared unable to pay its debts.

**BARGAINING, PLANT**, collective bargaining restricted to the level of one manufacturing plant or factory but not occurring at all or many of the plants of a company, as in company bargaining.

**BAROMETER**, 1. a compilation of statistical data that predicts future market trends or business activity. 2. anything that serves to predict or indicate future action or change.

**BARTER SYSTEM**, basically money is "an idea backed by confidence." The idea is that the exchange of goods or services kind for kind is too clumsy. To carry your dozen eggs all over town until you find someone who has bread he will exchange for your eggs so you can have bread is too clumsy.

That is called a **barter** (trading) system and is used in primitive tribes. To solve this, men get the idea of making metal or slips of paper to represent the eggs and the bread. Thus you don't need to look all over town. (HCO PL 27 Nov 71)

Barter System

**BASE**, the bottom of something considered its support. (HCO PL 9 Nov 68)

**BASE FLAG ORDERS**, all regulations and standing orders applying to **Flag's Base** which will remain in continuous force shall be issued as: **Base Flag Orders**. These issues may be approved only by myself. (BFO 1) Abbr. BFO.

**BASE ORGANIZATION**, the sea project includes the Section III Base, ships, and allied activities. The controlling **organization** of the sea project is called The **Base Organization**. This is located ashore or at sea; according to accommodation. The **Base Organization** has seven divisions. (5) the Qualifications Division, (6) the Public Relations Division. These contain the usual policies and duties accorded generally to divisions of the same number in our organizations. Divisions 7, 1 and 2 are under the HCO Executive Secretary, Base. Divisions 3, 4, 5 and 6 are under the Base Org Executive Secretary, Base. The Divisions are under secretaries. Only those posts are filled which are active. Executives nearest empty posts fill the duties of those posts if required. All ships, executives, and personnel of the project come under the **base organization**. (LRH Def. Notes, circa May 1967)

**BASE PAY**, the basic wage received by an employee not including bonuses, overtime, profit sharing or the like.

**BASIC ADMIN**, Staff Status I, Staff Status II, Staff Member Hat, etc. (HCO PL 24 Sept 71)

**BASIC SCIENTOLOGY LIBRARY**, in the bookstore, a successful action has always been to sell packages. The most successful of these has been the **basic Scientology library** which consists of *Dianetics: The Modern Science of Mental Health, Science of Survival, Scientology: The Fundamentals of Thought, Advanced Procedure and Axioms, Scientology 8-8008, Creation of Human Ability, and Dianetics 55!* Wrap these up as a package and put up a sign saying: "The Basic Scientology Library. L. Ron Hubbard selected these seven books because they fully embrace all aspects of Scn data. Buy and read these books and you will acquire a much broader understanding of Sen." (FBDL 289)

**BASIC SCN ORGANIZATION BOOK**, all new hats and hat changes will appear as Secretarial to the Executive Director orders. When all hats of the organization have been completed as Secretarial to the Executive Director, they will be printed into a **basic Scn organization book** for general issue to staff . However, this **book** will only be a pattern and the hats themselves will be the authority of the post. (SEC ED 12, 16 Dec 58)

(HCO PL 21 Apr 65)

**BASIC NMY**, the **basic why** is always the major out-point which has all other out-points as a common denominator. And that's the real why. That explains everything. But what is this everything? All the other out-points. What is the major out-point that explains all other out-points that I've found in this area? And that could be the definition of a why. (ESTO 12, 7203CO6 SO II)

**BATTLE CONDITIONING**, I developed the theory and practice of **Battle Conditioning** used in World War II. I did a paper on it for the Navy before the war and was sent over to the Army G2 with it and Army G2 got it in practice -training by crawling under machine-gun fire and all that. Must have saved a few hundred thousand lives. (OODs 24 Aug 70)

**BATTLE OF BRITAIN**, there was a gala event making the official opening (of the Battle of Britain) for all Scientologists in the UK. Every Scientologist had to choose their route in the Battle of **Britain**. They had five choices: (1) taking service directly, improving themselves, (2) joining mission or org staff, (3) joining the booksellers brigade which has battalions forming in various parts of the UK, (4) setting up a new mission in the UK, (5) signing up as an FSM individual. This event brought them together to make their choice. FBDL 381)

**BATTLE PLAN**, the **battle plan** was introduced on Flag in order to coordinate necessary actions and prepare strategy and tactics

concerning management of AO/SHs and Class IV orgs. On stat night a meeting is held of the senior FB (Flag Bureau) execs and at this meeting a Battle Plan is drawn up to handle such things as what orgs will need evaluating, what orgs need program debugs, what orgs are doing fine etc., for the coming week based on stats. Duration of the meeting is usually no longer than one hour. "Battle planning" is a way of helping to win the "war." (BPL 1 Apr 73RA)

**BEANS**, money. (HCO PL 13 Feb 71)

**BEANSTALK**, [Note: **beanstalk**, extending rack. "**Beanstalk**" is a trade name of Beanstalk Shelving Limited, Chichester, Sussex, England. These are used as basket systems in orgs and may be attached one on top of another resulting in a system of racks or baskets extending one above the other that look like 'a **beanstalk**.]

Beanstalk

**BEAN THEORY**, 1. finance is best understood as a commodity in terms of beans. So many beans issued to an activity and so many more beans back. Beans do not magically materialize into more beans. What brings back more beans for those issued is the production and industry of org staff and how wisely the beans are allocated. Even the interest one earns on a bank account is earned in fact by someone's production and ability to get more beans out of an activity than are put in. Where finance uses its beans to buy production and industry and projected income at a cost which requires the activity to be viable, it gets back more beans and a raised allocation -production ratio. The first rule of finance and any activity is *income greater than outgo*. Where finance can skillfully apply this to the divisions and personnel of an org as well as the org as a whole, the additional beans materialize because what is bought is production and the products which add up to the product of raised

income and viability. (BPL 19 Mar 71) 2. buy more money made with allocations for expense (bean theory). A small sack of beans will produce a whole field of beans. Allocate only with that in mind and demand money be made. (HCO PL 9 Mar 72 I)

**BEAR MARKET**, see MARKET, BEAR.

**BEEF UP A TA**, send it up high (BPL 30 Jul 70R)

**BEGINNING SCIENTOLOGIST COURSE**, this is the first, lowest course. It is the old PE Course. It is not a level course. The B.S. Course is all evening PE, covering the *Problems of Work* and stressing how people need Scn, being in a mess, and their need for change. It has no auditing, just data. (HCO PL 31 May 65) *Abbr.* B.S. Course.

**BEHAVIOR**, 1. the way a person responds to stimuli in his immediate environment and the world around him. This is primarily determined by previous experience and education. 2. the manner in which a person achieves his own survival in carrying out his purposes and obtaining his goals.

**BELOW SOURCE**, doesn't recognize the causes of his problems. (HCO PL 23 Apr 65)

**BENEFICIAL ACT**, something that helps broadly. It can be a **beneficial act** to harm something that would be harmful to the greater number of dynamics. (HCO PL 1 Nov 70 III)

**BENEFIT METHOD OF SELLING**, see SELLING, BENEFIT METHOD OF.

**BEST-WORST ISSUES**, lists of **worst to best** orgs (for Sea Org and Scn international) issued weekly as the FB's stat briefing. (ED 31 FB)

**BETRAY**, to be disloyal or faithless to. (HCO PL 3 May 72)

**BETTER DEAD CLUB**, the "the world owes me a living" preclear (or student) is a candidate for the **Better Dead Club**. There

were two branches of this club, by the way-better dead for their own sakes and better dead for the sake of others. Demands by individuals for free service on any pretext should be given a light, airy laugh. It doesn't do anybody any good, often not even the person who received it. (HCO PL 9 May 65, Auditing Fees Preferential Treatment of Preclears Scale of Preference)

**BIG BOOK DISTRIBUTOR**, by which is meant a wholesale bookseller to the trade. (HCO PL 19 Jul 65, Discounts Central Orgs Books)

**BIG LEAGUE**, the book, *Big League Sales Closing Techniques*. (BPL 1 Dec 72 R II)

**"BIG LEAGUE" REGISTRATION SERIES**, in order to make known all the salesmanship techniques and skills, research of the materials on the market has been done and as a result *Big League Sales Closing Techniques* written by Les Dane, an experienced US super-salesman, is highly recommended. **BIRTHDAY CONTRIBUTION FUND**, sums sent in by orgs and FBOs to the Commodore as a **birthday** offering. The Commodore requested that they be placed in a separate **fund** to be used to make the ship and galley better for the crew. (ED 472 Flag) [Although the above definition appears on ED 472 Flag, the term **Birthday Contribution Fund** does not, but is in ED 473 Flag.] *Abbr.* BCF.

**BLACKING**, term expressing the action taken in a labor dispute wherein employees will not work with materials or parts about which there is something that is related to or violates a point under dispute.

**BLACKLEG**, a person who refuses to strike or takes the job of a striking worker; a scab or strikebreaker.

**BLACKLIST**, n. a list of persons considered undesirable for employment or dealings with. -v. to put a person's name on such a list.

**BLACK PROPAGANDA**, 1. about the most involved employment of PR is its covert use in destroying the repute of individuals and groups. More correctly this is technically called **black propaganda**. (HCO PL 11 May 71 III) 2. (**black** = bad or derogatory, **propaganda** = pushing out statements or ideas), the term used to destroy reputation or public belief in persons, companies or nati-

ons. It is a common tool of agencies who are seeking to destroy real or fancied enemies or seek dominance in some field. (HCO PL 21 Nov 72 I) 3. the activity called **black propaganda** consists of spreading lies by hidden sources. It inevitably results in injustices being done by those who operate without verifying the truth. (OODs 17 May 71) 4. when PR is used for the destruction of ideals or institutions or repute of persons, it is called, traditionally, **black PR**. This is usually covert and a distortion of truth or a whole cloth fabrication. (HCO PL 7 Aug 72) 5. **black propaganda** is in its technical accuracy, a covert operation where unknown authors publicly effect a derogatory reaction and then remain unknown. (HCO PL 11 May 71 III) 6. a covert attack on the reputation of a person, company or nation using slander and lies in order to weaken or destroy. (HCO PL 21 Nov 72 I) 7. **black PR** also uses imagination in order to degrade or vilify or discredit an existing or fancied image. (HCO PL 7 Aug 72) *Abbr.* Black PR.

**BLAMINGMEST**, I have noticed that, when personnel have been careless or incompetent to repair, they **blame the MEST**. This is usually an effort to "get off the hook" and cover up lack of skill or industry. Given good equipment to begin with, beware of alarming tales on how it won't work. It will if competently handled. (FO 14)

**BLANKET MARKET PENETRATION**, the instance of reaching, covering and penetrating the consumers market over a wide scope or influencing a majority of potential buyers.

**BLIND ADVERTISEMENT**, see ADVERTISEMENT, BLIND.

**BLINDNESS**, the **blindness** of a person can stem from two sources, one of those is fixidity, he just never spans his attention and the other one is overts. An individual who has committed overts long enough and often enough on a certain area will not be able to

perceive it anymore. He just doesn't see and by that we mean ocular. A person who commits overts often enough on another person will have that person disappear right in the physical universe before them. (ESTO 5, 7203CO3 SO I)

**BLOW**, v. leave hurriedly. (HCO PL 25 Jun 72)

**BLOW-OFFS**, departures, sudden and relatively unexplained from sessions, posts, jobs, locations and areas. One can treat people so well that they grow ashamed of themselves, knowing they don't deserve it, that a **blow-off** is precipitated, and certainly one can treat people so badly that they have no choice but to leave, but these are extreme conditions and in between these we have the majority of departures: people leave because of their own overts and withholds. That is the factual fact and the hard bound rule. A man with a clean heart can't be hurt. The man or woman who must must become a victim and depart is departing because of his or her own overts and withholds. It doesn't matter whether the person is departing from a town or a job or a session. The cause is the same. (HCOB 31 Dec 59)

**BLOWS**, n. desertions. (HCO PL 22 Sept 70) -v. recognizing the source of an aberration in processing "**blows**" it, makes it vanish. (HCO PL 18 Sept 67)

**BODY OF KNOWLEDGE**, (Logic 2)-a **body of knowledge is a body** of data, aligned or unaligned, or methods of gaining data. (AP & A, p. 64)

**BODY Q AND A**, some people Q and A with their bodies. The body is, after all, composed of MEST. It follows the -laws of MEST. One of these laws is Newton's first law of motion: inertia. This is the tendency of a MEST object to remain motionless until acted upon by an exterior force. Or to continue in a line of motion until acted upon by an exterior force. Well, the main force around that is continually acting on a human body is a thetan, the being himself. The body will remain at rest (since it is a MEST object) until acted upon by the thetan that is supposed to be running it. If that being is an aberrated non-straight line being, the body reacts on him more than he reacts on the body. Thus he remains motionless or very slow. When the body is in unwanted motion;

the being does not deter the motion as the body is acting upon him far more than he is reacting on the body. As a result, one of the manifestations is Q and A. He wants to pick up a piece of paper. The body inertia has to be overcome to do so. So he does not reach for the paper, he just leaves the hand where it is. This would be no action at all. If he then weakly forces the motion, he finds himself picking up something else like a paper clip, decides he wants that anyway and settles for it. Now he has to invent why he has a paper clip in his hand. His original intention never gets executed. Some people on medical lines are just there not because of actual illness but because they are just **Qing and Aing** with their body. The cure for this sort of thing (Q and A with a body) is objective processes. (HCOB 5 Dec 73)

**BODY REGISTRAR**, 1. (Sign-up Registrar) the prime purpose of the **Body Registrar (Body Sign-up Reg)** is: to help Ron sign up individuals for technical services who come into the organization and sign-up individuals again for further technical services and increase the activity and production of the org. The **Body Registrar** is then a sign-up registrar of individuals who come with their bodies into the org and then signs them up again for further services when they have completed the services they signed up for. This **registrar** signs up individuals for technical services and her concern is to move PCs and students further down the road to Clear by signing them up for technical services and then repeatedly signing them up for each next step. (HCO PL 21 Sept 65 VI) 2. Dissem body reg functions: to enroll Scientologists in the org's CF for the major services of the org (hours of auditing, HSDC, HSDG, Academy training and Qual internships). The CF is used to get the largest possible volume of business for the org. (LRH ED 112 INT)

**BODY ROUTER**, 1. there are two types of body routers. Type 1 is body routers opera-

**BOOK OF IN PERSON SCHEDULING**, registers people who schedule ahead in person. (HCO PL 6 Apr 65)

**BOOK OF LETTER SCHEDULING**, the Letter Reg actually registers. This is done by getting people to schedule courses and intensives. For example, on a questionnaire, Bill says he someday wants to be trained, one intensifies this with when and gently coaxes Bill to say "next year" and then coaxes Bill in a next letter to say when next year. So Bill does and it becomes a fact and the Letter Registrar registers Bill on her **book of letter scheduling**. Such a **book** is best if heavy paper loose leaf, very heavy binding and snap ring for page removal and replacement. Thus such a **book** can have a page removed for a copy machine to copy, the page replaced and the copy sent on with no other work. One week can be one page or several pages if it goes to many students and PCs. One can keep the right side of the open double page for students and the left side for preclears and the week at the top of each page. Thus one can put a lot of PCs and students in it if it's big enough and can see week by week for months and even a year what is coming. (HCO PL 6 Apr 65)

**BOOK OF PHONE SCHEDULING**, registers people who **phone in to schedule**. (HCO PL 6 Apr 65)

**BOOK ORDERS**, No. 1 of five classes of tabulation of central files. That is established by just this fact: an invoice saying he bought

(FBDL 591) *Abbr.* BMB.

**BOOK, TAPE, RECORD ADMINISTRATOR**, sees that **books, tapes** and records are in supply adequate to meet the demand. He gets OKs to reprint books, to print books, to cut records, tapes, etc. He does not let his supply become exhausted, ever. If a publication (or tape or record) is going out of print, and not to be reprinted, he sees that this fact is published in the Scn magazine-that Dissemination Secretary is advised-that HCO WW Book Administrator is advised. If a book is to be continued in supply, he sees that the **book** is reprinted, getting proper OKs to do so, that the preparation of the MSS is done, and that Printing Hat follows through on it from there. (HCO PL 15 Mar 60) [The above HCO PL was cancelled by BPL 10 Oct 75 III.]

**BOOK VALUE**, book value of a stock is determined from a company's records, by adding all assets (generally excluding such intangibles as good will), then deducting all debts and other liabilities, plus the liquidation price of any preferred issues. The sum arrived at is divided by the number of common shares outstanding and the result is book value per common share. Book value of the assets of a company or a security may have little or no significant relationship to market value.

The Booster RD is delivered by internes only of Class IV or above. The **rundown** is for Flag only. This RD consists of three or four separate lists done. Each list is taken to an F/Ning assessment. **BOOTS**, all new recruits are referred to as boots. (FO 87)

**BOSUN**, 1. **the bosun** and his deckhands is like a foreman and his gang. Traditionally, the First Mate and **Bosun** run the decks. The Bosun must be able to 8C like mad; he must be a leader and driver of men without being vicious. He should be an expert seaman, exceedingly well versed in ropes and their use. The Bosun's store is his domain. Here he keeps his ropes, tackle, shackles, blocks; he knows where the water measuring rods are, where the tools are, he sees they are returned at the end of each working day cleaned and in good condition. He sees to the landing and retrieving of boats, the handling of cargo, the condition of rigging and fenders -all the working rig of the decks. The **bosun** is the kind of man that when there is something tricky to be done, or some emergency, you immediately "send for the **Bosun**." He is a seaman's seaman; a jack-of-all-trades and master of all of them. (Ship's Org Bk.) 2. officer or seaman responsible for the supervision and maintenance of a ship's boats, ropes and decks. (FO 2674) 3. **Boatswain**. (FO 87)

from the org for overspending, (c) 1% of the CGI may be retained temporarily by the FBO for the **bounced check float** until the **float** reaches the equivalent of the average amount of one week's GI. (BPL 6 Jul 75 III)

(HCO PL 2 Jul 64) **2. broad public interest.** (HCO PL 24 Feb 64, Urgent Org Programming) **3. broad public issue (BPI)** is a designation that sometimes appears on a policy letter or HCOB. This follows the same distribution procedure as for remimeo, with the exception that it may also be put in *The Auditor* and continental or Org magazines. (BPL 14 Apr 69R) **4. designation on HCO Policy Letters and HCO Bulletins** indicates dissemination and restriction as follows; **broad public issue**, give to HCOs of all types, all staff of central organizations, field auditors, put in magazines, do what you like with it. (HCO PL 22 May 59)

**BRAINWASHING**, **1. brainwashing** is a very simple mechanism. One gets a person to agree that something *might* be a certain way and then drives him by introverting him and through self-criticism to the possibility that it is that way. Only then does a man believe that the erroneous fact was a truth. By gradient scale of hammering, pounding and torture, **brainwashers** are able to make people believe that these people saw and did things which they never did do. But its effectiveness is minor as Russia does not know enough about the mind, even though

we recently taught nothing but German--Russian theory in our schools. (AA-R, p. 84) **2.** is actually that technique by Pavlov which makes the dog believe that he can't tell the difference between a bell and a buzzer. Now I'll untangle that for you. They ring a bell and feed the dog, and they ring a bell and feed the dog, and they ring a bell and feed the dog. Now the dog is conditioned (psychological term) to be fed when the bell rings. Now, they buzz a buzzer and beat the dog, and buzz a buzzer and beat the dog, and they buzz a buzzer and beat the dog, and they buzz a buzzer and beat the dog. Now what they're really doing is adding up a bunch of engrams, they aren't conditioning him at all. And then they gradually reduce the sound of the bell to the sound of the buzzer, and reduce the sound of the buzzer to the sound of the bell till the dog can't tell the difference between the buzzer and the bell and at that moment he goes psychotic. He can't tell whether he's going to be beaten or fed. That is **brainwashing**. It is specific technology. (6804SM-) **3.** changing the values of things. (6804SM-) **4.** is subjection of a person to systematic indoctrination or mental pressure with a view to getting him to change his views or to confess to a crime. (HCO PL 20 Dec 69 VIII)

This was at a time when we were being attacked in Parliament and in the press and on TV when no air time or newsprint time or newsprint was devoted to give our viewpoint or the true facts from our viewpoint. Thus we decided that if we could not get our viewpoints printed we would print and distribute them our-

**BULL -BAIT DUMMY RUN**, you take a whole bunch of questions which the public would be prone to ask and you'd be surprised how funny some of the questions are. "Well, I have a check here on the Farmers Bank of Des Moines and it is for \$2,000 and I owe you \$260, so if you could give me the change, why then I would be happy to buy. . . ." See what your cashier does. See what he says. See if he handles it at all. You find out the bulk of the cashiers sort of say, "Get out, get outhah!" That's not the proper public response. And therefore, your **bull-bait dummy runs pay** off because the **bull-bait dummy** run tests the personnel. The plain dummy run just tests the lines. (FEBC 10, 7101C24 SO III)

**BULL-BAITING**, in coaching certain drills, the coach attempts to find certain actions, words, phrases, mannerisms or subjects that cause the student doing the drill to become distracted from the drill by reacting to the coach. Taken from a Spanish and English sport of "**baiting**" which means to "set dogs upon a chained bull," but mainly "to attack or torment especially with persistent insult, criticism or ridicule." Also "to tease." (LRH Def. Notes)

(FB CO 9-1) 2. there would be a Qual Bureau, or it's called a Correction Bureau in a CLO, and it's Bureau 5A because Training and Services is Bureau 5. **BUREAU 6**, 1. (Flag) the purpose of the Distribution Bureau (Bureau 6) is: to help LRH distribute Scn by putting Scn orgs in every spot of the globe such that every conceivable geographical area is totally covered. (FO 2534) 2. a bureau system is an extension of central authority and is itself an administrative

generation of authority and orders. An autonomy succeeds only by a few stellar individuals being opportunely placed. A **bureau system** runs by admin and corrects itself by admin. (FO 2534)

**BUREAUX**, 1. a **bureaux** set up is defined as a team where each member works as a team member first and a trained specialist second, who contributes his specialty to the team effort. Bureaux exist to expand Dn. and Scn by raising stats and delivery in existing activities and expanding the area by forming new activities whose stats and delivery are then raised. (CBO 51) 2. a division is called a **bureau**. The plural (French) is *bureaux*. (CBO 52) 3. **the bureau** is external. A **bureau** always has external products. The external management function and so on is the **bureau** function. **Bureau** is something that operates another org; it doesn't operate the org that's there. (ESTO 2, 7203COI SO 11) 4. Flag Org, WW and Cont'l ECs go through **bureaux** which coordinates their orders, prevents conflict and makes a one channel communication line to orgs. (CBO 28) 5. policy is the broad general outline originated by top management. Orders are the instructions issued by the next lower level of management to get things done that result in products. Here is where a **bureau** acts. It is a supervisor and orderer for top management. (FBDL 12) 6. each CLO is patterned after the highly successful and standard 7 Division Org Board issued in HCO Policy Letters in 1967. Each division is called a bureau. (SO ED 96 INT) *Abbr.* BU.

**BUREAUX ACTION**, any stress or confusion in running the Flag **Bureaux** or a Continental Liaison **Bureaux** would *have* to be *made*. The flow is elementary. The data is gotten in = collected stats, reports, dispatches. It is condensed =plotted, assembled, filed, made available internally. A very high or very low stat is spotted by evaluations and all relevant data on it is found in the

**bureaux** so as to locate and state the real why. The evaluation analysis is distributed. The action planning does a plan. Operations designates a branch office or the local unit to activate it. A missionary goes or it is left to the **Bureaux** Liaison Office in the org. The plan is posted with the stat and when the stat recovers or we have the new data to publish on a high stat, the cycle is ended. This is actually all that is basically going on in **bureaux**. When you understand it as a simple, repeating cycle, you understand **bureaux action**. (CBO 50)

**CADET ORG**, it will be a Seven Division Org manned by children who have actual posts. Its org board must be planned out; must be standard. Any discipline goes through the **Cadet Org**. They must, every one of them, be hatted. Unless they are signed up SO members, the children are used in the galley or estates EPF only. There must be a nursery. There must be QMs on duty as reception. There must be stable personnel and there only could be if this were to have the status of an org. You want quarters where you can have a baby care unit, dormitories, kitchens and moderate space for the **Cadet Org** desks, auditing and Qual functions. Why should they be miserable and knocked about when they can have their own org and be respected and demand respect from their elders as well, and feel proud of themselves. The real trick is to get them over to cause without their having to use naughtiness to be at covert cause. A **Cadet Org** could accomplish that. (ED 18 Area Estates)

In this case a hole in the line up is **camouflaged** by the fact that somebody appears to be holding it who isn't. (HCO PL 10 Sept 70) 2. means post not filled but only appears to be, thus leaving a hole in the line up. Such people always cause overwork by persons above or below them and are pretty dangerous to have around. **CAPITAL, WORKING**, the current monies or net worth of an individual or company, after deducting current liabilities, that is available to be put to work in the operation. Also called net current assets.

**CAPTAIN**, 1. on Flag the **Captain** is doublehatted as the CO FSO and thus has an assistant captain though this is not necessarily the way it must be. Therefore, as CO FSO he is located in Dept. 19, wearing a separate hat from captain. The **Captain** runs his ship which includes the engine room, deck and galley, and carries out his post duties in accordance with his hat as established in FOs. He runs these areas via the Assistant **Captain**, Chief Engineer, 1st Mate and Chief Steward. He is the Senior Product Officer of the area, and wears the planning and programming hats. (FO 3576RA) 2. the **Captain** in Department 21 is subject to owner or board; the highest authority aboard in all divisional and departmental matters, and subject to the owner's or board's and their Commodore, but the ship, its cargo, its crew and passengers, and all conduct of operations are subject to the **Captain**. **CAPTAIN'S MAST**, the **Captain** of a ship is its judge and at sea **Captain's Mast** is held on Saturday morning. In a very large ship it is preceded by the Chief Officer's (or Executive Officer's) Mast wherein the Executive Officer passes on all offenders and sends the more reprehensible ones to the **Captain's Mast**. The **Captain** may, however, at any time sentence offenders. Up until only a century ago he had the authority to hang men until one hanged the son of the Secretary of the Navy of the US for mutiny, after which the custom lapsed. Modern practice limits the **Captain's Mast** punishment to ten days in the brig on bread and water. In merchant service the offender is logged and loses one or more day's pay as a result. In the Sea Organization the Commodore or the ship's **Captain** assigns conditions without the formality of a mast and these conditions and their rewards or penalties constitute in the main the bulk of Sea Organization justice. (FO 87)

**CAPTAIN'S MESSENGER**, the **Captain** of any major SO vessel has a messenger. The messenger carries the Captain's Messages. He helps the Captain's Yeoman keep the files and comm station. The messenger also serves as a guard. The messenger serves as Captain's Bowman in boats. The messenger carries packages or luggage for the Captain when ashore. The messenger may be sent on errands by the Captain's Yeoman. The captain's messenger on duty wears a tar hat and a petty officer cap badge on it and a duty belt which is white. (FO 1274)

**CAPTAIN'S STEWARD**, regardless of who is **captain**, there must be on major Sea Org vessels a **Captain's Steward**. The duties of a **Captain's Steward** are similar to those of a Commodore's Steward. The **Cap-**

**tain's Steward** keeps the quarters, clothes, laundry, equipment, dishes, silver, linen and supplies of the **Captain** up and cared for. The **Captain's Steward** serves the **Captain** at meals and prepares and serves snacks and coffee when the **Captain** is on long watches at sea. (FO 1274)

**CAPTAIN'S YEOMAN**, the **Captain** of Flag is entitled to a yeoman. The **Captain's Yeoman** handles the **Captain's** paper, letters, routings, arrangements and papers and helps the **Captain** keep his files. (FO 1274)

**CASE FILE**, it is vital that the HGC retain a case file for every case it ever processes. This specifically includes staff members. All auditor's reports, assessments and notes and recommendations concerning a case, including staff cases, must be part of this file. This file must be available to staff auditors processing the preclear. Anything an auditor knows about a case, as a general summary, should be put in the PC's file for future reference, especially at the end of an intensive. (HCO PL 30 Jan 61)

**CASE SUPERVISOR**, 1. the **case supervisor** does the folders. The **case supervisor** does not interview cases but runs them by the book and folder. (HCO PL 1 Feb 66 III) 2. supervises the cases of all students on the course. (HCO PL 18 Dec 64, *Saint HM Org Board*) 3. the **case supervisors** of an org are all located in Division 4, Department 12 in the HGC **case supervision** section headed by the Senior CS. It does not include funds for research or the support of non-profit activities, gifts, royalties or other matters. It is a clean statement of so many pounds received due to a department's or an organization's activities less how many pounds that department or organization spent for salaries, materials, supplies, printing, advertising, maintenance and a general share of quarters, utilities, and general service. It may not be "credit coming to us from an FBO" nor collectible but not received sums. Even cheques delayed in clearing may not be part of this org cash figure (nor may any expenditures be committed against uncleared funds). It's fabulous what one can get done in a hospital with a touch assist and locational processing. (HCOB 15 Sept 59)

**CATASTROPHES**, a type of dev-t. A catastrophe occurs by lack of prediction of a possible circumstance. Those things planned for do not become catastrophes. Catastrophes usually follow a period of excessive dev-t. (HCO PL 27 Nov 69)

**CATEGORY ANALYSIS**, see ANALYSIS, CATEGORY.

**CAUSATION**, self-determinism is entirely and solely the imposition of time and space upon energy flows. Imposing time and space upon objects, people, self, events, and individuals, is causation. (Scn 8-80, p. 44)

**CAUSATIVE STATISTICS**, in any set of statistics of several kinds or activities, you can always find one or more that are not "by luck" but can be directly caused by the org or a part of it. Amongst any set of statistics are those which can be pushed up regardless of the rest and if these aren't, then you know the worst-no management. (HCO PL 6 Nov 66 I)

It does this disseminating to and selecting celebrities to orgs. This is done by establishing itself as the stable datum for handling celebrities. If any celebrity wishes to know more about Scn, he is contacted by the **Celebrity Centre**, handled, disseminated to, and selected. (HCO PL 24 Sept 70R) *Abbr.* CBO.

**CENTRAL COMMITTEE OF EVIDENCE**, a **Central Committee of Evidence** is convened by the Association/Organization Secretary of any **Central Organization** or City Office. It has exactly the same powers and scope as the HCO Area Committee of Evidence, but would normally not handle cases involving field auditors, field technical practice or matters relating to disputes between public and the **Central Organization** or City Office as to fees, payments or service failures, which are all more properly the business of HCO. The **Central Committee of Evidence** is more properly concerned with all matters relating to the conduct and activities of organization members, administrative, technical and personal, fixing responsibility for various conditions or breakdowns within the organization and safeguarding the organization against personal conduct or security risks prejudicial to effectiveness and public repute. Threatened dismissals, requests for reinstatement, protests against transfers or injury to reputation as well as marital or second dynamic matters are all heard by the **Central Committee of Evidence**. (HCO PL 7 Sept 63)

(BPL 17 May 69R I) 2. receives and files all Scientologist, and student correspondence

for filing and files. Furnishes materials for departments and registrars. (HCO PL 18 Dec 64, Saint Hill Org Board) 3. the purpose of central files is to collect and hold all names, addresses, pertinent data about and correspondence to anyone from anyone who has ever bought anything from the organization. (HCO PL 23 Sept 64) 4. **central files** contains folders of persons who have bought something. Not idle lists. CF folders contain names of persons active in the last three years, persons who wrote to us or bought something. (HCO PL 16 Apr 62) 5. the definition of the Div 2 CF is those who have bought something from the org. (FSO 360) 6. these include a file folder for everyone who has ever bought anything from the Central Org. Everything about a person, except his financial statements, actual training record and test record is in CF, but data even on these, such as a profile sheet, can be included. **CENTRAL FILES FOLDER**, 1. the **CF folder** is the **folder** of a person who has

bought something from an organization. In it is filed all the data concerning the person, any correspondence to or from the person to anyone in the organization. (BPL 17 May 69R I) 2. is the folder of a person who has bought something from an org. (HCO PL 8 Apr 65) 3. CF folders contain names of persons active in the last three years, persons who wrote to us or bought something. (HCO PL 16 Apr 62) 4. **the CF folder** is an interesting item all by itself because it is the body of the opposite number, the magic body of the person who is in the field. It's actually a magic body. It's a counterfeit body that the organization holds, so therefore a person is never in CF until he has originated himself to the organization. The definition of a **CF folder** is: it is that **folder** which contains all and everything (except for the testing records) that has been originated to an organization by an outside person. There should be a folder for every such person. (5812C16) 5. these folders never decay unless the person dies or asks to be taken off the list. Everything relating to communication with this person and new invoices etc., including phone notes goes in his folder. (LRH ED 49 INT)

**CENTRAL FILES IN-CHARGE**, all files on Scientologists or applicants are under **Central Files In-Charge**. These include a file folder for every one who has bought anything from the Central Org. (HCO PL 20 Dec 62)

**CENTRAL FILES INFORMATION SLIP**, (CF info slip) with current invoice routing policy no copy of credit/debit invoices ever get to CF. The fact that a person has just made an AP or has just come into the org to start a service on AP used may not be known from the CF file. To remedy this situation and prevent further unusual solutions

and complicated admin, the **CF information slip** is brought into use. The **CF info slip** is made out: (1) whenever an invoice is written for an AP received, whether in the mail or over the counter; (2) whenever an invoice is written for an AP used. The person who has written such an invoice fills in the CF info slip and routes it at once to CF via the ASR or org communication lines. (HCO PL 29 Apr 73 I)

**CENTRAL FILES LIAISON**, you need a minimum of three people in CF: (1) CF Officer, (2) CF Clerk, (3) CF Liaison. The CF Liaison only pulls, collects folders and files for *Dissem*. He never files particles, only CF folders and only for *Dissem*. (HCO PL 18 Feb 73 IV)

**CENTRAL FILES OFFICER**, you need a minimum of three people in CF: (1) CF Officer, (2) CF Clerk, (3) CF Liaison. The **Central Files Officer** is in charge of the section and sees to: (a) new folders being made up, (b) correction to addresses, (c) folders being pulled into the org (new business from Div 6), (d) folders filed, (e) the CF Clerk and CF Liaison producing, (f) sufficient file cabinets and adequate space for CF to expand into. (HCO PL 18 Feb 73 IV)

**CENTRAL FILES/PROMOTION LIAISON**, your post of **CF Liaison** is important to me. You have to select hot files from CF and get them written to by registrar and select ARC Breaks with the organization from CF and get them cared for by the Assistant Registrar. (SEC ED 1, 15 Dec 58)

**CENTRAL FILES SECTION**, (Dissemination Division) the prime purpose of the **Central Files Section** is: to help Ron collect and hold all names, addresses, pertinent data about and correspondence to anyone from anyone who has ever bought anything from the organization. (HCO PL 21 Sept 65 VI)

Everything about a person, except his financial statements, actual training record and test record is in CF, but data even on those, such as profile sheet, can be included. For instance a copy of an invoice, the profile of a new test taken, a notice of certification, all are forwarded to **CF for filing**. (HCO PL 20 Dec 62)

**CENTRALIZATION**, an organizing plan by which activities of the same type or similar in nature are brought together in an organization forming a central group, as in the establishment of one purchasing department for an entire company.

**CENTRAL ORGANIZATION**, 1. to clarify the functions and purposes of Scientology organizations, this was the original intention: Worldwide was to provide supreme control over Scientology and orgs, over the world. Continental Orgs under the guidance of WW took full responsibility for their continental areas. **Central Orgs** under the guidance of Continental took full responsibility for their zones. Area Orgs took full respon-

sibility for their own areas. WW founded new Continental Orgs. Continental Orgs founded **Central Orgs**. **Central Orgs** founded Area Orgs. Area Orgs founded Franchise Centres. This was the original pattern of intention. (LRH ED 1 INT) 2. Class IV Org. 01CO PL 6 Feb 66) 3. a **Central Org** promotes action in junior orgs and franchises and field and helps by training up their auditors and handling their tough PCs. An auditor in a lesser org or the field should know he can get training from the **Central Org** and should know that he can unload tough PCs on it. Services may, be delivered to anyone in the continental. area who wishes to take them in the **Central Org**. The **Central Org** promotes directly to the public. in its own area, and helps the Area Orgs, franchises and groups to successfully carry out their functions so as to produce streams of customers from their areas to the **Central Org**. The **Central Org** has long been charged with holding the tech standard for its area. It must hold a standard, as a stable terminal, for all the flow lines of its continent. (LRH ED 34 INT) 4. there are two divisions in a **Central Organization**. One is Technical, the senior division, the other is Administration. There are six departments. The Technical Division includes these three departments: the PE Foundation, the Academy of Scientology and the Hubbard Guidance Center. These carry out the three basic services of a Central Organization-public training and processing, individual. training and individual processing. The Administrative Division consists of three departments: Promotion and Registration, Material and Accounts. These care for the three functions of contacting and signing up people, taking care of quarters and supplies, and handling all matters of finance. (HCO PL 14 Feb 61, *The Pattern of a Central Organization*) 5. a **Central Organization** is basically a service organization. (5812C29)

CERTAINTY MAGAZINE, *Certainty magazine* should be issued semi-monthly. Issues shall be used broadly as mailing pieces and are not to go just to the membership and be forgotten. CERTIFICATION BOARD, the **Certification Board** of a **Certified Auditors'**

School has as its chief responsibility the **certifying** of students of the school. As such it is one of the most responsible and trustworthy posts of the Foundation and can be manned only by the most trustworthy personnel. The **Board** is headed by the Chief Examiner. He is the only full-time member of the **Board**. He may request, to aid him in check-running and examining students, auditors from the processing units or from the clearing service but he must not overstrain either organization. He is *not* to use, for check-runs, instructing auditors from the school. It is expected that the Chief Examiner deliver, himself, examinations to the students. And it is not expected that he certify anyone unless he himself has interviewed the person. The **board** has a dual purpose. First, it has in its charge the certification of students and second it has in its charge the awards given to instructing auditors and to auditors in the processing units. (Directive 12 Dec 50)

**CERTIFICATION EXAM**, this is a written test taken from the HCOBs, tapes, policy letters of the theory material the student studies. This test examines the student to ensure the student knows the data. (FO 1685)

Issues preclears and students with data about their next step as a routine action. Calls in all provisional certificates within one year for internships (inspection for admin courses) and permanent certificate validation. (BPL 7 Dec 71R I) 2. The chairman presides over all meetings, con-

ducts the largest part of the interrogation and sees that the committee properly executes its duties in all respects in a dignified and expeditious manner. The chairman may not interfere with the votes of the members and must include any divergences of opinion on the findings by dissenting members. The chairman sees to it that the findings are based on majority opinion. The chairman votes only in case of deadlock. The chairman may himself dissent from the majority opinion in the findings but if so, includes it as a separate opinion in the findings like any other member dissenting, and may not withhold findings from the Convening Authority for this reason. The chairman runs good S-C-S during all proceedings and gets evidence given rather than put in its lines. He gets the job done. (HCO PL 7 Sept 63)

**CHANNEL**, one must remember to channel a basic purpose. A channel has two boundaries, one on either side of it. These must ex-

ist in an org. They consist of discipline of those who would distract or stray or wander or who help the opposition or suppress the basic purpose or sub-purposes or who cannot seem to learn or comply with policies or orders. Discipline must only be aimed at the above and where it is random or doesn't serve to channel, then it itself is a distraction or a barrier and will breed non-compliance. (HCO PL 13 Mar 65, Division 1, 2, 3 The Structure of Organization What is Policy?)

As a note, it would not be the opinion of the **checkrunner** but an actual **checked** off list taken from the study materials of the student and each one would be passed or flunked. (LRH Def. When the **checksheet** is fully initialed, it is complete, meaning the student may now take an exam and be granted the award for completion. Some **checksheets** are required to be gone through twice before completion is granted. (HCOB 19 Jun 71 III)

**CHECK SIGNING PROCEDURE**, an executive with the authority to sign checks *must* for his own protection and that of the org, know and have the following before signing any check of any kind for anything: (1) amount of bills owed by the org, total and since when; (2) amount of cash in the bank *by bank statement* (not by adjustment of outstanding checks); (3) the adding machine tape of the checks being presented; (4) a disbursement voucher white clipped to each check. **CHECK STUBS**, counterfoils. (HCO PL 23 Jan 66)

**CHINESE DRILL**. see CHINESE SCHOOL.

**CHINESE SCHOOL**, 1. as very few Westerners have ever seen a Chinese or Arab school in progress, it is very easy for them to miss the scene when one says Chinese School. The term has been used to designate an action where an instructor or officer, with a pointer, stands up before an assembled class and taps a chart or org board and says each part of it. A Chinese class sings out in unison (all together) in response to the teacher. They participate! Chinese School, then, is an action of class vocal participation. It is a very lively, loud affair. It sounds like chanting. It is essentially a system that establishes instant thought

responses so that the student, given "2 x 2" thinks instantly "4." You could teach the laws of listing and nulling, The Auditor's Code, axioms and so on in this way. There are two steps in such teaching. (a) the instructor taps and says what it is, then asks the class what it is and they chant the answer; (b) when the class has learned by being told and repeating, the instructor now taps with the pointer and asks and the class chants the correct answer. Anything can be taught by Chinese School that is to be learned by rote; (HCO PL 13 May 72) 2. staff or div staff all together in front of a big org board chanting together the hats, duties, and products of the org as visible on the org board. **CHURCH OF AMERICAN SCIENCE**, there is a difference between the Church of American Science and the Church of Scientology. The Church of American Science is a Christian religion. It believes in the Holy Bible, Jesus is the Savior of man and everything that's necessary to be a Christian religion. People who belong to that church are expected to be Christians. These two churches fit together. We take somebody in as a Church of American Science. It doesn't disagree with his baptism or other things like that, and he could gradually slide over into some sort of better, wider activity such as the Church of Scientology and a little more wisdom and come a little more close to optimum. Then if he was good and one of the people that we would like to have around he would eventually slide into the HASI. So we have provided stepping stones to Scn with these organizations. (541OC04)

**CHURCH OF SCIENTOLOGY MEMBERSHIP**, today, with the great expansion of Churches of Scientology throughout the world, a new class of church membership is needed. It is additional to Lifetime, International and Associate Memberships. (1) It is called Church of Scientology membership. (2) It is free. (3) It does not have to be renewed annually. (4) It is terminated only by (a) announced departure of (b) expulsion from Scn. (5) It is open to anyone who is in agreement with the aims and creed of the religion Scientology. (BPL 24 Sept 73R XI)

2. Class I to III org. (HCO PL 6 Feb 66) 3. any organization having less than ten persons is classed as a City Office or Formin-a Org. A City Office is organized to do PE and select persons to upper 'orgs to do co-audits and non-classed courses and incidental processing. A City Office may not have executive secretaries. It can have an HCO Area See and an Org See and an org board such as fits its actual functions. (HCO PL 30 Jan 66 II) 4. a City Office evolves much as a large Central Organization did. A City Office is at its beginning characterized by the fact that everyone on staff wears all the hats. There is no individuation of departments. Later some semi-individuation can take place. This comes in as income grows. Even if all the titles are worn, the departments do not exist in fact and a condition can arise where people try to be department heads when they are really just sweeping floors. In a City Office at first one cannot afford to employ administrative staff who only administer. The first break-out of this is hiring a receptionist. A City Office is composed almost entirely of technical personnel who while working at technical activities (teaching, processing) somehow handle administration. A City Office invoices everything received, banks it all and pays all its salaries and bills by cheque. That is the lowest rung of an accounts department. Probably the Assn See in a City Office does this. The records are kept no further and someday get audited. The fundamental action of a City Office is technical service. A City Office which is well established may have seven or eight people on staff. A City Office, well-handled, can grow to become a Central Organization with a Six Department System. HCO usually appoints one senior staff member on which the two can agree. The senior staff member holds a session or sessions and both contenders must abide by his findings and award of any money or damages or return of property. There is no further appeal. A Civil Committee of Evidence follows the same procedure and has the same rights as any other Committee of Evidence. (HCO PL 17 Mar 65 II)

**CLASSIFIED OFFICIAL ORG**, there is no such thing as a classed official org. Any official org (not a franchise or gung-ho group) can perform and teach any class or grade up to Class IV. This includes Standard Dn. HDC and HDG. Only an official org can teach academy courses and qualify students for Scn certificates. (HCO PL 15 Dec 69)

**CLASSIFICATION**, 1. classification is in addition to certification and is by additional examination by HCO. Classification is sealed on any certificate by "class" and large Roman numerals and a Hubbard Communications Office ring, the Roman numerals denoting class to be huge and in the center of the seal. The object of class is that course completion alone may award a certificate. But course proficiency is denoted by a class seal. Auditors who have difficulty getting results should not be classed. Classification is not a matter of obligation to HCO. It is a special award and is not owed to anyone. (HCO PL 12 Aug 63) 2. means that we require certain actions to have been done or conditions to have been attained before we

say that individual is classified in that and let him go on up. (SH Spec 66, 6509CO9)

**CLASSIFICATION CHART ISSUE ONE**, the general classification chart issue one is as follows:

<i>Class</i>	<i>Process Types</i>	<i>Certificate</i>
0	Listen Style,	HAS

After completion of the classification course the auditor is classified to that level and may audit PCs professionally on the processes of that level. (PRD Gloss) 2. first one does the certificate course (theory) and gets his certificate. Then one takes the classification course (practical) for that class and gets his provisional classi-

fication. Every auditor must be classified now. (HCO PL 5 May 65)

**CLASSIFICATION EXAM**, 1. this is a practical exam. The test consists of a checkout of TR-4, any of the meter drills of the level, and the auditing of a doll on the process or processes of that level with full TRs and admin. The examiner gives the student a mock C/S and the student audits the doll on that C/S. The student is required to pass this exam 100%. The student is flunked for out TRs, out meter drills, out admin, or out tech only. (FO 1685) 2. this is just a good, comprehensive examination of the exact course he has completed earlier. It is in theory, practical and auditing. (HCO PL 3 Dec 64)

**CLASSIFICATION, GRADATION AND AWARENESS CHART**, the route to Clear, the bridge. On the right side of the chart there are various steps called the states of release. The left-hand side of the chart describes the very important steps of training on which one gains the knowledge and abilities necessary to deliver the grades of release to another. It is a guide for the individual from the point where he first becomes dimly aware of a Scientologist or Scn and shows him how and where he should move up in order to make it. Scn contains the entire map for getting the individual through all the various points on this gradation scale and for getting him across the bridge to a higher state of existence. (AUD 107 ASHO)

**CLASS SEAL**, classification is in addition to certification and is by additional examination by HCO. Classification is sealed on any certificate by "class" and large Roman numerals and a Hubbard Communications Office ring. The Roman numerals denoting class to be huge and in the center of the seal. Cleaners

**CLEAN HANDS CLEARANCE CHECK**, in order for an auditor who is regarded as a security risk to be considered to have clean hands, it is necessary for him to receive a clean hands clearance check from HCO. The clean hands clearance check consists of that auditor having the following rudiments put in very thoroughly by an HGC Class II staff auditor using prepclearing techniques. (1) auditor. "Are you willing to talk to me about your difficulties?" (2) withholds-last two pages of Joburg Form 3 or all of Form 3A; and all of an HCO WW Sec. Form 6A. Plus asking "Has a withhold been missed on you?" frequently as all such persons specialize in getting them missed. This will be checked out on completion by the HCO Area Secretary for any questions on Form 3 or 3A and Form 6A which may be still alive and for any missed or partial withholds. (HCO PL 27 Feb 62)

**CLEANING CLEANS**, doing something that is already done or ordering something to be done already done. (BPL 30 Jan 69)

A staff member usually assigned his own work area as a cleaning station, with the divisional officer I/C of the cleaning stations for his whole area. (HCO PL 1 Aug 74 11R)

Cleaning Station

**CLEAR**, a Clear has risen from the analogy between the mind and the computing machine. Before a computer can be used to solve a problem, it must be cleared of old problems, of old data and conclusions. Otherwise, it will add all the old conclusions into the new one and produce an invalid answer. Processing clears more and more of these problems from the computer. The completely cleared individual would have all his self-determinism in present time and would be completely self-determined. (Abil 114A)

**CLEAR AMERICA CRUSADE**, crusade to boom USA (February 1974). Every Scientologist had to get in one new Scientologist by mid April. (AO 467-1)

**CLEAR BRACELET**, 1. Grade VII Clear is signified by a silver identification bracelet with the S and double triangle on it. (HCO

PL 27 Oct 65) 2. silver Clear bracelets are issued by HCO Sees at the expense of the HGC or the field PC to those who meet Clear requirements. (HCO PL 12 Aug 63)

Clear Bracelet

**CLEAR CHECKER**, a Clearing Course student is not officially Clear before being pronounced so by a qualified checker and Qual and may not announce the fact as a fact until so checked by an authorized Clear Checker who has actually officially checked him out and until he/she has been declared Clear by Qualifications Division SH. (HCO PL 16 Dec 66) See CONTINENTAL CLEAR CHECKER.

**CLEAR CHECKOUT**, 1. the checkout hereafter shall consist of (1) has run the materials of the Clearing Course to free needle. (2) is the person's TA between 2 and 3 with a loose or flowing needle? (3) Rehabbing all grades from Dn. release up to Clear, making sure they have actually, each one, been run and attained. (4) a marked change in the person. (5) is the person cheerful and happy about being Clear? (HCO PL 13 Sept 67) 2. (Grade VI Clear Test) for a clear checkout, there must be no reaction on the needle. The needle must be completely free with the tone arm at clear read for the sex of the person being tested. The needle can be made to impulse with the body totally motionless, hands steady, and no tricks. Further the needle can also be shoved from one side of the dial to the other by the Clear looking at it. Records must be presented showing that all R6 materials have been run and no other characteristics or phenomena are required or demanded of the Grade VI Clear. (HCO PL 2 Apr 65, Meter Checks)

**CLEAR ESTIMATE**, [Called a case estimate now. Was an estimate of number of hours of auditing required to clear a person given to that person at his request.]

**CLEARING**, an operation whereby a badly cluttered communication channel may be swept clean. Sometimes an emergency exists which requires an enormous traffic volume and this has communicators slaving all up and down the lines. When a line or number of lines are to be cleared of an emergency situation which has ceased to exist, the Chief Communicator is informed by the deciding executive and all messages appertaining to the past situation are swept back to files whether they have been acknowledged or completed or not. (HTLTAE, p. 118)

**CLEARING CONSULTANT**, the title of "goal finder" is changed to a Clearing Consultant. (HCO PL 11 Apr 63, Goals Finding and Goal Finders)

**CLEAR PROFIT**, income less *all* area expenses. (FO 2451)

**CLEAR PROSPECTS CARD FILES**, consist of "I Want to go Clear Club" members who have not yet signed up for the Clearing Course. (BO 47, 8 Aug 70)

**CLEAR REGISTRAR**, 1. the public Reg of an AO. (FO 3139) 2. a single hatted registrar on post in Div 6 AO/SH to do tour and event regging. She handles tour and event attendees for the duration they attend. At all other times these people come under Division 2. The name of this registrar in AOLA, AOSH UK, AOSH DK, is the Clear

Registrar. (LRH ED 15911-1 INT) 3. the post of Clear Registrar is in Division 8, Dept 24. The Clear Registrar does not do any sign-ups in the org. She does sign-up people for Clear at AO *public events* and on tours. The Clear Registrar also handles the administration of the "I Want to go Clear Club." She is primarily responsible for the Clear Club cycle. (BO 47, 8 Aug 70)

**CLEAR TEST**, 1. the entirety of the Clear test is conducted with the testee on the E-meter. A Clear test form is used by the Director of Processing. The Director of Processing only conducts the E-meter Clear test and forwards all tests up to the HCO Board of Review. He cannot tell the person he is Clear. (SEC ED 150, 9 Mar 59) 2. for a release (formerly keyed-out Clear) check, the TA position may be anything from 2.0 to 3.0 with a floating needle. There is no other test of any kind for a release. Note that this is the old "Clear Test." It now is classified as a release. (HCO PL 2 Apr 65, Meter Checks)

**CLERICAL WORK**, the functions in an office of handling mail and inter-department communications, record keeping, filing, and typing.

**CLINICAL**, 1. at this point in Sea Org development, there are two categories of DPF members: new recruits and clinical. Clinical personnel include out-ethics cases, tiger types, persons who need extroverting from their environments, and the like. Not to put ethics in on these guys is very cruel indeed. Ethics is what is needed most; ethics and good 8-C. (FO 3126) 2. for review of actions, possible auditing, not to be included or used in crew in any way above SPF and DPF and then only temporary pending disposition. (OODS 27 Jan 72)

**CLO COUNCIL WW**, the CLO Council WW is established as a body composed of all properly appointed CLOs at WW. Its primary function is to serve as an examining body on complaints referred to it concerning

orders and directions issued on or against Continental and/or Area Orgs. A complaint may be originated by a CLO, or the CLO may be ordered by his Continental Exec Council to raise it. The Council may only veto an order or directive already issued. It may not issue orders, plan or advise. It handles only after the fact of issue. No LRH order may ever be over-ridden by the Council. No Controller order may ever be over-ridden by the Council. No Guardian order may ever be over-ridden by the Council. (HCO PL 20 Apr 69 II) [The above HCO PL was cancelled by BPL 10 Oct 75 VII]

**CLO ETHICS OFFICER**, the duties of an FB or CLO Ethics Officer in Bureau 1 are the general standard ethics actions external, making certain that ethics is standard and in throughout CLOs and orgs. A Bureau 1A FB or CLO Ethics Officer duties are internal in the FB -or the CLO. (FO 3067)

**CLO EXPENSE**, a CLO is supported by funds from its nearest major org. This does not mean all funds above allocation for that org belong to a CLO. 10% of the CGI of the major org should be more than adequate to support a CLO since if the CLO is any good at management at all the income will be high in that major org. It is expected to send far more to SO reserves than it consumes. (HCO PL 9 Mar 72 I)

**CLO LEVEL**, Flag level-international whys applying to all orgs. CLO level-continental whys to remedy to get Flag programs and projects in. Org level- divisional and departmental and individual whys that prevent Flag programs and projects from going in. So that's the reason for a CLO: to observe and to send all data to Flag and to continentally find out why Flag projects and programs are not going "in" in an org and remedy that why and get the programs and projects in. That is a CLO. (HCO PL 22 Jul 71)

**CLO-OTL RESERVES**, any reserves that may be built up locally by book and pack sales, events, FSM commissions and booming the major org. It is expected to send far more to SO reserves than it consumes. (HCO PL 9 Mar 72 I)

**CLOSED CORPORATION**, see CORPORATION, CLOSED.

**CLOSED SHOP**, see SHOP, CLOSED.

**CLOSE ORDER DRILLS**, close = confined to specific persons or groups. Order = a command or direction. Drills = disciplined, repetitious exercise as a means of teaching and perfecting a skill or procedure. (ED 118 Flag)

**CLOSE, THE**, 1. the near-end of a sale in which the salesman secures the interested party's consent that he will purchase the product or service. 2. in investments, the term designates the end of a trading session or market day wherein all trades have been executed and closed or finalized.

**CLOSURE**, 1. at a meeting or conference, the ending of a discussion or debate at the chairman's suggestion or by taking a motion from the floor followed by a vote, in order to take up the next topic of business. 2. in British Government, closure enforces a time limit on a debate.

**CLUSTER ANALYSIS**, see ANALYSIS, CLUSTER.

**COACH**, a student who is standing in the role of "PC." (HCOTB 17 May 57)

Coach

**COACHING THEORY**, see THEORY COACHING.

**COAT OF ARMS**, in all ages and places, men have used symbols to communicate. From very early times, we find that people belonging to the same family or group or tribe wore similar clothing. Aside from being a matter of fashion, this also made it easy to identify one's group members even at a distance. In the Middle Ages, it became even more important to develop distinguishing symbols since a knight in full armor is not easy to identify. So the practice of designing distinguishing symbols and designs to be used by the knight, his retinue, his family and group became a very important art and science. Soon, every knight had his distinguishing marks which represented not only his symbolic prowess but also the heritage of his family and its connections. The coat of arms as a whole consists of several major parts: the crest, the mantling, the shield or escutcheon (a word coming from the Latin word, scutum, meaning shield) and the motto. If you inspect a coat of arms as a whole, knowing the relationship of the parts, you will see how it derives from a very simple representation of the basic armor of a knight, along with its distinguishing symbols, with the motto as the guiding principle on which he and his group operate, set just beneath it. The coat of arms became the rallying point and sign of recognition for any group of people. By it, they could identify themselves as a group with common purposes, common Lyoals. (FO 3350)

Coat of Arms

**CO-AUDIT, 1.** a team of any two people who are helping each other reach a better life with Scn processing. (HCO PL 21 Aug 63) 2. we will call **co-audit** "Do it yourself therapy." Do it yourself therapy is the lowest cost therapy in the world. It is cheap because you give some when you get some. (HCO PL 23 Jan 61)

**CO-AUDIT CASE SUPERVISOR,** (Co-Audit C/S) C/S where a **co-audit** exists separate from the HGC lines. (HCO PL 25 Sept 74)

**CO-AUDITOR ROUTE,** preclear progresses as in the preclear route. Auditor progress, is by training for certificates only, not classification. There is a certificate for every level. (HCO PL 5 May 64)

**CO COUNCIL,** it is vital that COs of interdependent orgs in close proximity form amongst themselves a means of resolution of situations that require their coordinated attention and action. Each CO has exact problems. Each depends on the other orgs. The purpose of the **CO Council** is: to state and resolve their major current concerns and to form immediate and longer range actions to handle expansion. The chairman of the council is the CO of the Founding Org (Ma-

nagement Org) or its liaison office. The **council** meets no less than once a week and more frequently as needed. (FO 2810)

**CODE,** generally an arbitrary list of words that stand for words actually meant. (HCO PL 11 Sept 73)

**CODE OF A PETTY OFFICER,** (1) uphold command intention. (2) follow exactly the rules of the Sea Org. Let there be no out-ethics among POs. (3) always take command in a situation that needs urgent handling when there is no senior present. (4) wear your Petty Officer uniform every day. (5) insist on your rights as a senior rating. (6) back up your seniors. (7) take responsibility for your juniors. (8) never invalidate your status or let it be invalidated. Hard work and nothing else won you your title. Be proud of it. (9) increase your knowledge and skill in seamanship daily-a Petty Officer is an experienced sailor. (FO 1978)

**CODE OF A SEA ORG MEMBER,** the code of a Sea Org member has been distilled from the collected works of L. Ron Hubbard. These rules are not new; on the contrary they are the traditional ones with which the Sea Org was built. (FO 3281) [See the referenced FO for the full code. I

**CODE OF REFORM,** see REFORM CODE.

**COFFEE SHOP AUDITING,** auditing inevitably done casually out of auditing rooms by staff on staff or students on friends and students even when you try to prevent it. (HCO PL 20 Mar 61II)

**COGNITIONS,** new concepts of life. (HCO PL 5 May 65)

**COINS,** 1. an organization has so many registrar minutes to invest. And the registrar minutes it has to invest determines the number of sign-ups which an organization has. Do you get how you figure out the coins? This is the internal economy of an organization and these are the real factors of econo-

my. It's the HAS that makes them available to be spent. He's in charge of the personnel lines and spaces. So he also must be in charge of the potential coins the organization has to spend. Not dollars, they're worthless. He's in charge of how many auditing hours the HGC can furnish, how many instructor minutes can be furnished, how many typist minutes. (FEBC 10, 7101C24 SO III) 2. the coins are the volume -potential volume of production per department for the final product of the department, not necessarily the final valuable product of the org. (FEBC 10, 7101C24 SO III)

**COLD PROSPECTS**, prospects who have not expressed a reach for training or processing. (SO ED 230 INT)

**COLLATERAL**, personal property pledged by the borrower to the lender to partially or fully cover the amount of a loan, and which is capable of being converted to cash.

**COLLECTION**, in business, the act of collecting cash, usually by a specified time, from customers who have made purchases on credit.

**COLLECTION FOLDER**, every person owing money has a **collection folder** into which copies of invoices of all payments made are filed, the **folder** to include copies of all contracts and notes. **Collection folders** are summarized monthly and statements are sent out monthly to debtors. (HCO PL 23 Jan 66)

**COLLECTION PROCEDURE**, contacting by phone, letter or in person credit customers who have not yet paid for their purchases.

**COLLECTIONS LETTERS**, letters encouraging payments. (BPL 13 Feb 68)

**COLLECTIONS SECTION**, (Income Dept) the Collections Section sends out all mailed statements to individuals and statements to orgs and acts and writes to collect any money owed the org from any source. It

has its own statements books and files and receives whatever Area Cashier and Collections has uncollected when a person leaves the area. **Collections** should have a statement sheet for every person who owes the org money. (HCO PL 18 Apr 69 II)

**COLLECTIVE OPINION**, by the nature of the bank, **collective opinion** is always derogatory or bank, this being the one thing held in common by all. So the group ignores the good and embraces the bad. (HCO PL 21 Jan 65)

**COLLECTIVE-THINK**, 1. is always closer to bank-think than individual reasoning. That's because the bank is the one constant people have in common. And it's crazy. So almost any individual alive can plan better than a group will execute and certainly better than a group can plan. Scn groups are far superior to human groups. But the rule still applies that collective-think is always less sane than the thinking of an individual. (HCO PL 18 Jan 65) 2. every human has in common with every other human the same reactive bank. This is the most they have in common. The reactive bank -unconscious mind, whatever you care to call it-suppresses all decent impulses and enforces the bad ones. Therefore a Democracy is a collective-think of reactive banks. Popular opinion is bank-opinion. Collective-think is basically bank. (HCO PL 13 Feb 65)

Compliance reports are never routed off the lines before they reach the originator of the order. To do so creates an atmosphere of non-compliance. It is a **cycle** completed and reported back to the originator as done so that the **command comm cycle** is completed. (BPL 26 Jan 69RA)

**COMMANDING OFFICER**, 1. the **Commanding Officer** of an organization is the Product Officer of that organization. He does nothing but think, eat, breathe-product. He knows the valuable final products of the organization; he demands them. When he

amount of a Commodore's time, contrary to popular belief and tradition, is spent estimating the efficiency and standards of Captains and senior officers, inspecting the . conditions of crews and seeing to their welfare, seeing that vessels and their equipment are in operational condition. This comes under the heading of inspection. But it is more than that; it is maintaining a visual information service which includes continuous awareness of the content of various communication lines; these include not only awareness of all types of reports but also the personal daily reports of individuals. This collection of information adds up to an awareness of the existing scene which changes daily. (FO 3342-2) 3. the post of Commodore relates to Sea Org matters. WO 1109) 3. the theory of appointment for the Commodore's Staff is based on: (1) a liaison officer for each of the seven divisions on each ship and (2) a communications service for the Commodore and (3) personal service for the Commodore. When the Commodore is afloat at his staff, insofar as practical, is with him, performing their regular staff duties and any seamanship duties he may require in assisting him to handle ships or boats or operations in which they may be required to take an active part. These baskets are for the use of the staff member to whom the station belongs and the communicator who distributes and picks up dispatches, messages and letters. Every administrative staff member, without exception, should have a **comm station**. (HCO PL 9 Feb 64)

**communication** are consideration, intention, attention, cause, source-point, distance, effect, receipt-point, duplication, understanding, the velocity of the impulse or particle, nothingness or somethingness. A **non-communication** consists of barriers. Barriers consist of space, interpositions (such as walls and screens of fast-moving particles), and time. A communication by definition does not need to be two-way. When a **communication** is returned, the formula is repeated, with the receipt-point now becoming a source-point and the former source-point now becoming a receiptpoint. (HCO PL 4 Apr 72 III) **2. communication** consists of the flows of ideas or particles across space between solids. (POW, p. 81) **3.** simply a familiarization process based on reach and withdraw. Ron Hubbard and an outer org out-basket. Each divisional **comm center** is placed in the divisional working area with a basket for each staff member in that division plus a divisional in-basket and a divisional out-basket. An HCO dispatch courier would be responsible for delivering dispatches into the divisional in-baskets and from the divisional out-baskets into the **comm center** baskets. The Sec Sec is responsible for the distribution of dispatebes from the divisional in-basket to staff members' baskets. (HCO PL 4 Jan 66 III) 2. a **communication center** is useful only when it centers and channels all **communications** of specific kinds from the public to the organization and the organization to the organization. **COMMUNICATIONS AIDE**, CS-1. (FO 1031)

**COMMUNICATIONS DIVISION**, this first **division** in actual fact is the **Communications Division**. It's called HCO with us but it's the **Communications Division**. This is analogous to getting things **communicating** as you would have to do in putting together any plant or factory. You'd first have to have something where people could get into communication with somebody about what you were doing otherwise nothing would happen thereafter. (SH Spec 77, 6608C23)

**COMMUNICATION SYSTEM**, the standard Scn communication system consists of a comm center, a basket as a comm station for every member of the crew near the place of work and an in-out-basket for every admin person. The comm center contains a basket for every crew member. There is also a Comm Communicator. (FO RS 16)

**COMMUNICATOR**, 1. one who -keeps the files (body, dispatch, letter, intercom, phone) moving or controlled for the executive. A communicator's title is always his or her executive's followed by s communicator.

To that, when there are more than one, may be added, "for. . ." being a function or division. The Communicator is to help the executive free his or her time for essential income earning actions, rest or recreation, and to prolong the term of appointment of the executive by safeguarding against overload. Policing compliance for a senior executive is a vital function of a communicator. (HCO PL 16 Nov 66) 2. Communicator, Department 2, handles all ship's communications, comm center, messengers, telephones, intercom, bullhorns, whistles, ship's signals, siren, baggage, transport, vehicles, telexes, radios, walkie talkies, signals, flags, signaling and all forms of communication, pickup and delivery of ship's boats, their use and schedule, travel, travel arrangements, tickets, all communication\_logs and files. It is assisted by radio operators, signalmen, drivers, coxswain, typists, messengers, operators, etc. (FO 1109) 3. purpose: to help LRH by maintaining fast, certain communication lines between all the terminals of the organization and between the organization and outside terminals, with proper routings. (FO 2528) 4. (Gung-Ho Group) the Communicator handles all communications of whatever kind, in and out. (HCO PL 2 Dec 68) 5. one who operates a post or comcenter. (HTLTAE, p. 119)

**COMMUNITY**, a number of people having common ties or interests living in the same place and subject to the same laws. (BPL 9 Mar 74)

**COMMUNITY ACTION**, the action of residents in a particular locality banding together to bring something about, as in achieving a particular goal or project or to correct an injustice.

**COMPANY**, 1 - a **company** has various actions. It is essentially a collection of small org boards combined to operate together as a large org board. (HCO PL 13 Sept 70 II) 2. **company** in this policy letter is defined as

the corporate entity of Flag. It does not mean the local org's corporation or the C of S. (HCO PL 10 Mar 71)

**COMPANY**, a corporation.

**COMPANY, ASSOCIATED**, 1. a company associated with another company in a subordinate relationship. 2. a company, fifty per cent of whose stock is held by another company.

**COMPANY DIRECTOR**, a member of an executive board or board of directors which has been appointed by the stockholders to govern the affairs of a corporation or institution.

**COMPANY FILE**, see FILE, COMPANY.

**COMPANY (FLAG) LOGISTIC ITEMS SHIPPING COSTS**, the cost of shipping to Flag items purchased as company (Flag) logistic purchases. Such items are shipped overland unless an OK to send by air freight has been received from one of: the Founder, the Controller or their Personal Communicators on their behalf, or the Flag Purser. (BPL 3 Nov 72RA)

**COMPANY (FLAG) LOGISTIC PURCHASES**, due to better local prices, quality or availability of certain items required by central management, these are ordered by Flag from FOLOs and occasionally from orgs. This would include such items as fuel and insurance bills of Flag but not such bills of stationships or orgs. It could include promotional items ordered for local printing, manufacturing or distribution, where these are specifically designated by Flag as Flag expense. All such logistic purchases must bear the authorization of one of the following terminals: the Founder, the Controller or their Personal Communicators on their behalf, or the Flag Purser. An external purchase order form or at times a telex authorizes the expense. (BPL 3 Nov 72RA)

**COMPANY (FLAG) MISSIONAIRE EXPENSES PAID**, funds given to Flag or

FOLO missionaries on Flag mission orders to carry out their mission purpose or targets. Sometimes a mission stays longer than was intended or for other reasons requires additional funds. (BPL 3 Nov 72RA)

**COMPANY, HOLDING**, a company owning the stock or a majority of stock of another or other companies and usually having voting control; parent company.

**COMPANY, JOINT STOCK**, a group of individuals acting jointly to form and operate an organization, electing a board of directors and having a capital investment that is divided into transferable shares.

**COMPANY LABOR POLICIES**, see POLICIES, COMPANY LABOR.

**COMPANY, MARKETING-ORIENTED**, one that produces a product which fulfills a market or consumer demand as opposed to producing what is easy to produce.

**COMPANY, NON-OPERATING**, a company not engaged in actual production and marketing such as a holding or parent company or a travel agency not directly concerned with the operation of transportation means but working as travel arrangers in liaison with transportation organizations.

**COMPANY, PARENT**, see COMPANY, HOLDING.

**COMPANY, PRODUCTION-ORIENTED**, a concern which relies on the manufacture of products that are technically easy for it to make in terms of labor and equipment rather than adjust to consumer demands.

**COMPANY, PUBLIC**, company that issues stock for sale to the public and the majority of whose stock is owned by persons other than its executives and employees.

**COMPANY SCHOOL**, a school set up by a business offering to its employees instruction and training in company procedures and individual jobs.

**COMPANY, SHELL**, 1. a company that does not actually operate but exists on paper only, sometimes formed to conceal illegal actions. 2. a company legally registered for the sole purpose of being sold to someone who has need of such a made-to-order company.

**COMPANY STORE**, a store owned and operated by a company that sells commodities to its employees.

**COMPANY, TRUST**, a bank or other organization that manages trusts and administers duties according to the stipulations therein which includes the authority to invest trust funds, oversee income, distribute earnings to beneficiaries, etc.

**COMPENSATION**, 1. money given or received as an exchange for work rendered, as in an employer-employee relationship. 2. money, aid, etc., given as a recompense for injury, loss or to settle a grievance or injustice.

**COMPETENCE**, 1. **the competence** of a person is in direct ratio to his degree of consciousness and their awareness (now I'm talking about the eyeball) of their environment. **Competence** is directly proportional to those two things. So don't expect a half knocked out druggie to be very **competent**. He won't be. Now similarly the insane are all degrees of **competence**. There have been some of the most brilliant geniuses who are utterly screamingly insane. There have been some of the dumbest boobs that were utterly screamingly insane. It has nothing to do with it. It's not on the same scale. We're dealing now with the scale of aberration as the scale of competence. The number of out-points the guy is carrying around in his skull is how aberrated he is. It has very little to do with his sanity, it has everything to do with

his competence. How conscious he is and his width of awareness (can he see?) is what demonstrates his competence. (ESTO 10, 7203CO5 SO 11) 2. competence on any given subject is what a person is not unconscious on, and those things he can't see he is unconscious on and that determines his **competence**. (ESTO 10, 7203CO5 SO 11) 3. when a person is competent, nothing can shake his pride. The world can yell, but it doesn't shake him. **Competence** is not a question of one being being more clever than another. It is one being being more able to do what he is doing than another is. (HCO PL 3 Apr 72) 4. being competent means the ability to control and operate the things in the environment and the environment itself. When you see things broken down around the mechanic who is responsible for them, he is plainly exhibiting his **incompetence**-which means his inability to control those things in his environment and adjust the environment for which he is responsible -motors. When you see the mate's boats broken up you know he does not have control of his environment. Know-how, attention, and the desire to be effective are all part of the ability to control the environment. (HCO PL 30 Dec 70) 5. the estimation of effort. (2ACC 31B, 5312C22)

**COMPETITION**, a striving with another or others in the same business field for leadership in sales, profit, position and exceptional recognition.

**COMPETITOR**, one in competition with or rivaling another in the same business market, striving to advance his product or service as superior or available at less cost.

**COMPILATIONS SECTION**, Department 21, Office of LRH. Formed in the first place with just exactly this purpose and no other purpose: to help LRH get out the magazine materials and the promotion materials that he gets out for Sen. (HCO PL 31 Jan 66)

**COMPLEMENT**, 1. the officially allowed number of persons and the officially designated posts for an activity, whether an org or a ship. Without these basic **complements** orgs get misposted. A complement is the full list of posts and where they belong on the org board, which must be - held. (OODs 8 Nov 71) 2. by name the list of men and officers of a ship. It's the number of officers and men allowed to a ship. But just because you are allowed those guys is no reason that those are the only guys you have. The word is very badly misunderstood. It is usually issued as something that we will try to adjust to. Now if we have got an overmanned area we will say maximum allowed **complement**. (ESTO 8, 7203CO4 SO H) 3. the maximum allowed personnel on permanent posts in an organization. (OODs 12 Nov 71) 4.- a complement lays down the allowed number of personnel per division/bureau and the total allowable number for the whole org. It is the basis for accurate postings to be done to gain maximum utilization. (FSO 518)

**COMPLEMENT BOARD**, now you've got the **complement board** and that is asking this question: who is double hatted and how many posts are held from above and how many posts are empty? You do that by workload. You, for the time are in an optimum position to be able to adjust an org by workload. A function board doesn't have any posts on it. A post board has no names on it and a **complement** doesn't have post name or function on it. It says Dissem-four, or it says Department 4-three. (ESTO 8, 7203CO4 SO II)

**COMPLETED**, (students and PCs completed) completed of course means only certified or classed or graded. (HCO PL 30 Sept 65)

**COMPLETED STAFF WORK**, 1. an assembled package of information on any given situation, plan or emergency forwarded

to me sufficiently complete to require from me only an "approved" or "disapproved." (HCO PL 21 Nov 62) 2. an assembled dispatch or packet which (1) states the situation, (2) gives all the data necessary to its solution, (3) advises a solution, and (4) contains a line for approval or disapproval by myself with my signature. If documents or letters are to be signed as part of my action, they should be part of the package, all ready to sign, and each place they have to be signed is indicated with a pencil mark.-note in the recommendations saying rereeded. (HCO PL.21 Nov 62) 3. mean, routed to the board, with all related policy letters clipped to the requested change and the new policy letter all written ready for issue. WO PL 17 Nov 64) 4. if a problem is encountered it is forwarded only with a full recommendation for handling (completed staff work or CSW). WO PL 29 Feb 72) *Abbr.* CSW.

**COMPLETE PLANNING**, 1. **complete** . 9 and programs are synonymous at this time and programs is the preferred word. WO PL 24 Jan 69) 2. a plan would be, the design of the thing itself. Complete --- would be all the targets plus the design. (HCO PL 18 Jan 69 II, Planning and Targets)

**COMPLETION**, 1. the completing of a specific course or an auditing grade; meaning it has been started, worked through and has successfully ended with an award. in Qual. (HCOB 19 Jun 71 III) 2. a final valuable product. (ED 41 FAO) 3. means a finished level or rundown. (HCO PL 29 Aug 71)

**COMPLETION POINTS**, see. PAID COMPLETION POINTS.

**COMPLEXITY**, 1. to the degree that a being cannot confront he enters substitutes which, accumulating, bring about a complexity. (HCO PL 18 Sept 67) 2. I found that any complexity stemmed from an initial point of non-confront. This is why looking at or recognizing the st-Airce of an aberrati-

on in processing "blows" A, makes it vanish. (HCO PL 18 Sept 67)

**COMPLIANCE**, 1. consists of: (1) agreement on the survival goals of the group and participation in working towards and accomplishing them by following the broad procedures laid down in poUcy and tech. (2) working towards specific goals for one's own post or area which contribute to the accomplishment of the whole group's goals, by following the procedures for that post or area as laid down in policy and/or tech. (3) carrying out the legal orders issued one that forward specific plans, programs and projects that implement specific policies in order to accomplish a goal or goals of the group, in an orderly fashion. (4) compliance is a series of actions, or a specific action, which duplicates what was intended to happen by the originator of the requirement or order. (BPL 20 Feb 73) 2. the acting in accordance with, or the yielding to a desire, request, condition, direction, etc.; a consenting to act in conformity with, an acceding to; practical assent. (BPL 20 Feb 73)

**COMPLIANCE EXECUTIVE DIRECTIVE**, 1. carries. a program on how to get an LRH issue or issues implemented in an area that by evaluation has been found to need these issues implemented. - May also carry a project to execute a target in the program. Drawn up by an area or continental LRH Comm and authorized by CS-7 on Flag for a local CED. International or continental CEDs are issued from Flag only and only with AVU authorization. Blue ink on blue paper. (HCO PL 24 Sept 70R) 2. **are for** use by area LRH Comms and **continental** LRH Comms as well as Senior LRH Comms to, when necessary, compile a pack of 5-,i-es and to write a program on how- to get tile-se maplemented in the area( s) that, "by evaluation, have been found to need these issues implemented.. Even getting in a single issue requires this handling. When such a program is drawn up, and issued, it shall have the title

of: Compliance Executive Directive, or CED for short. (BPL 24 Jul 73R III) *Abbr.* CED.

**COMPLIANCE REPORT, 1.** in practice a compliance report takes the following form: (1) it is in standard dispatch form routed through the usual channels. (2) it is headed at the top of the page in the middle compliance report. (3) it has a brief concise description of what was done. (4) it has clipped to it all the original orders so that the originator and communicators on the line can see at a glance what was ordered, and comparing this with what was done, see that it is in fact a compliance, a completed cycle. (5) any other relevant information is also cUped behind, such as a carbon of a letter written if that was what was ordered. (6) and it is addressed and goes to the person originating the order, via any communicator who logs it as a compliance. (7) it contains an attestation that what was done has been completed; such as "order attached completed." (BPL 26 Jan 69RA) 2. a compliance report is exactly that. It is a report of compliance, a completed cycle reported to the originator done. It is not a cycle begun, it is not a cycle in progress. It is a cycle completed and reported back to the originator as done so that the command comm cycle is completed. (BPL 26 Jan 69RA). 3. a compliance report is made out for each target as it's done, and the admin belonging to it is attached as evidence along with any other evidence of completion. (BPL 6 Mar 73)

**COMPLY, 1.** to merely commence a cycle is not to comply. To merely make some progress is not to comply. To drive it through to completion is. And to then report done to the originator is to put in a compliance report. (BPL 26 Jan 69RA) 2. to act in accordance with, and fulfillment of, wishes, desires, requests, demands, conditions, or regulations; to fulfill the wishes or requirements of; to consent to.- (BPL 20 Feb 73)

**COMPONENT BAR CHART**, see CHART, COMPONENT BAR.

**COMPOUND BAR CHART**, see CHART, MULTIPLE BAR.

**COMPULSORY ARBITRATION**, see ARBITRATION, COMPULSORY.

**COMPUTER**, an electronic machine which has built-in devices or can be programmed with the necessary instruction and data to solve complex mathematical problems, correlate, select or analyze data and rapidly print out the appropriate answers.

**COMSTATION**, 1. a communications station. A physical arrangement, in boxes, slots, wires, etc., of positions for communications. There is a comstation for every terminal and terminal. (HTLTAE, P. 119) 2. the comstation of any individual or section is merely eight boxes or slots or racks, which may be large or small, depending upon the volume expected. (HTLT.4E, p. 36)

**CONCENTRATION ANALYSIS**, see ANALYSIS, CONCENTRATION.

**CONCILIATION**, the act of working- out a business or labor dispute by bringing together the two or more interested parties to air their differences and reach a compromise agreeable to all concerned.

**CONCILIATOR**, in a business or labor dispute, one who acts as an intermediary between the parties involved to persuade them to adjust their differences and reach a compromise agreement satisfactory to all.

**CONDITION**, 1. a condition is an operating state. Organizationally, it's an operating state and oddly enough in the MEST universe there are several formulas connected with these states. There are apparently certain formulas which have to be followed in this universe or you go appetite over tincup. (SH Spec 62, 6505C25) 2. in Scn the term also means the ethics conditions (confusion,\* treason, enemy, doubt, liability,

non-existence, danger, emergency, normal, affluence, power change or power). The state or condition of any person, group or activity can be plotted on this scale of conditions which shows the degree of success or survival of that person, group or activity at any time. Data on the application of these conditions is contained in the ethics policies and tapes of Sen. (BTB 12 Apr 72R) [\*The ethics condition of confusion came later than the date of this BTB in HCO PL 9 Feb 74 and is added here by the editor in order that all the current ethics conditions are included.]

**CONDITION I**, 1. **Condition I** is not the same as all hands. One can carelessly toss off "all hands to anchor stations" and even say "Condition I anchor stations" without sufficient reason. If it's a normal anchoring it usually is done in Condition II or even Condition III with a bosun and a hand at the anchor winch. Condition I means dangerous operation. You set Condition I when it's touch and go or may be. The best steersman, the best navigational team, the best radarman, the best QM, the best lookouts, the best conning officer, etc., make Condition 1, Condition 1. Things are dangerous. A dangerous approach to harbor, a dangerous pass crowded with ships, dangerous waters. A bad storm at its height. All these and more can demand Condition I. A damage control party, the Medical Officer set up, are all part of Condition Is. (FO 2464) 2. by definition, **Condition 1**, which means emergencies or periods which are risky, has the best specialists posted on the bridge and E/R. (OODs 30 Oct 71) 3. a Condition I bill assigns the most competent person in each case to a key post to handle any emergency as a team. (OODs 7 Jun 70) 4. Condition I isn't how you dispose of the crew around the ship. It's the expert in the right place, no excess people and ready to handle any goof-up. (OODs 7 Jun 70)

**CONDITION II**, **condition two** is an emergency situation or where an emergency may occur. Half the ship (Port or Starboard) is called up. If they are on 4 hours they are relieved by the other watch-4 on, 4 off. Continuing storms, bad seas, lots of ships about, docking, anchoring, a touchy but not really dangerous harbor approach or docking. Here again the best in that watch for a post is assigned in that watch. There is a damage control party. A **Condition H** usually comes alongside docks or leaves them. It is adequate to handle lines, anchor, all other actions including signals. (FO 2464)

**CONDITION III**, **1. Condition III** is considered normal. Smooth sea, no sweat, even a simple anchoring or heaving the anchor when done with no harbor or breakwater or traffic to contend with. It is usually 4 (hours) on, 8 off. Or there can be several watches if lots of officers and people are available. (FO 2464) **2. Condition III** = third of the ship on watch. (FO 80) **3.** under way with 3 watches. (BO 34, 16 Jun 67)

**CONDITION VI**, for normal **conditions** at sea, the ship's company is divided up into 6 watches, each watch controlling the ship at sea for two hours on a rotational basis. (FO 2674)

**CONDITIONAL SYSTEM**, the **conditional** system does not require completion of any auditing requirements to graduate. The certificate received is cross-stamped conditional. The student is required to interne on that level upon graduation, *before* going onto his next course in order to demonstrate his ability to apply his materials: e.g. a conditional HSDC would interne on Dn. then do his Academy levels. A student on Academy levels would complete through IV then interne. (SO ED 401-1 INT)

**CONDITIONAL TARGET**, **1.** there is a type of target known as a **conditional target**: if I could just \_\_\_\_\_ then we could \_\_\_\_\_ and so accomplish \_\_\_\_\_. This

is all right of course until it gets unreal. There is a whole class of **conditional targets** that have no if in them. These are legitimate targets. They have lots of will in them: "We will \_\_\_\_\_ and then \_\_\_\_\_." A valid conditional target would be "We will go there and see if the area is useful." All **conditional** targets are basically actions of gathering data first and if it is okay, then go into action on a vital target and operating target basis. (HCO PL 16 Jan 69) **2.** those which set up either/or to find out data or if a project can be done or where or to whom. (HCO PL 24 Jan 69) **3.** a survey of what's needed or feasible. Survey of what's wanted and needed. (HCO PL 18 Jan 69 II) *Abbr.* CT.

**CONDITIONS BOARD**, a fast flow **conditions board** posted near the Master at Arms' desk and visible to the public, giving areas for the various conditions. The name of a person is typed on a slip and moved with a thumbtack immediately the condition is assigned. (FO 411)

**CONDITIONS CARD**, when a whole ship is assigned a **condition** or a whole division or department, a **conditions card** as to that **condition** is made out and placed in the file of each personnel included. (FO 160)

**CONDITIONS ORDER**, any executive may assign any **condition** and improve any **condition** he assigns to any person immediately junior to him on his command channel or within his own office or area. To assign or improve a **condition** it is only necessary to write the **order** and send it to Mimeo or the Duplication Unit which duplicates it and sends the copies to Dir. Comm for issue. An **order** so issued is called a **Conditions Order** and is published on the divisional flash paper not goldenrod. Where a mimeo or duplication line jams, an executive may post the order in his own handwriting on the staff notice board, filing two copies with the Ethics Officer, all on his division's color

flash paper, using carbon paper and clip board. (HCO PL 5 Jan 68)

**CONFER**, to converse, talk together, now always on an important subject, or on some stated question; to hold conference, take counsel, consult. (FO 2645-2)

**CONFERENCE**, 1. the action of **confer-ring** or taking counsel, now always on an important or serious subject or affair. (FO 2645-2) 2. **conferences** are called to advise and inform and to ask for advice and information. (FO 1021) 3. (type of communication routing) this is a line usually from an executive to the chairman of a governing body such as Advisory Committee or Executive Committee or Aides Council or Commanding Officer Conference, etc. It is used for program clearance or policy requests. (HCO PL 25 Oct 71 I)

Conference (Def. 1)

**CONFERENCE**, a meeting between a group of persons to present a particular subject or area for examination calling for a free exchange of ideas, suggestions and proposals pertaining to the topic in hand.

**CONFERENCE COMMUNICATOR**, a **communicator** who sets up a temporary station for a given **conference**, so that the information which is developed in **conference** may get into the system. [HTLTAE, p. 81)

**CONFERENCE LEADER**, the person who is in charge of a conference and upon whom the responsibility is placed for successful leadership.

**CONFESSIOAL CORPS**, the function of the corps is to do modern confessionals on individual staff members or entire staffs of orgs in the continental area in which the corps is located as directed by Flag. The purpose of this corps is: to help Ron bring about, through the skillful application of the powerful tech of modern **confessionals**, honest, in-ethics and unafraid org staffs who enable increased production and high stats to occur. (FO 3276R)

**CONFIDENCE**, confidence is composed of knowing what other people do and know they are doing it or will do it. Confidence is, confirmed by continuing survival. (FO 2471)

**CONFIDENTIAL COURSES**, Grades V, VI, Clearing Course, OT I, OT II, OT III, OT IV, OT V, OT VI, OT VII, OT VIII, Solo Course, Level VI SHSBC, Level VII Internship, Class VIII, and all auditor classifications above VIII. (BPL 24 Sept 73RA XIII)

**CONFIDENTIAL DATA**, 1. such material so classified is contained in power processes, R6EW, Clearing Course, advanced courses and Solo C/S Course and above. (BPL 20 Sept 67R) 2. from power processing on up the data is confidential. Up to there, you can release Sen data as you always have—freely and to everyone. But this last bit is dangerous in unskilled or uneducated or unscrupulous hands and it is purely ours. It belongs to the Scientologists who keep the show on the road and must be available to them when they are ready. (HCO PL 11 Aug 71 V)

**CONFIDENTIAL MATERIAL**, 1. is data of which the illegal use would harm us. It is kept by the rule of controlled access. In this category is all of CIC, telex traffic and files, mission orders, debrief files, advance course data and ethics files. (FO 1669) 2. Grade V and above materials are classified as confidential. (BPL 10 Feb 71R)

**CONFIRMATION COPY**, (telex procedure) a **confirmation copy** is a repeat of the message, complete with its reference number, either a fourth **copy** of the transmission or an extra **copy** made up. It is marked clearly in writing or with a rubber stamp **confirmation copy** and routed on dispatch lines to the org or unit to which the telex was addressed (not to the relay points—to the org of final destination). If the message was sent to more than one org or unit, then each must get a **confirmation copy**. On receipt of **confirmation copies**, the communicator of the org or unit receiving them checks that the original message was received. This is checked against the telex master files. If receipt is verified, the **confirmation copy** is filed. (FO 2557)

**CONFONE**, a communication which is put through as a confirmation of a telephone conversation. Without a confone, a telephone conversation cannot get into the system and must be considered never to have happened. [HTLTAE, p. 119]

**CONFORMER**, a worker who agrees to limit his output level to that level tacitly set by his fellow workers and contrary to management policy. The object is to hide the real output level of each worker to guarantee continued employment or so that work quotas are not increased, or where piecework rates are paid, to prevent the piecework rate from being lowered by management.

**CONFRONT**, 1. to stand facing or opposing, especially in challenge, defiance or accusation. (OODs 27 Apr 72) 2. to face without flinching or avoiding. (OODs 27 Apr 72) 3. to be able to see what is or isn't before one. (CBO 190) 4. direct observation. (HCO PL 18 Sept 67)

Confront (Def. 2)

**CONFRONTING**, seeing. (HCO PL 18 Sept 67)

**CONFUSION**, 1. all a confusion is, is unpatterned flow. The particles collide, bounce off each other and stay in the area. Thus there is no product as to have a product something must flow out. (HCO PL 13 Sept 70 II) 2. could be called an uncontrolled randomness. Only those who can exert some control over that randomness can handle **confusions**. Those who cannot exert control actually breed **confusions**. (*POW*, p. 26) 3. any set of factors or circumstances which do not seem to have any immediate solution. More broadly, a **confusion** in this universe is random motion. (*POW*, p. 21) 4. the definition of **confusion** is simply unstraight lines. (7201C02 SO) 5. a **confusion** occurs whenever two or more things start creating against each other. [*POW*, p. 35] 6. a **confusion** is only a **confusion** so long as all particles are in motion. A **confusion** is only a **confusion** so long as no factor is clearly defined or understood. **Confusion** is the basic cause of stupidity. (*POW*, p. 22)

Confusion (Def. 1)

**CONFUSION AND THE STABLE DATUM**

unless an executive or staff member fully grasps the basic principles of **confusion and a stable datum** then the org board is completely over his head, the reason for posts is not understood and dev-t becomes routine. A post on the org board is the **stable** point. If it is not held by someone it will generate **confusion**. If the person that is holding it isn't really holding it, the **confusion** inherent in that area on the org board zooms all over the place near and far. Any executive getting dev-t knows at once what posts are not held because dev-t is the **confusion** that should have been handled in that area by someone on post. With that **stable** terminal not **stable**, dev-t shoots about. (HCO PL 27 Oct 69)

**CONFUSION FORMULA**, there is a condition below treason. It is a condition of confusion. The formula of the condition is: find out where *you* are. The additional formula for the condition of confusion is: (1) locational on the area in which one is. (2) comparing where one is to other areas where one was. (3) repeat step (1). (HCO PL 9 Feb 74)

**CONFUSION LEVEL**, you can test promo by its confusion level. If the public has to read a whole long paragraph to find out what it's all about, they won't read it. So the delivery of your message has to be sharp, clear and fast. They have to get your message at

once. Know what your message is and get it across with the least effort required by your reading public to grasp what you are saying instantly. (BPL 13 Jul 72R)

**CONGLOMERATE**, one large organization made up of many companies that frequently operate in widely diverse fields.

**CONGRESS BOOKS AND TAPES SUM**, the total receipts of **congresses, book and tape** sales before any expense deduction is made. (HASI PL 19 Apr 57, *Proportionate Pay Plan*) Abbr. CBT.

**CONNING OFFICER**, 1. the stand-by for the Captain while on watch. He receives appraised data from the OOW or from his or her own observation, evaluates it and changes course and speed when so required. Anything that would normally be appraised to the Captain is told to the Conning Officer. The Conning Officer is the one responsible for the ship if anything goes wrong. (FO RS 32) 2. the Conning Officer is responsible for the ship and crew. Duties: (1) the Conning Officer single hands the ship while he trains the crew. (2) he safely puts the ship through its evolutions during all hands evolutions. (3) he controls the course and speed of the vessel. (4) in cruising a primary responsibility is external, other ships and storms and the motion of the vessel, while the OOD keeps the ship off rocks and shoals and fixed obstructions. (5) the Conning Officer sees that the ship makes good her distance toward destination, as safely and comfortably as possible, but within the time required by operational demands. (6) no pilot or bridge watch member or engine room errors relieve the Conning Officer of any of his responsibilities as above. "Con" stands for and is short for "control." (FO 2111) 3. officer who is directing the ship's movements and is senior to the OOD. The Conning Officer is the one who chooses the courses and eases the ship. (FO 41) 4. the Conning Officer is responsible for the competence of his watch

members, the efficiency of the watch as a whole, and the safety of the ship while having the con. (FSO 546) 5. the senior officer of a watch responsible for the vessel when his watch is on duty. (FO 2674) 6. has control of the bridge. (6910C20 SO) 7. a con ideally is an expert on S-C-S on an object. Only the object is a ship. (FO 3232) *Abbr.* Con.

**CONSEQUENCES ANALYSIS**, see ANALYSIS, CONSEQUENCES.

**CONSERVATION**, the cycle of action has at its exact center conservation. Start, increase, no change, decrease, stop. There is a complete maybe right in the middle of the cycle of action. That would be the null between increase and decrease. It would be the null point between growing and decaying. There is a plateau in there where something hits. It's an effort to maintain the state. The way you maintain the state is to have a maybe. You get an apparent stop which is what we call **conservation**. The maybe between growth and decay is **conservation**. (PDC 61)

**CONSERVATIVE**, when one is stuck on the time track it may seem pretty difficult to envision a future. In politics this is called "reactionary" or "conservative." These mean any resistance to change even when it is an improvement. The bad old days seem to be the good old days to such people. Yet the old days will not come again. One has to make the new days good. (HCO PL 11 Aug 74)

**CONSIDERATION**, enduring or continuing postulate, that's all a consideration is. It's a postulate that continues or endures. (5904C15)

**CONSIDERATION**, in the case of a contract it is something of value given or done by one party as an exchange or in consideration of something of value given or done by another party and without which the contract is not binding.

**CONSIGNEE**, a person who is entrusted with goods for custody or sale. If the goods are to be sold the consignee agrees to pay the sender or consignor after they are sold.

**CONSIGNMENT**, the delivery of goods, without transfer of title, from the owner or consignor to a consignee. After the consignee has sold the merchandise, he reimburses the consignor keeping a commission for his services.

**CONSIGNOR**, person who entrusts goods to another, called the consignee, on the agreement that he does not expect to be paid until after the articles have been sold by the consignee.

**CONSISTENCY**, when doing an evaluation, one can become far too fixated on out-points and miss the real reason one is doing an evaluation in the first place. To handle this, it is proper form to write up an evaluation so as to keep in view the reason one is doing one. This is accomplished by using this form:

SITUATION: \_\_\_\_\_

DATA: \_\_\_\_\_

STATS: \_\_\_\_\_

WHY: \_\_\_\_\_

IDEAL SCENE: \_\_\_\_\_

HANDLING: \_\_\_\_\_

The whole of it should concern itself with the same general scene, the same subject matter. This is known as **consistency**. One does not have a situation about books, data about bicycles, stats of another person, a why about another area, a different subject for ideal scene and handling for another activity. The situation, whether good or bad, must be about a certain subject, person or area, the data must be about the same, the stats are of that same thing, the why relates to that same thing, the ideal scene is about the scene of that same thing and the handling handles that thing and especially is re-

gulated by that why. A proper evaluation is all of a piece. (HCO PL 17 Feb 72)

**CONSISTENT EVALUATION**, all good evaluations are very consistent—all on same railroad track. Not pies, sea lions, space ships, but pies, apples, flour, sugar, stoves. (OODs 24 Feb 75)

**CONSULTANT**, 1. an instructor who is on duty sporadically or from time to time but not routinely in any one place. (HCOTB 17 May 57) 2. for public purposes all registrars may be called or sign themselves as consultants. (HCO PL 20 Dec 62) 3. (Division 5, Department 15) uses two-way communication to establish what needs correcting. (HCO PL 8 Aug 70 III) [The above HCO PL was cancelled and replaced by BPL 7 Dec 71R I. The replacement issue does not have the post of consultant on it.]

**CONSULTANT**, an outside professional person well-qualified in a particular field or area who is called upon by businesses for expert advice. Examples include consultants on personnel management, economics, marketing, industrial planners, environmentalists, etc.

**CONSULTANT AUDITOR**, see CONSULTANT PLAN.

**CONSULTANT MISSION**, associated with the FLO (continental) is a consultant mission. This mission *is* a mission. It has all the privileges of a mission. It does however have added duties and responsibilities which are (a) to provide a location in which prospective Mission Directors and staffs can be trained and apprenticed on mission actions, and (b) to provide the FLO with advice as duly consulted and requested by the FLO. (CBO 144)

**CONSULTANT PLAN**, organizations have at one time or another nearly gone extinct because they employed outside auditors on an occasional or "consultant" basis. They keep several auditors "on call" and when

they have a pc for them call them in. This measure is only an effort to preserve units. It is foolish as it eventually destroys units. At least three great evils result from "the consultant policy." (1) there is no way of setting up a staff training program or a staff auditing program that includes such people. (2) technical result suffers because the pc is not really given an HGC auditor but someone who is not under direct control of the Director of Processing. (3) HGC pcs often wander off from the HGC and turn up later in somebody's practice—even though the org investment in procuring that pc was great. So there will be no more of this "consultant auditor" idea. (HCO PL 21 Aug 64)

**CONSULTANT POLICY**, see CONSULTANT PLAN.

**CONSULTATIVE SUPERVISION**, see SUPERVISION, CONSULTATIVE.

**CONSULTING MEMBERSHIP**, two different memberships for franchised auditors will be available: (1) professional membership, (2) **consulting membership**. The **consulting member** will pay an annual subscription of 45 guineas sterling (\$135.00), in return for which he receives a **consulting member** certificate, a weekly mailing of bulletins by air mail, the *Auditor* magazine monthly, and also participates in a two-way **consultation** service with Saint Hill. He will receive fast attention and advice from Saint Hill on his preclears and other activities, and Saint Hill will **consult** with him on how he achieves his results and success. (HCO PL 22 Apr 64)

**CONSUMER**, one who purchases goods and services.

**CONSUMER ACCEPTANCE TEST**, a market research technique whereby a product is let out to consumers in a limited quantity and monitored to see what the level of consumer acceptance is.

**CONSUMER DISPOSABLE**, a consumer product that is used once or only for a very short time before it must be disposed of.

**CONSUMER DURABLE**, a consumer product that endures, continuing to be usable for a relatively long time.

**CONSUMER GOODS**, goods bought and used by the public as opposed to goods, components or capital equipment used by industry to manufacture other goods.

**CONSUMER, PROGRESSIVE**, a consumer who would accept a price increase on an existing product or service if it were improved as opposed to a retrogressive consumer who is seeking to pay less for a product or service as it currently appears on the market.

**CONSUMER PROMOTIONS**, see PROMOTIONS, CONSUMER.

**CONSUMER RESEARCH**, see RESEARCH, CONSUMER.

**CONSUMER, RETROGRESSIVE**, see CONSUMER, PROGRESSIVE.

**CONSUMPTION**, in economics, the using up of consumer goods and services.

**CONSUMPTION OFFICERS**, there are consumption officers who get the products wanted outside and consumed. These are the Dissemination Secretary (Division 2) (old public) and the Distribution Secretary (Division 6) (new public). (FO 2794)

**CONTACTS**, people one knows who because of their knowledge in particular areas or positions in their companies might be of assistance.

**CONTACT UNIT**, formed in Division 1, Department 2 under the Third Mate. Contact Unit is responsible for operating communication, information, and facility lines between Flag and AO and may handle missions as necessary. (FO 558)

**CONTEXT**, the interrelated conditions in which something exists or occurs. (HCO PL 14 Dec 73)

**CONTINENTAL CAPTAIN US**, duties of the Office of the Continental Captain US are to ensure a steady continuing expansion of the US, South America, Canada and Asia, based on earlier successful actions. (CBO 115)

**CONTINENTAL CHIEF**, Continental Director. (HCO PL 1 Apr 64, *New Mimeo Line, HCO Executive Letter*)

**CONTINENTAL CLEAR CHECKER**, personnel appointed in certain Continental Orgs to perform the **checking** out of Clears. (HCO PL 7 Nov 66)

**CONTINENTAL COMMITTEE**, see CENTRAL COMMITTEE.

**CONTINENTAL DIRECTOR**, 1. the HCO Continental Secretary and the **Continental Director** of all areas shall be the senior HCO Area Secretary and the senior Association/Organization Secretary of the **continental** area. The offices of HCO Continental Secretary and **Continental Director** exist mainly to increase Sen activity and income in a **continental** area. (HCO PL 14 Jan 64) 2. **Continental Directors** oversee **continental** groups of organizations and act as designated board officers although not board members. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**CONTINENTAL DIRECTOR DIRECTIVES**, green ink on green paper; used for the issuance of board minutes and any broad area **directive** emanating from a **Director** of the International Board, or a **Continental Director**. A technical **directive** emanating from such a source shall be in red ink on green paper. (HCO PL 23 Feb 61)

**CONTINENTAL DIVISION**, Continental Executive **Division**. (HCO PL 1 Mar 66 II)

**CONTINENTAL DIVISION 6 ESTABLISHMENT TEAM**, (FOLO Division 6) team of at least four who rotate from org to org building up and recruiting up **Division 6s**. (BO 91, 23 Feb 74)

**CONTINENTAL DIVISION 6 TOURS TEAM**, (FOLO Division 6) team of at least three who lecture to and sell books to raw public in every town leaving behind new Sen groups. (BO 91, 23 Feb 74)

**CONTINENTAL EVALUATOR**, the function of the **Continental Evaluators is to evaluate** and provide competent **evaluations** and programs for all orgs and units in their zone of responsibility to the result of expanded orgs and raised stats. The motto of the **Continental Evaluators is "No continent, org or unit left unevaluated."** (CBO 379)

**CONTINENTAL EXECUTIVE DEPARTMENT**, where a **Continental** Division has its home org as a Six **Department** Org, it is called a **Continental Executive Department**. (HCO PL 21 Oct 66)

**CONTINENTAL EXECUTIVE DIVISION**, there are eight divisions posted in every organization. There are two executive divisions, the International Executive Division and the Area Executive Division for every org. There are nine in a continental org, the International Executive Division, the **Continental Executive Division** and the normal seven divisions of the Area Org. There is *no* difference in the pattern of the WW or a **continental** or an area **executive division** except numbers of staff in it. All posts that appear in the International Executive Division will also eventually appear in the **Continental Executive Division** and an Area Executive Division as orgs grow and numbers of staff increase. When a **continental executive division** exists, then area orgs report by cable or telex to their Continental Org which then sends the data (QIC cable) by cable to WW. The Area Org where the

**Continental** is located sends their data by dispatch to **Continental** which includes it in their cables to WW. (HCO PL 1 Mar 6611)

**CONTINENTAL FBO, 1. the Continental Finance Office** is the **continental** management echelon of the **FBO** Network. It is headed by the **Continental FBO** who is responsible for successful operation of all **FBOs** under his command, and the expeditious handling of ever-increasing Sea Org reserve payments. (FO 3415R-1) 2. the **FBO** Officer and the Office engaged in the financial management of a **continental** area under Sea Org control. (HCO PL 9 Mar 72 I)

**CONTINENTAL FINANCE OFFICE**, located, as an autonomous network, in Division 7, Branch 19, of the FOLO. The **Continental Finance Office** is the **continental** management echelon of the FBO Network. (FO 3415R-1)

**CONTINENTAL FLAG REPRESENTATIVE**, the immediate senior of a Flag Representative in any church organization is the Continental Flag Representative for that continental zone. The immediate senior of a **Continental Flag Representative** is the Flag Flag Representative. A **Continental Flag Representative** ranks with the CO of a Flag Operations Liaison Office but not above or below. (HCO PL 7 Aug 73 I)

**CONTINENTAL FLAG REPRESENTATIVE OFFICE**, the Continental Flag Representative Office in the Management Bureau at a FOLO ensures that Flag programs and legal orders do get done speedily and to a good result using any necessary nudging, debugging of management representatives and FRs per standard Continental FR procedures and verifying compliances as really done. Coordinates orders from the FOLO or other local network personnel (except GO) into orgs so that priorities are known and not cross ordered. Sees to it there is a trained and hatted Flag Representative Network on the continent that is able to carry out all its

functions. Oversees management representatives' operation of org FRs. Sees to it that fully completed programs with all necessary evidence get back to FR Network on Flag. (CBO 375)

**CONTINENTAL GROUPS OFFICER,** (FOLO Division 6) **officer** to establish and run **groups.** (BO 91, 23 Feb 74)

**CONTINENTAL HCO EXECUTIVE SECRETARIES,** oversee **continental** groups of **HCO** offices. (HCO PL 18 Dec, 64, *Saint Hill Org Board*)

**CONTINENTAL LIAISON OFFICE,** 1. **Continental Liaison Offices** have become Flag Operations **Liaison Offices.** (FBDL 191R) 2. the Sea Org office of a **continent** that manages that **continent.** (HCO PL 9 Mar 72 I) 3. to relieve orgs from the burden of receiving orders from many different bosses (some say there are as many as 29 senior bodies) a new command channel pattern is set up. A central authority for each area has been established which channels all orders in one channel to the org. These are called **Continental Liaison Offices.** (LRH ED 130 INT) 4. a **continental liaison office** is in charge of its **continental** areas. It has direct communication with orgs. Has or will have Finance Banking Officers and Bureaux Liaison Officers in each org. The first duty of a **continental liaison office** is to observe and get those observations into its own **continental** information center (CIC) and observations and reports and lists of its own activities to Flag. What are these activities? They are: (a) to observe, (b) to send observations by users, orgs and the publics to Flag, (c) to push in Flag programs and projects, (d) to find the why (reasons) that any *Flag* program or project is *not* going in in an org or franchise or public and remedy that why so the Flag program or project does go in, (e) keep itself set up and operating on the pattern planned for its establishment by Flag, (f) handle sudden emergencies. Those are the total duties of a **continental liaison**

**office.** They are also the duties of an OTL in respect to its **CLO.** (HCO PL 22 Jul 71) 5. the major purpose of a **CLO** or OTL is to make Flag planning become an actuality in orgs, franchises and thereby the various publics. (HCO PL 22 Jul 71) 6. a command and communication and knowledge relay point of Flag. (CBO 134) 7. Sea Org **Continental Liaison Offices** (CLOs) are the senior Sea Org offices in the **continents** where they exist. They are data **liaison offices** between Flag and SO orgs, station-ships and OTLs, and get Flag orders carried out in their areas. They originate only by authority of Flag. (FO 2608) 8. a **liaison office** is depended upon to see that data is supplied to Flag. Current contemporary data to Flag is a valuable final product of a **CLO.** (CBO 75) 9. a **continental liaison office** implements, makes take place, makes known, makes occur Flag management policies and programs. It keeps Flag informed. A **CLO** acts to handle counter-policy situations. A **CLO** acts to keep stats up and the area cool and the orgs smooth. (FBDL 12) *Abbr.* CLO.

**CONTINENTAL LIAISON OFFICER,** **Continental Liaison Officers** are only in the business of getting stats up in each org and portion they represent and finding out for the executive secretaries WW why the stats aren't up. The authority of the **Continental Liaison Officer** at WW, for HCOs or the org portions is junior to the executive secretaries of any org. Only the HCO Executive Secretary WW and the Org Exec Sec WW are senior to the executive secretaries of orgs. The **Continental Liaison Officer** is not there to issue orders to orgs. He is at the service of orgs. HCO **Continental Liaison** is the WW communication point for the HCO Executive Secretaries in every org in the **continental** zone. The Org **Continental Liaison** is the WW communication point for the Org Executive Secretaries for every org in the **continental** zone. They are essentially representatives. They are there to get the

stats of each org up by providing service from WW. (HCO PL 8 Sept 67 II)

**CONTINENTAL MAGAZINES**, 1. Magazines are a vital factor in solvency. Thus Area as well as **Continental Orgs** should issue **magazines**. Overlapping coverage does not matter. A **continental magazine** must go to every person in central files unless a person is on non-comm by reason of ethics orders or is dead filed. (HCO PL 7 Dec 66, *Magazines Permitted Att Orgs*) 2. (names) *Ability, Communication, Understanding, Reality, Affinity*. (HCO PL 16 Jul 65)

**CONTINENTAL MAGAZINES MAJOR**, **magazines** mailed by the Central Orgs every two months alternating with the minor to members and trained auditors and processed lists in their central files. (BPL 20 May 72R)

**CONTINENTAL MAGAZINES MINOR**, **magazines** mailed by the Central Orgs on in-between months to all orgs' central files lists in the overall area, less memberships. (BPL 20 May 72R)

**CONTINENTAL MISSIONS OFFICER**, (FOLO Division 6) **officer** to promote and establish new franchises. (BO 91, 23 Feb 74)

**CONTINENTAL OFFICES**, **Continental Offices** used to be called OTLs, called CLOs, will now be called something else. (7205C18 SO) [They are now called FOLOs.]

**CONTINENTAL ORDER**, issued by Continental Captain or the Commanding Officer of a FOLO. Distribution is all Sea Org personnel in the area. (HCO PL 24 Sept 70R) *Abbr. CO.*

**CONTINENTAL ORGANIZATION**, 1. to clarify the functions and purpose of Sen organizations this was the original intention: Worldwide was to provide supreme control over Sen and orgs over the world. **Conti-**

**ental Orgs** under the guidance of WW took full responsibility for their **continental** areas. Central Organizations under the guidance of **Continental** took full responsibility for their zones. Area Organizations took full responsibility for their own areas. WW founded new **Continental Orgs**. **Continental Orgs** founded Central Orgs. Central Orgs founded Area Orgs. Area Orgs founded Franchise Centers. This was the original pattern of intention. (LRH ED 1 INT) 2. the comparable order of a senior org cancels the order of or takes precedence over an org junior to it. The seniority is: Worldwide, **Continental**, Zone, Sub-zonal, Area, District Office. The Ad-council WW can cancel or takes precedence over an Advisory Council **Continental**. An Advisory Council **Continental** takes precedence over that of an org junior to it. (HCO PL 13 Mar 66)

**CONTINENTAL ORGANIZATION COMMITTEE OF EVIDENCE**, the Convening Authority is the Continental Director. It handles matters relating to any Sen executive in a continental zone. It investigates any matter requested of it by the WW Committee of Evidence and reviews any lower organization Committee of Evidence matters or cases in its zone. (HCO PL 7 Sept 63)

**CONTINENTAL RECRUITMENT CHIEF**, **Continental Recruitment Chief** below FPPO **Continental** handles the planning and coordination of FPPO **Recruiters** and Sea Org org **Recruiters**. (FO 3475) [The above FO was cancelled by FO 3555.]

**CONTINENTAL REPRESENTATIVE**, the International Advisory Council would be made up of **representatives of continental** parts of the world and executives who represent types of divisions of organizations. It's about a fifteen-man Advisory Council. That Adcouncil is composed of **Continental Representatives**. Now these are **representatives** that **represent continental** areas. In other words they **represent** all the organiza-

tions and all the Scientologists on that **continent** in that **continental** area. They are specifically the **representatives** of the **Continental** Adcouncil but more importantly they **represent** all the other orgs and all those people too. (SH Spec 81, 6611C01)

**CONTINGENCY PLANNING**, see PLANNING, CONTINGENCY.

**CONTINUOUS PROCESS PRODUCTION**, see PRODUCTION, CONTINUOUS PROCESS.

**CONTINUOUS SERVICE**, consecutive **service** over a period of time in any Sen official organization i.e., City Office, Central Org (Day or Foundation) or Saint Hill. In other words, if a staff member transfers to another org, his service time in the previous org does count. In a foundation by **continuous service** is meant **continuous service** in the foundation only since the staff member working also in the day org is paid his **service** units for such in his day pay. (HCO PL 21 Jul 66)

**CONTRACT**, 1. the written, provable evidence of what the agreement actually is. (FO 2938) 2. contracts are basically agreements in writing. (BPL 24 Jan 73 III)

**CONTRACTED STAFF MEMBER**, 1. one who has signed a two-and-a-half year or five year **contract**. (HCO PL 17 May 74R) 2. those working on a **staff contract** for a social program, such a **contract** to be not less than two-and-a-half years. (BPL 12 Aug 74 II)

**CONTRACT PURCHASING**, see PURCHASING, CENTRALIZED.

**CONTRARY FACTS**, when two statements are made on one subject which are contrary to each other, we have contrary facts. Previously we classified this illogic as a falsehood, since one of them must be false. But in doing data analysis one cannot off-hand distinguish which is the false fact.

Thus it becomes a special out-point. (HCO PL 26 Nov 70)

**CONTRIBUTION**, I work on a theory of **contribution**. The way to **contribute** is to effectively and energetically wear one's hat, defend one's hat and not let anyone else do one's hat. I **contribute** to those who **contribute**. (FO 4)

**CONTRIBUTISM**, **contributism** is a philosophy in itself. You find it in the Factors. You also would apply it in economics. One **contributes**, **one is contributed** to. By others **contributing** to others who then **contribute** back, one is also benefited. (HCO PL 27 May 71)

**CONTROL**, the cycle of action of this universe is start, change and stop. This is also the anatomy of **control**. Almost the entire subject of **control** is summed up in the ability to start, change and stop one's activities, body and one's environment. (*POW*, p. 46)

**CONTROL AREAS**, areas within a fifty-mile radius of a Central Org. Any auditor within a fifty-mile radius of a Central Org must operate a District Office with finances completely under Central Org supervision and pay comparable to org staff. All franchises within these fifty-mile radius control areas are to be withdrawn by March 1st, 1963. (HCO PL 14 Feb 63)

**CONTROL INFORMATION CENTER**, 1. **CIC** contains all of Flag's security **information** (files, telexes, mission orders, etc.) and is not for everyone's access. **Control Information Center** does **control information** and maintains security for Sea Org operations. (FSO 615-1) 2. the purpose of a **CIC** is to collect data related to management from all over, coordinate it by continent and org and month so that it can be evaluated and on need produce the whys for high or low stat situations. (CBO 189) 3. the functional definition of **CIC** is: **CIC** is an administrative organization which assembles data from all points of observation in such a way

as to indicate the inevitable solution. It is like a manual computer, with its program files, area boards and plotting table. (FO 2192) 4. **CIC** is the program files, and statistic and alert **information** posted on the boards, and coordinated on the plotting table so that it gives the inevitable solution, plus some **information** to make life interesting for the crew. (FO 2192) 5. the prime responsibility of **CIC** is the briefing and firing of missions including the coordination of all items and actions needed to get a mission off. (FO 1954) 6. the whole essence of **CIC** is it takes separate channels of **information**, summates them for the channel and transfers the summation to the main board, which then indicates the action necessary. The main board then can predict, from the summation of the data and handle an area before it breaks down totally. **CIC** is a substitute for a captain. **CIC** should always know more about it than Command. (FO 898)

**CONTROLLED DAYWORK**, (or measured daywork) defines measuring the optimum amount of work that can be accomplished per day and thereby arriving at a daily production target.

**CONTROLLED ECONOMY**, a system of regulating a country's economy wherein decision-making government economists plan and control overall production, distribution, consumption, employment, wages and pricing. Also called planned economy.

**CONTROLLED REPORT**, a personnel-evaluating report in which a senior goes down an established checklist, checking off the qualities of performance and abilities evident to him in a junior's work.

**CONTROLLER**, Mary Sue Hubbard. (BPL 16 Aug 73) 2. the post is just senior to the Guardian. The duties of the post consist of coordination of all Scn orgs and activities. There is just one Controller in all Scn, just as there is only one Guardian. The Controller is appointed by the Founder or in his ab-

sence by the Guardians and Board of Directors in single meeting. The term of the Office is for life as is that of the Guardian. (HCO PL 21 Jan 69)

**CONTROLLER**, (also comptroller) the executive in charge of financial operations for an organization under whose jurisdiction falls budgetary planning and control, accounting, internal auditing and statistical reports.

**CONTROLLER COMM ORDER LOG**, the **Controller Communicator** keeps a **Controller Comm order log**. Each incoming **order** by the **Controller** is entered into this **log**. (BPL 16 Aug 73)

**CONTROLLER COMMUNICATOR**, the purpose of the **Controller Communicator** is: to find and report situations to the **Controller** and to obtain compliance on orders issued by the **Controller**. All **Controller Communicators** operate under the authority of the **Controller**. The immediate senior of the **Controller Communicator** is the **Controller Communicator** Flag. The senior of the **Controller Communicator** Flag is the **Controller**, Mary Sue Hubbard. A Continental Guardian ranks with but not above or below a **Controller Communicator** for his Continental Guardian Office. (BPL 16 Aug 73)

**CONTROLLING**, the supervision of an activity against a laid down procedure, standard or policy and the correction of deviations from that procedure, standard or policy. Controlling is normally associated with management from the supervisory level up but can take the form of automated controlling as in the case of a machine that automatically rejects bottles not filled to the required level.

**CONVENING AUTHORITY**, that duly appointed official of Scn who appoints and convenes a Committee of Evidence to assist him in carrying out and justly exercising his or her authority, and who approves, mitiga-

tes or disapproves the findings and recommendations of the Committee of Evidence he or she appoints. The Convening **Authority** may not be a member of the committee and may not sit with it and may not interfere with its conduct of business or its evidence, but may disband a committee he or she convenes if it fails to be active in the prosecution of its business, and may **convene** another committee in its place. The **Convening Authority** may not increase penalties recommended by the committee he or she **convenes**. (HCO PL 7 Sept 63)

**CONVERTIBLE**, the right attached to certain preferred stocks, bonds or debentures whereby the holder may convert or exchange them for common stock or another security, usually of the same company.

**COOK, 1.** the **Cook** prepares and serves all meals and washes up. When the **Cook** is also the Purser, washing up may be assisted by other ship's company. The **Cook** also assists cleaning below decks. Safeguarding the use of fresh water is the **Cook's** responsibility at sea. Where there is an **assistant cook** but not a **cook**, the Purser closely supervises or prepares the actual preparation of meals, but stands helm watches. (*Ship's Org Bk.*) **2. cooks** for the family and living-in staff. Has charge of all equipment, dishes and the kitchen. Designates required supplies. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

Cook (Def. 1)

**COOK'S SICK CALL BOOK**, any person treated by the Cook shall be noted in the Cook's Sick Call Book with name, date, hour and steps taken or medicine given and how much. Repeat doses are also noted. (FO 253)

**COOPERATION**, **cooperation** is senior to orders at all times, but "co" means *together*. There isn't any together where there is no understanding of what's occurring. So **cooperation** depends upon being able to see and grasp the scene. And the tech to make things go right. (OODs 5 May 74)

**COOPERATIVE**, an undertaking wherein a group of people form a business collectively owned and operated for their mutual benefit, distributing profits and losses equally to all its members.

**COOPERATIVE ADVERTISING**, see ADVERTISING, COOPERATIVE.

**COORDINATE**, to harmonize in a common action or effort. (FO 3404)

**COORDINATING**, the harmonious alignment of actions and people in an organization ensuring a smooth interacting performance overall.

**COORDINATION**, 1. "combining in harmonious action" or "combination in suitable

relation for the most effective or harmonious results." It does not mean "ordering along with." Before one orders into an org one should know what orders it is running on. (FBDL 152 Additional, FBDL 160 Additional) 2. working in agreement together. (7208C02 SO)

### **COORDINATION AND PRIORITIES SETTING UNIT**

1. (Management Bureau Flag) all orders are now channeled through a **Coordination and Priorities Setting Unit** in the Flag Rep Network and Execution Branch, where they get checked for accuracy against the current programs of your org, alignment with priorities, etc. (FBDL 488R) 2. Branch 12A, the Flag Flag Rep Network and Execution Branch contains a **Coordination and Priorities Setting Unit**. All orders to an org must go through this **unit** for **coordination**, clearance for cross orders and **priorities setting**. In this branch boards are kept for each org that have on them the current program for the org, any LRH ED INT programs being worked on, telex and dispatch orders for the last month, current priorities and any other vital information pertaining to operating the org. (CBO 377)

**COORDINATION BUREAU**, 1. the **Coordination Bureau** establishes, mans, oversees the training and processing and performance of duty of bureaux personnel and **coordinates** all internal bureaux functions. (CBO 7) 2. the supervision of bureaux comes under the **Coordination Bureau**. (FSO 123) 3. consists of **Coordinator** Branch, Bureau HCO Branch, Internal Bureau Supervision Branch, and External Bureau **Coordination** Branch. (CBO 23)

**COORDINATION CONFERENCE**, it is in the interest of network heads at the FOLO level to maintain full **coordination**. With the various reports that come up the network lines, each network head has a vast amount of data about each org. Pooling that data as a **coordination** council and using that to get

LRH and Flag programs executed per policy and CBO on a concerted effort will greatly improve the effectiveness of FOLO management. The FOLO Networks hold regular **coordination conferences** at least three times per week. The CO FOLO and Management Rep are present. The **Coordination Conference** is chaired by the CO FOLO. Any network head may request a **coordination conference** at any time to the FR Continental. Minutes must be kept of each **conference** with a copy sent to Flag. (FBDL 488R)

**COORDINATORS**, the three offices of the Executive Division are headed by coordinators rather than directors as in other divisions. They have the rank and privileges of directors of departments. Coordinators manage the activities and personnel of the office. The executive secretaries have first authority in their own offices of course. In chain of command the exec sec forwards all office administrative matters for his or her office through the Coordinator. Administrative matters means personnel arrangements, supervision and duties of personnel in that office and execution of tasks assigned. The executive secretaries do not forward HCO and org affairs through the Coordinators or the Division 7 Secretary but through Advisors. (HCO PL 20 Jan 66 II)

**CO-OWNERSHIP**, joint ownership of a business enterprise or property.

**COPE**, 1. I've had an insight into what cope really is. It is the process of finding and correcting out-points without ever discovering a why and without organizing any return to the ideal scene. A coper goes, "Out-point

found—correct it; outpoint found—correct it; out-point found—correct it." This perpetual cycle never finds or corrects why these out-points. So it just gets worse and worse. (OODs 21 Sept 70) 2. to handle whatever comes up. In the dictionary it means "to deal successfully with a difficult situation." We use it to mean "to handle any old way whatever comes up, to handle it successfully and somehow." (HCO PL 22 Sept 70) 3. the right way to go about it is to have the tech of a job, plan it, get the materials, and then do it. This we call *organizing*. When this sequence is not followed, we have what we call **cope**. Too much **cope** will eventually break morale. One **copies** while he organizes. If he **copies** too long without organizing he will get a dwindling or no product. If he organizes only he will get no product. **Coping** while organizing will bit by bit get the line and action straighter and straighter and with less work you get more product. (OODs 15 May 71) 4. doing the best one can with it. Single-handing goes with **cope**. (CBO 133)

**COPE ORDER**, the correction of an error, an omission or an out-point. (FEBC 1, 7011C17 SO)

Primary among these is that a corporation's owners enjoy a limited liability to the corporation's creditors if a financial disaster occurs. Only the assets each owner has invested in a corporation are subject to a creditor's claims. An individual's personal assets are generally secure from the claims of a corporation's creditors because a corporation is an entity legally distinct from its owners as individuals.

**CORPORATION, CLOSED**, a corporation which does not sell its stock to the general public. The stock is held by a few share-

holders who own and operate the corporation.

**CORPORATION COORDINATOR**, a newly created post, the function of which is concerned solely with the setting up and maintaining of new autonomous Sen **corporations** on a worldwide basis. The **corrected gross income** is the **income** available for use and is calculated by deducting various items as detailed on the AC-1 form. (BPL 4 Dec 72 IIRB) 2. in a Central Organization, all the money taken, whether in cash or checks, is banked in the Main Account at the Central Org's local bank. Ten per cent of this total taken during one week is remitted to HCO WW. This leaves 90% of the total take for that week in the Main Account. This balance is called the **corrected gross income**. (HCO PL 20 Feb 63) [The above HCO PL was cancelled by BPL 10 Oct 75 IV.] See ALLOCATION SUM.

**CORRECTION BUREAU**, there would be a Qual Bureau in a CLO called a **Correction Bureau** and it's **Bureau 5A**. (7109C05 SO)

**CORRECTION DIVISION**, 1. your next division after Technical Division is not really Qualifications but Correction. It would be called the Correction Division or the Adjustment Division but Qualifications would also serve. (SH Spec 77, 6608C23) 2. Division 5. (HCO PL 8 Nov 73RA) 3. Correction unsnarls things, it finds out the why of things, why a job can't be done, why a target is stopped, why a mission failed, why a cycle cannot be completed, etc., etc. Once the why has been found, the cycle, target, etc., can usually now go ahead and be completed. Up to now it has been thought that once Qual or **Correction** stepped in to **correct** that it would also now step in, do all the work and complete the cycle. This is not right. Qual will handle it for you, to the point of finding why or how come it's jammed, then will hand it back to you to complete. (FO 1753) 4. purpose of the **Correction Division**: to find and restore lost tech and safeguard knowledge; to ensure the technical honesty and results of Sen and Dn, **correct** them when needful and attest to them when attained. (BPL 7 Dec 71R I) 5. (BPL 7 Dec 71R I)

**CORRECTION FORMS**, (used by the LRH Comm) a very vital tool in obtaining compliance is the **correction form**. It is very essential that a **correction form** may be started on any bugged or stalled compliance on the WHOs found by investigation to be not wearing their hats. Positive correlation is the increase or decrease occurring simultaneously between two random statistics. When both statistics simultaneously go up or down there is a possibility that they are both being affected by a common cause. Negative correlation is when one stat goes up and another goes down simultaneously. In this situation there is also a possible common cause.

**COSTING FORMULA**, the costing formula for

pricing a book by the publishing agency (not the seller) is as follows: printing **cost** x 5 + 2x surface post to furthest org. This is the standard publisher **costing formula** and allows for discounts up to 50% for large distributors, overhead and royalties. To sell for less than this is to cause loss and prevent distribution. This also allows enough money for the distributor and the publisher both to advertise. This is a minimum price formula. A course must have a supervisor. He may or may not be a graduate and experienced practitioner of the course he is supervising but he must be a trained course supervisor. The final and essential part of a course is students. The final valuable product of any course is graduates who can apply successfully the material they studied and be successful in the subject. (HCO PL 16 Mar 71R)

**COURSE ADMINISTRATOR**, 1. the course staff member in charge of the course materials and records. (HCOB 19 Jun 71 III) 2. a supervisor in a course of any size has a **course administrator** who has very exact duties in keeping up **course admin** and handing out and getting back materials and not losing any to damage or carelessness. The **Course Admin** is in charge of routing lines and proper send off and return of students to cramming or auditing or ethics. (HCO PL 16 Mar 71R) 3. the **Course Administrator's** purpose is to help the Course Supervisor keep all bodies correctly arranged, placed or routed and to keep all course materials, folders, records, checksheets, invoices and dispatches handled, filled out and properly filed. is expected to get the students there, rolls called, checkouts properly done, misunderstandings handled, finding what the student doesn't dig and getting the student to dig it. The **supervisor** who tells students answers is a waste of time and a course destroyer as he enters out data into the scene even if trained and actually especially if trained in the subject. The **supervisor** is not an "instructor," that's why he's called a supervisor. A supervisor's skill is in spotting dope-off, glee and other manifestations of misunderstandings, and getting it cleaned up, not in knowing the data so he can tell the student. (HCO PL 16 Mar 71R) 4. the Course Supervisor oversees all Course Department activities and is directly responsible for producing course income, the training of students and graduating auditors at a high level of technology and good will. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

This covers cramming orders sent to Qual or originated by the **Cramming Officer** or Qual Sec on out-points in the org. (BTB 8 Mar 75II)

**CRAMMING OFFICER**, (Correction Division) purpose of the Cramming Officer is to help LRH to isolate and correct real causes for staff and student misapplication of technology or policy and see that the correct data is known, cleared of misunderstandings and drilled to confident certainty, thus ensuring the technical honesty of the organization. **CRAZY PEOPLE**, **people** who explain how wrong it is all going and who have reasons why and who aren't putting it right are the real **crazy people** in the universe. The only ones **crazier** than they are, are the ones who are quite happy to have everything fail and go wrong with no protest from them. And the only ones even worse are those who work endlessly to make things go wrong and

prevent anything from going right and oppose all efforts instinctively. (HCOB 19 Aug 67)

**CREDIT**, **1. credit** does not entirely deal with money. It has everything to do with confidence and reliability. (HCO PL 28 Jan 65) **2.** the word credit comes from the Latin *creditum* meaning something entrusted to another—a loan. In bookkeeping the word is used to mean any right-hand entry made to an account but the making of such right-hand entries does not necessarily mean the recording of a loan. In fact, when you make a right-hand entry to an impersonal account it means the recording of an outflow of a MEST, service or money particle; it does not mean the recording of a loan. (BPL 14 Nov 70 III)

**CREDIT ACCOUNT**, the **credit account** is established as a service of Division 3. It is a savings **account** like a banking establishment delivers. Any member of the ship's company may use the service and are encouraged to do so as it is a safe place to save one's money. (FSO 621-1)

**CREDIT BALANCE**, a **credit balance** occurs when the sum of the credit entries exceeds the sums of the debit entries. (BPL 14 Nov 70 IV)

**CREDIT CARD**, usually a wallet size identification card that allows a person to buy items or obtain services on credit simply by showing a retailer the card and signing the bill. The card is backed by a credit card company which pays the bill and bills the credit card owner. Usually purchases made with a credit card are interest free for one month after which interest is payable.

**CREDIT COLLECTED**, **1. credit collected** includes **collection** for Qual services and any other services given on **credit**, free-loader **collections**, and any monies owed to the org for services or sales. (HCO PL 12 Mar 71II) [The above HCO PL was cancelled by BPL 10 Oct 75 IX. **12.** (Flag) this includes amounts collected for Flag on-board servi-

ces or manufactured items, books, tapes, etc. (It does not include management fees even though these are on the same statement. They should be on a separate statement in the accounts file of the org.) (ED 103 FAO)

**CREDIT CONTROL**, any system of controlling the amount of credit extended to a customer or the total of credit extended to customers. This would include requiring credit references, limiting the amount of credit available to a customer, increasing the efficiency of collecting debts due to credit extended, etc.

**CREDIT MANAGER**, that executive responsible for determining a customer's credit worthiness and ability to pay off credit extended.

**CREDITOR**, a person who advances credit or to whom a debt is owed.

**CREDIT OUTSTANDING**, the extent of credit allowed to a customer by a company which includes goods on order as well as goods received.

**CREDIT RATING**, a rating or estimation of how much credit may be extended to a person or firm based upon past performance in paying off debts and present capacity to do so.

**CREDIT SALE**, a transaction where the seller extends credit to the buyer to purchase goods or services. The buyer agrees to pay off what is owed to the seller in regular installments. In a credit sale the buyer becomes the legal owner of what he purchases at the time of the sale.

**CREST**, the crest is actually the insignia that a knight of old wore on the top of his helmet and frequently also affixed to the top of his horse's bridle. It could be as simple as a tuft of colored feathers or as complex as a representation of a leaping lion carved out of wood. In some coats of arms, in fact, the helmet itself is actually represented as part of the coat of arms. In the Sea Org coat of

arms, however, we are not a military sort of group, the helmet is not represented, but simply the cross of the eight dynamics. (FO 3350)

**CREW**, when we say crew, we normally mean all below officer rank. (BO 34, 16 June 67)

**CREW MORALE OFFICER**, he is the Captain's assistant in matters of crew welfare and morale. Pride is to be built up by the **Crew Morale Officer**. (ED 240-7 Flag)

**CREW STUDENT AND PC LINES**, lines handled by routing forms and are similar to but not the same as public lines, as the crew are receiving their training and auditing as SO members and are not paying for the service but are expected to do their post and WQSB duties and are assigned to duty aboard even if the assignment is one of full time study. (FSO 137)

**CRIMANON**, **Crimanon** has the purpose to ensure that reforms in **criminal** laws and prison systems come about. Crimanon is dedicated to the successful rehabilitation of prisoners to make them useful members of society. **Crimanon** is completely reversing the 80% recidivism of criminals with fantastic success. (LRH ED 256 INT)

**CRIME**, 1. the action of the insane or the action of attempting seizure of product without support. Example: robbers who do not support a community seek to rob from it supporting funds. (HCO PL 25 Mar 71) 2. stems totally and entirely from lack of belonging and understanding that to which one belongs. The **criminal** or juvenile gang is a substitute for society. It is an outlaw pack at the throat of that which forced it not to belong. (HCO PL 16 Sept 70) 3. **crime** is directly the result of a lack of hat and training on the hat. (FO 2580) 4. action without inspection. (SH Spec 90, 6112CO7) 5. crime might be defined as the reduction of the survival level along any one of the eight dynamics. (SOS, Bk. 2, p. 33) 6. there are two

types of crime. There's the **crime** of commission and the crimes of omission and in modern society they pay very little attention to the crimes of omission. The penalty is usually awarded to a person really for two reasons: one is for being there and the other for communicating. Now that is the normal penalty in this society. If you want to reduce any crime down, it was basically composed of those two elements: being there and communicating. But there are crimes of not being there and not communicating, too. The society doesn't pay much attention to these. (SHS Dec 73 6608CO2)

Crime (Def. 1)

**CRIME REPORT**, staff member **report** of any **crime** noted or suspected, but if suspicion only it must be so stated. (HCO PL 1 May 65)

**CRIMES**, these cover offenses normally considered criminal. Crimes are punished by convening Committees of Evidence and may not be handled by direct discipline. Crimes may result in suspension of certificates, classifications or awards, reduction of post, or even dismissal or arrest when the **crime** clearly warrants it. But such penalties may not be assigned by direct discipline. Certificates, classifications or awards may not be cancelled for a **crime**. (HCO PL 7 Mar 65 III)

**CRIMINAL**, 1. the **criminal**, the suppressive person (same thing) is trying to get even with people. That's his common denominator. He does it by covert omissions or overt violence. It all amounts to the same thing. (HCO PL 7 Dec 69 II) 2. real criminals may have bad meters but crimes are often so unreal to them that they do not read (meters' needles read only on things within the reality or borderline reality of a person), and the reality level of a criminal is too bad for reads to occur in a majority of cases. (HCO PL 15 Nov 70R)

**CRIMINAL RECORD**, one with the police for the commission and imprisonment for felony. The fact of a crime is irrelevant if not seen as a crime by law. (HCO PL 13 Mar 69)

**CRIMINAL THINK**, whether theft or threat or fraud is used, the **criminal think** is to get something without putting out anything. (HCO PL 4 Apr 72)

**CRITICAL PATH ANALYSIS**., see ANALYSIS, CRITICAL PATH.

**CRITICAL THOUGHTS**, these are always only indicators that the person being checked has committed an overt against what he or she is **criticizing**. **Critical thoughts**, comments and attitudes toward something indicate always a prior actual overt. (BPL 3 Feb 62R)

**CROSS**, the symbol of the cross has been widely used in symbolic tradition, and with many interpretations given to it. The many forms of the word "cross" itself, however, traditionally are said to derive from (come from) a basic root word meaning "light of the Great Fire." The distinctive cross of the Church of Scientology is symbolic because of its eight points, of the eight dynamics. Above the shield of the Sea Org coat of arms, it not only symbolizes the Sea Org member's devotion to the aims of the Church of Scientology, but also his commitment to the greatest good for the greatest number of

dynamics. The cross's position above the shield also indicates that Sea Org is a religious fraternity within the formalized structure of the Churches of Scientology. (FO 3350)

Cross

**CROSS DIVISIONS**, one person in two different divisions. (HCO PL 9 Mar 71II)

**CROSS-HATTING**, you're trying to hat this person as one thing and somebody has crossed your lines and is **hatting** him as something else. That is one of the favorite tricks of a suppressive person: "You really don't want to be here, what you really want to be doing is waffle, waffle, waffle. . . ." (ESTO 10, 7203CO5 SO II)

**CROSS-ORDERING**, **cross-ordering** is where juniors are issuing contrary or confused orders into an area where an executive responsible for an area issues an order. Programs cannot exist or be executed. (HCO PL 23 May 68, WW and SH Recombined (Deadline 15 June '68))

**CROSS-ORDERING POLICY**, **cross-ordering** policy is committed when any action is ordered done that violates a policy that should be followed in the situati-

on, or that is ordered out of an illegal policy where standard policy exists. (FSO 788)

**CROSS ORDERS**, 1. a type of dev-t where juniors issue so many orders unknown to a senior and across his lines that a senior's orders are obscured or lost. Things get very confused, very active but non-productive. (HCO PL 27 Jan 69) 2. senior orders unattended because of different junior orders. (HCO PL 24 Feb 69) 3. (form of arbitrary) the receipt of a communication is an extremely important part of the sequence of actions that results in a compliance. Common reasons for the non-receipt of a communication is that arbitraries (or arbitrary factors) exist in the area. Cross-order means an order received from a local person who is junior to the originator of the **order** or policy that is to be duplicated and complied with, which is contrary to the senior **order** but is not cancelled (as it should be) in favor of the senior **order**. (BPL 10 Nov 73 II)

Cross Orders

**CROSS POLICY**, operating on **policy** contrary to that of management. (FO 2626)

**CROSS TARGETS**, a type of dev-t where the senior's target system is neglected due to conflicting targets being set on lower levels. (HCO PL 27 Jan 69)

**CROSS -TRANSFERRING**, the whole board can be thrown askew and chaos made in the ship by **cross -transferring**. This is pure destruction. By **cross-transferring** is meant shifting several posts because one is shifted and across divisions, i.e. a Qual personnel is made PRO. A steward is transferred to Qual. An HCO person is **transferred** to steward. Three **transfers** all to fill in one gap. In practice somebody new should be fed into Division 6 and a Division 6 person promoted to PRO. (FO 2127)

**C ROUTING**, goes up to one's org superior or superiors on channel as per org board only. One's own superiors can send it across if they wish, to their similar post in the other org but it cannot be so routed by the original sender. Do not go up in own org and address across to a superior post than your own in another org. It must only be addressed to superiors in one's own org. Dispatches so routed are clearly marked **C Routing** and have the proper vias for one's own org marked on it by the sender for forwarding inside his own org. (HCO PL 13 Mar 65 II)

**CRUSADE**, type of article other than straight news usually included in a newspaper. A **crusade** is an attempt by a newspaper to service the public interest. There have been crusades as long as there have been newspapers. Often a crusade will result from investigatory reporting. A bad spot is turned up, and the paper will work as a team to handle that bad spot. Crusades are a traditional part of the newspaper's hat. (BPL 10 Jan 73R)

**CRUSH SELL**, over-do the hard sell technique and you wind up with crush sell. (bodily force, duress, threats, etc.) and an ARC broken field. Go to the other extreme called soft sell and you'll wind up with no business,

no income and an ARC broken field. (CBO 126)

**CRYPTOANALYST**, a professional code and cipher breaker usually employed by governments or military units and one who can and does break codes and ciphers without having the original code or cipher. (HCO PL 11 Sept 73)

**CRYPTOGRAM**, a **cryptogram** (hidden meaning) is something written in code or cipher. (HCO PL 11 Sept 73)

**CRYPTOGRAPHER**, someone who uses codes and ciphers. (HCO PL 11 Sept 73)

**CS**, (abbreviation for Case Supervisor). It means one of two things depending on context. (a) that person in a Scientology Organization who directs and oversees the auditing of preclears including the programming of cases (the setting out of a series of auditing actions in correct sequence for each case), the specific written directions for each session, the grading of sessions, and the correction of auditors by sending to cramming when departures from standard tech occur, (b) C/S also means the written instructions of a Case Supervisor, in this context, the abbreviation form only is used. (BPL 4 Dec 71R III)

**CS-1**, 1. (HCO Aide) from CS-1 stems the network and know-how of all HCOs in the world in SO and Scn orgs. (FO 2376) 2. 1 expect these things from CS-1 quite in addition to "regular duties" (a) to see that personnel exists in adequate quantity and that it is being properly trained and apprenticed, N to see that senior officers aboard and in outer areas are in-ethics, on post and producing, (c) to note and get handled out-ethics scenes in orgs. (FO 3179) 3. Communications Aide, responsible for communications, ethics, personnel and transport. It is the opposite number to Division 1 on Ship's Org Board. (FO 1031) 4. LRH Comm Aide in charge of communications, transport and personnel. (FO 795)

**CS-2**, 1. (Dissemination Aide) I expect these things from CS-2, quite in addition to "regular duties" (a) to see that registration outnesses and unrealities do not occur and that registrars are functional, busy and effective and on policy and that squirrel registration does not occur, (b) to keep books flooding out, (c) to keep central files and addresses up-to-date, properly tabbed and in use, (d) to keep the money flooding in. (FO 3179) 2. the duties and responsibilities of Division 2 in Scn orgs and Sea Org organizations are now under CS-2. All matters concerning Division 2-promotion to CF, CF, org magazines, letter reg functions, reg functions and publications are sent to CS-2 for handling. (FO 2270) 3. Training Aide. (BPL 8 May 69R III)

**CS-3**, 1. Finance Aide (CS-F) is located on the org board in Division VII Her area of responsibility is that of Finance Offices and FBOs. Treasury Aide WS-3) is located on the org board over Division 3. Her area of responsibility is that of Treasury Division 3s. The Finance Aide will no longer carry the title of CS-3 but will be posted as CS-Finance. Treasury Aide will assume the title of CS-3 which is appropriate for her position on the org board. (FDD 18 Treas INT) 2. I expect of CS-3 that she will keep the SO viable and reserves mounting. This is in addition to her regular duties. Of Treasury Aide, I expect the following, quite in addition to "regular duties" (a) to keep logistics flowing and crews uniformed, (b) to keep all outstanding money in the world collected up and not back-date which destroys it, (c) to get proper FP known and used in every area. (FO 3179) [The above duties of CS-3 later became the duties of Finance Aide and the above duties of Treasury Aide became the duties of CS-3 per FDD 18 Treas INT of 16 June 1972, Classification of Titles, which laid out the duties of Finance Aide and merged the posts of Treasury Aide and CS-3 into one post called CS-3.1 3. financial mat-

ters are assigned to CS-3, the Commodore's Staff Material Aide (CS Order 71) 4. Commodore's Staff for Division 3. (FO 1590) 5. Material Aide, in charge of logistics, finance and stewards. (FO 795)

**CS-4**, 1. (Training and Services Aide) I expect these things from Training and Services Aide, quite in addition to "regular duties" (a) to spot areas of out tech before they develop seriously and take the actions necessary to handle, (b) to keep tech and admin data flowing to orgs and known and used, (c) to effectively handle by whatever means failures on the part of local and outer terminals to understand and apply tech and admin data. (FO 3179) 2. the post of CS-4 will be filled as the opposite number to Tech Div 4 and Ship Div 4. The present duties of CS-4 and A/CS-4s transfer to the Chief of Sea Org Operations at Flag and to the Assistant Chief of SO Operations for (continental area) on every stationship or base. (FO 2474) 3. is primarily concerned with missions and their successful conduct and completions. (FO 2333) 4. the hat and responsibilities of the post of CS-4 are very simple, the basics of which are hereby listed: (1) supervising and operation of CIC, (2) operation of missions, (3) planning and programming of actions of the flotilla, (4) supervising the well functioning of Flag and ship Div 4s, (5) ensuring AO Div 4s are operating well and stats going up, (6) to keep your eye on Div 4s world wide and push on areas with falling stats. (FO 1595) 5. Operations Aide, in charge of operations, ships, tech and AOs. (FO 795)

**CS-5**, 1. (Qual Aide) I expect these things from Qual Aide, quite in addition to "regular duties" (a) to get and keep word clearing fully in over the world, (b) to build effective Qual Divisions. (FO 3179) 2. as Commodore's Staff 4 is primarily concerned with missions and their successful conduct and completions, and as Commodore's Staff Tech is mainly research internally and cor-

rection externally then Tech and Qual programs and actions come under CS-5. The duties of CS-5 then consist of internal Flag and ship Tech and Qual actions, including an eye on ship training, on research and tech programs and on Tech and Qual matters in SO and Scn orgs. Keepers of Tech are the responsibility of CS-5. (FO 2333) 3. correction of actions which have gone astray. That is the definition of CS-5's post. (691OC30 SO) 4. will now become Tech and Qual Aide. (FO 995) 5. Ethics Aide, in charge of petitions, correction and medical. (FO 795)

**CS-6**, 1. (Distribution Aide) I expect these things from CS-6, quite in addition to "regular duties" (a) to keep surveying and PR tech in and in use, (b) to keep up org appearances, (c) to keep floods of new people coming into orgs. (FO 3179) 2. Is now responsible for the Public Divisions and all matters relating. (FO 2270) 3. Public Aide, in charge of distribution, information, new public and hostess. (FO 795)

**CS-7**, 1. Flag LRH Comm. (BPL 24 Jul 73R) 2. (FO 3179) 3. makes sure that the LRH Comm Network international is functioning. (CS Order 46) 4. LRH Communicator Aide, which hat has been worn in conjunction with CS-1 is now separated out. CS-7 is responsible for my lines, getting compliance and coordination of activities for all other Aides. (FO 1031)

**CS-8**, Division 8 LRH Aide. (SO ED 72 INT)

**CS-9**, 1. in charge of LRH Comm Network. (FO 2364) 2. CS-9 is to handle and obtain

LRH Comm compliances in SO and other orgs. (CBO 28)

**CS BOARD**, each CS (Commodore's Staff) has a board with the relevant information of their activities on it. (FO 898)

**CS-ES**, the post of Estate-Ship Aide. It is a full Commodore's Staff Aide post and is located on the org board directly under Staff Captain, alongside CS-PA on the org board. Its shortened designation will be CS-ES. (FO 3380)

**CS-F**, the post of Commodore's Staff-Finance. (FO 3403)

CS FLUB, consists of gross violations of case programming. (HCO PL 8 Sept 70R)

**CS-G**, Commodore's Staff Guardian is responsible for the Guardian's Office over the world and this function is best described as guard and protect Scn. The CS Guardian also sees that **Guardian Office** and SO actions are coordinated and complement each other. (FO 1664)

**CS-P, 1. Personnel** Aide Flag. (CBO 241) [CS-P literally abbreviates for Commodore's Staff-Personnel.] 2. the CS-P post is abolished. The Staff Aide responsible for personnel and all HCO matters is CS-1. (FO 3313)

**CS-PA**, see CS-PRAC.

**CS-PRAC**, Commodore's Staff Aide for **Public** Relations Area Control (now known as CS-PA, Commodore's Staff Aide for Public Affairs). (CBO 262-2)

**CS-PrB**, the existing post of D/CS-2 Pubs/Books is now moved up and expanded to the post of Commodore's Staff Aide for **Promotion and Books (CS-PrB)**. The post has been created to more fully aid LRH with the overall supervision, production, coordination and protection of broad LRH **promotional** lines from Flag to field and to ensure that all LRH products done by the Photo Shoot Org are then actually produced, marketed and correctly used. (FPO 2253)

**C/S SERIES**, actions of a case supervisor are covered in detail in the C/S Series HCOBs. (BPL 4 Dec 71R III)

**C/S SERIES 53 RI**, HCO Bulletin 24 November 1973RA, C/S Series 53RI, Short *Hi-Lo TA Assessment* CIS. This is a famous list. It solved the long long problem of high and low TAs and really solved it. Unfortunately it has a name of being done for high and low TAs. In truth it practically handles the whole repair of any difficult case today! One assesses it Method 5. One handles the reads from the top down. It can also be reassessed several times until it F/Ns on a whole M5 assessment. (LRH ED 257 INT)

**C/S SERIES 54**, narrative Dn. for drugs and psychosomatic ills. (ED 164 FAO)

**CULT**, 1. cult is uniformly defined as a system of religious worship or ritual. (LRH ED 28 INT) 2. cult by the *Merriam-Webster Dictionary* means: (1) a religious practice. (2) a system of beliefs and ritual connected with the worship of a deity, a spirit or a group of deities or spirits. (3a) the rights, ceremonies and practices of a religion, the formal aspect of religious experience; (3b) Roman Catholicism. (LRH ED 28 INT)

**CULTURAL LAG**, an example is Dr. Semmelweis's discovery of the cause and cure of childbed fever. For over a half a century after that women still died in agony after childbearing. Eventually the culture caught up to it and the illness which had accounted for a huge percentage of female deaths ceased to exist. Dr. Semmelweis's discovery of its prevention was "ahead of its time." Pathetically, scoffed and disbelieved, he even died to prove he was right. (HCOB 14 May 69 II)

**CULTURE**, 1. the amount of technology, knowingness, wisdom in existence in the society. (Aud 27 UK) 2. an accumulated soul which flows over and through a number of individuals and persists after the death of

those individuals via other individuals or even other groups. (DAB Vol. II, p. 136)

**CUMULATIVE INSANITY**, the actual point between where a person who is sane goes thereafter insane is a very precise point and it's when he begins to stop something. At that moment he is insane. Now he is insane on that one subject at first and then he can get another *idée fixe* and become insane on another subject and you do get **cumulative insanity** but there is no doubt of his insanity on that one subject. (6711C18)

**CURRENCY SPECULATOR**, a person who exchanges one currency for another in order to profit from fluctuations in exchange rates.

**CURRENCY UNIT**, we define a currency unit as the full cost of one auditing hour- at the local per policy cost. (At this time for example this is \$50 in the US.) (BPL 10 Sept 65R)

**CURRENT ASSETS**, see ASSETS, CURRENT.

**CURRENT BILLS FILE**, every firm or person -even staff members, has a place in our accounts files in a separate file folder. One firm or person = one folder. All records, bills, letters, etc., relating to such are placed in this person or company's file. Any bank or other loan has its own file. Cancelled checks and bank statements are kept in their own files by account. But, where possible, a photostat of each back and front is made and **filed** with the firm folder to which it was issued. So are invoice and disbursement copies also filed as they apply in these files. A summary sheet of **billing** and payments to one firm is kept in the folder of that firm. (HCO PL 27 Jan 60)

**CURRENT EVALUATIONS**, those evaluations that apply to the evaluated org or area in present time, and in which the why and handling still apply in full. (FO 3149-2)

**CURRENT LIABILITIES**, any liability or valid debt which will be paid within a short period of time, usually within a year or before the end of the financial year.

**CURRENT PROGRAM**, definition of a **current program** used here is a **program** not more than approximately two months old and/or inconsistent with the current statistical picture, and/or outmoded by the **current** scene in an org. (ED 520-4 Flag)

**CURRENT RATIO**, 'a ratio of an organization's current assets to its current liabilities. This figure is used as an indicator of an organization's working capital and ability to pay off debts. The current ratio can be unreliable due to the quality of assets calculated into it and a cash/bills ratio would be a better indicator to use.

**CUSTODIAN OF TECHNOLOGY**, the HCO Area Secretary provides the Central Organization with all needful **technology**, bulletins, tapes, records, books (for library) and data so that the Central Org can give the highest quality of service. That HGC auditors use allowed processes well and with the best presentation is a primary concern of HCO. The HCO Area Secretary sees to this personally and consistently. That students are instructed properly and in accordance with standard processes, and that LRH tape or records are played on every course is of primary importance to HCO. The HCO Area Secretary sees to this personally and consistently. **Technology** given in public lectures and performances must be standard and this is of deep concern to HCO when it is not. The HCO Secretary is the Custodian of Technology in any Central Organization. (HCO PL 13 Jan 59)

**CUSTOMER**, a person who buys goods or services from another, especially one who patronizes another regularly.

**CUSTOMER COMMUNICATIONS**, advertisements, brochures, and promotion

that keep a customer or potential customer informed about products or services.

**CUSTOMERS**, PCs and students. (HCO PL 11 Nov 69)

**CUSTOMER SEGMENTATION**, the separation of customers in a particular market into distinct categories (age, , social status, income bracket, etc.) that can then be addressed more directly through advertising, promotion and marketing techniques.

**CUSTOMS BROKERS**, are specialists in the paperwork of getting things through customs with the minimum of cost and the maximum of speed. When necessary they also apply for government licenses for the import or export of the goods they are handling. However, they never physically touch the goods themselves. (FO 2738)

**CUSTOMS DRAWBACK**, same as drawback.

**CUTATIVE**, 1. after 1966 when I left the post of Executive Director WW, a new condition set in. checksheets, processes, intensives, grades began to be cut down. This we can dub a cutative impulse, to coin a word; shortening things in order to produce a quicker result. (HCO PL 30 May 70, Important Cutatives) 2. an invented word to mean the impulse to shorten or leave out or the thing left out. (HCO PL 26 Sept 70 III)

**CUTBACK**, a reduction in the level of production or activity usually resulting in the laying off of personnel.

**CYCLE**, anything which has a beginning, a middle and an end. (FO 2528)

**CYCLE**, cycle is a regular series of events that occur over a regular or sometimes irregular period of time. The business cycle consists of: prosperity, decline, depression and recovery. The amount of time a company or nation spends in any portion of the business cycle is attributable directly to management.

Cycle (Def. 1) A. Beginning B. Middle C. End

**CYCLE BILLING**, a system of billing whereby a portion or percentage of a firm's debtors are billed with statements each day, week, etc., in a relatively continuous cycle as opposed to trying to bill all debtors at one time such as at the end of each month. This type of billing spreads out the workload and payment of bills.

**CYCLE OF ACTION**, 1. the cycle of action has at its exact center, conservation. Start, increase, no change, decrease, stop. That really is the cycle of action. There is a COMDlete maybe right in the middle of the **cycle of action**. That would be the null between increase and decrease. It would be the null point between growing and decaying. There is a plateau in there where something hits. It's an effort to maintain the state. WDC 61) 2. the creation, growth, conservation, decay and death or destruction of energy and matter in a space. Cycles of action produce time. (PXL, p. 8) 3. start, change and stop comprise a cycle of action. (POW, p. 41)

Cycle of Action (Def. 2) A. Creation B. Growth  
C. Conservation D. Decay E. Destruction

**CYCLE OF ACTION OF LIFE**, the **cycle of action of life** is creation, survival and destruction. Survival could be said to be any change, whether in size or in age or in position in space. The essence of survival is

change. Creation is of course starting, destruction is of course stopping. Thus we have in Scn two very useful cycles of action, the first of them being start, change and stop, and the more detailed one being create, survive, destroy. Start, change and stop imply the conditions of a being or an object. Create, survive, destroy imply the intention of life towards objects. (POW, p. 42)

**CYCLE OF BOOMS AND DEPRESSIONS**, there is a phenomenon that takes place and that is the periodic cycle which the communists call the **cycle of booms and depressions** without which communism couldn't exist. And the **cycle of a boom and depression** is created by the outflow and answer cycle of the department. You don't have any answers coming in so you sit there and outflow very heavily. Then your mail beeps up and you spend your time answering the letters and you don't outflow and after a while business drops off and goes in the trough on the curve and then you get anxious and promptly outflow which brings in lots of business and replies but no outflow. (5812C16)

**CYCLE OF CONTROL**, see CYCLE OF OBSERVATION.

**CYCLE OF DISESTABLISHMENT**, it has been long proven that constant transfers of personnel-also known as "musical chairs"-and frequent demotions or dismissals cause a situation of decline in an org, and winds up with staffs: (a) not getting fully hatted and trained on the actions and functions of one post; (b) not gaining the experience they need on the post to learn all the ropes; (c) thus being left with misunderstandings on that post or area, (d) and the **cycle of action of life** in rapid succession on other posts. In such a situation one winds up finally with confused staff, slow producers due to earlier unhandled misunderstood words, lack of hating as the Hating Officer can't keep up, lack of personnel programming as they

don't stay long enough on any one post to complete their program for that post. This then leads to unstable terminals, which brings about weak internal lines and reflects on the field by lack of new bodies or if they do show, lack of sign-ups, and finally, lack of a stable, bright, high morale staff which is producing. This is the **cycle of disestablishment**. It doesn't happen overnight  
\* But once started, it disestablishes with increasing momentum. (BPL 9 Aug 71R II)

**CYCLE OF HATTING**, the **cycle of hating is hat** some and get production, hat more and get production, hat more and get production. Hat to total specialization, get production. Hat to more generalized skill and get production. Hat an activity until it can do own and everyone else's hat in the activity and get production. You hat to get a product. (BPL 3 Apr 73R I)

**CYCLE OF OBSERVATION**, there are certain conditions necessary for accurate observation. First is a means of perception whether by remote communication by vari-

**DAAD, n. 1.** "Data Addressee." The **DAAD** is a fast but non-tabulated method of gaining data from another station. A **DAAD** leaves no copy in the hands of the ORIGINATOR or the chief communicator and should come back quickly as demanded information means that a maybe has to be resolved in order to resolve other problems. Thus a **DAAD** is traditionally fast, but has the frailty of not leaving tracks. A **DAAD**, returned, is sent to file. (HTLTAE p. 119) 2. **INFADS** and **DAADS** are just lonely little pieces of paper which have left no duplicates behind them. They are on their own. **DAADS**, which are very vital, since they represent a need for data to keep the wheels turning from minute to minute, cannot go far astray because the sender is anxiously waiting for an answer. **INFADS** and **DAADS** are the

ous comm lines or by direct looking, feeling, experiencing. Second is an ideal of how the scene or area should be. Third is familiarity with how such scenes are when things are going well or poorly. Fourth is understanding plus-points or rightnesses when present. Fifth is knowing out-points when they appear. Sixth is rapid ability to analyze data. Seventh is the ability to analyze the situation. Eighth is the willingness to inspect more closely the area of outness. Then one has to have the knowledge and imagination necessary to handle. One could call the above the **cycle of observation**. If one calls handle number 9 it would be the cycle of control. (WO PL 18 May 70)

**CYCLIC CASE**, the **cyclic case** (gains and collapses routinely) is connected to a suppressive person. (HCO PL 5 Apr 65)

casual remarks and quick inspirations of the communications system. (HTLTAE, pp. 88-89)

**DAILY REPORT, 1.** usually contains what you have done on post today and what outnesses have been spotted and what outnesses you handled. You can say whatever you wish also. (OODs 19 Apr 72) 2. (for the Commodore) the report should contain: (a) productions and actions taken by you on your post, (b) actions taken by you to correct outnesses you have found in the ship and others, (c) comments. It is an optional line which each person aboard the flagship has with the Commodore to inform him of his daily actions. (FSO 127R) 3. the crew members of a Sea Org installation may write a daily report to their Commanding Officer. This should be heartily encouraged by

commanding officers, as a daily report from each crew member can give the CO excellent data and a general summary of crew activities and morale. The procedure for a crew member writing a day report is (a) productions and actions taken during the day on post, (b) actions taken to correct outnesses in the area and in others. (FO 2576) 4. daily reports to aides, captains, COs, OTL and juniors are not compliance reports but information only. Such daily reports contain: (1) the activities of their zone, (2) particularly any important event that is occurring, (3) any data that would be of interest to the senior. (BPL 26 Jan 69RA) 5. the report is a very simple affair. It is headed "To LRH Daily Report." It marks the time of ending work for the day, the date, the division and any department and any section numbers, a very brief statement of the day's work done by the staff member (for staff auditors the name of any pc audited and instructors the number of students taught that day by actual count and any absences or blows), and the signature of the staff member. (HCO PL 14 Apr 65 III) *Abbr.* DR.

**DAMAGE CONTROL**, 1. this drill is not strictly an all hands operation as the necessary actions of running or using the ship must also go on. Therefore, one trains up a damage control and rescue party to care for various accidents which might happen to the ship herself, including getting hulled. This includes getting water out of her bilges fast and rigging pumps. (Ship's Org *Bk.*) 2. Purpose: to take over an area of disorder before damage occurs or to salvage what can be salvaged after damage has resulted. WO 2689) 3. damage control is the function of the normal precautions taken to guard against fire, flood, general damage. **Damage control** is a function of Div 4 for the handling of the equipment, fire extinguishers, hoses, and the tools and material to control damage. (FO 1611) *Abbr.* D/C. [See Illustration]

Damage Control (Def. 1)

**DAMAGE REPORT**, staff member report of any damage to anything noted with the name of the person in charge of it or in charge of cleaning it. (HCO PL 1 May 65)

**DANGER CONDITION**, 1. a danger condition is normally assigned when: (1) an emergency condition has continued too long, (2) a statistic plunges downward very steeply, (3) a senior executive suddenly finds himself or herself wearing the hat of the activity because it is in trouble. (HCO PL 9 Apr 72) 2. a **danger condition** exists where statistics show continuing emergency or a steep, steep fall. If a **danger condition** exists, you handle the situation, bypass anyone at all and then the personnel who ignored it. (HCO PL 15 Jan 66)

**DANGER FORMULA**, the original **formula** follows: (1) bypass (ignore the junior or juniors normally in charge of the activity and handle it personally), (2) handle the situation and any danger in it, (3) assign the area where it had to be handled a danger condition, (4) handle the personnel by ethics investigation and Committee of Evidence, (5) reorganize the activity so that the situation does not repeat, (6) recommend any firm policy that will hereafter detect and/or prevent the condition from recurring. (HCO PL 9 Apr 72)

**DANGEROUS**, 1. peoples definition of **dangerous** is something that you don't want to communicate with very much. So you just turn this around and say don't communicate with this very much and they'll believe it's **dangerous**. (SH Spec 200, 621OC09) 2. people consider those things dangerous which they are afraid to communicate with. What's the definition of **dangerousness**? Afraid to communicate with. (SH Spec 200, 621OC09)

**DANGER RUNDOWN**, the Trouble Area Long Form, Trouble Area Short Form or Why handling per HCO PL 9 April 1972, *Ethics - Correct Danger Condition Handling*7w. (BPL 17 Apr 72)

**DANGER RUNDOWN CORRECTION LIST**, if any trouble occurs on the application of the **danger rundown** (Trouble Area Long Form, Trouble Area Short Form or Why handling) per HCO PL 9 April 1972, *Ethics - Correct Danger Condition Handling* and the person did not respond favorably to that action, use this correction list. The list is done by telling the person you are about to ask him some questions on a meter concerning the **Danger Rundown** actions. Further handling would be whatever is found necessary from the assessment and handling in order to get the **Danger Rundown** properly completed with a correct why which leads to a Correct application of the formula. (BPL 17 Apr 72)

**DATA**, 1. observations leading to investigation. (HCO PL 29 Feb 72 II) 2. when doing an evaluation the data you give is not a lot of reports. It is a brief summary of the "strings pulled" on the out-point or plus-point route to finally get the WHY. Data, then, is the Sherlock Holming of the trail that gave the why. It at once reflects the command the evaluator has of the Data Series. (HCO PL 17 Feb 72) 3. the information one has received that alerts one to the situation. (HCO PL 17 Feb 72) 4. facts, graphs, statements, deci-

sions, actions, descriptions which are supposedly true. (HCO PL 15 May 70) 5. an org owes Flag certain reports-HCO weekly reports, staff lists, ethics orders, personnel orders, OODs, org rudiments, Dissem weekly reports, etc. Other data issued such as debriefs of missions, interrogation of persons from the area or near a FOLO. (FBDL 192R)

**DATA AIDE**, the **Data Aide** is held accountable for the availability of the data and neatness and completeness of the data files. (CBO 1 USB)

**DATA ANALYSIS**, 1. following that chain of out-points which leads you to the idiocy nobody would ever believe. (ESTO 12, 7203CO6 SO II) 2. we do this by grading all the data for out-points (primary illogics). We now have a long list of out-points. This is **data analysis**. (HCO PL 15 May 70) 3. by studying and isolating the principles that make a situation illogical, one can then see what is necessary to be logical. This gives us a subject that could be called "illogicality testing" or "irrationality location" but which would be better described as **data analysis**. For it subjects **data** and therefore situations to tests which establish any falsity or truth. (HCO PL 12 May 70)

**DATA BUREAU**, 1. the **Data Bureau** has the cycle of attract **data** from all pertinent areas of all possible types, file it, assemble it, condense it, display it. If you represented it as a receiver of different types of reports from many remote observers, which the **Data Bureau** then got into orderly condition and then condensed them to meaning and displayed them for use by others you would have the operation of the **Data Bureau** and its CIC. Stats provide the clue to meaningful **data**. Very down and very up statistics alike cause the reports of those particular areas in that particular time to be related to those stats and displayed. This flashes all the very successful and the very dangerous areas to

display attention and provides the extreme conditions packs vital to understand the why or to permit it to be investigated further. (CBO 7) 2. it has collection, condensation, evaluation and distribution (of **data**) as its four actions. (FBDL 12) 3. FOLO **Data Bureau** collects standard reports due from orgs, nudges for standard reports due from orgs, logs **data** on standard **data** checklists, debriefs and gets area observations, keeps a copy of stats, graphs it for Flag Programs Chief, and forwards all data and reports via External Comm to Flag. (CBO 192) 4. **Data Bureau** contains a Data Receipt Branch, Data Assembly Branch, Data Condensation Branch, and Data Library Branch. (CBO 16R) 5. the Admin Unit and CIC are now the **Data Bureau**. (OODs 15 Aug 70)

**DATA BUREAU FILES I/C**, the purpose of Data Bureau files is to furnish the reports for any org for any given month in one folder. This requires an exact and kept up filing system. The product of **Data Bureau files I/C** is packages of grouped data complete by org by month ready for evaluation. (FO 3170)

**DATA BUREAU STAT REPORT**, another set of data entirely comes in on telexes. These are the statistics of each division of each org in the world. The major stats of an org are plotted in big stat books. The gross divisional stats are plotted in folders. These are gone through carefully each week by an Alert Officer. He is looking for dangerous stat situations or extremely good ones. All this information is written up in a published weekly **Data Bureau stat report**. Thus any major situation is spotted by statistics. (FBDL 192R)

**DATA CHIEF FOLO**, the **Data Chief FOLO** is perhaps one of the most vital posts in the **FOLO**. The **Data Chief** is responsible for seeing that **data**, debriefs and stats get to Flag to facilitate swift evaluation in order to

increase the viability of our activities. (CBO 222R)

**DATA EVALUATION ALERT**, a **data evaluation alert** will be used for all **evaluations** done by the **Data Evaluator**. The purpose of an **evaluation alert** is to get all **data** on the subject being **evaluated** to the **Data Evaluator** fast so that all **evaluations** can be done quickly with all **data** to hand. When the **evaluator** is about to start an eval, he will distribute **data evaluation alerts** to all terminals who may have **data** on hand which isn't in data files which will be pertinent to the evaluation. As soon as the person receives the **data evaluation alert**, he searches through all his files, writes down any data he knows about the area, attaches it to the **data evaluation alert**, and hand routes it back to the **evaluator**. (CBO 172)

**DATA FILES**, 1. the purpose of **Data Bureau files** is to furnish the reports for any org for any given month in one folder. This requires an exact and kept up **filing** system. The **data files** are to be broken down by (1) continent (2) org (3) month. All files for orgs of a particular continent are to be in cabinets adjoining each other. One files the orgs of a continent in alphabetical order. Each file drawer is clearly labeled by continent, then org (i.e. Europe: Orebro). A folder exists for each month's reports whether it has sent any or not. It is a folder not unlike a pc folder. It is tabbed "org name, month, year" (i.e. Orebro February 1972). Inside the front cover is the checklist of items in it. (FO 3170) 2. every org in the world has a file for each month in the **data files**. As the **data** pours in from that org-telexes, staff reports, MO reports, finance reports, surveys, personnel records, observations, any and all **data** it goes bang at once into that org's file for the month. All in a folder for that org for that month. And there's that org, not only current, but for each month exactly for years back. As fast as they've been **filed** they are worked. In other words, read and

acknowledged. Queries are handled. (FBDL 192R)

**DATA FILES RED CARD**, when anyone removes a **data** folder from **data files** he has to put a large **red card** in place of the folder showing where it has gone. (CBO 2 USB)

**DATA IN SAME CLASSIFICATION**, a pluspoint. Data from two or more different classes of material not introduced as the same class. (HCO PL 3 Oct 74)

**DATA PROVEN FACTUAL**, a plus-point. **Data** must be **factual**, which is to say, true and valid. (HCO PL 3 Oct 74)

**DATA SERIES**, the tool to discover causes. (ESTO 1, 7203CO1 SO I) [The **Data Series** is a **series** of policy letters written by L. Ron Hubbard which deal with logic, illogic, proper evaluation of data and how to detect and handle the causes of good and bad situations in any organization to the result of increased prosperity.]

**DATA SERIES 26**, HCO Policy Letter 12 June 1972, *Data Series 26, Esto Series 18 Length of Time to Evaluate*. A list you assess to locate trouble an evaluator might be having. Also for slow evaluators or slow students on a Data Series course. (LRH ED 257 INT) See LENGTH OF TIME TO EVALUATE.

**DATA SERIES EVALUATORS COURSE**, product: a person with demonstrated ability to evaluate competently. Certificate: Hubbard Evaluator (provisional), permanent certification is awarded when you have demonstrated the ability to do correct **evaluations** consistently with resulting high statistics. (BPL 6 Jul 73RA) *Abbr.* DSEC

**DATA SERIES/EVALUATORS INTEGRITY LIST**, this integrity list is for use in handling evaluators who are consistently slow, backed off or reluctant to evaluate, or who have not improved through

standard cramming and correction. (CBO 369)

**DATA SERIES RUNDOWN**, whenever a student cannot grasp or retain the **data** of the **Data Series** Policy Letters, he must be audited on the **Data Series Rundown** (also called the Hubbard Consultant **Rundown**). The reason for this is that he himself has out-points and it is necessary to audit him on this subject. (HCO PL 15 Mar 71II)

**DATA TO AIDES SUMMARY SHEET**, as debriefs, often contain large volumes of valuable materials and reports, it is the responsibility of the Debriefeer to ensure that no material of importance is missed by the individual aide concerned. This is done by means of the **data to aides summary sheet**. This acts as a guide as to what directly concerns their area of control or may be of interest to them. (FO 2267)

**DATA TRAIL**, the data trail of out-points from a highly general situation (that is only an observation like failing stats) will lead one to the situation and *then* a closer look (also by out-points) will lead to the real why and permit fast handling. A data trail is a trail of out-points. Let us say you see the Machine Division is failing. Now if you simply take masses of data about it and just start turning over 10 or 12 sheets at a time looking for out-points only and keep a tally of what they are and to whom they belong, you will wind up with your situation area and probably your situation without reading any significances at all. (HCO PL 18 Jul 74)

**DATE COINCIDENCE**, a police action called **date coincidence**. It's how you locate geniuses and murderers. Body found in the swamp. Her cousin arrived in town on Tuesday, body found on Wednesday, guy departed on Thursday. That's all the police need. That's called date coincidence. That's old time investigatory tech. It's still with us. So when were they gone out of the org and when did they arrive back in the org and

what happened during that period of time. (7205C18SO)

**DATELINE PAYING**, paying all the bills behind a certain date and none closer to present time than that date. (HCO PL 28 Jan 65)

**DATUM**, a piece of knowledge, something known. Plural: data. (BTB 4 Mar 65R)

**DAY**, Day Org. (BPL 16 Sept 74RA III)

**DAYBOOK**, a book that records daily business transactions. It is more commonly called a journal today. The amount of details of a transaction previously written into a daybook are now largely dispensed with due to the increased use of sales slips, invoices and other documents evidencing a transaction.

**DAY ORDER**, see ORDER, DAY.

**DAY ORG**, the **Day Org** and the Foundation are two entirely separate orgs. The Foundation is not under the Day Org. **Day Org** executives have no jurisdiction whatsoever over the foundation executives or personnel. **Day Org** hours generally run 9: 00 a. m. - 6: 00 p. m. Monday through Friday. During Day Org hours the Day Org executives and personnel have full possession and use of the org premises and facilities. **Day Org** and foundation stats are kept and computed separately. The Day and Foundation Orgs each have their own staffs. (BPL 11 Aug 72R I)

**DAY SHIFT**, the work period in a plant which usually covers from 7 a.m. to 3 p.m.

**D/CS-1 FLAG ESTABLISHMENT**, D/CS-1 holds the CS-1 functions concerning internal to relieve CS-1 of these in order that he may keep his attention external. D/CS-1 also assists CS-1 with external matters as required and directed by him. The purpose of the post is to produce an in ethics, efficient, expanding and productive Flag, completely aligned to priorities as set by LRH without internal distractions, which actually manages international Scn at the

level of effectiveness required to attain our common goals on this planet. (CBO 373)

**D/CS-2 FOR LITERATURE**, the post of D/CS-2 for Literature is created on Flag to take charge of the creation, manufacturing and distribution of literature for Scn promotional emanation points. Literature in this case means brochures, posters, fliers, sales promo pieces for use by orgs, FSMs, Flag, etc. Literature is *not* magazines or ads. The target is high quality, glossy sales literature for orgs and Flag that show very presentably what is being offered. D/CS-2 for Literature heads the Flag **Literature** Unit under CS-2. (FO 3557)

**DEAD AGENT CAPER**, 1. the **dead agent caper** was used to disprove the lies. This consisted of counter- documenting any area where the lies were circulated. The lie "they were . . ." is countered by document showing "they were *not* . . . ." *This* causes the source of the lie and any other statements from that source to be discarded. (HCO PL 11 May 71 III) 2. meaning getting documentary proof that what was said was lies. (OODs 22 Jun 70)

**DEAD FILE**, 1. **dead file** does not mean they stopped communicating with us. It means we stopped communicating with them. (HCO PL 7 Jun 65 *Entheta Letters and the Dead File, Handling of-Definitions*) 2. **dead file** does not cover business firms demanding bills, government squawks or dangerous suits or situations. It covers only entheta public letters received on any line including SO 1. (HCO PL 7 Jun 65, *Entheta Letters and the Dead File, Handling of-Definitions*) 3. Ethics files shall include a **dead file**. This **file** includes all persons who write nasty or choppy letters to an org or its personnel. Rather than go to the trouble of issuing a suppressive person order or even investigating, we assign writers of choppy letters to the dead file. When their area is enturbulated and we want to locate a sup-

pressive, we can always consult our **dead file** for possible candidates and then investigate and issue an order. The **dead file** is by sections of the area or the world, and alphabetical in those sections. (HCO PL 7 Jun 65, Entheta Letters and the Dead File, Handling of-Definitions) 4. files which could be junked without any loss of value to the operation. (HTLTAE, p. 64)

**DEAD POST**, the dev-t merchant can't be at cause over the job and will only destroy the post (as witness the way you have to do his work as well as your own-dead post). (HCO PL 9 Sept 64 *Putting New Personnel on the Job and taking over when People Quit or are Transferred*)

**DEADWOOD**, chronic low stats personnel. (HCO PL 15 Feb 67) [The above HCO PL was cancelled by BPL 10 Oct 75 IV.]

**DEALER**, a person engaged in the trading, buying or selling of something.

**DEAN**, 1. the post of Dean is to assist LRH in achieving the aims of Scn by removing the stops and barriers of individual students and pcs, public and staff, thus ensuring students and pes are accepted for service, have their services fully delivered to completion and advanced to higher levels of the Classification and Gradation Chart without stops or slows. (HCO PL 16 Sept 72) [The above HCO PL was cancelled by BPL 10 Oct 75 X.1 2. to individually handle and remove the stops and barriers of students, the post of Dean is established. He is LRH's representative in the org to ensure that service is delivered. (HCO PL 16 Sept 72) [The above HCO PL was cancelled by BPL 10 Oct 75 X.]

**DEAN OF SCIENTOLOGY**, in protest against the abuses and murders carried out under the title of "doctor," I abandon herewith all my rights and legitimate use of this title as the name has been disgraced. Any and all D. Scns may apply for and receive a

new certificate and the title **Dean of Scientology**. (HCO PL 14 Feb 66)

**DEAN OF TECHNOLOGY**, when a Case Supervisor has done the following in addition to the requirements of a Senior C/S, he shall be issued a gold certificate with the title **DEAN OF TECHNOLOGY**: Saint Hill Special Briefing Course, Class VIII Course, case level to the class of his org, has a uniform record of case supervision. His posts and duties are those of a Senior Case Supervisor but extend to all the field of his area including missions, and he has the power to suspend certificates, order retraining or retreading or internship or re-internship for all Auditors of his area of whatever class whether staff or not and may only be overruled or personally disciplined by the Guardian Office or a member of the International Board after due hearings and formal ethics. This certificate requires the final authorization by External HCO Bureau, Authorization and Verifications Unit and CS-4 or CS-5. (HCOPL 24 Oct 76 III)

**DEATH**, 1. could be in part, a cessation of interested production. (HCO PL 6 Jul 70) 2. **death** is too much havingness or too darned little. (3ACC-42, 5401C26)

**DEATH WISH**, 1. succumb postulates. (HCO PL 27 Apr 69) 2. wants to die. (551OC08)

**DEBENTURES**, 1. promissory notes backed by the credit standing of a company or issuer, and usually not secured by a mortgage or lien. 2. certificate or voucher expressing recognition of a debt.

**DEBIT**, comes from Latin *debitum* meaning a debt. Now in bookkeeping, the word is used to describe any entry made on the left-hand side of an account but the making of a left-hand entry does not always mean the recording of a debt. If a left-hand entry is made to an impersonal account of the organization, it means the recording of the receipt of a MEST, service or money partic-

le-it is not recording a debt. (BPL 14 Nov 70 III)

**DEBIT BALANCE**, debit balance on an account simply means that the sum of the debit entries on that account exceeds the sums of the credit entries. (BPL 14 Nov 70 IV)

**DEBITED**, charged against you. (HCO PL 10 Oct 1970 III)

**DEBRIEF**, 1. mission debriefs are' usually reliable reports of firsthand observations of an area or areas. (FO 3092) 2. when the Operations Officer is satisfied that he has completed the mission, the mission is complete as far as he can make it complete, it then goes to debrief who assembles all reports from all the members of the mission and then the summary report is drawn up by the **debriefing** officer. In other words everybody on the mission is **debriefed**. All the reports written go to the **Debrief** Officer. (6802C28SO) 3. in debriefing, no set questionnaire may be employed. No robot sequence of questions will ever apply to all missions. A debrief is composed of specifically three things: (1) finding out the purpose of a mission, (2) finding out results of a mission, (3) finding out recommendations of a mission. (FO 674) 4. on return, a mission is debriefed by Division 6. It turns over all its photographs, documents and records to Division 6 and its finance receipts to Division 3. **Debriefing** is done by tape recorder and notes by a Division 6 person at once on mission return. Missions may not recount a mission to others before debrief. The debrief is by exact questionnaire prepared by Division 2. (FO 228)

**DEBRIEF OFFICER**, debriefs mission leader and all the members, then summarizes to get the fullest record. (FO 1243R)

**DEBRIEF SUMMARY**, 1. a complete summary of all material in the debrief, consisting of all the facts; good, bad or odd (plus their "who" and "when", in as concis-

se a form as possible. (FO 2444) 2. the top item in the debrief. It will take the following form: FMO number, name, classification, major target, personnel, date fired, date completed, supervised by , brief summary of what happened in the mission (events). A statement at the end of what was accomplished, gained, won or produced by the mission (statement of benefit), total cost of the mission, condition assigned. (FO 2170)

**DEBRIEF TR, training drill** to be done in mission school and contained in Public Officer's hat folder. This TR will bring about greater reality on debriefing and following mission orders. Purpose: to train Sea Org members to debrief missions thoroughly and well. (FO 1266)

**DEBT**, an amount of money, goods, services, etc., owed by one person to another because of a previous agreement or transaction.

**DEBTOR**, a person or company that owes something (usually money) to another.

**DEBUG**, 1. *Informal*. to remove or correct the defects or difficulties of. (CBO 208-3R) 2. the word bugged is slang for snarled up or halted. Debug is to get the snarls or stops out of it. (HCO PL 29 Feb 72 II)

**DEBUG ASSESSMENT**, the assessment for use by LRH Comms and others when an order or action has bugged and must be debugged. His purpose is to locate the bugs and the real whys. It itself may or may not reveal the whys but if not, it will provide information that if followed up will bring the why into view. The simple fact of non-compliance is reason enough to do the assessment. There is no need to wait until there is a complete mess before doing it. (BPL 12 Apr 72R I)

**DECAY**, **decay** is everything going the wrong way when it should go the right way. (PDC 61)

**DECENTRALIZATION**, the delegation of authority, responsibilities, functions, etc., from a central office or point to branch offices or a number of points. Example: a company maintains a central purchasing unit for all offices but decides to decentralize and let each office do its own purchasing.

**DECENTRALIZED HIRING**, see HIRING, DECENTRALIZED.

**DECENTRALIZED MANAGEMENT**, see MANAGEMENT, DECENTRALIZED.

**DECISION**, a resolution to act or behave in a certain way, take a certain course, hold a certain attitude, etc.

**DECISIONAL CONFRONT**, "decide to look at the radar and look at it." "Decide to look away from the radar and look away from it." "Decide to look at the helm and look at it." "Decide to look away from the helm and look away from it." You're moving him straight from effect to cause in the shortest possible route. (ESTO 12, 7203CO6 Soil)

**DECK DIVISION**, 1. leakless, seaworthy vessels of good appearance that can be utilized and handled and the handlers thereof fairly well covers the **Deck Division** valuable final product. The final test of a **Deck Division** is production. One glance at a ship tells you whether it has a **Deck Division**. Probably the div name itself, forced in though it is by tradition, should be the Ship-keeping Division. And what do you know, that's what it has been called in many times and languages. (FO 2703) 2. Division IV is responsible for the operational condition and safety of the vessel. Div IV is responsible for lines, mooring, fenders, camels, anchors, winch capstan, heaving lines, 24 hours a day. Div IV is responsible for the hull. This is a basic for a **Deck Division**. This includes seeing that no damage is done to the hull, by any means under Div IV's control. (FO 1662) 3. Division Four. (691OC17 SO Spec 3)

**DECK PROJECT FORCE**, 1. new recruits and those veterans who are not Product Zero or who are tipped for Product One are posted to the DPF for Products Zero and One as required. The DPF, hitherto used for the retreading of those persons who suffer from robotism or who produce overt products or who need continual supervision and are a liability on lines is now to be permitted and made to be an upstat unit with high standards, high production and high morale unhindered by those who do not belong in such unit but require special handling on their own without distracting others who are doing well. (FO 3434) 2. An objective of the DPF is to keep a recruit or non-producer out of vital FSO and FB lines until he can pull his weight and is valuable. The main objective is to furnish valuable SO members to the SO. (FSO 559) 3. newly recruited personnel and retread personnel may only be assigned to the **Deck Project Force**. The **DPF** organization in a large org or ship consists of (1) bosun (2) DPF Esto (3) DPF MAA (4) new recruits (swampers) (5) retreads. It is necessary for DPF members to be made available for auditing when called by the D of P. It is vital that 5 hours a day (evening) study be consistent for DPF and its members. It is impossible to assign or reassign anyone in the DPF to HCO Expeditor or other post until they have completed both auditing and training requirements to be a full fledged SO crew and staff member. It holds in force a one job, one place, one time type of action. It is necessary for the DPF to do work of value in maintaining and enhancing the ship or quarters. (FO 3183) *Abbr.* DPF.

**DECK PROJECT FORCE MAA**, the purpose of the **DPF MAA** post is: to make ethics real to DPF members by removing counter-intention and other-intention from the area, and by getting each DPF member to crank out products with an honest uptrending statistic. (FO 3126) *Abbr.* DPF MAA.

So if people have no facilities to produce or are being disturbed continuously politically you get an inflating state of affairs. (SH Spec 13 6403C24) 2. when the amount of products in the country exceed the amount of money there is to buy things, -that's **deflation**. (ESTO 9, 7203CO5 SO I)

**DEGRADED BEING**, 1. a sick thetan who is all caved in can't direct a postulate at anything. When he tries, he lets it wobble around and go elsewhere. The difference between a **degraded being** and an OT is simply that the DB can't put out a postulate or intention in a direct line or way and make it hold good. (HCOB 5 Dec 73) 2. a harsh term but a true one. It means a person who is at effect to such a degree that he or she avoids orders or instructions in any possible covert or overt way because orders of any kind are confused with painful indoctrinations in the past. **DEMONSTRATION**, getting a student to **demonstrate** things in the bulletin with his hands or bits of things. The reason for this is that in memorizing words or ideas, the student can still hold the position that it has nothing to do with him or her. It is a total circuit action. Therefore, very glib. The moment you say **demonstrate** that word or idea or principle, the student has to have something to do with it. And shatters. Don't get the idea that **demonstration** is a practi-

cal section action. Practical gives the drills. These **demonstrations** in theory aren't drills. (HCO PL 4 Oct 64)

**DEMO ORG**, a kind of floor plan of an org made up of cardboard strips which are laid out on a table. What would you use the **demo org** for? **DIVISION 9**, 1. (Flag Nine Division Org) the Office of LRH is in **Division 9** in any Scn Nine Division Organization. The engine room headed by the Chief Engineer, is also in Div 9 as well as the various Flag Bureaus; such as the Organizing Bureau and Action Bureau. The LRH Communicator is in charge of Flag **Division 9**. (FO 2674) 2. the Pub-

lic Divisions are the three former departments of Division 6, each one becoming a division in its own right. The Executive Division now becomes **Division 9** instead of 7. (HCO PL 26 Oct 68)

**DIVISIONAL AIDE**, aide for their same numbered division. (FO 3064)

**DIVISIONAL COMM CENTER**, each **divisional communication center** is placed in the divisional working area with a basket for each staff member in that division plus a divisional in-basket and a divisional out-basket. (HCO PL 4 Jan 66 III)

It is held by the divisional officer and is attended by all persons in the division, officers, petty officers and hands. **DIVISIONAL HEAD**, the executive who controls and is responsible for the operation of a division in an organization.

**DIVISIONAL OFFICERS COUNCIL**, 1. consists of the LRH Comm and each divisional head of the flagship. The LRH Comm will preside as Chairman of the meetings. A secretary and Master at Arms for the **Council** will be appointed by the members. The **Divisional Officers Council** meeting will be held every Monday at 1300 hours. The sole purposes of the **Divisional Officers Council** are: (1) to coordinate targets amongst divisional heads (2) to propose new policy, and (3) to keep the org informed of the actions of all divisions. (FO 1822) 2. there will be no separate Production Council and Operation Council. All business of the two Councils are combined into the DOC. A council is a group of persons assembled to handle the administrative and legislative functions of an organization. (FSO 138) 3. they are bodies to approve or modify prepa-

red CSW of members for passing by higher authority. They are not planning bodies which originate. It can approve, reject or modify. Its individual members prepare CSW for the committee before its meeting. Authority senior to the committee is then assisted. The heads of divisions should be the only ones present at a DOC, anyone originating must do so only by CSW for the DOC beforehand. It then approves, rejects or modifies as a body. This then goes to command for ordering and issue. (FO 2653) *Abbr. DOC.*

**DIVISIONAL ORDERS**, (Issue type) each division has its own order line to its staffs or to its opposite numbered division. The order is followed by the place and org name. The paper is color flashed for the division. (HCO PL 24 Sept 70R)

**DIVISIONAL ORGANIZERS**, 1. all those persons now styled or titled Executive Secretary Communicators are changed. World Wide and Continental Executive Divisions (as they expand) are to have on staff and as assistants to the Advisory Council (WW or Continental) executives to be termed **Divisional Organizers** (Division type), (location). The purpose of a **Divisional Organizer** is as follows: to help LRH organize and maintain and supply the division represented (type) in the sphere designated (locales) with all needful data, policy, tech, programs, examinations, plans, courses and activities of every kind needful to the success of that type of division and to organize and raise in efficiency that type of division in the locales for which the **Divisional Organizer** is responsible. (HCO PL 1 Nov 66 I) 2. there are seven different titles of **Divisional Organizers**: 7 **Divisional Organizer**, Executive. 1 **Divisional Organizer**, HCO. 2 **Divisional Organizer**, Dissem. 3 **Divisional Organizer**, Treasury. 4 **Divisional Organizer**, Tech. 5 **Divisional Organizer**, Qual. 6 **Divisional Organizer**, Distribution. The title is followed by "WW" for Worldwide or the

Continental abbreviation for Continental Orgs or, if Area Orgs grow sufficiently large, for area designation. A **Divisional Organizer** is senior to any Secretary in his division but not to an Executive Secretary. He holds the nominal rank of Secretary. It must be at once visible that what a division needs most are its materials, supplies and programs. The **Divisional Organizer** not only assembles and supplies all this or sees it is supplied, he or she makes sure it is properly used or exhibited. (HCO PL 1 Nov 66 I) 3. (Worldwide) the Ad Council would be composed, on an international basis, of the Continental Representatives from each continental district of which there are five and probably one from Saint Hill since it really isn't part of a Continental District. And then to these are added a bloke called the **Divisional Organizer**. Now this fellow is the representative of every divisional secretary of that type of division in the whole world. For that type of division he is responsible for every piece of its organizational materials and everything that applies to that type of division. So, if some secretary of that type of division in Poughkeepsie or Keokuk hasn't got any policy letters that cover so and so and so and so why they would write to this fellow to find it out. If an org can't get its books it knows who to write to. It writes to the Divisional Organizer Dissem Worldwide. And he would catalyze it and go ahead and do that. He would know exactly where an org stands. He is judged by the composite gross divisional statistics of that type of division in the world. He can't give an order unless it's passed by the Ad Council. (SH Spec 81, 6611C01) *Abbr.* DO.

**DIVISIONAL PACK**, all relevant policies of the division of the staff member. (HCO PL 2 Aug 71 III) [The above HCO PL was cancelled by BPL 10 Oct 75 IX.]

**DIVISIONAL SECRETARY**, 1. the head of a division is the **Divisional Secretary**. He is the product officer of his division. His

**DIVISION 7 SECRETARY**, this new post is the secretary who cares for the personnel, communications and administration and quarters of the Executive Division. The **Division 7 Secretary** is called just that as any other title is in conflict with the offices of the division. This Secretary holds an Executive Division Ad Comm. This is junior to the Ad Council and is on a par with other division Ad comms. The rank of this secretary is the same as all other division secretaries and in privilege is just below that of the HCO Area Sec, who is the first secretary of the organization in privilege and precedence. The Div 7 Sec never issues orders to other divisions and has no authority to do so. (HCO PL 20 Jan 66 II)

**DO**, 1. is often defined as "talk" or "refer." But that doesn't get anything done. Do is the action which leads to done. (OODs 24 Apr 72) 2. define **do as doing** something effective and different than talking. (ED 177 Flag)

**DOCS I/C**, the post of **Docs I/C** comes under the Ship's Rep. This person sees that all passports are current and available. He gets seaman's papers made up for new crew, he does the filing, he keeps the val does and legal papers. He looks after contracts, visas, immunization certs, and keeps the ship's stamp in his cabinet. He makes xerox copies of original val does, makes up crew lists, get declarable items lists, informs Ship's Rep of certificate expirations, etc. (FO 1933)

**DOCTOR**, 1. through the ages the term doctor has meant "a learned man" but in modern times has been strained by its preemption by medical doctors and psychiatrists. (HCO PL 14 Feb 66) 2. the cook is generally addressed as **Doctor**. (FO 87)

**DOCTOR OF DIVINITY**, religion is basically a philosophic teaching designed to better the civilization into which it is taught. Backed fully by the precedent of all the ages concerning teachings, a Scientologist has a better right to call himself a priest, a minister, a missionary, a Doctor of Divinity, a faith healer or a preclear than any other man who bears the insignia of religion of the Western world. I do not see any inconsistency of any kind in the issuance to those well-schooled and well-skilled in Scn the degree of **Doctor of Divinity** as a passport into those areas where they are needed. (PAB 32)

**DOCTOR OF SCIENTOLOGY**, 1. this is an honorary degree, not granted for scholastic reasons but is purely an award to those who at Class III or IV perform signal service to Scn activities. An HCS or HGA (St. Hill) is understood to qualify. (HCO PL 12 Aug 63) 2. D. Scn (Commonwealth) or Hubbard Graduate Scientologist (US). (HCO PL 12 Feb 61) 3. an HGA is senior to HCA and HPA. and the **Doctor of Scientology** degree is senior to HGA. It is an honor award and may be made by nomination or selection; either way it is for those who are consistently producing excellent results in their own fields and to form a grade by which these recruits can be recognized. (PAB 6) See HUBBARD GRADUATE AUDITOR.

**DOESN'T KNOW HOW TO PLAY THE PIANO**, we say a division bead "**Doesn't know how to play the piano**" when he knows so little about org form that he continually violates it by giving his various staff members duties that do not match their hats or posts. (HCO PL 28 Jul 72)

**D of P's CHECK TYPE 1**, see CHECK TYPE ONE.

**DO IT YOURSELF THERAPY**, we will call co-audit **Do it yourself therapy**. (HCO PL 23 Jan 61)

**DOUBLE CALL**, a visit paid to a customer by a senior management person as well as one of his juniors such as a salesman or distributor as in the case of a field inspection.

**DOUBLE CONFRONT**, two object confront. You make him confront the radar screen and then turn around and confront the helm and then confront the screen and then confront the helm and then confront the screen and then confront the helm. Any hypnotism he has feelings of, of having confronted the screen will start to discharge at a remarkable rate of speed and he'll go into a trance and then he'll come right out of it. Two objects, very simple commands. (ESTO 12, 7203CO6 SO II)

**DOUBLED UP**, means twice as many persons to be posted. (ED 51 Flag)

**DOUBLE TAXATION**, short term for double taxation of dividends wherein the federal government levies a tax on corporate profits and when remaining profits are disbursed as dividends, stockholders may be taxed again as additional income.

**DOUBLE WORK**, this is the way you do **double work**. You pick up a dispatch or a piece of work, look it over and then put it aside to do later, then later you pick it up and read again and only then do you do it. This of course doubles your traffic just like that. (HCO PL 29 May 63)

**DOUBT**, 1. when one cannot make up one's mind as to an individual, a group, org or project, a condition of **doubt** exists. (HCO PL 6 Oct 67) 2. a not done job is **doubt**. (ED 62 Flag)

**DOUBT FORMULA**, the **formula** is: (1) inform oneself honestly of the actual intentions and activities of that group, project or org brushing aside all bias and rumor. (2)

examine the statistics of the individual, group, project or org. (3) decide on the basis of "the greatest good for the greatest number of dynamics" whether or not it should be attacked, harmed or suppressed or helped. (4) evaluate oneself or one's own group, project or org -as to intentions and objectives. (5) evaluate one's own or one's group, project or org's statistics. (6) join or remain in or befriend the one which progresses toward the greatest good for the greatest number of dynamics and announce the fact publicly to both sides. (7) do everything possible to improve the actions and statistics of the person, group, project or org one has remained in or joined. (8) suffer on up through the conditions in the new group if one has changed sides, or the conditions of the group one has remained in if wavering from it has lowered one's status. (HCO PL 6 Oct 67)

Downstat (Def. 1)

**DOWN ON THE LEFT**, you use an OCA simply and totally this way; **down on the left** below the center line = wildly screamingly out of valence; down on the right = evil purpose, wildly nuts. (ESTO 3, 7203CO2 SO I)

**DOWN ON THE RIGHT**, see DOWN ON THE LEFT.

**DOWNSTAT**, 1. one with low, declining statistics. (HCO PL 31 Jan 69, *Humanitarian Objective and Gung-Ho Groups*) 2. *downstats* are defined as ill or enturbulated persons. (SO ED 36 INT)

**DOWN STATISTIC**, 1. the purpose of the org is to get the show on the road and keep it going. This means production. Every division is a production unit. It makes or does something that can have a statistic to see if it goes up or down. Example: a typist gets out 500 letters in one week. That's a statistic. If the next week the same typist gets out 600 letters that's an up statistic. If the typist gets out 300 letters that's a **down statistic**. (HCO PL 1 Sept 65 VII) 2. the current number is less than it was. (HCO PL 16 Dec 65) 3. that is to say the statistics went down. (SH Spec 62, 6506C25)

**DOWN TICK**, expression that refers to a stock transaction made at a price lower than the previous transaction, also called a minus-tick.

**DRAFT**, same as Bill of Exchange.

**DRAMATIZATION**, see ROLE-PLAYING.

**DRAMATIZATION OF WITHHOLDS**, I have recently unearthed a widespread aberration that underlies the withhold or obstruction of vital information and wanted to warn you to be on the lookout for it. It is, simply stated, **dramatization of withholds**. This is not just the person with withholds, this is the person who **dramatizes withholds** by preventing the relay, exposure or free distribution of vital information. (HCO PL 19 Oct 74)

**DRAMATIZE**, to act under the influence of past incidents as dictated by those incidents in the bank. The guy is replaying something now that happened in the past, out of its time

and context and out of his control. (HCO PL 19 Oct 74)

**DRAWING ACCOUNT**, see ACCOUNT, DRAWING.

**DRILLING**, that action done over and over until it is smooth, competent and professional. (OODs 7 Jun 70)

**DRILLS**, 1. just actions the student has to become familiar with before doing processes. The actual process is never used as a **drill**. Because it is left unflat. A **drill** takes the action the auditor will use when doing a process and gets him familiar with it. (HCO PL 17 May 65, Tech Div, Qual Div, Urgent CCHs) 2. the aim and object of **drills** are to make the duties assigned to individual men in preparation for an emergency so well understood and so well known that the duties will be dependably performed under abnormal conditions. Each **drill** has several stations and particular duties. It isn't enough just to know the location of your assigned post. You must know: (1) what your post is; (2) where it is; (3) who's in charge; (4) specifics of what you actually do, operation of equipment, etc. (FO 910) 3. disciplined, repetitious exercise as a means of teaching and perfecting a skill or procedure. (ED 118 Flag) 4. **drills** have several purposes. To groove in a team action is one principal one. To test a system fully. To groove in lines. (OODs 26 Feb 71)

**DROP A BALL**, a Central Org orders an important number of books or meters. The order gets messed up. The next thing we know we are in a cable rush -to-fill-the-order emergency and up to our ears in phone calls, special letters, etc. Now somebody **dropped a ball** somewhere and

routine activities were not carried out. Thus they became emergency activities. (HCO PL 18 Dec 64, Administrative Traffic Trend)

**DROPPED TIME**, time that should be noted and isn't would be an out-point of dropped time. It is a special case of an omitted datum. (HCO PL 19 Sept 70 III)

**D ROUTING**, goes inside one's own org to anyone else in the org up or down. Dispatches forwarded are called D Routing with the person to whom addressed clearly marked. D Routing is entirely limited to one's own org and is not forwarded across to another org except when demanded or as an enclosure in other dispatches. D Routing means "to a specific post in one's own org, superior or junior." (HCO PL 13 Mar 65 II)

**DUMMY**, 1. a scrap paper expression of the idea. Includes in the same package the written material (called copy), all surveys used, captions, photos and art work. (FO 3574) 2. (graphic arts) there is a dummy-this is very rough. Usually it has copy and even illustrations, graphs or photos in another separate pack. (ED 459-51 Flag) 3. a dummy in the graphic arts business is a pack of paper folded or stapled to show what goes on what page. It is the first step of design. It gives the general impression. After a dummy is done, a layout showing the exact lines, spaces, photo placements and size is done. (ED 459-49 Flag) 4. in any promotional piece, the first thing submitted. A drawing (rough) of the item showing general layout but with the exact copy (words) to be used in the final product. (ED 62 FAO)

**DUMMY DIRECTOR**, director of an organization in name only, appointed to meet the number required under law. He holds no company stock and votes as he is instructed by the owner or chairman of the board.

**DUMMY RUN**, 1. there's two types of dummy runs. There's just plain dummy runs. You just go through the organization's public lines one way or the other, and try to get hired or something like this, or try to take advantage of this new free offer, and go into the proper point and just try to get it. You sometimes find yourself in practically a fist fight. The other type of dummy run is a bull-bait, and you take a whole bunch of questions which the public would be prone to ask. Your **bull-bait dummy runs** pay off because the **bull-bait dummy runs** test the personnel. The plain dummy run just tests the line. Does the line exist? (FEBC 10, 7101C24 SO III) 2. **The dummy run drill** is designed to test that the org's public lines are there, functioning smoothly, and do not Q and A or get thrown off by originations of the public, but continue to flow, handle and channel the public individual toward service and further service. (BPL 3 Nov 70R I) - v.

1. this means going through the place pretending to be the principal particle. (HCO PL 25 Jul 72) 2. means start a minor particle down the line so it is cleared at each point. (ED 459-54 Flag)

(FO 2662)

**DUPLISTICKERS**, when the Director of Registration receives a copy of a selection slip sent in by a field staff member, selecting someone to the org for training or processing, he types the name and address of the selectee on **duplistickers**. These duplistickers are mucilage backed slips of paper that come on a roll. Putting carbon between them gives one an original and copies. These can be torn off their long strip and pasted on envelopes. (HCO PL 12 Jan 66)

**DUSTBIN CHECK**, see CHECK, DUSTBIN.

**DUTCH AUCTION**, 1. a public sale in which items are gradually reduced in price until a buyer is found. 2. a sale in which the auctioneer takes secret bids with the competitors unaware of each other's identity and relying on the auctioneer's word regarding amounts bid.

**DUTY OFFICER**, 1. there is a Duty Officer appointed by the Flag Executive Office Manager daily to do expediting and comm functions requiring footwork so that all the Flag Executive Office Unit staff will not be pulled off their cycles in progress. Routine requests should be given to him. (FO 2381) [The term Duty Officer more generally applies to an officer or person on duty covering specific duties often in rotation with

other officers.] 2. in Condition II the Conning Officer passes his orders as in Condition III to the OOW and calls the Captain on any change. But there is a **Duty Officer** junior to the OOW who keeps the watch in order and attends to the ship internally, such as loose boats or lines, etc. The attention of the OOW in Condition II is outside the ship. (FO 80)

**DUTY PR**, the purpose of a Duty PR is to personally assist LRH in any PR actions, events, activities necessary during the 24 hour period of watch, as well as to keep the crew informed of what the Commodore is doing and needs and wants at any particular time. (COLRHED 168)

**DWINDLING SPIRAL OF CONTROL**, one must be willing to leave certain parts of the world uncontrolled. If he cannot, he rapidly drops downscale and gets into a situation where he is obsessively attempting to control things which he never will be able to control and thus renders himself unhappy, begins to doubt his ability to control those things which he actually should be able to control and so at length loses his ability to control anything. And this, in essence, is what in Scn we call the **dwindling spiral of control**. (POW, p. 64)

**DYNAMICS**, there could be said to be eight urges (drives, impulses) in life. These we call **dynamics**. These are motives or motivations. We call them the eight dynamics. The **first dynamic** is the urge toward existence as one's self. Here we have individuality expressed fully. This can be called the self dynamic. The **second dynamic** is the urge toward existence as a sexual or bisexual activity. This **dynamic** actually has two divisions. **Second dynamic** (a) is the sexual act itself and the **second dynamic** (b) is the family unit, including the rearing of children. This can be called the **sex dynamic**. The **third dynamic** is the urge toward existence in groups of individuals. Any

group or part of an entire class could be considered to be a part of the **third dynamic**. The school, the society, the town, the nation, are each part of the **third dynamic**, and each one is a **third dynamic**. This can be called the **group dynamic**. The **fourth dynamic** is the urge toward existence as mankind. Whereas the white race would be considered a **third dynamic**, all the races would be considered the **fourth dynamic**. This can be called the **mankind dynamic**. The **fifth dynamic** is the urge toward existence of the animal kingdom. This includes all living things whether vegetable or animal. The fish in the sea, the beasts of the field, or of the forest, grass, trees, flowers or anything directly and intimately motivated by life. This can be called the **animal dynamic**. The **sixth dynamic** is the urge toward existence as the physical universe. The physical universe is composed of matter, energy, space and time. In Scn we take the first letter of

## E

**EARNED INCOME**, income earned for services rendered; wages, salary.

**EARNINGS**, 1. the amount of money (wages, bonuses, overtime pay, commissions, etc.) one receives for a job done or services rendered. 2. amount of profits available for dividing up among shareholders after taxes and dividends on preferred shares have been paid.

**EARNINGS/DIVIDEND RATIO**, the ratio of actual profits to dividends paid.

**EARNINGS DRIFT**, the increase in wages above national rates due to local conditions including higher local rates, more overtime, local bargaining agreements, payment -by- results plans, etc.

**ECHELONS**, on any command or communication channel there are always a certain number of points extending from source through relay points down to the final re-

each of these words and coin a word, MEST. This can be called the **universe dynamic**. The **seventh dynamic** is the urge toward existence as or of spirits. Anything spiritual, with or without identity, would come under the heading of the **seventh dynamic**. This can be called the **spiritual dynamic**. The **eighth dynamic** is the urge toward existence as infinity. This is also identified as the Supreme Being. It is carefully observed here that the science of Scn does not intrude into the **dynamic of the Supreme Being**. This is called the **eighth dynamic** because the symbol of infinity stood upright makes the numeral "8." This can be called the infinity or **God dynamic**. (FOT, pp. 36-38)

**DYNAMIC SORT OUT ASSESSMENT**, HCO Bulletin 2 December 1974, *Dynamic Sort Out Assessment*. This gets those dynamics that are charged and handles them. Increases social personality and even can shift valences. (LRH ED 257 INT)

ceipt or action point. These may be very numerous. Some may be beyond the authority of any evaluator. But each is capable of having its own situation that will cause an evaluation of the receipt or action point to fail. These can be called **echelons** or step like formations. The receipt or action point that is to comply finally with the program may be the subject of hidden sources of effect in the relay points of any program or order. (HCO PL 25 May 73)

**ECONOMETRICS**, a branch of economics employing mathematical and statistical techniques to establish economic relationships from economic data.

**ECONOMIC GROWTH**, the amount of expansion in a country's wealth and survival potential resulting from the management and prudent use of its money, products, resources, etc.

From this grew up a study of the whole community as a connected activity. (HCO PL 27 Nov 71) 2. when one begins to receive and spend money he gets into a field known as **economics**. (WO PL 27 Nov 71) 3. in modern language means the social science that studies the production, distribution and consumption (using) of commodities (things). (HCO PL 27 Nov 71)

**ED AREA ESTATES**, a new issue is created (ED Area Estates). It is for use by all (Flag **area**) **Estates** COs and execs. It should publish evals, programs, personnel, checklists, checksheets and all other materials that apply to all or any estates units in the Flag area. It is issued to all **estates** personnel. (ED 1 Area Estates)

**ED F11**, there shall be a mimeo issue which is for FB use and for the communication of orders and information into the FB, where the contents of such shall concern only the FB. They shall be called EDs FB. They are numbered consecutively. EDs FB may be originated from within the FB and approved by LRH Comm FB. The prior approval of the Supercargo or Chief Officer is required on any ED FB originated within any of their respective divisions and affecting only the divisions of that officer. ED's affecting across the portions of the org require Exec Council approval before issue authority is given. (ED 1 FB)

It usually has a news peg, that is an introductory statement announcing the subject and tying it to a news development. Forceful and persuasive arguments are marshaled from logical pattern to logical pattern to convince the reader. The **editorial** writer also considers what arguments may be raised in rebuttal and raises them to answer in advance. The **editorial** ends with a firm conclusion, clearly and reasonably stated. The purpose is to have a desired effect on the reader. (BPL 10 Jan 73R)

(FO 2021)

**EFFICIENCY**, 1. the level of resourcefulness one displays for achieving what is desired without the wastage of time, personnel, materials, etc. 2. the ability to utilize things (personnel, materials, time, money, energy, etc.) to attain desired purposes and goals.

**EFFICIENCY EXPERTS**, 1. the word mission may now be used to designate only a Sea Org official mission. It has unlimited ethics powers. Their members are called "missionaires." The orders of the day were posted and stated explicitly that they were to "jump off from El Canay at five o'clock the following morning and were to take San Juan Hill. The Rough Riders awoke at 4:30 A.M. to discover that one small thing had been omitted from their plans: they had, as yet, to take El Canay. (Scn Jour 14-G)

**ELECTRICAL**, **electrical** is another hat under the Chief Engineer, Dept 21. **Electrical** is the supply and conduct of **electricity** in the ship. (FO 212)

**ELECTRONIC ATTESTATION**, [The concept of **electronic attestation** involves an auditor listening to and fully noting the rhythm, quality and presence of LRH model auditing tapes and doing TRs long and hard to get his auditing to sound like LRH auditing for his class. The auditor makes a tape of his sessions and compares it to LRH tapes till he is satisfied that his own auditing sounds like LRH auditing and that his TR 0, 1 and 2 are comparable to LRH's as are the rhythm, quality, presence and impingement of the auditor's comm cycle. For SHs and AOs the auditor has to have witnessed closed-circuit TV and observed sessions accurately as well as appeared on closed-circuit TV and been passed on by the auditors assembled as to TRs and presence and metering. For Flag there is the requirement that no one could tell the difference between this auditor's auditing presence, impingement and TRs and that of LRH for his class. All the above is attested to among other points on a checksheet, subject to a minimum penalty of a condition of liability for false attestation. **Electronic attestation** requirements are more fully covered on BPL 8 Nov 71RB.]

**ELECTRONICS**, **electronics** is instruments and devices used in communication systems and navigational aids. Electrical is the supply and conduct of electricity in the ship. (FO 212)

**ELEMENTARY EMERGENCY FORMULA**, the **elementary emergency formula** for a down org is: (1) promote, promote, promote. (2) then change bad spots and reorganize. (3) then economize, cut off all purchase orders except postage, communications and rent. (4) get ready to deliver to the people who will be coming in as result of the promotion and deliver. (HCO PL 1 Sept 65 111)

**EMERGENCY**, 1. arguments as to what constitutes an emergency are settled by the test, "Are they costing or will they cost time or money or loss?" (FO 3195-1) 2. an unpredictable circumstance which necessitates fast and unplanned handling. (HCO PL 18 Dec 64, Reissue Series 21 Administrative Traffic Trend) 3. they weren't predicted. That's what makes an emergency. Did you know that? That's just a failure to predict. (SH Spec 230, 6301C15)

**EMERGENCY BOARD**, **board** kept by the Emergency Officer. On it he posts, with a time-date marked on it, those items requiring handling. These can be a slip of paper with the situation noted or a copy of the actual communication. These remain on the **board** until handled. (FO 3195)

**EMERGENCY DRILLS**, all **emergency drills** are made up in duplicate for the port and starboard watch. This is so that the full handling of such emergencies can be done when half the crew only is aboard or when part of a crew, as in

Condition III or II is on watch at sea. Some of the **drills** so arranged are: man overboard **drill**, severe injury **drill**, **fire drill**, sudden leaks drill, anchor dragging **drill**, collision **drill**, sea damage **drill**, small boat capsize **drill**, abandon ship drill. (BO 28 12 Jun 67)

Emergency Drills

**EMERGENCY FOOD STORES**, those **food** supplies which are planned to give the ship's company balanced meals for a set period of time in the event of an unplanned emergency (such as breakdown at sea, port epidemics or polluted foods, military blockades, change of destination, slow headway because of storms or ship damage, etc.) and as such are only used by Captain's order. (FO 2002)

**EMERGENCY FORMULA**, (1) promote, that applies to an organization. To an individual you had better say produce. That's the first action regardless of any other action, regardless of anything else, why that is the first thing you have to put their attention on. The first broad, big action which you take is promote. Exactly what is promotion? Well,

look it up in the dictionary. It is getting one's self known, getting one's products out. (2) change your operating basis. If for instance you went into a condition of emergency and then you didn't change after you had promoted, you didn't make any changes in your operation, well you just head for another condition of emergency. So that has to be part of it, you had better change your operating basis, you had better do something to change the operating basis, because that operating basis lead you into an emergency so you sure better change it. (3) economize. (4) then prepare to deliver. (5) part of the condition of emergency contains this little line-you have got to stiffen discipline or you have got to stiffen ethics. Organizationally when a state of emergency is assigned supposing the activity doesn't come out of that emergency, regardless of what caused the emergency, supposing the activity just doesn't come out of the emergency, in spite of the fact they have been labeled a state of emergency, they have been directed to follow the **formula**, they have been told to snap and pop and get that thing straightened out, and they are still found to be goofing, the statistic is going down and continues to go down, what do you do? There is only one thing left to do and that is discipline because life itself is going to discipline the individual. (HCO PL 23 Sept 67)

**EMERGENCY HEADQUARTERS**, see EMERGENCY LIBRARY.

**EMERGENCY LIBRARY**, in accordance with HCO Policy Letter of October 24, 1962, of establishing an international headquarters of Scn at Capetown in the event of an atomic war, all Central Orgs are to deposit with Capetown a complete record of all current addresses held at each org every six months, as at 30th June and 31st December. It is incumbent on all HCOs to see that these important records are maintained current. (HCO PL 11 Apr 63, Important -Emergency Library)

**EMERGENCY OFFICER**, 1. in the Org Flag Officer Branch of the Management Bureau there is a section called the Emergency Section. In this section are posted Emergency Officers. The Emergency Officer is on post to ensure org situations get handled. The Emergency Officer's primary source of reported situations comes from the Org Flag Officers. The Emergency Officer is a vital post in the new Management Bureau and system. It is the stopgap for minor situations in the field turning into major situations. (CBO 203-1) 2. an Emergency Officer exists in the Management Bureau to handle hot and urgent cope actions. (VRT4V.T)1.qRTNT)A of Flag and in FO-LOs there is the post of **Emergency Officer**. The purpose of the post is to note and get handled promptly those things which are emergencies or will make emergencies if not handled. The **Emergency Officer** if posted in the Operations Bureau just below the Operations Aide or A/Aide and ranks with the Operations Org Officer. He spots and gets handled: (1) emergencies, (2) queries, (3) no reports. Note that 2 and 3 turn into **emergencies** if not handled. (FO 3195)

**EMERGENCY PORTS**, **ports** we could use in case of a bad storm or ship damage which are closest to our course line. (FO 2555)

(HCO PL 29 Jan 64)

**ENROLLMENT CYCLE**, cycle starts off at distribution when individuals are reached by broad promotion, buy a book and eventually reach into the org themselves and are replied to by a Letter Registrar, who finds their want, puts them on a channel, and intensifies their reach. She keeps them progressing up the Routing and Gradation Chart until they finally reach for Saint Hill services, at which time they are passed on to the Advance Registration Unit, who schedules them for services. These individuals are written to by the Advance Registration Unit, which has its own Advance Reservations Records I/C who only writes to those people who are booked, encourages them to be here sooner, and in short gives them any and all information to get here in the shortest possible time. Advance Unit carries on with these people until they finally arrive in the org, at which time the Body Registrar takes over, makes them welcome, smoothes out any points that aren't clear, completes all registration formalities, and then hands over to Treasury Division. Data, not entheta, brings about action. All **entheta** does is cut the lines. (HCO PL 26 May 58) 3. irrational or confused or destructive thought, enturbulated thought. (HTLTAE, p. 120)

**ENTHETA LETTER**, a letter containing insult, discourtesy, chop or nastiness about an org, its personnel, Scn or the principal figures in Scn. En = enturbulated; theta = Greek for thought or life. An entheta letter's nastiness is aimed at the org, its personnel, Scn or the principal figures of Scn. It is different from an ethics report. (HCO PL 7 June 65, Entheta Letters and the Dead File, Handling Of -Definitions)

**ENTURBULANCE**, commotion and upset (HCO PL 4 Oct 69)

**ENVIRONMENTAL CHALLENGE**, when sane men and organizations exist in a broad scene that is convulsed with irrationality, it takes very

keen observation and a good grip on logic and fast action to stay alive. This is known as **environmental challenge**. It can be overdone! Too much **challenge** can overwhelm. (HCO PL 19 May 70)

**EQUAL PAY FOR EQUAL WORK**, a job evaluation technique whereby types of work are categorized according to their equality and all types of work within a specific category are assigned equal pay regardless of the race, color, creed, sex, etc., of the worker.

**ERGONOMICS**, same as Human Engineering.

**ERRAND**, an **errand** would be a person or group sent by an officer to accomplish a delivery, task or duty and not sent by Operations but by someone else. This would require briefing by the officer sending, preferably

taped, or at least with a carbon copy of the orders on which the person or group were briefed. The **errand** ends when the person or group have made a full report to Operations on what they did, accomplished and observed and when the Ops Officer is satisfied that the **errand** has been successfully carried out. The difference between an **errand** and a mission is that missions are sent by an Operations Officer, **errands** are sent by anyone else. When an **errand** involves more than one day it should be handled by Operations not by some other division. It then becomes a mission. (FO 2530R)

**ERROR**, in the fields of statistics and market research, the difference between a calculated value and the actual value.

**ERROR REPORT**, staff member report of any **error** made. (HCO PL 1 May 65)

**ERRORS**, 1. many who begin to use "illogics," who have not drilled on them so they can rattle them off, choose errors instead of out-points." An **error** may show something else. It is nothing in itself. An error obscures or alters a datum. It will be found that out-points are really few unless the activity is very irrational. Simple errors on the other hand can be found in legions in any scene. That a factory has a few errors is no real indicator. A factory has plus-points to the degree it attains its ideal and fulfills its purpose. That some of its machinery needs repair might not even be an out-point. If the general machinery of the place is good for enough years to easily work off its replacement value there is a plus-point. People applying fixed or wrong ideals to a scene are only pointing up errors in their own ideals not those of the scene! A reformer who had a strict Dutch mother looks at a primitive Indian settlement and sees children playing in the mud and adults going around unclothed. He forces them to live cleanly and cuts off the sun by putting them in clothes-they lose their immunities required

to live and die off. He missed the plus-point that these Indians had survived hundreds of years in this area that would kill a white man in a year! Thus **errors** are usually a comparison to one's personal ideals. Out-points compare to the ideal for that particular scene. (HCO PL 23 May 70) 2. minor unintentional omissions or mistakes. These are auditing "goofs;" minor alter-is of tech or policy; small instructional mistakes; minor errors or omissions in performing duties and admin errors not resulting in financial loss or loss of status or repute for a senior. (HCO PL 7 Mar 65 III)

Establish (Def. 1)

**ESTABLISHING**, 1. **establishing** something means that it's been put there so that it is capable and does produce high volume, high quality production with an absence of dev-t. (ESTO 11, 7203CO6 SO 1) 2. to have communications you have to have terminals. The org board is the pattern of the terminals and their flows. So you have to have an org board. And the org board must in truth be a representation of what is in the organization. The org board shows where what terminals are located in the org so flows can occur. This action of putting in terminals is called **establishing**. (HCO PL 7 Jul 71)

**ESTABLISHING THE ORG**, that means to find, hat, train, apprentice persons from outside the org, to locate them in the org and on the **organizing** board and then route the raw materials (public people in this case) along the line for production, which means changing particles into a final product. (HCO PL 7 Jul 71)

**ESTABLISHMENT**, 1. the act of improving the general level of all stats. (CBO 50) 2. consists of quarters, personnel, training, hatting, files, lines, supplies and materiel and all things necessary to **establishment**. (HCO PL 7 Mar 72)

Then we mini hat him and get him producing on the post. Then we full hat him and get him producing on the post. (ESTO 10, 7203CO5 SO 11) 4. their duties consist of org boarding, training, hatting, apprenticing, pouring in personnel, lines, spaces and materiel and equipment of the Division -Bureau. (OODs 4 Mar 72) 5. this person operates in a division, not under its secretary but under a senior **Establishment Officer**. He performs the duties of the Departments of HCO for that division. In a small org it requires a trained **Establishment Officer** for Divisions 7, 1 and 2 and another for Divisions 3, 4, 5 and 6. In a larger org there is one in charge of all

Establishment Officers and an **Establishment Officer** in each division. As the org grows, the larger divisions get Assistant Establishment Officers to the divisional one. They do not establish and run away. They establish and maintain the division staff, personnel hats, posts, lines, materiel and supplies. Their first job is to get staff working at their posts producing something and their next task is to drive dev-t out of existence in that org. (HCO PL 29 Feb 72, Correct Comm) 6. the first **Establishment Officer** Course was developed on Flag in October 1971. This was the Tech **Establishment Officer** Course (TEO). There are now **Establishment** Courses for each division of the org. An Establishment Officer is a specialist in the operation of a particular division, who also needs to be trained in the skills of **establishing**, which includes: getting production of valuable final products, recruiting staff, posting the org board of the division, getting personnel to study, hatting, training divisional staff, getting volume, quality and viability of production increased, **establishing** the lines of the division. (HCO PL 5 Feb 72 III) 7. one who establishes a division. Junior to the **Establishment Officer** I/C but in the division under its secretary, the **Establishment Officer** puts in the divisional personnel, lines, materiel and trains, hats and maintains and expands the **established** division to the benefit of the org and its staff. (LRH ED 168R INT) 8. now I've used Establishing and **Establishment Officer** interchangeably. It's a descriptive term. The actual term is **Establishment Officer**. His duties are **establishing**. (ESTO 2, 7203CO1 SO 11) 9. a leading **Establishment Officer's** Department is a Departmental **Establishment Officer** who has Section Estos under him due to the numerousness of the section. An **Establishment Officer's Section is an Establishment Officer** of a section where there is a Departmental and Divisional Esto. (HCO PL 7 Mar 72) 10. an Esto is a third dynamic auditor who deaber-

rates a group by cleanly organizing it so it can produce. (FSO 529) *Abbr.* Esto, ESTO.

**ESTABLISHMENT OFFICER CONFERENCE**, 1. the **Establishment Officer Conference** is held by the Exec Esto (or his deputy). This **conference** handles **Esto** matters, debugs Esto targets worked out by the CO-ED or Esto's projects, gets in reports of divisions and their personnel, hating, supply, spaces, quarters etc. The Esto Conference handles financial planning using FP policy in which the Esto must be proficient. (FP must be approved by the Treasury Sec, Finance Banking Officer and Assistant Guardian. The org has to be run on FBO /AG allocations and these are the check signers of the org). This conference is governed by similar guide rules as a conference to the Product Conference. (HCO PL 7 Mar 72) 2. the economics of the organization are in the hands of another conference called the Esto Conference. An FP is done by the Establishment Officers. It's done just according to the rules and therefore they know how much they have to establish. (ESTO 1, 7203COI SO 1) 3. the Esto Conference meets daily on **establishment** matters. (OODs 4 Mar 72)

**ESTABLISHMENT OFFICER IN-CHARGE**, 1. an **Establishment Officer In-Charge** is an Esto who has **Establishment Officers** under him in an activity that has five or less Estos. Does duties comparable to an Executive Esto for that activity. (HCO PL 7 Mar 72) 2. has the duty of maintaining the Esto system. (LRH ED 168R INT) *Abbr.* Esto I/C, ESTO I/C.

**ESTABLISHMENT OFFICER SERIES 5**, see PRODUCT CLEARING SHORT FORM.

**ESTABLISHMENT OFFICER SERIES 18**, see LENGTH OF TIME TO EVALUATE.

**ESTABLISHMENT OFFICER'S ESTABLISHMENT OFFICER**, the Esto's Esto is the one who trains and hats and checks out ESTOs and establishes the Esto system. He also runs the Esto Course that makes Estos and is the Esto's Course Supervisor. In practice, the hats of Esto Org Officer and Esto's Establishment Officer are held as one hat until an org is very large. (HCO PL 7 Mar 72) *Abbr.* Esto's Esto, ESTO'S ESTO.

**ESTABLISHMENT OFFICER SYSTEM**, 1. the **Establishment Officer system** or "Esto Tech" was developed in the same time period as the Prod-Org system. The Esto kept the place established and organized for production and despite heavy production demands. (HCO PL 9 May 74) 2. the Establishment Officer system evolved from the Product-Org system where it was found the HAS alone could not establish the org. The Esto is an extension of the original HCO system as an Esto performs all the functions of HCO for the activity to which he is assigned plus his own tech of being an Esto. (HCO PL 7 Mar 72)

**ESTATE BUREAU**, 1. the Estate Bureau provides quarters and maintains them as clean, attractive and usable. on Flag that estates is actually ship and all its functions. (FO 3576RA)

**ESTATE-SHIP AIDE**, the post of Estate-Ship Aide is established. It is a full Commodore's Staff Aide Post and is located on the org board directly under Staff Captain, alongside CS-PA on the org board. Its shortened designation will be CS-ES. (FO 3380) *Abbr.* CS-ES.

**ESTATES MANAGER**, 1. the **Estates Manager** is located in Dept 21 and is the head of the Estates Section. As such he is responsible for the production of engine room, deck and services products in quantity, quality and viability. (FO 3590) 2. handles all of estates and thus is the Product Officer of the section, and of his juniors, the Chief Engineer, Chief Steward and 1st Mate. **ESTATES PROJECT FORCE**, 1. under the supervision of the Maintenance Chief, the Estates Project Force handles premises, grounds, cleaning, repair, painting or other maintenance cycles. (FO 3165) 2. an Estates

Project Force is established in lieu of a deck project force. Such persons do grounds and buildings maintenance at any of the SO properties under the direction of the Estate Manager and supervised by an EPF MAA as assigned by the LRH Comm. (FO 3118R) *Abbr.* EPF.

**ESTATES PROJECT FORCE CATEGORY A**, people who are just coming into the org could also come in through an Estates Project Force. So there's an Estates Project Force. Category A are people who are just coming in and getting in their basics before you let them onto a post and then there's Category B; those who have had a chance and they're put back there until they're handled. Do not allow these Category B's back in on your lines before they are handled. (ESTO 4, 7203CO2 SOII)

**ESTATES PROJECT FORCE CATEGORY B**, see ESTATES PROJECT FORCE CATEGORY A.

**ESTATES PROJECT FORCE MAA**, the most upstat member of the EPF is appointed as EPF MAA. He musters the group, conducts any exercises, and keeps the schedule in under supervision of the 1st Mate or his deputy. (FO 3434-28) *Abbr.* EPF MAA.

**ESTATES SECTION**, 1. the Estates Section with all its personnel, functions and equipment reverts to Dept 21, Office of LRH, in all Scientology orgs and in all SO orgs including ships. The Estates Section is in the charge of the Estates Manager who in turn is answerable to the LRH Comm. Product: adequate, clean, attractive, usable org premises that enhance org promotion, production and asset value. (HCO PL 16 Aug 74 IIR) 2. an Estate Section, Dept 21 (or Dept 27 in a Nine Division Org) is that section which keeps up, cleans and maintains the working area of the org. (BO 23, 20 Feb 70)

**ESTIMATE ANALYSIS**, see ANALYSIS, ESTIMATE.

**ESTIMATED PURCHASE ORDER**, an **Estimated Purchase Order** is not a purchase order and gives no authority to purchase. An **Estimated Purchase Order** is submitted to Financial Planning in place of an actual and valid Purchase Order when the exact cost of a needed item is not yet known. It serves to hold aside the **estimated** amount needed until an actual purchase order with exact cost can be raised against it. (BPL 4 Nov 70R) *Abbr.* EPO.

**ESTO I/T**, all persons doing Esto work may only use the title **Esto I/T (in training)** until he has successfully and honestly completed: (1) HCOB 21 November 73, The Cure of Q and A. (2) the PRD (Primary Rundown). (3) the OEC. (4) the Esto Series. (5) has shown on post the ability to see situations and handle them terminatedly. (6) gets staff members actually producing by increased stats. (HCO PL 22 Nov 73)

**ESTOPPEL**, a restriction placed upon a person to prevent him from contradicting a previous claim or assertion with a new claim or assertion.

**ESTO'S MAA**, 1. the Exec Esto has a Master at Arms who musters the crew, conducts exercises and does Exec Esto investigations. There is an Assistant Master at Arms. This is the Esto's MAA. He checks up on Estos, handles things for them and acts as liaison with HCO. Student Estos as well as the regular Estos also come under the Asst. MAA. (FSO 529) 2. the Exec Esto's Assistant Master at Arms. (FSO 534)

**ESTO TECH**, **Establishment Officer** System. (HCO PL 9 May 74)

**ETHICS**, 1. the study of the general nature of morals. The rules or standards governing the conduct of the members of a profession. (HCO PL 3 May 72) 2. the study of the general nature of morals and the specific moral choices to be made by the individual in his relationship with others. It could also be called "philosophy of morals, and also called

moral philosophy." Ethics is a first dynamic action. (7204C11 SO) 3. All ethics really does is hold the lines firm so that you can route and audit. All ethics is for in actual fact is simply that additional tool necessary to make it possible to get technology in. That's the whole purpose of ethics; to get technology in. When you've got technical in, that's as far as you carry an ethics action. (SH Spec 61, 6505C18) 4. the purpose of ethics is to remove counter intentions from the environment. And having accomplished that the purpose becomes to remove other intentionedness from the environment. (HCO PL 18 Jun 68) 5. what we have then, in ethics, is a system of removing the counter-effort to the forward push, and that's all an Ethics Officer is supposed to do. (6711C18 SO) 6. are basically, merely good sense (5904C15) 7. a study as much as anything else, of the equity of human intercourse. You might say it's how to keep overt-motivator sequences from forming easily. (5904C15) 8. ethics is now refined by experience to a new look. The protection of upstats must be as certain as the handling of downstats. Ethics is not the business of just assigning and enforcing conditions. The ethics we have has its own tech as contained in HCOBs on suppressives, on meters, on case types. (FO 2245)

**ETHICS AIDE**, CS-5. (FO 795)

**ETHICS AUTHORITY HAT**, on review of Ethics Authority Hat which has been in the Office of LRH since 1965, CS-7 will handle this function. This consists of the handling and answering of all petitions received. By handling is meant correcting any outnesses found, or gathering together more data so the outness can be corrected. Review of ethics orders, issued by WW and SO for correctness and justice. To advise LRH of new ethics policies or amendments to ethics policy as may appear to be needed from time to time. Cancellation of certificates in the SO. (FO 1066)

**ETHICS BAIT**, a person in continual heavy ethics or who is out-ethics. (HCO PL 4 Apr 72)

**ETHICS CHIT**, report of anything in violation of ethics or dev-t Policy Letters. (HCO PL 1 Jul 65)

**ETHICS, CORRECT DANGER CONDITION HANDLING**, HCO Policy Letter 9 April 1972, Ethics, Correct Danger Condition Handling. Locates the trouble area that got him into a **danger condition**. Goes with the famous "3 May P/L," HCO PL 3 May 1972, Executive Series 12, Ethics and Executives. (LRH ED 257 INT)

**ETHICS E-METER CHECK**, in a state of emergency, the Ethics Officer may at any time call in any number of staff members and do an ethics E-meter check. This consists of setting the meter up, sensitivity 16, and handing the cans to the staff member taking the check. No question is asked of the staff member, and the staff member is not informed of readings. The Ethics Officer records the position of the tone arm and the condition of the needle and that is all. The entire check takes no more than 5-15 seconds. The staff member's PC folder need not be at hand during the check. After the check is over, the Ethics Officer examines the PC folder for evidence of NCG (chronic no change of case) or rollercoaster or R/Ses. (HCO PL 26 Aug 65R, *Ethics E-Meter Check*)

**ETHICS FILES**, **filing** is the real trick of ethics work. The files do all the work, really. Executive Ethics reports patiently **filed** in folders, one for each member, eventually makes one Me fat. Whatever report you get, Me it with a name. Don't file by departments or divisions. File by names. (HCO PL 11 May 65, *Ethics Officer Hat*)

**ETHICS HEARING**, an **Ethics Hearing** may be convened by an Ethics Officer to obtain data for further action or inaction. The order is issued as an HCO Ethics Order.

The time and place of the **Ethics Hearing** is stated in the order. The purpose of the Hearing is stated. Interested Parties are named. An **Ethics Hearing** may name witnesses but not the person's immediate superiors to appear against him in person but may consider a written statement by a superior. An **Ethics Hearing** has no power to discipline but may advise on consequences. If doubt exists in the matter of whether or not a misdemeanor or crime or suppression has occurred, it will be usual to convene an Ethics Hearing or Executive **Ethics Hearing** not a Court of Ethics. (HCO PL 26 May 65 III)

**ETHICS INTERROGATORY**, an ethics interrogatory is used as a dispatch to carry out an investigation. It is used to collect data to determine the facts of a situation. It is on gold paper with blue ink. (HCO PL 8 May 65 II)

**ETHICS OFFICER**, 1. uses ethics to protect ethics upstats and keep the stats up and to smoke out crimes that push people and stats down. It is a simple function. (HCO PL 7 Dec 69) 2. when ethics : I in, it's put in. Ethics Officers put ethics in. An Ethics Officer removes counter-intentions from the environment. (FO 918) 2. the activities of the Ethics Officer consist of isolating individuals who are stopping proper flows by pulling withholds with ethics technology and by removing as necessary potential trouble sources and suppressive individuals off org comm lines and by generally enforcing ethics codes. (HCO PL 11 May 65, *Ethics Officer Hat*) 4. the purpose of the Ethics Officer is to help Ron clear orgs and the public if need be of entheta and enturbulation so that Scn can be done. (HCO PL 11 May 65, *Ethics Officer Hat*) 5. in Department 3, Department of Inspection and Reports. Handles all ethics and security matters, interviews, investigations and orders. (HCO PL 18 May 73) 6. the title Chief Ethics Officer is used when he has three full-time (or in foundations, foundation

time) Ethics Officers. The title Ethics Officer In-Charge is used when one has a Chief Ethics Officer over him and at least one other below him. The title Ethics Officer is used to denote single occupancy of a section. (HCO PL 20 Jun 68) 7. the Ethics Officer is trying to protect the organization from the consequences of SP's and PTS's and on the other hand he is trying also to bring about justice. (SH Spec 73, 6608CO2) 8. MAA (BPL 25 Jul 70R)

**ETHICS OFFICER IN-CHARGE**, the title **Ethics Officer In-Charge** is used when one has a Chief Ethics Officer over him and at least one other below him. (HCO PL 20 Jun 68)

**ETHICS ORDER**, 1. (HCO Ethics Order) all Ethics Orders will now be on gold paper with blue ink. This includes all local Committee of Evidence issues and other matters. An Ethics Order may only be issued by the HCO Executive Secretary or an HCO Area Secretary. Any findings must be passed by the Office of LRH but if so are issued as an **Ethics Order** color flashed gold with blue ink. (HCO PL 8 May 65 11) 2. *example*: "John Smith in Baltimore, USA, is declared a Suppressive Person. On (date) he discouraged Bill Tucker from taking the Saint Hill Course by writing to him lies about the course, well known by said Smith to be false statements. Evidence: letter from Smith dated - to - now available in ethics files. Charge: suppression of a Scientologist and barring his way to release and Clear. Findings by former evidence of course record and this: Suppressive Person. All certs . . . etc. " Ethics Orders are supposed to run group engrams out. Always put in what you know, nothing you don't know, and only what you have evidence or witnesses for. Ethics Orders are issued on real data, not opinion. (HCO PL 2 Jun 65) *Abbr.* EO.

**ETHICS PRESENCE**, 1. ethics presence is an "X" quality made up partly of symbolo-

gy, partly of force, some "now we're supposed to's" and endurance. Endurance asserts the truth of unkillability. We're still here, can't be unmocked. This drives the SP wild. Because of the Sea Org we appear to have unlimited reach and in some mysterious way, unlimited resources. The ability to appear and disappear mysteriously is a part of ethics presence. As an executive you get compliance because you have ethics presence and persistence and can get mad. The way you continue to have ethics presence is to be maximally right in your actions, decisions and dictates. (HCO PL 4 Oct 68) 2. is basically knowing what you are doing and making sure the junior backs you up and does it. (ED 123 USB)

**ETHICS PROGRAM NO. 1**, 1. the purpose of this is to pick out and add to persons who should have ethics protection because they are producers. The full intentions of **Ethics Program No. 1** are to get ethics in in orgs, protect upstats and bring others up to upstat by auditing and training. (LRH ED 78 INT) 2. the purpose of this **program** is to get ethics protection for actual upstats and prevent oppressive influences on org staff members. (LRH ED 39 INT)

**ETHICS REPORT**, a **report to ethics** (or by error, to the org) concerning the misuse or abuse of technology or the misconduct of a Scientologist. This is routed directly to the Ethics Section and becomes a subject for investigation. (HCO PL 7 Jun 65, *Entheta Letters and the Dead File, Handling of -Definitions*)

**ETHICS SECTION**, 1. is in Department 3. This department is called Inspection and Reports. In small orgs there is only one person in ' that department. Primarily his duties consist of inspecting and reporting to his divisional head and the Executive Council. (HCO PL 7 Dec 69) 2. Section in Dept 3, Dept of Inspection and Reports. Ethics Section does ethics investigations, writes Ethics

Orders, holds Ethics Hearings and suggests Executive Ethics Hearings, handles all ethics matters, guards and watchmen. (HCO PL 17 Jan 6611)

**ETHICS TYPE CASE**, SP, PTS, W/Hs. (HCO PL 17 Jun 65)

**ETHICS UPSTATS**, an **upstat** rating per **Ethics Program No. 1**. (LRH ED 63 INT)

**ETHNIC(S)**, 1. beliefs, mores, customs, patterns of thought or racial or religious stable data. (HCO PL 12 Nov 69) 2. it's the mores and customs. It's what do the people believe; it's what is right and what is wrong. It is the solution of good conduct. (691OC21 SO)

Ethnic

**ETHNIC SURVEY**, 1. you have to find out what is most liked and what is next most liked and what is considered bad and what is considered totally evil. When you have got the list of those things now you know the control buttons of the society. Those are the buttons of control. You do an ethnic survey by going out and asking questions, and by looking into books and backgrounds of religions and that sort of thing. (691OC21) 2. surveys finding out what is needed and wanted in different subjects or areas of interest-i.e. education, health, etc. (FO 2162)

**ETHNIC VALUES**, 1. publicly admired values and publicly detested values. (HCO

PL 17 Jun 69) 2. customs. (HCO PL 24 Jan 69)

**EVAL SHEET**, in the Flag Bureaux and in Continental Liaison Offices and OTLs, aides and assistant aides have definite and specific **evaluation** duties. The evals are typed daily on to eval-sheets. Eval sheets are laid out as follows: (1) heading: Eval sheet for (date) (2) distribution placed in the top left-hand corner. (3) name of OTL, CLO, or "Flag Bureaux" underneath the main heading. (4) title of originator of the evals first to be typed. (5) headings and texts of that aide's or a/aide's evals. (6) pages are numbered consecutively. For the sake of neatness and first evals should be CS-1's, then CS-2's etc., across the org board. This may be impractical and should not be adhered to if time is lost thereby. (CBO 163)

**EVALUATE**, 1. it is an action which is basically an intelligence action. The actual meaning which is supposed to be embraced in the word is "to examine the evidence in order to determine the situation" and then it could have a further-"So as to formulate policy or planning relating thereto." In other words, "What is the enemy going to do?" And therefore the General can say, "Therefore, we should." (7201CO2 SO) 2. to examine and judge the significance and condition of. (7201CO2 SO) 3. determine the situation which even more simplified would be, find out the situation. From this body of data, from this indicator we can get a good situation, a bad situation or a no-situation. And that is what one is trying to determine. (7201CO2 SO) 4. tell the PC what it's all about. (HCOB 30 May 70) *Abbr.* Eval.

**EVALUATION**, 1. the purpose of an **evaluation** is to isolate and handle the cause of a non-optimum situation so as to reverse and improve it toward an ideal scene. An **evaluation** is also done to isolate the cause of a scene which is going well and to reinforce it. (BPL 16 Dec 73) 2. 1 found that getting the

situation was a common bug. Evidently people don't do a real stat analysis and get an ideal scene, look for its furthest departure and get the situation and then look for data and find the why. There are many ways to go about it but the above is easy, simple and foolproof. It would look like this on a worksheet: gross divisional statistic analysis to find the area and a conditional guess. Ideal scene for that area. Biggest depart from it for the situation. Stats, data, out-point counts, why, ethics why, who, ideal scene, handling, bright idea. If you're very good your gross divisional stat analysis will get confirmed by data. The real why opens the door to handling. And you can handle. This doesn't change eval form. It's just a working model. All good evals are very consistent-all on same railroad track. Not pies, sea lions, space ships. But pies, apples, flour, sugar, stoves. (HCO PL 19 Sept 73 IR) 3. by complete **evaluation** we of course mean, situation spotted, analyzed, why, recommended handling, and the agreed upon step. (7201CO2 SO) 4. **evaluating** tests for public individuals. (HCO PL 15 Feb 61) *Abbr.* Eval.

**EVALUATION FORMAT**, when doing an **evaluation**, one can become far too fixated on outpoints and miss the real reason one is doing an **evaluation** in the first place. To handle this, it is proper **form** to write up an **evaluation** so as to keep in view the reason one is doing one. This is accomplished by using this **form**: Situation: Data: Stats: Why: Ideal Scene: Handling: (HCO PL 17 Feb 72)

**EVALUATION OF PERSONNEL**, the **evaluation of personnel** can be done with fair rapidity. It includes the test battery, it includes his ethics record, it includes his personnel record, and it includes any record of statistics the person might have. Now that is very very good to know that you can actually have some index of **evaluation**. You will err more in the direction of failing to

believe it than you will err in any other direction. (ESTO 3, 7203CO2 SO I)

**EVALUATION SCRIPT**, script written by Peter Greene on experience with PE Foundation, Johannesburg, based on recent PE Policy Letters. This script is to be used when ev tests for public individuals. It must be studied and learned by heart by PE **evaluators**. It makes the difference between ample PE Course sign-ups and very few sign-ups. The **evaluation** is given with excellent TR 1, almost tone 40. The idea is to impinge on the person. (HCO PL 15 Feb 61) [See the reference HCO PL for the text of the script.]

**EVALUATOR**, 1. an **evaluator** is one that evaluates. (7201C02SO) 2. PE **evaluators** (**evaluating** tests for public individuals). (HCO PL 15 Feb 61)

**EVENT**, 1. meetings, deputations, significant dates, combinings and separations and many other things are events. (HCO PL 5 Feb 69 11) 2. events are short, evening affairs with the emphasis on personal handling of registration cycles with public. (BPL 4 July 72R)

**EVENTS IN CORRECT SEQUENCE**, a pluspoint. Events in actual sequence. (HCO PL 3 Oct 74)

**EVIDENCE**, (Committees of Evidence) the spoken word, writings and documents are to be considered as evidence. Session withholds may not be used as evidence but evidence may not be refused because it also has been given in a session. Hearsay evidence (saying one heard somebody say that somebody else did) should not be admissible evidence, but statements that one heard another make damaging remarks or saw another act or fail to act is admissible. (HCO PL 7 Sept 63)

**EVIDENCE**, 1. the product derived from investigating and organizing the findings about a business or activity, then interpreting the information in tables, charts and

various other statistical forms. 2. in law, any article presented at a court trial serving to test or prove a claim made by the litigants.

**EVIL**, it might interest you how an SP comes about. He's already got enough overts to deserve more motivators than you can shake a stick at. He has done something to dish one and all in. He's been a bad boy. Now the reason he got to be a bad boy was by switching valences. He had a bad boy over there and he then, in some peculiar way, got into that bad boy's valence. Now he knows what he is-he's a bad boy. Man is basically good but he mocks-up evil valences and then gets into them. He says the other fellow is bad. The other fellow was bad. And eventually he got this pasted-up other fellow and one day he becomes the other fellow, see, in a valence shift or personalitywhole, complete package of personality. And there he is. So now he is an evil fellow. He knows how he is supposed to act. He is supposed to act like the other fellow. That's the switcherrou. That's how evil comes into being. The religionists have been having a hard time trying to solve what evil was and that is what evil is. It is the declaration or postulate that evil can exist. In the absence of postulates and declaration of such, man is good. (SH Spec 73, 6608CO2)

**EVIL PURPOSE**, a definite obsessive desire to destroy. (ESTO 3, 7203CO2 SO I) *Abbr.* Ev Purp.

**EVIL PURPOSE BOY**, he's out to destroy the lot. His whole life is monitored by this, and he does it in the most remarkable way. Criminals and that sort of thing are motivated this way. And they are very hard to detect because they very carefully cover it all up while pulling the rug out from underneath anything. (ESTO 3, 7203CO2 SO I)

**EXACT SCHEDULING**, means just that. The course has a daily schedule, it is known to each student, and it is adhered to exactly. The course commences each day and after

each break exactly on time, with a brisk, snappy rollcall, it is ended exactly on time by the supervisor. (BPL 8 May 68 R II)

**EXAMINATIONS OFFICER**, (Gung - Ho Group) the **Examinations Officer** examines anyone trained or being trained and any project or program. (HCO PL 2 Dec 68)

**EXAMINER**, 1. the **Examiner** is open from 9:00 A.M. to 10:00 P.M. excepting lunch and dinner breaks. (1) the Examiner is the terminal for preauditing statements and any communications you wish to give to the C/S. (Case Supervisor) (2) the Examiner is the terminal to go through to see the Qual Consultant. (Examiner will make an appointment for you) (3) the Examiner is the terminal to see to give the C/S data regarding any physical body difficulty and any planned visit to or report from a doctor while you are receiving an intensive. (4) the Examiner is the terminal you see after each auditing session. (BPL 29 Jan 72R) 2. (Correction Division) the **Examiner examines** all the org's PCs expertly and accurately, catches all flubs by inspecting all folders sent for "Declare?", before calling the PC, ensuring that the process or rundown was run and full end phenomenon attained, and reports all technical deficiencies and ensures these are handled. (BPL 7 Dec 71R I) 3. (PC examiner) that person in a Scn organization assigned to the duties of noting PCs' statements, TA position and indicators after session or when PC wishes to volunteer information. (BPL 4 Dec 71R III) 4. the whole duty of the **examiner** is to note the TA needle behavior of the PC. You don't as an Examiner care about anything except TA-needle behavior- statement. (HCO PL 13 Oct 68) 5. briefly the Examiner's purpose is to ensure standard tech is applied and results are flawless. (FO 1170)

**EXAMINER'S 24 HOUR RULE**, the rule is: any goofed session must be repaired with **24 hours**. (HCO PL 8 Sept 70R)

**EXCALIBUR**, 1. *Excalibur* was an unpublished book written in the very late 1930s. Only fragments of it remain. (HCO PL 17 Mar 69) 2. the unpublished work *Excalibur* (most of which has been released in HCOBs, PLs and books). (HCO PL 26 Apr 70R) 3. the *Excalibur* is the Sea Org training vessel for the Pacific area. (CBO 212) 4. Asia (FSO 559) *Abbr.* Excal. [Asia was the former name of the ship, Excalibur.]

**EXCHANGE**, criminal exchange is nothing from the criminal for something from another. Whether theft or threat or fraud is used, the criminal think is to get something without putting out anything. That is obvious. A staff member can be coaxed into this kind of thinking by permitting him to receive without his contributing. When you let a person give nothing for something you are factually encouraging crime. It is exchange which maintains the inflow and outflow that gives a person space around him and keeps the bank off of him. One has to produce something to exchange for money. If he gives nothing in return for what he gets the money does not belong to him. It is interesting that when a person becomes productive his morale improves. Reversely it should be rather plain to you that a person who doesn't produce becomes mentally or physically HI. For his **exchange** factor is out. (HCO PL 4 Apr 72)

**EXCHANGE**, 1. generally, the barter or trading of money, property or services in return for like rewards of equal or similar value. 2. a business market engaged in handling the trading of a commodity as in a produce or stock exchange. 3. the trading of money of one nation for the currency of another country at a ratio established by the international money market. 4. system of payments wherein negotiable drafts or bills of exchange are used in place of money. 5. the fee or amount charged for handling such a system of payments.

Exchange (Def. 1)

**EXCHANGE CONTROL**, the jurisdiction by a nation of the ways in which its currency may be traded for other currencies, usually done to influence or enhance the value of its currency on international markets.

**EXCHANGE, LOSSES**, 1. the net result showing a financial loss in its own national currency taken by companies or individuals in the outcome of transactions dealing in foreign currencies. 2. in financial statements or consolidated accounts the net loss incurred, recorded or unrecorded, in translating rates of foreign accounts to the company's currency.

**EXCHANGE RATE**, a calculation made of the worth of a currency relative to or in exchange for another currency.

**EXCLUSIVE**, type of article other than straight news usually included in a newspaper. A feature sent to one newspaper. (BPL 10 Jan 73R)

**EXEC ESTO'S ASSISTANT MASTER AT ARMS**, the **Esto's MAA**. (FSO 534)

**EXEC ESTO'S MAA**, the **Executive Esto** has a **Master at Arms** in a large org. The MAA musters the crew, conducts any exer-

cises, does ethics investigations as needful especially by the Exec Esto and helps hat the Ethics Officers of the org. He does not replace these. He does other duties assigned. (HCO PL 7 Mar 72)

**EXECUTING**, getting people to get the work done. (HCO PL 30 Oct 62)

**EXECUTIONS BRANCH**, Programs **Executions Branch**. (FO 3506)

**EXECUTIVE**, 1. one who obtains **execution** of duties, programs and actions in an organization to further the aims and purposes of that organization. (HCO PL 30 Oct 62) 2. any person holding an executive post (head of department or above) is deemed an executive. (HCO PL 3 May 72) 3. one who holds a position of administrative or managerial responsibility in an organization. (HCO PL 29 Oct 71 II) 4. to give one some idea of the power associated with the word, Daniel Webster, in 1826, defined it as: "The Officer, whether King, President, or other Chief Magistrate, who superintends the execution of the laws; the person who administers the government, executive power or authority in government. Men most desirous of places in the executive gift, will not expect to be gratified, except by their support of the executive. John Quincy." (HCO PL 29 Oct 71 II) 5. used in distinction from legislative and judicial. The body that deliberates and enacts laws is legislative; the body that judges or applies the laws to particular cases is judicial; the body or person who carries the laws into effect or superintends the enforcement of them is executive, according to its 19th Century governmental meaning according to Webster. (HCO PL 29 Oct 71 II) 6. the word comes from the Latin "*Ex(s) equi* (past participle *ex(s) ecutus*) execute, follow to the end: *ex-*, completely + *se qui*, to follow." In other words, he follows things to the end and gets something done. (HCO PL 29 Oct 71 II) 7. an executive is in fact a worker who can do all and any of the work

in the area he supervises and who can note and work rapidly to repair any outnesses observed in the functioning of those actions in his charge. (HCO PL 28 Jul 71) 8. an executive in charge of an org would "single-hand" (handle it all) while getting others to handle their jobs in turn. (HCO PL 28 Jul 71) 9. essentially an **executive** is a working individual who can competently handle any post or machine or plan under him. (HCO PL 28 Jul 71) 10. an **executive** handles the whole area while he gets people to help. (HCO PL 28 Jul 71) 11. an executive or foreman is one who can obtain, train and use people, equipment and spaces to economically achieve valuable final products. (HCO PL 14 Dec 70) 12. anyone in charge of an org, part of an org, a division, a department, a section or a unit. (HCO PL 5 Jan 68) 13. a general term including any in-charge or above. In very large orgs the title is extended to heads of large sections. (HCO PL 29 Oct 71 II) 15. **executives** are Dept heads, and, anyone who attends the Advisory Council. (HCO PL 27 Nov 59) 16. the **executives** of the organization are: Organization Secretary, Director of Training, Director of Processing, Director of Materiel, Director of Promotion and Registration, Director of Accounts. (SEC ED 59, 28 Jan 59) *Abbr.* Exec.

**EXECUTIVE ABILITY**, executive ability is similar to administrative ability in that it requires an ability to formulate and apply policy which will result in the safe, efficient and profitable running of an organization. However, executive ability also implies being able to get others to get the work done

and being able to get policy known and used.

**EXECUTIVE BOOSTER GROUP**, (Flag Only) the basic program for the **Executive Booster Group** is as follows: (1) misunderstood words on earlier materials cleaned up. (2) Ron's new Student Booster Run-down. (3) the full Exec hat he was sent for, e.g. ED hat. (4) apprenticeship in the Flag Land Base. (5) Source briefing. (6) fire back to org. The **Executive Booster Group** are seated in the same area while studying and the same area while eating. They are on a very tight schedule with 8 hours sleep and 1 1/2 hours a day for three meals. The rest of the time is spent on study and auditing. They have no free time. They are to return to their orgs within one month, able to hold an exec post. (FBDL 596)

**EXECUTIVE, CHIEF**, 1. a term for the highest level executive in an organization or the Governor of a State. 2. the President of the United States.

**EXECUTIVE CONFIDENCE**, **executives** in business and government can fail in three ways and thus bring about a chaos in their department. They can: (1) seem to give endless freedom; (2) seem to give endless barriers; (3) make neither freedom nor barriers certain. **Executive confidence**, therefore, consists of imposing and enforcing an adequate balance between their people's freedom and the unit's barriers and in being precise and consistent about those freedoms and barriers. Such an executive adding only in himself initiative and purpose can have a department with initiative and purpose. (PAB 84)

**EXECUTIVE CORRECTION LIST**, HCO Bulletin 27 March 72, Issue V, *Executive Correction List, Study Correction List 5*. The prepared list locates an executive's troubles and indicates handling. (LRH ED 257 INT)

**EXECUTIVE, COUNCIL**, 1. the **Exec Council** is composed of the Exec Secretaries and their Org Officers and the CO or ED. Their actions are: (a) approval of Ad Council recommended GDS conditions and all Ad Council Planning. **Exec Council** may veto or amend or add to Ad Council planning and is responsible to see that Ad Council performs its duties. In the final analysis, regardless of Ad Council action or inaction, **Exec Council** is responsible for demanding delivery and income and getting it produced. (b) long range promotional planning. (c) the actions of financial planning as given in HCO PL 26 November 1965, *Financial Planning*, designed to maintain outgo below income, balance the budget and keep finance on policy. (d) allocation to divisions of available funds in keeping with divisional planning and stat conditions. Exec Council sees to it that production necessities are covered in FP, usually by means of a checklist which lists routine org expenses by division. Exec Council adds its allocation to the Ad Council Directive and this then forms the Financial Planning Directive for the week. (HCO PL 23 Jun 75) 2. puts a functioning Ad Council there and demands income and delivery and handles allocation and solvency matters. (HCO PL 23 Jun 75) 3. **Executive Council** would be five-Captain, Supercargo, Super's Org Officer, Chief Officer, Chief's Org Officer. (OODs 12 May 74) 4. an **Executive Council** has all GDSs available to it every week. The **Executive Council as a council**, runs the org by observation of the gross divisional statistics. Conditions are assigned each division by the Executive Council each week according to these GDS stats. (HCO PL 5 Feb 70) 5. consists of the Supercargo, Chief Officer and LRH Comm Ship. (FO 1275) 6. the **Executive Council** on a vessel consists of the Supercargo and Chief Officer. Any orders must be passed on by the LRH Comm of the vessel as not against Flag Orders and then ratified by the Captain as a Ship's Order before such orders

are binding on the whole ship. (FO 1021) 7. **Executive Council** will become: Master, Supercargo, Chief Officer. (FO 401) 8. same as Board of Directors. Board of Directors: this is composed of the HCO Exec See WW, the Org Exec See WW, the LRH Comm WW. (HCO PL 6 Sept 67) 9. the two Executive Secretaries (or the HCO See and Org See of a Six Department Org) constitute an Executive Council. This is the highest governing body of an organization. It is assisted by an Advisory Council which meets at a time of week prior to the Executive Council meeting. The Executive Council has the purpose of conducting a successful organization. (HCO PL 21 Dec 66 11) *Abbr.* EC.

**EXECUTIVE COUNCIL ADVANCED ORGANIZATIONS**, an **Executive Council AO's** is formed. It acts as the senior body to individual **Advanced Organizations**, and ensures that they continue to expand. It consists of a Commanding Officer AO, Supercargo AO and Chief Officer AO and forms part of the International Exec Div AO which is posted as the eighth division of each individual AO. The principle that no Exec Division of any kind may exist without being part of an org is held firm and the ECAO is attached to AOLA and is housed in the same buildings. The purpose of ECAO is to help LRH conduct successful **Advanced Organizations** over the world, provide control over these, and to ensure that AO's make OTs and support the Sea Org so that the planet can be brought under control and a safe environment provided in which the planet's 4th dynamic engram can be run out. (FO 1939) *Abbr.* ECAO.

**EXECUTIVE COUNCIL EUROPE**, **E-CEU** is directly answerable to an SO Commanding Officer and the Continental Captain, Stationship Europe. All EU orgs, franchises and groups are directly under ECEU. (HCO PL 23 Apr 70) *Abbr.* ECEU.

**EXECUTIVE COUNCIL FLAG BUREAUX**, is composed of: CO FB (Chairman), D/CO FB, Supercargo FB, Chief Officer FB, Supercargo's Org Officer and Chief Officer's Org Officer. The VFP of Exec Council FB is: managed and expanding orgs. The function of the **Exec Council FB** is: planning and coordination. (CBO 341)

**EXECUTIVE COUNCIL WORLDWIDE**, is fully responsible for the running of all Scn (not Sea Org) orgs via its Continental Exec Councils and the org's own Exec Councils. (FO 2220)

**EXECUTIVE COURT OF ETHICS**, convened in the same way and with the same powers and disciplines as a Court of Ethics. An Executive Court of Ethics is convened by the Office of LRH via the HCO Executive Secretary. The presiding person must be at or above the rank of the person summoned. A Court of Ethics may not summons a director, a secretary or an executive secretary. An Executive Court of Ethics only may be convened on a director, secretary or executive secretary. The Executive Ethics Court is presided over by a secretary or executive secretary as appointed for that one court and one purpose by the Office of LRH via the HCO Executive Secretary. (HCO PL 26 May 65 III)

**EXECUTIVE DIRECTIVES**, issued by any Executive Council and named for the area it applies to. Thus ED WW, meaning issued to Worldwide. They are valid for only one year. They contain various immediate orders, programs, etc. They are blue ink on blue paper. (HCO PL 24 Sept 70R) *Abbr.* EDs.

**EXECUTIVE DIRECTIVES ROYAL SCOTMAN**, all orders, Captain's orders, conditions orders and organizational orders of the Royal Scotman, published by it, shall hereafter be Executive Directives RS. (FO 411) *Abbr.* EDRS.

**EXECUTIVE DIRECTOR**, 1. the head of the org is the Commanding Officer or Executive Director. He is usually also the Product Officer. He is senior to the Exec Esto. (HCO PL 7 Mar 72) 2. the org is commanded by the Commanding Officer (SO orgs) or the Executive Director (non SO orgs). In the triangular system of the Flag Executive Briefing Course (FEBC) (Product-Org Officer system) the CO or ED coordinates the work of the Product Officer, Org Officer and Executive Esto. In most orgs the CO or ED is also the Product Officer of the org which is a double hat with CO. (HCO PL 7 Mar 72) 3. the Executive Director of an organization is the Product Officer of that organization. He does nothing but think, eat, breathe-product. He knows the valuable final products of the organization, he demands them. When he doesn't get them he investigates by data analysis, finds the why' debugs it, writes a program. (ESTO -1, 7203CO1 SO 1) 4. the Executive Director has products 1, 2, 3, and 4 (Org Series 10). He is basically when you get it out into a triangular system, the Planning Officer. And he is the fellow that the Product Officer and the Organizing Officer meet with in order to plan up what they're going to do and then the basic team action which occurs, occurs after a planning action of this particular character. Where you have the Product Officer who is also the Executive Director, he is also the Planning Officer. He's double hatted. (FEBC 12, 7102CO3 SO 11) 5. the CO or ED of an org is responsible for managing the org and keeping it going. (LRH ED 153RE INT) 6. there is only one Exec Director, LRH, and he is Exec Dir for WW and for each org. There are no assistant or deputy Executive Directors. (Orders issued for the Exec Dir must be approved by the LRH Communicator as not against policy and by HCO Personnel when personnel is appointed). (HCO PL 13 Mar 66) 7. the bulk of the job of the Executive Director is getting existing policy applied and detecting where it isn't being applied,

forecasting slumps, repairing emergencies and keeping orgs on the increase, and all in such a way as to not add further upset to the mess. The **Executive Director** hat does not conflict with the International Org Supervisor hat as the latter is only a portion of the sphere of responsibility of the former. The Executive Director deals mainly with Org/Assn Sees, HCO Sees and the Int Org Supervisor reaches much deeper into orgs. (HCO PL 22 Feb 65 111) 8. oversees all HCO Secretaries, Organization Secretaries and Association Secretaries and all Managers. Appoints all executive personnel in all organizations and these may be removed only by the Executive Director or with his concurrence. (HCO PL 18 Dec 64, *Saint Hill Org Board*) 9. the person in-charge of all Scn organizations including Saint Hill. (HCO PL 26 Jun 64) *Abbr.* ED.

**EXECUTIVE DIRECTOR ORG BOARD**, an org needs a fully trained Executive Director who uses HCO to run the org. We have a new **org board** called the **Executive Director Org Board** which is different only in that HCO is used as the senior division to run the org. HCO is simply drawn two or three inches higher than the rest of the divisions and the Executive Director keeps it manned and doing its job. (LRH ED 129 INT)

**EXECUTIVE DIVISION**, 1. upon the Executive Division depends the management and coordination of the entire org. Without leaders who know and effectively apply LRH policy and technology, the whole org will rapidly diminish to a state of total confusion. The Executive Division, under the guidance of LRH sets the direction and pace of the org. The alignment of actions and intentions, coordinated as a whole, brings about the continued prosperity and well-being of the org and its staff. (OEC Vol. VII, p. 1) 2. the Executive Division becomes **Division 9** instead of 7. (Nine Division Org). (HCO PL 26 Oct 68) 3. it is

there to get tech in and keep it in, get policy followed and not used to stop growth, keep the group solvent and functioning and the admin and org pattern correct. If it doesn't do these things then it isn't doing its job. (HCO PL 1 Mar 66 11) 4. the **Executive Division is Division 7**. The LRH Communicator is in charge of the division. It consists of three departments. The first department is the Office of LRH, Department 21. It is in charge of the LRH Personal Secretary. The second department is the Office of the HCO Executive Secretary, Department 20. It is in the charge of the HCO Exec Sec Coordinator. The third department is the Office of the Organization Executive Secretary, Department 19. It is in the charge of the Org Exec Sec Coordinator. (HCO PL 2 Aug 65) *Abbr.* Exec Div.

**EXECUTIVE ENTURBULENCE**, a type of dev-t. An executive is seldom hit unless he has had non-compliance on his lines. He is almost never hit if he polices dev-t. When an executive is hit by a catastrophe, he should handle it and at once check up on dev-t and handle it. I keep a daily log of dev-t and who and what every time I find my lines heavy or there is a threatened catastrophe. Then I handle the majority offenders. (HCO PL 27 Jan 69)

**EXECUTIVE ESTABLISHMENT OFFICER**, 1. the one who puts the org there to be run. He does this by having Establishment Officers establishing the divisions, org staff and the materiel of the division. He is like a coach using athletes to win games. He sends them in and they put their divisions there and maintain them. They also put there somebody to work them. (HCO PL 7 Mar 72) 2. the Product Officer of Estos. He produces Esto hours of establishment and an org and ship by using Estos in each division. (OODs 9 Apr 72)

**EXECUTIVE ESTABLISHMENT OFFICER ORG OFFICER**, (Esto Org

Officer) the EEsto's deputy and handles his programs and the personal side of Estos. (HCO PL 7 Mar 72)

**EXECUTIVE ESTO MAA**, 1. the Executive Esto has a Master at Arms in a large org. The MAA musters the crew, conducts any exercises, does ethics investigations as needful especially by the Exec Esto and helps hat the Ethics Officers of the org. He does not replace these. He does other duties assigned. (HCO PL 7 Mar 72) 2. is responsible for the schedule and getting to work and exercise and activities of staff members. (HCO PL 6 Apr 72)

**EXECUTIVE ETHICS HEARING**, no one of the rank of director or above may be summoned for an Ethics Hearing, but only an **Executive Ethics Hearing**, presided over by a person superior in rank. It is convened by the Office of LRH via the HCO Exec Sec. The same rank in a senior org is a senior rank. (HCO PL 26 May 65 111)

**EXECUTIVE, JUNIOR**, person working under senior executives who is comparatively new to an organization, sometimes in training for higher level work.

**EXECUTIVE LETTER UNIT**, this unit consists of a knowledgeable person who can answer personal executive type mail, casual org mail and the public letters received by the HCO Exec Sec and Org Exec Sec. **EXECUTIVE MISBEHAVIOUR POLICY NO. 2**, any executive who engages in activities for which he could be blackmailed may not hold any executive post. (HCO PL 9 Feb 71)

**EXECUTIVE MISBEHAVIOUR POLICY NO. 3**, any person who places personal interests and situations above the interests of the group may not hold an executive post. (HCO PL 9 Feb 71)

**EXECUTIVE OFFICER'S MAST**, see CAPTAIN'S MAST.

Executive posts are defined as follows: in HASI: Assoc (or Org) Sec, PE Director, Director of Training, Director of Processing, Director of Enrollment, Chief Registrar (body), Letter Registrar, Director of Material, Director of Accounts, in HCO: HCO Continental Secretary, HCO Area Secretary. (HCO PL 16 Jun 64)

**EXECUTIVE QUALIFICATION CERTIFICATE**, I will qualify and issue a Qualification Certificate to any staff personnel who meets executive requirements regardless of whether they occupy an executive post or not. A person who does not actually hold an executive post but who wishes to receive an **Executive Qualification Certificate** must pass all requirements for that executive post and must receive as well a high mark on hat check of that post. (HCO PL 26 Feb 61)

**EXECUTIVE REPORT**, any report prepared for the use of top management.

**EXECUTIVE SEARCH CONSULTANT (OR HEAD -HUNTER)**, an outside professional recruiter or firm offering to clients the service of finding qualified individuals acti-

vely engaged in the field who may be open to an offer of new employment, to fill key positions in client organizations.

**EXECUTIVE SECRETARY**, 1. there are two **Executive Secretaries** at WW, two in Continental Exec Divisions, two in every other Exec Div. They are the HCO Exec Sec and the Org Exec Sec. They head the 3 HCO and the 4 Org divisions respectively. (HCO PL 13 Mar 66) 2. an expert in three divisions. (FEBC 3, 7101C18 SO II) *Abbr.* Exec Sec.

This title has the rank and privileges of a secretary in his own org and in a junior org to the one appointed, the privileges of an executive secretary. The purpose of the post is to communicate for the Executive Secretary and help with that official's purpose by communicating on matters and/or handling them relating to the type of division represented and to be responsible to the Executive Secretary for that type of division and to be responsible to the Executive Secretary for that gross divisional statistic. Only in the International Division or in an org having 250 staff members or more would this post be filled. (HCO PL 21 Jan 66) 2. all those persons now styled or titled Executive Secretary Communicators are changed as of date of receipt to Divisional Organizers. (HCO PL 1 Nov 66 I)

**EXECUTIVE TRAINING**, see TRAINING, EXECUTIVE.

**EXECUTOR**, 1. generally, a person who performs something or puts it into practice. 2. in law, a person appointed to execute the provisions of a will; also called an Administrator of an Estate.

sening of the amount of income one must pay taxes on. In many countries being married and having children as dependents qualifies one to make a specified deduction or exemption.

**EXISTING SCENE**, 1. the existing scene is what is really there. (HCO PL 7 Aug 72) 2. means the way things are here and now. It takes in the people or personnel, their current state, the lines, the hats, the buildings, equipment, and the state of them, the tech in use and current news. (FO 2779)

**EXPANDED DIANETICS**, 1. that branch of Dn. which uses Dn. in special ways for specific purposes. It is not HSDC Dn. Its position on the Grade Chart would be just above Class IV. Its proper number is Class IVA. It uses Dn. to change an Oxford Capacity Analysis (or an American Personality Analysis) and is run directly against these analysis graphs and the *Science of Survival Hubbard Chart of Human Evaluation*. **Expanded Dianetics** is not the same as Standard Dn. as it requires special training and advanced skills. The main difference between these two branches is that Standard Dn. is very general in application. Expanded Dn. is very specifically adjusted to the PC. Some PCs, particularly heavy drug cases, or who have been given injurious psychiatric treatment or who are physically disabled or who are chronically ill or who have had trouble running engrams (to name a few) require a specially adapted technology. (HCOB 15 Apr 72) 2. it takes November 1970 discoveries about insanity and puts the handling of the roughest cases and chronic illness into the hands of auditors who do not have to be trained for years. (OODs 15 Sept 72) 3. research has revealed an upper level strata of Dn. Out of the original Dn. project has emerged a new set of skills. These are in fact a sort of OT level handling of Dn. for special cases. (ED 149R Flag) *Abbr.* EX DN, XDN, EXP DN.

**EXPANDED DIANETICS AUDITOR**, certificate is Hubbard Graduate Dianetic Specialist (HGDS). The Expanded Dn. Course teaches about Expanded Dn. Processes taught are Expanded Dn. basics, EX DN set-ups, R3R of intentions and purposes, assessments and R3R to handle the present environment, past auditing, valences, emotional stress, chronic somatics, wants handled, hidden standards, responsibility, metalosis RD, PTS RD, assists and repairs and C/Sing on EX DN against the OCA. End result is an ability to **audit** others to **Expanded Dn** case completion. (CG&AC 75)

**EXPANDED DIANETICS CASE SUPERVISOR**, (EXDN C/S) does only EX Dn. He can C/S the set-up actions for Ex Dn if needed, but he is the EX Dn specialist. (HCO PL 26 Sept 74)

**EXPANDED DIANETICS C/S COURSE**, this is a specialist course specifically in the C/Sing tech of Expanded Dn. **Expanded Dianetics C/S** status is awarded as a provisional status until the SHSBC has been completed at an SH Org. The prerequisite is the EX Dn course, Dn and Class IV or VI C/S courses. (BPL 26 Apr 73R I)

**EXPANDED DIANETIC SPECIALIST**, an HGDS (Hubbard Graduate **Dianetic Specialist**). (HCOB 15 Apr 72)

**EXPANDED GF 40 RB**, HCO Bulletin 30 June 1971R, *Expanded GF40RB*. Called GF 40X. This is the "7 resistive type cases" at the end of the Green Form expanded out. This is how you get those 11 earlier practices" and other case stoppers. This done well gives a lot of extensive work in Dn. It's lengthy but really pays off. (LRH ED 257 INT)

**EXPANDED LOWER GRADES**, the **lower grades** harmonic into the OT levels. They can be run again with full 1950-1960 to 1970 processes as given on the SH Courses all through the 1960s. These are now regrouped and sorted out and are called Ex-

panded Lower Grades. Only this route will now be sold. There are no Dn or Scn single-triple or "Quickie Lower Grades" any more. (LRH ED 101 INT)

**EXPANDED NON-EXISTENCE FORMULA**, the **expanded non-existence formula** is: (1) find and get yourself on every comm line you will need in order to give and obtain information relating to your duties and material. (2) make yourself known, along with your post title and duties, to every terminal you will need for the obtaining of information and the giving of data. (3) discover from your seniors and fellow staff members and any public your duties may require you to contact, what is needed and wanted from each. (4) do, produce and present what each needs and wants that is in conformation with policy. (5) maintain your comm lines that you have and expand them to obtain other information you now find you need on a routine basis. (6) maintain your origination lines to inform others what you are doing exactly, but only those who actually need the information. (7) streamline what you are doing, producing and presenting so that it is more closely what is really needed and wanted. (8) with full information being given and received concerning your products, do, produce and present a greatly improved product routinely on your post. (HCO PL 8 Nov 75)

**EXPANSION**, 1. an increase in living. To increase living and raise tone and heighten activity one need only apply the **expansion formula** to living. Clean away the barriers, non-compliance and distractions from the basic purpose and reduce opposition and the individual or group or org will seem more alive and indeed will be more alive. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*) 2 product increase. (HCO PL 20 Oct 67, *Admin Know-How-Conditions, How to Assign*) 3. **expansion** which when **expanded** can hold

its territory without effort is proper and correct **expansion**. (HCO PL 4 Dec 66)

**EXPANSION FORMULA**, 1. direct a channel toward attainment, put something on it, remove distractions, barriers, non-compliance and opposition. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*) 2. (a) provide good policy. (b) make it easily knowable. (3) be strenuous in making sure it is followed. This is the most broad possible **formula for expansion**. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*)

**EXPANSION NEWSLETTER**, the **Expansion Newsletter** issued by Flag Dissem Bureau (PR&C) every other week. It can be issued on special occasions as a special edition. The public of the newsletter is org staffs. The newsletter concerns activities relating directly to staff, orgs, tech and Scn **expansion** and current programs being pushed. (CBO 391R)

**EXPEDITERS**, 1. there should be some people down there in HCO and they're in Department 1 and they're called **expediters**. They're farmed out gradually to get backlogs off the line. You keep a very careful record of them, they don't go on the org board and they don't become members of divisions except HCO Dept 1 Expediter. They just handle overloads. Now they're gradually becoming familiar with the ship and they're getting through AB Checksheets. Gradually these guys form a personnel pool. (6912C13 SO) 2. people assigned to Dept 1 as **expediters** to handle work backlogs in other divisions. They may not be given posts. They are only used to clear backlogs of work seen in comm and area inspections. When given a post it is by Captain's approval or transfer. They are no longer **expediters**. (FO 1008)

**EXPEDITERS**, persons, often termed troubleshooters, sent in to an area to free up organizational lines, unjam production bottlenecks, ensure the on schedule delivery of finished materials, etc.

**EXPEDITER UNIT**, HCO Division, Dept. 1. Expediter Unit fills in temporarily in spots of overload to expedite the backlog and get flows moving. (HCO PL 25 Jan 66)

**EXPEDITING**, actions used to facilitate the rapid and efficient dispatch of communications, orders, production schedules, etc., a term that implies, additionally, follow-up.

**EXPENDITURE**, the org buys a truck for -f 500. After a year, that truck could not be resold for -f 500 because it has been used and is now second-hand. Say that the org could now resell the truck for f300-this shows that the value of the truck has gone down by k 200 because of the passage of time. The amount by which the value of the

truck has gone down is an expenditure because that amount of value has been used up during the year (HCO PL 10 Oct 70 I)

**EXPENDITURE**, 1. generally, any cost or outlay of cash charged against a company's revenue. 2. the payment of cash, the acquisition of a liability or the transfer of property brought about by purchasing an asset or service. 3. any cost the realization of which extends beyond the current accounting period.

**EXPERIENCE**, **experience** comes from working in similar or parallel situations. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*)

**EXPERTISE DRILLS**, these drills are numbered as **Expertise Drill-1 (ED-1)**, **Expertise Drill-2 (ED-2)**, etc., and run consecutively throughout the series. The odd numbered **drills** are unbullbaited. The even numbered **drills** are bullbaited. Their purpose is to improve the quality of auditing by familiarizing auditors with the exact procedure of each auditing action through the use of **drills**. (BTB 15 Dec 74)

**EXPLOSION**, order put in too suddenly always discharges disorder too fast. That's an explosion. You don't want that. (HCOB 6 Jan 59)

**EXTENSION COURSE**, an Extension Course Section consists of a textbook and a series of lessons done on a glued-top tablet, one sheet per lesson, eight questions or exercises per lesson. The questions concern only vital definitions needed for a knowledge of the subject and examples of the use and meaning. The Extension Course should give the taker a passing knowledge of Dn and Scn terminology, phenomena, and parts. This is its goal and purpose. The reasoning or examples in a text are considered secondary, for the purposes of the course, to precision definitions. The Extension Course student should finish the course with the feeling he is dealing with a precision science, composed of identifiable parts. (HCOB 16 Dec 58)

**EXTERIORIZATION INTENSIVE**, many people have gone **exterior** and have been audited past it. This made some uncomfortable. A new technical development makes it possible to continue to audit them. A lower level "Thetan Exterior" is not yet Clear unless he has taken the Clearing Course. For the above it is necessary to have an **Exteriorization Intensive** before they can be audited further. Some people audited past **exterior** without an **Exteriorization Intensive** develop somatics. (LRH ED 101 INT)

**EXTERNAL COMM BUREAU**, 1. has the traffic out-going, has the missionary out-going, has all of that out-going and everything that's in-coming, and that's its pro-

duction. The end product of that is management. (FEBC 1, 7011C17 SO) 2. FOLO External Comm Bureau receives and relays all Flag mail, freight, telexes, bodies and logistics to and from Flag, keeps accurate record of particles relayed, searches for and gathers all data from the entire FOLO that should be going to Flag and sends it to Flag (especially from the FOLO Data and Flag Programs Bureaux), maintains Flag security and sends without fail a copy of FOLO telex masters-no exceptions. (CBO 192)

**EXTERNAL COMMUNICATIONS**, external communications mean anything which goes on an external line to other HCOs through Continental, through Worldwide. (HCO PL 29 Jan 59)

**EXTERNAL HCO BRANCH**, 1. (in Establishment Bureau 1) the **External HCO Branch** (3) recruits experienced org personnel for FB and evaluator echelon. It does this through FOLO Bureau 1's. It used FPPO lines to get personnel eligible for and sent to Flag. (FPPO functions do not change) (FO 3591) 2. Branch 11D, Flag Management Bureau) Ext HCO has been made a network. **EXTERNAL HCO BUREAUX**, 1. the command line from **External HCO** Flag and **External HCO** FOLOs to orgs runs via the Flag Management Bureau. There is no other command channel. The functions of External HCO are quite different than those in HCOs of orgs, and serve to augment and back up activities already underway in orgs, as well as to serve in the direction and establishment of the international growth of Scn. External HCO Flag has the final say on all HCO matters. External HCO duties are: (1) to ensure adequate recruitment and hiring in Sea Org and Scn orgs, and that all newly recruited and hired personnel are properly

routed and trained prior to posting as well as after. (2) to ensure that all orgs post their personnel correctly, and that proper org form and complements are used to achieve maximum production, in the orgs. (3) to ensure the administrative upkeep of personnel files in all organizations, and the upkeep of the Central Personnel Office files, where records of every staff member of every org and operation past and present are kept. (4) the training of personnel for future expansion programs, and their placement. (5) to ensure that communications in the form of issues are produced in abundance, so that management can occur and knowledge can be exported and thereby used. (6) to ensure that justice and ethics procedures are followed. Also that the rights of individuals are protected, and that adequate correct justice or ethics is applied for maximum production to occur. (BPL 13 Aug 73R 11) 2. External HCO is established in the Flag Bureaux. It is Bureau 1. It comprises three branches: (1) Personnel Branch, (2) Mimeo Branch, (3) International Justice Branch. The head of the External HCO Bureau is the External HCO Chief. He has FB Aide status but is called "Chief" so as not to confuse the post with the staff post of CS-1. (FO 3313)

**EXTERNAL HCO NETWORK**, a new **network** formed with the purpose of putting functioning HCOs into all SO and Scn orgs. This is the **External HCO Network**. The network command line is from CS-1 to CO FB to External HCO Aide on Flag, to External HCO Chiefs in FOLOs to HASes in orgs. (FBDL 504)

**EXTERNAL LINES**, there are two types of lines. They are internal and external. Anything inside a Central Organization is internal. Anything flying about amongst HCO Offices only is external. (HCO PL 2 Jan 59)

**EXTERNAL ORG**, the Flag Bureau is the **external org** taking care of the International

and SO orgs over the world and planetary actions. (FSO 562)

**EXTERNAL PURCHASE ORDER**, all orders from Flag to CLOs for supplies are conveyed on a standard External Purchase Order originated by the Logistics I/C on Flag. (FO 2611R)

**EXTRA DIVIDEND**, a dividend in the form of cash or stock paid in addition to the regular company dividends.

**EXTRAORDINARY LOCATIONS**, locations which are not served by airmail, telex, or telegraph are considered extraordinary locations and stale date occurs only when reasonable expectancy is exceeded. (HCO PL 17 Jul 66)

**EXTRAPOLATION**, 1. generally, the method of estimating unknown data by extending or projecting known data. 2. in statistics, the process of extending a trend line, based on known information.

**EXTREME CONDITIONS**, meaning very high upsurges and low falls. (LRH ED 121 INT)

**EXTREME CONDITIONS PACK**, the Data Bureau must not omit its extreme conditions actions. In this, when an org falters-stats go down, an **extreme conditions pack** is assembled from files. This contains stats, dispatches, Thursday reports, LRH Comm reports, anything files for the last 30 to 60 days prior to the decline point. (CBO 2)

**EXTREME CONDITIONS REPORT**, **reports** on all **conditions** of affluence and above, danger and below. (WO 3449R)

**EXTROVERSION**, it means nothing more than being able to look outward. A person who is capable of looking at the world around him and seeing it quite real and quite bright is of course in a state of **extroversion**. He can look out, in other words. He can also work. He can also see situations and handle

and control those things which he has to handle and control, and can stand by and watch those things which he does not have to control and be interested in them therefore. (POW, p. 92)

Extroversion

## F

**FACE TO FACE GROUPS**, see GROUPS, FACE TO FACE.

**FACE VALUE**, (or nominal value or par), the value of a stock or share at time of issue as given on the face of the stock certificate, rather than its present market value which may be more, the same or less than par.

**FACILITIES, facilities** normally include: (a) those that unburden lines. (b) those that speed lines. (c) those that gather data. (d) those that compile. (e) those that buy leisure. (f) those that defend. (g) those that extend longevity on the job. One can think of many things that do each of these. The bare minimum are accomplished by giving the executive a communicator. The communicator more or less covers all the categories above. (HCO PL 16 Nov 66)

**FACILITY DIFFERENTIAL**, when a senior executive has the ability to make money for the organization or greatly raise statistics and when this ability has been demonstrated, that executive should have **facilities**. This ability is often discoverable by the absence of the executive from post for a

**EXTROVERTED PERSONALITY**, one who is capable of looking around the environment. (POW, P. 92)

**EX URBAN**, test form heading to indicate the type the person is: ex **urban** (just in town to be tested). (HCO PL 28 Oct 60, *New Testing Promotion Section -Important*)

period or when the executive is pulled off by emergencies. In such a time the income of the org may sink. The degree the income shrinks is the **facility differential** of that executive. It is worth that much to the org in **facilities** to have the executive on post. Example: with that executive on duty-income \$8000 per week. With that executive absent-\$5000 per week. This is the **facility differential** of that executive. It is, in this example, \$3000 per week. This means that the org could afford \$3000 per week extreme to provide that executive with facilities for his work to keep him from overload. For it will lose \$3000 a week if this executive is distracted or overloaded. (HCO PL 16 Nov 66)

**FACILITY VISIT**, a term used in Public Relations to describe the technique of arranging for a group of journalists to visit a facility to gather information, take photographs and interview persons for a planned story which will usually result in good publicity.

**FACT**, something that can be proven to exist by visible evidence. (HCO PL 26 Apr 70R)

**FACT**, factor analysis chart technique.

**FACTOR**, an agent who sells goods on behalf of the owner for a commission. A factor usually handles the goods himself and the buyer is usually not aware of the real owner's name. Also known as a Commission Agent.

**FACTOR ANALYSIS**, see ANALYSIS, FACTOR.

**FACTOR ANALYSIS CHART TECHNIQUE**, job analysis done by establishing a point system for the main tasks of various management positions within specified salary ranges to determine their relative value to the organization. *Abbr.* FACT.

**FACTORING**, 1. the buying of accounts receivable, bills, etc., for the purpose of collecting them for oneself. 2. conducting business as a factor.

**FACTORY**, a building or group of buildings which contain the machinery, tools and equipment necessary for employees to produce specific goods.

**FACTORY COSTS**, see COSTS, FACTORY.

**FACTUAL**, true and valid. (HCO PL 3 Oct 74)

**FACULTY MEETING**, the weekly **meeting** of all instructors, held on Friday, where course reports are made and questions answered. Reviews the general state of the course with an eye to any needed improvements. Sends report to Org Sec. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**FAILED HELP**, where an org is having difficulty giving service its help buttons are out. It's on a **failed help**. That's why you must train auditors well, so they won't **fail to help**. The guy fails on enough pcs he stops auditing. (ESTO 12, 7203CO6 Soil)

**FAILED MISSIONS**, missions sent in violation of Mission School Fos most often **fail**. Things like only one missionary, no MOs, no proper briefing, etc. (CBO 25)

**FAILURE TO COMPLETE A CYCLE OF ACTION AND REFERRAL**, one of your most fruitful sources of dev-t is your own double work. You pick up a despatch or a piece of work, look it over and then put it aside to do later, then later you pick it up and read it again and only then do you do it. This of course doubles your traffic just like that. If you do every piece of work that comes your way when it comes your way and not after awhile, if you always take the initiative and take action, not refer it, you never get any traffic back unless you've got a psycho on the other end. You can keep a comm line in endless ferment by pretending that the easiest way not to work is to not handle things or to refer things. Everything you don't handle comes back and bites. Everything you refer has to be done when it comes back to you. Complete the action; do it now. (BPL 30 Jan 69)

**FAILURE TO RECORD AN ORDER**, failing to make an adequate record of an order given, losing or misplacing the order can result in endless dev-t. The original orders being lost or not recorded at all, wrong items are purchased, incorrect actions are taken, cross orders are given, and a tremendous waste of executive time and money occurs straightening the matter out. (BPL 30 Jan 69)

**FAILURE TO TERMINATEDLY HANDLE, REFERRAL**, the only tremendous error an organization makes, next to inspection before the fact, is **failing to terminatedly handle** situations rapidly. The fault of an organization's "waffle, waffle, waffle, Joe won't take responsibility for it, it's got to go someplace else," and all that sort of thing, is that it continues a situation. What you should specialize in is terminating the end of

a situation, not refer it to someone else. Complete the action now. (BPL 30 Jan 69)

**FAILURE TO WEAR YOUR HAT**, a person on one post not doing that post but doing every other post creates endless dev-t, all dispatches and origins being off-origin and he covering the hole of his own post. The person himself is the dev-t. (BPL 30 Jan 69)

**FAIR COPY**, (Mimeo files) a **fair copy** is very valuable to files. This means a flawless copy that will respond to electro stencil cutting. Where a stencil gets torn or does not exist one uses the **fair copy**. It is nothing to pull two staples, cut the electro stencils needed and restore the fair copy to the folder, stapling it back on. (HCO PL 7 Feb 73 111)

**FAIR GAME**, by **fair game** is meant, may not be further protected by the codes and disciplines of Sen or the rights of a Scientologist. (HCO PL 23 Dec 65)

**FALL ON HIS HEAD**, Slang. this refers to the fact of a person failing in one area or another. A pc **falls on his head** when he has been improperly audited or attests to grades or actions he has not really attained and then is continued on higher actions or levels of auditing. An administrator **falls on his head** by failing to handle situations and apply correct policy to an area he is responsible for thereby causing the area and himself to fail. A US Western term meaning a person who has erred and fallen from grace such as a horseman who is bucked off a horse. (LRH Def. Notes)

**FALSE**, contrary to fact or truth; without grounds; incorrect. Without meaning or sincerity; deceiving. Not keeping faith. Treacherous. Resembling and being identified as a similar or related entity. (HCO PL 3 May 72)

**FALSE ATTESTATION**, **false attestations** are death and dynamite. These come in when an instructor or auditor, D of T or D of

P or Board of Review signs a request for class or grade. This request infers and therefore "attests" that the student or PC is qualified for the class or grade. If at some later date (barring amnesty intervention) the student or pc is shown to be incompetent in that class or grade, HCO should at once unearth the original class or grade request and call a Committee of Evidence on whoever signed it since it was a **false attestation** of competence for auditors or state of case for pcs. (HCO PL 2 Apr 65,)

**FALSE ATTESTATION REPORT**, staff member report of any false attestation noted, but in this case the document is attached to the **report**. (HCO PL 1 May 65)

**FALSE COMPLIANCE**, **false compliances** come about because a staff member under threat and duress (or not doing his post) seeks to protect himself by false reporting that something has been done when it hasn't. He entirely overlooks the fact that a false report will really bring the house down on him. (HCO PL 8 Jan 75)

**FALSE DONES**, false reports that a target has been done when it has not been touched or has been half done at best. (HCO PL 14 Dec 73)

**FALSEHOOD**, when you hear two facts that are contrary, one is a **falsehood** or both are. A false anything qualifies for this out-point. A false being, terminal, act, intention, anything that seeks to be what it isn't is a **falsehood** and an out-point. So the **falsehood** means, "other than it appears," or "other than represented." (HCO PL 19 Sept 70 111)

**FALSE PERCEPTION**, one sees things that don't exist and reports them as "fact." (HCO PL 24 Feb 69)

**FALSE REPORT REPORT**, staff member report of any report received that turned out to be false. (HCO PL 1 May 65)

**FALSE REPORTS**, a type of dev-t where a report that is false can cause greatly increased useless action including at times Board of Investigation, dispatches verifying it, etc. (HCO PL 27 Jan 69)

**FALSE TA CHECKLIST**, HCO Bulletin 29 February 1972R, *False TA Checklist*. This was a very important discovery about TAs. One uses this when another list indicates a false TA or one is suspected. (LRH ED 257 INT)

**FAMILY DAY**, is established as the first Sunday of June each year. The purpose of **Family Day** is to bring young Sea Org members and children of Sea Org parents even closer to their parents (or where their parents are not in the area, their guardians or minor's mates). (FO 3307)

**FAMILY GROUPS**, see GROUPS, FAMILY.

**FAO EDs, (Flag Admin Org) FAO EDs** will be blue ink on blue paper and will be drawn up in the form of plans by the FAO Product Officer. **FAO EDs** will be issued to all on the Flagship only. (ED 1 FAO)

**FAST FLOW**, 1. **fast flow** means the student attests his theory or practical class when he believes he has covered the materials and can do it. There is no examination. (LRH ED 2 INT) 2. built into our org pattern is the principle of fast flow. We move slow or troublesome particles off the assembly line and into special slots. We let the main traffic flow untroubled by checks designed to restrain the very few. (HCO PL 7 Jun 65)

**FAST FLOW REGISTRATION**, a registrar to apply **fast flow registration** simply signs people up and takes their money regardless of who they are or what they are. That a person might be a troublesome source or whatever, is of no concern to a reg. Such a person would be handled as necessary by Qual or Ethics, but after he's been

signed up, invoiced in and routed onto service. (BPL 5 Aug 72)

**FAST FLOW SYSTEM OF MANAGEMENT**, 1. **the fast flow system of management** is *don't inspect till it goes wrong*. The trouble with every organization since the beginning of time has been that when it was right they inspected it. All they did was hold it up and hold it up. Everytime you get something inspected that hasn't been found wrong you're going to get some kind of a slowdown. When something is found to be wrong swoop down on it from the executive, secretarial and every other level inspect it, cross inspect it, scream, shoot, execute and so forth, after it has been found to be wrong. Then act, don't fail to act at that point. But just let it run up to that point. (SH Spec 77, 6608C23) 2. this is the principle of traffic flows we now use. It is called the **fast flow system of management**. A being controlling a traffic or activity flow should let the flow run until it is to be reinforced or indicates a turbulence will occur and only then inspects the part of the flow that is to be reinforced or is becoming enturbulated and inspects and acts on only that one flow. (HCO PL 29 Mar 65 II)

**FAST STUDENT**, the fast student is not concerned with necessities to maintain status by asserting how much he or she already knows. The **fast student** is only interested in knowing what he does not know, **studying** it and then knowing that he knows it. (HCO PL 11 Jun 65)

**FATIGUE, MENTAL**, an introverted condition characterized by lack of motivation or interest in the work, increasing difficulty in mental performance, etc. This is usually the result of continued mental activity such as reading, thinking, evaluation, making critical decisions, etc., without any actions taken to extrovert one's attention such as taking a walk or physical exercise.

**FATIGUE, PHYSICAL**, a decrease in muscle coordination or motor response due to continued or excessive physical stress without enough in-between rest or rejuvenation to restore one's stamina.

(2) total amount of advance payments used must be in normal or above by 6 week trend. (3) delivery stats of paid comps, student points and well done auditing hours are all in normal or above by 6 week trends. (4) Public Reg paid starts stat in normal or above by 6 week trend. (FSO 820-1R)

(CBO 376) 2. (Branch 11B Flag Management Bu) It is headed by FBO Int I/C. The FBO Network is operated from here as before with the only difference being

that orders go through the FR Network Coordination and Priorities Setting Section. (FBDL 488R)

**FBO BRANCH FOLO, FBO Branch** in the Management Bureau at a **FOLO** creates, runs and establishes the FBO Network (Cont'l) by recruiting qualified in-ethics personnel, training, apprenticing and posting them with Flag approval in all orgs. **FEATURE NEWS STORY**, 1. the definition given in Webster's New Collegiate Dictionary for "feature" is "a distinctive article,

story or special department in a newspaper or magazine; something offered to the public or advertised as particularly attractive; a prominent part or characteristic." News means "a report of recent events." Story means "an account of incidents or events; a news article." (BPL 24 Nov 68 1) 2. type of article other than straight news usually included in a newspaper. Unlike hard news a feature is not based on an event. "Astronaut wins award" would be the subject of a regular news story whereas an in-depth story on the subject of space travel or the work and background of a certain astronaut would be a feature. (BPL 10 Jan 73R)

Of course groups and especially franchises have their own services to sell but it is a foremost duty to also sell for the org. FSMs are awarded by a commission system on the sales they make for the org. It is operated just like any other groups of professional salesmen. They use big league closing techniques in contacting people, closing sales for the org (selecting), prospecting at every close and in turn developing those prospects. FSM newsletters, Auditors Assn, goodwill assisting, hatting and drilling FSMs, product officering sales are all part of making well-paid FSMs. Setting up and making active many, many groups is a key expansion action of Sen and another vital part of **field activities**. We give him the label of **field auditor** and that means he's running a little office of his own; therefore we would handle him quite differently than we would handle somebody who just got trained and who went out and is flopping, you see. (HCOB 6 Apr 57)

**FIELD AUDITOR CONSULTANT**, the post of **Field Auditor Consultant** is created and may be filled by the old Group Secretary where this post has been filled. (LRH ED 49 INT) *Abbr.* Field Exp Sec.

(HCO PL 9 May 65, *Field Auditors Become Staff*) 3. FSMs get people into Scn by disseminating to bring about an understanding of what Scn can do thus creating a desire for service, and selecting the person for that service. (BPL 15 Jun 73R I) *Abbr.* FSM.

**FIELD STAFF MEMBER**

**COMMISSION**, 1. the official Scn organization to which the **Field Staff Member** is attached will pay the **Field Staff Member** a percentage of all training and processing fees received by that organization through its Field Staff Members. The **Field Staff Member** selects the person to be trained or processed after direct personal contact with the person and issues to that person a paper stating the contacted person has been selected. This paper bears the hour, date and place of the selection. If the selectee appears at the org, presents the selection paper to the cashier and enrolls for training or processing, and pays or signs the credit papers, the org sends at once a **commission** of 10% for total cash and 6 % for credit + cash payments. The org sends the sum at once. 10% is also paid in memberships bought by the selectee if accompanied by another selection paper marked membership also issued by the Field Staff Member. (HCO PL 9 May 65, *Field Auditors Become Staff*) 2. FSM percentages are corrected and established as follows: 15% will be paid for any selectee routed on for auditor training, 10% will be paid for any selectee routed on the solo line. Such a system may arrange things in alphabetical, alphabetical by subject, numerical, chronological or geographical order or a combination of these such as alphabetical by geographical location, etc.

**FILLED FROM THE TOP DOWN**, the org board is always **filled from the top down**, that is to say, the most senior post is always **filled** first. If there are only a few people, then they hold the most senior posts and also do the work of each of the posts below them on the org board. A lower post is not filled while leaving a higher post vacant. The higher post is filled and the lower

post or posts held from above. As new people join the group, the lower posts can be turned over to them and filled. (BPL 4 Jul 69R V)

**FILTER SYSTEM**, a filter system exists on Flag to ensure that all orders into an org or area are fully coordinated. The personnel who act as filters in this system are the Assistant Flag Reps in Branch 12A of the Management Bu. It is their job to filter out any uncoordinated, unevaluated or unnecessary programs, projects, orders or advices going to their orgs in their continental areas. They ensure that everything travelling down the single command channel is in harmony and dovetails with org's current Flag program and activities. (CBO 278RA)

**FINAL ACCOUNTS**, the **final accounts** of an org are financial statements made out at the end of (usually) a year. There are two main statements: (1) income and expenditure account. **FINANCE BANKING OFFICER**, 1. the Finance Office is an autonomous Office

(similar to the Guardian's Office). It has representatives in every Bureaux and every Continental Liaison Office and every org, SO and Scn. It is located on the org board in the Office of LRH. Its representative is called the **Finance Banking Officer (FBO)**. The **FBO** verifies and collects all income received by the org from the cashier or Income Dept, Div III, Treasury Division. This is done daily. The FBO immediately banks this money in a **Finance Office** account or in his safe, making express and useful records of this action. When the org or activity has undertaken its financial planning (FP), the FBO on his own discretion then transfers to that org's Main Account the needed funds. This is the allocation. The solvency of the orgs and areas is the responsibility of the FBO. The FBO statistics consist of cash paid in to management central reserves and the allocation -production ratio of each org and of the area. (HCO PL 29 Jan 71) [BPL 10 Nov 73R reintroduces the term Flag Banking Officer instead of Finance Banking Officer.] 2. an org with an FBO makes more money and has a better paid staff and makes it more worthwhile for Flag to manage it than any org ever would without an FBO. The purposes of the FBO are (1) to make the org make more money. (2) to give the org a well paid staff. (3) to make it very worthwhile for Flag to manage and help it. An FBO must know how to make money. An FBO must know how an org makes money and keeps its reputation with excellent delivery. An FBO must know the policy expertise used in making money (HCO PL 23 Sept 71) 3. it is a duty of the FBO to safeguard incoming monies and to ensure that all income is properly and legibly invoiced by the org and that the exact same amount is collected and receipted and **banked** by himself each day. They have no other distribution unless designated to Flag Aides for info. Any **Finance Directive** issued locally by FBOs is only after specific approval of CS-3 and is subject to cancellation or alteration by CS-3. **Finance Directives** have continuous validity and do not retire unless specifically cancelled. Flag **Finance** Office is located in Dept 19 of Bureau 7. It is separate and distinct from Treasury Bureau 3. **Finance Directives** do not directly apply to Treasury Divisions unless otherwise stated on the Directive. advice which in any way establishes policy, alters policy or cancels policy as only a policy letter properly authorized and issued on lines may do such. All such orders and all **Finance Directives** are now cancelled. Only properly issued policy letters are to be followed in **finance** matters and any order, **Finance Directive** or advice given must only re-enforce existing policy. (HCO PL 16 Mar 72 III)

**FINANCE FLAG**, **Finance Flag** is established in Division 3, Department 8. It is responsible for all legal **financial** matters. **FINANCE OFFICE**, the **Finance** Network of FBOs and **Finance Offices** operates as a single network in the Flag Bureau Org and in coordination with the other networks established in the Flag Management Bu. (In addition to the GO Network of AGFs). The FBO network is autonomous. By this is meant that it is not subject to local authorities and receives its orders from senior network personnel at Flag. Its actions are **financial** management and the solvency, viability and return to SO reserves from orgs and areas. Finance is not the Treasury Bu III network but forms liaison with it to forward the actions of both **Finance** and Treasury at org level and the orders and actions of **Finance** are binding on Div 3s and Bureau IIIs where needful. The org board location of the **Finance Office** for posting purposes is in Div 7, Dept 19 of orgs, FOLOs and at Flag. The direct management office of the FBO Network (FBO Int Branch at Flag) is located in Bureau 4, Branch 11B of the Flag Bureau Org. (HCO PL 29 Jan 71) 3. an autonomous network situated in Bureau 7, Branch 19 at Flag and in FOLOs, and in Dept 19 in orgs. (CBO 357) *Abbr.* FO.

**FINANCE OFFICE NO. 1 ACCOUNT**, 1. all income is banked into the FO No. 1 Account and all counter checks and bounced checks are handled by this account. A bounced check float is kept in the **FO No. 1 Account** as a cushion against bounced checks. The following amounts are transferred from the **FO No. 1 Account** each week: (1) 5% of the CGI to Main Account for payment to WW by Division 3. (2) 5% of the CGI to (org name) local GO Account. (3) 10% of the CGI to the GO Reserve Account (defense). (4) any support to other orgs such as FOLO or Estates. (5) the payment of the overdue management bills. **FINANCIAL ACCOUNTING**, the accounting for income, expenses, assets and liabilities of an organization resulting in profit and loss statements and a summary of investments made over a given period for use by management and in reports made to stockholders.

**FINANCIAL MANAGEMENT**, 1. as in my experience an organization always spends all it makes, **financial management** on an international level consists not of carefully balancing income above outgo in an effort to save a surplus in an organization, but of (a) preventing an org from spending more than it makes and (b) setting aside enough money from its income to care for salvage operations and salvage expenses. (HCO PL 18 Jan 65) 2. **financial management** is ordinarily done by the Association Secretary, the Organization Secretary or the Treasurer and possibly, in some cases, the Director of Accounts, but is always under the direct responsibility of the Association Secretary no matter who wears the hat. It is the purpose of the hat to ensure solvency of the organization and its divisions. The basic principle of financial management is a simple one. Income must be greater than outgo. (HCO PL 3 Jun 59) 3. purpose: make certain the organization makes money and continues in good credit. Hat worn by: the Association Secretary and by his deputation, the Director of Administration. Policy comes from Association Secretary. Execution comes from Director of Administration. **Financial management** guarantees solvency. It does not concern itself with accuracy of bills, payments or collection. This is the job of the Treasurer and by deputation, the Disbursement Clerk. The cost of an item must be less than selling price. All pertinent items to cost no matter how remote are part of the cost. Using this rule, **financial management** prices items. He adds to cost all profit that

can be made and still make the item sell. He publishes, then, an item's "price." That the price of an item is collected is the business of the Treasurer who issues proper orders concerning it. **Financial management** must now establish cost and price of all items sold. And must adjust, for organization credit, what bills must be paid in concert with how much money there is to pay them. (HCO PL 15 May 70 II, *Financial Management*)

**FINANCIAL PLANNING**, 1. **the financial planning** hat is worn by the Advisory Council. Financial planning means-how to handle the money and assets of an org so as to maintain outgo below income. The actions of **financial planning** are as follows: (1) directing the payment of bills (as designated by the Advisory Council), (2) directing any necessary delay in the payment of certain bills, (3) handling finances in accordance with "dateline paying" as covered in an early policy letter, (4) setting limits on the purchase orders that may be signed, (5) preventing divisions or departments in emergency from buying any but essential promotional supplies or postage, (6) adjusting payrolls, (7) setting limits on pay, overtime or bonuses and all authorizations for pay overtime or bonuses, (8) fixing prices, (9) directing any transfer of funds, (10) deciding upon any large purchases, (11) authorizing the sale of any equipment or property, (12) passing upon prices offered for any equipment or property. Any matter affecting the financial health of the organization has to be passed upon or **planned** by the Advisory Council. (HCO PL 26 Nov 65R) 2. **financial planning** is how one uses the funds one has to keep things running well and make more income. (BPL 19 Mar 71) 3. is the way you lay out money sensibly within the limits of the money available in order to keep things going well and make more money. (FO 2480) 4. consists of what to spend money on per division and what

bills to pay according to dateline paying. (HCO PL 19 Oct 67 I) . the basic purpose of all **financial** M.1-5 is to increase the wealth and assets and value of assets of the company and the general well-being and security of all its members and so contribute to the purposes and activities. (FO 2057) 6. in essence is the sensible allocation of funds on necessities. (FO 2480) 7. 9 of future expenses. (FSO 771) *Abbr. FP.*

**FINANCIAL PLANNING DIRECTIVE OF THE MONTH**, the **Financial P1 Directive of the month** is issued promptly after the second Tuesday meeting of the month as an Exec Division Admin Letter with the month and financial planning on it in caps such as FINANCIAL PLANNING FOR MARCH. Long-range planning also appears on this directive, this long-range **financial annmg** is not binding and is often changed in view of current happenings. It is a guide by which other executives can tentatively plan. (HCO PL 26 Nov 65R)

**FINANCIAL PLANNING PROGRAM NO. 1**, **1. program** for carefully **planned financial** handling to result in an organization which is not only solvent, but expanding on a sound gradient scale. To do this an organization has to first of all assess the following: (1) how many basic staff members are required to run and handle the organization? (2) how much is required for the basic organizational needs to merely keep the organization there? (3) how much is required for basic promotional actions? (4) how much does it cost weekly to keep in your basic communication lines? After carefully figuring out your weekly costs, you now know exactly how much income you will require weekly in order to exist and to promote. If you do not make this amount of income weekly, you will know at once that you are spending more than you are making, at which point everything must be done to sell more services to your public. (LRH ED 55 INT) 2. survival of an org depends on sol-

veny. Solvency depends on making more than it spends. This **Financial Planning Program No. 1** ED is a clever one actually written by MSH. She said, "If they will just do this ED they will become solvent." It's true. It is very important to staffs that **financial planning** be done well as if it isn't, it threatens their pay as well as the org's survival. (LRH ED 78 INT)

**FINANCIAL REPORTS**, the purpose of regular **financial reports** is to (1) summarize original records. (2) provide executives with data for planning. (3) show that all monies issued for disbursement are accounted for. (FO 1510)

**FINANCIAL STATEMENT**, a presentation of financial data about the current state and operation of a business. Usually it states profits and losses and includes a balance sheet which shows assets, liabilities, and net worth for a certain time period.

**FINANCIAL YEAR**, the 12 month time period which a company chooses as its accounting year; fiscal year.

**FINDINGS**, the full report of the committee (Committee of Evidence) accompanied by a tape recording of the evidence given and a full recommendation to the Convening Authority for his action. The **findings** is a document which gives a fast summary of the hearings, their result and a complete recommendation. It must be so written that it may be published without alteration by the Convening Authority. The summary states who appears to be at fault and who does not and why. The recommendation tells the Convening Authority exactly what disciplinary action should be taken and how, including any plea for leniency or insistence upon full penalty. (HCO PL 7 Sept 63)

**FINISHED GOODS**, these are completely manufactured or produced goods in final form ready for the consumer.

**FINK**, 1. a professional or habitual strikebreaker; one who works in an area where the workers are striking. 2. an informer; especially one who informs on union activities.

**FIRE DRELL**, 1. the best **fire drill** consists of every member of a ship's company learning to handle the whole operation of putting out a major fire all by himself anywhere in the ship. (Ship's Org Bk.) 2. **fire drill** on most ships is usually so bad it is a slang term for a confused mess. (Ship's Org Bk.)

**FIRM**, two or more persons in partnership or forming a company to carry on a business. A firm is not considered to be one legal person as in the case of a corporation.

**FIRST DEPUTY CHIEF**, (below Chief Engineer of the engine room on Flag) 1st Deputy Chief is also 1st Engineer and Engineer of the Watch of Watch A, and is in charge of planning all programs, files, plans and finance and stores. 2nd Deputy Chief is 2nd Engineer, is Engineer of the Watch of Watch B, and in charge of all training, checksheets and logs. 3rd Deputy Chief is the 3rd Engineer, is Engineer of the Watch of C and is in charge of inspections, tests and ER personnel procurement. (FO 1958)

**FIRST DEPUTY COMMODORE**, this is a decision-making post on matters referred and orders origination post on matters not against policy (as attested by the Commodore's Personal Communicator). In matters where there are conflict or question, referral from below can be made to the **First Deputy Commodore** on channels, accompanied by proper CSW or, in extreme urgency, by the contenders. Where inspection or other indicators seem to warrant, or where smoother operation is desirable or where a program apparently beneficial or needful needs to be instigated, the **First Deputy Commodore** may so originate, on channels, via the Personal Communicator who attests that it is not against policy or, should it be,

to return it. Any origin so issued is logged by the Personal Communicator as though it were from the Commodore and followed up accordingly on routine lines. In the presence of the Commodore, the post of **First Deputy Commodore** is quiescent as it is normally an additional hat assigned to one with other senior duties. (FO 3342)

**FIRST DEPUTY EXECUTIVE DIRECTOR**, (Saint Hill Org Board) acts as **Executive Director** in the absence of the **Executive Director**. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**FIRST DEPUTY ORGANIZATION SECRETARY**, acts as **Organization Secretary** in the absence of the **Organization Secretary**. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**FIRST DYNAMIC DANGER FORMULA**, the **formula** is converted for the **first dynamic** to (1) by-pass habits or normal routines. (2) handle the situation and any danger in it. (3) assign self a danger condition. (4) get in your own *personal ethics* by finding what you are doing that is out-ethics and use self discipline to correct it and get honest and straight. (5) reorganize your life so that the **dangerous** situation is not continually happening to you. (6) formulate and adopt firm policy that will hereafter detect and prevent the same situation from continuing to occur. (HCO PL 9 Apr 72)

**FIRST ECHELON ORGS**, the **organizations** of Sen now considered **first echelon orgs** (just below Saint Hill) are London, Washington, Los Angeles, New York, Melbourne, Sydney, Perth, New Zealand, Johannesburg, Durban and Capetown. (HCO PL 13 Mar 65, *Admin Technology, The Comm Member System*)

**FIRST LEVEL SUPERVISOR**, see SUPERVISOR, FIRST LEVEL.

**FIRST (1st) MATE**, 1. is in charge of Division IV, the Operations Division which cares for the decks, construction and other purely traditional ship concerns-so the ship can operate as a ship. (FO 2674) 2. the First Mate is head of Division 4, the Production Division with the Chief Steward's Department (10), Boatswain (Department 11) and Specialist Chief (Department 12). These are key departments without which missions cannot be run. (Ship's Org Bk.) 3. fourth in command of a ship. (FO 196) 4. Tech Sec. (FO 1847) 5. Operations Officer (6802C28 SO)

**FIRST POLICY**, the **first policy** of a Sen org, laid down on about 8 or 10 March, 1950, is: "Maintain friendly relations with the environment and the public." (HCO PL 2 Sept 70, First Policy)

**FISCAL MEASURES**, a government's financial efforts to regulate inflation or deflation by making tax changes.

A person who can't make it is routed to Qual where he is off-loaded with advice on how to get more employable. (In the SO it is **Fitness Board**). (HCO PL 23 Jul 72) 2. a **Fitness Board** is established in every SO activity. Its purpose is to determine the mental and physical fitness of personnel and recommend the issuance of probation or denial of a provisional or full fitness certificate with the approval of HCO and the Commanding Officer. The **Board** is composed of: Qual Sec, Chairman; Tech Case Supervi-

sor; Review Chief, Secretary; Medical Officer; the Chaplain. (FO 2630R)

Then there are two service units: the Academy and the HGC. (5812C29)

(4) add a falsehood. (5) alter importance. (HCO PL 11 May 70) [See OUT-POINT for a full list of the illogics or out-points.]

**FIVE STAR PROCESS**, see STAR.

**FIXED ASSETS**, see ASSETS, FIXED.

**FIXED BUDGET**, see BUDGET, FIXED.

**FIXED CAPITAL**, see CAPITAL, FIXED.

**FIXED CONSUMPTION**, estimates of the public's **consumption** of product as a limit on production. Any Sen organization (or any organization) which is working in any way upon a **fixed** statistic of **consumption** will eventually fail. Unless one disregards the expectancy and unless one simply furnishes all the service one can, regardless of past statistics, the org will go downhill. (HCO PL 24 Jul 67)

**FIXED COSTS**, see COSTS, FIXED.

**FIXED EXPENSE**, same as Fixed Cost.

**FIXED IDEAS**, 1. the "*idée fixé*" is the bug in sanity. Whenever an observer himself has **fixed ideas** he tends to look at them not at the information. Prejudiced people are suffering mainly from an "*idée fixé*." A **fixed idea** is something accepted without personal inspection or agreement. It is the perfect

"Authority knows best." It is the "reliable source." A fixed idea is uninspected. It blocks the existence of any contrary observation. Most reactionaries (people resisting all progress or action) are suffering from **fixed ideas** which they received from "authorities," which no actual experience alters. That British red-coated infantry never took cover was one. It took a score or two of wars and fantastic loss of life to finally break it down. If any single **fixed idea** destroyed the British Empire, this one is a candidate. (HCO PL 19 May 70) 2. some people have a method of handling a downstat which is a fixed idea or a cliché they use to handle all downstat situations in their lives. These people are so at effect they have some idea sitting there "that handles" a down statistic. "Life is always like that." "I always try my best." "People are mean." "It will get better." "It was worse last year." They know it isn't any use trying to do anything about anything and that it is best just to try to get by and not be noticed-a sure route to suicide. Instead of seeking to prevent or raise a declining stat in life such people use some **fixed idea** to explain it. This is a confession of being in apathy. One can always make stats go up. Hard work, foresight, initiative. One can always make stats go up. That's the truth of it, and it needs no explanations. (HCO PL 8 Feb 68)

**FIXED INTEREST COVER**, the ratio of a company's net earnings to the fixed interest and dividends to be paid to stockholders which comprises the existing cover or protection provided to investors preferred stocks, debentures, etc.

**FIXED-PRICE CONTRACT**, a contract taken on by a contractor, supplier, etc., to provide specific goods or services for a set price which cannot later be changed for any reason irrespective of increased material or labor costs, inflation, etc.

**FIXED SALARIES**, a stable wage for staff members. (HCO PL 10 Dec 68)

**FIXED TERMINAL POST**, a **fixed terminal post** stays in one spot, handles specific duties and receives communications, handles them, and sends them on their way. (HCO PL 22 Jun 64)

**FLAG**, 1. the Church of Scientology of California operates a marine mission aboard a chartered vessel. This marine mission is commonly referred to as **Flag**. It is operated under the aegis (protection, support) of the Church of Scientology of California. (BPL 9 Mar 74) 2. the main vessel of the Sea Org. (HCO PL 9 Mar 72 I) 3. the center for all international org management. (ED 480 Flag) 4. **flagship**. (ED 334-1 Flag) 5. **Flag** is the basic research area of Dn and Scn. Over half its crew are Clears today and many are OTs. It is probably the calmest, if one of the busiest areas on the planet! (LRH ED 101 INT) 6. **Flag** is currently fully on the Sea Org comm and control lines. The ship is divided into two organizations, the Ship Org which operates the **flagship**, and whose product is the **Flag** Org. The product of the **Flag** Org is "orgs which expand." The **Flag** Org, in order to achieve its purpose-"to create orgs which expand" operates programs. Every program adds up to and forwards the **Flag** Org purpose. (FO 2219) 7. operates the Sea Org under the guidance of the Commodore. The word **Flag** designates that vessel where the Commodore and Personal Staff are located. The actual flag is the blue and white starred flag flown on any vessel of the flotilla. When the Commodore is aboard, the **flagship** flies the **flag** daily and has the word **Flag** on its title. (FO 766) 8. the word **Flag** means the flotilla Commanding Officer and his personal staff and is of timeless usage and is not new. (FO 1) 9. **Flag** is viewed primarily as a management organization on a mobile base. (ED 182 Flag) 10. the purpose of the **flagship** is to enable LRH to carry out his research functions, communicate

with orgs, get in and handle ethics and take care of finance, in that order. (FO 263)

**FLAG ADMINISTRATION OFFICE**, is established in the Office of LRH under CS-7. In charge of the unit is the **Flag Officer** Manager. Only aides, FBO, and currently assigned communicators remain in the other Flag divisions. All other functions and Flag personnel come under the **Office** Manager. The first duty of the **Administration Office** is to get all Flag Org admin up to present time. (FO 2273)

**FLAG ADMIN ORG**, 1. the org that **administers** to the other two orgs, trains, processes, handles local accounts, etc. The **Flag Admin Org** actually is the basic org that forms the other two now. **Flag Admin Org** (all internal **admin** services, comm, training, processing, personnel, hatting, local finance, etc.). (OODs 30 Dec 70) 2. the service org which does the Scn training, processing, financing and **admin** of the three orgs aboard, the Flag Bureaux (which is the International Management Org), the Flag Ship Org (which runs the ship and the FAO). The main final valuable products of the FAO are income, student completions and preclear or pre-OT completions. FAO is a 7 Div Org Board **organization**. (FSO 225) 3. early in 1971, Flag was divided into 3 orgs: Flag Bureaux, Flag **Admin** Org, and the Flag Ship Org. The **Flag Admin** Org (FAO) is the *service* org. It trains, processes and handles finance. It has the pattern of the standard 7 Division Organization. It is the establishing org. It establishes through its Div 1 (HCO) itself and the other two orgs. (FO 2856) 4. a standard 7 Division Org Board org named the Flag **Admin** Org for the purpose of providing service to Flag in the fields of income, training and processing and other valuable final products and to provide the HCO functions necessary to the three orgs of Flag. (ED 5 FAO) 5. the founding org is the FB. But the establishing org is the FAO. An architect (Flag Bureau) de-

signs the building. The builders (Flag **Admin** Org) build it, including the architect's office (FB). (OODs 14 Feb 71) *Abbr.* FAO.

**FLAG ADVANCED ORG**, **Flag Advanced Org** delivers the upper levels under the highest level of case supervision on the planet. (FO 3426) *Abbr.* FAO.

**FLAG AUDITORS**, Flag auditors are easily the best in the world. They don't kid around with cases. They know what they can do. Our **Flag auditors** are great for many reasons. Not the least of them is continual brush up and insistence on exact application and achieving the predicted result. They come through reasonableness and all that and emerge as top flight **auditors**. (OODs 18 Mar 71)

**FLAG AUXILIARY PERSONNEL TRAINING CORPS**, 1. is made up of **personnel** set aside for Flag and trained locally on each continent. All orders applying to that program for that area are then filed with that program. **Flag Orders** as always usually contain the policy of the Sea Org as HCO Policy Letters contain policy for Scn orgs. Orders contained in the OOD signed by the Captain are actually base or ships orders. (FO 2150) [Do not confuse these types of **Flag Orders** with the mimeo issue called a **Flag Order** which is also included here as one of the types of **Flag Orders**] 3. hereafter all general orders affecting the flotilla as a whole or issued by myself shall be termed **Flag Orders**. specific area and find the bug, the why and/or the who that is slowing command intention. The **Flag Rep** then reports up, with full specifics on what he has found. These reports go direct to data files on **Flag**, where the original terminal requesting the information can review it. (BPL 15 Jul 72RA I)

**GAE**, 1. there's a thing called a GAE, which is a **gross auditing error, and GAE** is a slang term for being kicked out of the auditing section. (6209CO3) 2. **gross auditing error (GAE)** is the action of the auditing supervisor when the pink sheet is not completed by the student or when, in the opinion of the auditing supervisor, the errors being made are so gross that a preclear is being heavily dama-

ged (such as Auditor's Code breaches). A GAE may consist of relegating the auditor to the next lowest class or, if violent and flagrant, and directly against an instructor's instructions, to the lowest unit of the Academy. (HCO PL 21 Oct 62)

**GARRISON MISSION**, mission fired from Flag, where the **missionaire** will be in the field for an extended period of time. (FO 3136)

**GARRISON MISSION ORDERS**, when a person is appointed to a duty post he is given mission orders. At first glance these are like other MOs. But they are not. One can mix MO types with disastrous results. A person is sent to duty to continue or improve an activity. His orders therefore must not be terminable. Instead each operating target is continuable. They do not end off. **Garrison Mission Orders** are chiefly concerned with policy and the relevant policy letters (and in CLOs or ships or even in SO orgs to some degree, with FOs and CBOs and various manuals). As **garrison missionaries**, have different posts, the duties of that post are stressed and on-policy is stressed and what the policy is is stressed. The mission orders are essentially, then, duties to be taken up in rotation and handled. If you list the main duties of the post, assemble the relevant policy and list them as ops, targets to be done

until all are in maintain, the MOs are good MOs. The **garrison** situation is really a major target of working to stabilize, establish and expand an org so that it is permanent. The key to a **garrison mission** is then continue. (FO 2936)

The proper rejoinder is "Who is everybody?" You'll find it was one person who had a name. When you have critical data, omit the "everybody" generality. Say who, say where. Otherwise, you'll form a bad datum for somebody. When our actions are said to be unpopular the person or persons saying so have names. (HCO PL 22 Oct 62)

**GENERAL LETTERS**, public letters from any source or kind which do not specifically belong to any unit or department. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

(HCO PL 2 Jul 64) 4. the same as limited non-remimeo but somewhat broader. They are never strewn about or broadly republished as they could be misunderstood. (HCO PL 2 Jul 64)

**GENERAL QUESTION**, (security checks) the difference between a **general question** and a specific question is a matter of **general** or specific terminal. father," "Miss Smith," etc., etc. (HCO PL 9 Oct 61)

W selling and renewing memberships. (HCO PL 28 Nov 71R I)

**GENERAL SEMANTICS**, 1. in a subject developed by Korzybski a great deal of stress is given to the niceties of words. In brief a word is not the thing. And an object exactly like another object is different because it occupies a different space and thus "can't be the same object." As Alfred Korzybski studied under psychiatry and amongst the insane (his mentor was William Alanson White at Saint Elizabeth's Insane Asylum in Washington, D.C.) one can regard him mainly as the father of confusion. This work, *General Semantics*, a corruption of semantics (meaning really "significance" or the "meaning of words") has just enough truth in it to invite interest and just enough curves to injure one's ability to think or communicate. Korzybski did not know the formula of human communication and university professors teaching semantics mainly ended up assuring students (and proving it) that no one can communicate with anyone because nobody really knows what anybody else means. (HCO PL 26 Apr 70R) 2. an

educational "discipline" which trains individuals to evaluate for themselves the meanings of words and symbols. It does not, however, teach them to obtain agreement on meanings. Hence, in **semantics** there can only be confusion because by its basic principles there can be no stable datum in symbols and significance. And thus, since symbols and significance are basic to communication, in **semantics** there can be no real communication. (FBDL 449)

**GI DIVIDED BY NUMBER ON STAFF**, (Qual stat) this stat is, of course, a method of computing the individual worth of the staff. This stat is counted by adding up all those

persons actually working on staff for that week. It does not count paying public internes, or staff students off on full-time training in the org or a higher org. It does not count AG Office, FBO or Flag Rep. It does count HCO expeditors and any paid part time staff. It does not count casual volunteers or FSMs doing projects for the org or Auditor's Association personnel. The criterion to the stat is who are the people working on staff to get the org stats. Therefore, the characteristic of the part (the valence) is the characteristic of the whole, the collection of valences known as the **goals problem mass**. (HCO PL 17 Jan 62) 2. what is one of these GPMs anyway but a method of limiting the PC's ability to intend? And that is the whole idea behind implanting or anything of that nature. The whole idea is that if he intends positive he gets negative. If he intends negative he gets positive. So therefore he cannot decide. That is his mind kicking back at him which is simply a positive/negative proposition there, of two poles. (SH Spec 5, 6402CO6) *Abbr.* GPM.

**GODOS**, defeated royalist soldiers. (HCO PL 12 Feb 67) [The term **Godos** refers to the "defeated royalist soldiers" in South America during the time Simon Bolivar was the Liberator of South America from the yoke of Spain.]

These can be awarded in any official org and can be applied for also by mail. (HCO PL 13 Feb 69)

**GOLD STAR CREDIT RATING**, in 1966 we will begin to **gold star** the lifetime members cards, giving them a **gold star credit rating** where they have promptly paid their bills and a **gold star credit** card in Scn will carry a 45% discount. (HCO PL 22 Mar 65, *Current Promotion and Org Program Summary Membership Rundown International Annual Membership*)

**GOLD STAR ORG**, a project activated wherein any Scn or SO org meeting certain requirements will be given a designation as a **gold star org**. The Tech and Qual organi-

**GOOD EXECUTION OF THE TECHNOLOGY**, this means holding a constant of application without variation in how it is done from person to person or place to place. This outlaws at once all squirreling and individual variations even when they are good for they bring about an inconsistent of execution and this can wipe out technology, leaving one with nothing to promote and a dead end of all spread of technology. **GOOD ROADS AND GOOD WEATHER**, (letter writing) whatever else you do, keep it a warm **good roads and good weather**. That's the golden rule. Calm, warm, friendly. No "Thank you for yours of the 19th instant." Sounds like we sell shoes. To a letter about a compliment on an org and a win, it's "Dear Bill, yes things are going along okay. (6909C01 SO) 2. a government is a government so long as it protects the land and citizens against its aggressors. (AAR, p. 95) 3. it could be said that a government is the aggregate irresponsibility of a people. They are not taking responsibility for the course of justice or protection of the state from foreign aggression, and they shove all this responsibility over onto a government. (SCP, p. 12) *Abbr.* Govt.

**GRADATION**, what does **gradation** mean? Well, there are grades to a road and there are grades to steps. There are steep steps and shallow steps and so forth, and there are vertical poles. A vertical pole is not a gradient. You want a gradual grade up. That's what gradation means in our particular sense. (SH Spec 66, 6509CO9)

**GRADE A**, the standard we want on *Advance!* cover is known in the trade as **Grade A**. **Grade A** is correctly defined as color reproduction work that duplicates the color, color balance, clarity and image of the original photograph or artwork. A person tabbed in address as a BB (book buyer) who buys and receives some processing gets tabbed under the preclear category. BB is removed as he is no longer in that category. A preclear who buys some academy training and graduates from Level 0 is tabbed as a Class 0 Auditor and a preclear. As a person's training level increases, the **tabbing** is changed accordingly. **GREEN INVOICE**, 1. these **invoice** copies are distributed to the Department of Records, Assets and Materiel for record purposes. (Invoice routing for all orgs except Saint Hill.) **GREEN ON WHITE**, LRH Policy Letters. (OODs 23 Jan 76)

**GREEN ORG**, in a **green org** staff members don't know what other staff members do. So they don't know where to send things so they do them themselves. Worse, they don't even know there is an org there. It is quite pathetic. Like rookie troops or militia or a mob. Of course the place goes broke. (HCO PL 1 Jul 65 III)

Such 'a person is called a **green star**. (HCO PL 13 Feb 69)

**GROOVE-IN**, a **groove-in** is showing someone how something works so he can then operate or handle it. Usually it is a short action covering the basics of how something works or functions and is thus different from an apprenticeship which is a longer, more detailed action.

**GROSS AUDITING ERROR**, see GAE.

**GROSS BILLS PAID**, (Division 3 stat) includes all creditor **bills paid**, staff salaries

**GROSS BOOK SALES**, 1. the total **sales of books**. This statistic no longer includes meter or other bookstore sales other than **book sales**. While this **gross divisional statistic** does not cover all the statistics of the division, it is the primary **divisional statistic**. (HCO PL 30 Sept 65) *Abbr.* GDS.

week which ends at 2 p.m. Thursdays. (BPL It Aug 75) 2. how much money an org has made for the statistic week which ends at 2 p.m. on Thursdays. **GROUP**, 1. a **group** is not just a number of people, it is a number of people with a shared ideal, ethic and rationale. It is an entity. Individual members of a **group** may come

and go, and hundreds of years may pass, but the **group** may still be the "same" **group**. As it has grown older, its component parts have been replaced, like the cells in a body. The memory of a **group** is not equal to the memories of the individuals in the **group**. It may be greater or less than these, depending on whether or not there has been good communication and filing in the group. Any **group** which depends wholly upon the memories of individuals and has no common recorded memory has no real memory of its own and is insane as a **group**, though the individuals in it may be quite rational. (HYYTAE, p. 120) 2. a group is only a collection of different people, without policy to agree upon. For policies are the points of agreement which make the group into a true **group** and an irresistible force. (HCO PL 13 Mar 65 II) 3. a **group** is composed of individual **group** members. (HCO PL 30 Dec 70) 4. another type of organization is the **group**. Official **groups** of the HASI and official congregations of the various churches exist in very large numbers in the United States and Great Britain and elsewhere through the world. To charter a **group** one only needs to write the HASI. (PAB 90)

Group (Def. 3)

**GROUP BARRIERS**, those rules for membership which a group or club maintains as a mark of distinction or to restrict its membership.

**GROUP DIANETICS**, a science of management should obtain optimum performance potentialities and optimum living conditions

for the **group** and its members. Such a science is postulated in **group Dianetics**. It is not an ideology. It is an effort toward rational operation of groups. In **group Dianetics** one is looking at the general form of the government of the world. That government will not extend, as administrator, out from the Dianetic Foundation. But the Foundation will probably train the personnel that governments send to it and will probably be the advisor to all governments. (An Essay on Management, 1951)

**GROUP IS AT EFFECT**, which is to say originates nothing but only defends in the face of threatened disaster. (HCO PL 14 Sept 69)

**GROUP LOG**, when a newly started Gung-Ho Group reports in to the Groups Officer at the nearest org, the Groups Officer must see that it is registered officially as a recognized Scn group as soon as possible. A **group log** is started at the org in which all data is put down by the **Groups Officer**. (BPL 14 Dec 68R I)

**GROUP ORGANIZATION**, the principle and success of a true **group organization** is each member does his own specialized part. When you have a "group" where everyone in it does all the jobs, you don't have a group, you have chaos. The group won't expand. Thus each **group** member is responsible for his own job as assigned. (HCO PL 3 Dec 68)

**GROUP PRESIDENT**, in the Dianetic Counseling Group we call the thetan of the **group the Group President**. The "thetan" is responsible for the survival of the whole activity and is senior to mind, body and product. (HCO PL 25 Jul 69 VI)

(4) a person who can handle ARC breaks well. The Group Secretary handles correspondence, group certificates, programs, lectures, information in general and heals group or individual group member ARC breaks. All group troubles and difficulties are referred to the Group Secretary as well as all group promotion. (HASI PL 10 Feb 59) 2. the **Group Secretary** belongs in the Department of Promotion and Registration. All group troubles and difficulties are

referred to him as well as all **group** promotion. He may not have separate **group** files but can have the materials of central files on **groups** for his use. (HCO PL 24 Nov 58)

**GROUP SELECTION TECHNIQUES**, in personnel selection work, the technique of bringing together for a group interview all the candidates for a vacant position, usually giving them a particular subject to discuss among themselves, while the personnel interviewers observe them.

**GROUPS, FACE TO FACE**, market research reference unit in which consumers are brought together and encouraged to talk about their preferences, values and motives for buying particular products and services.

**GROUPS, FAMILY**, a group composed of persons from similar walks of life or who identify with each other because of some strong common trait such as social or economic status. **GUARANTEED RATE**, a specified amount of pay guaranteed to employees particularly where an incentive plan is in use.

**GUARANTEED STOCK**, see STOCK.

**GUARANTOR**, an individual who promises to make good if another fails or is unable to pay or meet a contractual obligation.

**GUARDIAN, 1.** there is only one **Guardian**, WW for each org. There may be **Assistant Guardians** in larger orgs acting as liaison personnel for the Guardian. (HCO PL 1 Mar 66) 2. the most senior executive of Scn just below the Executive Director. The post is senior to Executive Secretaries. The character of the post is best understood legally as "trustee" or even "proprietor sole" and exercises the powers and carries out duties similar to that of a high church officer entrusted with the funds or survival of his group. The Guardian may use the signature "trustee" in business letters or dealing with outside interests such as law firms and may claim and establish the status of proprietor sole when corporate status of Scn funds or interests is in question. The **Guardian** is posted in every executive division by post and name in Division 7. (HCO PL 1 Mar 66) 3. the purpose of the Guardian is: to help LRH enforce and issue policy, to safeguard Scn orgs, Scientologists and Scn and to engage in long term promotion. The keynote of the post of Guardian is that it functions without being closely involved with the mechanics of administration or orgs. An **Assistant Guardian** can exist in any org that is big enough. It may not be worn as an additi-

onal hat. It is appointed only by the **Guardian**. A **Guardian** is appointed by the Executive Director personally. The first **Guardian** is Mary Sue Hubbard. (HCO PL 1 Mar 66) *Abbr.* Gdn.

**GUARDIAN FINANCIAL ORDER,** the Second Deputy Guardian for Finance or the Guardian or Deputy **Guardian** may write and issue **Guardian Finance Orders**. These are blue ink on red or pink paper. These orders normally apply to Assistant **Guardians**. (HCO PL 18 Nov 68)

**GUARDIAN OFFICE RESERVE ACCOUNT (DEFENSE),** each week's 10% to defense is deposited into the **GO reserve account**. Also, all donations and money from the sale of church buildings are transferred from the FO No. 1 Account to the **GO Reserve Account (defense)**. Monies are also deposited into this account pending approval or not of the Claims Verification Board on a refund or repayment. (BPL 6 Jul 75 III)

**GUARDIAN ORDERS,** **1.** now blue ink on blue paper. These are issued by the **Guardian's Office** to its staffs. They contain policy, programs, orders, directions. They do not retire. They are usually issued by the Controller or **Guardian** but can be issued by Deputy **Guardians** and Assistant **Guardians**

These are kept in separate locked storage not available except by written order and receipt from CS-G and for only 24 hours for the purpose of making copies at which time they are restored under lock to which only the CS-G Communicator has a key and are designated to Guardian originals. The value of originals is stated by CS-G to be beyond any possible calculation. (FO 1960)

**GUARDIAN'S OFFICE,** **1.** the **Guardian's Office** will be composed of six bureaux as follows: (1) Service Bureau, (2) Information Bureau, (3) Public Relations Bureau, (4) Legal Bureau, (5) Finance Bureau, (6) Social Coordination Bureau. Large continental **Guardian Offices** may also have a Service Bureau as Bureau 0. These changes are made on the basis of the new functions of the LRH Comm Network in relationship to policy and tech. (HCO PL 27 May 70R) [The above HCO PL was cancelled by BPL 27 May 70RA. 13. the **Guardian's Office** handles certain

(**Gdn Offices** consist of picked personnel who are well hatted and trained on post by their central **offices.**) (FBDL 10) *Abbr.* GO.

**GUEST DRILL**, usually the poor Captain is left to struggle with very important persons. This is too hard a lot not to have a **drill**. A ship is usually warned that it is going to have callers by hours or even minutes. Therefore this **drill** includes neatening the place up fast, getting the ship snugged up to the dock or the ladder or the gangway squared away, seeing the proper flags are flying, tending the side, helping the **guest** aboard, giving the guest a host or hostess without tearing the top brass of the ship to bits, providing the **guest** with a drink or coffee, getting the guest's business attended to and the top brass required in and out, getting the **guest** back over the side. This includes providing a boat when at anchor. The stress here is to make a snappy, polite atmosphere and to effectively get guests aboard and gone. The same drill is used for dinner guests and even for parties given aboard except when they are for ship's company. (Ship's Org Bk.)

**GUILD-MASTER**, same as master.

**GUILLOTINE**, a way of cutting off debate or discussion of a bill, as is customary in the British Parliament, by predetermining a time for ending or voting on it.

First a captain, secretary, treasurer and public officer must be elected by the group. When the **group** is formed, it must contact the Group Officer of the nearest org and give its address and the names of its officers and members, etc., and apply for a group certificate. **Gung-Ho** means "pull together" in Mandarin. It pulls together other groups in the community to work towards the betterment of society and of the area. The **group's** program works on the motto: a community that pulls together can make a better society for all. (HCO PL 2 Dec 68) 2. a Franchise Center is different entirely from a **Gung-Ho Group**. One can easily benefit from the other. But the **Gung-Ho Group** is there to speed up and smooth out the society and civic organizations and make a better community atmosphere directly. The **group** is a society entrance point. The Franchise Center is basically a Scn training and processing activity for individuals. The **group** works on other dynamics notably the third and fourth. (HCO PL 2 Dec 68)

**GUTTMAN SCALING**, see SCALOGRAM.

**HANDLING**, the definition of **handling** comes under the policy of "**handle** the hell out of it." Anything fully **handled** needs no further care or attention from anyone. Weak **handling** like halfdone targets creates repeating emergencies. (FO 3195)

**HAPPINESS**, 1. is not itself an emotion. It is a word which states a condition, and the anatomy of that condition is interest. **Happiness**, you could say, is the overcoming of not unknowable obstacles toward a known goal. (8ACC-4, 541OC06) 2. comes from self-determinism, production and pride. **Happiness** is power and power is being able to do what one is doing when one is doing it. (HCO PL 3 Apr 72)

**HASI LIFETIME MEMBERSHIP**, see LIFETIME MEMBERSHIPS.

**HAT**, 1. a hat consists of a checksheet and pack fully word cleared and studied and known to a point of full application of the data therein. (HCO PL 8 Nov 73RA) 2. developed in 1950 for use in Dn orgs as a special technology. The term and idea of a hat comes from conductors or locomotive engineers, etc., each of whom wears a distinctive and different type of headgear. A hat therefore designates particular status and duties in an organization. (HCO PL 22 Sept 70) 3. a hat designates what terminal in the organization is represented and what the terminal handles and what flows the terminal directs. Every hat has a product. (HCO PL 22 Sept 70) 4. a hat is a specialty. It handles or controls certain particles in various actions and receives, changes and routes them. (HCO PL 22 Sept 70) 5. a term used to describe the write-ups, checksheets and packs that outline the purposes, know-how and duties of a post. It exists in folders and packs and is trained-in on the person on the post. (HCO PL 22 Sept 70) 6. the duties of a post. It comes from the fact that jobs are often distinguished by a type of hat as fireman, policeman, conductor, etc. Hence the term hat. A hat is really a folder containing the write-ups of past incumbents on a post plus a checksheet of all data relating to the post plus a pack of materials that cover the post. (HCO PL 13 Sept 70) 7. usually when a person has been on a job a while he knows what it consists of. He then should write up his hat, meaning in this case a folder which contains past orders and directions which outline his job plus his own summary of his job.

When one is transferred or leaves a post he is supposed to "write up his hat" which is to say, modernize this summary of the post. (HCO PL 3 Dec 68) 8. on a train, a locomotive engineer and a conductor each wears a different kind of hat. You will notice that various jobs in the society are designated by different hats. From this we get the word hat as a slang term meaning one's specialized duties. This is one's hat. (HCO PL 3 Dec 68) 9. a permanent folder, in the possession of a staff member, which describes his duties on that post in full and which contains general organization orders. The folder must be complete and up-to-date. (Organization PL, 10 Jan 58) 10. every staff department head in every organization should have a folder in his desk in which to place all written material and bulletins which apply to his job. It is his hat. This folder should be labeled, for example, "Director of Processing," or "Indoc Instructor" or "HCO Secretary" or any such post. The folder should then receive after study any policy letter or executive order or HCO Bulletin applying in general or in particular to that job. (HCOB 28 Feb 57) 11. a hat is a duty. It outlines the actions necessary to accomplish a production and receive what's needed, change and route it. What defines a hat is a product. If you count up the expected products you get the minimum number of hats. The steps to get the product is the hat. Products are also composed of lesser products, so hats can be enlarged. It's what you designate as a product that makes the hat. It's the importance of that product to others on the line that makes the hat's importance. The completeness and size of the product make the seniority of the hat. The overall product of a division determines the hat of the divisional officer. The lesser products that when combined make the overall product determine the rest of the division hats. Until you can define in one go the overall product of a division you aren't likely to be able to post any real part of its org board for

the product of hats of that division add up to the divisional product. (OODs 29 Oct 70)

**HAT CHECKING**, the check is done simply by calling the staff members in and asking them one random question taken from some part of the material contained in the bulletin or policy letter. If they fail to correctly answer this one question, they are flunked on a check, told to re-study it and come in again for a **re-check**. (HCO PL 9 Jun 61)

**HAT COLLEGE DEPARTMENT**, Department 11A, technical Division IV. Product: fully hatted Sea Org members. (HCO PL 16 Jul 71)

**HAT! DON'T HIT**, the right motto is hat! **don't hit**, meaning put **hats** on them, don't try to solve it with ethics. (OODs 8 Oct 70)

**HAT DRILL**, (a) call in a staff member having him bring his hat, (b) open the hat and read a few lines silently, (c) ask the staff member to directly quote the substance read, (d) should the staff member be unable to quote the substance, return the hat with calm advice to study it; or, (e) should the staff member know his hat, thank him. (HCO PL 13 Jan 59)

**HAT DUMPING**, a type of dev-t. This is referring everything to someone else. It greatly increases traffic without producing. (HCO PL 27 Jan 69)

Hat Dumping

**HAT FOLDER**, there are three classes of folders permanently assigned to each staff member of HCO and the central org. The first of these is a **hat folder**. In it should be included only the hat write-up and policies issued which directly relate to the individual post. The second of these is a technical folder into which one places all technical bulletins issued. These must never be put in one's **hat folder**. The third of these is an organizational folder. All bulletins and policy letters relating to one's job but only by reason of being a staff member are included in this folder. (WO PL 15 Sept 59)

**HAT PENAL CODE**, ethics actions are now chiefly directed towards cross orders or failures to wear one's hat. The crimes are now: (1) preventing people from wearing their hats, (2) preventing people from wearing their hats better, (3) taking people's hats away from them when they are doing them, (4) making people do things not their hats, (5) not wearing one's hat, (6) wearing no hat at all, (7) pretending to wear a hat while preventing its action from occurring, (8) using FOs to stop people wearing their hats, (9) wearing a hat but not getting done what one with that hat is supposed to do, (10) being stupid about one's hat, (11) having to be ordered to wear one's hat, (12) requiring unnecessary orders to accomplish the purpose of one's hat, (13) arguing with a Master at Arms, (14) seniors not making people wear their **hats**, (15) not knowing your hat, (16) writing up **hats** for your post you don't really do. (OODs 19 Jun 68, and 20 Jun 68)

**HATS**, terminals. (HCO PL 10 Jul 65)

**HATTED**, each org staff member is a specialist in one or more similar functions. These are his specialties. If he is fully trained to do these he is said to be hatted. (HCO PL 28 Jul 72)

**HATTED SCIENTOLOGIST**, a **hatted Scientologist** has been redefined as a **Scientologist** who can produce the four products of a **Scientologist** (purchased books, disseminated knowledge, environmental control, a cleared planet). The Director of Clearing hats Scientologists by drilling and mini-courses and will use whatever training tool is to hand needed to get a person able to produce the four products. (HCO PL 14 Nov 71 RA II)

**HATTED SCIENTOLOGIST EXPEDITOR**, the purpose of the **Hatted Scientologist Expeditor** is to get the field and raw public hatted as Scientologists in huge volume internationally. Position on the org board is Bureau 6, Branch 17 (CLOs). (CBO 121)

**HATTING FILES**, the purpose of the **hating files** is to receive, preserve and make available information on the results of personnel hat checkouts, orders to hat checks, **hating** completions and progress and other pertinent data this section gathers and files on personnel **hating** actions. (FSO 253)

**HATTING OFFICER, 1. a hating officer hats** executives and staff members "on the job." One of the simplest and most effective ways to do this is as follows: the **Hating Officer** visits the person while he is working on post. He observes what the staff member is doing right now. He finds out what product the person is working to produce. He ascertains whether or not the staff member is having any difficulty producing it. We'll say he finds that the staff member is having difficulty. The **Hating Officer** then goes away

and rapidly locates the policy letter that covers how to do that, how to produce that product. He gives this to the staff member and orders him to study it right now, saying he will return in say ten minutes and check him out on it. In ten minutes the **Hatting Officer** returns (with his E-meter), WC M4s the staff member on the policy and gives him a proper starrate checkout, demonstrations and all. He then has the person complete the cycle of action he was engaged in and produce the product using the policy he has just studied. This completes one cycle of action of **hatting**. The **Hatting Officer** goes off then to hat another. (BPL 3 Apr 73R I) 2. a **Hatting Officer** gets people through their basic staff hats, sees that they get through Staff Status I and II, gets them trained on their mini hats and then their full post hat, divisional packs, etc. (BPL 3 Apr 73R I) 3. seeing that staff get checked out on policy relative to their post and basic org policy is the duty of the **Hats Officer** in the Department of Personnel. **HCO AREA SECRETARY, 1. the HCO Area Secretary (HAS)** has the function of establishing the org. (HCO PL 7 Jul 71) 2. a fully manned, perfect HCO is the irreducible minimum of his doing his job. Now if he's got that, he should get on with it, and do his job, which is: put the establishment there. (HCO PL 25 Nov 58) 6. purpose: to review and stamp every certificate of any level or task, and every field certificate "Validated for Advanced Processes **HCO Board of Review** 1957" after their passing a proper examination on Five Levels of Indoc and CCH. (HCO PL 14 May 64) 2. the duties and activities of **HCO Continental** are generally defined as helping me wear my hat in the continental area. To fully understand the duties of **HCO Continental** one has to understand what I do or would do and then see that it is done. First would be the general, mass dissemination of Scn by books, magazines, tapes, etc., and special events such as congresses. Second would be ethics, certificates and awards which would include justice. Third, but not in order of importance, would be technical excellence and results in processing. Fourth would be the good functioning of all HCO Area Offices in a **continental** area, their personnel and finance

problems and seeing that they do their job. Fifth would be the preservation and form of Central Organizations and their income and survival. It investigates any cases referred to it by the WW Committee of Evidence and reviews any lower HCO Committees of Evidence in its zone when necessary or so requested. (HCO PL 7 Sept 63)

**HCO CONTINENTAL LIAISON OFFICER**, the Office of the HCO Exec See WW contains one Divisional Organizer for Divisions 7, 1 and 2 for each **Continental Office** in the world. **HCO CONTINENTAL OFFICE**, 1. an **HCO Continental Office** has these basic functions: to broadly disseminate Scn to masses of people not connected or not yet connected with Scn. This is done by magazines and preparing proper literature. **Continental** legal representative for Scn is an HCO national function. Broadly, the technology and dissemination of Scn and its a-

wards and good name are an **HCO Continental** function. Supervision of all HCO Offices on the continent and their activities is an **HCO Continental** activity. An **HCO Continental Office** does not pin down on one Central Organization to the exclusion of broad dissemination and the conduct of other HCO Offices. (HCO PL 31 Jan 61, *Spheres of Influence*) 2. the Central HCO Office for one or more **continents** or islands. It handles books, tapes, lecture records, a magazine and other functions for a **continent**. Its main order of business is the sale and inventory of books in any given large geographical area and the publishing of a specific magazine for that geographical area and general supervision of it. A **Continental Office** handles the traffic of a continent in terms of dissemination and coordinates HCO Area Offices in its zone. It carries on my function of dissemination on a **continental** basis. It also handles ACCs and special events for that continent. An **HCO Continental Office** personnel consists of an HCO Executive Secretary Continental, an HCO Communicator **Continental**, a Magazine Make-up Personnel **Continental**, a Book Administrator **Continental**, one or more Shipping Clerks **Continental**, one or more File Clerks or Stenos **Continental**. (HCO PL 31 Jan 61, *Spheres of Influence*) 2. an **HCO Continental Secretary** is supposed to see that more people hear about Scn on a mass basis-that better handouts and write-ups exist, that Scn stays firm on that continent or part of the world and that HCO Area Offices function well with well-staffed personnel. (HCO PL

31 Jan 61, *Spheres of Influence*) 3. the Offices of HCO Continental Sec and Continental Director exist mainly to increase Scn activity and income in a continental area. (HCO PL 14 Jan 64)

**HCO CONTINENTAL TECHNICAL LETTER**, (dated) red ink on yellow paper. By HCO Continental Secretary of any continent. Distributed as designated on letter. Gives technical advices, orders and data. Not a copy of HCO Bulletins through these may be quoted. (HCO PL 4 Feb 61)

**HCO COPE OFFICER**, 1. the amount of distraction and orders thrown at a HAS is a why for failures to establish the org. The way to cope with all this torrent of distraction and orders is to appoint an HCO Cope Officer. The HAS then does orderly expansion. The HCO Cope Officer handles the noise and screaming emergencies. In actual fact the HCO Cope Officer makes HCO produce in some way, any old way. (HCO PL 10 Aug 71) 2. defends the establishing functions of the HAS by first doing and then getting sections of HCO to do all the functions of HCO. The HCO Cope Officer is actually the product officer of HCO. The senior is the HAS because her product is the whole org. (HCO PL 10 Aug 71) 3. an HCO Cope Officer deals with the mad scramble of backlog, must forbid internal transfers and forbid a rip-up of what is already established. (LRH ED 146 INT)

**HCO CORPORATIONS**, there are five HCO corporations. They are: HCO (WW) Ltd., HCO (St. Hill) Ltd., Scientology Library and Research Ltd., **Hubbard Communications Office** Ltd., and **Hubbard Communications Office**. (HCO PL 30 Sept 64)

**HCO DISSEMINATION SECRETARY**, coordinates and gets done the promotional functions of Division 2 and makes the org and services known to Scientologists. (HCO PL 20 Nov 65)

**HCO DISSEMINATION SECRETARY WW**, supervises contents of all national magazines and handles international dissemination. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**HCO DIV ACCOUNT**, the **HCO Div Account** (old Book Account) has very rigid policy on how this money can be spent. The reason for this is that money must be safeguarded to provide for adequate promotion and sale of books. (BPL 6 Oct 66RA)

**HCO DIVISIONS**, the first two divisions of the entire organization are the HCO divisions. This is known as the HCO portion of the organization. (HCO PL 2 Aug 65)

**HCO ELECTRONIC CONSULTANT**, advises and renders actual electronic engineering service to HCO and the Executive Director in matters pertaining to: electrical and electronic communications; tape recording and record production; electrical and electronic special devices related to technical activities; E-meters; and any other similar services requested by the Executive Director. (HCO PL 16 Aug 62)

**HCO ESTABLISHMENT OFFICER**, establishes and maintains HCO. (HCO PL 7 Mar 72) *Abbr.* HCO Esto.

**HCO EXEC ESTO**, HCO Exec Sec's Org Officer. (HCO PL 9 May 74)

HCO EXEC SEC COORDINATOR, the Executive Division is Division 7. The LRH Communicator is in charge of the division. It consists of three departments. The second department is the Office of the HCO Executive Secretary, Department 20. It is in the charge of the HCO Exec Sec **Coordinator**. (HCO PL 2 Aug 65)

**HCO EXECUTIVE LETTERS**, 1. blue paper, green ink. Meant for every org. Remimeo or non-remimeo as specified. Purpose: carry advices, how to do things, short term projects, requests for data, information, reports on the states of things in general or some activity in particular or how some extreme condition was caused or how some extreme condition is progressing. (HCO PL 13 Jun 69) [The above HCO PL was cancelled by BPL 10 Oct 75 VII.] 2. the normal comm line from the Executive Director to Assn/Org Secs and HCO Secs or department heads in orgs is the HCO Executive Letter of date. This is on legal size blue paper, is mimeographed and is headed to: from: subject: reference: with numbered paragraphs. It is always sent general non-remimeo and goes to all orgs even when addressed only to one org or even to a person in that org. It may also be meant for every org. HCO Executive Director uses these rather than individual dispatches in answering requests for instructions from some org officer so that these rundowns are available to everyone rather than just the querying person. The purpose is to save the repeating of similar orders or advices, in numerous places by separate dispatches which, received by only one person and having no publishing system thereby lose technology and data. (HCO PL 22 Feb 65 III) 3. this will now be on white paper with blue ink, using the old Info Letter flash mark to make SEC EDs easier to identify. (HCO PL 8 May 65 II) 4. from L. Ron Hubbard, usually a direct executive order or a request for a report or data or news or merely information. It is not policy but should be answered if any answer is requested. It is blue ink on green paper. (HCO PL 5 Mar 65 II) 5. an HCO Executive Letter is mimeoed at Saint Hill only, blue ink on green paper. By definition it is a letter from Ron or the Organization Supervisor addressed personally to a Continental or Area Chief (Continental Director or Assn Secretary) but which is of interest to other organizations. As such

communications are often retyped for other orgs, it is easier to mimeo them. They contain interpretations of policy and comments on projects which do not otherwise have a channel of issue. (HCO PL 1 Apr 64, *New Mimeo Line HCO Executive Letter*)

**HCO EXECUTIVE SECRETARY**, 1. in early days there was an HCO Sec in charge of the functions of the first three divisions (Exec, HCO, Dissem) and an Assoc Sec in charge of the functions of the last four divisions. The org board evolved further and the HCO Exec Sec became the person in charge of the functions of the first three divisions and the Org Exec Sec, the last four. In the Sea Org these titles became Supercargo and Chief Officer but the functions were similar. (HCO PL 9 May 74) 2. **Hubbard Communications Office Executive Secretary**. (HCOB 23 Aug 65) 3. Supercargo, Product Officer Divisions 7, 1, 2. (HCO PL 9 May 74) 4. the HES was an org officer and the OES was a product officer. In the first two divisions you find the HES had hatting, forming and so forth and also had the Executive Division which contained the Estate Section. (FEBC 7, 7101C23 SO III) *Abbr.* HES, HCO Exec Sec.

**HCO EXECUTIVE SECRETARY'S COMMUNICATOR**, the title Advisory where used as a helper to an Exec Sec is changed to (HCO or Org) Exec Sec Co unicator for (Division represented). This title has the rank and privileges of a secretary in his own org and in a junior org to the one appointed, the privileges of an Executive Secretary. The purpose of the post is: to communicate for the Executive Secretary and help with that official's purpose by **communicating** on matters and/or handling them relating to the type of division represented and to be responsible to the Executive Secretary for that type of division and to be responsible to the Executive Secretary for that gross divisional statistic. Only in the International Division or in any org having

250 staff members or more would this post be filled. (HCO PL 21 Jan 66)

**HCO EXECUTIVE SECRETARY WW**, the primary duties of the HCO Executive Secretary WW are: (1) international personnel, (2) international ethics files, (3) all org statistics. (HCO PL 12 Feb 70 II)

**HCO EXPEDITERS**, a large org or Flag can have some HCO expediters. These personnel don't go on the org board except as HCO expediters in Division 1. They are used to handle backlogs. You have them work in any area where there is a backlog, when that backlog is handled you put them onto another-you don't transfer them to the post concerned with the backlog, they remain in Division 1. (FO 2314)

**HCO HAS CO-AUDIT FRANCHISE**, a franchise which permits group processing, the running of an HAS Co-audit, the processing of individuals and, eventually, training to professional level. (HCO PL 12 Aug 59)

**HCO HATTING SECTION**, this unit is responsible for ensuring instant **hatting**, apprenticeship and mini **hatting** occur, that a full hat is provided and issued to the staff member and that the full hat is included in the staff member's training program when it is available by the Director of Personnel Enhancement. (FO 2824)

**HCO INFORMATION LETTER**, 1. **an HCO Information Letter** is now to be issued by me only and is blue ink on white paper. This is not mandatory data. It's just news I'd like to see gotten around. (HCO PL 4 Feb 61) 2. (dated, do not change date locally) distribution is indicated on it. By LRH, blue ink on white paper. Copying is optional on a Roneo. It is done on one side of paper only so it can be posted on a bulletin board for staff or public. Two copies are sent by HCO WW. One copy must be retained in master **HCO Info Letter** master file. If it's useful for handout, recopy locally, make appropriate copies and issue and file

as above. Ordinarily, it would be clip-boarded on a staff board or would be copied in a magazine or mimeoed for general handout. Which is done, is indicated on the copy received. (HCO PL 4 Feb 61)

**HCO MASTER FILE**, everything pertaining to technology, i.e. books, leaflets, magazines, tapes, technical bulletins and including other bulletins and all policy letters are to be stamped: HCO MASTER FILE DO NOT REMOVE and HCO Master Files are to receive two of each of the above items with the exception of tapes where there is only one master copy. (HCO PL 25 Feb 59)

**HCO NEWSLETTER**, (dated) blue ink on salmon paper. By any member of HCO WW. Gives data and news, technical, admin or personal of general interest. Usually not copied or mimeoed but clip-boarded on staff bulletin board. (HCO PL 4 Feb 61)

**HCO OFFICER**, (org board of a City Office) HCO Officer is in charge of three units (departments) of the HCO Department (Section 1). (HCO PL 21 Oct 66 III)

**HCO OFFICES**, 1. **Hubbard Communications Offices**. The purpose of the HCO Offices is to act as stable terminals to an organization in any given area so as to provide immediate administrative assistance to L. Ron Hubbard when in that area and communications from operations to him and from him when he is not. (HCO PL 16 Sept 70 II) 2-the functions of this center are: (1) the receipt and handling of correspondence addressed to myself, (2) the answering and delivering of telephone communications relating specifically to communications addressed to me or proceeding from me, (3) the typing of manuscripts and investigation material from my Dimaphon records or personal dictation, (4) compilation of investigation and case information submitted to me by auditors, (5) assistance to the Treasurer in receiving bills and expediting their payment, (6) the care of social and governmental mat-

ters in which I happen to be concerned, (7) maintaining my comm lines in good order. Casual communication with this office inhibits its efficiency and involves it in concerns which inhibit a swift expedition of my work. The Office is not concerned with the activities of the central staff beyond acting as a communications relay point from myself to these operations and from these operations to myself. (HCOB 24 Jan 58) 3. purpose of **HCO Office**: to be the Office of LRH. To handle and expedite the comm lines of LRH. To prepare or handle the preparation of all manuscripts and other to be published materials of Scn. To keep, use and care for LRH's office equipment. To assist the organization of Scn and their people. To set a good example of efficiency to organizations. (BPL 7 Jan 58) 4. there are three types of HCO Offices. These are (1) Worldwide, (2) Continental and (3) Area. In London all three office types exist. In Washington and Melbourne, Continental and Area Offices exist together. Where there is no Continental Office only an Area Office exists. (HCO PL 2 Jan 59) 5. there are three types of HCO office. The first is HCO Worldwide, and that actually is HCO Limited, a British registered company. Now all copyrights, trademarks, rights of materials and everything else, are assigned over to HCO Limited, so they are mine, but are given to HCO Limited for use. HCO Worldwide is located in London. London is the only organization which has a three-stack office. It has HCO Worldwide, HCO Continental, HCO London. There are three HCO Offices working there. There are actually a lot of the personnel just doubling in brass in these offices. But nevertheless they have to keep in sight of the fact that there are three offices. Worldwide, of course, takes care of the central summary of all organizations which are enfranchised, files their financial reports and gets the final summary on all legal actions that have been taken. It sums it all up, in other words. (5812C29)

**HCO ORGANIZATIONAL FRANCHISE**, a second and different type of HCO Franchise is now available in addition to the HCO HAS Co-audit Franchise. The second is the HCO Processing Franchise where individual processing only would be done. There will be a third type some day but it is not available now. This will be an **HCO Organizational Franchise** where the individual works "outside" Scn organizations to bring order into larger non-Scn activities in which he will be helped by HCO as a special activity. (HCOB 12 Aug 59)

**HCO PERSONNEL**, Divisions 7, 1 and 2. The org personnel are Divisions 3, 4, 5 and 6. (HCO PL 20 Aug 65)

**HCO PORTION**, the first two divisions of the entire organization are the HCO Divisions. This is known as the **HCO portion** of the organization. (HCO PL 2 Aug 65)

**HCO PROCESSING FRANCHISE**, a second and different type of HCO Franchise in addition to the HCO HAS Co-audit Franchise. It permits an individual auditor in practice to receive immediate bulletins, discounts, and tests, and requires that he remit 10% of his income from Dn and Scn to HCO WW. This permits the individual to run an individual practice or a guidance center without running an HAS Co-audit. The HCO Processing Franchise is where individual processing only would be done. (HCOB 12 Aug 59)

**HCO PROJECT ENGINEER**, 1. one who furnishes the line impetus, dedication and guidance necessary to the accomplishment of a special Scn research, administration or diplomatic project. (HCO PL 17 Nov 58, *Project Engineering*) 2. There are three types of HCO Project Engineers. First is technical and is assigned to research projects. The second is administrative and is assigned to sales and service projects. The third is diplomatic and is assigned to areas of speci-

al difficulty. (HCO PL 17 Nov 58, *Project Engineers Three Types*)

**HCO PROJECT ENGINEERING**, a specially designed activity covered by special HCO Bulletins. The time requirements are not great for such projects and they are needed to give specific live interest to unique Scn promotions which heretofore, for lack of watching, have failed. Example of an HCO Engineering Project as follows: (1) keeping in stock and alive in ads and the field one book title of Scn, (2) supervision of staff clearing activities, teams and schedules. HCO Project Engineering is needed to give life to special Scn dissemination activities and to give staff auditors a share in the broader activities of Scn and to give them a change of pace through the week as well as to give me assistance in carrying out vital actions. (SEC ED 11, 16 Dec 58)

**HCO RECEPTION**, 1. the purpose of HCO Reception is to bring order to the dispatch and body traffic of HCO, and reduce the dev-t in HCO so that it can get on with its business of forming, stabilizing and expanding the org. The **HCO Receptionist** handles all visitors, staff or public, to HCO and routes them properly or gets them appointments with HCO staff. (HCO PL 5 Sept 71) 2. tabbing folders, preparing materials for admin actions, checking logs, keeping and issuing routing forms and other HCO forms, routing people and giving information and holding, receiving and handing out mail are all part of the hat of **HCO Receptionist**. (OODs 4 Feb 71) 3. an HCO receptionist (not the org receptionist) is as Deep as staff or public may go into HCO. The HCO Receptionist handles all routing forms and such traffic. Any central comm. basket system is behind or near the receptionist. In a public org the HCO Receptionist may call HCO staff out of HCO for interviews for employment or recruitment. HCO Reception is in Department 1, Division 1. Again it is not the org receptionist. That is another post

in the org reception area. Org reception handles all public customers. (FO 2661)

**HCO SECRETARIAL LETTER**, very seldom will you get anything that says "Secretarial Executive Director for Washington D.C. Only" because if it's going wrong in one place, it's going wrong someplace else too. But you do get incidental orders to that effect, so they can't be excluded. Instead of that you get an HCO Secretarial Letter. Now this HCO Secretarial Letter arrives in a central operation and is converted by **Secretarial** Executive Director, after being viewed by the HCO Secretary. It is converted. And it says, "Secretarial Executive Director, HASI, Johannesburg." She types it all up. They are never mimeographed unless they are for the whole staff or something. She puts a copy on the board, she puts a copy to the persons to, and that's it. She issued it. These things are basically policies. They are hats and so on. They may have particularities, but they definitely have lots of policies connected with them. (5812C29)

**HCO SECRETARY**, 1. in early days there was an HCO Secretary in charge of the functions of the first three divisions (Exec, HCO, Dissem) and an Assoc Sec in charge of the functions of the last four divisions. The org board evolved further and the HCO Exec Sec became the person in charge of the functions of the first three divisions and the Org Exec Sec, the last four. In the Sea Org these titles became Supercargo and Chief Officer but the functions were similar. (HCO PL 9 May 74) 2. on the Six Department board the HCO Secretary takes the place of the HCO Exec Sec of a Seven Division Org. (HCO PL 21 Oct 66) 3. HCO Secretary WW, HCO Secretary Continental, or HCO Secretary Area. (HCO PL 4 Mar 65 II)

**HCO SECRETARY WW**, 1. **HCO Secretary WW** is the **Worldwide** level executive for Division 1 (HCO) and a member of the **Worldwide** Council of three of which the

Org Sec WW and the Assistant Treasurer WW are the other two. (HCO PL 4 Mar 65)  
2. is in direct charge of all Continental and Area HCO Secretaries around the world. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**HCO SECURITY FORM 19**, laudatory withholds, know to mystery processing check. (HCO PL 6 Jan 62)

**HCO SPECIAL FUND**, see SCIENTOLOGY RESEARCH AND INVESTIGATION FUND.

**HCO STANDING ORDER NUMBER 1**, correspondence: all mail addressed to me shall be received by me. (HCO PL 18 Dec 61)

**HCO STANDING ORDER NUMBER 2**, messages: a message box shall be placed in all Scn organizations so that any messages for me may be received by me. (HCO PL 18 Dec 61)

**HCO STANDING ORDER NUMBER 3**, information on correspondence: all HCO personnel and Scn personnel should not discourage communication to me. I am always willing to help. By my own creed, a being is only as valuable as he can serve others. (HCO PL 18 Dec 61)

**HCO STANDING ORDER NUMBER 4**, publication of open comm lines: post in permanent fashion on public boards the following excerpts from Standing Orders No. 1 to 3. Communications to Ron: HCO exists to expedite the communications and oversee the policies of L. Ron Hubbard. Excerpts: Standing Order No. 1, "All mail addressed to me shall be received by me." Standing Order No. 2, "A message box shall be placed in all Scn organizations so that any messages for me may be received by me." Standing Order No. 3, "All HCO personnel and Scn personnel should not discourage communication to me." "I am always willing to help. By my own creed, a being is only as valuable as he can serve others." L. Ron

Hubbard. This excerpt should be published in magazines frequently in a small box. It should be made into a permanent material (not paper) sign of good aesthetic appearance and placed conspicuously but in good taste in the reception room of all offices. (HCO PL 18 Dec 61)

**HCO STANDING ORDER NUMBER 5**, all students formally enrolled into any Academy of Scn shall be thoroughly trained. The standard of the lowest professional certificate shall be such as to permit immediate and unashamed use of the student on graduation in any Hubbard Guidance Center. The only lasting overt that can be done with Scn is to fail to disseminate it well and accurately. This includes student training. Students must be trained to expect and achieve spectacular processing results early in training. Students must be oriented during training into caring for the cases of their preclears. In event of a poor or difficult student, it must be demanded by supervisors that the matter be remedied by Review or Ethics. Students must be trained to resolve their problems with Scn. Students must be trained to audit regardless of their own restimulation or cases. When auditing, auditors don't have cases. Students must not be permitted to sag or slack or fall away in attendance and this can be done because all such attitudes result from a student's failure to obtain a reality early in training. We must train new Scientologists so that we can have pride and confidence in them as Scientologists, not from an examination of their record but from the sole fact that they have been academy trained. Students and supervisors alike should fully understand that neither we nor this universe can afford to waste even one potential auditor. (HCO PL 10 Jan 62)

**HCO STATION** that place where an HCO staff member receives, holds and sends his dispatches and work. Appearance: an HCO Comm Station has three baskets, one above the other. The top is marked with the **station**

number or numbers and "in." The middle is marked with "pending." The bottom is marked with "out." These three baskets sit on a corner of a desk or, in case of files, on top of a file case. (HCO PL 20 Dec 58)

**HCO STENOGRAPHER**, 1. purpose: to assist the HCO Secretary and the HCO Communicator in handling, converting, duplicating and filing the items handled by HCO and procurement of supplies thereof. (BPL 7 Jan 58) 2. the Sec'l ED shall publish all Secretarials to the Exec Dir on blue paper, black ink, marked for local area. The Sec'l to the Exec Dir is also **HCO Steno** and is under the HCO Area Secretary. The Sec'l ED shall act as Secretary to the Board where one exists, to the Ad Comm or Ad Council and at staff meeting, shall type, get signed and distribute the minutes. The Sec'l ED shall put into HCO Secretarial Letters any item she is given originally from LRH intended for all orgs. The Sec'l ED shall convert any HCO Sec'l Letter she receives into a Sec'l ED for the local area. (HCO Secretarial PL, 17 Dec 58) *Abbr.* HCO Steno.

**HCO (ST HILL) LTD.**, 1. this is the corporation that runs the course, handles the internal activities of Saint Hill. All student activities and letters concerning the course, quarters, domestic accounts go under this corporation. Only its letterhead is used for these activities. (HCO PL 30 Sept 64) 2. has been organized to care for the course, house, grounds, domestic staff, construction, materiel and all **personnel (Saint Hill)**. (HCO PL 31 Dec 63)

**HCO TECHNICAL ADVICE LETTER**, (dated) red ink on pale salmon paper. By any official of HCO WW. Is always **technical** in nature, never administrative. May be copied as mimeo or not according to its distribution designation. Copied or not it is to be conspicuously posted on the staff bulletin board preferably on a clip-board. It is on one side of the paper only. Even if distributed

into baskets of staff it would still be posted. (HCO PL 4 Feb 61)

**HCO TECHNICAL MATERIAL SECRETARY WW**, this post includes **Book Administration WW** as well as the testing and supply of E-meters, and the administration of all matters pertaining thereto. (HCO PL 15 Feb 62)

**HC OUT-POINT PLUS-POINT LISTS RA**, HCO Bulletin 28 August 1970RA, *HC Out-point Plus-point Lists RA*. This is a **prepared** list that locates the Out-Points in a De son's own thinking. When people can't seem to evaluate (or think brightly) this list will do wonders. Some Data Series Course students make no progress at all until they are assessed on this list and handled. (LRH ED 257 INT)

**HCO VOLUNTEER SECRETARY**, 1. the title and post of **HCO Volunteer Sec** is abolished. As from now, such personnel, working in the field, will be known simply as HCO City Secs. The scheme will be entirely disassociated from the franchise scheme. Therefore no person who is currently a franchised auditor will simultaneously be an HCO City Sec, or be appointed to the post. The HCO City Sec is ideally a dedicated person, working for the third dynamic of Scn in the area where he/she operates. He/she has no vested interests, indulges in no personal politics with regard to the other auditors in the area. His/her sole aim and purpose is to act as an HCO terminal and relay point for the area, in close cooperation with the Continental HCO of the area, with the purpose of coordinating the dissemination and effectiveness of Scn in the area. (HCO PL 3 Sept 61) 2. purpose: to ensure the survival of enfranchised auditors in the field and future organizational centers. To handle all ethical matters among the auditors by remaining impartial and being loyal to LRH at all times by helping him wear his hats in this regard. To be the direct commu-

nication terminal between LRH and the field. (HCO PL 5 Aug 59) [The above HCO PL was cancelled by BPL 10 Oct 75 III *Abbr.* HCO Vol Sec.]

**HCO WORLDWIDE**, there are three types of HCO Office. The first is **HCO Worldwide** and that actually is HCO Ltd., a British registered company. Now all copyrights, trademarks, rights of materials and everything else are assigned over to HCO Ltd. So they are mine but are given to, for use, HCO Ltd. Now **HCO Worldwide** is located in London. London is the only organization which has a three-stack office. It has **HCO Worldwide**, HCO Continental, HCO London. **Worldwide** takes care of the central summary of all organizations which are enfranchised, files their financial reports, gets the final summary on all legal actions that have been taken and sums it all up, in other words. **HCO Worldwide** issues a franchise to a Central Organization. That franchise is the thing which gives them the right to materials, the use of trademarks, it gives them the use of copyrights, it gives them several services and rights. Now for that they pay 10% of the gross. Now here's what we have essentially. We have a **Worldwide** organization called **Hubbard Communications Office** which holds all of the copyrights all around the world, all of the trademarks and everything else. Now this organization enfranchises local organizations. It tells them they can operate and if they do not have a franchise in good standing they cannot operate. (5812C29)

**HCO (WORLDWIDE) LTD.**, 1. **HCO (Worldwide) Ltd.** with the Organization Supervisor for all Scn organizations around the world and locally will include reception, mimeo, communications, telex, accounts, addresses, central files and franchise. I remain as Executive Director. (HCO PL 31 Dec 63) 2. this is the corporation that manages international organizations. It has the magazines we publish and handles the inter-

national communication lines. All photography and its accounts come under this corporation, also. Use its letterhead for these. (HCO PL 30 Sept 64)

[The above **TWO PT**, was cancelled by BPL 10 Oct 75 III.]

**HCO WW FORM AC 1**, **AC 1 Form**. (HCO PL 19 Sept 62) [The above HCO PL was cancelled by BPL 10 Oct 75 IV.]

**HCO WW FORM CT 1**, check type one. Preintensive interview and pre-goals assessment check. Before the preclear is audited in an intensive where SOP Goals may be employed the checksheet is filled out by the D of P and passed by PC before a goals assessment is made. There are eight types of checkouts that the D of P does on a PC. Each one of these is the subject of a technical report form. They are in red ink on white paper. (HCO PL 31 Mar 61)

**HCO WW FORM CT 2**, 1. D of P form check type one. In view of improved technology and the fact that I've found there aren't enough questions to produce a tone arm shift in D of P's check type one, I have rewritten it. (Pre-intensive interview and pre-goals assessment check.) Before the preclear is audited in an intensive where SOP Goals may be employed the checksheet is filled out by the D of P and passed by PC before a goals assessment is made. (HCO PL 25 Apr 61) 2. check type two assessment confirmation. Check by D of P to confirm case assessment, goals assessment, terminal level and command. Done before any of these are run on PC. Questions are made to PC with PC on the meter. (HCO PL 31 Mar 61)

**HCO WW FORM CT 3**, **check type three**. General **checkup** on a session. May be run at any time or when D of P unconvinced of case progress. (HCO PL 31 Mar 61)

**HCO WW FORM CT 4**, **check type four**. Rudiments check. After eight or ten hours of auditing on processes that were in model session (not CCHs) the D of P checks rudiments to make sure that they are cleaned up. (HCO PL 31 Mar 61)

**HCO WW FORM CT 5**, check type five. Flat check. When the staff auditor states that

the terminal he has been running is now flat the D of P makes a very careful check before he permits a new assessment to be started. The TA does not have to be on clear read for a terminal to be flat. (HCO PL 31 Mar 61)

**HCO WW FORM CT 6**, **check type six**. Bog check. Done when the auditor reports or D of P thinks case is not progressing well. (This is a "when all else fails" check off.) (HCO PL 31 Mar 61)

**HCO WW FORM CT 7**, **check type seven**. A "release" checksheet. Made out on the PC at any time but preferably at a time when the PC is to receive no further intensives at the moment or is leaving the HGC. (HCO PL 31 Mar 61)

**HCO WW FORM CT 8**, check type eight. Clear check. D of P checks out this form and then sends it to HCO Area See for a second checkout. The whole PC file folder with all filed forms, assessments, various sheets and auditor's reports are to hand when this checkout is done. Check over all goals listed on the goals assessment sheet and any subsequent additions. Look for a fall of the needle on any of them. Any fall disqualifies the PC. Check over all terminals listed in all auditor's reports and note any fall on any of them with high sensitivity. Any fall disqualifies PC. We find the needle without reaction and pronounce this person to be Clear. (HCO PL 31 Mar 61)

**HCO WW FORM DEP/1**, departure form. This form must be completed by a student before any departure from course. (HCO PL 8 Nov 62, *Departure Form*)

**HCO WW FORM G3**, **R3GA HCOWW Form G3 Fast Goals Check**. This is a rapid checkout of a **goal** for use by auditors and particularly instructors and auditing supervisors. By an auditor it is done in model session. By an instructor or supervisor it is done as a simple checkout. (HCO PL 24 Jul 62)

**HCO WW FORM G3**, REVISED, R3M **HCO WW Form G3**, revised fast **goals** check. This is a rapid checkout of a **goal** for use by auditors and particularly instructors and auditing supervisors. By an auditor it is done in model session. By an instructor or supervisor it is done as a simple checkout. (HCO PL 6 Mar 63)

**HCO WW R-3GA FORM 1**, **Routine 3GA HCO WW R-3GA Form 1**, listing prepcheck. Prepcheck completed as a form for the PC before and during listing of **goals**, and before beginning to list items for any **goal** from the four lines, and during listing. It must thereafter be done every fifth session. The form must be made out for the PC and included in his or her folder. (HCO PL 17 Jul 62)

**HCO WW SEC FORM 4**, sec check whole track. (HCOB 19 Jun 61)

**HCO WW SEC FORM 5**, student **security** check. (HCO PL 29 Jun 61)

**HCO WW SEC FORM 5a**, **security form** for all HPA/HCA and above students before acceptance on courses. (HCO PL 1 Nov 61)

**HCO WW SEC FORM 6**, HGC auditor's sec check. This check is suitable for anyone who has done a fair amount of auditing, and also for students in professional level courses in the later part of the course. (HCO PL 7 Jul 61 II)

**HCO WW SEC FORM 6a**, for use by Class II or above auditors only. This is a shortened version of HCO WW Sec Form 6, the valuable processing check for auditors to get off their overts on preclears. (BPL 3 Feb 62R)

**HCO WW SEC FORM 8**, 1. a processing check for use on children (ages 6-12). (HCOB 21 Sept 61) 2. HGC pre-processing security check (for PC's beginning intensives). This check is to be given by HGC Admin on interviewing applicant. It is a pre-processing security check. The person gi-

ving the check does not have to find out or get off any withhold as this is not a processing check. (HCO PL 23 Oct 61) [These two **HCO WW Sec Form 8s** are completely different forms as defined but have the same number.]

**HCO WW SECURITY FORMS 7a AND 7b**, these two security checks have been devised specifically for employment, i.e., to check applicants for employment, or personnel already employed. (HCOB 28 Sept 61)

**HEAD MIDSHPMAN**, **midshipmen** are junior officers in training to be good officers, so they have the duty of: (1) thoroughly learning navigation (2) doing the officer's checksheet. A **head midshipman** should be appointed to teach the **midshipmen** the above. (FO 1592)

**HEARSAY EVIDENCE**, saying one heard somebody say that somebody else did. (HCO PL 7 Sept 63)

**HEAVY ETHICS TRIP**, this is what a heavy ethics trip is made of-the irresponsibility of lower officers for their own people becoming a threat to the survival of the group. The society punishes the high senior for the misconduct or irresponsibility of his juniors. Therefore an officer at whatever level in a chain of command must take re-

sponsibility for his juniors and their ethics. (FO 3408)

**HEAVY HUSSARS**, see LRH HEAVY HUSSARS HAT.

**HEAVY TRAFFIC WARNING**, a warning to any department of heavy traffic coming. It is to take steps to see that the department is adequately supplied with the materials necessary to handle the coming traffic. It's just a case of having a little foresight. (HCO PL 2 Apr 65, *Heed Heavy Traffic Warnings*)

**HEDGING**, the practice of making counterbalancing investments or decisions as a means of protecting oneself against possible losses from high-risk investments or actions.

**HELPER**, 1. a person who helps a skilled tradesman on the job and thus learns how to do the job actions. A helper differs from an apprentice or trainee in that he has often had little or no formal trade or technological education and may be lacking in the theory behind the job actions of a trade. 2. a blue-collar term for which assistant is the corresponding white-collar term.

**HELP FACTOR**, the willing to assist. This also has to do with cause. What can the individual cause? An organization which cannot help anybody will have a tendency to fail. (ESTO 12, 7203CO6 SOII)

**H.E.&R.**, see HUMAN EMOTION AND REAG TION.

**HERRING EFFECT**, the mobs of people are sufficiently numerous today to cause a **herring** effect. No one herring is given any attention by the rest of the **herrings**. Public Relations attempts to break out of this inattention by being a more startling herring. But if overdone, the rest of the herrings believe one is a shark. (HCO PL 12 Nov 69)

**HEY YOU ORGANIZATION**, what is sometimes called a **hey you organization** is one that takes orders from anyone = a repea-

ting out-point of wrong source. (HCO PL 30 Sept 73 I)

**HGC 2**, when the well done hours go above 600 a week, a whole new HGC is put in duplicating the first, with its own C/S, D of P, T/S auditing rooms and auditor admin room. It would be **HGC Section Two or HGC 2** with the original being HGC 1. (HCOB 5 Mar 71)

**HGC ADMINISTRATOR**,. **HGC admin** **procures** and assigns auditors, gives applicants from the registrar their case estimates, keeps the files of cases, oversees proper auditor handling of forms, oversees testing or gets it done for HGC PCs when PE testing is closed, finds and assigns rooms for auditing and keeps, in general, the lines moving in the HGC. (HCO PL 20 Dec 62)

**HIDDEN ASSETS**, see ASSETS, HIDDEN.

**HIGH CRIME CHECKOUTS**, those done starrate by Qual personnel on the auditors, C/Ses, supers, D of T, Cramming Officer or anyone in the org delivering a technical service. **HIGHER ORG**, an org that delivers higher services than those of a Class IV Org, i.e., an AO, SH, or AOSH. (HCO PL 10 Feb 72R III)

**HIGH HATTING**, a term applied to a practice of wearing only one's highest hat in a small org using the comm member system and also in receiving an order or advice as a lower comm member and "going upstairs" with one's hats to refuse it. In a very small org, it is very wise to write from the hat one is talking about to the comm member in a bigger org that wears that hat, and then, in receiving the reply, receive it as the hat that asked the question or sent the data. (HCO PL 13 Mar 65 II)

**HILL 10**, 1. slang for a situation that has been worsened by delay or false reports or hat dumps or non-compliance and becomes a mad rush by other persons or a senior to handle. (FO 3407) 2. our slang for a situation of great complexity requiring rush actions which must be exactly timed. (OODs 2 Nov 73) 3. a Hill 10 is where you have to get everything set up with no time whatever to set it up and yet it must go right. In short,

it's a battleplan that is frail and exact and in total emergency. (OODs 7 July 72)

Hill 10

An honorary certificate may not be substituted for a standard certificate or classification and may not be required as a qualification for anything and does not waive any requirement to have a certificate or classification. Honorary certificates and **awards** are only given for achievement in application. They do not however grant any new right to apply. Memorial **awards** are medals or plaques and have the same conditions as **honorary** certificates. (HCO PL 5 Mar 65)

**HONORARY SEA ORG MEMBER**, celebrities are very special people and have a very distinct line of dissemination. They have comm lines that others do not have and many medias to get their dissemination through. Because of their value as disseminators it is unwise to make them staff members working full time as any other Sea Org

member does in an organization, rather they should be allowed to be the celebrity they are, utilizing their talent, to get them more and more into the public eye. If these celebrities want to join the Sea Org they may be awarded the status of Honorary Sea Org Members. This title is not given to just any celebrity but rather to those who have shown and proved their dedication to the Sea Org. This title is awarded to those celebrities, this makes them no less a Sea Org member than any other but it does free the celebrity up to disseminate broadly. (FO 3323)

**HONORARY STAFF MEMBER**, a person who has the same rights and privileges as a permanent **staff member**. (SEC ED 75, 2 Feb 59)

**HONORS**, any classification may be issued with honors providing the candidate has exceeded the checksheet requirements by a notable degree and is also eligible for the upper classification range of that certificate. (HCO PL 1 Apr 72) 2. (**horizontal fast flow** communication routing) the normal flow lines of an org are **horizontal**. They do not go up, over and down on the organizing board. They pass from one unit to another sideways without going through seniors. Almost all dispatches should travel in this way. It is fast flow. None of the comm ever goes to the originator's senior or to the receiver's senior. Only when something goes wrong or there is a conflict do

seniors get consulted or dive in on the line. (HCO PL 25 Oct 71 I)

**HORIZONTAL INTEGRATION**, see INTEGRATION, HORIZONTAL.

The correct definition is (and was for 20 years) hot prospect = someone interested in training or processing. (FBDL 198) 2. (Class IV Org definition) someone who had expressed an interest in training or processing. (ED 459-37 Flag) 3. (AO-SH definition) someone who says he is coming. (ED 459-37 Flag) 4. anyone who has recently expressed a wish to be processed or trained. (HCO PL 21 Sept 65 VI)

**HOT PROSPECT LETTER REGISTRAR**, 1. the person appointed

should be your most upstat **Letter Registrar** and be posted in the **Letter Registrar Unit** on the org board but should sit at a desk *next* to the ASR and write to all those persons advance scheduled in the reservations book. (BPL 18 Feb 73 III) **2. the Hot Prospect Letter Reg** is vital. She's your hottest channeler. Her whole interest is to get the person signed up fully paid and on the course on or before the scheduled date. The **Hot Prospect Letter Reg** writes to all persons scheduled with the aim of getting them in the org on or before their arrival data. She gives particular attention to those scheduled to arrive in 4-6 months (names are obtained from the ASR). These persons she hits hard as they produce the high income and are the most upstat. (HCO PL 18 Feb 73 IV)

**HOT SHOT REG CLUB**, 1. a club for registrars of any org or franchise with officers, all AOLA reg personnel. A sort of honesty club to prevent reges from different orgs descending upon one person with money and pulling at him from all directions. (FBDL 151) 2. the most senior org of each area is authorized to conduct such a club. The purpose of the club is: to help Ron raise the standard of registration through correct application of policy and to use same to resolve registration problems, difficulties and upsets encountered on the sales lines so that public make forward progress on up the bridge to Clear and OT. Club membership is open to all sales personnel of orgs, franchises and FOLOs (FSCs included) of that particular continent. (SO ED 306 INT)

**HOT SPOT**, What is a **hot spot**? Where everything is going to hell? No, not necessarily. It's where attention would save you a great deal of trouble and would make you a great deal of money. (7205C18 SO)

**HOURLY EMPLOYEE**, see EMPLOYEE, HOURLY.

**HOUSE CAPTAIN**, each Sea Org house has a House Captain, who is overall respon-

sible for the condition of the **house, household** functions and **household** group activities. In the case where the shore unit has only one house for crew quarters, this person is automatically the Estates Officer of the unit. (FO 3176R)

**HOUSEHOLD SERVICES CHIEF**, chief steward. (FO 3175)

**HOUSEHOLD UNIT**, 1. a separate org aboard Flag. It is the highest production unit on the planet as the Commodore and CS-G are the production division of the org. It provides the personal service necessary to keep all distraction off of these high speed lines. The kinds of posts available are personal services, cooking, purchasing, external logistics, driving, vehicle maintenance, construction and planning, Esto, D/Captain and more. (BO 88, 1 Oct 73) 2. the purpose of the Commodore's Household Unit is to provide superlative service to the Commodore and his family, spotless quarters and all the comforts of home, aboard ship. (FO 2345) *Abbr.* HU.

**HOUSEHOLD UNIT EXPENSES**, expenses involved in research and command care and activities as designated by LRH Pers Comm. (FSO 74)

**HOUSEHOLD UNIT PURCHASER**, the HU Purchaser purchases for: the Commodore, CS-G and the Hubbard family. (F SO 71 1R) [The purchasing lines and procedures for this post are contained in BPL 14 May 1975, LRH Logistics Orders.] *Abbr.* HU Purchaser.

**HOUSEKEEPER**, looks after the Manor, its supplies and cleanliness. Buys all food and handles domestic accounts. Safeguards supplies and safeguards against damage and breakage. Keeps consumable supplies under lock and issues as needed. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**HOUSE MEETING**, the House Captain may at his own discretion call a **house mee-**

**ting** of all his house members. Meetings should be held a minimum of once a week, or more often as required. Times for such is determined by the House Captain but must be outside of org working hours. Resolutions may be drawn at the **meeting**, presented to the CO and LRH Comm for approval for issue, and implemented. Such things as house decor, painting, furnishings, etc., may be decided by the group, planned and proposed in the minutes for implementation. (FO 3176R)

**HOUSE ORGANIZATION**, just as messes have an organization, so do Sea Org crew quarters. People are cared and accounted for in their quarters just as they are in their org. They are not set adrift to find their own berths as best they can or to wander around in search of living quarters. These things are provided by a set predictable system that allows planning to occur and the individual crew member to take his attention off personal worries and to allow increased org production and therefore overall bettered conditions. (FO 3176R)

**HUBBARD**, L. Ron Hubbard, Founder and Source of Dn and Scn. (BPL 13. Jul 73R)

**HUBBARD ADMINISTRATOR CERTIFICATE**, 1. issued to (1) any staff member, currently on staff, who does not qualify for a Hubbard Executive Certificate; or (2) any person who has previously worked on the staff of a Scn organization no matter how briefly who does not qualify for a Hubbard Executive Certificate. (HCO PL 16 Jun 64) 2. certificate issued to properly qualified persons who have served two or more years on the staff of an HCO or Scn organization in the Administrative Division and who have passed the required examination; or who have successfully completed a course in **administration** given by a Scn organization. (HCO PL 12 Aug 63)

**HUBBARD ADVANCED AUDITOR**, Class IV **Auditor**. This level teaches about

abilities (Service Facsimiles). End result is ability to **audit** others to Grade IV Ability Release. (CG&AC 75) *Abbr.* HAA.

**HUBBARD ADVANCED TECHNICAL SPECIALIST**, Class IX **Auditor**. This level teaches about advanced developments. Processes taught are advanced procedures and developments since Class VIII. End result is ability to audit advanced procedures and special rundowns. (CG&AC 75) *Abbr.* HATS.

**HUBBARD APPRENTICE SCIENTOLOGIST COURSE**, 1. this level teaches about elementary communication and control. Processes taught are training drills on communication and to put the student at cause over the environment (TRs 0-4). End result is improved ability in the origination and handling of communication and in handling oneself in life situations and predicting and handling others. (CG&AC 75) 2. this is another data course. It has no auditing connected with it. The "theory" part of the course consists of a painstaking coverage of *Dianetics: The Original Thesis* page by page. It is gone over with great thoroughness and no word is left in doubt in the student's mind. The HAS has a second stage course called the practical course. It uses the TRs to teach people to communicate. (HCO PL 31 May 65)

**HUBBARD ASSISTANT ADMINISTRATOR**, certificate issued to properly qualified persons who have served one year or more in an HCO or Scn organization in the **administrative** division and who have successfully passed the examination of a permanent staff member as issued or amended; or who has successfully completed a course in **administration** given by a Scn organization. (HCO PL 12 Aug 63)

**HUBBARD ASSOCIATION OF SCIENTOLOGISTS**, an organization. The response to that organization was very good. The purpose of the organization was simply to

have a central point of dissemination, where the materials of Dn and Scn could be put out without any great turmoil, turbulence, vias, and to train people in the subject who wanted training, and to give people help and information, who wanted help and information. That is what the HAS was formed to do. (551OC08) *Abbr.* HAS.

**HUBBARD ASSOCIATION OF SCIENTOLOGISTS INTERNATIONAL**, 1. the company which operates all Scn organizations over the world and Saint Hill. (HCO PL 20 Feb 65) 2. the first organization we ever had in Scn was the Office of L. Ron Hubbard. That was the old Phoenix, Arizona, office that I first put together. It eventually became HASI. (SH Spec 57, 6504CO6) 3. the principal Scn organization in the world is the **Hubbard Association of Scientologists International**. The **HASI** in (city) controls all Scn in (country). The HASI is (country's) largest mental health organization and has a dozen practitioners for every one in other mental practices. The **association** is not political in nature. It is humanitarian. (HCO Info Ltr 14 Apr 61) 4. HCO has no interest in the number of personnel employed by HASI in tech or admin, this being entirely up to the Central Org officers. If **HASI** thinks it can get along with far less and still render service acceptable to HCO, then it's all up to HASI. HCO's primary function today is to do broad dissemination and drive business in on the Central Org by any means within HCO's power. On promotion, driving in people on the Central Org is a primary function. This does not mean individual people. It means masses of people. HCO deals in masses and mobs and HASI deals in individuals. HCO is a mass dissemination organization. HASI is an individual service organization. HCO is the "Madison Avenue" of Scn, meaning it's the advertising broad public presence unit. But "Madison Avenue" does not run the business it serves. It only makes them look brighter to

the potential public. I think this gives us a new look at HASI-HCO relationships and their zones of responsibility. (HCO PL 28 Oct 60, *HASTHCO Relationship Discussed*) 5. a religious fellowship to which all the people interested in Scn or the higher level, higher echelon of life as a science belong. This organization (the HASI) was put together by myself first as the HAS and then there was a Raw in its incorporation papers (which flaw is just simply an attorney's foolishness-he didn't state accurately whether it was a profit or non-profit corporation). In order to get over that we organized the HASI. In other words changed its name to **Hubbard Association of Scientologists International**. By the addition of that name we got a reincorporation of it merely to clarify its corporation papers. That organization is mainly a professional organization of auditors. It still does publishing, it does handling and more important than that it has a Corporation Service Department and that handles the various business matters for a percentage of these other corporations. The HASI is employed by other corporations which have different boards entirely to do its business. Rather than have a big staff for the Foundation (Hubbard Dianetic Research Foundation) which handles the certificates and handles the mailing the Foundation simply hires the HASI staff to do this. (541OC04) 6. the HASI is not a successor corporation to the HAS. The HASI is a religious fellowship and it is in company with and affiliated with but is not the same corporation as the Church of American Science on the one hand and the Church of Scientology on the other hand. These are three organizations which fit together with the sole and avowed purpose of doing something about the human soul, about life in general. The two churches involved there simply form the public organizations of the HASI. With these two corporations we form public congregations and so forth. The public would belong to one of these churches individually.

But everybody managing or having anything to do with that church really on an official basis would actually be a member of the HASI. The public doesn't belong to the HASI. The public belongs to the church. (541OC04) 7. purpose: to disseminate Scn. To advance and protect its membership. To hold the lines and data of Scn clean and clear. To educate and process people toward the goal of a civilized age on earth second to none. To survive on all dynamics. (HCO London, 9 Jan 58) *Abbr.* HASI.

**HUBBARD ASSOCIATION OF SCIENTOLOGISTS INTERNATIONAL INCORPORATED**, 1. (not pertinent to the

U. S. offices) unless HASI Inc. is in full force the central organizations may not sell memberships as they will be subject to tax and other complications. Scn organizations in England, Australia and South Africa as well as Saint Hill are owned and operated by **HASI Inc.** (HCO PL 6 Nov 64) [See the reference HCO PL for a fuller explanation of HASI Inc., HASI Ltd. and HASI.] 2. all HASI Inc. offices are religious corporations. In the HASI Inc. incorporation papers the corporation is clearly designated as a "religious fellowship." (HCO PL 29 Oct 62) *Abbr.* HASI Inc.

**HUBBARD ASSOCIATION OF SCIENTOLOGISTS INTERNATIONAL LIMITED**, 1. unless HASI Inc. is in full force the

Central Organization may not sell memberships as they will be subject to tax and other complications. It is of considerable, even vital interest to all Association Secretaries and HCO Secretaries of the UK and Commonwealth that no transfer or property, funds, business, leases or goodwill from Hubbard Association of Scientologists International, Incorporated in Arizona, has ever been made to any other corporation. No property goodwill or assets was ever transferred to HASI Ltd. or to any smaller company anywhere in the world. Scn organizations in England, Australia and South Africa

as well as Saint Hill are owned and operated by HASI Inc. Some years ago I sought to organize HASI Ltd. as a public corporation to receive these assets but for some reason no non-profit status was granted it by Inland Revenue of the United Kingdom. HASI Ltd. is dormant. (HCO PL 6 Nov 64) 2. HASI Ltd. is a public company, rather than a private company, and as such can advertise shares if the prospectus is okayed by the Registrar of Companies, UK. HASI Inc. does not become EIASI Ltd. HASI Ltd. is another corporation. It will receive the assets of HASI Inc. at a date to be announced later. This will be the "transfer date." Until this date HASI Inc. continues to run as itself. (HCOB 18 Jul 60) 3. according to general advices, **HASI Ltd.** is going forward according to schedule and will be a going concern by the 30th July. The opinion of Inland Revenue has been solicited and with some minor changes has been favorable to the corporation's having the status of non-profit. This makes the payment of income taxes in any country by any Central Organization unnecessary. There are however several steps you will have to take in order to complete this transfer from HASI to HASI Ltd. These steps consist of a total inventory and evaluation of all equipment, assets and materials held by each Central Organization. Also it is necessary for me to have an exact rundown of the total income from the beginning of each Central Organization to date. I also need an exact rundown of the debts and liabilities of each Central Organization. This is necessary in order to get permission from the Bank of England for the limited company to accept these liabilities. (HCO PL 27 Jun 59) *Abbr.* HASI Ltd.

**HUBBARD BASIC SCIENTOLOGY AUDITOR**, the graduate of the **Hubbard Basic Scientology Auditor** Course is awarded the certificate of **Hubbard Basic Scientology Auditor.** (BPL 13 Mar 74RA II)

**HUBBARD BASIC SCIENTOLOGY AUDITOR COURSE**, the course produces an **auditor** who has **basic auditing** skills in and can apply the technology of his skills to help others, and can deliver the Second Southern Africa Special Rundown. (BPL 13 Mar 74RA II)

**HUBBARD BOOK AUDITOR**, 1. this level teaches about application of Dn and/or Scn data in life. Processes taught are application of data in Dn and Scn **books**. End result is ability to help self and others through the application of data contained in **books** of Dn and Scn. (CG&AC 75) 2. the offer of this certificate may be made in mailings to persons who have bought books. The sole requirements are that they have read the **book** and done "some" processing on another successfully. The application is for a certificate as HBA. (HCO PL 7 Apr 65) *Abbr.* HBA.

**HUBBARD CERTIFIED AUDITOR**, 1. Class II Auditor. This level teaches about overt acts and withholds. End result is ability to audit others to Grade II Relief Release. (CG&AC 75) 2. HCA is ranked as the U. S. version of Commonwealth HPA. HCA/HPA is the certificate at Level III. (HCO PL 11 Dec 63) 3. the certificates **Hubbard Certified Auditor** for the U.S. and Hubbard Professional Auditor for the UK and Commonwealth will continue as the professional certificate issued by Central Organizations. It is given for successful completion of an Academy HCA/HPA Course. This certificate is requisite for the Saint Hill Special Briefing Course. (HCO PL 12 Aug 63) 4. an early course taught in Scn churches only. The certificate of HCA (or HPA, the British equivalent) was awarded by examination only. (HCOTB 12 Sept 56) *Abbr.* HCA.

**HUBBARD CHART OF HUMAN EVALUATION**, 1. application of the **human evaluation chart** permits the student to estimate with some exactness the behavior

and reactions he can expect from the human beings around him and what can happen to him as a result of association with various persons. Additionally, the use of **human evaluation** permits the individual to handle and better live with other human beings. (SOS, p. x) 2. on the many columns of this **chart** we find the majority of the components of the human mind and all those necessary to process an individual. (SOS, P. xxxiii)

**HUBBARD CLEARING SCIENTOLOGIST**, 1. certificate no longer issued but converted to Hubbard Senior Scientologist. Hubbard Senior Scientologist may be given for HCA/HPA retreat. (HCO PL 12 Aug 63) 2. formerly Level IV certificate. (HCOB 23 Aug 65) *Abbr.* HCS.

**HUBBARD CLEARING SCIENTOLOGIST COURSE**, 1. the academy also teaches an upper level course once or more a year known as the B. Sen. (**Hubbard Clearing Scientologist**) Course. (HCO PL 20 Dec 62) 2. purpose: to educate auditors in the techniques and skills necessary to clear human beings. (HCO PL 27 Nov 59) 3. the tapes for B. Scn and HCS courses are now as follows: 5th London ACC tapes, 21st U.S. supplementary tapes. These are the total data given in these units. (HCO PL 10 Mar 59) 4. this course should sell well. It is an exact duplicate of the 20th ACC and should be instructed by a graduate of the 18th, 19th or 20th ACC. It is released now to bridge in the gap between ACCs. (SEC ED 18, 2 Jan 59)

**HUBBARD COLLEGE OF IMPROVEMENT**, (Flag) **Hubbard College of Improvement** is under the Department of Training. It supervises the OEC, FEBC, HPCSC, Mini Course Supervisors Course, and Solo. (FSO 388) *Abbr.* HCI.

**HUBBARD COMMUNICATIONS OFFICE**, 1. it's in charge of the org boards, in charge of the personnel, it's in charge of

hatting, it's in charge of the **communication**, which gives it **communication** lines, because an organization consists of the lines. It's in charge of inspection and it's in charge of ethics. HCO builds, holds, maintains, mans and controls the organization and it's the orders issue section. (FEBC 8, 7101C24 SO 1) 2. a stable point to which can be communicated **communications** and difficulties in any area and these **communications** are forwarded to the proper terminal in the organization, or an analysis is made of the difficulty and communicated to another HCO terminal for clarification there. In addition to that, LRH may require reports on or about a given area and it is up to the HCO Office to supply this information. The HCO should consider itself more of a troubleshooting unit than a secretarial office. It is true that it is an office, and it must be conducted precisely as an office. It is true that it is secretarial and it is also true that it does have the function of being an extended pair of eyes for LRH. (HCO PL 16 Sept 70 II) 3. few people realize that HCO is actually a separate company. It is the worldwide comm network of Dn and Sen. As its finances and personnel are meshed in with the rest of the org, its identity does not stay visible. But note it is still called HCO and the rest of the divisions are called "the organization" and it is divided off on the org board. (HCO PL 7 Feb 70 II) 4. HCO was originally organized as the Division I used to operate the org. The HCO Area Secretary was looked on as my secretary. (LRH ED 129 INT) 5. (Ship Org Board) Division 1, HCO, is known as the Communications Division and the Third Mate is its divisional officer. (FO 1109) 6. HCO is the justice agency of Scn and Scientologists in addition to other functions. (HCO PL 17 Mar 65 II, *Rights of a Staff Member; Students and Preclears to Justice*) 7. this was the original HCO, a private unincorporated business which was taken from London when we came to Saint Hill. It became the Hubbard Association of Scientolo-

gists Inc. Worldwide Division. This HASI was an American company. HASI Inc. still owns all the property and equipment as it has never been transferred by formal board action. But this company (HCO) is dormant and its letterhead should never be used. (HCO PL 30 Sept 64) 8. purpose: to be the Office of LRH. To handle and expedite the communication lines of LRH. To prepare or handle the preparation of manuscripts and other to-be-published material of Sen. To keep, use and care for LRH's office equipment. To assist the organizations of Scn and their people. To set a good example of efficiency to organizations. (HCO PL 12 Oct 62) 9. **HCO is (1) a communications office** and (2) a technical and admin library that gives it something to communicate. (HCO PL 4 Feb 61) 10. Central Orgs as such have a poor reputation for originating and executing new promotion. HCO is responsible for broad new dissemination projects. HCO's primary function today is to do broad dissemination and drive business in on the Central Org by any means within HCO's power. HCO is a mass dissemination organization. HASI is an individual service organization. (HCO PL 28 Oct 60, *HAS/HCO Relationship Discussed*) 11. **HCO** is basically a communications office. This means fast relay. (HCO PL 14 Oct 59) 12. **Hubbard Communications Office** is the enfranchising agency of Dn and Scn and has the say on all copyrights and trademarks, rights of materials and the issuance of publications. HCO is the examining and issuing agency of all certificates and awards. (Abil 95, 1959) *Abbr.* HCO.

**HUBBARD COMMUNICATIONS OFFICE BULLETINS**, 1. written by LRH only. These are the technical issue line. They are valid from first issue unless specifically cancelled. All data for auditing and courses is contained in HCOBs. An org needs a master file of them (and their stencil file) from which to prepare course packs.

These outline the product of the org. They are distributed as indicated, usually to technical staff. They are red ink on white paper, consecutive by date. (HCO PL 24 Sept 70R) 2. are senior to all other orders in tech. Only HCOBs may revise or cancel HCOBs. HCO PLs and HCOBs require passing by LRH or the full authority of International Board Members as well as the Authority and Verification Unit. (HCO PL 9 Aug 1972) 3. the material contained in **HCO Bulletins** applies to the first dynamic-self, the individual. In applying HCOBs as in auditing a pre-clear, you see that following a certain procedure results in the remedy of a certain personal situation. Survival is the keynote of the end result. HCOB auditing tech increases the survival of the individual as an individual. (HCO PL 11 Apr 70) 4. technology is covered in **HCO Bulletins**. **HCO Bulletins** are written by or (more rarely) for L. Ron Hubbard and are issued by **HCO and HCO Secretaries**. They do not require sanction by the International Board. No one else may issue or authorize an **HCO Bulletin**. **HCO Bulletins** are recommended technical data. Certificates are awarded on the data contained in them and violation of it can therefore cause a suspension of the certificate. This is the main power of the **HCO Bulletin**. (HCO PL 5 Mar 65 II) 5. my priority line here is an **HCO Bulletin**. That means technical. If originated by me only it is on white paper with red ink. It must be copied by an HCO office on white paper with red ink. No copies of it must be made with any other color scheme. No other type of mimeo is permitted to use this color scheme. (HCO PL 4 Feb 61) *Abbr.* HCOB.

**HUBBARD COMMUNICATIONS OFFICE EXECUTIVE SECRETARY,** see HCO EXECUTIVE SECRETARY.

**HUBBARD COMMUNICATIONS OFFICE LTD.,** this was a public corporation formed in order to handle the communications of another corporation, Hubbard

Association of Scientologists Ltd. As the corporation it was formed to serve, HASI Ltd., is inactive, this corporation is dormant. (HCO PL 30 Sept 64) *Abbr.* HCO, Ltd. See HCO WORLDWIDE.

**HUBBARD COMMUNICATIONS OFFICE POLICY LETTER,** 1. written by

LRH only. This is a permanently valid issue of all third dynamic, org and administrative technology. These, regardless of date or age, form the know-how in running an org or group or company. The bulk of hat material is made up from HCO PLs. They are printed in green ink on white paper. They are filed by consecutive date. More than one issued on the same date are marked Issue I, II, III, etc. Every org must have full master and bulk files of these or it won't be able to make up hats or hat packs for staff or know what it's doing and will fail. Stencil files to replenish supplies of HCO PLs are also kept. It took 20 years to find out how to run orgs. It's all in HCO PLs. HCO PLs are distributed to all staffs or as indicated or as made up in packs. (HCO PL 24 Sept 70R) 2. HCO Policy Letters are senior in Admin. HCO Bulletins are senior to all other orders in Tech. Only policy letters may revise or cancel policy letters. Only HCOBs may revise or cancel HCOBs. HCO PLs and HCOBs require passing by LRH or the full authority of International Board Members as well as the Authority and Verification Unit. (HCO PL 9 Aug 72) 3. the data, material and procedures contained in Policy Letters apply to the third dynamic-the dynamic of groups. In applying **HCO Policy Letters**, you see that by following or continuing certain third dynamic procedures you remedy, handle or continue certain situations which relate to groups. Survival is the keynote of the end result. HCO Policy Letter third dynamic tech increases the survival of the group. (HCO PL 11 Apr 70) 4. orders or directions in Scn for policy: green ink on white paper, signed by LRH. (HCO PL 13 Mar 66) 5. a

letter laying down policy continuing until cancelled by a new policy letter. (HCO PL 13 Feb 66 II) 6. one which contains one or more policies and their explanation and application. It is issued by the **Hubbard Communications Office**, is written by L. Ron Hubbard or written (more rarely) for him, has the agreement of the International Board and is basic organizational law in organizations. A "policy letter" is not Scn org policy unless written or authorized by L. Ron Hubbard and passed as a resolution or covered by blanket resolution of the International Board and issued or published by an HCO. It is not policy if any of those steps are missing. (HCO PL 5 Mar 65 II) 7. one which contains one or more **policies** and their explanation and application. (HCO PL 5 Mar 65 II) 8. **HCO Policy Letters** are now my administrative policy line. They are received done in green ink on white paper. They must be copied by local HCOs using that exact color scheme. (HCO PL 4 Feb 61) *Abbr.* HCO PL, HCO Pol Ltr.

**HUBBARD CONSULTANT**, a **Hubbard Consultant** is skilled in testing, two-way comm, **consultation**, programming and interpersonal relations. This is the certificate especially awarded to persons trained to handle personnel, students and staff. These technologies and special training were developed to apply Scn auditing skills to the field of administration especially. An HC is not an auditor but a **consultant**. HC is a requisite for course supervisors and student consultants. (HCOB 19 Jun 71 III) *Abbr.* HC.

**HUBBARD CONSULTANT RUNDOWNS**, whenever a student cannot grasp or retain the data of the Data Series Policy Letters, he must be audited on the Data Series Rundown (also called the **Hubbard Consultant Rundown**). (HCO PL 15 Mar 71 II)

**HUBBARD DIANETIC COUNSELOR CERTIFICATE**, see HUBBARD STANDARD DIANETICS COURSE.

**HUBBARD DIANETIC FOUNDATION**, see HUBBARD DIANETIC RESEARCH FOUNDATION.

**HUBBARD DIANETIC GRADUATE**, **Hubbard Dianetic Graduate** certificate gives right to supervise HSDC Course. (BPL 4 Jul 69R IV) *Abbr.* HDG.

**HUBBARD DIANETIC RESEARCH FOUNDATION**, 1. the first organization of Dn in the United States. (551OC08) 2. the basic organization of Dn is the **Hubbard Dianetic Research Foundation**. This organization was first put together by myself in Elizabeth, New Jersey, and duplicate directorate corporations (same directors in each state) were organized in such states as California, Illinois, Hawaii and so on. These various corporations were all the same corporation. This is the **Hubbard Dianetic Research Foundation**. This organization name was shortened by a successor corporation, the Hubbard Dianetic Foundation of Wichita, Kansas. Now that organization still kept alive this other organization (**Hubbard Dianetic Research Foundation**). Then in a rather misguided effort to push Dianetics and so forth, and because I was hounding them not to use my name, it temporarily dropped the word **Hubbard** and was called the **Dianetic Research Foundation** for the membership corporation and the Dianetic Foundation for the business corporation. These two were both interlocked and interdependent and were essentially and would have been in the eyes of the law the same corporation. That corporation handed over to the HASI an entire quitclaim and deed, a corporation title, and the members of the **Dianetic Research Foundation** recognizing of course themselves as really the **Hubbard Dianetic Research Foundation**, voted and elected me president of the corporation, and

it itself became transferred. The corporation which is organized here in Arizona is a fresh set of incorporations but it is all of these corporations to date. That is the original Foundation. It's responsible for all debts, bills and everything else of the original **Foundation**. It also owns all of its materials. Now that's the **Hubbard Dianetic Research Foundation** which is the original **Foundation** and has been put back together now exactly as it was in Elizabeth, New Jersey, with the bugs out of it. The **Hubbard Dianetic Research Foundation** reincorporated in Arizona is not a duplicate directorate of anything of the HASI. The HASI is a religious fellowship. This is slightly different than the **Hubbard Dianetic Research Foundation** which is simply a corporation with a board of directors and a membership which does publishing. The HASI is a religious fellowship to which all the people interested in Scn or the higher level of life as a science belong. (541OC04) 3. the **HDRF** does training. It trains up to the degree of HDA to Bachelor of Science in Dn and Doctor of Philosophy in Dn. There is a great similarity of training between the HASI for its basic levels of training and the **Hubbard Dianetic Research Foundation**. (541OC04) 4. there are two corporate groups. Why do we say groups? Because each one of these organizations (**HDRF** and HASI) has certain dependencies; other affiliated organizations. If you see this as two positive groups you'll have a good grip on the entire picture of organization of this. The one group, the oldest group headed by the **Hubbard Dianetic Research Foundation** has two appendant groups. It has been in these two businesses for a long time. It was interested in civil defense and was doing things about civil defense. Those activities have been pooled together in an allied affiliate corporation known as the American Society of Civilian Defense. It knows Dn works and says so loudly. That organization stands 100% behind Dn as the only process it would even vaguely use on

hysterical or distressed people. The other is the Freudian Foundation of America organized to be a free offer to any of the people in Russian-held Vienna who wish to take advantage of it. It is the only authorized agency of any kind in the United States authorized to use the name and works of Sigmund Freud. All other Freudian Foundations have no charter or franchise from the old Master. Nobody has. But we have one from the Freudian Institute of Vienna, which makes us the only legal Freudian Foundation. This organization knows that as a sequence to the great work of Sigmund Freud, Dn is the solution to psychoanalysis and it freely says so. So we have the **Hubbard Dianetic Research Foundation** being ably supported by the Freudian Foundation of America and by the American Society of Civilian Defense. (Civilian defense is simply the eight dynamics). People interested in the fields of healing who would listen to such a thing as Freudian analysis will find out they can do it better with Dn. This form carries an amount for cash collectible from notes past due and the amount of notes that are apparently uncollectible. The total is added into grand total of credit advanced. It gives the total of payments received during the month past (the 1st to the last day of the month). It gives the number of statements mailed in the month just past. It gives the number of persons with overdue notes who have been handed over to the Director of Clearing and passed on to Field Staff Members. It gives the number of notes to date given to lawyers for **collection** that remain uncollected. This **Income Note Collections Summary** is placed in the hands of the Advisory Council on the second Tuesday of each month. (HCO PL 26 Nov 65R)

**INCOME OFFICER**, (Gung-Ho Group) the **Income Officer** cashiers and receives and bills for any income owed. (HCO PL 2 Dec 68)

**INCOME POLICING**, to **police** something means, "to control, regulate, keep in order, administer." **Policing income** ensures that the org is collecting the income from the services that it delivers, and that all org income is channeled into Treasury and into the bank without delays. If you follow a particle of money through the org, you see that it gets into the org, gets exchanged for a service and gets out of the org or into reserves. There is a definite routing for money. If the org fails to collect the money for the service that it delivers the exchange does not occur and there is lost income. If the money comes in but does not get to Treasury and for any reason gets sidetracked on the org lines, there is again some lost income. Through income **policing** actions, the Treasury Secretary ensures that the correct exchange does occur between the public and the org, and that the org does receive the income expected. (BPL 1 Feb 72 I)

**INCOME SECTION**, the **Income Section** invoices all monies received on the appropriate machines and designates what each amount is for. The Income Section also posts all receipts in ledgers, one for each company concerned, furnishes breakdowns of income of various types when required, keeps a firm record of every debtor and a file on each debtor and sends out monthly formal statements to each debtor. (HCO PL 6 May 64)

**INCOME SHEETS**, weekly reports are required from all service departments. They are made on large sheets labeled Income Sheets. The sheets are compiled by the department heads from the yellow invoice copies which are collected by their departments as proof of payment before delivering a service or item sold. All invoices are simply listed in numerical sequence on the Income Sheet, with the date, name of the customer and details of service or item sold. The amount of the invoice is entered in the appropriate column, whether cash payment,

debit, credit, or no-charge invoice. The Income Sheets are the basic element of an internal income policing system. (BPL 1 Feb 72RA)

**INCOME SOURCES SUMMARY**, each week your FBO fills in a report called the **Income Sources Summary**. This report shows in what areas geographically you are selling and not selling. It also shows what is being sold. (HCO PL 1 Feb 72R III) [The above HCO PL has been replaced with BPL 1 Feb 72RA.]

**IN-COMPANY TRAINING**, see TRAINING, IN-COMPANY.

**INCOMPETENCE**, being competent means the ability to control and operate the things in the environment and the environment itself. When you see things broken down around the mechanic who is responsible for them, he is plainly exhibiting his incompetence -which means his inability to control those things in his environment and adjust the environment for which he is responsible-motors. Incompetence -lack of know-how, inability to control-makes things go wrong. (HCO PL 30 Dec 70)

**INCOMPLETE STAFF WORK**, 1. if you are mad at your boss you can always ruin him with **incomplete staff work**. You forward him a fragment of alarming data without collecting the whole picture. This makes him do a full job of information col-

lection. You give him no recommended solution. This makes him have to achieve a solution by remote examination of data; then you make him issue arbitrary and forceful orders that may ARC break (upset) some area and hurt his reputation. (HCO PL 21 Nov 62) **2. it is incomplete** because I have to complete it by (1) assembling the data necessary for a solution; (2) dreaming up the solution based on written data only; (3) issuing orders rather than approving orders. (HCO PL 21 Nov 62)

**INCORPORATE**, to form into a legal **corporation**. (BPL 9 Mar 74)

**INCORPORATION**, an act of **incorporating** or the state of being **incorporated**. (BPL 9 Mar 74)

**INCORRECT CONDITIONS**, a type of dev-t where **incorrect conditions** are assigned or assumed with consequent ball up of lines. (HCO PL 27 Jan 69)

**INCORRECTLY INCLUDED DATUM**, a switch intended for a house put into an airplane electrical system cuts out at 30,000 feet due to the wrong metal to withstand cold and there goes the airplane. A part from one class of parts is included wrongly in another class of parts. So there is an **incorrectly included datum** which is a companion to the omitted datum as an out-point. (HCO PL 23 Jun 70)

Incorrectly Included Datum

**INCORRECT ORGANIZATION**, a type of dev-t where the comm system or procedures are not **organized** so as to be easily used. They are either not **organized** at all or are made too complex to be useful. (HCO PL 27 Jan 69)

**INDEX NUMBER**, a number that shows changes in magnitude, as of prices, wages, sales, employment, etc., at a given time, relative to the magnitude of a specified standard, usually stated as 100.

**INDICATOR**, 1. a visible manifestation which tells one a situation analysis should be done. An **indicator** is the little flag sticking out that shows there is a possible situation underneath that needs attention. Some indicators about orgs or its sections would be-dirty or not reporting or going insolvent or complaint letters or any non-optimum datum that departs from the ideal. (HCO PL 15 May 70 II) 2. something that signals an approaching change rather than finding the

change is already present and confirmed. (HCO PL 29 Mar 65 II)

Indicator (Def. 1)

**INDICATORS, BUSINESS**, statistics which may affect business levels. These are grouped under the three basic titles of leaders, coincidents and lagers. Leaders predict future changes, coincidents synchronize with or serve to verify current business activities and lagers apply to relationships or factors which become evident in retrospect.

goods, especially where a manufacturer or importer passes the burden of his taxes on to the consumer in the way of higher prices. 2. a tax on services or goods such as value added tax, sales tax, purchase tax, customs and import duties, etc.

**INDIVIDUAL CONTACT OFFICER**, (Gung-Ho Group) the **Individual Contact Officer** is in charge of polls for purposes from individuals in the public. These form up in project planning into specific long-range targets for the area of the group. (HCO PL 2 Dec 68)

**INDIVIDUAL HATS**, **individual hats** include all post hats, including auditor's post "tech" hats, third and second class mission school, and any other hat which deals with accomplishing a specific purpose or function on an **individual** basis. (FSO 361)

**INDIVIDUAL SALES LINE**, the usual channel for the sale of books is through orgs, franchises and bookstores. These obtain their books from Pubs Orgs. There is however, another line of book sales from Pubs Orgs to **individuals**. Where an org, through FP troubles or other reasons fails to stock up fully, or fails to push books into the public, its stats falter. **Individuals** in its area cannot get books, tapes or meters from the org. Thus there must be another **fine so individuals** in an area can order books. All the **individual book sales line** consists of is a second line to the public from Pubs. (HCO PL 5 Sept 74)

**INDOCTRINATION**, 1. the act of informing or teaching someone about the doctrines, ways, rules or policies concerning something. 2. any series of training lectures, demonstrations or drills that serve to inform an employee about his job, job environment, company policy or rules, the terms of his employment, etc.

**INDUCTION**, 1. process of bringing a newly accepted person into a business by going over with him the employment contract,

wages, work schedule, overtime, employee benefits, etc. 2. the ceremony of installing a person into office especially one of high stature, rank or position.

**INDUSTRIAL DEMOCRACY**, a system which allows industry to choose how it will go about producing whatever product or products it decides to produce.

**INDUSTRIAL DISPUTE**, a dispute between employers and employees over wages, working conditions, company policies or other grievance. Sometimes called a trade dispute in the UK.

**INDUSTRIAL ESPIONAGE**, the act of spying on or attempting to surreptitiously obtain confidential or classified information from or about a rival business or its products or services. Bribery of rival company employees to obtain data, plans, formulas, designs, etc., hiring on with a rival company to gain data, use of electronic equipment to record or photograph data, etc., are common forms of industrial espionage.

**INDUSTRIAL IDEA OF ORGANIZATION**, the **industrial idea of organization** is a cog wheel type **organization** with each member of it totally fixed on post, doing only exact duties, with all cog wheels intending to mesh. The **industrial idea** does not differentiate between a *machine* and a human or live **organization**. (HCO PL 2 Nov 70 II)

**INDUSTRIAL PROPERTY RIGHTS**, the same rights as those granted by a patent.

**INDUSTRIAL RELATIONS**, the relations and factors influencing the relationship between an employer and employees. The term has been used synonymously with labor relations and to mean collective bargaining from management's point of view.

**INDUSTRIAL SOCIOLOGY**, a branch of sociology devoted to studying group interactions and the individual's function and rela-

tionship to the group in an industrial or business environment.

**INELASTIC DEMAND**, see DEMAND, INELASTIC.

**INERTIA**, this is the tendency of a MEST object to remain motionless until acted upon by an exterior force, or to continue in a line of motion until acted upon by an exterior force. (HCOB 5 Dec 73)

**INFILTRATED**, this means people have been put in on your lines. (LRH ED 22 WW)

**INFLATION**, 1. the amount of money in the country exceeds the amount of thing there is to buy, that's **inflation**. When the amount of products in the country exceed the amount of money there is to buy things, that's deflation. Both of them upset the economic field. (ESTO 9, 7203CO5 SO 1) 2. the fact is that you can't take more out of something than is in it. An activity, by its own efforts, has to make money before it can spend it. Governments today are omitting doing that so you have a cheapening of money that is called **inflation**. (ED 459-35 Flag) 3. **inflation** takes place in the presence of a shortage of goods and a deflation takes place in the presence of an abundance of goods. That's really all you need to know about money. If money won't buy things it **inflates** and if money will buy too much, it deflates. So if the people have no facilities to produce or are being disturbed continu-

ously politically you get an **inflating** state of affairs. (SH Spec 13, 6403C24) 4. our answer to **inflation**, which means money buying less, is to do our jobs better and make more money. (OODs 19 Aug 72) 5. an increase in the volume of money and credit relative to available goods resulting in a substantial and continuing rise in the general price level. In other words if there is too much money and too few goods you will have **inflation**. This is the standard economic definition of the word. In other words, it's quite beyond all these people to solve their current "money crisis" with a simple idea of increasing production in order to handle **inflation**. (OODs 27 Nov 71)

**INFLATION, COST-PUSH**, a price increase due to an increase in production costs caused by an unstable economic environment. This is different from demand inflation.

**INFLATION, DEMAND**, inflation resulting when more of a product or service is wanted than is available or is being produced. This increases the value and subsequently the price of the amount of that product or service that is available.

**INFLATION, GALLOPING**, an inflationary condition moving in upon an economy at a very fast rate.

**INFO FAILURE**, (**information failure**) a type of dev-t where those in charge fail to brief their juniors. These then have no idea of what's going on and develop other traffic in conflict. Reversely, juniors **fail to inform** seniors of data they have. (HCO PL 27 Jan 69)

**INFORMAL CONFERENCE**, a conference, usually of a preliminary nature, at which no official transcript is made and whose purpose is to confer and discuss but not to make any definite recommendations.

**INFORMAL ORGANIZATION**, see ORGANIZATION, INFORMAL.

**INFORMAL TRAINING**, see TRAINING, INFORMAL.

**INFORMANT**, someone that informs on the activities of another or gives information about something; something that serves to inform one.

**INFORMATION**, 1. knowledge or the communication of facts and ideas derived from study or experience. 2. in law, a complaint or accusation made by a public officer and sworn to before a magistrate, instituting criminal proceedings without a formal indictment. 3. in the electronics field, a signal or message or part of a message in coded form assembled by or used as input to a computer or communications system.

Information Packet (Def. 1)

**INFORMATION BOARDS**, these **boards** are for the posting of **information** relating to the exact job. For example, the Admin **Board** may contain instructions on how to write letters, the Training **Board** may show schedules of classes, etc. These **information boards** may contain personal notes, advertising of caf6s, rooms, and other such data. Nothing posted on these **boards** can be considered official for the whole organization and none but the staff to which they apply can be held responsible for not having read them. They are in essence the voices of department heads within their department. (HASI PL 21 Apr 57)

**INFORMATION PACKET**, 1. an **information packet** is not just one pamphlet all by itself. It is a packet containing several pieces. These could be a short punchy article

designed to increase the person's interest and cause him to reach more, a book flyer, and a book order form. (HCO PL 15 Aug 66) 2. the idea with **information packs** is to sell the right service to the right public and make people reach for and buy the service/item that is being offered them. An **information pack** no matter what type, must contain several pieces. Example: a letter, flyer and order form and return address envelope, or, questionnaire, short punchy article designed to increase the person's interest on the subject he is being questioned about, order form and return address envelope. As a personal touch, an **information pack** must always give the receiver the name and post of the terminal at the org to contact. The rule with information packs is *one service - one information pack*. Selling -too many items could result in confusion for the receiver, who becomes ARC broken and won't buy a thing. (BPL 20 May 72R) 3. packages made up and mailed by the Letter Registrar for newly interested people whose names have been received. Special **information packages** are made up and mailed by the Letter Registrar to inform various sections of her mailing list on the next service they might be interested in, having already done something. There could be a Book Info Packet for a person who has just bought a book, a Test Info Packet for a person just tested, a PE Info Packet for the person who has just done a PE, etc., etc. In each case it offers the next service. (HCO PL 4 Feb 61) *Abbr.* Info Pack.

**INFORMATION STORAGE AND RETRIEVAL**, the process of storing large amounts of information in various ways as in computerization and being able to retrieve or bring it back into play again as needed.

**INFRACTION SHEET**, 1. any **infraction** against the Training Course Rules and Regulations will result in the student being required to write a paper of 200 words getting off his overts and withholds against any and all

students, instructors and personnel connected with the courses. (HCO PL 22 Nov 61) [The above HCO PL was cancelled by BPL 10 Oct 75 III.] 2. **infractions** for breach of auditing regulations may be recommended by instructors but may be given only by the Course Supervisor; the procedure being for the instructor to pass the Infraction Sheet to the Course Supervisor for decrease, increase, cancellation or delivery to the student for the student's compliance. Penalties are as follows: (a) failure to comply with instructions which failure might have resulted in slowing or worsening a case: 200 to 500 word Infraction Sheet. (b) departure from standard operating procedure SHSBC in any unit: 200 word Infraction Sheet to 2 weeks in Unit W. (c) worsening or drawing-out the auditing on a case: 2 weeks in Unit W to Being Sent Down. (d) accumulation of 5,000 words in **Infraction Sheets**, in which 2 weeks re-assignment to Unit W shall constitute 1,500 words: no classifications during current course. (HCO PL 11 Feb 63) 3. all course **infractions** hence forward will be given solely upon technical matters and results. Example: the student has "passed" an HCOB and does not seem to be able to apply it in a session. The cause of the infraction will be because the student is supposed to know it and doesn't and because the student could not make it work. The subject of the **infraction** will be that material required, and various allied matters. (HCO PL 2 Apr 64) 4. the disciplinary weapon is the **Infraction Sheet**. An auditing supervisor does not give these out for bad auditing, however. He gives these out only for **infractions** of the rules of the Academy, including a refusal to follow his auditing directions. Bad technical is handled by pink sheet and gross auditing errors. (HCO PL 21 Oct 62)

**INFRASTRUCTURE**, service structures such as housing, schools, roads and air terminals which while they are indicative contributions toward economic growth, do

not appear as directly visible and effective as commercial production.

**INJUSTICE**, 1. a penalty for an unknown crime or a non-existent crime. (SH Spec 51, 6109CO7) 2. injustice is usually a wrong target out-point. Arrest the drug consumer, award the drug company would be an example. (HCO PL 19 Sept 70 III) 3. failure to administer existing law. (PAB 96) 4. something that is *not* just, which of course is *not* fair handling and *not* due reward and *not* good treatment. That's injustice. (7204C11 SO)

**INPUT**, the total of what is put or fed in, such as data fed into a computer, electricity into a machine, time resources or manpower into a project or investment, etc.

**INPUT-OUTPUT ANALYSIS**, see ANALYSIS, INPUT-OUTPUT.

**INPUT-OUTPUT CHART**, see CHART, INPUT-OUTPUT.

**INQUIRIES**, persons who **inquire**. **Inquiries** come from people answering advertisements, by people who have heard of Dn or Scn from other people, and who then **inquire**, and (the weakest classification in **inquiries**) referred names, by which is meant names which are simply referred to the organization as being interested. (HCO PL 7 Jan 64)

**INQUIRY**, 1. a request sent to a company as in a customer or prospective customer asking for information on their products or services, or requesting a copy of their catalogue. 2. in law, a close examination of a matter in order to discover pertinent information or truth.

**INSANE**, 1. the insane are just one seething mass of overt acts and withholds. And they are very physically sick people. (HCO PL 4 Apr 72) 2. the most resistance you get toward being cured by anyone is an insane person. An insane person will resist being cured harder than anybody ever heard of

because he knows everybody is Martians and they're all out to get him, he knows there's no help and so on. And that's what makes him insane. (FEBC 3, 7101C18 SO 11) 3. having been committed to a public or private institution for the insane. (BPL 19 Nov 71R) 4. having been pronounced insane by a psychiatrist or being incapable of any responsibility for social conduct. (FCPL 6 Oct 58)

**INSANE ACTS**, given some know-how or picking it up by observation, sane people make things go right. The insane remain ignorant intentionally or acquire know-how and make things go wrong. Insane acts are not unintentional or done out of ignorance. They are intentional, they are not "unknowing dramatizations." So around insane people things go wrong. One cannot tell the difference really between the sane and insane by behavior. One can tell the difference only by the product. The product of the sane is survival. The product of the insane is an overt act. As this is often masked by clever explanations it is not given the attention it deserves. The pretended good product of the insane turns out to be an overt act. (HCO PL 30 Dec 70)

**INSANE CASE**, the long run look at the insane case shows very poor chances. His brain and nerves are damaged by excessive drugs, shock and convulsions which the "psychiatrist" introduces as "treatment." Such a case can actually only be handled under institutional conditions and then mostly to give the person rest and security. Insane cases are made. We recently tried to recall one insane case who had not become so by modern "treatment." We could not find even one insane case who had not been in psychiatric hands. So, such cases seem to be modernly made. What is called "insanity" is actually a pain crazed condition. This would normally pass off. Brutality and injury to "treat" it only confirm it and we get an apparently "insane" person. Psychiatric

treatment of a person not already in a weakened depressed condition would be bad but would not result in "insanity." A pain crazed person then so treated is very hard to fish out of the mess. (LRH ED 67 INT)

**INSANITY**, 1. (legal definition of) "the inability to tell right from wrong." (OODs 12 Mar 75) 2. evil purpose is the cause of insanity and that's caused by an R/S. The cause of insanity is not a "germ" that causes "mental illness" in somebody's brain. That is *not* the cause of insanity. It is *not* the second dynamic. It is *not* because someone was interfered with as a little child. It is *not* because one is fixated on panties. Insanity-pure, unadulterated insanity is an evil purpose. Now anybody's got some nasty purposes but the person who is really insane, really is riding that one, boy! They're nutty as fruit cakes and it doesn't matter how competent they are or how incompetent they are. (ESTO 10, 7203CO5 SO 11) 3. a refusal to allow others to be, do or have. Insanities have as their end product, self or group destruction. (HCO PL 14 Dec 70) 4. the overt or covert but always complex and continuous determination to harm or destroy. (HCOB 28 Nov 70) 5. the five primary Magics or out-points as we call them are of course the anatomy of insanity. (HCO PL 19 May 70) 6. insanity isn't an illness. It's an injury. When more injuries called "treatments" are piled on top of it, it becomes very hard to treat just because the person is now desperately injured. He hurts. His nerves as physical structures carry only hurt messages. So he is enturbulated. It's the same thing trying to-process a man in agony from a car injury and trying to process an "insane" person. You can't really get their attention until they cool down. (LRH ED 67 INT) 7. what is called "insanity" is actually a pain crazed condition. This would normally pass off. Brutality and injury to "treat" it only confirm it and we get an apparently "insane" person. Psychiatric treatment of a person not already

in a weakened depressed condition would be bad but would not result in "insanity." A pain crazed person then so treated is very hard to fish out of the mess. (LRH ED 67 INT) 8. the actual point between where a person who is sane goes thereafter insane is a very precise point, and it's when he begins to stop something, and at that moment, he is insane. Now he is insane on that one subject at first, and then he can get another id6e fix6 and become insane on another subject, and you do get cumulative insanity, but there is no doubt of his insanity on that one subject. (6711C18 SO) 9. an insanity is just total unreasonability. (6711C18 SO)

**INSECURITY**, **insecurity** is unknowingness. When one is insecure, he simply doesn't know. He is not sure. Men who know are secure. Men who don't know believe in luck. One is made insecure by not knowing whether or not he is going to be sacked. Thus he worries. And so it is with all **insecurity**. Insecurity exists in the absence of knowledge. (PO W, p. 16)

**INSIGHT**, **insight** comes from the ability to observe coupled with the courage to see and the wit to realize without any thought of personal importance. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*)

**INSOLVENCY**, 1. insolvency is only that condition where outgo exceeds income. (HCO PL 6 May 64) 2. crossed cash-bills. (ED 459-36 Flag)

**INSOLVENCY**, the financial condition of an individual or a firm in which liabilities exceed assets so that one is unable to pay debts or meet current obligations. In rare instances a business might show more assets than liabilities but still be insolvent if those assets could not be converted into sufficient cash to take care of current financial responsibilities.

**INSPECTION**, the word mission may now be used to designate only a Sea Org official

mission. It has unlimited ethics powers. Their members are called "missionaires." The word **inspection** shall be used to designate WW or Continental Org parties sent out. Their members are "Efficiency Experts." They have no ethics powers but may recommend action to EC WW or EC Continental on their return. (HCO PL 15 Sept 68)

**INSPECTION**, the act of examining the in-process production of parts or completed components to be certain proper manufacturing standards are being maintained in a plant.

**INSPECTION AND REPORTS**, 1. Department 3. This department is called **Inspection and Reports**. In small orgs there is only one person in that department. Primarily his duties consist of **inspecting and reporting** to his divisional head and the Executive Council. (HCO PL 7 Dec 69) 2. section in Dept 3, Dept of **Inspection and Reports**. **Inspection and Reports** Section inspects projects and orders for completion and reports to those executives who issued them. (HCO PL 17 Jan 66 II)

**INSPECTION BEFORE THE FACT**, that means **inspection before** anything bad has happened. (HCO PL 6 Feb 68)

**INSPECTION CHECKLISTS**, these are weekly checklists which cover in detail all areas of the org premises, grounds, building exteriors and interiors, room by room, including cleanliness and hygiene, state of repair, state of operation, usability and appearance. Engineering **inspection checklists** are included for the **inspection** of all plumbing, electrical, heating, ventilation and other systems and machinery. Each area is inspected weekly as to state of repair, state of operation, cleanliness and usability. Items checked are accordingly marked in or out. Maintenance and inspection checklists generally parallel one another. (HCO PL 16 Aug 74 IIR)

**INSPECTION OFFICER**, (HCO Division) the duty of the **Inspection Officer** is to inspect the status of various projects and orders and to report this to the secretary of the division concerned. The Inspection Officer does not issue orders or instructions to staff. (HCO PL 4 Sept 65)

**INSPECTOR**, 1. an inspector is to stop work whenever he spots an out-point in the production and gets this handled before any further work is undertaken. An inspector *inspects*, he isn't there to do the job himself. This is so that he can keep an exterior viewpoint and at any time can give a valid report re: work, progress, as well as effecting corrections as needed. (FO 2969) 2. an inspector is an Org Officer with heavy ethics powers. (CBO 125)

**INSTANT HATTING**, 1. a sort of an action you do when you slam somebody onto a post and he's got to take the load of it and so forth and you tell him what you want him to do. That's just instant hatting. You tell him what his post title is and what he is supposed to be doing on that post. Instant hatting! Tell him to get on with it. Then HCO can come along and the first thing they would do is give him a mini hat. (FEBC 6, 7101C23 SO 11) 2. staff at the least are instant hatted at once-placed on the org board, work space, supplies, what his title is and what it means, org communication system, what he is supposed to produce on his post. He is gotten producing what he is supposed to produce in some volume at once. (HCO PL 9 Mar 72 III)

**INSTITUTIONAL CASE**, one who has been in a mental **institution** or asylum or home for any length of time or has been under any psychiatric treatment whether subjected to psychiatric treatments and/or medical electric shock therapies, or not. (BPL 29 Jul 71R II)

**INSTITUTIONAL INVESTOR**, organizations such as insurance companies, invest-

ment companies, banks and pension funds whose principal purpose is to invest their own assets or those held in trust for others.

**INSTITUTIONS**, 1. established organizations, especially ones dedicated to public service such as professional schools or universities. 2. stock exchange reference to large multi-holdings organizations such as US insurance companies who are important stockholders in various companies and whose trading activities are a major influence on the stock market.

**INSTRUCTOR**, 1. the title Instructor is changed herewith to Supervisor. Instructor is a misnomer in Scn. They don't instruct anyone. They actually should only supervise the student to make sure he is instructed by HCOBs, tapes and books, and be sure he does his drills. The use of Instructor gives a tendency to alter-is tech which alter-is of tech is now the only thing that can prevent case gains. (HCO PL 5 May 65 II) 2. one who has regular classes and who is assigned to places at specific times. (HCOTB 17 May 57)

**INSTRUMENT**, a written legal document that gives a person a right or lays down a contract such as a check, Decd or stock certificate.

**INSURANCE**, a contract binding an insurance company to indemnify or protect, and compensate the insured party against specified loss or injury, in return for premiums paid.

**INSURANCE BROKER**, one who acts as an agent for an insurance company in selling coverage and instituting contracts in return for a fee or commission.

**INSURANCE OFFICER**, **Insurance Officer**, Dept of Records, Assets and Materiel, Org Division. It is the responsibility of the Insurance Officer to see that all articles of value are **insured**. (HCO PL 15 Nov 65)

**INTRO SESSIONS**, the intro session first came into existence as demonstrations at **introductory** lectures, and events. *The Public Dissemination Manual* often referred to as the "Thomas Package" came out in '71. It

gave a simple few minutes pinch-test action on the meter from one specially assigned personnel for five dollars. They were unfortunately called intro sessions. This developed into actual sessions as the alter-is increased and C/Ses not know what an **Intro Session** was (it not being in any HCOB) started C/Sing ruds flying, etc. and whatever they logically conceived. This service is an illegal service. It is off-policy per HCO PL 28 September 1971, *Selling and Delivering Auditing*. No sale of intro sessions at any time by anyone is OK. (FBDL 430)

**INTROVERSION**, looking in too closely. An **introverted** personality is only capable of looking inward at himself. The person who is introverted is a person who has probably passed exhaustion some way back. He has had his attention focused closer and closer to him (basically by old injuries which are still capable of exerting their influence upon him) until he is actually looking inward and not outward. He is shying away from solid objects. He does not see a reality in other people and things around him. (POW, pp. 92-93)

Introversion

**INTROVERT**, the type of person who directs his attention inward to himself.

(LRH ED 257 INT)

**INVERTED PYRAMID**, the news story has two parts, the lead which quickly tells what has happened, and the body which do-

cuments the lead. The oldest form and the most widely used is the **inverted pyramid**. In this form the facts are presented in the top, which takes the head and attracts attention. After that the paragraphs are arranged in diminishing order of news importance. Frequently the story will be chopped off starting at the bottom, according to space and the editor. (BPL 10 Jan 73R)

**INVESTIGATION**, 1. the careful discovery and sorting of facts. Without good investigation we don't have justice, we have random vengeance. **Investigation** must always be aimed at the specific person, the time and the place. Else you'll sink in a morass of generality and get nowhere. (HCOMO.7) 2. if an organization is folding up, or becoming less able to make things go, then the effort to stop things is greater than the effort to make them go. This being the case, and because one is dealing with an insanity, any effort to find reasonable explanations will fail. So you're looking for things which are totally unreasonable because an insanity is total unreasonability. Therefore, your **investigation** must proceed along the lines of what you don't understand and you'll arrive with the stopper. That is very condensed but that is it. (6711C18)

**INVESTIGATORY REPORTING**, this type of **reporting** is the unearthing of wrong doings and their exposé. The results are presented as news with some interpretation. If the paper has comment, it runs on the editorial page. (BPL 10 Jan 73R)

**INVOICE**, 1. a written document which records the details of an exchange between the org and a public person. An invoice is valuable. It represents money and authorizes admission to service. (BPL 1 Feb 72 I) 2.

invoices are the means of crediting someone with monies paid and thus the right to take services on the strength of these, or receive items from the bookstore. Invoices are the record, in time sequence, of monies received. (BPL 20 Feb 67R)

The Treasury Div must control and police all **invoicing stations** so as to channel a monies collected into Treasury at the end of each day. (BPL 1 Feb 72 I)

**IRREDUCIBLE MINIMUM**, 1. when an organization or its posts operate only on an **irreducible minimum**, production goes bad and delivery crashes. Take a cook who has his post at an **irreducible minimum**. Food is appearing on the table. If he **reduced** just one bit more the food would no longer be edible at all. He neglects purchasing, menus and preparation. That these occur is invisible to the diners. That food appears on the table is visible to the diners. If the co operates at any less than he is, no edible food would be visible-hence, **irreducible minimum**. The food served will be bad. But it will be visible. Invisible -to-the -diners actions aren't being done. To improve the food, get the less visible actionq done. Get the sequence of actions all done. (HCO PL 14 Dec 70) 2. the principle of the **irreducible minimum** of a post. A post tends to reduce to only its visible points. In other words, all of the hidden or not too visible actions or which is to say, the preparatory actions that make a good product tend to drop away from a post and tend to drop away from an org. You will wind up with the **irreducible minimum** and that is merely the visible. (FEBC 1, 7011C17 SO)

**IRREGULAR SCHEDULE STAFF AUDITOR**, audits all **irregular scheduled** PCs. (HCO PL 24 Mar 61 II)

**IRRELEVANT INFORMATION**, this form of dev-t can also take the form of forwarding to a senior large quantities of **irre-**

**levant information**, jamming his lines, and reducing his productiveness. The opposite of this of course is failure to inform one's senior of relevant data. (BPL 30 Jan 69)

An LRH Comm may halt the use of unauthorized material or technology. (HCO PL 7 May 66) *Abbr.* I/A.

**IS THIS OK**, executives may not OK anything done or to be done below their level unless their immediate junior has also stated or attested with an initial that it is OK. Unless one can fix responsibility for actions there is no responsibility anywhere and the whole show goes to pot. Never let a junior say "Is this OK?"-always make him state or initial "This is OK" on all work, actions or projects. "Is this OK?" is dev-t and should be chitted as such. (HCO PL 27 Jan 69)

**I WANT TO GO CLEAR CLUB**, 1. the **I Want to go Clear Club** is conducted to obtain new names to CF and put people firmly on the road to Clear. (HCO PL 1 May 65)

**JOB SATISFACTION**, same as job enthusiasm.

**JOB SECURITY**, the amount of assurance a person has that he will have continued employment with a firm. This comes under the subject of conditions of employment which are covered in the contract of employment or collective bargaining agreement. Usually this is a set of rules which govern continued employment so that an employee knows he can hold his job with resulting security providing he adheres to the conditions of employment. For example, he knows he has 10 days sick leave per year during which he cannot be fired or his job taken by another. Where a firm employs on a first in, last out basis, a person's job security grows as his seniority increases.

**JO'BURG CONFESSIONAL**, this is the **Johannesburg Confessional List**. This is the roughest **confessional** list in Sen. It does not necessarily replace other **confessional** lists but it is probably the most thorough one we have now. (HCO PL 7 Apr 61RA) [This was previously called the **Johannesburg Security Check** or **Jo'burg Security Check**.]

**JOHANNESBURG RULE**, no auditing for pay may now be undertaken by a staff member on a private basis or, after the staff member leaves the org, on students or PCs within two years after the student or PC leaves the Academy or HGC,, on penalty of loss of certificates. (HCO PL 24 Feb 72) 4. justice safeguards rights, prevents injustice, prevents punishment by whim, and brings order. Justice prevents wrongful disgrace, demotion, transfer or dismissal and

protects the staff member's reputation and job from being falsely threatened. (HCO PL 17 Mar 65 II) 5. to us, justice is the action necessary to restrain the insane until they are cured. After that it would be only an action of seeing fair play is done. (HCO PL 14 Dec 70) 6. an effort to bring equity and peace. (HCO PL 14 Dec 70) 7. the purpose of justice is to make a safe environment for the many. While this may slow the processes of justice, the personal security of the individual is totally dependent upon establishing the full truth of any accusation before any action is taken. (HCO PL 24 Feb 69) 9. an action to deter disorder and secure the public safety. It is a short-term method of bringing order and it is needed for all dynamics. (HCOMOJ) 10. the whole subject of justice subdivides for a Scientologist into four phases. These are (1) intelligence activities, (2) investigation of evidence, (3) judgment or punishment, (4) rehabilitation. (HCOMOJ) 11. **justice** is one of the guards that keeps the channel of progress a channel and not a stopped flow. (HCO PL 17 Mar 65 III) 12. there can be no personal security without easily accessible, swift and fair **justice** within a group. The jurisprudence employed must be competent, acceptable to the members of the group and effective in accomplishing good order for the group and personal rights and security for its individual members. Justice used for revenge, securing advantages for a clique increases disorder. Justice should serve as a means of establishing guilt or innocence and awarding damages to the injured. The fact of its use should not pre-establish guilt or award. **Justice** which by its employment alone establishes an atmosphere of guilt or

greed is harmful and creates disorder. (HCO PL 7 Sept 63) 13. could be called the adjudication of the relative rightness or wrongness of a decision or an action. (AP&A, p. 10) 14. the impartial administration of the laws of the land in accordance with the extant level of the severity-mercy ratio of the people. (PAB 96) 15. don't ordinarily put a head on a pike unless it's the right head. But remember that there are times when it's vitally necessary to put some head, any head, on a pike to quell rising disorder. Just **remember that justice** is an action to deter disorder and secure the public safety. But if you do put the wrong head on a pike, be sure to put it back on the body again as soon as the need for its being on a pike is over. Justice is not always the matter of an individual. It is a short-term method of bringing orders and it is needed for all dynamics. (HCOMOJ)

**JUSTICE CODES**, ten years ago when the new HCO Ethics Codes were first introduced, they were called Justice Codes for a short while. (HCO PL 22 Sept 75 II)

**JUSTIFYING A GRAPH**, justifying a graph is saying, "Well, graphs are always down in December due to Christmas." (HCO PL 6 Nov 66 I)

**JUSTIFYING A STATISTIC**, the one big Godawful mistake an executive can make in reading and managing by graph is being reasonable about graphs. This is called justifying a statistic. This is the single biggest error in graph interpretation by executives and the one thing that will clobber an org. One sees a graph down and says "Oh well, of course, that's . . ." and at that moment you've had it. (HCO PL 6 Nov 66 I)

The **Keeper of Tech Continental** is answerable to the LRH Comm Continental. The **K of T Continental** receives his orders from the K of T Flag via LRH Comm Continental. The **K of T Continental** is expected to actively look in on orgs and after inspection write a targeted program for that org that will establish its Qual, especially cramming and word clearing, its library and to see that on-policy

Thus one gets the points which are the true administrative points: (1) *observation* targeting and drafting of the plans so they can be communicated and assigned. (3) *communicating* which includes receiving and understanding plans and their portion and relaying them to others so that they can be understood. (4) *supervision* which sees that that which is communicated is done in actuality. (5) *production* which does the actions or services which are planned, communicated and supervised. That's what producing high statistic staff members are **Kha-Khans**. They can get away with murder without a blink from Ethics. (HCO PL 1 Sept 65 VII) 2. **Kha-Khan** was like a medal. **KICKED UPSTAIRS**, a term used to describe promoting a person to a higher position because his ineffectiveness and inefficiencies are causing too much trouble where he is and will cause less trouble in the higher position. The term was first associated with the promotion of representatives from the House of Commons to the House of Lords in the UK.

**L1X HI-LO TA REVISED**, HCO Bulletin 1 January 1972RA, *L1X, Hi-Lo TA Revised*. This is the same list as CIS 53 RL It has been brought up to date. It gives the whole question for each subject as in CIS 53RI and the same handling. It is easier to use on a PC whose attention wanders or who is not very familiar with terms. (LRH ED 257 INT)

**L3 EXD RB**, HCO Bulletin 2 April 1972 RB II, *Expanded Dianetics Series 3RB, L3 EXD RB Expanded Dianetics Repair List*. This is the prepared **list for Expanded Dn**. (LRH ED 257 INT)

In admin it refers similarly to a person who considers he has a better way of accomplishing something than is contained in the policy letters covering that subject and messes things up. Management then finds itself left with the task of correcting that person's goofs by applying the correct standard policy to the area. **L4BR**, HCO Bulletin 15 December 1968R, *L4BR, For Assessment of all Listing Errors*. An out list (meaning one done by listing and nulling, not a prepared list) can raise more concentrated hell with a PC than any other single auditing error. The amount of misemotion or illness which a wrong list generates has to be seen to be believed. When a PC is ill after a session or up to three days after, always suspect that a listing action done on the PC had an error in it. It must be corrected. This **prepared list L4BR** corrects lists of the listing and nulling variety. It can be run on old lists, current lists, general listing. (LRH ED 257 INT)

**L-10**, 1. **L-10** was based on security checking and was one of the most successful techniques of recent times. (FO 3249) 2. has mostly consisted of whipsawing overts back and forth. (ESTO 5, 7203CO3 SO 1) 3. it came, actually, from the OT grades. It answers the question of why does an OT restrain himself and cease to behave as an OT. It works best in that band, but it also works at the lower end of the band. It turns the insane sane and makes a one life being immortal. (FEBC 3, 7101C18 SO II) 4. research has disclosed that the reason humans think they have not lived before this life and won't live again is that they are in a condition below existing as beings. Through overts they have become unable to *see* the world around them or things in it. L-10 runs off all overts and winds up with a thetan exterior who is aware of self. (ED 177 Flag)

**L10MX**, the new tech breakthrough (**L10MX**) overcomes the slow L10 and PTS problems. Fully grooved in it only takes about 10 hours of auditing. It produces results senior to our already fabulous L-10. (ED 41 FAO)

The U.S. population considers it laudable if you fire a gun at a man in time of war and considers it evil if you refuse to fire a gun at a man at time of war. Now in time of peace the same society considers it **laudable to withhold** firing the gun, and evil to fire the gun. (SH Spec 100, 6201C16)

The PCs assigned to an auditor are consecutively audited and C/Sed. If he has two PCs, he can get in three or even four sessions in the day. This means PCs are always on standby. There is no registrar saying "You will get your sessions at 10:00 a.m. in the morning every Tuesday." Registrars do not schedule. Ever. It means that a PC may expect to get audited as often as possible. If an auditor starts, let us say, at 0830 hours, he can **leap frog** PCs all through the day, auditing each one as far as he can, to a win or to the conclusion of the C/S or lunch or whatever. But the signal to Tech Services to act is that auditor bringing the PC to the examiner. At once, that auditor's next PC must be rounded up by Tech Services, the folder put in the auditor's hands even while the auditor is finishing his admin on the first session. (BFO 46)

It is assigned where careless or malicious and knowing damage is caused to projects, orgs or activities. It is adjudicated that it is malicious and knowing because orders have been published against it or because it is contrary to the intentions and actions of the remainder of the team or the purpose of the project or org. It is a **liability** to have such a person unwatched as the person may do or continue to do things to stop or impede the forward progress of the project or org and such a person cannot be trusted. No discipline or the assignment of conditions above it has been of any avail. The person has just kept on messing it up. The condition is usually assigned when several dangers and non-existences have been assigned or when a long unchanged pattern of conduct has been detected. (HCO PL 6 Oct 67) 2. a half done job is **liability**. (ED 62 Flag) 3. a **liability** may be defined as something of value owed by the organization at the end of the financial period concerned. (BPL 14 Nov 70 III)

**LIABILITY FORMULA**, the **formula of liability** is: (1) decide who are one's friends. (2) deliver an effective blow to the enemies of the group one has been pretending to be part of despite personal danger. (3) make up the damage one has done by personal contribution far beyond the ordinary demands of a group member. (4) apply for re-entry to the group by asking the permission of each member of it to rejoin and rejoining only by majority permission, and if refused. repeating (2) and (3) and (4) until one is allowed to be a group member again. Some PCs, for instance, get a slight fall every time any question is asked. Some get a fall only when there is heavy charge. Both can be security checked by studying the common pattern of the needle demonstrated in asking the **lie reaction questions**. (HCO PL 25 Mar 61) 2. all questions to determine your reaction pattern on a confessional. Example: are you sitting in a chair? Are you on the moon? Are all cats black? (HCO PL 7 Apr 61RA)

There is no note, no interest rate, nothing. The **Lifetime** or Credit **Member** is billed monthly on a standard charge account system. However, the Credit **Member** must have paid for his course or his grade worth of intensives or his book bill before he can have another course or grade or beyond a reasonable amount of books. If the bill is not paid in 12 months the **membership** is forfeit. (HCO PL 22 Mar 65, *Current Promotion and Org Program Summary Membership Rundown International Annual Membership*) 2. receives PAB Magazine as available, Continental Magazine as available, 20% discount on training, processing, books, tapes. It means not to be mimeoed again by the receiving org. There are two classes of non-remimes: general nonremimeo and **limited non-remimeo**. **Limited non-remimeo** means that copies only go to master files, LRH Comm, the Guardian or A/G, HE S, OE S, ED (CO) and FR. (BPL 14 Apr 69R) 2. (mimeo distribution) it is usually important that this does not get wide distribution as it has to do with org know-how, planning, etc., and could be misunderstood. So it is not remimeoed or strewn about. It may be taken up in staff meetings but that is about all. One never republishes a **limited non-remimeo** in a magazine. (HCO PL 2 Jul 64) 3. there are two classes of non-remimeo. One is **limited non-remimeo**, meaning master files, HCO Sec, and Assn/Org Sec. (5812C16)

**LINE POST**, a line post has to do with organizational lines; seeing that the lines run smoothly; ironing out any ridges in the lines; keeping particles flowing smoothly from one post to another post. A line post is concerned with the flow of lines, not necessarily with the fixed terminal posts at the end of the lines. An example of this is a communicator. His job is mainly keeping communications flowing smoothly from one terminal to another. Any time there is a stop in the flow of communications, he straightens it out. Ron Hubbard**, a private person as distinct from a trustee, a director or a staff member. LRH, an individual often advances goods or sums without reimbursement, has borne the whole cost of research of Scn and used his own money to found organizations. (HCO PL 21 Dec 65)

**LRH ARTIST**, purpose: to enhance the dissemination of LRH's wisdom and understanding through brilliantly designed and well executed visual and graphic ideas of high quality. To promote LRH and disseminate Dn and Scn through brilliantly designed LRH publications of excellent LRH image. (COLRHED 405)

**LRH AUDIO-VISIO BRANCH**, the **LRH Audio-Visio Branch** is positioned on the org board in the Personal Office of LRH in the LRH Personal Secretary Office. The purpose of the **LRH A/V Branch** is to bring about LRH's standards as applied to audio and visio, both in the execution of his projects and in the delivery of audio and visio products where his name, voice or image are involved. (FO 3676)

**LRH, BOARD MEMBER**, this is an unpaid identity on several boards. It is entitled only to out-of-pocket expenses and almost never puts in for any. This is a **member of a board** of directors. These must be paid no salary in a non-profit corporation, only expenses. "Chairman" comes under this. Also "President." (HC 0 PL 4 Jan 66 VI)

**LRH BOARD OF REVIEW**, as it may well be that in the past year there were some injustices or misassignments of conditions by others, I have convened the LRH Board of Review. This was once a traditional function of HCO and has not been in use for some time. Anyone on Flag or who has been on Flag for the past year and who may believe that any injustices need correction

should contact the Chairman of the **LRH Board of Review** at Flag. (OODs 30 Sept 73)

**LRH BRIEFING OFFICER**, one who briefs others on what LRH is doing now in what areas so that his actions can be backed up, followed through and brought to a successful completion of cycle thereby helping him to move off spots that he has handled through observation, development and origination of communications which when duplicated and executed do handle those spots. (BPL 27 Jul 71)

**LRH COMM AIDE**, 1. Branch 11A, the LRH Comm Branch (Flag Management Bu). This branch consists of all the functions that involve the actual running of the LRH Comm Network. The head of the branch is the LRH **Comm Aide**. (FBDL 488R) [This post is not now CS-7 but a separate post below CS-7.] 2. CS-7. (FO 1109) 3. CS-1: LRH **Comm Aide** in charge of communications, transport and personnel. (FO 795)

**LRH COMM BRANCH**, 1. (Branch 11A Flag Management Bu) this branch consists of all the functions that involve the actual running of the **LRH Comm Network**. The head of the branch is the **LRH Comm Aide**. Cont'l **LRH Comms** and org **LRH Comms** will continue to receive their orders from this **branch**, with the only difference being coordination of all orders and priority setting, through the FR Network and Execution Branch. This branch also contains a "Tech and Policy Knowledge Management Section" whence the KOT and PK Network is operated, and as a unit of this section, on Flag a "Tech Quality Control Unit" which handles tech queries and flub catch per policy. (FBDL 488R) 2. **LRH Comm Branch**, Management Bureau, Flag, creates and runs an operational LRH Comm Network and through this network requires duplication of and gets compliance to LRH orders, policy and tech from all org staff-also gets compli-

ance to CS-7 and Senior LRH Comm orders. Operates on programs and CEDS and through effective nudging gets compliances to these. Does debugs where programs not getting done. Keeps track of programs and orders with orderly up-to-date logs and files. Sees that **LRH communications** fly and look well. Safeguards LRH admin and ethics procedures. Puts a qualified Keeper of Tech and Policy Knowledge Network there and through it ensures LRH tech and policy is safeguarded and adhered to without deviation. Receives and handles technical queries by direct reference to LRH tech. Overall enhances LRH image and increases orgs and staffs and publics' affinity with him. Takes full responsibility for and handles by evaluation and execution estates and ships for Sea Org and Scn orgs. (CBO 376)

**LRH COMM BRANCH FOLO**, **LRH Comm Branch** in the Management Bu at a **FOLO** creates and runs an effective fully operational Continental **LRH Comm Network** and through this network requires duplication of and gets compliance to LRH orders, policy and tech from all org staff, and to CS-7 and LRH Pers Comm orders. Operates on programs and gets org LRH Comms to write CEDS and gets compliance to these, keeps track of programs with up-to-date logs and files and does necessary debug actions per standard LRH Comm procedure where programs are not getting done. Sees that LRH communications fly and look well and safeguards LRH issue authority and ethics procedures. Operates a Continental KOT Network and through it ensures that LRH tech and policy knowledge is safeguarded and 100% standard. Receives and handles technical queries by direct reference to LRH tech. Handles area and continental estates matters via the Continental Estates Exec and Area Estates Org with proper CSW as needed and ensures that estates programs for orgs, area, or ships are executed. (CBO 375)

**LRH COMM BUREAU**, the **LRH Comm Bureau** logs, distributes and obtains compliance from all LRH issues. It receives and responds to all public response to LRH. It maintains LRH as image and Source by establishing LRH as an image in orgs and with the public. (CBO 7)

**LRH COMM LOG**, 1. the purpose of the **LRH Comm Log** is to accurately record details of all **LRH communications** received and their acknowledgement and compliance from recipients of those orders. It is further used to detect areas of non-compliance, no reports and false reports (through direct observation or examination of statistics). The basic operating tool of an **LRH Comm** is his **log** book. This is usually a common day ledger divided into separate sections with an index marker. All LRH EDs, HCO PLs, HCOBs, telexes and dispatches requiring either acknowledgement or compliance or both are **logged** by the **LRH C** immediately after their receipt, prior to mimeo or duplication of issue. The log is kept up daily and is never permitted to backlog. (BPL 19 Oct 73) 2. all SEC EDs, HCO PLs, HCO Exec Letters and dispatches requiring either acknowledgement or compliance or both are **logged** by the **LRH Communicator** in every org. Any common day ledger may be used. The emphasis is on completeness and legibility not on neatness. The thing to watch is to log the moment the item or report is received. (HCO PL 17 Mar 66)

**LRH COMM MASTER FILES**, each **LRH Comm** keeps a **file** for each type of issue from LRH-HCOBs, HCO PLs, EDs, etc., and one marked for indexes containing the monthly lists of mimeo items. (BPL 20 May 70 IV)

**LRH COMM NETWORK**, the **LRH Comm Network** is one of the oldest established networks in Scn organizations. Its major function is to get compliance to LRH's orders, policies, projects and pro-

grams and to see that these stay in. The **LRH Comm Network** is not a management network. It is a **communication** and compliance **network for LRH**. (CBO 116)

**LRH COMM PROGRAMS CHIEF**, 1. the post heads up its own branch on the Programs Bureau Org Board. The FOLO/CLO **LRH Comm Programs Chief** is the opposite number of the **LRH Comm Programs Chief** Flag and has a direct line to **LRH Comms** of the area orgs for the purpose of getting compliance with LRH issues and orders, and **LRH Comm Network** issues and orders, as specified and directed by **LRH Comm Programs Chief** Flag (CBO 252) 2. the title of **LRH Comm Programs Chief** is hereby abolished. Former **LRH Comm Programs Chiefs** in FOLOs are appointed Deputy **LRH Comm- Continental**. The title of **LRH Comm Pgrams Chief** Flag is hereby changed to that of Deputy **LRH Comm Flag**. (HCO PL 3 Aug 73 I) [The above HCO PL was cancelled by BPL 10 Oct 75 XI-1

**LRH COMM STAFF PROGRAM NO. 1**, 1. this is a plan to get all staff members up to HDC or HDG and get them through the Org Exec Course. It is done by part-time training, the person carrying on his regular staff job. If staffs are all trained on the OEC it is very unlikely that the org form and functions will go out. Technical reality on the subject of auditing PCs is highly desirable on the part of admin staff. (LRH ED 78 INT) 2. this program is designed to part-time train staff up to HDC and HDG and then the Org Exec Course. (SO ED 12 INT)

**LRH COMMUNICATOR**, 1. the **LRH Comm** is located on the org board in Dept 21, Office of LRH. As part of an autonomous network, the **LRH Comm** does not come under local executive jurisdiction, but is subject to the orders and directions of network seniors. As a personal representative of **LRH**, the **LRH Comm** has full powers to take those actions in accordance

with his hat to carry out LRH's intention for his org. The prime duty of an LRH Comm is getting verification of compliance with existing LRH programs or orders intended for that org or area, and new LRH issues as released. (BPL 5 Dec 73R II) 2. the title of that person in a Scn org who is responsible for the communication and handling of LRH matters with regard to that org. (BTB 12 Apr 72R) 3. an LRH Communicator has a basic duty of getting compliances with LRH orders. This remains the basic duty. (HCO PL 27 Feb 71 I) 4. the department head, Department 21. (FEBC 12, 7102CO3 SO II) 5. is in charge of Flag Division IX. (FO 2674) 6. as the **LRH Comm** is a split off of the old HCO Area See hats, these two combine very easily as HCO Area Sees were **LRH's first communicators**. (LRH ED 49 INT) 7. the **LRH Comm** is responsible for making a functioning HCO and for LRH orders to that org and for its ethics condition. These are establishment factors. (LRH ED 153RE INT) 8. the person in charge of Division 7 is the **LRH Comm** of the ship. This person of course is the divisional officer. This division is normally called the Executive Division. (FO 1109) 9. the **LRH Comm** has the first and primary duty of "making Ron's postulates stick." All his admin and actions have to do with this. The LRH Communicator handles the communications to and from LRH and gets compliance with LRH EDs and orders and (in absence of an Asst Guardian) enforces policy letters. (HCO PL 10 May 68) 10. the primary function of the LRH Communicator is getting acknowledgments for SEC EDs issued or getting the Executive Director's orders and policy issued and reporting to LRH. (HCO PL 19 Jan 66 II) 11. the purpose of the **LRH Communicator** is: to forward the **communications** and orders of LRH and to make certain that his orders, dispatches, directives, policy letters and secretarials are issued and complied with and that acknowledgment is returned to LRH

concerning them in due course. (HCO PL 27 Dec 65) *Abbr.* LRH Comm.

**LRH COMMUNICATOR PROJECT BOARD**, the **LRH Communicator** keeps a **project board**. Every project or order or directive or SEC ED issued is noted on this **board**; by routine and regular inspection personally and by dispatch the **LRH Communicator** sees to it that each and every order and project is eventually complied with or acknowledged. (HCO PL 27 Dec 65)

**LRH COMM WW**, he must give first priority to three things: (a) keeping the **LRH Comm** Network manned and operating, as the inter-org network of world communication; (b) ensuring rapid distribution of orders, executive directives, HCOBs, policy letters, materials for HGC and student training; (c) compliance herewith. A forth and important action of **LRH Comm WW** is to see that tapes by LRH are played in orgs wherever possible and also with excellent quality. A fifth duty is to see that an actual Office of LRH exists in orgs, that busts and photos are displayed and that Source is maintained in orgs. The **LRH Comm WW** should see to it that the **LRH Comm** Network is used, that orders and actions are logged and that all LRH Comms are well trained and aware of their duties. (HCO PL 12 Feb 70 II)

**LRH COMPILATIONS LIBRARIAN**, (**LRH Compilations** Unit) the purpose of the **LRH Compilations Librarian** is: to help LRH increase the availability, usage and consumption of LRHs Dn and Scn materials through a well organized **library** of these materials. (COLRHED 387)

**LRH COMPILATIONS UNIT**, on Flag there is an **LRH Compilations Unit** established in the Personal Office of LRH which has the sole purpose of aiding and carrying out Ron's wishes for new books and articles *he* wants to do. This means an entire, full-time research, artistic and transcription

staff that Ron can personally call on to **compile** materials for his use or publication. (FBDL 412)

**LRH EDs**, **L. Ron Hubbard Executive Directives**, earlier called SEC EDs. These are issued by LRH to various areas. They are not valid longer than one year if fully complied with when they are automatically retired. They otherwise remain valid until fully complied with or until amended or cancelled by another LRH ED. They carry current line, projects, programs, immediate orders and directions. They are numbered for area and sequence for the area and are sent to staffs or specific posts in orgs. They are blue ink on white paper with a special heading. (HCO PL 24 Sept 70R)

**LRH, EXECUTIVE DIRECTOR**, this is better understood as "General Manager" as it isn't as a member of the board that it is held but as a manager. This is a paid post in any corporation or association. There are numerous **LRH Exec Dir** titles and identities; for this title repeats in each area and org and in the International Division. It means "highest executive of the organization," "third member of the Advisory Council," "head of the department called the Office of LRH." Therefore there is one of these titles for each org we have and for the International Exec Division as well. Perth for instance has an **LRH Executive Director**, Perth, LA has **LRH Executive Director** LA, etc. Then there is **LRH Executive Director** WW. The identity of the LRH Communicator in the org or activity gives clue to this. *Each LRH Executive Director* title has an LRH Communicator. There are two LRH Communicators at Saint HUI, LRH Communicator WW, who attends to each org for LRH Executive Director WW via each org's LRH Communicator and LRH Communicator SH who handles the traffic both of **LRH Executive Director** WW as sent to it from the LRH Communicator WW and for **LRH Executive Director** SH. This is only possible as the

orgs are all similarly engaged. HCO Area Sees filled this role for years and still do where there is no LRH Communicator. HCO Area Sees still have duties for the Executive Director regardless of the LRH Communicator as old policy letters show. "SEC ED issue" is one of these. Proper routing from an org is through the LRH Comm of that org to LRH Executive Director of that org and forwarded on to LRH Comm WW who sees that LRH Exec Dir that org receives it in absence. **LRH Exec Dir** WW may issue a blanket order concerning it but it is usually answered by **LRH Exec Dir** that org. The Advisory Council of any org operates without its third member, **LRH Exec Dir** of that org but in case of disputes or errors finds **LRH Exec Dir** that org taking it up. (HCO PL 4 Jan 66 VI)

**LRH HEAVY HUSSARS HAT**, this function is to move in heavily where there is a threat of great importance to an org or Sen. After the usual lines and posts have goofed. The term comes from the old cavalry purpose of Hussars who were held in reserve until a battle line was dangerously bowed, at which they were sent in to straighten it out. (HCO PL 1 Mar 66)

**LRH MEDIA ORG**, the LRH Photoshoot Org was an org that specialized only in photography, assisting LRH. Since that time, it has expanded into other **media** fields such as radio, television ads, billboards and video as well as still doing photography. The name has been changed to a name that encompasses all these products. The new name is: **LRH Media Or** on. (ED 871 Flag) *Abbr.* LMO.

**LRH PERSONAL A** , 1. per HCO PL 22 February 1967, *Office of LRH, LRH Personal Office Organization*, **LRH Personal Aide** was in the Office of LRH over the LRH Personal Aide Branch which includes LRH Audio Visual Aids Section, Processing Unit, Cameras Unit, Tapes Unit, Recorders

Unit and Supplies Unit. (HCO PL 22 Feb 67) [The post of **LRH Personal Aide** is abolished per HCO PL 2 Jul 1968 Issue II, *Office of LRH WW Reorganization.* ]

**LRH PERSONAL COMMUNICATOR,**

The **LRH Personal C** hat is vital to let me produce. (FO 2370) 2. the Flag Office of LRH is under the control and administrative command of the **LRH Personal Communicator**. In matters of pay, liberty, uniforms, quarters, repairs, etc., the Flag Office of LRH and its personnel operate under the **LRH Personal Communicator**. (FO 2374R) *Abbr.* LRH Pers Comm.

**LRH PERSONAL PRO,** the product officer of the **LRH Personal PR** Bureau, and has the purpose to help LRH with his **per-**

**sonal** duties in PRO and dissemination and provide an image for presentation elsewhere. This is accomplished by controlled good relations with all LRH publics. (COLRHED 11)

**LRH'S PERSONAL PRO INTERNATIONAL, 1. Ron's Personal**

**PRO International** is a new post in the Personal Office of LRH at Flag. The post purpose is to get LRH's technologies utilized external publics are those publics outside of Scn, governments, media, social reform, education, the arts, business, specialist activities are all included in Ron's external publics. **LRH Personal Pro International** creates **international** campaigns that get the technologies developed by LRH used throughout the world. (BPL 3 Sept 75 II) 2. it is located in the Personal Office of LRH directly under LRH's Personal Communicator. The post of **LRH's Personal PRO International** is concerned with external publics. The post is not connected with the present LRH Personal PRO Office. (BPL 3 Sept 75 I) 3. **LRH PR International** is solely international and works with GO, governments and **LRH's PR internationally** with her own network. (COLRHED 338)

**LRH PERSONAL PRO OFFICE,** (Flag) the present **LRH Personal PRO Office** exclusively assists **Ron with public relations** activities concerning the internal publics of Dianetics and Scientology. (BPL 3 Sept 75 I) [Note: also called **LRH Personal PRO Bureaux** per COLRHED 11]

**LRH PERSONAL PRO 0/0,** (**LRB Personal PRO Bureau**) the **LRH Pers PRO 0/0** is responsible to see that there is adequate organization for production in the **LRH Pers PRO Bureau** and does so according to the org officer/product officer system. (COLRHED 11)

**LRH PERSONAL SECRETARY,** the Executive Division is Division 7. The LRH Communicator is in charge of the division. It

consists of three departments. The first department is the Office of LRH, Department 21. It is in the charge of the **LRH Personal Secretary**. (HCO PL 2 Aug 65) [This post was created also aboard Flag in 1972. In addition to **personal secretarial** duties to **LRH** she is in charge of the LRH Compilations Unit, SO 1 Unit, LRH Audio-Visio Unit, LRH Artist, LRH Properties Chief and LRH Photographer, which are all engaged in making special products for or assisting LRH with his products.] Abbr. LRH Pers Sec.

**LRH PERSONAL SECRETARY U.S.**, the post of **LRH Personal Secretary U.S.** is in Dept 21, Personal Office of LRH U.S. within the Office of LRH U. S. the post is an extension of the **LRH Personal Secretary** Office Flag and has as its purpose to predict, service and handle all LRH secretarial needs from the U.S., as a counterpart to the LRH Pers Sec Office Flag. (FSO 836)

**LRH PR FOR PROFESSIONAL SCIENTOLOGISTS**, (LRH Personal PRO Bureau) the publics with whom **LRH PR for Professional Scientologists** will be working are those persons in any type of **profession** who are already in Scn. The purpose of the post very simply stated is to: hat Scientologists in using LRH tech in their professions (as well as in their personal life) and thereby expanding the use of LRH tech so broadly that all Scientologists make LRH tech indispensable in every profession known to man and acknowledged as such. (COLRHED 359)

**LRH PROPERTIES**, by definition property means furniture, fittings, personal effects and files and papers which are the **personal property of LRH**, an individual, or LRH, an official of the organization. (HCO PL 27 Dec 65)

**LRH SO BRIEFING TAPES**, **briefings** to aides and officers of Flag Org and the Flagship, by the Commodore, which have to

do with SO operating policies, principles, etc., of incalculable value to Continental Captains, stationships, and all units and their crews. Distribution is limited to Sea Org members. (FO 2512)

**LRH'S OFFICE**, by policy and tradition, the Founder has an **office** of his own in each org. The LRH Comm is responsible for its establishment and upkeep. It is the property of LRH personally and the place where his own belongings and material in the org are kept. (BPL 23 Dec 72R)

**LRH, STAFF MEMBER**, 1. in addition to all other identities and titles there is that of LRH, Staff Member. As such I give staff lectures in the org where I am, assist where I can, crack cases and train students as "coordinator of research" (meaning application of research), write magazines, take pictures, act as a routing expert, listen to problems, and do a lot of other things. I am chiefly a **staff member** of the org where I am located but am also a **staff member** of each org. (HCO PL 4 Jan 66 VI) 2. LRH, a staff member works on staffs as a case consultant, training officer, lecturer, design and planning consultant, promotions adviser, and a department head of the Office of LRH and as such should receive compensation. As a staff member his expenses are paid by orgs. The pre-Dn salary level of LRH, an employee, was several times that given by orgs subsequently. (HCO PL 21 Dec 65)

**LRH, TRUSTEE**, 1. this is **L. Ron Hubbard** in the capacity of a **trustee** as distinct from a director or individual or staff member. **LRH, Trustee**, holds money for corporations or persons or holds property for them. (HCO PL 21 Dec 65) 2. this identity is a **trustee** who holds in trust properties and money for Scn and since 1957 has held UK and Commonwealth corporations in **trust** for the original U. S. company until these assets can be transferred to a UK non-profit corporation. All money sent to LRH an indi-

vidual is received by LRH a trustee or a corporation and is seldom paid to LRH an individual but turned over to companies without being given to LRH, an individual. This is a vital point, often missed even by accountants who then get us involved. "Trustee" is an identity and activity almost all movements, churches, and benevolent associations have and in each case the "trustee" does just what LRH a trustee is doing safeguarding property and assets of an association. It's a very usual role. (HCO PL 4 Jan 66 VI)

**LRH, TRUSTEE FOR TRANSFER**, for some years the Commonwealth (overseas, not U.S.) interests belonging to the Hubbard Association of Scientologists, International, Incorporated, in Arizona, have been held by **LRH, Trustee for Transfer**. As the overseas interests were worthless to the U.S. corporations in the U.S. (HASI, Arizona) due to currency exchange laws, and was costing it money, the Board of HASI, Arizona, appointed LRH a trustee for transfer for all Commonwealth corporations property or interests with orders to hand it over to a UK corporation. (HCO PL 21 Dec 65)

**L. RON HUBBARD, AS A WRITER**, in that new boards of directors are being elected for the various corporations and their branches, I am resigning the title of Executive Director and in accordance with a resolution of the general meeting of charter members, am being given the title of "Founder" instead. I am still available for consultation and for signature. It is called to attention that the signature available is that of **L. Ron Hubbard, as a writer**, and not that of L. Ron Hubbard, an individual. As the two signatures may become somewhat confused, the distinction is emphasized. On specific request, as a writer, I will write books on

## **M**

Ron Hubbard Trustee Account**. This account is a trust holding pending the formation of the Hubbard Scientology Research Foundation. (HCO PL 26 Sept 62) [Note: This policy letter has been cancelled per BPL 10 Oct 75 IV.]

**LUCK**, by **luck** we mean "destiny not personally guided." Luck is only necessary amid a strong current of confusing factors. (POW, p. 21)

**LUNATICS**, the characteristics of a **lunatic** is one-way-help-inflow. They don't want to help anyone. They only want to be helped. The moment you insist they help others they either (a) vanish or (b) do so and get well fast. (HCO PL 3 Dec 64)

**LUNTEER**, in the Sea Org an unpaid server with no regular status. (FO 196)

duty of **hatting** personnel on the proper use of **machinery and equipment** comes direct-

ly under the Estates Manager in Dept 21, Div 7. This post, if done well, will save thousands of dollars in **equipment** repair costs and hundreds of production hours, which are lost by having inoperational, broken-down, misused equipment and the resulting cope therefrom. The why for these breakdowns is unhatted operators. (FO 3575) *Abbr.* MEHO.

**MAGAZINE IMPROVEMENT UNIT**, a unit established in the Magazine Section of the Promotion and Compilations Branch of the PR and Consumption Bureau. The purpose of this unit is to see to the improvement of continental and area org magazines. (CBO 299)

**MAGAZINES**, advertising pieces for other items or services. They are not in themselves a primary publications media. By that is meant you do not use a **magazine** as an outlet for the publication of a book in the **magazine** itself, or a poem or an HCOB or policy letter or any other valuable item. **Magazines** review them without giving much content, discuss them, refer to them and direct attention to primary items or services. **Magazines** do not carry the item itself. **MAILING LIST**, a list of the names and addresses of the customers or prospects of a business which is used to send them information, letters and sales promotion.

**MAILOGRAM**, a **mailogram**, is a message that is sent electronically via Western Union Telegraph Company to the post office nearest to the destination address, where the message is printed out on a teletypewriter and put into a specifically marked envelope (looks like a telegram) for delivery by **mail**. (BFO 98)

**MAIL ORDER HOUSE**, a business that deals in receiving orders for merchandise and shipping the goods so ordered by mail. Usually a mail order house has a catalogue that it sends to customers from which they can find what merchandise is available and how much it costs. The operating costs and overhead of a mail order house are usually less than a business that maintains retail outlets so they often offer discounted prices on merchandise.

**MAIL SECTION**, section in Department 2, Department of Communications. **Mail Section** logs incoming and outgoing **mail**, franks all **mail**, **mails** all **mail**, **bulk mailings**, package insurance and packaging customs clearances. (HCO PL 17 Jan 66 II)

**MAIN ACCOUNT**, the **Main Account** receives the full org allocation sum. The usage of the org allocation sum for Class IV Orgs follows: 45% salary, 15% promotion, 30% disbursements, 10% reserves. Set asides are of course retained in the Main Account and a set aside ledger is maintained to ensure all sums set aside are only spent on the items they were set aside for. (BPL 6 Jul 75 III)

**MAINTENANCE**, 1. the proper lubrication, cooling, adjustment, and preservation of an item, area or installation. (FO 1993) 2.

(engine room) the **maintenance** unit is a separate body which handles maintenance of the engines and all repairs necessary. This unit usually works a 12-14 hour day but is on call for 24 hours should anything break down. (FO 1722) 3. purpose: to **maintain** suitable quarters, clean and in repair, for the organization (HCO London 9 Jan 58)

**MAINTENANCE**, the repair, upkeep and cleaning of property, buildings, machinery, etc., so as to keep it in good operating order or in attractive condition.

Maintenance

**MAINTENANCE ACTIONS**, the essence of successful estates operations is to separate out **maintenance** and service actions from repair or renovation actions as each of these requires its own unit of time. **Maintenance** are continuing actions whereas repairs, renovations and constructions are one time actions. (HCO PL 16 Aug 74 IIR)

**MAINTENANCE CHECKLISTS**, these are drawn up for use by the **maintenance** and engineering units and must cover the specific actions necessary to maintain, service and clean all buildings, grounds, equipment, machinery and mechanical systems.

Such checklists are for daily or weekly use according to the frequency of the actions they cover. Such checklists cover specific physical areas and each has a particular purpose (e.g., servicing an elevator; cleaning and polishing up a room from top to bottom; structural servicing and upkeep of a room or section of the building maintenance of a lawn; **maintenance** of a hot water heating system; etc.). (HCO PL 16 Aug 74 IIR)

A message consists of one subject and the reason why. It should be written so that enough space remains on the paper to answer the communication. Neatness, clear typing, retyping, are not important as long as the writing is legible. The actual content of the **message** and its placement on a piece of paper large enough to admit of an answer on that piece of paper are of the primary importance. The number of things which must be on the message is precise and should be placed in this order: (1) date, (2) the person to whom the message is addressed, (3) the person who is sending the message, with address, is needful, (4) the actual message or datum itself, (5) the reason why it is needed, (6) the initials

**MESS TREASURER**, keeps an account notebook for the mess and buys or charges the mess members for any extras they elect.

He divides such small sums pro-rata for the mess members and is paid by them on a weekly basis, each mess member has an account with him. This is an entirely private arrangement among mess members, having nothing to do with the ship's funds. The Treasurer safeguards and expends any monies of the mess. (FO 2586)

**MINUS INVOICE**, in invoicing income and in writing disbursement vouchers, all corrections are done on additional invoices or vouchers. This makes it unnecessary to search wildly for the machine copies to correct them. The original invoices or vouchers are often already distributed when a need of correction arises. Instead of correcting the original write a **minus invoice** giving what transaction was being corrected as fully as possible. In case of a refund from cash just received or a correction of amounts just received or in case of a bad check informed from the bank, write a minus invoice and clearly mark it so and for how much and to whom and why. In adding the week's income these show up easily. When separating out invoices into classes of income for an audit these minus invoices show up clearly and are subtracted from the type of income. Mark the invoice minus in big capital letters

so nobody can miss it. (HCO PL 30 Jan 66 III)

**MINUS VOUCHER**, 1. in invoicing income and in writing disbursement vouchers, all corrections are done on additional invoices or vouchers. This makes it unnecessary to search wildly for the machine copies to correct them. Mark the **voucher minus** in capital letters so nobody can miss it and give full details. When sorting out classes of disbursement for an audit these minus vouchers are dealt into the class of expenditure but when it is totaled they are subtracted. (HCO PL 30 Jan 66 III) 2. every voided check is accompanied by a **minus voucher** white-copy showing a voucher has been written to subtract it. This is not the original disbursement voucher but a new one, called a **minus voucher** which clearly has minus printed on it in caps. (HCO PL 30 Jan 66 IV)

chartered Scn field activity will be properly designated only as **Mission** of the Church of Scientology. In Scn, this commission is the right to constitute a **mission** for a certain district or territory and to use the name Applied Philosophy, Scientology, and Dianetics. Their members are called "**missionaires.**" (HCO PL 15 Sept 68) 8. a **mission** could be defined for our use as a formally authorized individual or group sent to perform a specific task or duty sent by Operations. That would require, then, personnel selection, training, briefing, **Mission** Orders, dispatch and full admin. The difference between an errand and a **mission** is that **missions** are sent by an Operations Officer, errands are sent by anyone else. When an "errand" involves more than one day it should be handled by Operations, not by some other division. It then becomes a **mission**. (FO 2530R) 9. to handle downstat orgs and areas the Sea Org simply gets in ethics. This is done in such a way as to enable that org or area to get in tech, which makes it possible then for them to get in admin. In order to do this we send out missions. These have unlimited ethics powers and enough force to accomplish their purpose of getting in ethics. (FO 228) 10. a **mission** consists of a **missionaire** trained officer and **missionaire** trained personnel. (FO 1802) *Abbr.* Msn.

**MISSIONAIRE**, 1. the word **mission** may now be used to designate only a Sea Org official **mission**. It has unlimited ethics powers. Their members are called **missionaires**. (FO 2494) 4. **missionaires** are auditors to orgs. (OODs 6 Jun 74) 5. someone *in motion* handling a distinct laid out cycle of action. The basic cycle is *go there - do it - come back*. This is very different than the persons in the org who are stable and stay there doing it. When the **missionaire** comes back, he returns to his own post. (FO 2200) *Abbr.* Msnaire.

**MISSIONAIRE, APPRENTICE**, persons transferred to the Missionaire Unit who have not completed mission school or do not have officer rank are entitled apprentice **missionaires**. Are you intending to use the **mission** for some additional purpose not stated? Is there something about this mission you haven't disclosed? The three questions are done in Qual out of session. If they read at all they should be handled by an auditor with usual Integrity Processing procedure to find out what it's all about and get the data. (CBO 263)

**MISSIONAIRE SECOND CLASS**, 1. the Mission School is Missionaire Third. Mission School plus Org Exec Course and successful missions is a Missionaire Second. **MISSION CHARTER**, this charter gives official authority to the individual who receives it to conduct a mission in the area specified. It does not confer any liability on the Mother Church but it does confer upon the individual a right to practice Dn and Scn in his area. This right is granted by the Mother Church by virtue of authority given it by L. Ron Hubbard, sole owner of the materials and copyrights of Dn and Scn. The right is dependent upon good usage, regular remittance of tithes, and the continued good standing of the grantee. The grantee then has authority to run his **mission**. (BPL 20 Nov 69R)

**MISSION CLEAR NAMES**, there has been trouble, false reports, and down stats. Therefore we are sending two missions to U.S. -one to East U.S., one to West U.S., **Mission Clear Names** to handle false reports in the U.S. and trace back to source of trouble. (FMO 121, 26 Mar 69)

**MISSION INTERNATIONAL BOOKS**, **1. mission** to go to every org and with a checksheet and fully prepared data, teach the entire staff rigorously how to land **books in bookstores**. (FMO 13, 6 Jun 68) **2. the reason Mission International Books failed** is that no administrative action was put in to back up their actions. It failed in terms of lack of **book** orders. People were sent out to bookstores to place **books** but nobody was arranged to go along to the **bookstores** and act as an agent from the org to collect the money and keep their stands full of **books** and so forth. That's what it takes to sell and place **books** in the **bookstores** (CS Order 46) *Abbr.* MIB.

**MISSION INTO TIME**, is a book by L. Ron Hubbard that tells the story of one of

the most fascinating adventures undertaken in recent history. (FBDL 365)

The term **mission orders** is used for all five types. The term "**missionaire**" is used for the personnel who conduct the first four types and "courier" is used for the last type. All MOs are written with regard to the Data Series Policy Letters which must be very well known to all in Bureau IV. (FO 2936) 2. **mission orders** are detailed actions which the **mission** carries out to achieve the purpose of the **mission**. This form consists of a brightly colored sheet of paper (green, blue, goldenrod, etc.) and has the words **mission planning alert** printed on it in bold red type. It is addressed to someone and has a space for filling in a brief summary of the mission plan being worked on. It has a section requesting data, statistics, debriefs into the area being worked on and a request for comments and requirements concerning the mission being **planned**. It is printed up on lightweight paper so that carbons can be used in writing up the **mission** outline. (FO 2579)

(FO 3254)

**MISSION PREPS I/C**, **Mission Preps I/C** is junior to the Briefing Officer, Preps I/ C checks the many details of launch time, pack comps, uniform supply, etc., and that the **mission** has everything it needs to accomplish its purpose and major targets, and keeps the Briefing Officer informed of what has been done. The fourth column is the month since when the **bill** has been past due. All bills are filed on arrival. They are not kept out and entered. They are filed in the folders. Then one takes the folders one by one and makes up the **monthly bills summary**. As each folder is taken up the **bills** are examined for correctness, straightened up and entered in the **monthly bills summary**. (WO PL 26 Nov 65R)

(6802C28 SO) [This is using a metal detector to locate things buried underground and marking on a paper divided into grid squares where readings occurred so that you end up with a record of an area searched and where readings occurred in that area.]

M-Scoping

**MUCKRAKER**, one who searches for and exposes commercial or political corruption.

**MUD BOX BRIGADE**, 1. persons appointed to it clean mud boxes, fuel lines, water lines, bilges, etc. It is under the MAA and it reports to whoever needs it. More candidates will be appointed regularly and promptly

every time I find a freeloader who is loafing on post and drifting with the wind. (OODs 4 Jan 68) 2. this group is the most downstater and one gets assigned to it by being a freeloader, invisible on post, loafing and really goofing up on one's job. (FO 1701)

**MULTIPLE BAR CHART**, see CHART, MULTIPLE BAR.

**MULTIPLE DECLARE**, in an effort to raise completions and in confusing particle fast flow with quick auditing, auditors began to use only one process for a grade. Protest of having the PC sent to examiner every ten minutes led to **multiple declare**. The PC declared all lower grades at one time without specifying their abilities. Grades, the very rock basis of results, were then neglected. (LRH ED 104 INT)

**MULTIPLE MANAGEMENT**, see MANAGEMENT, MULTIPLE.

**MULTIPLE OFFER**, sales offer in which several or more items are to be sold as a single purchase.

**MULTIPLE OPINION**, to express a **multiple opinion** (use of "everybody") in vital reports, which could influence assistant board or board decisions. (HCO PL 7 Mar 65 III)

**MULTIPLE REPORT**, two bad data systems are in current use on data. The first is "reliable source." The other system in use is **multiple report**. If a **report** is heard from several areas or people it is "true." The Russian KGB has a Department D that forges documents and plants them in several parts of the world. They are then "true." Propaganda spokesmen located all over the world say the same thing to the press on every major occasion. This becomes "public opinion" in government circles and so is

"true" because it is published and comes from so many areas. Five informants could all have heard the same lie. (HCO PL 17 May 70)

**MULTIPLE VIEWPOINT SYSTEM**, 1. something new was added to the world with the **multiple viewpoint system**. What's this new system? Well, you see everything from the branch office! You don't see it from headquarters. You have to be as pan-determined as daylight to even conceive of such a system. For it's a true OT system. Every situation is viewed from the viewpoint of the branch office, or the regiment on the firing line or the squadron in the sky. It takes a pretty humble or pretty OT HQ to say "We don't have a viewpoint. We are not important as a viewpoint. The only viewpoint that's important is that of the man on the firing line, the Squadron Leader in the sky, the Colonel actually engaged in battle." So that's a **multiple viewpoint system!** The key is files. Every org in the world has a file for each month in the data files. As the data pours in from that org-telexes, staff reports, MO reports, finance reports, surveys, personnel records, observations, any and all data it goes bang at once into that org's file for the month. All in a folder for that org for that month. And there's that org, not only current, but for each month exactly for years back. As fast as they've been filed they are worked. In other words read and acknowledged. Queries are handled. (FBDL 192R) 2. the files are so arranged (one org, one month of data) that one can obtain the **viewpoint** of that org from that org as though one were in that org looking out. All former operations systems on this planet have a single viewpoint system, that of headquarters. As soon as you grasp this fact, that HQ is no viewpoint except of headquarters and that all data puts one's point of view right there in an org, you can file that way. (OODs 1 May 72)

**MUNICIPAL BOND**, a bond issued by a state, county, city, town or village or by state agencies and authorities.

**MUNICIPAL CORPORATION**, see CORPORATION, MUNICIPAL.

**MUSACK**, 1. must acknowledge. (HTLTAE, p. 67) 2. the position in a comstation which is taken by a communication that originated at another station and must be acknowledged by this station. (HTLTAE, p. 121)

**MUSCOMP**, 1. must complete. (HTLTAE, p. 67) 2. the position in a comstation taken by a communication originating elsewhere which has been acknowledged by this station but must still be completed by this station. (HTLTAE, p. 67)

**MUSICAL CHAIRS**, 1. frequent changes of post, using areas of the org as a personnel pool. (HCO PL 28 May 71 II) 2. constant transfer of personnel. (BPL 9 Aug 71R II) 3. hectic transfers from working posts. (HCO PL 19 Mar 71) 4. there is the fact that it takes a while to train someone on a post and get the post in order. So rapid transfers defeat any post training or competence. We call this action musical chairs. That is a game in which people rapidly change positions. (HCO PL 29 Aug 70 I) 5. excessive transfers. (HCO PL 27 Oct 69) 6. **musical chairs** in life is the mechanism below ARC breaks in Grade III! To untabilise gives ARC breaks! Whole staff can be put into a sad effect! This is the mechanism governments use. It's the basic tool of the socialist.

## N

**NAMED VOTE**, see VOTE, NAMED.

**NAME SCREENING**, market research method in which by a process of elimination, the most optimum name for a new product or service is selected, conveying correct image, having uniqueness so that it cannot be confused with other product names on the

If he can just untabilise everyone he can kill them with degrade. It's a basic tool of the insane to maintain their own stability by untabilising everyone else. (OODs 20 Aug 71)

**MUSICAL FUNCTIONS**, now just as there can be musical chairs, so there can be **musical functions**. And you can transfer **functions** from person to person or you can transfer **functions** from department to department until nobody can keep his place in the book. The org can go just as mad changing all of the **functions** amongst the staff members as they can changing staff members. (ESTO 12, 7203CO6 SO II)

**NARCONON**, 1. **Narconon**, meaning **non-narcosis**, is a drug rehabilitation program for the redemption of druggies in or out of prisons. It was organized in Arizona State Prison by an inmate who himself was a hard core addict of thirteen years. He put to use the basic principles of the mind contained in my book *Scientology the Fundamentals of Thought*, and by doing so completely cured himself and helped twenty other inmates do the same. Through **Narconon** no drugs whatever are used for withdrawal and on this program the usual withdrawal effects such as "cold turkey" are most often completely by-passed. (LRH ED 256 INT) 2. **Narconon** (drugs-no!). **Narconon** is the only successful drug rehabilitation program on the planet. (FBDL 220)

(ESTO 10, 7203C05 SO II)

**NAVAL ENGINE ROOM**, 1. one that maintains and repairs itself. A commercial engine room is one repaired by shipyards between trips. (FO 1737) 2. Sea Org engine rooms are to be naval engine rooms. **NAVIGATION**, 1. in actual fact real navigation is the science of recognition of positions and objects and estimation of relative distances and angles between them. (HCO PL 18 Sept 67) 2. man tends to avoid confronting the real and so invents symbols as substitutes. This goes to the extent, in navigation, of making fun of direct observation navigation, preferring calculation by symbols. Real navigation methodology by definition (other planet) is navigate by direct observation of visual contact. In the absence of this seek to predict and establish position

by a minimum of symbols and vias until visual contact can again occur. (FO 40)

Navigation (Def. 1)

Pay becomes "maybe but no bonuses ever." Uniforms become "none." Recruiting posters YES. Fuel becomes "economical amounts carefully used." Training materials becomes YES. So what's a **necessity**? A **necessity** is what it takes to make the valuable final product, not individual survival but group survival. (HCO PL 13 Feb 71) 2. materiel needs directly related and **necessary** to the vital functions, promotion, delivery, stats and acceptable image of a division or org or ship. (HCO PL 4 Nov 70 IV [ The above HCO PL was revised and reissued as BPL 4 Nov 70R but this definition is not on the new issue.]

**NEEDLEBLINDITIS**, (disease) the auditor never sees a floating **needle** and plows right on by it. This is detected by high TA right during or after a declare request. The auditor

plowed on. The floating **needle** did occur, wasn't seen. (HCO PL 5 Aug 65)

**NEEDS**, the basic things a person has to have in order to survive, such as food, clothing, shelter. These are distinguished from wants which are the personal desires of an individual. Thus although a person needs shelter to survive and a house may represent that, he may want particular features in that house that his basic survival does not depend upon.

What matters is that this new person is not CF, has come to the org probably for the first time. It doesn't matter what reg. It is preferably the Public Reg but the stat is still counted if somebody else has to stand in for her. Also, the new person has to have arrived at the reg. Somebody told that the reg is in the first room on the left is not a stat. (HCO PL 28 Nov 71R II)

**NINE DIVISION ORG**, when an org gets over 50 staff members, its divisions become 9. It is then called a Nine Division Org. At that time the org must have three Public Divisions instead of just one division (6) devoted to it. The three new divisions are headed by the Public Executive Secretary. Former Division Six -is simply expanded with each department becoming a division with added functions. The division then becomes: Division 9-Executive Div, Division 1-HCO Div, Division 2-Dissem Div, Division 3-Treasury, Division 4-Tech Div, Division 5-Qualifications, Division 6-Public Planning, Division 7-Public Activities, Division 8-Success. **NO CASE FOLDER**, an illegible case folder is classed as a no case folder. (HCO PL 16 Apr 65 II)

**NO-CASE-GAIN**, 1. the only reason the insane were hard to understand is that they are handling situations which no longer exist. The situation probably existed at one time. They think they have to hold their own, with overts against a non-existent enemy to solve a non-existent problem. Because their overts are continuous they have withholds. Since such a person has withholds, he or she can't communicate freely to as-is the block on the track that keeps them in some yesterday. Hence, a **no-case-gain**. (HCO PL 5 Apr 65) 2. if you skip a person on one level several levels up, he or she will experience only an unreality and will not react. This is expressed as **no-case gain**. (HCO PL 5 May 65) 3. chronic no change of case. (HCO PL 26 Aug 65R) *Abbr. NCG*.

**NO HAVING**, the way not to have is to ignore or combat or withdraw from. These three, ignoring or combatting or withdrawing sum up to no having. (HCO PL 17 Jan 62)

**NO HOLE NUDGE SYSTEM**, the idea of this system is for the ASR Unit to ensure that all people advance scheduled get written to regularly, are kept track of with no chance of falling off the lines and so do arrive at the org on or before their scheduled date. It also enables lack of comm from persons scheduled to be located and rapidly handled. A 3" x 5" card file is compiled of all people already in the ASR master card file (names only are written in on the card). This file is called the nudge file. The ASR, writes to each person using the proper type of nudge letter. (HCO

PL 18 Feb 73 II) [See the above issue for a full explanation of the system.]

He does not become a journeyman when he finishes his studies.

**NON-AUTONOMOUS**, **non-autonomous** does not mean a unit cannot issue orders. It means it is there to forward the long-range policy originated by a senior body. (FBDL 12)

**NON-COMMUNICATION**, a **non-communication** consists of barriers. Barriers consist of space, interpositions (such as walls and screens of fast-moving particles), and time. (HCO PL 4 Apr 72 III)

**NON-COMPLIANCE REPORT**, staff member **report of non-compliance** with legal orders. (HCO PL 1 May 65)

**NON-COMPLIANCES**, a type of dev-t where failure to comply with an order can set an emergency flap going which crowds the lines with dispatches. One consequence of non-compliance when repeated over a long period is to move a large number of targets into present time in a sort of frantic

jam. Catastrophies can occur because of non-compliance. (HCO PL 27 Jan 69)

**NON CO-OP**, we used to have an HCO category known as non co-op, meaning no cooperation from us. People who demanded 90% of our time comprised only a small per cent of our people. Such we put on a private non-cooperate list. We just didn't do anything for them. When they called and demanded action we'd say "uh-huh" and forget it. After a while they'd wander off our lines and we'd be free of them. Dead file is actually only an extension of non co-op. It was we who didn't cooperate. (HCO PL 7 Jun 65, *Entheta Letters and the Dead File, Handling of, —Definitions*)

**NONCUMULATIVE**, a type of preferred stock on which unpaid dividends do not accumulate for eventual payment.

**NON DELIVERY**, the org just didn't deliver the service bought. (HCO PL 26 Oct 75)

**NON DENOMINATIONAL**, Sen is non denominational. By that is meant that Sen is open to people of all religions and beliefs and in no way tries to persuade a person from his religion, but assists him to better understand that he is a spiritual being. (BPL 6 Mar 69)

**NON DISCLOSURE BOND**, all persons off loaded from Flag for any reason (expulsion, Fitness Board or whatever) are required to sign the **non disclosure bond** prior to departure. This **bond** does not require that any actual money be paid over. It does, however, provide that should the person ever reveal the location of Flag, a sum of money will immediately become due and payable. The purpose of this **bond** is to ensure Flag locational security. The **bond** may be used in other circumstances as suggested by the F/MAA and approved by the A/G Flag. (FO 3529)

**NON DIVISIONAL AIDES**, **aides** and assis tant **aides** who do **not** have **divisions**. (CBO 147)

**NON ENTURBULATION ORDER**, ethics is sues a **non enturbulation order**. This states that those named in it (the SPs and PTSES who are students or preclears) are forbidden to **enturbulate** others and if one more report is received of their **enturbulating** anyone, an SP order will be issued forthwith. (HCO PL 1 Jul 65)

**NON-EXISTENCE**, every new appointee to a post begins in **non-existence**. Whether obtained by new appointment, promotion, or demotion. He is normally under the delusion that now he is "The " (new title). He tries to start off in power condition as he is usually very aware of his new status or even a former status. But in actual fact he is the only one aware of it. All others except perhaps the Personnel Officer are utterly unaware of him as having his new status. Therefore he begins in a state of **non-existence**. And if he does not begin with the **non-existence** formula as his guide he will be using the wrong condition and will have all kinds of trouble. (HCO PL 23 Sept 67)

**NON-EXISTENCE FORMULA**, **formula** is (1) find a comm line, (2) make yourself known, (3) discover what is needed and/or wanted, (4) do produce and/or present it. (HCO PL 22 Sept 67) See EXPANDED NON-EXISTENCE FORMULA.

**NON-EXISTENT TARGETTING**, a type of dev-t where **targets** are not set, major **targets** are unknown. Actions are then unproductive. (HCO PL 27 Jan 69)

**NON -OPERATIONAL**, anything that needs constant fiddling or working at to make it run is **non-operational**. It must be repaired fully or replaced. (HCO PL 14 Mar 72 II)

**NON-OPERATING COMPANY**, see COMPANY, NON-OPERATING.

**NON-OPTIMUM**, is defined as dirty, broken, damaged, deteriorated or non-operational. (FO 3279-1R)

**NON-PRODUCTIVE JOBS**, a misnomer for which the preferred term is indirect labor.

**NONPROFESSIONAL ROUTE TO CLEAR**, the PC route. (BPL 6 Aug 72RA)

**NONPROFIT CORPORATION**, see CORPORATION, NONPROFIT.

**NON-REMIMEO**, 1. **non-remimeo** means HCO Bulletins, policy letters, administrative letters and executive letters which are intended for use but only by executives and therefore of limited distribution. It means **not to be mimeoed** again by the receiving org. On **non-remimeo**, a very few copies are sent to main orgs and they in turn distribute to their nearby orgs. (HCO PL 2 Jul 64) 2. **non-remimeo** means bulletins and policy letters which are intended for use but only by executives and therefore are of limited distribution. It means **not to be mimeoed** again by the receiving org. There are two classes of **non-remimeo**: general **non-remimeo** and limited **non-remimeo**. General **non-remimeo** distribution is based on one copy for master files, one copy to LRH Comm, one copy to the Guardian or A/G, one copy each to the FR, ED(CO), HES and OES, one copy to the Qual library reference files and one copy to the reference files of all bulletins and PLs kept in reception for staff, one copy to the division head(s) and the department head(s) concerned and one copy to the post(s) in the department(s) concerned. General **non-remimeo** issues usually deal with broader points of admin or tech of interest to one or two production departments as well as the LRH Comm, FR, the Guardian or A/G, HES, OES and ED(CO). They are never strewn about or broadly republished as they could be misunderstood. Limited **non-remimeo** means that copies only go to master files, LRH Comm,

the Guardian or A/G, HES, OES, ED(CO) and FR. It is usually important that this does not get wide distribution as it has to do with org know-how, planning, etc., and could be misunderstood. So it is not remimeoed or strewn about. It may be taken up in staff meetings but that is about all. One *never* republishes a limited **non-remimeo** in a magazine. (BPL 14 Apr 69R) 3. means that they are cut on a stencil and just run off and a few copies are sent to each org. (SH Spec 57, 6504CO6)

**NONSTOCK CORPORATION**, see CORPORATION, NONSTOCK.

**NON-UTILIZED PERSONNEL**, people who don't know what they are doing and people who don't but think they do are both **non-utilized personnel**. (HCO PL 22 Sept 70)

**NOONDAY REPORT FORM**, this is a daily **report form**, compiled from data assembled during the watch by the OOD. When the watch changes over the off-going OOD shows this **report** to the on-coming OOD, together with any other pertinent data. It is then handrouted to the Captain for his attention. (FSO 9RB)

**NO REALITY**, (form of arbitrary) the receipt of a communication is an extremely important part of the sequence of actions that results in a compliance. Common reasons for the non-receipt of a communication are that arbitraries (or arbitrary factors) exist in the area. **No reality** means an absence of familiarity with the scene effected by the originator's intention which prevents the recipient from connecting the communication with the existing scene, or which precludes in the recipient's mind any possibility of making any change, or the desired change, to the existing scene. It can manifest as an involvement on the part of an individual in a situation in his personal life which occupies all his attention, or as a failure to fully wear

a hat on account of one or more of the organizational psychoses. (BPL 10 Nov 73 II)

**NO-REPORT**, 1. if one fails to make out a **report** it is a **no-report** situation and may be investigated. (HCO PL 14 Apr 65 III) 2. an unreadable **report** is classed as a **no-report**. (HCO PL 14 Apr 65 III) 3. (no-reports) a type of dev-t where the scramble to find out if something has been done increases traffic. This includes lack of data forwarded as it should have been. It causes as well anxiety and uncertainty. The scramble to find out if something has been done increases traffic. (HCO PL 27 Jan 69) 4. **no-report** means non-compliance. (HCO PL 31 May 68) *Abbr.* NR.

**NO-REPORT REPORT**, staff member report of any failure to receive a **report** or an illegible **report** or folder. (HCO PL 1 May 65)

**NO RESPONSIBILITY**, the way not to have is to ignore or combat or withdraw from. These three, ignoring or combatting or withdrawing sum up to no having. They also sum up to **no responsibility** for such things. Thus we can define **responsibility** as the concept of being able to care for, to reach or to be. All real difficulty stems from **no responsibility**. (HCO PL 17 Jan 62)

**NO RIGHTS**, means **no rights**. The normal rights an individual would have, such as eating, sleeping, wearing uniform, having liberty, taking breaks, etc., an individual does not have when he gets himself into a lowered condition. Of course, anyone may have some food and some sleep, this is needed so the body can keep going. But as for dressing nicely, wearing uniforms and doing the same things that you would do in normal operation, the answer is no. You got into a low condition because you goofed. Now you are expected to suffer the penalties for the goof you made, apply the condition and as you start coming up, so you start getting your **rights** back. (FO 1421)

**NORM**, 1. generally, a standard, model or pattern regarded as typical for a specific group. 2. in statistics, a mode or average.

**NORMAL OPERATION**, a routine or gradual increase. (SH Spec 62, 6505C25)

**NORMAL OPERATION FORMULA**, (1) the way you maintain an increase is when you are in a state of **normal operation** you don't change anything. (2) ethics are very mild, the justice factor is quite mild, there are no savage actions taken particularly. (3) a statistic betters then look it over carefully and find out what bettered it and then do that without abandoning what you were doing before. (4) every time a statistic worsens slightly, quickly find out why and remedy it. And you just jockey those two factors, the statistic bettering, the statistic worsening, repair the statistic worsening, and you will find out inevitably some change has been made in that area where a statistic worsens. Some change has been made, you had better get that change off the lines in a hurry. (HCO PL 23 Sept 67)

**NORMAL OPERATOR**, see WORKER, NORMAL.

**NORMAL PRICE**, see PRICE, NORMAL. NORMAL WORKER, see WORKER, NORMAL.

**NO-SITUATION**, a situation is something that applies to survival and if you evaluate the word "situation" against survival, you've got it. A good situation is a high level of survival; a bad situation is a threatened survival and a **no-situation** is something that won't affect survival. (7201C02 SO)

**NOT ACTIVE**, defined as a person who is off org lines and is **not** progressing up the Routing and Gradation Chart. The person did reach but the reach is withdrawn because of some upset with the org. (HCO PL 30 Sept 71) [The above HCO PL was cancelled by BPL 10 Oct 75 IX.]

**NOTE**, 1. a piece of paper currency. 2. a promise in writing to pay a debt. 3. a certificate issued by a government or a bank and sometimes negotiable as money. 4. a formal written diplomatic or official communication.

**NOT HANDLING**, in administration we sometimes find terminals that refer dispatches to others, let them drift, give excuses why not. This adds up to **not handling**. This is the basic reason for dev-t (developed, meaning excessive, traffic). (HCOB 15 Jan 70 II)

**NOT SOLVENT**, that is to say, our outgo was greater than our income. (7208C02 SO)

**NOTICE OF DISHONOR**, a notice, given orally or in writing, to makers, endorsers and drawers that a negotiable instrument has not been paid, or honored, when presented at the designated time.

**NO TONE ARM ACTION**, if you skip a person on one level several levels up, he or she will experience only an unreality and will not react. This is expressed as "no-case-gain." On the E-meter it registers as **no tone arm action** meaning there is no meter registry of change on the meter control lever (tone arm). (HCO PL 5 May 65)

**NUDGE**, 1. Communication Office query as to the progress of a message. (HTLTAE, p. 68) 2. a slip which asks about the progress of a communication. Comcenter sends a **nudge** to the actad when he fails to acknowledge a message or to complete it in the estimated time. (HTLTAE, p. 121)

**NUDGE FILE**, a 3" x 5" card file compiled of all people already in the ASR master card file (names only are written in on the card). This file is called the **nudge file**. When the cards are made out they are separated out

into fourteen sections depending upon when the person was last contacted, i.e., if a person was just recently written to his 3" x 5" card would be filed in the farthest section from PT, section 14. The **nudge** cards are rotated one section daily, i.e., the **nudge** cards in section one are written to and then moved to the back of the file into section fourteen. (HCO PL 18 Feb 73 II)

**NULL POINT**, see CYCLE OF ACTION.

**NUMBER OF FULLY HATTED ORG STAFF MEMBERS**, Division 1-HCO GDS. A hat consists of a checksheet and pack fully word cleared and studied and known to a point of full application of the data therein. Instant hats, mini hats do not count on this stat. The staff member must be in the org and on its staff list. Those on full-time training or in another org for training or processing do not count on this stat. (HCO PL 8 Nov 73RA)

**NUMBER OF RISING GDSes MULTIPLIED BY NUMBER ON STAFF**, GDS for Division 1-HCO. Definition of this stat is as follows: **number of rising GDSes** will be **number** of the other divisions GDSes which are up that week. Number on staff does not include paying public interns or staff students off on full time training in the org or a higher org. It does not include A/G Office, FBO or Flag Rep, nor does it include casual volunteers or FSMs. It does include HCO expeditors. (HCO PL 8 Nov 73) [This GDS was changed to number of fully hatted org staff members by HCO PL 8 Nov 73RA, *The VFPs and GDSs of the Divisions of an Org.*]

**NUREMBERG CODE**, code established effective in all nations after the Nazi war criminal trials and signed by all nations which prohibits all experimental physical treatments. (LRH ED 67 INT)

**O AND P FORMS**, two additions made to HCOB 18 November 1960, *The Preclear Assessment Sheet*. These are Sections O and P. Section O lists all the turning points, or changes, in the PC's life. It forms an additional section to the actual preclear assessment, which is unchanged in every other respect. Section P is the processing section. Using the data obtained from section O, an auditor can run a complete problems intensive, following the procedure outlined in section P. The processing section P consists of finding what problem existed immediately before the change. Run off the unknowns in the problem. Locate the confusions. Find the persons present in the confusion. Assess the persons for most reaction, take the one with most reaction and run a processing check on that person to get the withholds the PC had from that person. (HCOB 17 Oct 61)

English or any other language precise equivalent for it. (HCO PL 26 Jun 72)

**OBSERVATION**, **observation** is not a passive thing. It is an active thing and involves the closest possible study of what one is **observing**. One should train himself or herself to react in the following manner: if one is in mystery about something one does not puzzle over it, he or she knows at once that if he is puzzled or in mystery or can't work it out, he or she does not have enough data and the thing to do is get more data. The full thought is, puzzle or mystery or can't figure it out-get more data. (CBO 190)

(HCO PL 7 Mar 72)

**OPERATION SHEET**, a list of all the operations that must be performed on raw materials or component parts to result in a specific finished product.

**OPERATIONS OFFICER**, 1. you as an **Ops Officer** have the duty of keeping a missionnaire on his orders and when a mission goes off its orders you get them back on their orders. If you can't get them back on their orders you pull them out. That's very unreasonable, but that's the best definition of an Ops Officer. He's unreasonable. If a mission goes off its orders you have lost control of it. If you have lost control of it, it will diddle fiddle around in that area for a long time. If you ran a rigid form on it you will run it faster. (FO 3508) 2. the head of Bureau IV Flag is entitled Operations Aide. To avoid confusion with the title Ops Officer, the Aide's title is always written in full, not abbreviated, "Operations Aide." "Ops Aide" is incorrect. To further differentiate, "Ops Officer" now becomes "Mission Ops Officer." (CBO 81) 3. CS-4. (FO 2399R) 4. is responsible for successful mission progress and its evidence. (FO 2358) 5. operates the mission and only ceases to do so when the mission gets sent to debrief. (FO 1243R) 6. the primary function of **Operations** is to keep the mission on target. To see what they require suddenly on their missions and get it to them. To see that the mission comes off with successful completion. Mission members are going to disperse. The **Ops Officer** is there to steady the mission member. (FO 890) 7. the function of the **Operations Officer** is to see that a mission stays on target and completes successfully. (FO 769) 8. First Mate. He conducts the mission. (6802C28 SO) 9. (Gung-Ho Group) the **Operations Officer** actually handles and directs all **operations** programs and projects in progress. (HCO PL 2 Dec 68)

**OPERATION - TRANSPORT LIAISON UNIT**, the branch office of a CLO managing the area or orgs assigned to it. (HCO PL 9 Mar 72 I) See OTL.

**OPERATOR HANDLED**, type of telephone call meaning when you dial "0" and get an **operator** to put you through. Her time is

charged for on the phone bill. (HCO PL 15 Nov 74)

**OPINION**, thoughts are infinitely divisible into classes of thought. In other words, in thought there are certain wide differences which are very different inDecd. A fact is something that can be proven to exist by visible evidence. An **opinion** is something which may or may not be based on any facts. (HCO PL 26 Apr 70R)

**OPINION**, an attitude, concept or belief one has towards or about something based upon current knowledge or experience and potentially subject to change with increasing knowledge or experience in that area.

**OPINION LEADER**, 1. that being to whom others look for interpretation of publicity or events. Through wisdom, proximity to data sources, personality or other factors including popularity itself, certain members of the group, company, community or nation are looked to by others for evaluation. (HCO PL 11 May 71 II) 2. "To whom do they listen?" "Whose **opinion** do they accept?" "Whom do they trust?" "On whom do they depend?" are the questions which, answered, identify the **opinion leader** of the group, large or small. (HCO PL 11 May 71 II)

**OPINION SURVEY**, a set of questions, the responses to which will show a general or select. public's current opinions of a particular product, service, institution, symbol, etc.

**OPPORTUNITY COSTS**, see COSTS, OPPORTUNITY.

**OPPOSITION GROUPS**, **opposition group** relations are in the sphere of Guardian's Office. These **opposition groups** are those which are acting against Scn or against the goals of Sen. (BPL 20 May 70 I)

**OPTIMUM SOLUTION**, the greatest good for the greatest number of dynamics. (HCOMO)

**OPTION**, 1. the right to choose between more than one course of action in a business deal such as a right to buy or sell something within an agreed time period for a specified price. 2. a right to buy or sell a set amount of a specific stock at a specified price within a limited time period. 3. an insurance policy clause giving the policy holder the right to choose the way that payments will be made to him.

**ORAL REPORT**, any report given by word of mouth. It could be a verbal report to a group of concerned individuals but based on or read from a written report or notes one has made or received.

**ORDER(S)**, 1. the verbal or written direction from a lower or designated authority to carry out a program step or apply the general policy. (HCO PL 29 Feb 72 II) 2. some program steps are so simple that they are themselves an **order** or an **order** can simply be a roughly written project. (HCO PL 29 Feb 72 II) 3. the program step itself or the verbal or written project to get the program step fully done. (HCO PL 29 Feb 72 II) 4. the direction or command issued by an authorized person to a person or group within the sphere of the authorized person's authority. By implication an **order** goes from a senior to juniors. (HCO PL 25 Nov 70) 5. policy is the broad general outline originated by top management. Orders are the instructions issued by the next lower level of management to get things done that result in products. (FBDL 12) 6. orders are what are issued to get the actions called for in policy done so that a product results. (FBDL 12) 7. the program is the big solution to a problem. The little problems inside that big solution are solved by projects and inside the projects the littler-littler problems are solved by orders. (FO 2192) 8. chaos is the basic situation in this universe. To handle it you put in **order**. **Order** goes in by being and making stable terminals arranged to handle types of action and confusion. In organizing units, sections,

divisions, departments, orgs or areas of orgs you build by stable terminals. You solve areas by reinforcing stable terminals. Executives who do not grasp this live lives of total harassment and confusion. (HCO PL 27 Oct 69) 9. good line and particle control. The difference between **order** and chaos is simply straightforward planned flows and correct particles. (HCO PL 27 Feb 72)

**ORDER BOARD**, every **order** an executive issues must be in writing. He does this on a clip **board**. There is a sheaf of paper on it of his division's color. It has a sheet of pencil carbon and a ball point slipped through the top of the clip. It can have a hook on the back to slip on a belt for persons walking about. This is the **order board**. (HCO PL 1 May 65 II)

**ORDER, DAY**, an investor's order to buy or sell a security which if not accomplished by the end of the trading day is automatically cancelled.

**ORDER, LIMITED**, an order to buy or sell a specified amount of a stock at a fixed price or at a better price, as available after the order is instituted.

**ORDERLINESS**, 1. the tendency to contain environmental confusion and replace it with predictable actions. 2. the ability to ensure that correct sequences of action take place and that those cycles started get completed. 3. the tendency to designate generally acceptable places for things to be put at certain times and to ensure that they are put there at those times; neatness.

**ORDER, MARKET**, an order to buy or sell a specified amount of a security at the most beneficial price available after the order is instituted.

**ORDER NOT REQUIRING FURTHER EVALUATION**, one covered by a verified and approved **evaluation** and contained in the **evaluation** handling and which can be acted on as soon as the **evaluation** is veri-

**ORDERS OF THE DAY**, 1. a type of ship's "newspaper" containing an item from the Commodore, the daily schedule for that day, news and notices, as well as orders necessary to administration of the ship's business. A copy of the OODs is delivered every morning to each in -basket on the ship. It should be read each day carefully so that you keep informed of what is going on around the ship and in the various divisions. (FO 2674) 2. **orders of the day**, issued by any Commanding Officer to his own unit **daily** and may contain current activities, ethics **orders**, etc., by others, contains the schedule of the day, serves as a crew briefing. OODs are also put out to their own orgs by Executive Directors or Executive Councils in Scientology orgs. (HCO PL 24 Sept 70R) 3. the purpose of the OODs is to keep staff informed of executive intention; org expansion and progress, org condition and ethics. The form of the OODs is black on white mimeo (or type written and displayed on staff notice board in small orgs). (BPL 30 Sept 69) 4. it is dated for the day for which the schedule applies. It is numbered and given the ship's name. Into it are placed all assignments of conditions, schedules, copies of plans, uniforms, etc. It is posted as soon as it is completed. It is on legal length paper, white. It is on one side of the paper only. Every item is followed by

the date such as 14/2/68. (FO 441) Abbr. OODs.

**ORDERS, QUERY OF**, it occasionally happens that an **order** is issued or a policy is enforced or is found to exist which if put into full effect in a certain area would result in loss or destruction. Someone told to man up, for instance, all admin departments, sees that this would upset the tech-admin ratio. Instead of putting the **order** into effect he should query the order with (a) the name of the issuer and the exact **order**, (b) the reason it would result in loss or destruction if put into effect, (c) a recommendation resolving the problem the **order** sought to solve. (HCO PL 15 Dec 69 II)

**ORDER, STOP**, an order to buy a security at a price over or sell at a price under the current market.

**ORDER, STOP LIMIT**, a stop order which when the specified stop price is met becomes a limited order.

**ORDER, TIME**, an order that is specified to become effective as a market order on a certain date.

**ORDINARY SHARES**, (British) common stock.

**ORG**, 1. short for **organization**. (HCO PL 8 Sept 69) 2. **organizing**. (HCO PL 28 Oct 70)

**ORG ADMIN CHECKLIST**, the LRH Comm Weekly Report revised to become a monthly **admin checklist** for the **org** to be inspected and reported on by the LRH Comm, on the first day of each month. It is a **checklist** that can and should be done quickly; it requires little investigation as most points can be answered by a glance in the area concerned, or by asking one staff

member and verifying the answer by checking a few folders, etc., or by cross-checking with another staff member. (HCO PL 23 Feb 70RB) [The checklist contains questions for each division that verify if that division is handling its particles and getting its products standardly.]

**ORGANIZATION**, 1. an **organization** means the act of **organizing** or the process of being **organized**. The state or manner of being **organized**: "A high degree of **organization**." Something that has been **organized** or made into an ordered whole. A number of persons or groups having specific responsibilities and united for some purpose or work. Thus an **organization** is an activity or area that is being **organized** or has been **organized** or made into an "ordered whole." (HCO PL 29 Oct 71 II) 2. **organization** is composed of terminals and lines and the terminals are there with a common purpose but they are united by lines. (5812C16) 3. an **organization** is essentially a service delivery unit. The continued expansion of an **organization** depends upon high volume flubless delivery. (HCO PL 29 Aug 71) 4. an or on is composed of trained people, it isn't composed of dead bodies. (FEBC 6, 7101C23 SO II) 5. a group of people that has more or less constant membership, a body of officers, a purpose and usually a set of regulations. (HCO PL 9 Nov 68) 6. an interdependent activity coordinated by its leaders. (HCO PL 19 Oct 67 I) 7. an **organization** is a complex mechanism. It is made up of associated individuals who have an agreed upon goal or intention. They are going along in some direction which they do not too violently disagree with, and it will make progress to the degree that it stays in agreement and holds its form and to the degree that it refines its form to meet new threats to its existence and so it will survive. (SH Spec 77, 6608C23) 8. evidently an **organization** is a number of terminals and communication lines with a common purpose. The purpose associates

and keeps in contact with one another the terminals and the lines. That's all an **organization** is. It isn't a factory, it isn't a house. It isn't a machine, it isn't a product. It's not a command chart. If you look it over in the light of that simplicity you can actually form one and get one to function. (0 S-9, 5611C08) 9. an **organization** optimally would be composed of communication terminals. If we look it over and find an **organization** is composed of communication terminals then we decide that a communication terminal had better have a communication line. So we find an **organization** consists of communication terminals and communication lines associated with a common purpose or goal. (OS-9, 5611C08) 10. it's a group of associated comm lines and terminals which is itself a single terminal and it has ingo and outcome lines. (OS-9, 5611C08) 11. a servo-mechanism to the doingness of people. (OS-10, 5611C15) 12. an **organization** is something which has its own spirit. It is composed of people or living beings who are governed by certain rules and purposes and who know how to do their jobs. That is an **organization** and when any of those factors are neglected it becomes a "thing" even though it still has a name and legal standing. (PAB 90) 13. an **organization** is composed of terminals and communication lines related by a common purpose. That's an **organization**. And all the **organizational** pattern does is help separate the types of particles being handled. That, in a nutshell, is an **organization** and what it does. (5812C29) 14. the word **organization** in Scn policy means an activity **organized** on the seven division system authorized by myself and regular official Scn **organizations** and under Worldwide. (HCO PL 11 Aug 67 II) 15. the essence of **organization** is **org** boarding, posting with reality and, in keeping with the duties being performed, training and hatting. To this has to be added the actual performance of the duties so that the activity is productive. Another ingredient that goes

hand in hand with **organization** and survival is toughness. The ability to stand up to and confront and handle whatever comes the way of the **organization** depends utterly on the ability of the individuals of the **organization** to stand up to, confront and handle what comes the individual's way. The composite whole of this ability makes a tough **organization**. Confidence in one's teammates is another factor in **organization** survival. Confidence in one's self is something that has to be earned. It is respect. This is a compound of demonstrated competence, being on post and being dependable. (OODs 10 Nov 71) 16. **organization** is basically foresight and prediction and putting in stable terminals that will handle the flows. What belongs where? (FEBC 1, 7011C17 SO) 17. consists of a real and functional org board, hats consisting of checksheets, packs and manuals and training of this material. (HCO PL 8 Oct 70) 18. the purpose of **organisation** is to make planning become actuality. **Organization** is not just a fancy complex system, done for its own sake. That is bureaucracy at its worst. Org boards for the sake of org boards, graphs for the sake of graphs, rules for the sake of rules only add up to failures. There is a lot to **organization**. It requires trained administrators who can forward the programs. (HCO PL 14 Sept 69) 19. the subdivision of actions and duties into specialized functions. (HCO PL 7 Mar 69) 20. **organization** consists of certain people doing certain jobs. (HCO PL 1 Jul 65 III) 21. smooth organization consists of having a terminal for each type of activity in which the organization is engaged. There can be four or five activities to one terminal so long as three things are obeyed: (1) the terminal itself has to know it; (2) nearby terminals have to know it; (3) distant terminals have to know it. (PAB 78) 22. the attempt to establish terminals and flows so as to bring about an orderly flow of energy or matter. (5303C25) *Abbr.* Org.

**ORGANIZATIONAL CHART**, (org board) this board has the force of assignment and is the primary means of assigning personnel in the organization. This board is the publication authority for assignment to post. This is not a communication chart. The org board shows name of post, followed underneath by purpose, followed underneath by person's name. (HCO PL 27 Nov 59)

**ORGANIZATIONAL FOLDER**, see HAT FOLDER.

**ORGANIZATIONAL GENIUS**, composed only of arranging sequences of action and designating channels for types of particles. That's all it is. (HCO PL 14 Sept 70)

**ORGANIZATIONAL HEALTH CHART**, this is an anatomical chart of a live organism, the HASI, London. This list of importances tells us what the heart is, the breath and all the rest in order. If anything on this list goes wrong, it and the items above it must be examined in turn. This is diagnosis. Repair consists of setting the function back to order and each in turn after it, since when an organism's highest functions fail, the remainder begin to enter difficulties. This then is a diagnostic chart and a chart to effect the cure. This list gives each function its proper importance to the rest, not perhaps in social caste, but certainly in health. (HCO PL 2 Nov 70) [See the above Policy Letter for the list of nineteen functions making up the organizational health chart.]

**ORGANIZATIONAL POLICY**, that policy which makes the organization into an organization and keeps its flows fast and its design uncomplicated. In absence of these policies the design becomes altered and flows cease and the org dies. (HCO PL 23 Apr 65)

**ORGANIZATIONAL PSYCHOSES**, see SANITY SCALE.

**ORGANIZATION CASH**

**DIFFERENTIAL**, same as the departmental cash differential but for the whole organization. Departmental cash differential is the exact difference between the cash received by or for a production department and the cash spent by or on behalf of that department plus its share of the general cost, so long as the result shows receipt greater than expenses. (HCO PL 26 Jun 64)

**ORGANIZATION, CELLULAR**, an organizational format of a production plant and machinery in which all the parts and workers needed to produce a completed product are located in one production cell or section of the factory. Cellular organization is in contrast to flow line production wherein parts and workers form a single manufacturing line with work flowing in a single direction through the entire factory as in an assembly line.

**ORGANIZATION CHART**, see CHART, ORGANIZATION.

**ORGANIZATION, COMMITTEE**, an organization wherein a joint body of executives is responsible for its management.

**ORGANIZATION CONTINENTAL LIAISON OFFICER**, the Office of the Org Exec Sec WW contains one Divisional Organizer for Divisions 3, 4, 5, 6 for every Continental Office in the world. This person is called the Organization Continental Liaison Officer for (name of Continental Office) at WW. (HCO PL 6 Sept 67)

**ORGANIZATION DEPARTMENT**, the **Organization Department** is responsible for handling international organizations around the world, not Saint Hill, and obtains another near third of the income of Saint Hill by way of organization ten per cents, etc. (HCO PL 28 May 64)

**ORGANIZATION DIVISION**, we call it Treasury but it's actually the division which organizes the actual MEST of the production

activities. It gets together the sand to make the glass for the bottles, the sugar and saccharine for the candy and so forth. It does the assembly of this type of action and it also has the idea of money, assets, what it makes and so forth. You must have your money before you can buy the sand for the glass and so on. (SH Spec 77, 6608C23)

**ORGANIZATION EXECUTIVE**, in the Dianetic Counseling Group the Organization Executive has two divisions under him: Division 3 Treasury Division headed by the Treasurer and Division 4 Technical Division headed by the Technical Secretary. (BPL 4 Jul 69R VI)

**ORGANIZATION EXECUTIVE**

**COURSE**, 1. the Organization Executive Course is the equivalent in admin of the Saint Hill Special Briefing Course. The course packs for the new modern **Organization Executive Course** are the OEC Volumes 0 through to 7 in their entirety. (HCO PL 17 May 74R) 2. this course contains the basic laws of **organization**. Primarily intended for Scn **organization executives**, its policy letters are slanted toward a Scn org (short for organization) -However, it covers any **organization** and contains fundamentals vital to any successful or profitable activity. This course also applies to the individual. Any individual has his seven (or nine) divisions and his 21 (or 27) departments. Where one or more of these is missing in his conduct of life he will be to that degree an unsuccessful individual. (HCO PL 8 Sept 69) *Abbr.* OEC.

**ORGANIZATION EXECUTIVE**

**SECRETARY**, 1. in early days there was an HCO See in charge of the functions of the first three divisions (Exec, HCO, Dissem) and an Assoc See in charge of the functions of the last four divisions. The Org Board evolved further and the HCO Exec See became the person in charge of the functions of the first three divisions and the Org

Exec Sec, the last four. In the Sea Org these titles became Supercargo and Chief Officer but the functions were similar. (HCO PL 9 May 74) 2. a product officer of Divisions 3, 4, 5 and 6. (HCO PL 7 Dec 74) 3. (Sea Org) Chief Officer. (HCO PL 9 May 74) 4. the HES was an org officer and the OES was a product officer. If you look under the OES you will find money in Division 3, you will find auditors, and student auditors and the Directors of Training and you will find PCs in the Department of Processing, and then you will find, also, Distribution, you will find the field, and the products which are going out into the field. (FEBC 7, 7101C23 SO III) 5. where an org has less than five staff the Org Executive Secretary (OES) combines Accounts, Tech and Qual functions. Elementary banking and bill paying (with the registrar and PE S both able to invoice in, giving the money over to the OES with an invoice copy) is done by the OES. All auditing and major course supervision is done by the OES. The major functions that must be done for the org to be successful are safeguarding funds by recording and banking and paying bills, auditing PCs, teaching students and correcting those cases that fail or students that are slow. (LRH ED 49 INT) *Abbr.* OES, Org Exec Sec.

**ORGANIZATION FORM**, 1. each org staff member is a specialist in one or more similar functions. These are his specialties. If he is fully trained to do these he is said to be hatted. The combined specialties properly placed and being done add up to the full production of an org. The **org form** is then the lines and actions and spaces and flows worked out and controlled by specialists in each individual function. These specialists are grouped in departments which have certain actions in common. The departments having similar functions are grouped into divisions. The divisions combine into the whole org form. (HCO PL 28 Jul 72) 2. an **org form** is that arrangement of specialized

terminals which control and change the production and organization particles and flow lines of an activity. (HCO PL 25 Jul 72)

**ORGANIZATION, FORMAL**, an organization with an inflexible organizational structure where employment positions and departments, branches, etc., are clearly delineated as to duties, responsibilities and authorities. In a formal organization there is a great emphasis on maintaining the structure or form of the organization as that is how it is designed to run. A formal organization structure is essential for any organization to operate and expand beyond only a handful of employees.

**ORGANIZATION, FORMATION AND REPAIR OFFICER**, the full title of the Org Officer is **Organization, Formation and Repair Officer**. He has a hat similar to that of an old-time HCO Area Secretary. He puts an org there. (CBO 64)

**ORGANIZATION HCO AREA SECRETARIES**, handle the communications, technology and awards of single **organizations** around the world. (HCO PL 18 Dec 64, Saint Hill Org Board)

**ORGANIZATION, INFORMAL**, an organization with little or no organizational structure or at best one that is flexible under operating conditions. The distinction between duties, responsibilities and authorities is not clear-cut as there are often no specific employment titles or arrangement into departments. An informal organization usually exists where a few persons are closely associated and each knows every or many aspects of the business which they handle according to who is available or most familiar or as needed, etc. One cannot build a large organization in this manner.

**ORGANIZATION INFORMATION CENTER**, 1. this is not a clumsy graph system but a species of mechanical brain that keeps continuous check upon and corrects small bogs of its own accord. It forecasts

emergencies. This must have come from the **Combat Information Center** of World War II, by which swarms of fighter planes, bombers or landing craft could be individually directed with great ease. The board is a smooth finished surface with a number of holders of 8" by 10" (approximate size) graph paper. These papers are not stapled on but drop into a three-sided border, open at the top. New papers every quarter or so are put into the holder in front of the last quarter's sheet so that one can refer back. The board has various signs on it, one for each department. The graphs are in three horizontal lines for one **organization**, with space for two to three charts (in a single line) for each department. It is necessary for quick reading to have the graph sheets in long lines rather than in blocks-hence the board appears to be three long lines of graph, no matter how many graphs there are in how many departments. (HCO PL 11 Aug 60) 2. in Department 3, Department of Inspection and Reports. OIC (Section) designates statistics for Ad Council approval, collects statistics, graphs statistics weekly, posts the OIC Board for the org, handles weekly report to OIC WW, writes weekly SEC ED of conditions for Ad Council approval and issue by SEC ED. (HCO PL 17 Jan 66 II) *Abbr.* OIC.

**ORGANIZATION, LABOR**, a group of workers such as a labor union who have the legal power to deal with employers on such issues as wage disputes, better working conditions, grievances, etc., through the process of collective bargaining.

**ORGANIZATION, LEAN**, an organization which is not overstaffed. It has just enough staff to keep people busy enough to get the job done without staff colliding with each other physically and emotionally. The level of interaction between staff is not high enough to interfere with production and the interaction going on is primarily between a person and his job. "Labor problems" would

be less as staff and executives would be too busy to cause them.

**ORGANIZATION LIBRARY**, a library belonging to a business, accessible to company executives and other employees and ideally containing such books as would be needful to a person handling any aspect of the company's business.

**ORGANIZATION, LINE** . the military type of organization form whereby there is a definite ascending and descending chain of command. Each executive from the bottom up is responsible to the person directly above him. Thus all persons in a department may be directly responsible to the head of a department who in turn is responsible to an executive who is in charge of, say, six department heads and so on up the line. Orders pass from top management down the line of command and compliances and data pass on up without by-passing the chain of command. Thus responsibility or irresponsibility is easy to pinpoint and functions are clearly defined.

**ORGANIZATION, LINE AND STAFF**, a combination of line and staff types of organization. Line executives and personnel handle the production factors of the organization utilizing a distinct chain of command and staff executives and personnel handle the organizing and supportive activities such as accounting, training, etc.

**ORGANIZATION MANUAL**, see MANUAL, ORGANIZATION.

**ORGANIZATION, MILITARY**, see ORGANIZATION, LINE.

**ORGANIZATION PROGRAM NO. 1**, 1. this is an effort to make it easy to reform an org whether the org is large or small. This gives how to attain your two admin to one tech ratio-which must not be exceeded. If an **org's** tech-admin ratio is greater than two admin to one tech it will only be able to pay poorly and function badly. This ED is to be

used to stabilize and establish a workable org form which will produce with good GIs and pay. Orgs which have more than two admin to one tech should take from their excess admin their best potential students and full time train them to swell tech ranks and increase student and PC production. Org duties and actions are clearly outlined in this program. (LRH ED 78 INT) 2. an ED International called **Org Program No. 1** which simply describes in very very simple terms the functions of an organization derived from the HCO ES, OES and PES, and just giving a summary of the duties for which they are responsible. (6912C10 SO) 3. **program** for well **organised** orgs. (LRH ED 56 INT)

**ORGANIZATION, PROJECTIZED**, an organization composed of a series of project teams in liaison with staff management, or a group of specialists, who advise and work with managers of the project teams.

**ORGANIZATION RUDIMENTS**, **rudiments of an org.** (HCO PL 11 Dec 61RA)

**ORGANIZATION SECRETARY**, 1. on the Six Department Board the **Organization Secretary** takes the place of the Org Exec Sec. (HCO PL 21 Oct 66) 2. (Seven Division Org) coordinates and gets done the promotional functions of Division 3. (HCO PL 20 Nov 65) 3. **Organization Secretaries** (U.S. and Saint Hill) or Association Secretaries (Commonwealth and South Africa). (HCO PL 5 Mar 65 II) 4. in full charge of all units departments and personnel and is fully responsible for carrying out the organization's programs and promotion and its solvency. (HCO PL 30 Dec 64) 5. manages Saint Hill in all its activities. Handles financial management for all accounts of Saint Hill. Hires and dismisses all Saint Hill personnel. Regulates all technology and awards for Saint Hill. Originates or passes upon all promotion for Saint Hill activities. Sees that income is greater than outgo at Saint Hill

and in all its departments. (HCO PL 18 Dec 64, *Saint Hill Org Board*) 6. in general charge of everything that goes on at Saint Hill and all departments, including Department One. This is the equivalent post to a Central Organization's Association or Organization Secretary. All departments and personnel are answerable to her for their conduct of duties and the general solvency of their departments. She may hire or dismiss personnel, increase or decrease wages, sign on all accounts and act to improve conditions without further consultation with the board or the Executive Director. (HCO PL 28 May 64) 7. purpose: to get people to get the work done. To enforce the policies and advise the board. (HCO PL 12 Oct 62) 8. the Association Secretary or Organisation Secretary has full authority over his or her organization and personnel. It is his or her task to cope when policy does not exist, to hold the form of the organization, to keep it busy and prosperous and its morale high. (HCO PL 31 Jan 61, *Spheres of Influence*) 9. the **Organization Secretary** is the person who sees to it that the work gets done. He is Personnel Director for the **organization** but in actuality can only remove department heads and can do this only after receiving permission from the Executive Director. The fundamental job of the Organization Secretary is to enforce policy and see that it is carried out. (HCO PL 29 Feb 60) 10. the Organization Secretary's fundamental job is to enforce policy. This is in actuality the full extent of his hat. It is also understood that the Organization Secretary will be the foremost promoter of the organization and that he will do much reaching the public. The Organization Secretary also has the hat of financial management when it has been specifically granted to him. (HCO PL 29 Feb 60) *Abbr.* Org Sec.

**ORGANIZATION SECRETARY'S SECRETARY**, looks after the dispatches and communication equipment of the Org

See. Transcribes needed transcription. (HCO PL 18 Dec 64, Saint Hill Org Board)

**ORGANIZATIONS OF AMERICA**, a coordinating **organization** in Washington, D.C. (1956) which handled the social reform activities of the member **organizations** which consisted of various Washington D.C. local social groups. Its programs were concluded successfully (including the enfranchisement of the formerly non-voting population of Washington, D.C.) and it was disbanded. (LRH Def. Notes)

**ORGANIZATION STRUCTURE**, the operating framework of a business or organization. It is established by designating and naming organizational units such as divisions, departments, branches, etc., defining how they interrelate, (relative authority, communication lines, etc.) and establishing the job titles, functions, hierarchy and products of the personnel who will work there.

**ORGANIZATION SUPERVISOR**, organization supervisor for all Scn organizations around the world and locally will include reception, mimeo, communications, telex, accounts, addresses, central files and franchise. (HCO PL 31 Dec 63)

**ORGANIZATION, THE**, few people realize that HCO is actually a separate company. It is the worldwide comm network of Dn and Scn. As its finances and personnel are meshed in with the rest of the org, its identity does not stay visible. But note it is still called HCO and the rest of the divisions are called the organization. (HCO PL 7 Feb 70 II)

**ORGANIZING**, 1. in order to organize something one has to (1) establish what is the final product, (2) work backwards in sequence to establish the earlier products necessary to make each next product and which all in a row add up to the final product, (3) post it in terms of vertical greater and greater completeness of product to get command channels, (4) adjust it for flows,

(5) assign its comm sequence, (6) work out the doing resulting in each product. Write these as functions and actions with all skills included. (7) name these as posts, (8) post it, (9) drill it to get it known, (10) assemble and issue the hats, (11) get these known, (12) get the functions done so that the products occur. This is what is called organizing. (HCO PL 28 Oct 70) 2. the know-how of changing things. (HCO PL 1 Nov 70) 3. when routing arrangements are made inside the org-from staff member to staff member-we call it organizing. (HCO PL 17 Nov 64) 4. to put order into something. Not **organizing** leads to confusion. This is true of groups and individuals. (BPL 21 Oct 71 III) 5. the right way to go about it is to have the tech of a job, plan it, get the materials, and then do it. This we call **organizing**. When this sequence is not followed, we have what we call cope. Too much cope will eventually break morale. One copes while he **organizes**. If he copes too long without **organizing** he will get a dwindling or no product. If he **organizes** only he will get no product. Coping while **organizing** will bit by bit get the line and action straighter and straighter and with less work you get more product. (OODs 15 May 71) *Abbr. Org.*

**ORGANIZING BOARD, (org board)** a **board** that shows what functions are done in the org, the order they are done in, and who is responsible for getting them done. (HCO Admin Ltr 30 Jul 75) 2. the pattern of the terminals and their flows. You have to have an **org board** and the **org board** must in truth be a representation of what is in the org. The **org board** shows where what terminals are located in the org so flows can occur. (HCO PL 7 Jul 71) 3. **org board** is actually an abbreviation not for an organization (noun) board but an **organizing (verb) board**. The **org board** shows the pattern of **organizing** to obtain a product. A **board** then is a flow chart of consecutive products brought about by terminals in series. We see

these terminals as "posts" or positions. Each one of these is a hat. There is a flow along these hats. The result of the whole **board** is a product. The product of each hat on the **board** adds up to the total product. (HCO PL 28 Oct 70) 4. a proper **org board** is a perpetual combination of flows which do not collide with one another and which do enter and do experience the desired change and which do leave as a product. (HCO PL 13 Sept 70 II) 5. the **org board** is the general plan, the function indicator, the routing and the personnel situation for the org. (HCO PL 17 Apr 70) 6. consists of the terminals, actions and flows necessary to achieve an overall purpose and to prevent distractions and stops from the purpose. (691OC20 SO) 7. that arrangement of persons, lines and actions which classifies types of confusions and gives a stable terminal to each type. It is as effective as its people can conceive of terminals and understand the basic principle of confusions and stable data. (HCO PL 27 Oct 69) 8. the **org board** consists of a couple sheets of clear blue Formica, 4 feet high by more than 8'9" long. It can be longer than 8'9". That is the minimum. That gives one department only five inches of width. A yellow vertical stripe of cello tape split in half separates departments in a division and divisions are separated by a full width of it. A thin strip of green goes all along the top of the departments. The level word goes above each department and the yellow tape. The command lines are in red cello tape. The names of departments are cut on a Dymo using tape approximating the color flash of the department as feasible. Executive Secretaries and secretary titles and names are in gold Dymo tape. Directors' titles and names are in gold banded brown tape. Other executives' titles and names are in gold banded black tape. Communicators are in this tape. Section names are in the same tape color as the department name. All subsections or units are the same tape color as the department name. All general staff members are in

plain green tape. All provisional or temporary staff members are in black tape. The name of a deputy is in green tape but the title, even when preceded by "deputy" is the color code as above. (HCO PL 7 Jun 65, *New Org Board Design*) 9. the actual diagrammatic pattern of the organization showing the divisions, departments, their personnel, functions and lines of communication. This pattern fully drawn out is known as the **org (organizing) board**. (BPL 4 Jul 69R VI) 10. a list of hats with seniorities. The hats are in flow sequence. (OODs 29 Oct 70) 11. a refined **board** of an old galactic civilization. We applied Scn to it and found why it eventually failed. It lacked a couple of departments and that was enough to mess it all up. They lasted 80 trillion. (SH Spec 57, 6504CO6) *Abbr.* Org Bd, Org Board.

**ORGANIZING BUREAU**, 1. recruits and assigns to a training function or on a low post and training pending programming. It provides the master library of HCO PLs, HCOBs, FOs, Bureau Orders and other data such as books and manuals. It provides the mimeo files of all issues for any and all packs and makes up packs. It also runs off current mimeo and distributes via Comm Bureau. It also handles and runs off the actual printing of promotion as in photo offset work. It also handles publishing actions. Thus its cycle is to provide people and provide the data to make trained people. It also by current mimeo keeps existing people informed by mimeo issue lines and doing the promotion materials. Its keynotes are getting people and data to train people (CBO 7) 2. the Sea Org **Organizing Bureau** is established in Div 7, Flag. It consists of the SO Personnel Branch, SO Compilations Branch, SO Preparations Branch, and SO Publishing Branch. The general purpose of this bureau is to organize Flag, ships and orgs by procuring, transferring and programming personnel, compiling checksheets and courses, preparing materials and publishing needful

orders, instructions and materials needful in establishing or stabilizing ships or orgs throughout the Sea Org. (FO 2473) 3. the ideal scene toward which the **Org Bureau** is working is fully manned orgs and the check-sheets and materials necessary to train them for full effectiveness on individual posts and the checksheets and packs needful to service and train the public. The products therefore of the **Org Bureau** are (1) recruited staff members, (2) the materials with which to fully train the staff member on his post, (3) the materials needed to service and train the public. (CBO 4) 4. the **Org Bureau** is primarily concerned with procuring personnel and setting up hats (checksheets and packs) for that personnel to be trained on. And then the Org Bureau is concerned with the check-sheets and packs for public courses or services. (CBO 4)

**ORGANIZING OFFICER**, see ORG OFFICER.

**ORG AUDITING**, the purpose of the Ethics Officer is to help Ron clear orgs and the public if need be of enthera and enturbation so that Sen can be done. The activities of the Ethics Officer consist of isolating individuals who are stopping proper flows by pulling withholds with ethics technology and by removing as necessary potential trouble sources and suppressive individuals off org comm lines and by generally enforcing ethics codes. The trick of this **org auditing** is to find a piece of string sticking out-something one can't understand, and, by interrogatives, pull on it. A small cat shows up. Pull with some more interrogatives. A baby gorilla shows up. Pull some more. A tiger appears. Pull again and wow! You've got a General Sherman tank! (HCO PL 11 May 65, *Ethics Officer Hat*)

**ORG BASIC DATA**, in light of Flag's extensive attention on all **organizations**, and the need to have a *complete viewpoint* of each org, there is additional **data** required

from **orgs**. This is the **org's basic data**. The following **data** is therefore required from each **organization**. The Director of Inspections and Reports is to ensure that the following data is sent to the Flag Data Bureau, via the local FOLO, and is kept up to date. (a) the location of the org on a local map, (b) a population density map of the city where the org is located, (c) a full, complete floor plan of the **organization**. Floor plan must have every space numbered, and each floor has a letter (a copy of the floor plan with these numbers and letters is kept by the org). (d) photographs of the org that show the MEST of the org, front entrance of the org, and overall appearance of the org, (e) copy of the org board that the org is currently operating on. Any time changes are made in the above, the Director of Inspections and Reports must ensure full **data** on the change must be sent to the Flag Data Bureau. On Flag, the Data Files I/C must ensure that each org has a gold Me folder with a blue tab labeled **org basic data**. In this folder must go the **org basic data** and a copy of the org's current program. This folder is located in the front of the org's current **data** file folder. (BPL 4 Jun 73) *Abbr.* OBD.

**ORG BOARD BOOK**, a ring binder with the **org boards** of political, economical, cultural, financial or religious groups that PRAC deals with. (FO 3279-3)

**ORG BOARD DEV-T**, 1. a type of dev-t. An out-of-date **org board** can cause dev-t. A staff that doesn't have a well done **org board** cannot help but make dev-t. A staff that doesn't know the **org board** will make dev-t. (HCO PL 27 Jan 69) 2. an out-of-date **org board**. People will misroute continuously- sending their own bits to others and flooding wrong others with dispatches. (HCO PL 31 Jan 65)

**ORG BOARD PATTERN**, the **org board pattern** (names of divisions, departments and their code words as per any of our org

boards) is an analysis system which can be applied to any person or job. (HCO PL 16 Nov 66)

**ORG BOARD UNIT**, in Department 1, Department of Routing, Appearances and Personnel. **Org Board Unit** keeps main **org board** posted, inspects and causes to be posted all divisional **org boards**. (HCO PL 17 Jan 66 II)

**ORG CONDITIONS STAT**, the **condition** assigned to the entire org will be based on the **statistic**: paid completions accompanied by an acceptable success story. This is the stat of the Executive Director who may have no other stat. (HCO PL 29 Aug 71)

**ORG CONFERENCE**, see ORG OFFICER CONFERENCE.

**ORG ESTO**, Org Exec Sec's Org Officer. (HCO PL 9 May 74)

**ORG EXEC SEC COORDINATOR**, the Executive Division is Division 7. The LRH Communicator is in charge of the Division. It consists of three departments. The third department is the Office of the Organization Executive Secretary, Department 19. It is in the charge of the **Org Exec Sec Coordinator**. (HCO PL 2 Aug 65)

**ORG EXEC SEC WW**, the **OES WW** has definite primary duties which must never be neglected. These are: (a) effective OES and tech execs on post in every org, (b) auditing in high volume in all orgs, (c) training in volume of public students, (d) training in volume of staff students, (e) wide staff auditing, (f) financial high income and solvency in WW and all other Scn orgs with excellent cash-bills and mounting reserves, (g) the effective delivery of high quality auditing and training, (h) the repair of any and all cases incompetently handled, (i) getting new personnel in orgs trained up rapidly. The OES WW is responsible for the good performance, training and conduct of every

OES in the world and that one is on post in each org. (HCO PL 12 Feb 70 II)

**ORG FINANCE BANKING OFFICER**, the **FBO** attached to an **org** to help the Continental FBO manage it financially under SO control. (HCO PL 9 Mar 72 I)

**ORG FLAG OFFICER**, an otherwise posted individual on **Flag** is to represent one org, FOLO or unit as a part time duty so that each org, FOLO or unit is in full comm with **Flag**. He handles the org to which he is assigned. His purpose is to keep in comm with his org, answer or acknowledge its reports and dispatches of whatever kind and handle outnesses reported and give guidance for the betterment of the org, its stats and expansion and keep its standard reports arriving. (CBO 348R) *Abbr.* OFO.

(CBO 435-2) 2. the **Org Flag Officer Branch**, Flag Management Bureau, is headed by an **Org Flag Officer Aide** whose duty it is to ensure that all Flag Officers stay in close comm with the org. (FBDL 488R) *Abbr.* OFO Aide.

**ORG FLAG OFFICER BRANCH**, 1. (Branch 10A Flag Management Bureau) this is the **branch** where your **Flag Officer** writes to you. The **branch** is headed by an **Org Flag Officer Aide** whose duty it is to ensure that all Flag Officers stay in close comm with the org. In addition, this **branch** has an Emergency Officer Section, the purpose of which is to rapidly evaluate and handle any threatening org emergencies so that the orgs can get on with the show. (FBDL 488R) 2. (Management Bureau Flag) sees that OFO data arrives in baskets and is easily available to OFOs. Ensures prompt handling of all org traffic per policy and CBOs. Sees that OFOs are equipped with needed materiel and data, fully briefed and assisted so that they can do

their job. Supervises OFOs to the result of all org comm rapidly handled with a large return flow of high ARC comm and standard org reports to Flag. Conducts OFO coordination councils. Emergency Section notes and gets handled by rapid program or debug those things which are emergencies or will make emergencies if not handled. Does competent GDS analysis with handlings on critical stat situations. Ensures all emergencies handled or piloted through to complete handling in coordination with the Network Control Branches and FR Execution Branch. (CBO 376)

**ORG FORM AND POLICY BUREAU**, 1. produces orgs and bureaux that are effectively and causatively managed by operating on a realistic complete org board with correct ideal scenes and stats, by correct hats being available, known and worn, by needed materiel known and provided, and where necessary correction programmed and done realistically so that **org form and policy** are fully utilized to increasingly produce the products of the orgs and bureaux and all its personnel being experts on **organization and policy**. (CBO 34) 2. consists of a Situations Recognitions Branch, Programming Branch, Research and Correction Branch, and Ideal Scene Achievement Branch. (CBO 37)

**ORG INFORMATION OFFICER**, see STAFF INFORMATION OFFICER.

**ORG INTERNE**, 1. anyone serving in an org on an unpaid basis to learn an org must be called an org interne and must be signed up as such, hatted and trained as such. (FO 785R) 2. the term **org interne**, not volunteer, should be used to designate personnel signed on for org experience. A regular org training program must be drawn up with checksheet for such personnel. (BO 48, 22 Aug 70)

**ORG LEVEL**, see CLO LEVEL.

**ORG MAILING LIST**, 1. this is a list of names and addresses of persons who have bought something from an organization. This in full is the **org mailing list**! Every person on this list has a separate file in central files. (BPL 17 May 69R I) 2. the name and address of every person in central files collectively make up the **org mailing list**. Conversely, every person on the **org mailing list** has a folder in central files. (BPL 17 May 69 I)

**ORG MANAGEMENT BUREAU**, Branch 12 of the Flag Bureau Org Board. The function of this **bureau** is to handle extant orders and compliance reports between Flag Bureaux and COs, Exec Dirs and missionaries with similar long-range, garrison type orders and act as library for each org's relevant current orders. (CBO 60)

**ORG MANAGERS**, 1. the Management Bureau consists of people in charge of areas and orgs, and these people **manage** those **orgs**. They are fully responsible for the orgs under their care, their stats and expansion. They evaluate org situations and handle. These I/Cs are called **Org Managers**, e.g. **AF Org Manager**, **FLEU Org Manager**. Each person is responsible for a certain area or org and he directs that org based on evaluation. The **Org Manager** is senior to the COs and EDs of the orgs. He keeps in comm with the execs in his orgs. He supervises the OFOs of his orgs and makes sure they are wearing their hats according to already existing CBOs. He reviews the stats of each of his orgs every week and based on stats **manages his orgs** by investigating and handling situations that affect org production. He uses the FR and LRH Comm lines to execute programs that will keep the org expanding. The product of the **Org Manager** is expanding orgs. (CBO 435-3R) 2. evaluator. (ED 39R FB)

**ORG OFFICER**, 1. the first thought of an **org officer** was to **organize** things so that

the product could get out (prod/org system). Now that's not really part of his duties. It's the execution of the program that is his duty (Esto system). (ESTO 9, 7203CO5 SO I) 2. **the Org Officer organizes** production areas for the Product Officer so they produce. (FO 2794) 3. HCO Exec Sec. (FEBC 11, 7102CO3 SO I) 4. is there to do product 3 which is the correction of the establishment, preferably before the fact and certainly swiftly after the fact. The org's **Org Officer** is there for that purpose, and the Org Officer of a division is there for that purpose. He's a product 3 man. (FEBC 5, 7101C23 SO I) 5. in a fast running organization the total duty of an **Org Officer** is arresting a decline - product three; halting a decline, or a threatened decline. (FEBC 5, 7101C23 SO I) 6. assists the Product Officer. He gets production lined up, grooves in staff 'on what they should be getting out and makes sure the Product Officer's plans are executed. (HCO PL 7 Mar 72) 7. he establishes the establishment and when it goes a little awry he corrects the establishment. So he has products one and three. (FEBC 4, 7101C18 SO III) 8. the full title of the **Org Officer is Organization, Formation and Repair Officer**. He has a hat similar to that of an old-time HCO Area Secretary. He puts an org there. The **org officer** has products one and the (Org Series 10). The Product Expeditor has products 2 and 4 (Org Series 10). A CO counts on the Org Officer to keep the org recruited, formed, corrected. The **Org Officer is "organize"** and the Product Expeditor is "cope." (Org Series 2) (FO 2656) 9. the rule is see the Product Officer about past, present and future production. See the **Org Officer** about internal matters of personnel, supply, hats, etc. The deputy is the **Org Officer** who is always junior to the Product Officer. It's like having (in the **Org Officer**, the deputy) an HCO right in your own division. The deputies are really under the **Org Officer** of the org. The div heads are under the Product Officer of the org.

(OODs 10 Jan 71) 10. where an org has less than five staff, appoint this much org board: **Org Officer**, Executive Director, Field Expansion Secretary. In such a tiny org the major **Org Officer** duties are as follows: -form of org, reception, registration, procurement letters, central files, ethics, personnel, any LRH Comm and Assistant Guardian duties, communications, legal. (LRH ED 49 INT) *Abbr.* 00.

**ORG OFFICER CONFERENCE**, (**org conference**) the Product Conference is senior to the Org Conference. The Product Conference lays it out. This is what we're going to do and this is how we're going to get the product and so forth. They write up the projects and products and plan everything else of what they're going to do in order to get this thing out and then they make sure that they keep that machine running that way. The **Org Officer** with your **Org Officer Conference**; they've got a certain deadline and they're coming up to the planning of the next fifteen days and so forth of operation. It's the org actions which we're going to take because we've got in front of us, the Product Conference. The deputy secretaries would make up the **conference for organization**, handling products one and three. (FEBC 4, 7101C18 SO III)

**ORG PERSONNEL**, **personnel** in Divisions 3, 4, 5 and 6. (HCO PL 20 Aug 65, *Scientology Org Uniforms Saint Hill*)

**ORG PLANNING UNIT**, (Office of the Guardian) the **Org Planning Unit** predicts trouble by such things as too much entheta from an area, too much sex going on in an org and, working closely with HCO, plans how to reorganize the org in that area without destroying it. Such **planning** also handles a public program for an entheta area to weaken anti-Scn propaganda, at the same time stiffening up ethics and quality of service in the area and investigating why ethics

and quality of service are down so they can be remedied. (HCO PL 1 Mar 66)

**ORG POLICY NUMBER ONE**, the first reason and last reason for the existence of a Central Org or City Office is "to hold up the technical standard of an area." That is **policy one** in every Central Org and City Office. (HCO PL 21 Aug 64)

**ORG PORTION**, the first two divisions of the entire organization are the HCO Divisions. This is known as the HCO portion of the organization. The primary action of the **org portion** of the entire organization is the handle whatever is routed and so produce results, and in its sixth division, Distribution, as well as the other three, to make Scn broadly known and well thought of everywhere by changing personal and social conditions. (HCO PL 2 Aug 65)

**ORG PROGRAM NUMBER 1**, see ORGANIZATION PROGRAM NO. 1.

**ORG QUALS ESTABLISHMENT CHIEF**, head of Branch 13A, Enhancement Branch, Correction Bureau VA (CLO). (HCO PL 14 Aug 71 I)

**ORG RESERVE ACCOUNT**, 1. all monies set aside to untouchable org reserves, which is a weekly 10% of the proportionate sum. Any payroll, sales or other payable taxes such as withholding tax in the U.S. and PAYE in the UK pending payment of the taxes. The untouchable org reserves (10% of the proportionate sum) may be used in time of emergency only. Such emergencies might be physical damage to the org's building for which there's no insurance coverage, or extreme insolvency of an org. (BPL 6 Jul 75 III) 2. the org reserve account is built up by astute GO and FBO guardianship of org funds and by reason of booming the org. It also answers the rule that financial management gathers bit by bit a cushion of cash to fall back on and never falls back on it. However, far more than such reserves go to payment of management bills owing and

they may not be built up at the arduous expense or denial of management payments. It can also hold Reserved Payment Account type monies. Monthly accounts summaries should show what portion of the Org Reserve Account reconciled balance is accumulated reserves and what portion is Reserved Payment Account type monies. (BPL 1 Jul 72R)

**ORG RESERVES**, 1. any reserves that may be built up by an FBO by reason of astute guardianship of the org's funds. Far more than such reserves go to SO reserves. (HCO PL 9 Mar 72 I) 2. org reserves are used for local emergencies or periods of down stats or large acquisitions to increase production. (HCO PL 29 Jan 71)

**ORG RUDIMENTS**, see RUDIMENTS OF AN ORG.

**ORG RUDIMENTS 1-17**, see RUDIMENTS 1-17.

**ORG RUDIMENT SECTION**, HCO Division, Dept 3, **Org Rudiment Section** gets in routinely any **rudiments**. (HCO PL 25 Jan 66)

**ORG RUDIMENTS OFFICER**, the HCO Division of every org must establish in Department 3, Department of Inspection and Reports, an **org rudiments** section. The section is headed by an officer. This person is called the **Org Rudiments Officer**. The **Org Rudiments Officer** ceaselessly gets in the **org rudiments** as issued in the past and revised from time to time. (HCO PL 20 Nov 65 II)

**ORGS FUNCTIONING**, the end product of missions is orgs, functioning-which is stable terminals in the orgs, wearing their hats. (FO 2200)

**ORG SO #1**, origins by org personnel not on official business. (HCO PL 17 Sept 65)

**ORIENTATION**, getting in the right relation to the things or people around one. (HCO Admin Ltr 30 Jul 75)

**ORIENTATION**, any training which familiarizes a new employee with his employer, job, the premises, company policy or procedures, etc.

**ORIENTATION CHECKSHEET**, this checksheet is designed to orient the new arrival to Flag into his/her new environment, accompanied by his/her buddy or twin. (FSO 65R)

**ORIENTATION SHEET**, the responsibility of the make-up of the orientation sheet is given to the D of T. Included in it are: (1) a copy of the org board of the Tech Div, (2) flow lines that the student in that specific org would travel, expressing the terminals he would be expected to see and in what order, (3) simple floor plans of the org showing where what is and where the student may or may not go. Who's where, etc. Info should be keyed to the student's need with, say, a closet for students' coats well indicated, but relatively little tagging for the CF area. (4) course schedule, (5) other similar info that the D of T may decide is locally needful. (HCO PL 22 Feb 71) [The above HCO PL was cancelled by BPL 10 Oct 75 IX.]

**ORIGINAL MOTION**, see MOTION, ORIGINAL.

**OT ACTIVITY PERSONNEL**, persons on the Clearing Course and OT Course, and including all Clears and OTs (Operating Thetans) are eligible for volunteer posts in OT Activities. They are called **OT Activity Personnel**. The basic arrangement is that all such persons who volunteer to do so in a continental area or at Worldwide shall be enrolled as volunteers on OT Activities. The whole of those in any continental area or Worldwide may elect a committee. This committee is to be called a "Continental Committee" for continental areas and the

"Central Committee" for Worldwide. Staff membership in orgs is not a requisite. These committees will handle certain projects, programs and missions. The first and foremost program of OT activities is of course the furtherance, support and protection of Scn. (HCO PL 10 Nov 66 II) [The above HCO PL was cancelled by HCO PL 11 Aug 67 III.]

**OT BADGE**, the cloth **OT badge** for the Sea Org is 7 cm high and 5.5 cm wide, with a bright blue surround, a gold oval 0 with a cross bar in it above center and a vertical down from the cross bar to the bottom of the 0 on a white field. The metal badge is the same design but only 1.7 cm in height and 1.25 cm wide, with a safety pin back. (FO 71)

**OT CENTRAL COMMITTEE**, the **OT Central Committee** is directly under the Executive Council Worldwide and the Divisional Organizer for Distribution WW. The duties of the OT Central Committee are: (1) to pass on projects proposed by persons on the Section I and beyond courses or OTs and authorize, expand, replan or reject same, (2) to recruit personnel for OT organizations by keeping lists of enrollees and graduates and informing them routinely of posts available on OT organizations, (3) expedite for OT organizations diverse matters and concerns as these arise, (4) liaison with the Executive Council WW via Divisional Organizer Dist WW for OT organizations or their personnel, (5) regulate all projects and cancel or rearrange those that are not productive or are causing dev-t or trouble or needless expense. The purpose of the **OT Central Committee** is to help LRH organize and channel OT forces, interests and resources for the greatest good for Scn. All other OT committees come under the OT Central Committee via their Exec Councils. (HCO PL 11 Aug 67 III)

**OT COMMITTEE**, these **committees** may be **committees** of 500 or 2,000 for example, or any number of Clears and OTs. Only Clears and OTs may be members of the **committee**. There are no dues (although the committee may raise funds and take up collections). An **OT Committee** membership card is issued to each member. The purpose of the OT Committee is to help LRH organize and channel OT forces, interests and resources for the greatest good for Dn and Scn. The OT Committee may embark upon and execute projects which further Dn and Scn or improve society. Such projects must be self-supporting and may not use org funds. The first and foremost program of the **OT Committee** is of course the furtherance, support and protection of Dn and Scn. (HCO PL 22 Oct 70)

**OT COURSE**, the OT course is divided into levels. Each level is called a part. Enrollment in each part will be by invitation only. The reason for this is that for the first time in this universe we are making real cleared (not keyed out) OTs. the power of these beings will be unlimited. (HCO PL 12 Aug 66 II)

**OT EXPANSION PROGRAM**, the sequence of promotion and delivery of OT III and OT III Expanded is (1) OT 111. (2) completion of past auditing cycles in the AO HGC and any required case handling actions, such as C/S 53, GF 40X and any other set-up for OT VII, as determined by the C/S. (3) OT VII. (4) OT III Expanded. The surveyed selling name for the section of auditing between OT III and OT VII is **OT Expansion Program**. (FO 3112)

**OT FORMULA**, cause. (HCO PL 14 Jan 69)

**OTHER-INTENTIONEDNESS**, (form of arbitrary) the receipt of a communication is an extremely important part of the sequence of actions that results in a compliance. Common reasons for the non-receipt of a communication is that arbitraries (or arbitra-

ry factors) exist in the area. Other-intentionedness means a state of mind of wanting to follow a different goal than that known to be the goal of the originator and the goals of the group (either a big or a little goal). (BPL 10 Nov 73 II)

**OTHER PRACTICES**, do not engage in other practices while receiving an auditing intensive. This includes "bathing in light," psychiatry, yoga, hypnotism, meditation, spiritualism, mysticism, extreme dieting, etc. (BPL 29 Jan 72R)

**OTL**, 1. all OTLs have at this point been converted to FOLOs and CLOs. (BPL 3 Oct 72R) 2. an extension of CLOs for the CLO. (HCO PL 22 Jul 71) 3. branches of a Continental Liaison Office. (HCO PL 22 Jul 71) 4. the major purpose of a CLO or OTL is to make Flag planning become an actuality in orgs, franchises and thereby the various publics. (HCO PL 22 Jul 71) 5. the first action and primary duty of an OTL is to secure a communication line into its area. **PENSION**, a sum of money paid regularly to a person who has retired from a business, satisfied certain conditions of employment, or has become disabled as through military service or industrial accident.

**PEOPLE WHO PRESENT PROBLEMS**, a type of dev-t. Problems presented by juniors when solved by a senior cause dev-t because the source of the problem usually won't use the presented solution either. (HCO PL 27 Jan 69)

**PEOPLE WRANGLERS**, body routers also wear the hat of people wranglers -rounding up persons falling off the org li-

nes, putting them back on and taking them to where they should go-namely the Public Registrar. (BPL 1 Dec 72R IV)

**PERCENTAGE ORDER**, see ORDER, PERCENTAGE.

**PE REGISTRAR**, registers and handles the Anatomy Course, group processing and PE Course procurement and enrollment. (HCO PL 29 Nov 60)

**PERFECT**, I want every auditor auditing to be perfect on a meter. By perfect is meant: (1) auditor never tries to clean a clean read; (2) auditor never misses a read that is reacting. (HCO PL 14 Jul 62)

**PERFECT ORGANIZATION**, 1. organization is composed of terminals and communication lines related by a common purpose. That's an organization. All the organizational pattern does is help separate the types of particles being handled. That, in a nutshell, is an organization and what it does. Now to make a perfect organization, evidently all you have to do is find out what particles come in, how they are changed, and how they are gotten rid of. That's all. If there's any friction on the lines, it's got to be smoothed out. (5812C29) 2. a **perfect organization** is not a machine but a pattern of agreements. (HCO PL 2 Nov 70 II)

**PERFECT PUBLIC RELATIONS**, these are the three grades of PR: **perfect PR** good works well publicized. Inadequate PR: good works which speak for themselves. Enemy PR: bad works falsely publicized. (BPL 15 Jun 72)

**PERFORMANCE**, 1. the way an employee or the organization itself functions, usually in comparison to objectives or a set standard. 2. the degree of skill with which something is executed either by an individual or a company.

**PERFORMANCE-LINKED PAY**, see PAYMENT-BY-RESULTS.

**PERFORMANCE TEST**, a test designed to measure a person's ability to produce on the job, to solve work-oriented problems, the causativeness of an individual, etc. Such tests often show up the need for future training, potential for promotion, managerial qualities, etc.

**PERFUNCTORYITIS**, a disease gets amongst auditors called perfunctoryitis. They see a floating needle in every blowdown (when, of course, the needle does behave loosely for the moment during the blowdown). As a result such an auditor runs a process to a blowdown and says "floating needle." (HCO PL 5 Aug 65)

**PERIODIC REVIEW**, any regularized or random check on production, personnel, management policies and decisions, the state of a project, etc., with a view in mind to correct points now found to be unfavorable.

**PERMANENT EXECUTIVE**, a permanent executive uses the full title of and draws the full units of a post. He or she may be transferred to a similar post by the Assn Sec or by the HCO Sec who is handling a state of emergency that applies to that department. He or she may be suspended for no longer than two weeks in any three months from post without pay, to be processed in event of a consistent failure in that department. He or she may be removed from post only by myself after due investigation, and reports are received by me. (HCO PL 17 Feb 61, Staff Post Qualifications *Permanent Executives to be Approved*)

**PERMANENT MISSION**, a Sea Org **mission** which is located in an area or on a ship or in a flotilla and which does not change but continues its duties there. It is composed of three members who each one covers one of the three points of a mission-ethics, tech and admin. (FO 495)

**PERMANENT STAFF MEMBER**, 1. a **permanent staff member** may not be demoted, transferred or dismissed without a

full Committee of Evidence being held. The person may himself request a change of status or another post or may resign without a Committee of Evidence being convened. **Permanent** status is designated on the org board by the numeral "T" after a person's name. To obtain **permanent** status a provisional must obtain his or her basic staff certificate. This has a checksheet for which the HCO Exec Sec is responsible for compiling. (HCO PL 4 Jan 66 V) 2. a permanent staff member is paid in units and will be in the future taken on only at a staff meeting by a majority vote. The status of permanent staff member shall be granted only upon majority vote at a staff meeting and is then dismissible only upon majority vote at a staff meeting or by a unanimous vote of the Advisory Committee, both subject to further appeal and approval by the Association Secretary and the Agent for Great Britain. (HASI PL 19 Apr 57) 3. a person who has passed an examination as per latest qualifications. This individual can only be dismissed by unanimous vote of the Advisory Council or by the Executive Director. In the instance of a **permanent staff member** quitting, he no longer is a **permanent staff member**. (SEC ED 75, 2 Feb 59)

**PERMITTING DEV-T**, the biggest single goof anyone can make is failing to recognize something as dev-t and going on to handle it anyway. One's basket soon overflows. The reason for "overwork" and "heavy traffic" is usually traceable to **permitting dev-t** to exist without understanding it or attempting to put the dev-t right. (HCO PL 27 Jan 69)

**PERMS**, term for permanent employees as distinct from part-time or temporary personnel.

**PER PRO**, by and for. (HCO PL 31 Mar 65)

**PERSONAL ACCOUNT**, the accounts maintained for outside persons are termed personal accounts simply because they re-

cord the view of the outside persons. Thus the accounts with Sykes, Biggs and Jones are examples of personal accounts. Any account that the organization maintains with any outside person is termed a **personal account**. By contrast, accounts maintained which show the point of view of the organization are termed impersonal accounts. Thus the examples, motor car account and E-meter sales account are impersonal accounts. Impersonal account means any account recording the organization's viewpoint of a transaction. (BPL 14 Nov 70 III)

**PERSONAL AWARENESS AND UNDERSTANDING COURSE**, a two-night lecture series using script delivered verbatim by supervisor. Subject matter: ARC triangle, parts of man, locks, secondaries and engrams. By reason of live lectures, this course imposes (a) limited enrollment times, (b) dependency on supervisor, (c) two nights is little time and makes resign-up a scramble, all at once graduates hit reges with greater speed, putting reges at slight disadvantage. (FPJO 717) [This course was mentioned in FBDL 516 as replacing the HAS Course and the Introduction to Scn Course. However a new HAS Course laid out in FPJO 717 supersedes the **Personal Awareness and Understanding Course**.]

**PERSONAL CONTACT**, this by far is the very best method of dissemination. It is better done on individual basis rather than talking to groups since there is the factor in groups of being able to escape by saying "they aren't talking to me." **Personal contact** then means just that. No matter whether it is done to friends and then to other people or secondarily to total strangers there is nothing better than personal contact. (HCOB 15 Sept 59)

**PERSONAL EFFICIENCY COURSE, 1.** a five evening PE Course is given weekly. Its curriculum is precisely laid down. Its total purpose is to explain elementary Scn

and prepare and route people into the co-audit. (HCO PL 14 Feb 61, *The Personal Efficiency Foundation*) 2. a PE Course curriculum should consist of a mixture of drills and lectures. The first evening lecture should talk about definitions in life as found in Sen. The dynamic principle of existence, the eight dynamics, a preview of the next evening's lecture should be given and this lecture should consist of a very rapid survey of Comm Course TRs Zero and One and should sail in the second hour into the ARC triangle, and all data for the rest of the week used in lectures should consist of ARC triangle data taking up the whole subject and one corner at a time. The remainder of the week previews TRs two and three, and says how the TRs are used in life, and how people can't do them. The last lecture's last part sells the HAS Comm Course. (HCOB 29 Sept 59) 3. what is the goal of a PE Course? Internationally the goal is to bring about a superior civilization in which peace can exist on earth. The modus operandi by which this is done is education in the actual, simple facts of existence, the data of which is contained in *Scientology the Fundamentals of Thought*. (561OC18) 4. use the anatomy of the human mind materials in the PE and nothing else -(HCO PL 26 Aug 64) 5. the data of the PE course is contained in *Scientology the Fundamentals of Thought*. (561OC18)

**PERSONAL EFFICIENCY FOUNDATION**, 1. a **Personal Efficiency Foundation** has less than ten staff members. It has an org board with its activities and personnel designated. It teaches PE Courses and does individual auditing up to classifications held by the auditors concerned but not power processing or above. It copes as it can. (HCO PL 21 Oct 66 II) 2. the **PE Foundation** is the entrance door of the public into the services of the Central Organization, a knowledge of Scn and a higher level of civilization. (HCO PL 14 Feb 61) 3. one

of the departments of a Central Organization. (6101C01) 4. purpose: to run an amazingly successful HAS Co-audit course, to keep new people coming in and the co-audit growing, at least five new people per week, and cases cracking and everyone to get training further or cleared fully in the HGC. (HCO PL 27 Nov 59) 5. a **PE Foundation** is a programmed drill calculated to introduce people to Scn and to bring their cases up to a high level of reality both on Scn and on life. A **PE Foundation** in its attitude goes for broke on the newcomers, builds up their interest with lectures and knocks their cases apart with comm course and upper indoc. (HCOB 29 Sept 59) 6. the **PE Foundation** is an entrance point to Sen. If it fails to pass people from testing to a PE Course, from a PE Course to co-audit and from co-audit to the Academy and HGC, then it is failing its functions, the unit will be low and the Central Organization faltering. (HCO PL 14 Feb k, *The Personal Efficiency Foundation*) 7. the **PE Foundation** is a separate unit of the HASI with the stature of the Academy or HGC under the Technical Division. (HASI PL 30 Oct 58)

**PERSONAL EFFICIENCY FOUNDATION** HCO WW, this is an information center on HAS Co-audit. The place of the department is London and all queries about HAS Co-audits or the running of **PE Foundations** should be addressed to it. (HCO PL 28 May 59, *New HCO WW Dept*)

**PERSONAL ENHANCEMENT**, see **PERSONNEL ENHANCEMENT**.

**PERSONAL GROOMING**, **grooming** is defined as the action of taking care of the appearance of; making neat and tidy. (FO 3241- I)

**PERSONALITY INTERVIEW**, type of newspaper interview. This procedure is often adopted for lengthy profiles or feature stories about people. In this type of **interview** the reporter conveys as much as possible about the individual. He touches on the subject's philosophy, goals, purposes, likes, dislikes, mannerisms, appearance, etc., and tries to give the reader the "feeling" of being with the person. (BPL 10 Jan 73R)

**PERSONALITY PROMOTION**, see PROMOTION, PERSONALITY.

**PERSONAL OFFICE OF LRH**, this is the organization which is Ron's personal org and which exists to service him directly, and to assist him in his many activities. The **Personal Office of LRH** is headed by Lt. Commander Ken Urquhart, LRH's Personal Communicator, whose direct senior is, of course, Ron. (SO ED 489 INT)

**PERSONAL PROCUREMENT OFFICER**, (Flag) the post of Personal Procurement Officer falls under Div 6 in the Department of Public Information. It is not a Division 1 function as Div 1 controls personnel assignment, reassignment and admin of persons in the flotilla. By sending out recruitment mailings and pretty posters at AOs, Div 6 procures new personnel. (FO 938)

**PERSONAL REGISTRAR**, 1. the **Personal Registrars** interview applicants, signs them up on contracts and releases and take their money for individual training and processing. When prospects seem too few, **Personal Registrars** go back over "hot files" and by phone or other means, seek to get people in. (HCO PL 20 Dec 62) 2. **body registrar**. (HCO PL 6 Apr 65)

**PERSONAL REGISTRATION SECTION**, the **Personal Registration Section** finds and signs up applicants for the Academy and the HGC. The section includes one or more **personal registrars**, the receptionist and for admin purposes, various

admin personnel in the Technical Division. It is headed by the Chief **Registrar**. (HCO PL 20 Dec 62)

**PERSONNEL COORDINATION BRANCH**, (in Flag Bureau 1) the **Personnel Coordination Branch** has been formed to assert and maintain total control of all **personnel** movements and transfers. Its purpose is to help LRH maintain the form of the org in all orgs, vessels, bases, liaison offices and activities through the arrangement of specialized terminals who control and change the production and organization particles and flow lines of an activity. The product of the **branch** is: well posted staff and orgs. (CBO 233)

**PERSONNEL COORDINATOR**, 1. (Central Personnel Office hat) goals: to create continually growing **personnel** resources in orgs everywhere, by providing an additional external management for their personnel. Purposes: to ensure that all personnel are well and properly posted and that each one's forward progress as a staff member is uninterrupted. (FO 3332) 2. the recruit or a new staff member has a terminal of recourse, that he can report to if things don't go right. This is the Personnel Coordinator at Flag, who then sees the matter is handled. In the event that a person has been dismissed, or in the Sea Org had a Fitness Board, and dismissed, and the staff member or recruit is requesting recourse, the **Personnel Coordinator** can have a Fitness Board done on Flag, from the file, and determine whether the person should be let on staff. (7109CO5 SO) 2. there has not been any one person in the org who was concentrating on **personnel enhancement** in the full meaning of those words. **Personnel**, of course, means people who are on staff. It is not "personal" which would mean for the person himself. (HCO PL 22 May 76)

**PERSONNEL ENHANCEMENT BUREAU**, consists of Personnel Programming Branch, Personnel Phasing Branch, Personnel Progress Branch, and Verifications Branch. (CBO 38)

**PERSONNEL FILES**, 1. these consist of a Me by division and department with the personnel in separate folders **filed** alphabetically in their department. Nothing is **filed** nebulously by division, department or section only but by a person's name in that portion. Example: a report concerning the "Organization Division" is filed in the folder of the actual name of the Org Sec. A report concerning the "Department of Tech Services" is filed under the actual name of the Director of Tech Services. The **Personnel** Officer puts a separate copy of any SEC ED, Admin Letter or Ethics Order into the folder of every person it mentions. Copies of all contracts, agreements or legal papers connected with the person are filed in the org personnel files. The originals are kept in Val Docs. The org personnel file is used for purposes of promotion and any needful reorganization and so should contain anything that

throws light on the efficiency, inefficiency or character of **personnel**. The org **personnel file** is consulted by ethics to determine whether or not a personnel's statistics are up or down. (HCO PL 4 Sept 65) 2. these files contain basic data and all relevant information on each individual which is sometimes of a confidential nature as well. (FSO 61 I) 3. all conditions assigned by Base and Flag Orders are to be plainly noted on a card in the person's file. A commendation wipes out previous condition cards but the file is never destroyed. The file is divided into three categories, past personnel, current personnel, future or aspirant **personnel**. Quickly corrects programs which are not getting done. (BPL 7 Dec 71R I)

**PERSONNEL PROGRAMMING**, successful **programming** is shown by the **program** actually getting completed, staff members winning and upstat. The steps of **personnel programming** are: (a) gather data on the person, his post and study, (b) evaluate this data, (c) draw up a program, (d) interview the staff member on the meter with the **program** and all data to hand, and ensure it is correct. Make any needed changes, to F/N VGIs. (BTB 23 Oct 71RA II)

The **account** is operated as any other account, by Division 3. Every month Division 3 forwards an exact accounting of the *PES Account* expenditures and deposits to the PES of the org. (HCO PL 12 Nov 69 II) [The above HCO PL was cancelled by BPL 10 Oct 75 VII.]

Discourtesy or malice in a request for justice, a favor or redress deprives it of the status of **petition** and it must be refused. If a **petition** contains no request it is not a petition. (HCO PL 25 Oct 68)

**PINCH TEST**, for demos, you can do a **pinch test** where you explain to the PC that, to show him how the meter registers mental mass, you will give him a pinch as part of the demo. Then get him to think of the **pinch** (while he is holding the cans) showing him the meter reaction and explaining how it registers mental mass. (BTB 8 Jan 71R)

**PINK INVOICE**, 1. these invoice copies are the consecutive series to be kept in the machine until the end of the accounting week. (Invoice routing for all orgs except Saint Hill.) (HCO PL 16 Feb 66) 2. **pink invoice** copies are distributed to the department concerned with the service or item purchased. (Saint Hill only.) (HCO PL 13 Oct 66)

**PINK SHEETS**, **pink** foolscap size paper. At the top of the **sheet** write the name of the student, student auditor or coach being observed, the date and the name of the observer. Head a wide column on the right hand side of the sheet with "observations," a narrow column to the left of center with "theory and practical assignment" and two more narrow columns on the left hand side with "coach" and "supervisor." They are used to improve the student's study, auditing or coaching ability by having him thoroughly learn

data and practical skills he is weak in. (BPL 27 Sept 63RA)

**PLACEMENT**, 1. the act of placing a particular person on a particular job in an organization. 2. referring to a service offered by employment agencies whereby for a fee they find jobs best suited to clients who desire employment.

**PLACEMENT DEPARTMENT**, a business or company department whose purpose is to place employees in jobs according to individual abilities, skills, temperament and personal interest.

**PLAINTEXT**, the message in clear without code or cipher. (HCO PL 11 Sept 73)

**PLAN(S)**, 1. short range broad intentions as to the contemplated actions envisaged for the handling of a broad area to remedy it or expand it or to obstruct or impede an opposition to expansion. A **plan** is usually based on observation of potentials (or resources) and expresses a bright idea of how to use them. It always proceeds from a real why if it is to be successful. (HCO PL 29 Feb 72 II) 2. the general bright idea one has to remedy the why found and get things up to the ideal scene or improve even that. (HCO PL 29 Feb 72 II) 3. **plans** are not targets. All manner of **plans** can be drawn and can be okayed. But this does not authorize their execution. They are just **plans**. When and how they will be done and by whom has not been established, scheduled or authorized. You could **plan** to make a million dollars but if when, how and who were not set as targets of different types, it just wouldn't happen. (HCO PL 18 Jan 69 II) 4. a **plan**, by which is meant the drawing or scale modeling of some area, project, or thing, is of course a vital necessity in any construction and construction fails without it. A **plan** would be the design of the thing itself. (HCO PL 18 Jan 69 II)

**PLANNED ECONOMY**, see CONTROLLED ECONOMY.

**PLANNING**, 1. the overall target system wherein all targets of all types are set. That would be complete planning. (HCO PL 18 Jan 69 II) 2. **planning** includes imaginative conception and intelligent timing, targeting and drafting of the **plans** so they can be communicated and assigned. (HCO PL 14 Sept 69) 3. includes writing mission orders or program orders, and includes specifications-material, personnel, etc., which will be required. Includes production targets. This is **completed planning**. (FO 2261)

**PLANNING**, 1. an activity of business programming to work out beforehand the sequential steps necessary to attain an objective or goal, usually taking into consideration past and present performance as well as future needs. 2. a systematic way of thinking in which ideas are arranged in orderly outline taking an endeavor from present time onward to a given point or conclusion, and which may encompass either short or long range goals.

**PLANNING AND COORDINATING OFFICER**, see TRIANGULAR SYSTEM.

**PLANNING, BUSINESS**, any planning that tends to set the future course of a business. This could take the form of a detailed analysis of the company's performance up to now, looking at current market trends and demands to assess the necessity of research and development, an examination of the company's potential to meet future production demands and a realistic look at methods of marketing and distribution. Business planning should culminate in a positive program designed to ethically benefit the company.

**PLANNING, CONTINGENCY**, specific planning against a possible emergency in the future.

**PLANNING, CORPORATE**, all-inclusive long-range planning involving the whole company. Corporate planning attempts to project what future economic conditions will

be, what products will be in demand then and what changes would have to be made over a period of time to meet future demands and conditions. Often corporate planning will result in a company setting up a pilot or research project or even expanding the scope of such, already existing, in order to stay in touch with future demands and conditions and test new ideas.

**PLANNING DEPARTMENT**, (Ship Org Board) Dept 4 **Planning Department** will have the functions of writing, research, planning-figuring out what is to be sent out where. Will also contain a CIC Liaison and Ad Council Conference. (FO 976)

**PLANNING MEMBER**, in a small committee or conference the **planning member** is the chairman. Where there is a **planning member** in the general line-up of posts, **planning** is his hat. (FO 2409)

**PLANNING OFFICER**, the Executive Director is the fellow that the Product Officer and the Organizing Officer meet with in order to plan up what they're going to do. Then the basic team action which occurs, occurs after a **planning** action of this particular character. Where you have the Product Officer who is also the Executive Director, he is also the Planning Officer. He's double hatted. (FEBC 12, 7102CO3 SO II)

**PLANNING, PRODUCT**, planning related to the development, modification, production and sales of products. Product planning utilizes market research, public opinion surveys, sales statistics, etc., to determine what products to introduce or develop, what designs, features or modifications to incorporate in products, what quantity to produce, what price to charge, what markets to develop or utilize, etc. Product planning is a similar term to product strategy but the latter implies a strategy resulting from product planning.

**PLANNING, PRODUCTION**, any planning that considers how to increase the qua-

lity, quantity, viability and sales of a product or service. It includes a knowledge of current productive capacity and planning and scheduling of increased production to meet demands or planning how to increase the market demand first if necessary and how to then increase production to fulfill the created demand.

**PLANNING, PROFIT**, the establishing of a business operating system that has as its dominant factor the realization of specific profit goals.

**PLANNING, SALES PROMOTION**, planning which results in a program of how much sales promotion one needs to engage in and how it will have to be used in order to meet the sales targets.

**PLANNING SECTION**, any section that plans out the future activities of some aspect of a company but often it is a section that plans out the work schedules in order to meet a delivery date.

**PLANT LAYOUT**, see LAYOUT.

**PLANT TOUR**, usually a guided tour of the general public or a select public around a company plant, factory, etc., to increase public relations or enhance business. It may be part of an open house event.

**PLAY THE ORG BOARD**, a very good executive knows how to **play the org board** under him. He has to know every function in it. He has to know who to call on to do what or he disorganizes things badly. (HCO PL 28 Jul 71)

**PLAY THE PIANO**, 1. if a person who could not **play a piano** sat down at a **piano** and hit random keys, he would not get any harmony. He would get noise. If the head of a division gave orders to his staff without any regard to their assigned posts or duties, the result would be confusion and noise. That's why we say a division head doesn't know how to **play the piano** when he knows so little about org form that he continually violates it by giving his various staff members duties that do not match their hats or posts. (HCO PL 28 Jul 72) 2. meaning demand the proper duties of the right posts. (OODs 28 Dec 74) 3. the Executive Director of an org must **play the piano**. By this is meant he must ensure all the parts of the organization are working according to policy. (SO ED 418 INT) 4. if the fellow cannot **play the piano** (that is to say regulate the division) why he won't get it producing. (ESTO 11, 7203CO6 SO I)

**PLEDGE**, 1. the act of a debtor giving a creditor custody of something qualifying as security or collateral until a loan or debt is paid or an obligation is fulfilled. 2. a written agreement or contract whereby a debtor agrees to turn over such collateral to a creditor including a statement of any conditions agreed between the parties involved.

**PLEGGED SECURITIES**, securities pledged as collateral to guarantee payment of a debt.

**PLURAL-VOTING STOCK**, see STOCK, PLURAL-VOTING.

**PLUS-PONT**, **plus-points** are very important in evaluation as they show where logic exists and where things are going right or likely to. The following is a list of **plus-points** which are used in evaluation. Related facts known (all relevant facts known). Events in correct sequence (events in actual sequence). Time noted (time is properly noted). Data proven factual (data must be factual, which is to say, true and valid). Correct relative importance (the important and unimportant are correctly sorted out). Expected time period (events occurring or done in the time one would reasonably expect them to be). Adequate data (no sectors of omitted data that would influence the situation). Applicable data (the data presented or available applies to the matter in hand and not something else). Correct source (not wrong source). Correct target (not going in some direction that would be wrong for the situation). Data in same classification (data from two or more different classes of material not introduced as the same class). Identities are identical (not similar or different). Similarities are similar (not identical or different). Differences are different (not made to be identical or similar). In doing evaluations to find why things got better so they can be repeated, it is vital to use the actual **plus-points** by name as above. They can then be counted and handled as in the case of out-points. **Plus-points** are, after all, what makes things go right. (HCO PL 3 Oct 74)

**PLUS-POINT EVALUATIONS**, a **plus-point evaluation** shows what boomed the place and the targets necessary to reassert the boom. (OODs 23 Jan 76)

**POA**, power of attorney.

**POACHING**, unethically procuring trained personnel from other firms instead of setting up one's own facilities to train personnel.

**POINT**, a unit of measurement of value in the investment field where (a) one point = \$1 with reference to shares of stock, (b) one point = \$10 with reference to bonds and (c) one point = one point (not equivalent to \$1) with reference to market averages such as the Dow-Jones industrial average rising by one point.

**POINTS SYSTEM**, see STUDENT POINTS.

**POLICE**, to control, regulate, keep in order, administer. (BPL 1 Feb 72 I)

Police

**POLICIES, OPERATING**, specific rules and procedures established by an organization in regard to its methods of operation. These would chiefly be policies related to maintaining the overall production, distribution and sales of its products.

**POLICIES, WAGE**, the established rules, procedures or methods of operation that an organization will follow, in setting the amount of wages paid, handling grievances related to wages, or engaging in any programs or practices relating to wages.

**POLICY**, a policy as a word has many definitions in many dictionaries, amongst which only one is partially correct: "a definite course or method of procedure and determining future actions." It is also "prudence or wisdom, a course of action," and a lot of other things according to the dictionary. It even is said to be laid down at the top. Therefore the word has so many other meanings that the language itself has become confused. Yet, regardless of dictionary fog, the word means an exact thing in the specialized field of management and organization. **Policy** means the principle evolved and issued by top management for a specific activity to guide planning and programming and authorize the issuance of projects by executives which in turn permit the issuance and enforcement of orders that direct the activity of personnel in achieving production and viability. **Policy** is therefore a principle by which the conduct of affairs can be guided. (HCO PL 25 Nov 70) 2. long-range truths or facts which are not subject to change expressed as operational rules or guides. (HCO PL 29 Feb 72 II) 3. a policy is the law on which orders are authorized and originated. (FO 2627RA) 4. all policies actually derive in greater or lesser degree from group experience which more or less adds up to group agreement and **policies** which tend to stay along are actually formed with group agreement and are therefore not outside the perimeter of the group. (7012CO4

**POLICIES, COMPANY**, a broad term to cover any rules, procedures or methods of operation that the top management of an organization has established as the best means to realize the company's goals and purposes.

**POLICIES, COMPANY LABOR**, the definite organizational commitments made by management with respect to its labor force, employment terms and conditions.

**POLICIES, DEPARTMENTAL**, policies which delineate the purpose, position, procedures, responsibilities, authorities and products of each department or similar unit in relation to the whole organization.

**POLICIES, MANPOWER**, policies with respect to the intentions of management toward its labor force with specific commitments made in order to satisfactorily reach stated management/manpower goals.

**POLICIES, MARKETING**, principles and applicable data guiding the actions of a company advantageously in dealing with various market conditions.

SO) 5. the rules of the game, the facts of life, the discovered truths and the invariable procedures. (HCO PL 29 Feb 72 ID 6. policy is such things as the organizing board, hats. It is how to write letters. It is how to get the show on the road, keep it there and handle the bumps. **Policy** is the broad general outline originated by top management. Orders are the instructions issued by the next lower level of management to get things done that result in products. (FBDL 12) 7. **policy** is a growing thing, based on "what has worked." What works we'll today becomes **tomorrow's policy**. (HCO PL 13 Mar 65 II) 8. **policy** is derived from successful experience in forwarding the basic purposes, overcoming opposition or enemies, ending distractions and letting the basic purpose flow and expand. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*) 9. policy is a guiding thing. It is composed of ideas to make a game, procedures to be followed in eventualities and deterrents to departures. The basic **policy** of an activity must be the defining and recommending of a successful and desirable basic purpose. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*) 10. a rule or procedure or a guidance which permits the basic purpose to succeed. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*) 11. political wisdom or cunning; diplomacy prudence; artfulness. Wise, expedient, or crafty conduct or management. Any governing principle, plan or course of action. The last definition is the one we use. (HCO PL 5 Mar 65 II) 12. a plan of action; way of management, practical wisdom; prudence. Political skill or shrewdness. Obsolete-the conduct of public affairs; government. (HCO PL 5 Mar 65 II) 13. the sense in which we use **policy** is the rules and administrative formulas by which we agree on action and conduct our affairs. (HCO PL 5 Mar 65 II) 14. a method of bringing about agreement and communicati-

on along certain matters which lead to a higher level of survival. They lead to a higher level of survival if they are good **policies**, they lead to a lower level of survival if they are poor **policies** and they lead to complete disaster if they are bad **policies**. (SH Spec 39, 6409C15) 15. **policy** came from years and years of experience. It's the know-how of handling orgs and groups. (OODs 18 Aug 75) 16. that is what makes the team. It is simply the extant agreement and if there isn't an extant agreement then you have individualized action. (SH Spec 57, 6504CO6) 17. **policy** is derived from successful actions and is the agreed upon way that the actions of the group are carried out successfully. These actions are in written form and are followed exactly. (BPL 4 Jul 69R VI)

**POLICY KNOWLEDGE BUREAU**, the Tech Bureau and **Policy Knowledge Bureau** of the GO have just been phased out. Any personnel posted in the **Policy Knowledge Bureau** in any Guardian Office are transferred to the LRH Comm Office. LRH Comms are now responsible for the correct use and the actual use and application of policy in orgs. Therefore any GO personnel or materiel or hats on this subject should be transferred to the Office of the LRH Comm. The main purpose of this transfer came from an evaluation in which it was found that **policy** responsibility was transferred to the Guardian Office and that this is primarily an internal org function. LRH Comms are therefore responsible for the tech quality and the exact application of HCOBs. They are also responsible for **policy knowledge** and use. To the degree that **policy** letters are in active use in the org, the org expands and prospers. (LRH ED 205 INT)

**POLICY LETTER**, see HUBBARD COMMUNICATIONS OFFICE POLICY LETTER.

**POLICY-MAKING**, the act of envisioning the already established goals and purposes

of a business and formulating workable rules, procedures and methods of operation to attain them now and in the future.

**POLICY MANUAL**, see MANUAL, POLICY.

**POLICY ONE**, see ORG POLICY NUMBER ONE.

**POLITICIAN**, someone who handles people. Even the word means "people." (HCO PL 11 May 71 II)

**POLITICS**, the study of ideal social organization not, as is so often supposed, the art of staying in office. It is more the total complex of relations between men in society. This also includes the people taking part-monarchy, aristocracy, democracy, socialism, liberalism, conservatism, etc. (B&C, P. 16)

**POOL**, an agreement to eliminate competition between several companies by agreeing to such things as price control, limited production or setting up different territories for each to sell their products in.

**POOL, OUTPUT**, an agreement between several companies, usually engaged in manufacturing the same or similar products, to limit the amount of a product manufactured and establish how much each will be allowed to produce.

**POOL, PATENT**, a compact among several organizations to share the use of patents, sometimes directed to having monopoly of a product and restricting further competition.

**POOL, PRICE AND PROFIT**, an agreement between several companies to set the prices charged for their products and establish what percentage of the profits each company will receive.

**POOL, TERRITORIAL**, an agreement between several companies to establish separate and exclusive territories where each will market their goods.

**POPULATION SURVEY**, a **population survey** is very simple to do. All you are trying to find out is what the public wants and considers valuable. (BPL 25 Jan 72R)

**PORT**, 1. (a) a town having a harbor for ships (b) the harbor or waterfront district of a city (c) a place of anchorage or shelter. (FO 3396) 2. the left-hand side of a ship looking forward toward the bow, opposite to starboard. (FO 2674)

Port (Side) (Def. 2)

Port (Def. 1)

**PORT CAPTAIN**, 1. the Port Captain and his division are responsible for the PR area control of ports which the ship frequents or which she plans to visit. His is a ship's Division V1 activity. (FO 3396) 2. a division -Division 6-was developed which contains the Ship's Representative and PR terminals external and internal. This division is headed by the Port Captain. (FO 3392) 3. the original reason for the creation of the post of Port Captain is to permit the Captain to attend to ship duties and to unburden him from the strain of maintaining as well full port relations. When the ship is in **port, the Port Captain** is in effect the Captain so far as official calls, port authorities, social duties, visitors, crew lists, port flaps and other matters dealing with shore relations are concerned. (FO 3392) 4. in charge of Div VII (Flag Contact Division) (FO 2674) 5. Div 6 often makes itself unpopular with senior execs or the Captain by saddling them personally with so much PRO parties, calls and personal appearances that senior execs can't get their job done. The right way is for Div 6 to have its own **Port Captain** or "Company Director" who is really the social captain or social director. (FO 2171)

**PORT CAPTAIN'S OFFICE**, 1. Division Six of Flagship Org. (OODs 11 Oct 73) 2.

Port Captain is the office concerned with public contacts and public relations, ashore and aboard. (FO 2796-13) 3. works very hard to keep the shore in ever better condition, with the target of not just safe ports, but of winning countries. (FO 2796-14) 4. is responsible for safe ports for the ship. By standard actions, it protects the ship so that on board business can occur. (FO 3121)

**PORTFOLIO**, a list of all the stocks, bonds, securities, etc., held by an individual investor, bank, investment organization, etc., the composite holdings themselves.

**PORTMANTEAU**, 1. portmanteau-originally a stiff leather bag divided into sections. **Portmanteau** word-a word made up from combination of two words of similar form and meaning, e.g. smog-smoke and fog. (FO 2519) 2. to jam two or three missions into one. (7007C15 SO) 3. it means putting everything in the same bag, portmanteauing mission orders, whereby an organizing mission is also made into an operating mission. (7007C15 SO)

**PORT READINESS**, port readiness consists of the ship being made useful in the port, her boats, properly equipped, in the water for use and her ports, within reason, open and adequate facilities available. (BO 125, 7 Aug 67)

**PORT WATCH**, see TWO WATCH SYSTEM.

**PORT WRITE-UPS**, a considerable amount of the expertise which makes a port operation a success can be retained for future use of the same and other ships provided the know-how obtained on the first visit is written down. Immediately after a departure from a port, the following people particularly are required to make complete write-ups on the port and forward to Supercargo or Ship's Rep for filing in the port folder. They are Supercargo or Ship's Rep, Chief Engineer, Transport I/C and Communicator, Purser, Dir Supply, Dir Accounts, Chief Ste-

ward, 1st Mate, Captain/ Conning Officer, MO, FPO, Hostess, PRO. Anyone else having information on the port should submit a report also. Information contained in these reports should be tabulated and very briefly stated, but should contain every piece of information of note. Examples: price list of chandler, addresses, pilotage dangers, techniques for handling specific terminals. (FO 2068)

**POSH OFFICER**, officer appointed to inspect and enforce a clean ship and E/R. He is located in the Port Captain's Office. He also sets up for events and sees to crew appearance and dress and cleanliness. (ED 240-7 Flag)

**POSITION**, 1. a place or location. It is social standing or status; rank. It is a post of employment; job. (HCO PL 29 Oct 71 II) 2. a section of a comstation. A slot or box or other receptacle for a communication. There are seven **positions** in every comstation: income, outgo, unack, uncomp, musack, muscomp, and file. (HTLTAE, p. 122)

Position (Def. 1)

**POSITION**, in any business it is the name of the particular job one holds which has its own distinguishing duties, responsibilities and products in relation to the other jobs in that business; post title; post; job.

**POSITION GUIDE**, chiefly a US term for a job description or hat.

**POSITIONING**, old advertising tech is worn out. So in the '70s they have a new tech called **positioning**. "This means putting a subject (like shaving cream) into a relative position with other products. People only remember, they say, by relating one thing to another." "A position is where you put a product in somebody's life or mind and in relation to other products." (ED 179 USB)

**POSITIVE CASH FLOW**, the desirable situation of more money inflowing to a person, business, etc., than is being outflowed. The reverse is called a negative cash flow.

**POSITIVE CONTROL**, consists entirely of starting, changing and stopping. There are no other factors in **positive control**. If one can start something, change its position in space or existence in time and stop it, all at will, he can be said to **control** it, whatever it may be. (POW, p. 43)

**POSITIVE POSTULATES**, from the viewpoint of positive postulates there is no negative aspect. You just skip the whole category of negativism. This has something to do with the granting of beingness. If you can conceive of a postulate that doesn't also conceive any negative then you know what I'm talking about when I talk about a positive postulate. It's not only that there is no negative given attention to but it does not assume that any negative is possible. It doesn't pay any attention to negatives. It isn't in the positive-negative to the degree that there is a dichotomy. It just is itself. Your determination or intention that somebody be a good, effective staff member is of course a positive postulate. It will be ineffective to the degree that you doubt it. (ESTO 6, 7203CO3 SO II)

**POST**, 1. a **post** or terminal is an assigned area of responsibility and action which is supervised in part by an executive. (HCO PL 28 Jul 71) 2. a position from which a terminal operates in an org, where one knows that somebody is at. The one holding it is the

stable terminal. (FO 2200) 3. a post in a Scn organization isn't a job. It's a trust and a crusade. (HCOB 21 Sept 58) 4. a place where there is a communicator running one or more comstations. (HTLTAE, p. 122)

**POST BOARD**, there are really three forms of org boards. There is the functioning org board -- the org board of functions, and then there's the org board of posts, and then there's the org board of complements. Your second form of your board is a post board, that is to say the posts of the org expressed as posts. They don't have any name on them. Now that's a **post board** and it may have holes underneath these names to label something into but that is just the posts. (ESTO 8, 7203CO4 SOII)

**POSTED**, posted does not mean "pinned on a bulletin board." It means "with the persons who hold the post named on each post." It goes without saying that the org board is visibly displayed and known. (OODs 28 Oct 70)

**POSTED FROM THE TOP DOWN**, in 1967 I found that an organization must always be posted from the top down. This means it cannot be posted with gaps between the top or lower levels on the org board. The org, of course, must always have a top and there must not be a gap between the top and the next lower post or any gaps on the way down. Example: an org with a CO or ED, no HAS but only a Master at Arms or Ethics Officer in the HCO Division will not function but disintegrate. (HCO PL 9 May 74)

**POSTED ORGANIZING BOARD**, the main failure in putting names on an **org board** is that people take the easy way out and try to put a different person's name on each title. This gives you a 100 person division "absolutely vital" while the production is about five man! You take the names you have now in the division and post those to cover all the functions and titles. You post

from the top down. You never post from bottom up, and you never leave a gap between persons on lower posts and higher posts. Either of these faults will raise hell in the divisions functioning and are grave faults. Having done this you now have a **posted org board**. (HCO PL 6 Apr 72)

**POST HAT**, 1. **hat** in which the person's hat write-up by outgoing persons, policy letters of the post and the data about the post were kept. (LRH ED 83 INT) 2. (1) complete write-up of post inside cover of hat, (2) any bulletins dealing with that post arranged chronologically, (3) all See'l EDs about that post arranged numerically, (4) information about any posts that come under that post. You may have more than one post hat. (SEC ED 58, 27 Jan 59)

**POSTING**, 1. the transfer of transactional data from the book or original entry to the book of final entry which usually means from a journal to the accounts recorded in a ledger. 2. one's position, job or post in a business.

**POSTING NOTICES**, each aide is provided with a pack of forms. These are called CIC posting notices. While doing his traffic the Aide notes on a form (one datum = one form) the following types of info observed on his lines: (1) good (blue), (2) odd (red), (3) bad (red). Any good bit is written in blue ball point on the posting notice. Any odd bit (that he can't dig or doesn't make sense) is written on a posting notice in red ball point. Any outness found is written on a posting notice in red ball point. All these posting notices are routed to CIC posting. As they arrive in CIC the Admin Unit (a) staples or pins them on the board of their continental area and (b) puts a pin of matching color in the table map at that geographical location. (FO 2392)

**POST ORG BOARD**, look over your post and you'll see you are running in it, alone, a little org. Any post has its admin, its prepa-

ratory steps, its address and identity files, its plans of procedure, its own tech. There are a lot of these. A post is really a small org itself. So this is the point we extend the personal org board over into the post org board. He can then be budgeted into the section, the department, the division and the org. (OODs 31 Jan 71)

**POST ROUTINE CHECKLIST**, each person in the Sea Org is to make a list of the actions he/she takes daily on post in a checklist form. This should help stabilize posts. The list does not indicate how the action is taken but simply that it is taken and should be continued. (FO 2043)

**POSTULATE**, n. a self-created truth would be simply the consideration generated by self. Well, we just borrow the word which is in seldom use in the English language, we call that postulate. And we mean by postulate, self-created truth. He posts something. He puts something up and that's what a **postulate** is. (HPC A6-4, 5608C-) -v. in Scn the word **postulate** means to cause a thinkingness or consideration. It is a specially applied word and is defined as causative thinkingness. (FOT, p. 71)

**POSTULATE CHECKS**, 1. the system of promoting a potential customer's check against his "postulate" that some time in the near future the check will be good. And then treating this postulate check as real and valid income. It presents a false picture of the actual scene. The postulate check system is admitted nowhere in policy as an allowable procedure. Nowhere. You concentrate on real *income*; not on postulates. (SO ED 114 INT) 2. a check written against non-existent or inadequate bank balance. A postulate check is so named because it is written on the postulate that the person will subsequently be able to obtain the money to cover. It amounts to nothing more than a promise to pay. It is not money. A postulate check may be in the form of a counter check

or it may be a regular check made on the person's own check forms. (CO 1 US, 22 May 71)

**POTENTIAL**, **potential** can be ready money or power or even strength. (HCO PL 9 Nov 68)

**POTENTIAL EARNINGS**, the amount of earnings one has a possibility of making depending on how much work one accomplishes (especially in a payment-by-results or commission system), how much work is available to one, the course of action one takes to secure earnings, etc.

**POTENTIAL TROUBLE SOURCE**, 1. the PTS guy is fairly obvious. He's here, he's way up today and he's way down tomorrow and he gets a beautiful session and then he gets terribly ill. That's the history of his life. If you look into his folder, you will look at a folder summary and you will see that every two or three sessions is a repair. He can't stay on a program. He goes a little distance up the Grade Chart then has to be patched up. It looks like Coney Island-hence roller-coaster. (ESTO 3, 7203CO2 SO 1) 2. the main cause of being a **potential trouble source** is being connected with persons (such as marital or familial ties) of known antagonism to Sen. (OODs 4 Jun 71) 3. those who are connected with the destructively anti-social outside the org. (HCO PL 30 Aug 70) 4. the mechanism of PTS is environmental menace that keeps something continually keyed in. This can be a constant recurring somatic or continual, recurring pressure or a mass. The menace in the environment is not imaginary in such extreme cases. The action can be taken to key it out. But if the environmental menace is actual and persists it will just key in again. This gives recurring pressure unrelieved by usual processing. (HCOB 5 Dec 68) *Abbr.* PTS.

**POWER**, 1. **power** is being able to do what one is doing when one is doing it. (HCO PL

3 Apr 72) 2. a person who is hatted can control his post. If he can control his post he can hold his position in space-in short, his location. And this is **power**. When a person is uncertain, he cannot control his position. He feels weak. He goes slow. (HCO PL 23 Jul 72) 3. law: the power of a thetan stems from his ability to hold a position in space. This is quite true. In *Scientology 8-80* the base of the motor is discussed. It holds two terminals in fixed positions. Because they are so fixed, **power** can be generated. If a thetan can hold a position or location in space he can generate **power**. If he cannot, he cannot generate power and will be weak. (HCO PL 29 Jul 71) 4. power is proportional to the speed of particle flow external and internal in an organization. (FO 747) 5. the rapidity of particle flow alone determines **power**. (HCO PL 16 Apr 65RA III) 6. power process(es) (LRH ED 103 INT)

**POWER BADGES**, all PCs being audited on power processes are to wear **power badges** as described below. This **badge** consists of a 3" x 2" white card with the lettering neatly printed on it in black, preferably sheathed in plastic. It is to be issued to the PC and pinned noticeably on a lapel, breast pocket or similar place by PC administrator at the commencement of his power processing cycle and collected back when he completes. Text of **badge**: I am on power processing. Do not ask me any questions about my case, the processes or my auditing. (BPL 6 Apr 71)

**POWER CHANGE**, 1. the formula of the **power change** condition is: when taking over a new post change nothing until you are thoroughly familiar with your new zone of **power**. (OODs 5 Apr 70) 2. there are only two circumstances which require replacement, the very successful one or the very unsuccessful one. What a song it is to inherit a successful pair of boots, there is nothing to it, just step in the boots and don't bother to walk. If it was in a normal state of operation,

which it normally would have been in for anybody to have been promoted out of it, you just don't change anything. So anybody wants anything signed that your predecessor didn't sign, don't sign it. Keep your eyes open, learn the ropes and depending on how big the organization is, after a certain time, why, see how it is running and run it as normal operating condition if it's not in anything but a normal operating condition. Go through the exact same routine of every day that your predecessor went through, sign nothing that he wouldn't sign, don't change a single order, look through the papers that had been issued at that period of time-these are the orders that are extant, and get as busy as the devil just enforcing those orders and your operation will increase and increase. Now the fellow who walks into the boots of somebody who has left in disgrace had better apply the state of emergency formula to it, which is immediately promote. (HCO PL 23 Sept 67) 3. a state of **power change** is where you have a company running all right, let us say, but the general manager has been hired by some other company because he has such a successful record, and his job is taken over. (SH Spec 67, 6505C25)

**POWER CHANGE VIOLATION FORMULA**, to all those who had a **power change**, we must apply the **power change violation formula**: (1) observe, question, and draw up a list of what was previously successful in your area or zone of control. (2) observe and draw up a list of all those things that were unsuccessful in your area in the past. (3) get the successful action in. (4) throw the unsuccessful action out. (5) knock off frantically trying to cope or defend. (6) sensibly get back in a working structure. (OODs 4 Apr 70)

**POWER FORMULA**, (1) the first, law of a condition of Power is don't disconnect. You can't just deny your connections, what you have got to do is take ownership and responsibility for your connections. (2) the first

thing you have got to do is make a record of all of its lines. And that is the only way you will ever be able to disconnect. So on a condition of **Power** the first thing you have to do is write up your whole post. You have made it possible for the next fellow in to assume the state of **power** change. If you don't write up your whole post you are going to be stuck with a piece of that post since time immemorial and a year or so later somebody will still be coming to you asking you about that post which you occupied. (3) the responsibility is write the thing up and get it into the hands of the guy who is going to take care of it. (4) do all you can to make the post occupiable. (HCO PL 23 Sept 67)

**POWER OF ATTORNEY**, a written document which gives one person the legal right to act on behalf of another. *Abbr. POA.*

**POWER OF SOURCE**, Ron's new record album, the **Power of Source**, is the first step in reaching the broader public. The pieces on the album, played by the *Apollo Stars*, are all played in the new sound-Star Sound. (FBDL 420R)

**POWER PROCESSES**, there are six **power processes**. Use of these processes is restricted to Class VII's. (HCO PL 14 Jun 65)

**POWER PROCESS STAFF**, mimeo distribution meaning review technical personnel in the Qualifications Division only. (HCO PL 7 May 65)

**PRAC BUREAUX**, 1. **PR Area Control Bureaux**. The **PRAC Bureaux** aboard Flag are now known as the Office of Public Affairs. (FO 3280-6) 2. manages two different activities. (1) **PRAC** shore units. (2) **PRAC** service orgs. The shore units are entirely oriented towards creation of **PR area control**. Service orgs under **PRAC** management do not only create and enhance **PR area control** but also deliver services to publics. (FO 3279-5)

**PRAC SERVICE ORGS**, see PRAC BUREAUX.

**PRAC SHORE UNITS**, see PRAC, BUREAUX.

**PRACTICAL**, **practical** goes through the simple motions. Theory covers why one goes through the motions. (HCO PL 24 Sept 64)

**PRACTICAL COACHING**, **coaching** on drills in practical. (HCO PL 4 Oct 64)

**PRACTICAL EXAMINER**, ensures students can apply their theory in a **practical** manner. (HCO PL 15 May 63)

**PRACTICAL INSTRUCTOR**, assists the **practical** supervisor, handles all **practical** administration and acts as auditing supervisor. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**PRACTICAL SECTION**, (training courses) as it has recently been found that theory is more easily confronted than doingness, the **practical section** is created to care for this fact and to make the student confront and do accurate doingness. This section may not then become a second theory section where one studies texts. In the practical section the student only does. Drills and practical auditing presence are the whole concentration of this section. Any study for it is instantly translated into doingness. (HCO PL 14 May 62)

**PRACTICAL SUPERVISOR**, 1. the person in charge of the **practical** section is called the **practical supervisor**. This person supervises all drills being done by teams of students and gives examinations in another capacity as a **practical** examiner. (HCO PL 14 May 62) 2. handles all **practical** instruction, acts as auditing **supervisor**. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**PRACTICE, MISSION**, the practice mission orders are written expressly for mission school training. They should be done exactly

like real missions and all standard mission briefing and firinz actions are to be followed including the use of routing sheets and attestations in Qual. (FO 2508)

**PR DUTY OFFICER**, ships are by experience visited at all times of the day and night, and since specific PR Department terminals are likely to be asked for, this has the proven result of these terminals either giving up the idea of studying, or of being continually hauled out of study, or of shore terminals being repulsed or left unattended, and none of these results are good. Therefore, the PR Duty Officer is established as a Department 4 FSO (or Ship's Div VI) action. The hat of PR Duty Officer rotates amongst all Dept 4 personnel, and each person stands one night as Duty Officer. The function of **Duty Officer** is to handle anything he can which comes up for the department. (FO 2864)

**PRE-AUDITING EXAMINATION**, there are two examinations on the Dn Course. The **preauditing examination** is done after the student has completed the theory and practical drill sections of the course. The examination is standard and has been written up and issued to all Qualifications Divisions in orgs. It must be passed 100% before the student is permitted to audit. (HCO PL 5 May 69 II) [The reference HCO PL was cancelled by HCO PL 29 Jul 72 11, *Fast Flow in Training*.]

**PRECLEAR**, 1. the church member being audited. (BPL 24 Sept 73RA XIII) 2. person not yet cleared. (HCO PL 23 May 69) 3. preclears are persons who have been processed at any organization office or in the field. Anyone who has been processed is therefore classified in the registrar files as preclear. (HCO PL 7 Jan 64) 4. one who is discovering things about himself and who is becoming clearer. (HCO PL 21 Aug 63) *Abbr.* PC.

**PRECLEAR ROUTE**, the preclear progresses up the levels from Grade I to Grade VI or above. He has no formal training, only enough specified education from his auditor to enable him to receive and benefit from the processes of any particular level. (HCO PL 5 May 64)

**PRE-CODED QUESTION**, a survey question which gives several answers with boxes next to them to check off the correct answer. Surveys employing such questions are easy to tabulate.

**PREDICTION**, this is the action of weighing all consequences of the projected action; particularly the consequences to other areas of operation; determining the feasibility of the plan for actual execution; final estimation of risks plus costs versus gain. On this basis a recommendation is made or the project is undersigned as-is. (FO 2261)

**PREFERRED STOCK**, see STOCK, PREFERRED.

**PRE-FILE**, if you have an ABCD set of stationery boxes and park them on top of the files stuff coming in to be filed, first filed into these ABCD categories and then re-filed into the drawers which are now open will save you a lot of clutter and running back and forth. In other words these ABCD boxes are a pre-file. (HCOB 6 Apr 57)

**PREMIUM**, 1. a sum of money or bonus paid in addition to a regular price, such as a premium paid to a craftsman for excellent work. 2. the amount paid, sometimes in addition to the interest, to obtain a loan. 3. the amount paid, often in installments, for an insurance policy. 4. in merchandising, something offered free or at a greatly reduced price as an inducement to buy something else in the same line at the regular price. -5. the amount paid for an option, contract or franchise. 6. the amount by which a stock or bond may sell above its par or face value. 7. a charge made when a stock is borrowed to make delivery on a short sale.

**PRE-OT**, by AO PC or **pre-OT** is meant a VA or above. (BPL 12 Sept 72R)

**PREPARATION AND PLANNING DIVISION**, (Ship Org Board) Division 2. Assists the Supercargo to plan remunerative activities for the entire ship or flotilla which coordinate activities of the organization. (FO 1109)

**PREPARATION DEPARTMENT**, (Ship Org Board) Div 2 Dept 5. **Preparation Department** is actually the compilation **department**, catalogues, books, etc. It contains the library charts, ship's plans and training functions. (FO 976)

**PREPARATIONS BRANCH**, (Flag Bureau Org Board) the Org Bureau is in the business of getting the people and assembling the training materials. To do this it must have a **Preparations Branch to prepare** needed materials that may be missing. (CBO 4)

**PREPARATIONS CHIEF**, **Preparations Chief** of Department 5 has all specifications, conditions requirements, operational estimates, crew training and drilling, and puts together ideas from Department 4 and trains personnel to carry them out. (FO 1109)

**PREPARED LISTS**, many years ago I developed a system called **prepared lists**. These isolated the trouble the PC was having in auditing without taxing anyone's imagination and sending the auditor into a figure-figure on the PC. These prepared lists were assessed on an E-meter. One took up the biggest read first and then cleaned up all other reads. Time has gone on. The system of prepared lists has been expanded to include not only PCs but students and staff. It may have gone overlooked that such lists now include anything that could happen to a PC or student. In other words, **prepared lists** have become very thorough. (LRH ED 257 INT)

**PREPARED QUESTION**, type of interview. If all else fails, reporters sometimes make up lists of **questions** and send them in writing to news sources with a polite but urgent request for reply. (BPL 10 Jan 73R)

**PREPAYMENT**, 1. a **payment** made well in advance of service delivery, whether in the mail or over the counter. **Prepayments** replaces the term "advance payments" for such payments, as the former was a misnomer. (HCO PL 15 Sept 71- II) 2. **prepayments** replaces the term advance payments. (HCO PL 15 Jan 72RA) 3. payment well in advance-not for service to be taken "tomorrow" or "in a few days." (BPL 29 May 70R)

**PRE-SCHEDULING BOARD**, Tech Services keeps up a **scheduling board** that has on it the name of every PC and student fully paid for a service that has not yet taken that service no matter how far into the future they are advance scheduled. (BPL 9 Jun 73R II)

**PRESENCE**, the ability to get and hold attention and keep it by continuing to cause an effect. (FO 1851)

**PRESENT TIME ORDERS ONLY**, a type of dev-t where basic programs or standing **orders** or policy go out by not being enforced. **Present time orders only** are being forwarded or handled. This eventually balls up in a big wad and an organization vanishes. Primary targets go out. (HCO PL 27 Jan 69)

**PRESENT VALUE**, the value in present time attached to a future incoming cash flow. The present value is calculated as less than the amount of the future incoming cash flow due to money in hand being less risky and more usable.

**PRESIDENT**, the chief executive of an organization, branch of government, university or board of trustees. In business, the President heads the organization in directing policies originated by a board of directors

and is a principal representative for the company in important dealings.

**PRE-SORTING**, having a series of baskets, one for each letter of the alphabet, into which all particles are sorted prior to either filing the particle as in central files (CF) or prior to making an address plate, changing an address plate or tabbing an address plate as in Address. In this fashion all particles can more easily be filed or handled. (HCO PL 5 Feb 71 VI)

**PRESS AGENT**, an individual who handles particular communication lines of a company regarding publicity or notice for its products, services, personalities, events and operations and who deals directly with the press, answering its questions and holding or arranging press interviews and conferences.

**PRESS BOOK**, a professional PR who has a "client" always at once constructs a display **book**, and he keeps it added to and up-to-date. The **book** is used to get interviews, bookings, press. Usually it is a loose-leaf big fancy clipping scrapbook. Such a **book** begins with an acceptable story of the group creation which is factual and contains itself PR. There follows press cuttings including photos as in the press. Such press sections go on and on in the **book** as new press occurs so other data is sandwiched in between expanses of press. Radio and TV appointments or plays are noted or clipped from papers and pasted in. It is of tremendous use and gets bookings and interviews with speed. That it is fat is a big recommendation in itself. No professional PR or booking agent or advance man is ever without a display **book** telling of and selling his client. (HCO PL 18 Mar 74)

**PRESS CLIPPINGS**, clippings or cut-outs of published material as it appears in newspapers, magazines or other media regarding a company, its products and/or services, special events, personalities, etc.

**PRESS CONFERENCE**, a meeting between a press agent or other qualified company representative and members of the news media to give them information the company wants them to have and to answer any questions that might arise.

**PRESS KIT**, a kit containing an assortment of feature stories, photographs, advertising examples and background material on a company, its products and services, prepared for the press' use.

**PRESS WORK**, this is the actual printing. (FO 3574)

Press Work A. Feeding of Paper B. Printing  
C. Stacking of Printed Sheets

**PRETENSE**, 1. a false reason or excuse. A mere show without reality. (HCO PL 3 May 72) 2. a claim, profession or allegation which is falsely made or assumed or stated. (HCOB 11 May 65)

**PREVIOUS QUESTION**, in parliamentary procedure, refers to a motion being made that the previous question be put to a vote which, if accepted by the chairman, seconded and carried, causes it to come about immediately.

**PRICE**, the amount of money that something costs at a specific time in a specific market; the cost to the buyer.

**PRICE AND PROFIT POOL**, see POOL, PRICE AND PROFIT.

**PRICE, CEILING**, the maximum price that can be put on something, usually imposed by government regulation in times of war or to ward off severe inflation.

**PRICE CONTROLS**, the fixing of prices by the government or by private companies, individually or in combination with others, so that market prices change very little or not at all.

**PRICE CUTTING**, lowering the price of a product or service below what is recognized as normal in order to match competitors' prices or to capture a larger share of the consumers market.

**PRICE DISCRETION**, the right granted to a salesman to alter the price of a product in order to close a sale.

**PRICE-EARNINGS RATIO**, the price of a share divided by its earnings for a twelve-month period.

**PRICE ELASTICITY**, a decrease in sales accompanying a price increase to a product.

**PRICE ENGRAM**, it's an awful good thing I found the **engram** in organizations before we released the new pattern of orgs and began to expand. Had I not found it we would have expanded to insolvency! A few suppressive persons with their "everybody" and "they" have here and there over the years set up a **price engram** ridge between orgs and public. "You charge too much!" "Money." "Prices too high!" combined with "everybody thinks" and other generalities have made executives believe that the public won't pay. Not detecting the true reason for this attack, the executive swallowed it whole. The true reason is a suppressive reason-if we don't charge we will vanish. A guilt complex (I won't use a Scn term on anything so low) arose about money. (HCO PL 27 Apr 65 II)

**PRICE, EQUILIBRIUM**, the selling price of a product which creates enough demand to use up exactly what is produced.

**PRICE FIXING**, 1. the freezing of prices by a government to control inflation or deflation. 2. the practice of manufacturers who produce the same product setting

non-competitive prices. 3. putting a price on something.

**PRICE LEADERSHIP**, the situation where one company in a group of competing companies leads the way with price increases and the others follow suit.

**PRICE LINES**, in retailing, the determining of certain prices as unconditional ones at which specific lines of merchandise will be sold.

**PRICE LIST**, see PRICE SCALE.

**PRICE MAKING**, see PRICING.

**PRICE, MARKET**, 1. selling price of a product or service accounted for by total costs involved plus the influence of supply and demand. 2. in investments, it is usually considered to be the last reported price for which the stock or bond sold.

**PRICE, NOMINAL**, 1. a token price which is not the actual **price** for which a product or a service is available. 2. a minimal price in comparison to the real value of something.

**PRICE PLATEAU**, the price level for a certain product beyond which the public will not pay.

**PRICE, REDEMPTION**, 1. the price at which a bond may be turned in before the maturity date, subject to the discretion of the issuing company. 2. price a company must pay to call in particular types of preferred stock.

**PRICE RING**, a group of manufacturers marketing the same product who agree to charge the same price and not compete on prices.

**PRICES AND INCOMES POLICY**, the intervention by a government to control the economy by placing restraints on prices and salaries in an effort to curtail inflation.

**PRICE SCALE**, a standardization of piece rates, usually reached through collective bargaining, accepted for use by companies

making similar products. Also called price list.

**PRICE SENSITIVE**, term applied to a product or service if the consumer demand drops suddenly when its price is raised.

**PRICE SYSTEM**, 1. an economy which bases the worth of goods and services on monetary values. 2. a comprehensive system of establishing selling price to the trade, especially one which the leaders of an industry advocate.

**PRICE WAR**, a situation brought about when one seller lowers his price severely so that competitors are forced to match or beat that price.

**PRICING**, establishing the value in terms of money of a product or service offered for sale. Also called price making.

**PRICING, COST PLUS**, the practice of establishing the selling price of a product or service by adding a profit sum to costs such as cost plus either a fixed fee or percentage-of-cost fee.

**PRICING, DOUBLE**, a system of putting two prices on consumer goods and selling the goods at the lower price as an inducement to consumers, thus one often sees goods marked with the regular price and a featured lower price called "our price" referring to the retailer.

**PRICING FORMULA**, **formula** used in the **pricing** of printed matter from Dissem and Mimeo on Flag. The **formula** is basically "costs times five equal the **price**." (FSO 780)

**PRICING METHODS**, there are a number of pricing methods. Most common is to tack on a profit sum to the item's cost before selling it. Other methods include surveying the market to see what consumers will pay or pricing goods according to prices set by rival companies.

**PRICING, PENETRATION**, the method of introducing a new product at a low selling price to capture quickly as large a part of the market as possible.

**PRICING, PRODUCT ANALYSIS**, an evaluation made to establish the selling price for a product or service based on realistic production costs, extent of value to the consumer or user and optimum prices to attract the largest possible share of the market.

**PRICING, UNIT**, establishing and displaying the price of something per unit such as cost per pound or per ounce so that consumers can easily compare the price to that of rival products.

**PRIMARY DISTRIBUTION**, the original offering or sale of an organization's stock.

**PRIMARY EVALUATION**, the **evaluation** and the MOs would be at aides level-staff aides. General observation and getting it executed is the business of Operations. In other words operating and bringing into effect the planning is the business of Operations. That is the division of labor. This does not materially change the Ops Bureau but it relieves it from what you might call **primary evaluation**. Now it doesn't relieve it of **evaluation**. You'll suddenly find out that it is very often necessary to **evaluate** something that went on three years ago. What did they do? All right, let's do it. That would be a staff level or a **primary evaluation**. But your secondary evaluation or your operating evaluation (evaluating the org against the MOs that are being executed and missi-onaire who is in the org) is against the actual conduct of the mission. (7205C18 SO)

**PRIMARY RUNDOWN END PHENOMENA**, there is an **end phenomena** of an honestly done **Primary Rundown**. A person can read comfortably and instantly translate word data into concepts and so can study accurately and swiftly and can then easily do the actions. (OODs 25 May 72)

**PRIMARY TARGET**, 1. the organizational, personnel **communication type targets**. These have to be kept in. These are the terminals and route and **havingness and org board type targets**. Example: "To put someone in charge of organizing it and have him set remaining **primary targets**." Or "to re-establish the original communication system which has dropped out." (HCO PL 24 Jan 69) 2. there is a group of "understood" targets which if overlooked, brings about inaction. The first of these is somebody there, then worthwhile purpose, then somebody taking responsibility for the area or action, then form of organization planned well, then form of organization held or re-established, then organization operating. If we have the above "understood" targets we can go on but if these drop out or are not substituted for then no matter what targets are set thereafter they will go rickety or fail entirely. In the above there may be a continual necessity to reassert one or more of the "understood" targets while trying to get further targets going. (HCO PL 16 Jan 69) *Abbr.* PT.

**PRIME COSTS**, see COSTS, DIRECT.

**PRIME RATE**, the lowest interest rate charged by banks to commercial enterprises with strong credit ratings.

**PRINCIPAL**, 1. the amount of money on which one is currently paying or receiving interest. 2. the face value of a note, stock, bond, etc. 3. a person who hires or authorizes an agent to act on his behalf. 4. that person responsible for fulfilling an obligation such as payment of a debt as distinguished from the person who endorses, cosigns., or acts as surety on it.

**PRINCIPAL PARTICLE**, meaning the most important one for that org. (HCO PL 25 Jul 72)

**PRINTER LIAISON**, the function of the **Printer Liaison** is found in Dissem Div, Department 5. on the modern org board. When an org uses an outside printing firm to

print a magazine, flyer, etc., the data concerning the function of **Printer Liaison** should be known and used. A good Printer Liaison, by comparing prices and being inquisitive, can actually reduce **printing** prices through increasing demand for his work and introducing competitiveness (without third partying) amongst **printers**. (BPL 21 Dec 69) [The reference BPL was cancelled by BPL 29 December 69 Reissued 3 August 75 as BPL cancelled 9 September 1975, *Guide to the Function of Printer Liaison Cancelled.*]

**PRINT-THROUGH**, the action of one layer of recorded tape, by means of its own magnetic field, **printing** the sound onto the layer of tape below and the layer above. (BPL 16 Sept 71)

**PRIORITY MISSIONS**, those assigned to accomplish major operational targets or to pilot new operational functions into which the Sea Org can expand. Or are concerning the current targets of Scn as a whole, such as human rights and related areas. (FO 2132)

**PRIVATE CORPORATION**, see CORPORATION, PRIVATE.

**PRIVATE ENTERPRISE**, a privately owned business venture or operation not government controlled and usually operating in a free enterprise environment.

**PRO AREA CONTROL**, 1. **PRO (Public Relations Office) Area** (port and town and country) **control** (regulate, start change and stop from cause point) is the basic action of the Port Captain's Office (or Div 6 in an org). Customs, immigration, dockmasters, police, officials, town officials, inhabitants, country officials, country inhabitants, and the lines and activities of all these as they affect the ship or org are the subject of **PRO Area Control**. The tech of how this is done is found in the book *Effective Public Relations*, the PR Series Policy Letters, FOs and FSOs. It is a technology. (FO 3094) 2. keeping the area handled so the org is well

thought of no matter how hard this is to do where there is an active enemy or a muddled up field or a hostile press. (LRH ED 49 INT)

**PROBATIONARY PERIOD**, 1. a trial or test period during which a new employee is allowed to work but is closely monitored to see if he is satisfactory. Usually a person is only a provisional employee during a probationary period and is subject to immediate dismissal if found unsatisfactory or becomes a permanent employee if found satisfactory. 2. any trial or test period during which a new product, process, machine, etc., is tried out often on a limited basis and monitored closely to determine whether to utilize it or discontinue its use.

**PROBATIONER STAFF MEMBER**, a person who is being employed because we are shorthanded or a person whom we are checking out before putting on as a part-time or temporary **staff member**. This individual can be hired or fired by the department head with the authority of the organization secretary. (SEC ED 75, 2 Feb 59)

**PROBLEM**, a **problem** is intention counter-intention. It can also be policy counter-policy. (7012CO4 SO)

**PROCEDURALIZE**, the establishment and introduction of procedures or ways of accomplishing something so that a given result or product can be obtained over and over without variation in quality.

**PROCEDURE MANUAL**, see MANUAL, PROCEDURE.

**PROCEEDS**, the profits derived from a sale or the money obtained from a fund-raising activity; net profits.

**PROCESS**, an exact set of steps which when carried out in the order and manner specified will result in some product, subproduct or desired result.

**PROCESS CHART**, see CHART, PROCESS.

**PROCESS ENGINEER**, specialist who, using -the engineering blueprints furnished him, decides the tool and equipment needs for a job and then prepares notes and instructions for the job planner or person in charge of production operations.

**PROCESSING**, 1. consists of getting you to look at and break through all the barriers you've erected between yourself and your goals. (HCO Info Ltr 14 Apr 61) 2. the principle of making an individual look at his own existence, and improve his ability to confront what he is and where he is. (Aud 23 UK)

**PROCESSING ADMINISTRATOR**, handles the persons, communications and materials of the HGC to the end of improving and continuing the quality and business of the HGC. (HCO PL 27 Nov 59)

**PROCESSING ROUTE**, the PC route to Clear and OT. (SO ED 269 INT)

**PROCUREMENT LETTER**, a **procurement** is an originated letter by the organization, and that's all it is. It isn't an answer. An answer to it would be "not interested at all," which is a prospect letter; "I am coming in," "I'd sure like to have some training if I could ever afford it, but you know how things are." These are applicant and prospect letters and they are not **procurement** letters. A procurement letter is a letter originated by the organization in order to interest somebody in training, processing or even memberships. But specifically training and processing. (HCOB 6 Apr 57)

**PRODUCE**, v. to bring into existence, make; to bring about; cause. (HCO PL 7 Mar 72)

**PRODUCED GOODS**, goods which started out as raw materials, have undergone various processing or manufacturing and have resulted in goods ready for the consumer; consumer goods.

**PRODUCER**, that individual or group recognized as the source of a particular consumer product and who through agriculture, mining, manufacturing, etc., continues to make it available to the consumer.

**PRODUCING**, (Public Reg definition) by **producing** is meant contacting the public in volume and using the proper recommended sales techniques to get them to sign-up and route onto service. (BPL 1 Dec 72R IV)

They write up the projects and products and plan everything else of what they're going to do in order to get this thing out and then they make sure that they keep that machine running that way. The **product** officers, which are the secretaries, would be handling the products which they have to push out. (FEBC 4, 7101C18 SO III) 2. the Commanding Officer or ED has a conference and that consists of the divisional secretaries. (5) when a special project is seen to be effective or, especially, profitable, it is then put into the org lines as worked out in the "special project," bringing its own staff with it. The drill on this is done in this fashion. (1) first of all, the HCO Communicator checks the Division head on duplication of the communication -that is, questions calculated to assess if the Division Sec has read the comm and knows what it said. **PROGRAMS BUREAU**, 1. **Bureau 4B** is hereby established as the **Programs Bureau**. This **bureau** contains the FFR and A/FFRs for their areas. The **Programs Bureau** executes **programs**. Org **programs**, divisional **programs**, international **pro-**

**grams** are pushed in, debugged as necessary and gotten done from this **bureau**. The **Programs Bureau** coordinates all orders into the field. The **bureau** maintains the function of filtering of orders into the orgs and assigning priorities for **programs**. (CBO 436) 2. the **Programs Bureau** has been replaced with the Management Bureau. (FBDL 488R) 3. on Flag there is a **Programs Bureau** headed by the **Programs Aide**. Contained in this **bureau** are many **Programs Chiefs** who have specific orgs under their jurisdiction (usually by continental zones). One of their functions is to evaluate their orgs using the multiple Viewpoint Data System and make **programs** up for the orgs based on the evaluations. (All **programs** and projects come from evaluations. They are the handling part of the evaluation in the **programs** or project.) (CBO 218RB) 4. the reason we call it **Programs Bureau** is to emphasize programs, and so that in FOLOs they will not go autonomous. (7208CO2 SO) 5. the people who manage the respective zones and areas of the planet as our interests apply to them. (7208CO2 SO) 6. the former Management Bureau has become the Programs Bureau. (FBDL 191R) *Abbr.* Pgms Bu.

**PROGRAMS CHIEF**, 1. the usual actions of a Pgms Chief consist of keeping tally on targets and doing assemblies of compliances, nudging missing items and generally working from a targetted pgm to get it completed; that is to say in full final form each target, target by target so that at the end one has a completed pgm with no holes in it of any kind. Advising the status of a target or any bug in it is also a duty. Debugging a target that seems slow is a duty. Pgms Chiefs have the additional duties of getting in reports, answering reports and doing evals when aides don't provide pgms. (CBO 291) 2. the **Programs Chief** for an org or area is also responsible for the overall stats of that org, like the ED, but is also responsible for getting **programs** executed. (FO 3364) 3.

the purpose of his post is the prosperity of the continent and orgs to which he is assigned. (CBO 355)

**PROGRAMS EXECUTION BRANCH**, a **Programs Execution Branch** has now been established in Bureau 4A **Programs** Bureau under the **Programs** Aide. The **branch** is presently separated into three sections: (a) a chief that is I/C of the other two members and covering SO **Programs Execution** Officer, (b) a US **Programs Execution** Officer, (c) a non-US **Programs Execution** Officer. (FO 3506)

**PROGRAMS EXECUTION OFFICER**, the purpose of the **Programs Execution Officer** is to rapidly execute to completion org evaluations and programs that expand the org and markedly raise the org to an ideal scene. The statistic of the Programs Execution Officer is the number of org pgms completed in the field. (FO 3506)

**PROGRAMS UNIT**, (Flag Div VI) this **unit** is to look into all material of Scn. It is to compile this data into a form which can be presented to the public. There is a tenfold wealth of data on Scn which has not seen the light of day. This unit is to get it out and known. (FO 1717)

**PROGRESS BOARD**, see STUDENT PROGRESS BOARD.

**PROGRESSIVE CONSUMER**, see CONSUMER, PROGRESSIVE.

**PROGRESSIVE TAX**, income tax that is scaled to increasingly higher amounts as an individual's or company's income rises.

**PROGRESS REPORT**, a written or verbal report of how a project or matter is progressing and what has been accomplished over a particular period of time.

**PROJECT**, 1. the sequence of steps written to carry out one step of a program. Project orders often have to be written to execute a program step. These should be written but

usually do not require any approval and often are not generally issued but go to the person or persons who will accomplish that step of a program. Under the category of project would come orders, work projects, etc. These are a series of guiding steps which if followed will result in a full and successful accomplishment of the program target. (HCO PL 29 Feb 72 II) 2. the program is the big solution to a problem-the big problem is solved by a big solution called a program. The little problems inside that big solution are solved by **projects**. And inside the projects the littler-littler problems are solved by orders. (FO 2192) 3. if something requires more than two weeks to do it is a project. (HCO PL 1 May 65 II) *Abbr.* Pjt.

**PROJECT 80**, a breakthrough on basic auditing which changes organization targets. This technical advance makes many other things possible. We will designate their broad application to Central Org planning and dissemination, Project 80. Essentially what has happened is that I have found the minimum essentials of why auditing works, and have selected out the important parts for concentration. These parts are: (1) (in Scientology One and Two) the itsa line; (2) (in Scientology Two) tone arm action; (3) (in Scientology Two) directing the PC's attention to those things which bar him from release and Clear; and (4) (in Scientology Three and Four) directing the PC's attention to handling those things which bar him from OT. (HCO PL 21 Aug 63)

**PROJECT BOARD**, the LRH Communicator keeps a **project board**. Every **project** or order or directive or SEC ED issued is noted on this **board**; by routine and regular inspection personally and by dispatch the LRH Communicator sees to it that each and every order and **project** is eventually complied with or acknowledged. (HCO PL 27 Dec 65)

**PROJECT ENGINEER**, see HCO PROJECT ENGINEER.

**PROJECT FORCE MAA**, the most upstat member of the **project force** is appointed the Project Force MAA. The PF MAA musters the crew, conducts any exercises, does investigations as needed and is also a terminal for the members of the project force and acts upon request as a liaison between other project force members and crew in the Estates Section. (FO 3165)

**PROJECT FORCES**, the purpose of the project force is to increase the person's confront of MEST and his ability to complete cycles of action-thus creating an able Sea Org member. The motto of the project force is: one time-one job-one place. The project force works as a team to handle an area that needs handling under an in-charge as appointed by the head of the project force. (FO 3165) *Abbr.* PF.

**PROJECT GROUP**, see GROUP, PROJECT.

**PROJECT LEDGER**, a record of the planned and actual costs of a project with notations of any departures from the budget.

**PROJECTION**, 1. in statistics, the process of extending mathematical figures beyond the point where there is observable data. 2. any prediction of occurrences or outcomes based on extending current and past trends into the future.

**PROJECTIZED ORGANIZATION**, see ORGANIZATION, PROJECTIZED.

**PROJECT MISSION OPERATIONS**, a new post is created in Action. The title of the post is Project Mission Operations. Even when a set of orders are called mission orders, they are really Project Orders. These are such orders as a premises mission, a logistics mission, etc. They are not production missions going out to handle orgs and activities and get them producing. There are also straight Flag Project Orders. These are very dangerous to leave to the operation of an aide or executive as they forget them or are

slow on them. Such FPJOs are far better in the hands of Action. On-board missions would also be handled by **Project Mission Operations**. (CBO 345) ,

**PROJECT MISSIONS**, a work party or an assembly of materials project is commonly sent out under an I/C. The key here is that a job must be done that would overload existing terminals and so a **project** order is written to do it and MOs are then written to take steps to get it done. There are therefore two parts to a project mission. To do the work outlined and to do the mission. If one had a project order one would merely have to write MOs giving the actions necessary to get the project actions done. If one doesn't have a project one then incorporates the project into the MOs as targets. (FO 2936)

**PROJECT ORDERS**, these are such orders as a premises mission, a logistics mission, etc. They are not production missions going out to handle orgs and activities and get them producing. Even when a set of orders are called mission orders, they are really project orders. (WO 3485) *Abbr.* PJOS.

**PROJECT PLANNING OFFICER**, (Gung-Ho Group) the Project Planning Officer finds, figures out and draws and writes up all the steps of a project or program after it is agreed upon by the Executive Council. (HCO PL 2 Dec 68)

**PROJECTS 1-12**, see SAINT HILL PROJECT NOS. 1-12.

**PROMISSORY NOTE**, an unconditional written promise, signed by the maker, to pay a specified amount of money on demand or at a certain date and/or place, either to the bearer or to a designated person.

**PROMO ORDERS MANAGER**, (Pubs US) it is the job of this post to know what orgs and missions have in stock in way of LRH promo and to encourage reorders of same in adequate quantities. (SO ED 16 Pubs US)

**PROMO SCHEDULING BOARD**, 1. every Department of Promotion must have and use a **promo scheduling board**. A **promo scheduling board** is used so the cycle of action for all **promo** pieces is visible from start to finish. The **scheduling board** is large and subdivided into the following vertical columns: product, survey, idea, dummy, I/A, assembly, FP, proofs checked and print, I/A (quality check), mail, review results. A card with the product to be promoted and its mailing deadline is posted under the product column. (BPL 1 Nov 71 I) 2. a **promo scheduling board** is used by Dept 4 so it can be seen at a glance what is happening to each promo, piece and if any lagging to increase production so ETAs are met. (LRH ED 159R-1 INT)

**PROMOTER**, a person who undertakes to organize a new company or business venture and who sells the shares or securities that will obtain the capital necessary or otherwise obtains the needed financial backing.

**PROMOTION**, 1. means, to make something known and thought well of. In our activities it means to send something out that will cause people to respond either in person or by their written order or reply to the end of applying Scn service to or through the person or selling Scn commodities, all to the benefit of the person and the solvency of the org. (HCO PL 20 Nov 65R) 2. promotion is making things known. It's getting things out. It's getting one's self known. It's getting one's products out. (SH Spec 62, 6505C25) 3. promotion consists of getting names and addresses and contacting them and offering service to get them in. The more names, the more contacts, the more people. (HCO PL 15 Mar 65 I) 4. accumulation of the identities of persons. This is done by getting lists of names, by personal contact, etc., and offering those identities something they will buy, a book or a service. Dissemination and salesmanship are really promotion. (HCO PL 21 Jan 65) 5. when

routing arrangements are made or communication invited from org to public and public to org, we call it **promotion**. (HCO PL 17 Nov 64) 6. promotion is the art of offering what will be responded to. (HCO PL 7 Mar 64) 7. **promotion** consists only of what to offer and how to offer it, that will be responded to. That's the extent of it. (HCO PL 7 Mar 64) 8. by **promotion** in a Scn organization, we mean reach the public. (HCO PL 26 Aug 59) 9. poor **promotion** gives you a ratio of maybe 98% outflow and 2% inflow, i.e. 98 pieces of mail (of all kinds) mailed and 2 pieces of mail (of all kinds) received. Fair **promotion** would perhaps consist of 90% outflow and 10% inflow, meaning that for 90 pieces of material (of all kinds) mailed by the org, 10 pieces of mail (of all kinds) were received. Fantastically wonderful promotion would consist of 50% outflow, 50% inflow. A miracle would be 10% outflow and 90% inflow. No exact index or chart of this has ever been made. But the above is an educated guesstimate. The figures are given to make the following point: the better the **promotion**, the higher the inflow rises in proportion to the outflow. (HCO PL 7 Mar 64)

**PROMOTION**, 1. the advancement of a person in rank, position or status. A promotion implies giving a person added duties, responsibilities or authorities usually accompanied by an increase in wages. 2. advertising designed to increase a public's knowledge, liking or desire for a product or service.

**PROMOTION ACTIVITIES**, these two things (how he gets the book and how he is offered further service) are the whole of **promotion** activities. **Promotion** is never aimed at anything else regardless of how it is done. The ideas used in **promotion** must (a) get books into the hands of people in the public, and (b) offer such persons service, (c) offer such persons already sold lower

services, higher services. There is nothing more to it. (HCO PL 7 Apr 65 IV)

**PROMOTIONAL ALLOWANCE**, same as advertising budget.

**PROMOTIONAL ITEMS**, those items which will produce income for the organization. (FO 1409)

**PROMOTION BUREAU**, 1. the **Promotion Bureau** establishes product demand and accomplishment surveys, designs campaigns, issues **promotion** and guides the responses to **promotion** and controls the PR, public service and public sales actions of an org and guides their results into Div 2 actions and purchases. This makes a full spiral from society to public divisions to registration and oversees all such steps. (CBO 7) 2. its job is to log for compliance, enforce compliance, get data, relay data, inspect, relay inspection data on all **promotional** activities. The **Promotion Bureau** is an extension of Flag comm lines to enforce compliance and get data on all promotional activities. It is very like an LRH Comm Network, only specialized into **promotion**. It does not originate orders but implements orders. Any demanding emergency or situation is handled by implementing existing orders or policy. The **Promotion Bureau** acts solely on the authority of Flag as it is not autonomous. It contains a PR Branch, Promotion Branch, Public Services Branch, and Sales Branch. (CBO 26)

**PROMOTION, DIRECT RESPONSE**, sales promotion method that calls for a direct response from the reader or recipient as when an order blank, reply card or telephone number is incorporated in the advertising.

**PROMOTION, HARD SALES**, positive, hard-hitting and aggressive sales techniques that directly, over and over again concentrate on getting the consumer to buy the product; hard sell.

**PROMOTION, PERSONALITY**, a promotion technique employing a well known celebrity or a celebrity created by the promoters and made well known for the purpose of promoting a certain, usually household, product. Often the created personality has a gimmick costume and may be used to tour neighborhoods or supermarkets where he gives prizes to those consumers who are buying that product or can recite a jingle connected to the product, etc.

**PROMOTION PROGRAM NO. 1**, **Promotion Program No. 1** is designed to collect all addresses and data for our CF. (HCO PL 25 Jan 64)

**PROMOTION, SALES**, techniques to improve sales that are additional to direct selling and media advertising. It would include distributing free samples or coupons, store displays, demonstrations, public relations events covered by the media, sales training to increase dealers' ability to sell the product, etc.

**PROMOTIONS, CONSUMER**, promotion of a product directed at the final user or consumer. This includes free samples, coupons, discounts, store displays and demonstrations, etc.

**PROMOTION, SOFT SALES**, low-keyed, conservative, subtly persuasive promotion.

**PROMOTIONS, TRADE**, a type of sales promotion directed at wholesalers, retailers, distributors and sales persons to get them to buy and sell a product. Discounts, dealer education demonstrations, contests, etc., are all part of trade promotions.

**PROMPT NOTE**, a creditor's note or reminder informing a debtor of the date a loan or sum of money is or was due.

**PROPAGANDA**, 1. pushing out statements or ideas. (HCO PL 21 Nov 72 I) 2. the word **propaganda** means putting out slanted information to populations. (HCO PL 11 May 71 III)

**PROPAGANDA**, the systematic dissemination of a given doctrine or beliefs that puts forth strong views and often self-interests in such a manner as to proselytize.

**PROPAGANDA BY REDEFINITION OF WORDS**, a long term **propaganda** technique used by Socialists (Communists and Nazis alike) is of interest to PR practitioners. The trick is words are **redefined** to mean something else to the advantage of the propagandist. (HCO PL 5 Oct 71)

**PROPERTIES CSW ROUTING FORM**, this **routing form** is to be used for the purchase, sale, lease or rental of any real **properties** of or for a Scn or senior organization. (BPL 20 Aug 73R)

**PROPERTY**, a valuable saleable item. WO PL 4 Nov 73)

**PROPORTIONATE AMOUNT**, this is the **proportion** of the CGI that remains after deduction of certain allocations. It is allocated as follows: 45% to salary sum (to include all staff bonuses and commissions and staff taxes), 15% to promotion, 30% to disbursements, 10% to org reserves/back bills. (BPL 4 Dec 72 IIRB)

**PROPORTIONATE PAY**, the staff of the organization except for "part-time" staff is paid in units under the following system. Staff is paid 50% of the gross income less congress fees, books and tapes, of the organization. A staff member is assigned units of pay. The value of the unit varies from week to week. (HASI PL 19 Apr 57, *Proportionate Pay Plan*)

**PROPOSITION**, 1. a proposal, scheme, plan, offer, etc., put forth for the consideration of another or others; a plan of action. 2. a verbal or written statement made by a buyer or seller suggesting the conditions under which he would be willing to do business or proceed with a transaction; a business or sales proposition.

**PROPRIETORSHIP**, an unincorporated business owned by a single person; sole proprietorship.

**PRO RATA**, a sharing or distributing of expenses, profits, dividends, rebates or some item on a proportional basis or in ratio to what is deserved.

**PROSPECT**, 1. prospects are made up of names and addresses of relatives, family, friends of the person just closed and last but not least, by "**prospecting** at the close." Such names and addresses are valuable as they are a future source of business; another opportunity to close a sale and help that individual onto and up the road to total freedom. (BPL 1 Dec 72R II) 2. an "applicant" is someone who has applied for staff, personally, or in response to a mailing. A **prospect** is someone who has not applied but is a likely candidate as a staff member. (BPL 28 Apr 73) 3. any person who has mentioned even vaguely an interest in training or processing and has had neither. It does not matter how long ago such an interest was expressed, just that it was expressed. (HCOB 25 Apr 60) 4. potential buyer or customer. (SO ED 122 INT)

**PROSPECT**, a potential customer, client, applicant, candidate, etc.

**PROSPECT FILE**, 1. a prospect file is made up for each prospect by the Public Reg Administrator. The color of such a file must be of a different color to the CF files and must be bright enough to stand out on its own. The outside of the prospect files are stamped, in large, bold letters, **PROSPECT FILE** and are filed in CF by the Public Reg Administrator by alphabet when not in use. The prospect data sheets belong inside the prospect files and are used by the Public Reg for contacting prospects. (BPL 1 Dec 72R II) 2. files for public bodies set up under the Public Registrar for her use which will eventually contain all attenDecs at public events, those having tests, book buyers and those

only having bought public courses. (LRH ED 112 INT)

**PROSPECTING**, 1. a term used in marketing to designate the search for new markets, customers or possibilities to do business. 2. when a salesman closes a customer he prospects or asks the customer for the names of other persons who may want to buy the product. 3. the action of searching for obtainable deposits of minerals or natural resources.

**PROSPECT LETTER**, this is "I am coming in sometime, maybe," "I wish I could" or "I am answering your mail." We have found over a period of years that anybody who corresponds with the organization sooner or later comes in for training or processing. So this **prospect letter** is awfully broad, isn't it? (HCOB 6 Apr 57)

**PROSPECTUS**, a printed formal summary describing the scope, size and aims of a proposed business venture or company going public, and presented in such a way as to encourage investment. A prospectus offers shares for sale and describes the benefits to investors.

**PROSPERITY**, that part of the business cycle characterized by a high level of employment, a large amount of production and a high consumer demand and ability to pay.

**PROTEST PR**, outright protest PR, based on facts is a legitimate method of attempting to right wrongs. It has to be kept overt. It has to be true. **Protest PR** can include demonstrations, hard news stories and any PR mechanism. (HCO PL 11 May 71 III)

**PROVISIONAL**, 1. not permanent. (HCO PL 9 May 65, *Field Auditors become Staff*) 2. is used to designate anyone who has served in orgs less than a year. (HCO PL 18 Nov 65) 3. a staff member given a provisional rating may have recourse to Ethics and have an Ethics hearing if dismissed. He may

be transferred to other divisions without a hearing if his division is overmanned. A provisional is designated as "1" on the org board after his or her name. (HCO PL 4 Jan 66 V) 4. (provisional status) a Staff Status 1. (SH Spec 61, 6505C18)

#### **PROVISIONAL CERTIFICATION**

**EXAM**, this is a written test taken from HCOBs, tapes, policy letters of the theory material the student studies. This test examines the student to ensure the student knows the data. 85% is passing grade. Below 85% is a flunk and the student goes to cramming. (HCO PL 13 Jan 69, *Standard Examinations*) [The above HCO PL was cancelled by HCO PL 29 Jul 72 II, *Fast Flow in Training*.]

**PROVISIONAL CLASS VI**, the term Provisional Class V1 means hereafter only has the right to solo audit on Class V1 materials and may not co-audit on R6 or audit PCs on R6. (HCO PL 13 Nov 64)

#### **PROVISIONAL CLASSIFICATION**

**EXAM**, this is a practical exam. The test consists of a checkout of TR 0-4, any of the meter drills of the level and the auditing of a doll on that C/S. The student is required to pass this exam 100%. The student is flunked for out TRs, out meter drills, out admin, or out tech only. (HCO PL 13 Jan 69, *Standard Examinations*) [The above HCO PL was cancelled by HCO PL 29 Jul 72 II, *Fast Flow in Training*.]

#### **PROVISIONAL OT COURSE**

**STUDENT**, a **provisional OT Course student** is one who has not become Clear or checked out Clear after doing the required work of the Clearing Course to the satisfaction of the Clearing Course supervisor. (HCO PL 27 Jan 67)

**PROVISIONAL RANK OR RATING**, a rank or rating for which one has not fully passed the requirements is called **provisional rank or rating** and may be worn if specifically assigned but only on the left arm,

shoulder or sleeve and without the star or division symbol. One therefore can be given a rank before he has earned it and can then earn it and wear the star or division or department symbol, and in command ranks (leading to command) can wear it as a rank on both sleeves or shoulders or as a rating on the right arm. A **provisional rank** is also permanent in that it cannot be withdrawn except by a court martial. (FO 236)

**PROVISIONAL STAFF MEMBER**, a **provisional staff member** is a Staff Status 1 and can be shifted about to balance personnel. You do not have to ask his permission to do so. (SH Spec 61, 6505C18)

**PROVISIONAL SYSTEM**, the **provisional** system requires that the student audit the materials of the level per existing chee-sheet in order to graduate, requires an internship within one year in order to obtain a permanent certificate but may go onto his next level with a **provisional** certificate. (SO ED 401-I INT)

**PROXY**, the written authorization conveyed by a stockholder to another person to represent him and vote on his behalf at a stockholders' meeting.

**PROXY FIGHT**, the effort between opposing parties seeking control of a corporation to obtain the proxies of other shareholders.

**PR PROGRAM DEVELOPMENT ROUTING AND RELEASE FORM**, this form exists to ensure proper coordination and preparation of programs and other PR actions. This form is attached to all PR programs being developed, targetted and released. (FO 2440)

**PSYCHIATRY**, psychology and psychiatry were developed chiefly by a Russian veterinarian named Ivan Petrovich Pavlov (1849-1936). His basic principle was that men were only animals and could be conditioned and trained much like dancing bears or dogs. This work was only intended to

control people and so has found great favor with certain rulers and upper classes. None of the activities of psychology or psychiatry were designed to help or cure, only to control the masses. The results of psychiatry are physically damaging, consisting of various brutalities and often injure the patient for life or kill him outright. There have never been any cures listed or claimed for psychiatric treatment as its interest lies only in control. (HCO PL 23 May 69)

**PSYCHIC**, spiritual. (BPL 24 Sept 73 V)

**PSYCHOLOGICAL NEED**, a fancied need based upon a mental concept or attitude one has as distinguished from a basic need which will actually affect or increase one's survival.

**PSYCHOLOGY**, 1. *Webster's International Dictionary of the English language 1829* defines "**psychology**: a discourse or treatise on the human soul; the doctrine of the nature and properties of the soul." *Webster's High School Dictionary 1892*, "psychology: the powers and function of the soul." *Merriam Webster's 3rd International Dictionary 1961*, "**psychology**: the science of mind or mental phenomena or activities; the study of the biological organism (as man) and the physical and social environment." Somewhere along the way, man lost his soul! We pinpoint when and we find Professor Wundt, 1879, being urged by Bismarck at the period of German's greatest militarism, trying to get a philosophy that will get the soldiers to kill men, and we find Hegel, the II great" German philosopher, the idol of super-Socialists, stressing that war is vital to the mental health of people. Out of this we can redefine modern **psychology** as a German military system used to condition men for war and subsidized in American and other universities at the time the government was having trouble with the draft. A reasonable discourse on why "they" had to push **psychology** would of course be a way of redefi-

ning an already redefined word, **psychology**. WO PL 5 Oct 71) 2. you're either trying to create or generate, handle, control and so forth, human emotion and reaction. The whole field of public relations, no matter how many little compartments it's got is actually occupying that zone and area, and that is the subject if you've got to have one called **psychology**. (FEBC 2, 7101C18 SO I) 3. mainly used for testing aptitude or intelligence. It has counseling as part of its activities but is more concerned with and financed for warfare. (HCO PL 23 May 69)

**PSYCHOSIS**, 1. we know what psychosis is these days. It is simply an evil purpose; it means a definite obsessive desire to destroy. Now anybody has a few evil purposes when they suddenly think of this or that, that they don't want to do. They'd say "Boy I'd like to get even with that guy" or something. That's not what we're really talking about. This is the monitoring evil purpose which monitors all of this guy's activities, and that is a real psycho. Now there are people who are PTS and who act fairly psycho and there are people who are quote "aberrated." They've simply got out-points in their thinking. The psychiatrist never differentiated amongst these people. That's because he thought people had a disease called mental illness. It is not true. There is no such thing as a mental illness. There is no bacteria which produces psychosis. (ESTO 3, 7203CO2 SO I) 2. if he's real crazy he can't see anything. He's just got to fight. Well, if you knew what he was fighting you wouldn't feel so sorry for him. He's back there on the track a few trillion years fighting the Ugbugs. He's solving a present time problem which hasn't in actual fact existed for the last many trillenia in most cases, and yet he is taking the actions in present time which solve that problem with the Ugbugs. What the devil is that all about? Well the guy is totally stuck in present time. He's got 99.999999% of his attention units at some past period of the track.

An exact precise period of the track. And in that precise exact instant he is fighting off something and is trying to handle something by some means and those are the means and practices which he is using in present time. He does not have any problem with you. You do not have any problem with him at all. You aren't back there where he is and he isn't up where you are. Now you can assume there are problems, but that isn't the problem he's trying to solve. That is the whole anatomy of psychosis. (SH Spec 61, 6505C18) 3. Dwindling sanity is a dwindling ability to assign time and space. Psychosis is a complete inability to assign time and space. (Scn 8-80, p. 44)

**PSYCHOSOMATIC ILLNESS**, physical illness, aches, pains, continual exhaustion, body malfunctions are created or held in an unchanging state by the mind. This is called **psychosomatic (psycho-spirit, somatic-body) illness**. (HCO PL 23 May 69)

**PSYCHOSOMATIC INTENSIVE**, standard Dn will let a person recuperate from illness or injury and it will handle beginnings of illness and it will end off chronic illnesses. These add up to recuperation intensives and **psychosomatic intensives** and all this is HCOB 24 July 1969, *Seriously Ill Preclears and a five-hour intensive*. (LRH ED 57 INT)

**PSYCHOTICS**, people with histories of known breaks, of suicide attempts, of homicidal tendencies. WO PL 2 Sept 70, *Instruction Protocol Official*)

**PTSNESS**, **PTSness** is actually a PTP (present time problem) and causes roller coaster as it is difficult to audit over a PTP or work either. (LRH ED 241 INT)

**PTS PERSONS**, those who are connected to suppressive persons or groups and are **potential trouble sources**. (HCO PL 28 May 72)

**PTS RD CORRECTION LIST**, HCO Bulletin 16 April 1972, *PTS RD Correction List*. It also gives the expected actions of a **PTS Rundown**. Doing **PTS Rundowns** without this prepared fist handy can be risky. (LRH ED 257 INT)

**PTS TYPE ONE**, the SP on the case is right in present time actively suppressing the person. Type One is normally handled by an Ethics Officer in the course of a hearing. (HCOB 24 Nov 65)

**PTS TYPE TWO**, **Type Two** is harder to handle than Type One, for the apparent suppressive person in present time is only a restimulator for the actual suppressive. The PC who isn't sure, won't disconnect, or still roller-coasters, or who doesn't brighten up, can't name any SP at all is a Type Two. (HCOB 24 Nov 65)

**PTS TYPE THREE**, the **Type Three PTS** is mostly in institutions or would be. In this case the Type Two's apparent SP is spread all over the world and is often more than all the people there are-for the person sometimes has ghosts about him or demons and they are just more apparent SPs but imaginary as beings as well. (HCOB 24 Nov 65)

**PTS TYPE A**, persons intimately connected with persons (such as marital or familial ties) of known antagonism to mental or spiritual treatment or Scn. In practice such persons, even when they approach Scn in a friendly fashion, have such pressure continually brought to bear upon them by persons with undue influence over them that they make very poor gains in processing and their interest is solely devoted to proving the antagonistic element wrong. They, by experience, produce a great deal of trouble in the long run as their own condition does not improve adequately under such stresses to effectively combat the antagonism. Their present time problem cannot be reached as it is continuous, and so long as it remains so, they should not be accepted for auditing by

an organization or auditor. (HCO PL 27 Oct 64)

**PTS TYPE B**, criminals with proven criminal records often continue to commit so many undetected harmful acts between sessions that they do not make adequate case gains and therefore should not be accepted for processing by organizations or auditors. (HCO PL 27 Oct 64)

**PTS TYPE C**, persons who have ever threatened to sue or embarrass or attack or who have publicly attacked Scn or been a party to an attack and all their immediate families should never be accepted for processing by a Central Organization or an auditor. They have a history of only serving other ends than case gain and commonly again turn on the organization or auditor. They have already barred themselves out by their own overts against Scn and are thereafter too difficult to help, since they cannot openly accept help from those they have tried to injure. (HCO PL 27 Oct 64)

**PTS TYPE D**, responsible-for-condition cases have been traced back to other causes for their condition too often to be acceptable. By responsible-for-condition cases is meant the person who insists a book or some auditor is "wholly responsible for the terrible condition I am in." Such cases demand unusual favors, free auditing, tremendous effort on the part of auditors. Review of these cases show that they were in the same or worse condition long before auditing, that they are using a planned campaign to obtain auditing for nothing, that they are not as bad off as they claim, and that their antagonism extends to anyone who seeks to help them, even their own families. Establish the rights of the matter and decide accordingly. (HCO PL 27 Oct 64)

**PTS TYPE E**, persons who are not being audited on their own determinism are a liability as they are forced into being processed by some other person and have no personal

desire to become better. Quite on the contrary they usually want only to prove the person who wants them audited wrong and so do not get better. Until a personally determined goal to be processed occurs, the person will not benefit. (HCO PL 27 Oct 64)

**PTS TYPE F**, persons who "want to be processed to see if Scn works" as their only reason for being audited have never been known to make gains as they do not participate. News reporters fall into this category. They should not be audited. (HCO PL 27 Oct 64)

**PTS TYPE G**, persons who claim that "if you help such and such a case" (at great and your expense) because somebody is rich or influential or the neighbors would be electrified should be ignored. Processing is designed for bettering individuals, not progressing by stunts or giving cases undue importance. Process only at convenience and usual arrangements. Make no extraordinary effort at the expense of other persons who do want processing for normal reasons. Not one of these arrangements has ever come off successfully as it has the unworthy goal of notoriety, not betterment. (HCO PL 27 Oct 64)

**PTS TYPE H**, persons who "have an open mind" but no personal hopes or desires for auditing or knowingness should be ignored, as they really don't have an open mind at all, but a lack of ability to decide about things and are seldom found to be very responsible and waste anyone's efforts "to convince them." (HCO PL 27 Oct 64)

**PTS TYPE I**, persons who do not believe anything or anyone can get better. They have a purpose for being audited entirely contrary to the auditor's and so in this conflict, do not benefit. When such persons are trained they use their training to degrade others. Thus they should not be accepted for training or auditing. (HCO PL 27 Oct 64)

**PTS TYPE J**, persons attempting to sit in judgment on Scn in hearings or attempting

to investigate Scn should be given no undue importance. One should not seek to instruct or assist them in any way. This includes judges, boards, newspaper reporters, magazine writers, etc. All efforts to be helpful or instructive have done nothing beneficial as their first idea is a firm "I don't know" and this usually ends with an equally firm "I don't know." If a person can't see for himself or judge from the obvious, then he does not have sufficient powers of observation even to sort out actual evidence. In legal matters, only take the obvious effective steps-carry on no crusades in court. In the matter of reporters, etc., it is not worthwhile to give them any time contrary to popular belief. They are given their story before they leave their editorial rooms and you only strengthen what they have to say by saying anything. They are no public communication line that sways much. Policy is very definite. Ignore. (HCO PL 27 Oct 64)

**PUBLIC**, 1. the thought or significance which the PR person is attempting to convey is called "the message." The receipt points of the message are called "publics." There are many different publics. These are types or groups who accept differently from other types or groups. It is the task of the PR person to study and separate out the different publics and know what they want or will accept. (HCO PL 7 Aug 72) 2. there is a specialized definition of the word "**public**" which is not in the dictionary but which is used in the field of public relations. "Public" is a professional term to public relations people. It doesn't mean the mob or the masses. It means "type of audience." (HCO PL 13 Aug 70 III) 3. **Publics** is a **public** relation term meaning a type of "users." (HCO PL 22 Jul 71)

**PUBLIC DIVISION**, 1. the **Public Division** (Div 6) contacts new people who have not before bought anything from the org. This division should have its own registrar and should be signing up new people for major or minor services. (LRH ED 167 INT) 2. the **public divisions** are the three former departments of Division 6, each one becoming a **division** in its own right. Division 6 has the former functions of Dept 16 and Division 7 has the former functions of Dept 17 and Division 8 has the former functions of Dept 18. The Executive Division now becomes Division 9 instead of 7. (HCO PL 26 Oct 68) 3. the **Public Divisions** have two main purposes with many sub-purposes such as public services and **public** sales. (1) getting new names to CF (2) PRO area control. (BO 30, 16 Mar 70) 4. the Distribution Division or **Public Division** (either name can be used). (HCO PL 14 Jul 71) 5. prior to September 1969 when there was only the one org aboard the Flagship (and it was a 7 Division Org) the one public division (Div 6) was headed by CS-6/Public Officer. As well as handling **public** service and **public** contact matters the division handled art, promotion, photography, addresso, printer liaison, advertising, history, FSMs, Advanced Orgs, public planning, etc. (FO 2633) 6. the **Public Divisions** are an extremely important area of action on the org board. These **divisions** (6, 7 and 8) keep the new people coming in, businesses continuing and expand an organization. (HCO PL 31 Mar 69 III)

**PUBLIC DIVISIONS AO**, handles those Scientologists who have not signed up for any AO service. This means any Scientologists from Class 0 Academy or Grade IV Release on up, channeling them into the AO for sign-up for Clear. The **Public Division's** methods to do this are tours, AO public events, the "I want to go Clear Club" and a very strong line FSM program. The **public divisions** are primarily concerned with promoting Clear. (BO 47, 8 Aug 70)

**PUBLIC DIVISION SERVICES**, the services in the **Public Divisions** are of an introductory or demonstrative nature. They give the **public** person a taste of what it is all about and push the final stage-taking a major service in Div 4. The **public** services designed for pulling people in are: book sales, introductory lectures, testing and public events. No registration is required for these services. The **public services** designed to give more introduction are basically-HAS, HQS (co-audit), Extension Course and group processing. (LRH ED 112 INT)

**PUBLIC ESTABLISHMENT OFFICER**, the Distribution **Establishment Officer (PEO for Public Division)** establishes and maintains the Distribution Division. (HCO PL 7 Mar 72) *Abbr.* PEO.

**PUBLICITY**, any message, notice, event, etc., usually channeled through mass media that brings some person, product or condition to public notice. What it is that is brought to the public's attention and how it is presented determines whether public opinion is going to be favorable or unfavorable toward that which is publicized. Publicity is a synonym to advertising but advertising usually costs more, concentrates harder on the public buying something and usually directs

public attention more specifically to the features of a product or service.

**PUBLIC LINES**, a series of lines and terminals which are in place to handle all organizational requirements of a member of the public efficiently and in correct sequence. It is a logical arrangement so that out-points do not occur in the handling of the **public** and so that all organizational requirements are met and service is given and verified as having been given correctly. (FSO 137)

**PUBLIC OFFICER**, 1. the purpose of Div 6, Public Division, is to control the public. It is headed by the Public Officer. (FO 809) 2. the title of Hostess is changed to Public Officer. (FO 913)

**PUBLIC OFFICER/PORT CAPTAIN**, in September/October 1969, the existing org was split and two orgs were formed-Flag Org and Flagship Org. Thus the two Div 6's had different responsibilities and it was at this point that the Flagship Div 6 began to develop and specialize on the subject of public contact. The div head took on the double title of **Public Officer/Port Captain**. (For a short while he was given Executive Council status and became the Public Exec Officer. (HCO PL 29 Jan 69) [The above HCO PL was cancelled by BPL 10 Oct 75 VII.]

**PUBLIC PROGRAMS OFFICER,** in every org under the Group Officer should be a **Public Programs Officer**. His hat is to organize and coordinate Gung-Ho Groups. He gets them started. His job takes him into the field contacting FSMs, Scientologists and the general **public** (especially those connected to other groups in the community). The Public Programs Officer having recruited the group together, has the group do a survey from door to door, etc., to discover the targets and purposes of the community in the area. The **Public Programs Officer** never makes up **programs**. He gets the Gung-Ho Group to put together **programs**

(which are composed of short-range targets given to fellow groups to do to achieve the target found in the survey). (HCO PL 30 Dec 68)

**PUBLIC PROMOTION,** the mock-up of effective **promotion** pieces, that get made up and printed by Dissem, and their distribution to attract floods of new **public** into the org. Every piece has to be based on survey and must address the right **public**. Such items are: information packs, handout tickets, booklets, flyers for Public Reg use, event **promo** mailings, posters, LRH book advertisements placed in news media. LRH books, not other books but LRH books and the introductory services of Dept 17 are promoted heavily in alignment to survey. Heavy volume **public promotion** is a must. **PUBLIC REGISTRAR,** 1. enrolls public bodies on **public** lines (testing, intro lectures, **public** events, **public** courses) for their introduction/ further introduction to Scn through **public** services (HAS, HQS, co-audits, group processing, Extension Course) but does this only as determined by the gradient wanted by the individual and concentrates upon enrolling these people straight on or as soon as feasible to their first major service in Scn at which point they are a new name to CF. (LRH ED 112 INT) 2. **the Public Registrar** is the entrance point to Dn and Scn services and thus it is a post of great importance. At least one **Public Reg** must be on post and producing from within the org. By producing is meant contacting the public in volume and using the proper recommended sales techniques to get them to sign-up and route onto service. (BPL 1 Dec 72R IV)

## PUBLIC REGISTRAR

PUBLIC REG PAID STARTS, (**Public** Division statistic) number of **public reg paid starts**: Paid means money received in full for the service. Start means started the service. These **paid starts** are the **paid starts the Public Reg** in Div 6 produced (or Div 6 personnel assisting or deputizing for her). They do not include any **paid starts** Div 2 produced, only the Public Reg in Div 6. No paid start can be included on both Div 2 and Div 6 **paid start** stats. Whoever got the **paid start** gets the stat and not the other division. **Paid start** for processing = on HGC lines. **Paid start** for training = started on course. Each service **paid** for and started is counted as one **paid start**. If a person signs up and pays for a number of services, say Academy Levels 0-IV, he is counted as one **paid start** as *each* Academy Level is started. Similarly, if a person signs up and pays for a number of 12 1/2 hour intensives with the **Public Registrar** as each **paid** intensive is begun, it is counted as *one paid start*. When a person pays and starts a public service like HAS or HQS it is counted as one **paid start**. (HCO PL 28 Nov 71R II)

PUBLIC RELATIONS, 1. in the field of **public relations** good works well publicized is one of the definitions which they give in a text book on the subject, that's supposed to be the perfect definition of PR, couldn't be further from the truth effective cause well

demonstrated -you see they need a few little refinements. Then you can make forward progress. (FEBC 2, 7101C18 SO I) 2. the art of making good works well known. **PULL A FEW STRINGS**, meaning follow down a chain of out-points. (HCO PL 30 Sept 73 II)

**PULL A STRING**, 1. two facts don't jibe so you try to rationalize these two facts and interrogate on these two facts. You will get another point you don't understand. When you try to get this point understood you will now find another fact that you don't understand and along about that way somepl-

ce **pulling** on this **string** you find the General Sherman tank and that is simply somebody who is trying to stop things. (6711C18) 2. an Ethics Officer's first job is usually cleaning up the org of its potential trouble sources and requesting a Committee of Evidence for the suppressives. That gets things in focus quickly and smoothes an org down so it will function. Then one looks for down statistics in the OIC charts. These aren't understandable, of course, so one interrogates by sending interrogatives to the people concerned. In their answers there will be something that doesn't make sense at all to the Ethics Officer. Example: "We can't pay the bills because Josie has been on course." The Ethics Officer is only looking for something he himself can't reconcile. So he sends interrogatives to the person who wrote it and to Josie. Sooner or later some wild withhold or even a crime shows up when one does this. The trick of this "org auditing" is to find a piece of string sticking out-something one can't understand, and, by interrogatives, **pull** on it. A small cat shows up. **Pull** with some more interrogatives. A baby gorilla shows up. **Pull** some more. A tiger appears. **Pull** again and wow! You've got a General Sherman tank! (HCO PL 11 May 65, *Ethics Officer Hat*)

simply the acquisition of MEST particles or services by one person from another for an agreed price. These are the basic business transactions -sales and purchases. And you can view sales and purchases in terms of flows. A sale is an outflow of MEST particles or services by one person to another for an agreed price. A purchase is an inflow of MEST particles or services by one person from another for an agreed price. (BPL 14 Nov 70 II)

**PURCHASE ORDER**, 1. an actual and valid purchase order is on Decp pink paper and because of this is called a red **purchase order**. Only an actual (red) **purchase order** exactly priced and signed before purchase authorizes purchase and no purchase or commitment to expense may occur without one. A red purchase order has the exact cost of an item and any specifications (size, color, quantity) required to purchase. It is not another estimate or an estimated purchase order recopied on a red purchase order form. It is exactly costed. (BPL 4 Nov 70R) 2. this form must give the person or firm from which the purchase is to be made. It must give the item, quality, description and actual cost. When bills are presented for payment each and every item on every bill must be covered by a purchase order. If it is not then the purchase shall be considered unlawful and may have to be paid for by the staff member who placed the order without authority. No check will be signed unless the bill it is paying and all purchase orders appertaining thereto accompany the check. (HCO PL 20 Jun 61) *Abbr.* PO

whatever kind, including balance sheets. It is normally referred to as the Supply Division. (FO 1109)

**PUTTING A HEAD ON A PIKE**, ethics only exists to hold the fort long enough and settle things down enough to get technology in. We start to hang people and keep right on tying the noose in a workmanlike fashion right up to the instant we can get tech in-which of course makes the noose unnecessary. When things are bad (bad indicators heavily visible) putting a body on the gallows is very salutary. We call it "**putting a head on a pike**." Too many bad indicators and too goofed up a situation and we must **put a head on a pike**. Then things simmer down and we can begin to get tech in. (HCO PL 16 May 65 II)

**PUTTING-OUT SYSTEM**, work done off company premises especially by people in their private homes such as garment making, envelope stuffing or addressing, etc. This is also termed outwork.

## Q

**Q AND A, Question and Answer.** When the term Q and A is used it means one did not get an answer to his question. It also means not getting compliance with an order but accepting something else. The executive gives an order, the junior says or does something else, the executive does not simply get the original order done, and the result is chaos. Example: executive: do target 21 now. Junior: I don't have any issue files. Executive: What happened to them? Junior: Mimeo goofed. Executive: I'll go see Mimeo. . . . Q and A is simply postulate aberration. Aberration is non-straight line by definition. People who can't get things done are simply Qing and Aing with people and life. (HCOB 5 Dec 73)

This division is headed by the Qualifications Secretary. It consists of three departments. The Department of Examinations, Dept 13, is headed by the Director of Examinations. The Department of Review,

Department 14, is headed by the Director of Review. The Department of Certifications and Awards, Dept 15 is headed by the Director of Certifications. The departments have various sections and units. (HCO PL 31 Jul 65) 8. the Qualifications Division exists to handle flat ball bearings turned out by Tech or old patterns or checksheets or special cases. That keeps the assembly line roaring along. (HCO PL 7 Jun 65, *Entheta Letters and the Dead File, Handling of, Definitions*) 9. exists to ensure that valid completions do occur and to swiftly spot and correct non-standardness where it occurs. (FO 3277) 10. the custodian of the technology of Dn and Scn in an org and its field. (BPL 30 Jun 73R) *Abbr.* Qual, Qual Div.

cations Division are routed through this section, and bodies leaving the Qualifications Division are routed through this section. The Qualifications Interview-Invoice Officer interviews the student, preclear or staff member in order to decide what routing is necessary. Once the proper routing is ascertained, the student, preclear or staff member is logged in, stating name, date, time and where being routed to, and then is routed to the proper destination. Terminals are logged out and routed out of the Qualifications Division through the Qualifications Interview-Invoice Officer. Routing is done in this fashion to insure that the student or preclear is invoiced and pays for the services delivered by the Qualifications Division and then to route further, if need be, to the Ethics Section of the Department of Inspections and Reports. (BPL 20 Oct 67R) *Abbr.* Qual I and I.

**QUALIFICATIONS SECRETARY**, Div 5. Qualifications Division is headed by the Qualifications Secretary. (BPL 4 Jul 69R VI) *Abbr.* Qual Sec.

**QUALIFY**, 1. to find out if a potential prospect is a bona fide or real prospect by establishing if he is prepared to buy now, later or never. **QUALITY CONTROL LOG**, a log for all on board and US printing cycles is to be kept by Quality Control. The log must contain what the promotion is, who sent to if being printed in the U.S., any corrections ordered by **Quality Control** for a job and the date of each **Quality Control** pass given the item. (FO 3572)

**QUALITY CONTROL OFFICER**, as there have been many flagrant degradations of promotion, literature, covers and photographs, and as the general quality of promotion requires, by past experience, vigorous and exact quality control, all color photolitho and color printing must be passed upon by duly authorized persons at Flag before any print run may be begun. Quality control is vested in the Authorization and Verification Unit Quality Control Officer. Procedure consists of sending the press or other acceptable proof from the color separation company and the original art work or transparency to Flag, fully protected by uncolored cardboards, properly addressed to Flag AVU Quality Control Officer. (FO 3570)

**QUAL LIBRARIAN**, 1. the **Qual Library** is in Dept 15, Dept of Correction. There is a **Qual Librarian**, whose duties are essentially those of a librarian, collecting up the materials, logging and storing them safely, ma-

king up cross reference files so that material can be easily located, logging out materials and ensuring that they are returned. (BPL 21 Jan 73R) 2. they do the standard duties of a librarian. They always have a master copy of everything they own and they answer questions. Now that takes an interesting **librarian** because he's the Technical Information Center. (7109CO5 SO) 3. the librarian is really the org information officer. (7109CO5 SO)

**QUAL LIBRARY**, see QUAL LIBRARIAN.

**QUAL ORG OFFICER/ESTO**, 1. establishes the **Qual** Division. The QOO/Esto is in the Office of the **Qual** Sec. **QUARTERMASTER OF THE WATCH**, 1. the QM of the watch is a member of the duty watch. The duty watch has a 24 hour officer on the deck. The QM must know who is his Officer of the Deck and must call him for any emergency. The QM of the watch alongside a dock is responsible for the mooring lines which tighten and loosen with

the tide's rise and fall. At anchor the QM is responsible for the security of the anchor and must take bearings to make sure the anchor is not dragging and that as tidal currents change, the ship does not swing into other ships anchored near. The QM is also responsible for the proper signals at anchor, a black ball by day and anchor light at night and for the raising and lowering of proper flags at 8:00 a.m. or sunset, and flying crews meal pennant and Captains, Commodore's and native or courtesy flag. These flags are also flown alongside the dock. The QM at the gangway guards the ship. He keeps the log, entering everything. He has charge of the safe mooring of the ship and must adjust mooring lines whenever necessary. (FO 304) 2. keeps the **quartermaster's** notebook, notes all changes of course, speed, wind, sea, etc., in it and all occurrences in the ship and signs it at the watch end. He tends to getting the wheel and lookout relieved. When something is to be done within the ship he takes the two stand-bys and does it. He handles the men for the OOW, routes out the next watch, signals any call to emergency stations for the crew, etc. (FO 80) 3. (Condition III) hat purpose: handles crew and ship's company while watch is in progress. (FO RS 32) 4. the QM is also the Org Officer for the watch and works directly with the cons in training up their watches and correcting goofing watch members. (FSO 546) *Abbr.* QM.

curately, all weather and incidents aboard ship. All gear and persons entering or leaving ship in port, all stores, are entered by the Quartermaster of the Watch or Officer of the Deck when the ship is in port, plus all incidents and repairs. (Ship's Org *Bk.*)

**QUESTIONABLE RISK LIST**, in the case of premeditated fraud we have a person who at the beginning never intended to pay, but intended to defraud. Such persons can usually be spotted by an insistence on courses and processing with no down payment. This is their hallmark. Records should be combed for a list of such names and each time a request for totally credit arrangements is made by anyone, that name should be added tentatively to the list. This list is called the **questionable risk list**, or the QR (HCO Secretarial Letter 26 Dec 58) *Abbr.* QR.

**QUICK ASSETS**, see ASSETS, QUICK.

**QUICKIE**, means a brush off "lick and a promise" like wiping the windshield on the driver's side when really one would have to work at it to get a whole clean car. (HCO PL 13 Mar 72)

**QUORUM**, a specified number of officers and members of an organization, board or committee, usually constituting a majority, whose presence is required in order to transact business legally.

**QUOTA**, 1. a production assignment. It would be the number assigned to whatever is produced. As an example, the Director of Training is given the **quota** of 45 letters to

produce per day or 225 letters per week as part of his standard promotional actions. Targeting is defined as establishing what action or actions should be undertaken in order to achieve a desired objective. In the case of the Director of Training, it would be as simple as obtaining from central files the necessary 45 folders, writing the required number of letters, returning the folders to central files and determining to remain on post daily until this was accomplished no matter what. Any **quota** can be targetted for increase daily and weekly. For instance, the Director of Training can establish a **quota** of 5 extra letters per day over that of the day before. This would mean he would write 45 letters one day, 50 letters the next day, 55 letters the day after that, and so on. (BPL 8 Feb 72) 2. a **quota** is a future expectancy. The way one sets a **quota** is quite important. If it is too impossible, a **quota** gets overwhelmed not stats. If it is merely "impossible" at first it quite often gets made as it is a challenge. Too low a **quota** is no challenge at all and gets no quota. To set one, one chooses a future date and draws a line from now to it. Where that line crosses each future week is the **quota** for that week. If one makes that weekly **quota** and organizes to make the next week's, one will wind up with the final **quota** made. (LRH ED 228 INT) [The above LRH ED was later cancelled by LRH ED 153RD.]

**QUOTATION**, the figure quoted on a security at a given time which represents the highest bid to buy and the lowest offer to sell at that time.

**RADIO OPERATOR**, operates the **radio** receiver and **radio** transmitter. He listens for any incoming **radio** messages and transmits all outgoing messages. (SWPB)

**RAIDING**, 1. the act of buying up enough stock of a business followed by instituting a proxy fight in order to take over the management of the organization. 2. the effort by speculators to drive stock prices down on a market.

**RAKE - OFF**, a slang expression for receiving a share of the profits from a business transaction usually underhandedly or illicitly.

**RALLY**, a notable rise in market prices and trading activity after a decline.

**R AND I FORM**, [this refers to **Recruit Routing and Information Form** which is FO 3212R-Part 1. It is filled out by all Sea Org new recruits and provides vital personnel data on each person when filled out. It corresponds to BPL 1 Feb 75 11, *New Staff Applicant Information Form* which applies to all SO and Scn Orgs.]

**RANDOM MOTION**, a confusion in this universe is **random motion**. (POW, p. 21)

**RANDOM SAMPLING**, a sampling or survey of people or things chosen at random such as interviewing every fifth shopper in a store, and taking these results as indicative of that public as a whole.

**RATIONALIZING A STATISTIC**, a derogatory term meaning finding excuses for down **statistics**. (HCO PL 8 Feb 68)

**RAW DATA**, assembled but otherwise unevaluated **data**. It is "uncooked" and "unflavored" and "untouched" by human hands. It, in short, is uncontaminated or unchanged **data**. It is native and natural and unspoiled. The only data that answers those qualifications is statistical data. "How many or how few and how much or how little in what time." That is the only **data** that a senior official in a group, organization or state ever dare use in selecting and promoting personnel. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*)

**RAW MATERIALS**, see MATERIALS, RAW.

**RAW MATERIALS STOCKS**, see STOCKS,

**REACTIONARY**, 1. when one is stuck on the time track it may seem pretty difficult to envision a *future*. In politics this is called "**reactionary**" or "41 conservative". These mean any resistance to change even when it is an improvement. The bad old days seem to be the good old days to such people. Yet the old days will not come again. One has to make the new days good. (HCO PL 11 Aug 74) 2. (**reactionaries**) people resisting all progress or action. (HCO PL 19 May 70)

**REACTIVE, irrational, reacting** instead of acting. (HTLTAE, p. 122)

**READINESS**, in a state of preparedness for any given purpose or occasion; in suitable condition for use or action. (FSO 654)

**READINESS FOR PORT LIST**, lists which are comprehensive and cover everything you would have to do to make your area **ready for port**. (FSO 327)

**READINESS FOR SEA CHECKLISTS**, these **checklists** are complete in detail and made up separately for every key post aboard with a general one for supernumerary which would require simply an attestation from the person that his/her own equipment and personal belongings were securely stowed and/or lashed down and ready for the motions of the vessel during a heavy sea. (FSO 654)

**READINESS FOR THE SEA DRILL**, an all hands evolution: the Captain before sailing requires from each of the rest of the ship's company a report on the **readiness** of the area of operation for a voyage at sea of expressed duration into an expressed climate. These reports are not vague, they are made on a basis of prepared checklists. The crew member must then verify all of his checklists by actual inspection and remedy any defects before reporting his area **ready for the sea**. Every ship requires its own set of checklists. (Ship's Org Bk.)

**REAL EARNINGS**, 1. the purchasing power of money earnings as related to an established standard. Also called real wages, or real income. 2. money earnings which are adjusted when the cost of living index changes sufficiently.

**REAL ESTATE**, land including anything on or underneath its surface such as water, minerals, trees, buildings, etc.; realty; real property.

**REAL INCOME**, same as real earnings.

**REALITY**, 1. by **reality** we mean the solid objects, the real things of life. (POW, p. 72) 2. **reality** consists of the is-ness of things. (HCO PL 19 May 70) *Abbr.* R.

**REAL PROPERTY**, same as real estate.

**REAL SOCIETY**, one in which the majority are going in some direction toward a desirable goal. But it has to be their goal. This rekindles interest, action and hope. It revitalizes **society**. (HCO PL 31 Jan 69, *Humanitarian Objective and Gung Ho Groups*)

**REALTY**, same as real estate.

**REAL WHY**, 1. the basic why is always the major out-point which has all other out-points as a common denominator, and that's the **real why**. That explains everything. But what is this everything? All the other out-points. What is this major out-point that explains all other out-points that I've found in this area? And that could be the definition of a why. (ESTO 12, 7203CO6 SO II) 2. a **real why** opens the door to handling. If it does not, then it is a wrong why. When you have a right why, handling becomes simple. The more one has to beat his brains for a bright idea to handle, the more likely it is that he has a wrong why. The why will be how come the situation is such a departure from the ideal scene and will open the door to handling. (HCO PL 12 Aug 74)

**REASONABLENESS**, 1. illogic occurs when one or more data is misplaced into the wrong body of data for it. An example would be "Los Angeles smog is growing worse so we fined New York." "I am sorry, madam, but you cannot travel first class on a third class passport." Humanoid response to such displacements is to be **reasonable**. A new false datum is dreamed up and put into the body of data to explain why that datum is included. (**Reasonableness** is often inserted as explanation of other out-points also.) In the smog one, it could be dreamed up that New York's exports or imports were causing L.A. smog. In the train one, it could be inserted that in that country, passports were used instead of tickets. (HCO PL 23 June 70) 2. faulty explanations. (HCO PL 30 Aug 70) 3. a staff member or executive can be "**reasonable**" and accept reasons why something cannot be done, accept incomplete cycles as complete, and fail to follow through and get completions. All of which results in further traffic. (BPL 30 Jan 69) 4. an objective can always be achieved. Most usually, when it is not being achieved, the person is finding counter-intention in the environment which coincides with his own (this is **reasonableness**), and his attention becomes directed to his own counter-intention rather than to his objective, i.e. he has interiorized into the situation. (FO 2116) 5. you can safely say that being **reasonable** is a symptom of being unable to recognize out-points for what they are and use them to discover actual situations. (HCO PL 30 Sept 73 II)

**REBATE**, 1. a return or refund of part of the money paid for goods or services; discount; deduction. 2. a discount on interest payable or a return of interest previously collected if a loan is paid off before its maturity date.

**REBUTTAL DAMAGES**, if a person who is sued has reason, he can, as defendant, require **damages** in his **rebuttal** and should

the suit be fallacious and found against the plaintiff such cases may be awarded. (HCO PL 5 Aug 66 II)

**RECAPITALIZATION**, any major change in the capital structure of an organization such as a revised or different total amount of the various securities it issues or new securities sold and the money used to retire existing securities.

**RECEIPT**, a written acknowledgement that something specified has been received. (FO 3251)

Most professionals working with data collection use this. Who said it? If he is considered **reliable** or an authority, the data is considered true or factual. Sources are graded from A to D. A is highest, D lowest. The frailty of this system is at once apparent. Philby, as a high British intelligence official, was a Russian spy for 30 years. Any data he gave the U.K. or U.S. was "true" because he was a "**reliable source**." He had every Western agent who was being sent into Communist areas "fingered" and shot. They usually give an examination. He doesn't know anything about this specific body of materials so they take that whole body of materials and they make him redo it, and they Method 4 it. Misunderstood word and then misunderstood word and they clear it up and the guy restudies that and polishes up this other thing that he doesn't know much about and so forth. All it can do is listen to the tapes of the hearings, examine the evidence given in the original hearings and recommend to its own convening authority one of two things: (1) that a new committee be convened on the site by the Upper Convening Authority to examine points thought to be in question, (2) that the penalty be changed. **RIGHTS ISSUE**, see RIGHTS.

**RIGHT VVHY**, now let's go over into auditing tech and we know that if the person doesn't have the **right** problem it won't resolve so they're usually trying to solve the wrong problem. Well that applies to every staff member there is. If he has a problem on his post it is not the problem he has on his post or it would not be a problem. It has to be a false problem for the thing to persist. So the **right why** is another way of saying the correct problem or the correct reason. (ESTO 9, 7203CO5 SO I)

**RIP OFF**, 1. Slang. Scn staff expression meaning "take without exchange. 11 Can be applied to personnel, money, anything. (BPL 11 Aug 72R I) 2. a new term has emerged in PAC: to denote being removed "wbam"

Now the way they make them is they drop some ink on one side of a sheet of paper and then they fold the paper over and then open it up again, and then now they've got ink blots on both sides and that makes an ink blot and then you're supposed to look at the ink blot and see what you see in it. If

anybody ever gave you one of these things don't ever bother to answer much and say I don't see anything in it, it absolutely ruins the test, or say it's ink and a piece of paper. Actually it was a child's game. Now most of these tests and so on were born out of the area of phrenology which is reading the bumps on people's skulls to tell their characters. That's where psychology came from in the first place, and why they eventually went Decper and thought it was the brain. (ESTO 3, 7203CO2 SO I)

People agree to postulates they can understand and appreciate. Hence a route and handling begins with a particle, develops with a theory, comes to life with an agreement and continues to work because of judgement and decision. Routes of handling are not orders to handle but directions to go. (HCO PL 22 Oct 62)

**ROUTE SHEET**, a written form listing the production steps, used in scheduling and sending through work.

**ROUTINE MISSIONS**, most missions fall into the category of **routine missions**. **ROUTING FORM, 1. the form** that lists the org terminals the PC has to check through in order to arrive in the HGC and in

the auditing chair. (BTB 3 Nov 72R) 2. when particles arrive at the org space proper they must be routed and must continue to be routed from the moment they enter until they leave the org space. Thus there must be a reception for bodies, for mail, for phone, for telexes and for messages in general. There must also be an exit point for all these things and someone to send them on their way out of the org space. Once the particle (body, dispatch, raw materials, whatever) is at the door reception must establish the **routing**. This is done usually with each step signed off **Routing Form** that gives the full road map of the particle. (HCO PL 25 Jul 72)

The RPF MAA may designate another to supervise their production. (8) Standard ethics penalties that apply to them to be triple for each offense they are found guilty of, until they fully join the RPF of their own determinism. (9) may communicate only with the RPF MAA or his designated assistant. (10) may not join RPF fully until acceptable amends made to all RPF members. (FCO 2990-2) [The first **RPF's RPF** assignment was made because the person considered their RPF assignment amusing, an award and was therefore unable to recognize a need for redemption or any means to effect it. Until such time as the person recognized this need and of their own self-determinism requested to be included in RPF redemption actions, the restrictions applied.]

**RUDIMENT 1**, (organization **rudiment**) *Admin*: be sure organization is properly registered and in proper legal relationship to the International Board of Scn. Be sure key posts are covered even if doubled. Make sure there is an Executive Director on post doing Exec Dir work of running org, a registrar, a Letter Registrar, somebody on public, somebody on accounts, somebody receiving and mailing the mail, somebody answering phone, somebody selling books, and that the persons on these posts are doing these jobs. Do up the org board properly and truly. Get Chinese School done on it daily with all executives and staff. Make sure that quarters exist adequate to need, that bank accounts exist in proper order and that records of income and disbursement are being kept. Be sure the standard unit system is in force without large sums going out on fixed pay or unjust favoritisms. Tech: be sure that there is an Academy in the hands of a person who knows his Scn and that there is an HGC in the hands of somebody who can crack

cases and that staff auditors exist who can audit. The extent of action of this **rudiment** is to get basic legal, basic posts, basic quarters entirely covered, a condition which may deteriorate at other times than at the org's beginning. So cover all these points by careful review each time this **rudiment** is done. Incidentally, make sure there are no new departments or posts which are contrary to the seven division system. (HCO PL 11 Dec 61RA)

**RUDIMENT 2**, (organization **rudiment**)

*Admin:* get the personnel busy. We don't care at what, but really rip up people who stand around talking and who burn up the staff's units with no production. Get staff meeting reorganized and going. Hold a staff meeting, explain unit system and how nobody can afford idle hands. The way to raise the unit is to get busy. New wild ideas won't work. It's getting busy on the existing ideas that raise the unit. The org makes as much as it can deliver service and no more. Find out who thinks they are overworked and underpaid and find out what they've done on their jobs the past week. Raise a storm and get people busy. *Tech:* get the supervisors training and the auditors auditing. We don't care how at this stage. Just get them busy doing technical actions flat out. We don't care how, but get PCs being audited so they're better and students trained so they can audit. (HCO PL 11 Dec 61RA)

**RUDIMENT 3**, (organization **rudiment**)

*Admin:* get the current policy letter on the seven division system brought to date and then hat checked on everybody including all executive, admin and tech staff and the janitor. Get everyone to pass it from Exec Dir to cat on all departments until every person knows the functions and actions of all departments. Then they see what's supposed to be happening. *Tech:* get all trained Scientologists checked over on operating an E-meter until there isn't anybody present who hasn't passed E-meter essentials 100%

perfect and can actually run a PC on a meter without goofs of any kind. (HCO PL 11 Dec 61RA)

**RUDIMENT 4**, (organization **rudiment**)

*Admin:* check out the Letter Registrar and all address and mailing personnel on their jobs, making up any non-existent hats from old files and get all the addresses you can that would mean anything into action and get them personally getting written to as a steady high volume program. *Tech:* get all Scientologists into line on integrity processing until they never goof a withhold on anyone. (HCO PL 11 Dec 61RA)

**RUDIMENT 5**, (organization **rudiment**)

*Admin:* get the registrar and reception hats made up and checked out and the body lines of students and PCs really straight and working. *Tech:* get Director of Tech and all supervisors hat checked on the latest Academy rundowns and make sure the Academy is running to train students, not to burn time. Get Academy 8C tough and sharp and training pressure up. When the students' tongues are hanging out and their foreheads bead with sweat and they're really learning, this rud is in. (HCO PL 11 Dec 61RA)

**RUDIMENT 6**, (organization **rudiment**)

*Admin:* get accounts hats on and collection straightened up and to date. *Tech:* hat check Tech Sec, C/S and D of P on the C/S Series, HCOBs and the Classification and Gradation Chart. (Ref: C/S Series 25) and get them functioning on them. Drill and get the HGC lines in. (HCO PL 11 Dec 61RA)

**RUDIMENT 7**, (organization **rudiment**)

**RUDIMENTS OF AN ORG**, for some time, I have been advocating that you get one piece of organizational data in before you do another. This has been a very rewarding action. Orgs have become better off at once by doing this. Therefore, let's call it **rudiments of an org**, and have the HCO Area Sec get them in one at a time all the while the Exec Dir is keeping things running. You get in one simple thing. Then you get in another. An org is composed of two factors. These are technical and administration. These must never get out of balance, in either personnel numbers or programs. Therefore when getting in **org rudiments**, you always get one in in Tech and one in in admin at the same time. (HCO PL 11 Dec 61RA)

**RUIN**, before you can save someone from **ruin**, you must find out what their own personal **ruin** is. This is basically-what is **ruining** them? What is messing them up? (HCO PL 22 Mar 65, *Saint Hill Services, Prices and Discounts*) 3. the **Saint Hill Special Briefing Course** has certain distinct purposes. The Course was begun to do two things. (1) to study and resolve training and education. (2) to assist people who wanted to perfect their Scn. The Scientologists studying here are supposed to concentrate on only three things: (a) the acquisition of the ability to achieve a rapid and accurate understanding of data given to them for study and to put that material into effect; (b) to achieve auditing results; (c) to get a reality on the achieving of auditing results by exact duplication of current methodology and not by additives or extraordinary solutions. (HCO PL 9 Jul 62) *Abbr.* SHSBC.

**SANITY**, 1. is the ability to recognize differences, similarities and identities. (HCO PL 26 Apr 70R) 2. sanity and honesty then consist of producing a valuable final product for which one is then recompensed by support and good will, or in reverse flow, supporting and giving good will to the producer of the product. (HCO PL 25 Mar 71)

**SANITY SCALE**, the points of success and failure, the make and break items of an organization are (1) hiring, (2) training, (3) apprenticeships, (4) utilization, (5) production, (6) promotion, (7) sales, (8) delivery, (9) finance, (10) justice, (11) morale. These eleven items must agree with and be in line with the Admin Scale. This then is a **sanity scale for the third** dynamic of a group. The group will exhibit aberrated symptoms where one or more of these points are out. The group will be sane to the degree that these points are in. Internal stresses of magnitude begin to affect every member of the group in greater or lesser degree when one or more of these items are neglected or badly handled. **SCALE**, a series of gradually increasing increments, measurements, values, marks, etc., arranged from lowest to highest and used to measure rate or compare something.

Scale (Def. 1)

**SCALE OF IMPORTANCE**, top is a goal, next is a *purpose*, next is a policy, then you have a plan then you have a *program* then you have a *project* and now you have an *order* then you have an ideal *scene* and then you have a statistic and then you have a *valuable final* product. That is the **scale of importance**. Now of course anybody can issue an order if there is a project which is derived from a program which is derived from a plan which is directly derived from policy. Policy is no good unless it is derived from a purpose. Skip having any plan at all if it doesn't eventually wind up in a valuable final product. Do you see that there's a band here? It's a band of dwindling authority but it also moves forward down the lines. (7012CO4 SO)

**SCALE OF MOTIVATION**, the **scale of motivation** from the highest to the lowest is: Duty highest, Personal Conviction, Personal Gain, Money-lowest. (HCO PL 11 Nov 69 II)

**SCALE OF PREFERENCE**, a definite and positive **scale of preference** for accepting and scheduling preclears (including students sent to Review) for auditing in the HGC and in the Case Cracking Section of the Department of Review. Last on the list is any person who seeks auditing as a favor "to demonstrate to others what it can do" or "because of importance as a person." (HCO PL 9 May 65, *Auditing Fees, Preferential Treatment of Preclears, Scale of Preference*)

**SCALE ORDER**, see ORDER, SCALE.

**SCALOGRAM**, market research tool used in evaluating a situation by discovering and extracting hidden or indistinct patterns that exist in a body of data, sufficiently complex to sometimes be relegated to computer processing. Also called Guttman sealing.

**SCHEDULED PURCHASING**, see PURCHASING, SCHEDULED.

**SCHEDULING**, establishing the time at which some process or action must start, change or stop.

**SCHEMA**, 1. a system whereby one becomes two, which in turn becomes four, etc. For example, the Dianetics Course also teaches each student to supervise and run the course. (FO 1999) 2. a mathematical action by which one thing becomes two things, each one of those becomes two more, each one of those becomes two more, etc. (FO 1941)

**SCIENCE**, expertness or ability to do, resulting from knowledge gained and verified by exact **n'hqp vntinn nnd en met.** thinking (FO 3335)

**SCIENTIFIC MANAGEMENT**, see MANAGEMENT, SCIENTIFIC.

**SCHIZOPHRENIA**, 1. the most prevalent "mental disorder" is supposed to be **schizophrenia**. This means "scissors" or two plus "head." A two-head in other words. And in this case two heads are not better than one (joke). You see this in institutions. A person is changing valences (personalities) click -click- click, one to the next. But the condition is a gradient one that worsens between sanity and the bottom of the scale. Midway, the condition is common but almost never noticed. It is so common today that it passes as normal humanoid. The person is not doing what he is doing. Examples of this are: people who do not like a job with responsibility because they "like to do mechanical things so they can dream of something else before they can"; persons who are out of area; persons who continually make dev-t. There is also the person who rams sideways into the work of others with "mistakes", "demands" and prevents them from doing what they are doing while himself not doing what he is doing. One can't say these people are crazy. Not today. But one can say they make problems, which are very difficult unless you know how to unlock the riddle. (HCO PL 3 Apr 72) 2. a withdrawal from reality. (7202C22 SO) 3. **schizophrenia** is the HC list madly out on the point of disassociation. (7202C22 SO)

**SCHOOL OF LIFE**, the former name (1956) of the lower level Scientology courses which became in later years the Personal Efficiency Foundation and then later, the Hubbard Apprentice Scientologist and Hubbard Qualified Scientologist courses. (LRH Def. Notes)

**SCIENTOCRACY**, one of the wittier D.Scns invented **Scientocracy** which is "Government of the people, by the thetans." (PAB 25)

**SCIENTOLOGIST**, someone who can better conditions. A Scientologist then, is essentially one who betters the conditions of

himself and the conditions of others by using Scn technology. Of course, there are lots of "do-gooders" and people trying to better conditions, but the difference between them and a **Scientologist** is that the **Scientologist** is the one who knows how. He is equipped with far superior know-how. He is in much better shape than the person on the street. (BPL 21 Oct 71 I) 2. an individual interested in Scn. Disseminates and assists **Scientologists**. (HCO PL 21 Oct 66 11, City Office System) 3. the being three feet behind society's head. A trained **Scientologist** is not a doctor. He is someone with special knowledge in the handling of life. (HCOB 10 Jun 60)

**SCIENTOLOGISTS HATTED**, (Public Division Statistic) number of Scientologists hatted: the stat is redefined as any Scientologist or Dianeticist who can produce the 4 products of a Scientologist. When he can do that he's a **hatted Scientologist**. "Any **Scientologist** or Dianeticist" means any person who has completed any Scn or Dn course or 12 1/2 hour intensive and who is a member of the church. The "produce" means with ease in a reasonable period of time. The 4 products of a Scientologist are: (a) purchased books, (b) disseminated knowledge, (c) environmental control, (d) a cleared planet (or in other words to break it down: new Scientologists or Dianeticists). (HCO PL 28 Nov 71R II)

**SCIENTOLOGY**, 1. the word **Scientology** is one which you might say is anglicized. It comes from the Latin Scio and the Greek Logos, with Scio the most emphatic statement of know we had in the Western world. And ology (from Logos) of course means "study of." Scio is "knowing in the fullest sense of the word" and the Western world recognizes in it and in the word science something close to a truth. (PXT., p. 1) 2. a religion in the oldest sense of the word, a study of wisdom. Scn is a study of man as a spirit in his relationship to life and the phy-

sical universe. It is non-denominational. By that is meant that Scn is open to people of all religions and beliefs and in no way tries to persuade a person from his religion, but assists him to better understand that he is a spiritual being. (BPL 6 Mar 69) 3. a religious practice applying to man's spirit and his spiritual freedom (HCO PL 6 Apr 69) 4. the ability to change condition. The technology of how you change. (SH Spec 57, 6504CO6) 5. Scn as practiced by the Church of Scientology is a spiritual and religious guide intended to make persons more aware of themselves as spiritual beings restoring respect for self and others and not treating or diagnosing of human ailments of body or mind nor engaged in the teaching or practicing of the medical arts or sciences. (BPL 24 Sept 73RA XIII) 6. not the field of the human mind, Scn is the overall science which also includes the human mind. (541OC04) 7. Scn assumes that every man can be more able than he is and then goes ahead with very precise techniques to make him so. (551OC08) 8. the science of life. It teaches the fundamentals of life, the laws and basics of living. Our technology can be used to handle any condition that you find in life and if applied it will better those conditions. Scn is not some esoteric body of knowledge only to be used in the auditing room. It is something one can go out into the world with and use in all walks of life as well. It seems that this is a very broad and an amazing science but this is because Scn isolates and aligns the basic truths of life and life is everywhere. (BPL 21 Oct 71 I) *Abbr.* SCN.

**SCIENTOLOGY ACCOUNTS SYSTEM**, see ACCOUNTS SYSTEM.

**SCIENTOLOGY CHURCH REGISTER**, a register for marriage, recognition and naming, and funeral services kept in every **Church of Scientology**. The Chaplain keeps the register. It should be in accordance with any local regulations regarding such. (BPL 24 Apr 69R)

**SCIENTOLOGY CONSULTANTS, INC.**, we have now, for the first time, a complete line of books in each of Dn and Sen. These are in actuality separate subjects, and we now have the material and corporations necessary to make them entirely separate. We are going to conduct a very large radio campaign throughout the middle West concerning Dn only. To do this, we will probably revive the Hubbard Dianetic Research Foundation of Arizona, since this is now getting cleared up all past accounts. Scn will be exclusively handled by the Founding Church and the HASI. No letters or literature should cross the words Dn and Sen. They should be maintained separately. It is the basic truth that Dn is a mental therapy which was developed out of the body of knowledge called Scn, as fully discussed in an early *Journal of Scientology* (1952), but the legal position and the actual practice of these two subjects means they must be kept apart. From a management standpoint, these organizations are held separately, in view of the fact that they are to be managed through **Scn Consultants, Inc.**, which is a management corporation. (HCO PL 25 Jan 57) *Abbr.* SCI CON.

(HCO PL 9 Jun 59)

**SCIENTOLOGY SYMBOL**, the S and double triangle. There are two triangles, over which the S is imposed. The S simply stands for Scn which is derived from "Scio" (knowing in the fullest sense). The lower triangle is the A-R-C triangle-its points being affinity, reality and communication. These are the three elements which combined give understanding. The upper triangle

is the K-R-C triangle. The points are K for knowledge, R for responsibility and C for control. (HCO PL 18 Feb 72)

**SEAGULL**, a symbol of the Sea Org going back to its first origin. The **seagull** is associated with the power of the sea. Traditionally, a bird soaring skywards is symbolic of the spirit ascending, or freeing itself, and, generally speaking, birds are symbols of thought, or imagination, and of the swiftness of spiritual processes and relationships. In the Sea Org coat of arms, the bird is used in a group of three. Thusly, it represents such concepts as the third dynamic, the cycle of action, and the Be-Do-Have cycle. A group of three also symbolized spiritual synthesis, and is the formula for the creation of each of the worlds. In our terms, this represents the three universes, one's own, others, and the physical universe. That the **seagull** is white symbolizes the basic purity of the spirit. The red band ascending across the four divisions of the field (the fourth dynamic) represents the bridge which is strengthened by the activity of the Sea Org and the Church of Scientology in line with Ron's purpose. (FO 3350)

Seagull

**SEAHORSE**, the traditional Sea Org symbol for standard technology. Formally adopted in 1968 as the symbol of Class VIII, it is employed on documents of the highest priority as the symbol of the continuous dedication of the Sea Org to the maintenance of standard tech. down by L. Ron Hubbard is maintained, we protect the bridge for all mankind to attain to a higher spiritual state. (FO 3350)

(FO 508) 2. the **Sea Organization** is composed of the "aristocracy" of Scientology. These people alone and on

their own are all stars in the sky of their areas. It is like one of the old regiments of gentleman where any private would be, in another but common regiment, a colonel. So, the **Sea Organization** is composed of people who alone would excite great admiration but who together, well organized, can actually get the job done. (FO 137) 3. in 1968 the Sea Org became a goodwill activity and an efficient administrative arm of Scientology. The Sea Org runs the Advanced Organizations and is the custodian of the Clear and OT processing materials. (Ron's Journal 1968) 4. the basic purpose of the **Sea Org** is to get in ethics. **SEA ORG SYMBOL**, 1. the Sea Org symbol adopted and used as the symbol of a Galactic Confederacy far back in the history of this sector, derives much of its power and authority from that association. The laurel wreath represents victory. Used throughout the history of this planet to crown poets, artists, champions and conquerors, it not only represents the physical victory but the series of inner victories achieved by the individual, and the clarification and purification of his inner aims and purposes which lead to the outward victory. It is associated with the head, the traditional abode of the spirit. The star is a symbol of the spirit. The five pointed star most commonly signifies rising up towards the point of origin; thus, it is a potent symbol of alignment to source. The laurel wreath and star, in combination, signify the victory of the spirit which is rising upward towards the point of origin or source. Its proper color is always gold. And note that the star is not trapped in its victory, but is in the open field towards the top of the wreath, allowing free exit, beyond its victory, and that is, in fact, in a field of blue, symbolizing truth. (FO 3350) 2. the star is the confederation and each one of those leaves is counted, it's the number of stars. (6804SM-)

**SEC ED, 1. Secretarial Executive Directive.** (HCO PL 7 May 65) 2. Secretarial Executive Director. (HCO PL 22 Feb 65 III) 3. LRH EDs were earlier called SEC EDs. (HCO PL 24 Sept 70R) 4. now named "Executive Directives" or EDs. (HCO PL 1 Sept 66R) 5. Secretarily signed order of the Executive Director, expiring one year from date of issue. (HCO PL 13 Feb 66 II) 6. the meaning of the word **SEC ED is Secretarial** to the Executive Director. The word "**Secretarial**" applies to the signature meaning it is signed as official by a person other than LRH personally. It is the written initials in the lower left-hand corner that are "Secretarial." The system came into use to accommodate cable orders originally. By being sealed and initialed by an official person like a notary public in the org, the validity of the order was attested as a valid order of LRH. (HCO PL 3 Feb 66 V) 7. they will be on blue paper with blue ink. The initials SEC ED always precede a SEC ED number. All personnel orders will not also appear in SEC ED form. (HCO PL 8 May 65 II) 8. Secretarial Executive Directives are explicit temporary urgent orders. It is desirable that a SEC ED is broadly distributed to a staff and that SEC EDs of broad interest be distributed internationally. (HCO PL 7 May 65) 9. **Secretarial Executive Director** orders apply mainly to personnel or local conditions, expire in one year if not stated to expire earlier, may only last one year in any event. Policy letters apply broadly to all orgs and Scientologists without exception. (HCO PL 5 Mar 65 II) 10. the Executive Director comm. lines now include **Secretarial Executive Director** in all orgs including Saint Hill. This consists of a note or cable typed out by the HCO Steno (or Communicator where no HCO Steno exists or by the HCO Area Secretary where no communicator exists). It is sealed with the corporation seal in the lower left-hand corner over the signature of the HCO personnel typing it. It is headed "Secretarial Executive Director." It

is on blue paper. The signature of the Executive Director or the Acting Executive Director is typed below the message. Date and subject are included. Each SEC ED is numbered by the issuing Executive Director. The exact text of the note or cable is duplicated without additions or deletions. This is never a mimeographed item. The original sealed SEC ED, with the note or cable, goes to HCO files. A copy is immediately posted on the staff bulletin board by the HCO personnel who typed it and signed and sealed it. Another copy goes to the org /Assn Sec. Another copy goes to the HCO Area Sec. SEC EDs are high speed, urgent communications having the force of policy and require instant emergency compliance. The SEC ED is the high velocity comm line used to change personnel, to handle emergencies or to make limited time policies or to handle personnel conflicts or chronic slumps. All SEC EDs expire fully one year from date of issue but are kept on record although no longer in force. The subjects of SEC EDs are not general in application to all orgs but only to the particular org to which they are addressed. (HCO PL 22 Feb 65 III) 11. **Secretarial Executive Director** (numbered), green ink on blue paper. By LRH. Distributed as designated. This is in effect a reissue of Assn Secretary or HCO Continental Orders after review by LRH. Designed to confirm, consolidate or end disputes or differences between HCO Continental or Area Sec and HASI Assn Secs. (HCO PL 4 Feb 61) 12. a hat is not a hat anymore in a Central Organization unless it's Secretarial Executive Director on blue paper, black ink, with a corporation seal on every valid copy. When a Secretarial Executive Director is issued, it is published on the bulletin board and given to the persons to whom it applies. Now this means Secretarial Executive Director operates as the Secretary to the Advisory Committee or Advisory Council. The Secretarial Executive Director operates as Secretary to the board or any other commit-

tee action or board action that takes place. This person, who is really the HCO Steno, turns up as the Recording Secretary, prepares the minutes and sends them to their proper places for signature. That's one action. The other action this person takes is to collect old hats. If there's any new hat write-up, the Secretarial Executive Director issues it. If there are any changes that take place in the organization by its orders, Secretarial Executive Director changes them. So you get, in essence, hat preparation and write-up the issuance of general orders for the local organizations through the **Secretarial Executive Director**. Now, you get HCO Secretarial Letters. Very seldom will you get anything that says "Secretarial Executive Director for Washington D.C. only" because if its going wrong in one place, it's going wrong someplace else too. But you do get incidental orders to that effect, so they can't be excluded. Instead of that you get an HCO Secretarial Letter. Now this HCO Secretarial Letter arrives in a central operation and is converted by Secretarial Executive Director, after being viewed by the HCO Secretary. It is converted, and it says: "Secretarial Executive Director, HASI, Johannesburg." She types it all up. They are never mimeographed unless they are for the whole staff or something. She puts a copy on the board, she puts a copy to the persons to, and that's it. She's issued it. Now, these are all policies. These things are basically policies. They are hats, and so on. They may have particularities, but they definitely have lots of policies connected with them. (5812C29)

Grade IV training, Grade V Power Processing, a full PE and is also served by a Foundation (usually on a Six Dept System). It may have one or more Executive Divisions depending on whether it is Worldwide, continental, zonal, subzonal, or local. (HCO PL 21 Oct 66 II)

**SEVEN DIVISION SHIP ORGANIZATION**, when we say **Seven Division Ship Organization** we will mean the divisional assignments. All members of the ship's company belong to this too. But it may be that two or more ships (a flotilla) are combined in the organization as they keep company most times at least in port and deputies can serve in their stead when they are separated. So when we say **Seven Division Ships Organization** we really mean flotilla organization. We could say "squadron" but that's military and is also used now for air. "Flotilla" merely means two or more ships. We have two vessels, several launches and pulling boats and may have more, so the word is fitting. Thus we have our Watch Quarter and Station Bill for each ship and we have our flotilla organization chart which is our seven division system. (Ship's Org Bk.)

**SEVERANCE**, the act of termination of employment or separating oneself or being separated from a business firm.

**SEVERANCE PAY**, extra wages given to employees that are leaving a business or who have been discharged. Also called separation pay.

**SHELL COMPANY**, see COMPANY, SHELL.

**SHIELD**, the shield or escutcheon forms the basis for the rest of the coat of arms, and traditionally contains a major part of the symbology in the choice of design and color used in it. It could be divided in several ways. The Sea Org coat of arms is divided in four divisions as symbolic of the fact that we are operating to handle the fourth dynamic engram. Emblems are then placed on the background in relation to each other. These emblems, according to what was used, gave information to those initiates who had been familiarized with the shield. Frequently, they give information on the heritage of the group as well as its goals and aspirations. (FO 3350)

Ship admin and ship handling hats are the duties of a ship member relating to his specific hat or post in the ship. (FSO 2)

**SHIP COMMITTEE**, the First Mate, Chief Engineer, and Chief Steward form a **Ship Committee**. The First Mate is Chairman. They meet daily to attest or give deficiencies or recommend future actions regarding (1) the condition of the hull, boats and ship's gear, deck stores and deck force. (2) the condition of the engines, service to ship, repairs, fuel, water, lub oil and spares and engineer force. **SHIPPING AGENTS**, agents whose major purpose is to service ships calling in their ports, involving the provision of food and fuel, and booking cargo to fill the available capacity of those ships of "their" lines which are calling in the port where they are situa-

ted. A single agent or a chain of agents are contracted to one or more shipping lines to provide this service to all of their ships calling at that port. (FO 2738)

(Ship's Org Bk.)

**SHIP'S COMPANY**, when one says ship's company we mean all officers including the Captain, all petty officers, all engineers, cooks, crew, the lot, everyone aboard including the ship's cat (who so long as he is aboard debars salvage total claims even if he is the only one left). **SHIP'S OFFICER CONFERENCE**, there is Ship's Officer Conference in Div 4 Dept 11. This is called to advise the officers of programs. It is also used to plan targets and missions. It's actions require Captain's approval before they go into effect. Usually they are held by the Captain but can be held by the Chief Officer or the Supercargo. (FO 1021)

**SHIP'S OFFICER SCHOOL**, as the Sea Org rapidly runs out of ship's officers in its expansion, a **Ship's Officer School** is founded on Flag. Its curriculum will be extended to other ships when formed so that time served on any ship with the study program followed will count. In the future, a Captain's School for those who have finished **Ship's Officer School**. (FO 2742)

**SHIP'S OPEN HOUSE**, the first Sunday after the ship's arrival in any port a **Ship's Open House** may be held during the afternoon. This is a drill which begins with permission of the port authorities, ads in local newspapers, posters placed in ship windows. It ends with streams of public with VGIs leaving the ship and receiving literature and a small souvenir. (FO 2910)

**SHIP'S ORG BOOK**, our own technology (Scientology) is so far in advance of general engineering, electronic and other current technology that we are always a bit amazed that man's engines and electronic gear don't run without careful nursing, and his ship's don't sail well at all without extreme care. It behooves one to be pretty expert at sea to arrive at all. So in these various articles in this org book, you will find data to fill in the gaps. It is not invented data, it is for the most part painfully traditional. The reason

this book exists at all is because man's texts, and his memory, are woefully inadequate. I have given here, amongst various orders, some of the vital technology needed in seafaring which is omitted for the most part from the manuals available. (FO 40)

**SHIP'S REPRESENTATIVE**, 1. holds and keeps safe all passports and vaccination cards and is responsible for their validity, and stamping into and out of the country. **SHORT INTERVAL SCHEDULING**, the practice of assigning work to employees in small lots to be completed in specified short periods of time with the idea of improving and better controlling production by close inspection.

**SHORT POSITION**, the amount of stock an investor has sold short and has not covered as of a particular date.

**SHORT SALE**, the action of selling stock which one does not own yet but which one anticipates buying at a lower price before delivery is due. Thus if one can sell \$500.00 worth of stock and buy the same amount for \$400.00 before delivery is due he has made \$100.00.

And in 90 days find she can't do her job. So they fire her and hire another. That's 150 days of no-correspondence. It's enough to ruin any firm. It's costly. In simultaneous hiring a firm hires 3 girls feeling they need 1. At the end of 150 days they have 1 girl. But they had 150 days of correspondence. And a profit. (HCO PL 29 Aug 70 III)

**SIN**, sin is composed, according to Scn, of lies and hidden actions and is therefore untruth. (HCO PL 29 Oct 62)

be working or helping. When only one man, senior or junior, is doing all the controlling and work of an activity he is said to be single-handing. The term derives from the sea (like so many English words). Single means "one only" and "hand" means a sailor. "Handing" is the verb of "**single-hand.**" (HCO PL 1 Oct 70) 2. by **single-handing** one means do it himself, being the one responsible for actually handling things. (HCO PL 28 Jul 71) 3. by single-hand means to run it all by himself performing all vital functions. The term comes from a sailor who runs a boat or vessel by himself alone with no other crew. There were the branch offices all over the U \* 8. There on the wall is a map. Pins for each branch office, a big pin is the main office in Poughkeepsie. Ribbons leading from each branch office to the main office. And there's the general manager looking out at these branch offices. He hears something on the phone or the janitor about Torgueville. He sees this situation as it looks from Poughkeepsie. And he issues his snap orders. And the company struggles along somehow. Any general sitting on a hill looking at the strung out battle used that same moth-eaten system. Every major company, every air force uses it. Been traditional since there were main offices or headquarters. And orders can get pretty unreal. (FBDL 192R)

(HCO PL 30 Jun 70) 7. the broad general scene on which a body of current data exists. (HCO PL 15 May 70) *Abbr.* Sit.

Situation (Def. 3)

**SITUATION ANALYSIS**, in confronting a broad situation to be handled we have of course the problem of finding out what's wrong before we can correct it. This is done by data analysis followed by situation analysis. We do this by grading all data for out-points. We now have a long list of out-points. This is data analysis. We sort the out-points we now have into the principal

areas of the scene. The majority will appear in one area. This is **situation analysis**. We now know what area to handle. (HCO PL 15 May 70)

**SITUATION HANDLING MISSION ORDERS**, **mission orders** that send missionaries out to handle things have always been referred to simply as "mission orders." A full title is given this type of situation handling mission orders. Two or more missionaries are always sent on **situations handling MOs** as such missions fail when attempted by just one missionary. Such MOs cover a situation, a calculated why and the handling of the situation terminatedly. Each target must be terminatable within the time span of the mission. In essence this is a program that can be concluded. (FO 2936)

**SIX DEPARTMENT ORGANIZATION**, the Six Department Organization has up to 75 staff members, an org board similar to the Seven Division Org Board but in **departments**. It delivers up to Grade IV training and Grade V Power Processing as permitted, operates a PE and may or may not have a Foundation attached. If so its Foundation is City Office size. (HCO PL 21 Oct 66 II)

**SIX DEPARTMENT SYSTEM**, Central Organizations are now running on the Six Department system. Each of these six departments has its own Director, Deputy Director and function. **SLICE SCALE**, income tax method in which there are divisions or "slices" of income for which different tax percentages are charged at increasing rates such as the first slice being taxed at 10%, the second slice at 15%, and so forth.

**SLIDING SCALE**, a scale of prices, wages, taxes, etc., that can be proportionately raised or lowered to meet certain conditions. In a sliding wage scale where salaries range from \$5,000.00 to \$10,000.00 annually the rising cost of living may cause the scale to slide up to a \$6,000.00 to \$12,000.00 range with all

figures on the scale in between being raised in equal proportions.

**SLIP SYSTEM**, accounting system, also known as file posting, in which the record consists of original invoices kept in an unpaid file until payment is received.

**SLOW COMM LINES**, (form of dev-t) dispatches held up on lines cause other dispatches to be originated about the same subject, causing dev-t to both sender and recipient. **SLOWDOWN STRIKE**, see SLOWDOWN.

**SLOW EVAL ASSESSMENT**, see LENGTH OF TIME TO EVALUATE.

**SLUG**, every story written for newspaper use must have a name. This is called a slug. Generally it is one word, usually the key word that describes the story. Thus, a student riot could be **slugged** "Riot," a heat wave "Heat," an airplane accident "Plane." Where there are several stories, all related, two words are generally needed: "Plane-Accident," "Car Accident." (BPL 10 Jan 73R)

**SLUMP**, a steep decline in business activity, prices or interest rates.

**SLUMP REPORT**, report of lessened income or traffic. (HCO PL 13 Mar 65 II)

SNIPES, Slang. engineers. (FSO 359RA)

SO 1 QUARTERLY SUMMARY, thousands of letters are received on the SO 1 line every month. Of these, the vast majority are pure theta good news (95%). However, a tabulation of complaints, queries and requests (the remaining 5%) shows a very interesting picture of where situations lie that need to be handled. This data is extremely valuable to management for isolating situations well before they blow up and Rap. These **summaries** will be issued henceforth on a monthly and **quarterly** basis. (FBDL 439)

SOCIAL COORDINATION BUREAU, frequently PR gets into a situation whereby it creates an entity or group or organization to bring about some change of value within the community or to handle some outstanding social injustice. In many cases the reform or action is brought to a successful conclusion; however, in many instances, the action to be effected is one which will require more time and effort. In expending such time and effort, PR to keep ahead finds itself in the situation of having and running a group or organization within its own bureau; therefore, PR must, when this occurs, realize that it is now in the situation of managing and administering an established entity which is likely to continue and, therefore, should fully turn over the terminals, lines and organization of same to the **Social**

**Coordination Bureau** which is the **Guardian Bureau** which properly acts as a management unit for such entities, activities, groups and organizations. (BPL 22 Jul 75)

SOCIAL COUNSELLING, under **social counseling** come those areas of tech which enable a person to be a better member of society. (BO 1 MEX, 10 Nov 74)

SOCIAL COUNSELLOR COURSE, (this is the public and sales name) a course designed for persons who don't want to be a professional. The graduates are called Social Counselors. The course covers the basic materials of Dn and Scn and teaches the student how to audit. It gives the student the vital knowledge of man, his mind, and his relationship to the world around him necessary to an understanding of and success in life and to handle the behavior and cases of those around them. (SO ED 135 INT)

SOCIAL COUNSELLORS, 1. non-pro auditor course graduates. (BPL 15 Jan 73R)  
2. a **social counselor** is a tech trained person who is posted in Dept 17 under the Public Reg to provide advice to public persons. His purpose is: to help Ron guide public persons toward happiness through properly recommended applications and use of Scn and Dn to become more at cause. The main difference between **Social Counselor** and Chaplain activities is that the **Social Counselor** is handling raw public directly, and is a sales person, whereas the Chaplain handles Scientologists and Dianeticists on a higher professional level, as the Chaplain for the entire org field and staff. (HCO PL 2 Dec 72 II) [The above HCO PL was cancelled by BPL 10 Oct 75 X.]

(2) the social personality is eager to relay good news and reluctant to relay bad. (3) a social personality passes communication without much alteration and if deleting anything tends to delete injurious matters. (4) treatment, reform and psychotherapy particularly of a mild nature work very well on the **social personality**. (5) the friends and associates of a **social personality** tend to be well, happy and of good morale. (6) the **social personality** tends to select correct targets for correction. He fixes the tire that is flat rather than attack the windscreen. In the mechanical arts he can therefore repair things and make them work. (7) cycles of action begun are ordinarily completed by the **social personality**, if possible. (8) the **social personality** is ashamed of his misdeeds and reluctant to confess them. He takes responsibility for his errors. (9) the social personality supports constructive groups and tends to protest or resist destructive groups. (10) destructive actions are protested by the **social personality**. He assists constructive or helpful actions. (11) the **social personality** helps others and actively resists acts which harm others. (12) property is property of someone to the **social personality** and its theft or misuse is prevented or frowned upon. (HCOB 27 Sept 66)

**SOLVENCY**, 1. solvency consists only of income greater than outgo and making enough money. (LRH ED 74 INT) 2. meaning outgo less than income and huge reserves building against need. (FO 1664) 3. cash over bills ratio. (FO 2389) 4. survival of an org depends on solvency. Solvency depends on making more than it spends. (LRH ED 78 INT)

**SOM - X**, auditing by list-the early research designation. Means SOM for "somatics" plus 3 for "**third**" and L for "prepared list." (LRH Def. Notes)

**SOUND ORGANIZATION**, the only organization that is a **sound organization** is one whose every activity can be tabulated by statistics. (HCO PL 13 Mar 65, *Divisions 1, 2, 3 The Structure of Organization What is Policy?*)

**SOURCE**, Scientologists recognize and revere the spiritual leadership of L. Ron Hubbard as the Founder, and as the Source of the religious philosophy of Scientology. (BPL 24 Sept 73RA XIII)

~**SOURCE MISSION**, 26 top Flag personnel were fired from Flag in 12 separate mission teams to take to the orgs of the planet a

closer connection with L. Ron Hubbard, their Founder. They began giving the orgs data and details about Ron and his life and actions; about his incredible abilities in the many fields which he has mastered. As this important communication line raised reality on the true brilliance of Ron, planetary affinity for and understanding of Source rocketed, and in tremendous surge the Scn orgs of the planet moved more closely on-Source! (FBDL 404-I)

**SOURCES OF TROUBLE**, types of persons who have caused us considerable trouble. These persons can be grouped under sources of trouble. (HCO PL 7 May 69)

**SOUTH**, in Scn means worse off. "Amongst the auks and penguins" is a colloquialism that goes along with that. (5904C15) See **SOUTH OF THE AUKS** in **DSTD**.

**SOUTH AFRICA SPECIAL RUN-DOWN**, this technology has been specially developed for the people of Africa by LRH when he was in Africa in 1960-61. The **rundown** is given as follows: (1) any PTS handling per HCOB 10 August 73, *PTS Handling*. (2) ruds at the beginning of each session. (3) havingness is run before each help process. (4) help processing. (5) havingness is again run after each help process. (6) confront is run after help and havingness and then repeats cycle as in steps (3), (4), (5), (6). (BTB 21 Oct 73R)

**SPARKS**, the radioman is generally addressed as "Sparks." (FO 87)

Sparks

**SPECIAL**, a feature story sent to several newspapers at the same time. (BPL 10 Jan 73R)

**SPECIAL AGENT**, person or company authorized to act for another in a single matter or a series of matters, whose role is not as broad as a general agent's who has more extensive powers to act on behalf of a principal.

**SPECIAL DRUG RUNDOWN**, the **special drug rundown** was issued to handle persons currently on drugs. Such persons have to be weaned off drugs in order to be audited. This is done by having the person do TRs further assisted by vitamins. Those with heavy drug histories or recently or currently on **drugs** do not usually run well on engrams until objective processes have been run (CCHs, 8-C, etc.). Thus a person *currently* on **drugs** would require a full TR course as the first step and then objective processing before the standard drug RD per C/S Series 48R could be started. Such a person is therefore enrolled onto the HQS (which includes TRs and co-auditing on objective processes) as their first step. But

note that this is for persons currently on **drugs**, not for anyone who has ever taken **drugs**. (BTB 25 Oct 71R II)

**SPECIAL EVENT**, a carefully prepared promotion offered or sponsored by a business firm such as an open house, fashion show or entertainment program.

It should be clearly understood that this money and any funds that can be salvaged from the HCO 10% (which is spent locally in most Central Organizations) will help pay the expenses of the new promotional writing and research center, located at Saint Hill, East Grinstead, Sussex. (HCO PL 28 May 59, *Promotional writing Fund*)

**SPECIAL INFORMATION PACKAGES**, **packages** made up and mailed by the Letter Registrar to inform various sections of the mailing list on the next service they might be interested in, having already done something. There could be a book **info packet** for a person who has just bought a book, a test **info packet** for a person just tested, a PE info packet for the person who has just done a PE, etc., etc. In each case it offers the *next* service. (HCO PL 4 Feb 61)

**SPECIALIST**, in the main, Sea Org crews, are **specialist** crews. By **specialist**, one means fully trained on one post per watch or drill. (FO 2469)

**SPECIALIST**, 1. one who has devoted himself to a special area of study, research

and practice related to his occupation or profession. 2. in the investment field, a person who is a member of a stock exchange and who acts as a broker's broker, executing on behalf of a broker, limited orders (clients' orders to buy or sell a specific amount of a stock at a certain price or at a better price if possible). A specialist also buys or sells for his own account when there is a disparity between supply and demand, in the stocks in which he is registered as a specialist.

**SPECIALIST BLOCK PURCHASE**, the purchase of a large block of stock outside the regular exchange market by a specialist for his own account and subject to special circumstances.

**SPECIALIST BLOCK SALE**, sale by a specialist from his own account of a large block of stock outside the regular market, allowed only under special circumstances and subject to exact requirements.

**SPECIALIST CHIEF'S DEPARTMENT**, (Ship Org Board) Department 12, Division 4, the Production Division. He should be all ready to go into action on any of his functions, have the right equipment, keep records, plan ahead and generally I would think be your answer man for problems, like how can I raise that anchor we lost last night? or what can the crew do this afternoon on liberty on this godforsaken rock we've landed on? (Ship's Org Bk.)

**SPECIALIST RECRUITER**, responsible for the recruitment of specialist type personnel, that is if auditors are needed for Flag, or engineers or any other specialized field he will concentrate on finding personnel for that area and of that particular skill needed. (FO 3475)

**SPECIALIST TRAINING**, having a general knowledge of the area but being trained fully to total competence on the exact actions and handling of one specific post. (FSO 413)

**SPECIAL PROGRAMS OFFICER**, (Flag) the Staff **Special Programs Officer**, under CS-6 to directly coordinate the **Special Programs Unit** via the Public Officer, plus Special Projects Worldwide. (FO 1715)

**SPECIAL PROGRAMS SECTION**, 1. (FB) the **Special Programs Section** is mainly concerned with putting Scn into areas where there is little or no Scn. (CBO 189-I) 2. pilot project section. Everytime you get one of these wild ideas you put it into special programs and it will wind up not wrecking you. All new types of expansions are piloted, they are piloted. Otherwise, you'll go broke, because you're testing consumption. (FEBC 8, 7101C24 SO I)

**SPECIAL PROGRAMS UNIT**, the Special Projects Unit is transferred under the Public Officer, Div VI (Flag). This unit becomes the Special Programs Unit, which will compile data and complete targets as assigned. (FO 1715)

**SPECIAL PROJECT**, 1. there's a lot of trial and error in developing a program. That's why any new program should be only a "special project" for a while, off the org main lines, really, under special management. If a "special project" starts to show up well in finance (and only in finance), then one should include it "in" with its new staff

as an org standard project. (HCO PL 24 Dec 66) 2. to find and establish a program, one conceives of a solution and sets it up independent of org lines with its own staff and finance as a special project. When a special project is seen to be effective or, especially, profitable, it is then put into the org lines as worked out in the "special project," bringing its own staff with it. (HCO PL 24 Dec 66 II)

**SPECIAL PROJECTS UNIT**, see SPECIAL PROGRAMS UNIT.

**SPECIAL SERVICES UNIT**, to accommodate the expansion of AOLA solo and Advanced Courses delivery to the public of the Western Hemisphere and to provide this public with nearby hotel **service, a special services unit** is established in the annex adjoining the Fifield Manor. The Special Services Unit will be initially manned with: (a) Solo Courses I/C who is I/C of the annex and operates as its Product Officer. Solo Courses I/C holds from above the hats of Solo D of P and Public MAA unit further personnel are provided to fill these posts. (b) Solo C/S. (c) Solo Review Auditor (also audits OT IV and OT VII RDs). (d) Solo and Ad Courses Supervisor. (e) Folder and Pre-OT Admin/Page. (f) Qual/Cramming/Certs and Awards/ Success/Examiner. (g) Reception/Registrar/Cashier. (BO 43 U.S., 31 Oct 73)

**SPECIAL STATS UNIT**, there is obviously a special stats post somewhere in the Ops Bureau. The guy is drawing up stats for some thing or other. There's somebody always either catching up backlogs of stats or drawing up a special graph for some evaluation. E.g. "What were the stats of Keokuk Org in 1952?" You can call it a **special stats unit**. (7205C18 SO)

**SPECIALTY GOODS**, goods for which there is a limited market or which are designed for special purposes, demands or needs. A store selling only goods made of

Oriental jade or ivory is dealing in specialty goods.

**SPECIAL ZONE PLAN**, 1. we are masters of IQ and ability. We have know-how. Any of us could select out a zone of life in which we are interested and then, entering it, bring order and victory to it. The third and fourth dynamics subdivide. Any third breaks down into many activities and professions, a neighborhood, a business concern, a military group, a city government, etc., etc., etc. The fourth dynamic breaks down just now mainly to races and nations. Now just suppose a Scientologist were to consider himself a professional only for the purposes of treating and repairing or even starting again these third and fourth zones? See this: a housewife, already successful employing Scn in her home, trained to professional level, takes over a woman's club as secretary or some key position. She straightens up the club affairs by applying comm practice and making peace and then, incidental to the club's main function, pushes Scn into a zone of special interest in the club-children, straightening up marriages, whatever comes to hand and even taking fees for it-meanwhile of course going on being a successful and contributing wife. So this is a challenge on the third and fourth. Almost all Scientologists are in a position to begin to help on such a program. (HCOB 23 Jun 60) [See the reference HCOB for a full description of the **Special Zone Plan**.] 2. To Director of **Zoning**, London: please arrange the following: make a card file out on everybody that comes in; and in particular write down name, address, and the zone they're interested in, and the possibility or not that they will do volunteer auditing evenings for some special personality. Keep this list of special zone workers and keep it out of CF as such. You can info addressograph that so and so is a **special zone** worker, but for now keep your own card file and build it up. (HCO PL 20 Jul 60)

**SPECIFIC ORDER PRODUCTION**, see PRODUCTION, JOB.

**SPECIFIC QUESTION**, the difference between a general and a **specific question** is a matter of general or **specific** terminal. If the question has a general terminal such as "anyone," "men," "people" it is harder to clear than a question with a specific terminal such as "your father," "Miss Smith" etc., etc. (HCO PL 9 Oct 61)

**SPECIFIC UNEMPLOYMENT**, see UNEMPLOYMENT, SPECIFIC.

**SPECTATOR**, 1. let us look at the definition of OT-cause over thought Life Form Matter Energy Space and Time. As one falls away from that one becomes a spectator, then one becomes effect. In the society today spectatorism is very common. Magazine writers, reporters write weird pieces that look at how odd things are. The writer doesn't understand them at all. He just watches them. Spectatorism is not so low as total effect. The total effect-no cause-person has mainly a case. He doesn't even look. (HCO PL 14 Jan 69) 2. spectatorism is very great in our modern society. Because some people cannot conceive of causing anything they just watch it. They don't do anything. They are not participants. They are **spectators**. You see this in magazines; a hee, hee, hee article about how odd this is or that is. No understanding of it. It's just odd and one watches it in a detached sort of way. Below this is somebody who doesn't even notice. Such a person has to come up scale just to be a **spectator**. What we need are more participants, more team mates. (OODs 14 Jan 69)

Spectator (Def. 2)

**SPECULATIVE MAILING LIST**, a list of names and addresses of people who might be interested. (BPL 17 May 69R I)

**SPECULATIVE PRODUCTION**, see PRODUCTION, SPECULATIVE.

**SPECULATIVE PURCHASING**, see PURCHASING, SPECULATIVE.

**SPECULATORS**, there are "**speculators**" who seek to buy something (like land) cheaply and sell it dear. Or sell it dear, depress the market and buy it back cheaply. In either case they make a profit. It is less well understood that "**speculators**" also operate on the subject of money itself. By manipulating the value of one currency against another they seek to obtain a profit. (HCO PL 3 Dec 71)

**SPECULATORS**, persons who take large investment risks with the intent of greatly increasing their capital rather than being concerned with dividend income.

**SPEED-UP**, a state in which workers must increase their production efforts without added reimbursement.

**SPLIT-RUN COPY TESTING**, advertising practice of running the same advertisement in different media and then comparing results and relative drawing power of the advertisement in those media.

**SPLIT SHIFT**, a schedule of work hours that is not continuous but is split up into two or more intervals.

**SPOILS SYSTEM**, a system whereby promotions or appointments are made on the basis of the winning candidate or political party rewarding loyal supporters and friends by appointing them to public office.

**SPOT CHECK**, in checking out technical materials on students or staff **spot check** the words and materials, do not try to cover it all. This is done the same way a final examination is given in schools: only a part of the material is covered by examination, assuming that if the student has this right the student knows all of it. (HCO PL 4 Oct 64)

**SPOT MARKET**, see MARKET, SPOT.

**SPREAD**, 1. in investments, the disparity between the price an investment concern pays for stocks and the selling price for which they are offered to the public. 2. type of advertisement space or an advertisement that runs across two or more pages of a magazine or newspaper.

**SP TARGET**, some guys are so bad off they set targets like "move the mountain" and give one and all a big failure. Since there's no way to do it and probably no reason to either, that's an **SP target**. So what must be done means just that. What is vital and necessary. Not what is simply a good idea. (HCO PL 14 Jan 69)

**SQUARE DEAL**, Slang. phrase for a business deal that is fair and honest.

**SQUIRREL**, n. what makes a squirrel? It is the person on the other side of the **squirrel**. It is a person invalidating him invalidating his goals, invalidating his interest, and kicking the props out from underneath him by covert hostility or overt hostility, but in any way, kicking him apart. He's interested, he's working, but part of another universe. But practically on the same time continuum is an invalidative mechanism about this man not

Scn. It isn't kicking Scn around, it's kicking around somebody's stable data and it's creating continuous confusions for him. So he splits off not knowing quite where he stands. Is he in this universe called Scn or is he or she in this universe called husband or wife or something? So here we have this invalidative person who is against it on the other side or our guy and we sometimes can't reach this other person. (5511CO3) -v. 1. means go off line. (HCO PL 3 Dec 68) 2. (going off into weird practices or altering Scn) only comes about from non-comprehension. Usually the non-comprehension is not of Scn but some earlier contact with an off-beat humanoid practice which in its turn was not understood. When people can't get results from what they think is standard practice, they can be counted upon to **squirrel** to some degree. (HCO PL 7 Feb 65) -adj. by **squirrel** is meant off-beat technology. (HCO PL 6 Feb 66)

**SQUIRREL ADMIN**, the departure or alteration of standard admin. The use of the word "**squirrel**" is long standing because squirrels in their little cages go 'round and 'round and get nowhere and they are also, a bad pun, "nutty," meaning a bit crazy. The main source of **squirrel admin** is simply ignorance of policy procedure or the neglect of reading and applying it as simply as that. (HCO PL 4 Jun 71)

**SQUIRREL ADMINISTRATORS**, when a **squirrel** is given a circular wheel he will run it ,round and round and round. He gets nowhere. When persons in an organization do not know organizing or their org board or hats, they go ,round and 'round and 'round and get nowhere. There is no valuable production. There is no money. When you have an organization that has no valuable production you know that the people there go 'round and 'round and 'round and get nowhere. They are **squirrel administrators**. (HCO PL 25 Jan 71)

**SQUIRREL COOKERY**, there is also **squirrel cookery**. This normally arises from not having the proper ingredients to hand (supply failure) and not having anyone to wash and slice and peel raw materials so they can be cooked. A standard meal comes from planned menu, correct supply, correct preparation of raw materials and following the exact recipe. (OODs 2 Feb 71)

**STABLE DATUM**, 1. we have in Scn a certain doctrine about confusion. It is called the doctrine of the **stable datum**. If you saw a great many pieces of paper whirling about a room they would look confused until you picked out one piece of paper to be the piece of paper by which everything else was in motion. In other words, a confusing motion can be understood by conceiving one thing to be motionless. Until one selects one datum, one factor, one particular in a confusion of particles, the confusion continues. The one thing selected and used becomes the **stable datum** for the remainder. (POW, p. 23) 2. any body of knowledge more particularly and exactly, is built from one datum. That is its **stable datum**. Invalidate it and the entire body of knowledge falls apart. A stable datum does not have to be the correct one. It is simply the one that keeps things from being in a confusion and on which others are aligned. (POW, p. 24) 3. a datum which keeps things from being in a confusion and around which other data align. (NSOL, p. 66)

Stable Datum (Def. 2)

**STABLE TERMINAL**, 1. a **stable terminal** pushes the actions that belong to his area on the org board and handles or suppresses the confusions of that area or aligns them with the correct flows. (HCO PL 4 Nov 69) 2. a post is a position from which a terminal operates in an org, where one knows that somebody is at. The one holding it is the **stable terminal**. (FO 2200) 3. a **stable terminal** is also a terminal to whom programs, projects and orders may be given with the sure knowledge that they will be complied with and executed. (FO 2201)

**STABILIZATION INTENSIVE**, in cases where a handle or disconnect does not resolve the PTS situation, or in auditing a pre-clear to maintain stability of release levels, the action follows search and discovery technology. This will be called a **stabilization intensive** and may be ordered by ethics in severe cases or may be sold by the registrar. (HCO PL 30 Dec 65)

**STAFF**, 1. the personal office of the Flag Officer, consisting of Aides, Yeoman, Stewards, Coxswain, Signalmen, etc. (FO I) 2. the beings assigned to the Commodore as personal staff are referred to as Staff Personnel, or Staff. (FO 467) 3. Staff Aides. (7205C18 SO) 4. the Staff Captain is the leading officer of Commodore's Staff. The word Staff in this sense means Commodore's Staff, not org staffs. Staff consists of Commodore's Aides and personnel but not AVU. (a) duties of a staff member inside front cover, (b) all bulletins covering **staff members** arranged chronologically, (c) anything that would pertain to all staff **members**. (SEC ED 58, 27 Jan 59) 3. there is a general **staff hat**. This **hat** contains (a) the overall purpose of the org, its aims, goals and products, (b) the privileges or rewards of a **staff member** such as the auditing, training on post, general training availability, pay, vacations or leave, etc., (c) the penalties involved in non-production or abuse of post privileges or misuse of the post contracts, (d) the public relations responsibilities of a staff member, (e) the interpersonal relations amongst staff members including courtesy, cleanliness, attitudes to seniors and juniors, office etiquette, etc., (f) the MEST of posts generally, its papers, dispatches, files, equipment, (g) the comm and transport of the org. (HCO PL 22 Sept 70) 4. OEC Volume 0. (BPL 3 Feb 72R)

**STAFF MEMBER REPORT**, a dispatch form addressed simply to the Ethics Section. It is dated. It has under the address and in the center of the page the person or portion of the org's name. It then states what kind of a report it is. The original goes to ethics by

drawing an arrow pointing to „ethics" and the carbon goes to the person or portion of the org being reported on by channels. (HCO PL 1 May 65)

**STAFF OFFICER**, see STAFF MAN.

**STAFF OPERATIONS OFFICER**, all missions come under the direct supervision of **Staff Operations Officer**. **Operations** come under the supervision of **Staff Operations Officer**. (FO 644)

**STAFF PROGRAM NO. 1**, 1. major target: to consolidate existing organizational structures and so facilitate expansion, better pay, improved facilities and higher organization and staff security. Vital targets: (1) all staffs fully trained on the OEC. To reduce confusion and overwork by a few by fully educating staffs into the functions of every part of an org and their posts in particular. (2) improve service delivery by increasing the technical skill and confidence of every staff member and in particular the skill of technically assigned personnel. To vigorously apply the technology of study itself as contained in the HDG pack to this broad educational effort. To expand smoothly and unflinchingly. (LRH ED 27 INT) 2. the training of org staffs on the HDG and OEC. (LRH ED 32 INT)

**STAFF R3 CLEARING PROGRAM**, a **staff clearing program**. The activity of the staff who are auditing each other is as follows: a problems intensive, if necessary; then running on current goals procedures. A Saint Hiller is appointed as Staff Supervisor of staff cases. He calls them in during the day, checks over cases and progress can even audit them. Does anything and everything to clear them. (HCO PL 17 Jun 63)

**STAFF RELATIONSHIP**, designating the relationship of staff officers to line officers in a company. A staff relationship is one of providing advisory or consultancy services or performing the organizing functions of accounting, training, transportation, re-

search, etc., as opposed to the actual production line which is handled by line officers.

**STAFF REVIEW OFFICER**, a staff member is only sent to Staff Review Officer for remedies if his flunks have been continual and he is not making progress at all. The Staff Training Officer may not hold any additional post than Staff Review Officer and if so checkouts must consistently be at one period of the day and review another. If traffic is too heavy not even this additional hat may be worn. If Staff Review Officer is singly held the holder may also audit staff, and do assists. (HCO PL 20 Jul 66)

**STAFF SECTION OFFICER**, (Qual Div) purpose: to help Ron make real staff members. The person on the post of Staff Section Officer has total authority over who will be processed and what they will be processed on, who will be trained and what they will be trained on, and has authority over all persons who are engaged on those duties or at the time they are engaged on those duties. The authority of the **Staff Section Officer** over who will get processed and what he will get processed on is absolute. The authority of the Staff Section Officer on who will be trained and what they will be trained on is absolute. In a very small org the Staff Section Officer will also hold from above the Staff Training Officer and the Staff D of P. But where this becomes onerous, the other two posts should be filled. The state of in-tech delivery of interns becomes the concern of the Staff Section Officer since most of the processing of staff is done by interns. (HCO PL 22 May 76) *Abbr.* SSO.

**STAFF STAFF AUDITOR**, audits staff members when called upon to do so by the Org Sec. Handles auditing emergency assists on staff. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**STAFF STATUS**, 1. a number following the person's name on the org board that shows the state of administrative training of

the individual as done in the Staff Training Section. Status numbers go from 0 for temporary, 1 for provisional, 2 for qualified general staff member on up for the various executive grades. If no number, appears after a name, the person is holding the post without checkout for it. A low ranking staff member can have a high status number as it is qualified for, not "appointed to." This prevents qualified persons from being by-passed in promotion. WO PL 13 Mar 66) 2. a number giving the value and promotion eligibility of a staff member in this organization. The numbers run from zero to ten. They designate the type post to which a person may be promoted or the status of the person. WO PL 4 Jan 66 V) 3. staff status is a result like certificate, depending on study, service and examination. It is assigned by number derived from study, service and examination. (HCO PL 18 Nov 65) *Abbr.* SS.

**STAFF STATUS**, the conditions of employment in a concern such as length of usual work week, overtime arrangements, wage payment method (weekly or hourly basis), holidays, etc., as well as fringe benefits including health insurance, pension plan and bonuses which today generally are extended to all personnel- executives, white collar employees and blue collar workers.

**STAFF STATUS 0 (ZERO)**, 1. a staff status is a number giving the value and promotion eligibility of a staff member in this organization. The status numbers most important to a new staff member are 0 (zero), 1 and 2. 0 = temporary, 1 = provisional, 2 = permanent. A staff member who is newly hired is designated 0 (zero) status after his or her name on the organization board. (HCO PL 4 Jan 66 V) 2. **Staff Status 0** as an exact rundown is added as the initial orientation and hatting step for all new org staff members. It precedes Staff Status I and II, and is commenced immediately upon joining staff. The product is: an oriented, in-ethics person, hatted as a beginning Scientologist and staff

member, who knows he is a Scn staff member and is able to participate. Staff Status 0 is done per the Staff Status 0 checksheet. (BPL 27 Apr 73R) *Abbr.* SS 0.

**STAFF STATUS 1**, a staff member given a provisional rating may recourse to ethics and have an ethics hearing if dismissed. He may be transferred to other divisions without a hearing if his division is over-manned. A provisional is designated as "1" on the org board after his or her name. To obtain permanent status a provisional must obtain his or her basic staff certificate. This has a checksheet for which the HCO Exec See is responsible for compiling. (HCO PL 4 Jan 66 V) *Abbr.* SS I.

**STAFF STATUS II**, a permanent staff member may not be demoted, transferred or dismissed without a full Committee of Evidence being held. Permanent status is designated on the org board by the numeral 'T' after a person's name. (HCO PL 4 Jan 66 V) *Abbr.* SS II.

**STAFF STATUS 111, 1. Staff Status III** is attained by doing the OEC Volume checksheet of one's own division and then passing an examination with a high grade on that OEC Volume. (HCO PL 17 May 74R) 2. each staff member studies and completes OEC Volume 0 and then goes immediately to the OEC Volume checksheet for his own division. When the checksheet for his own division has been completed, the staff member will do a written examination, of which the pass mark is 92%. Additionally, the Examiner will inspect the staff member's division for evidence of application of the materials on the checksheet and this examination passed with a high grade on the volume of one's own division will result in the award of Staff Status III and is credited on the remaining OEC Course. (HCO PL 19 Nov 73) [The above HCO PL was cancelled by HCO PL 17 May 74R, *The New Staff Status III, OEC and FEBC*] *Abbr.* SS III.

**STAFF STATUS IV**, Staff Status IV will be awarded when all policy in a staff member's portion of the org has been completed, i.e. HCO and the Dissem Division, or Treasury, Tech, Qual and Distribution. (HCO PL 19 Nov 73) [The above HCO PL was cancelled by HCO PL 17 May 74R, *The New Staff Status III, OEC and FEBC*] Abbr. SS IV.

**STAFF STATUS V**, Staff Status V will be awarded when all policy in the remaining portion of the org has been completed. (HCO PL 19 Nov 73) [The above HCO PL was cancelled by HCO PL 17 May 74R *The New Staff Status III, OEC and FEBC.* ] Abbr. SS V.

**STAFF STATUS VI**, Staff Status VI will be awarded when the staff member has completed all policy on the Executive Division. Staff members in the Exec Div will not be awarded Staff Status VI until all OEC Volumes (Vols 0-7) have been completed. (HCO PL 19 Nov 73) [The above HCO PL was cancelled by HCO PL 17 May 74R, *The New Staff Status III, OEC and FEBC.*] Abbr. SS VI.

**STAFF STATUS VII**, Staff Status VII will be awarded when the staff member has completed the Senior OEC, which comprises additional policies from the existing OEC Vols to the end of 1973, as studied by division. (HCO PL 19 Nov 73) [The above HCO PL was cancelled by HCO PL 17 May 74R *The New Staff Status III, OEC and FEBC.*] Abbr. SS VII

**STAFF STATUS VIII**, Staff Status VIII will be awarded when the staff member has completed the FEBC. The FEBC is composed of the Management Series plus FEBC tapes. (HCO PL 19 Nov 73) [The above HCO PL was cancelled by HCO PL 17 May 74R, *The New Staff Status III, OEC and FEBC.*] Abbr. SS VIII.

**STAFF TRAINING OFFICER**, 1. the head of the Staff Training Section, Dept 14,

Div 5. The purpose of the STO is: to help LRH train individual staff members and applicants from his own and other orgs in ethics, tech and admin, keeping track of them, guiding them through org courses, giving them checkouts, expediting their training, seeing that their personnel records in Dept 1 of their org are factual as to training and assisting them in every way to get training and to be trained rapidly, with the end product that orgs have no untrained staff members. (HCO PL 21 Sept 69) 2. responsible for getting the individual through his program on training making full utilization of scheduled and other study time. To do this he uses time machine orders, 2WC, ethics, cramming and any other device needed to get the staff member through his course and his program. He is not a supervisor basically. He ensures the staff programs are being completed. (FO 2824) Abbr. STO.

**STAFF TRAINING PROGRAM NO. 2**, program to improve admin and stats of org, by reviving staff status 0, 1, 11, 111 on administratively untrained or new staff. (LRH ED 121 INT)

**STAGE FRIGHT**, it is the unwillingness to confront a mass. It is a can't have on the mass. That is all. To prove that, it is only necessary to change one's mind or run a process on having that mass, to cure stage fright. It cures just like that. Remedy of havingness. (5611C01)

**STAGGER SYSTEM**, we will institute the stagger system of training up our executives by relieving one or two at a time and returning them to Flag for their training. (FBDL 25)

**STALE DATE**, the term stale date (used previously by banks on cheques) means any dispatch or answer that is older than one should reasonably expect when one receives it or any answer that is older in date from origin to answer or answer to receipt than

one should reasonably expect. (HCO PL 17 Jul 66)

**STALEDATED ORDERS AND DISPATCHES**, a type of dev-t where **staledating** delays action, often important, and creates anxiety and emergencies. New (developed) traffic results in an attempt to get an answer or compliance. (HCO PL 27 Jan 69)

**STALEDATE REPORT**, any staff member receiving an internal org dispatch that has been enroute more than three days (dated the fourth day earlier than date of receipt) must report the matter to the Director of Communications who must thereupon request the Director of Inspection and Reports to investigate and report to Dir Comm and order any resulting ethics action. Anyone sending a stale date complaint to the Dir Comm must first answer or handle any dispatch he is holding and send it to the Dir Comm with its answer. Dir Comm copies or xeroxes the original and the answer promptly and sends the original onto its next recipient and uses the copy only for investigation. (HCO PL 17 Jul 66)

**STANDARD**, standard means a definite level or degree of quality that is proper and adequate for a specific purpose. (*Webster's Third New International Dictionary Unabridged*. Standard 3 b, P. 2223).

**STANDARD ADMINISTRATION**, 1. to approach the subject of **standard administration** realistically, one first must recognize that a right way to do things can exist. There are an infinity of ways *not* to start a car. There is only one way to start a car. So it is with any **standard** procedure. There is a tech of **admin**. This would be the right ways to do administrative actions or organize something. Standard admin means the usual "on policy" procedure applied. (HCO PL 4 Jun 71) 2. solutions that work and are therefore routinely used to handle the situation to which they apply are then called **standard**

**admin**. (HCO PL 25 Jan 71) 3. we had to have the fundamental or basic laws of organization in order to develop the full structure of organization. Administration becomes standard when we have the most important points or laws or actions and when we always use these and use them in just the same way. (HCO PL 9 Nov 68) 4. in **standard admin**, we are acquiring (a) a knowledge of basics, (b) the basics that exist in and around a specific organization, (c) the ability to handle those basics with such speed and certainty that it seems instinct. And when we have this, the organization, will go, go, go with an ease and lack of effort that is astonishing. (HCO PL 9 Nov 68) 5. there is a thing called **standard admin**. It comes from the policy letters. When we produced the wild, soaring tech stats with the Sea Org Class VIII auditor program it was by putting in the exact processes and grades. By going super **standard** we got 100% case gain. It is the same with policy. If you get an org in with super **standard** policy-promotion, form and admin-the stats soar. (HCO PL 25 Oct 68)

**STANDARD ADMINISTRATIVE ACTION**, when experienced persons, working from basic theory, have evolved a technique for handling a situation which routinely now handles that situation, we have now a **standard administrative action**. (HCO PL 25 Jan 71)

**STANDARD BRIEFING**, just as there is standard tech so is there also **standard briefing**. The following lists the actions of a standard briefing.

- (1) Briefing Officer ensures all mission information and orders are available and in writing.
- (2) Briefing Officer gives each missionary a copy of the orders to study. Missionaries study the orders.

(3a) Briefing Officer has each missionary do individual clay demos of each target and point of the orders.

(3b) Briefing Officer gives starrate checkouts on each demo per HCOB 11 October 67, *Clay Table Training*.

(3c) Briefing Officer attests on the missionary's copy of the Mission Orders that each demo is OK per HCOB 11 October 67, *Clay Table Training*.

(4) Briefing Officer checks out starrate each missionary on his written mission orders (tape recorded per FO 1530)

(5) **Briefing** Officer two way comms and drills the mission on the orders until the missionaries know them and know how to handle any foreseeable stop to the mission (tape recorded per FO 1530)

(6) Briefing Officer sends each missionary to Qual to attest he knows, understands, and will comply with his written mission orders. This is standard briefing! (FO 2466)

**STANDARD COSTS**, see COSTS, STANDARD.

**STANDARD DIANETIC AUDITOR**, certificate is Hubbard Dianetic Counselor (HDC). The Hubbard **Standard Dianetics** Course teaches about the human mind, mental image pictures, the time track, locks, secondaries, engrams. Processes taught are **Standard Dn auditing and Dn** assists. End result is ability to restore or bring others to complete health and happiness. (CG&AC 75)

**STANDARD DIANETIC COMPLETION CERTIFICATE**, this certificate requires a well, happy human being as its end result. Usually this requires at least 25 hours of Dn auditing and the auditing of a score or more of items by **Standard Dn** and may also entail in conjunction with auditing, medical treatment for any physical illness or disease. **Standard Dn completion** tends to ensure

full gains on Scn grades and the attainment of exteriorization with perception at AO levels. (HCO PL 2 Sept 69 II)

**STANDARD DIANETICS**, modern Dn auditing is called Standard Dn and new Dn. It is a precision activity. New Dn is itself. It produces wonderful results if done exactly. I find it takes a very vigorous course to make a **Standard Dn** auditor. (LRH ED 9 INT)

**STANDARD DIANETICS C/S COURSE**, the tech of Dn is and always has been different from that of Scn processing. C/Sing of Dn is its own tech. This is a specialist course that teaches and trains one to apply that tech as a C/S. Prerequisite is the HSDC (or HPDQ. Available at any Scn org. (BPL 26 Apr 73R I)

**STANDARD ITEMS**, (PR&C) those paper and litho supplies that have been proved through months of experience to be needed in making **standard** products. (FSO 681)

**STANDARD OF LIVING**, the way of life which a person is willing to accept for himself and those around him. It includes the amount and quality of food, clothing, shelter, entertainment, etc., which he Decms necessary for his survival and comfort and for which he is willing to strive to obtain or maintain.

**STANDARD PRODUCTS**, (PR&C) those **products** which PR&C produce to assist top management achieve their goals. (Includes such things as packs, tapes, promo materials, books, booklets and posters.) (FSO 681)

**STANDARDS**, the degree of rightness one is trying to establish and maintain. (HCO PL 30 Dec 70)

**STANDARD TECH**, **standard tech** isn't a process or a series of processes. It's how to make auditing work. (LRH ED 88 INT)

**STANDBY AUDITOR**, **auditor** to do assists or to fill in when a regular Dept 10 auditor or interne is taken off. (ED 140 FAO)

**STANDING**, continual. (HCO PL 13 Mar 72)

**STANDING ORDER NO. 1**, all mail addressed to me shall be received by me. (HCO PL 18 Dec 61)

**STANDING ORDER NO. 1 LETTERS**, letters from Scientologists and the public addressed to LRH. (HCO PL 18 Dec 64, Saint Hill Org Board)

**STANDING ORDER NO. 1 LINE**, 1. the line to me is known as the **SO No.1 line**. This is because the arrangements for it are laid down in Standing Order Number One. The actual order, reissued on 18 December 1961, follows: "All mail addressed to me shall be received by me." (LRH ED 223 INT) 2. the line used to channel originations to Ron from the public. (LRH ED 36A INT)

**STANDING ORDER NO. 2**, a message box shall be placed in all Scn organizations so that any messages for me may be received by me. (HCO PL 18 Dec 61)

**STANDING ORDER NO. 3**, HCO personnel and Scn personnel should not discourage communication to me. I am always willing to help. By my own creed, a being is only as valuable as he can serve others. (HCO PL 18 Dec 61)

**STANDING ORDER NO. 4**, see HCO STANDING ORDER NUMBER 4.

**STANDING ORDER NO. 5**, see HCO STANDING ORDER NUMBER 5.

**STAR**, one of a group of usually four or five conventional stars used to place something in a scale of value (d five-star performance in modern research-J.T. Soby). (*Webster's Third New International Dictionary*) [The terms five star process and ten star process used in this sense appear in *The Creation of Human Ability*.]

**STARBOARD**, the right-hand side of a ship looking forward toward the bow, opposite to port. (FO 2674) *Abbr.* STBD.

**STARBOARD AND PORT WATCH**, see TWO WATCH SYSTEM.

**STAR-RATED BOARD OF REVIEW CHECKOUT**, the student may audit on a process of a certain level when he has passed all theory and practical checkouts for that process. The Board of Review need no longer give provisional classification examinations, but need only ascertain that the student has passed all theory and practical checkouts for the next process to be run for a particular level. We will call this a **Star-Rated Board of Review Checkout**. We will have to starrate, therefore, each and every HCOB and tape that is required to run an exact process. (HCO PL 2 Apr 65 III)

**START CHANGE STOP**, the cycle of action of this universe is start, change and stop. This is also the anatomy of control. Almost the entire subject of control is summed up in the ability to start, change and stop one's activities, body and one's environment. (POW, p. 46)

Start-Change-Stop

**START-UP COSTS,** see COSTS, START-UP.

**STAT BOARD,** each course has a stat board. It shows each student's daily stats as he goes along. (BPL 18 Jul 71R I)

Stat Board

**STAT CEILING,** for every department the HCO Area Sec could have a stat. That stat would tell him exactly how many letters could be gotten out, how many this could be done, how many that could be done, how many students could be handled. He could map the whole establishment, the whole establishment **stat ceiling** and that you could call a stat ceiling. That stat ceiling per de-

partment would give you exactly what the potential of the establishment was. (FEBC 10, 7101C24 SO III)

**STATE,** a state is composed of individuals who can work cooperatively. (691OC17 SO)

**STATE BANK,** see BANK, STATE.

**STATEMENT,** a summary of an account that shows the amount on hand or due. Usually it includes a summary of the nature and amount of all transactions that occurred during a specific time period, usually monthly.

**STATEMENT FILES,** each debtor of any company we are handling has his own file. All invoices and papers relating to such debtors are kept in this file folder. A statement sheet is also kept. A copy of the contract (photostat) is kept in this Me. The original is kept in a valuable document file in the safe. This applies to any company, firm or person who sends us money or owes us money. (HCO PL 27 Jan 60)

**STATE OF EMERGENCY,** 1. the indication of a state of emergency can be read beforehand from an Organization Information Center board, being forecast by red lines in three or more graphs, or by three red lines on one graph. If management has tolerated this without action when one red line occurred a state of emergency has already begun when it reaches three, since this is patently one or a dozen dropped balls. The organization can be assumed to be out of control. (HCO PL 17 Feb 61 II) 2. the state of emergency is a serious condition. For it takes a series of serious blunders to reduce statistics or bring about local infamy or a public or press smear campaign. The state is not idly assigned and is assigned only after a steadily declining statistic or a series of non-compliances or offences resulting in over work for seniors of the org or near catastrophe. (HCO PL 30 Apr 65) 3. when an org or portion of an org has consistently down statistics (Organization Information Center) or numerous non-compliances or

offences, it is declared to be in a state of emergency. This can be assigned to a unit, sub-section, section, department, division or the entire organization. It is not assigned to a person. (HCO PL 30 Apr 65)

**STATE OF THE ORGS**, a weekly report called **state of the orgs** is submitted by management to the Aides Council and CO FB. This is a mimeo list of all orgs. It has a column each for each division, for GI, comps, cash bills, tone and viability. It is marked by the symbols E for excellent, G for good, P for poor, D for dangerous, F for failing. Tone is marked not by symbol but by Tone Scale taken from reports. On the basis of management reports and stats, the State of the Orgs is filled in. This also serves as a cross check on aides divisions over the world. Needless to state the **state of the org** list is grouped by continent with the OTL or CLO leading the continental group. The continent as a whole is then added up by division so a line is left for this after each continent. (FO 3113)

**STATION**, 1. (ship term) the place and action to which a person is fully grooved in, trained and competent and is assigned. (OODs 7 Jun 70) 2. what his watch duties are. (FO 2674) 3. the position where a person stands or is placed; the place from which a service is provided or operations directed. (FO 2967)

**STATIONSHIP**, the **stationship** in each area is the stable terminal for the Commodore and for Flag in that area. The major purpose of stationships is: to put in and keep going AOs and SHs and Central Orgs in their areas, and keep the Sea Org solvent. Actions taken by a **stationship** would normally be in the form of missions or projects. Their major observational data of both Scn and SO orgs and units are, of course, statistics. As a general rule, if stats are up, the **stationship** lets the Sea Org COs and Exec

Councils under them get on with the job and backs them up. (FO 2199) *Abbr.* SS.

**STATIONSHIP ORDER**, issued for that **stationship**, only by the Captain or Deputy Captain. Goes to all personnel of that ship and a copy to Flag. (HCO PL 24 Sept 70R) *Abbr.* SSO.

**STATIONSHIPS' PRODUCT**, functioning orgs. (FO 2200)

**STATISTIC**, 1. the relative rise or fall of a quantity compared to an earlier moment in time. If a section moved ten tons last week and 12 tons this week, the **statistic** is rising. If a section moved ten tons last week and only eight tons this week the statistic is falling. (HCO PL 30 Jan 66) 2. a number or amount compared to an earlier number or amount of the same thing. **Statistics** refer to the quantity of work done or the value of it in money. (HCO PL 16 Dec 65) 3. a tight reality, a stable point, which is to measure any departure from the ideal scene. (HCO PL 6 Jul 70) 4. a positive numerical thing that can be accurately counted and graphed on a two dimensional thing. (HCO PL 6 Jul 70) 5. the **statistic** measures directly the relative survival potential of the organism or its part. (HCO PL 6 Jul 70) 6. the only sound measure of any production or any job or any activity. (HCO PL 5 Jul 70) 7. the most direct observation in an org (or a country) is statistics. These tell of production. They measure what is done. (HCO PL 5 Feb 70) 8. a difference between two or more periods in time so is always comparative. (HCO PL 6 Nov 66 I) 9. the independent continuing survey of production or lack of it. (HCO PL 29 Feb 72 II) 10. a stat actually should consist of volume, quality and viability. (FEBC 12, 7102CO3 SO II) *Abbr.* Stat.

Statistic (Def. 4)

**STATISTICS**, (Post) purpose: to maintain accurate and continuous visual records of the activities of the HASI for the use of the executives and board of directors in planning future activities and analyzing past and current activity. To help the growth of the HASI along orderly lines by maintaining an historical record of that growth. (HCO London, 23 Apr 58)

**STATISTIZED**, that means the job he does is a statistic that can be verified. (HCO PL 1 May 65 III)

**STAT MANAGEMENT CHECKLISTS**, checklists taken from policy letters on or related to **management by statistics** and interpretation of statistics. They are *inspection* checklists. The items are all taken directly from the PLs and the only change in the wording of any of them consists of making each one a negative. Thus if in using a checklist the inspector or observer asks himself, "Does this item on this checklist exist here?", and finds that it does exist, then the PL the item belongs to is to that degree, violated, and he knows that he has his hands on an error, an out-point, or a possible why. As the subject is broad and has a lot of materials on it, the checklists have been divided into 4 parts. Part A is to do with the indicators and consequences of not having and using stats. Part B concerns the admin and preparation of graphs for inspection and use. Part C has to do with handling statistics, reading **statistics**, analyzing **statistics**. Part D concerns inspection of areas with down

stats, actions to take on stats, and what to do about the conclusions arrived at in reading or analyzing the stats. (BPL 29 Sept 72R I)

**STATUS SEEKING**, the effort to become more important and have a personal reason for being and for being respected. (HCO PL 14 Sept 69)

**STATUS VERIFICATION FORM**, form for use on all students entering AOs, all staff coming into employment in any Scn organization, and on any person whose status is in question, at the discretion of the 3rd Mate (HCO Area See). (FO 1677) [The form is done on an E -Meter and is a type of security check.]

**STATUTE OF LIMITATIONS**, a principle of law which requires that an action, such as a lawsuit, must be instituted within a prescribed period of time to be carried on.

**STEAL YOUR HAT**, you let somebody do your work for you that you are supposed to do. (HCO PL 1 Jul 65 III)

**STEP B (1)**, the requirement that the SP pay off all debts owed to Scn organizations per HCO PL 23 December 65, *Suppressive Acts, Suppression of Scientology and Scientologists, The Fair Game Law*. (HCO PL 16 Aug 65 II)

**STEPPED COSTS**, see COSTS, STEPPED.

**STEWARD**, she looks after the needs of the ship's company with respect to serving food, laying and clearing tables, berthing, linen, laundry and the cleaning of the common domestic areas of the ship. (FO 2558)

**STEWARDS PROJECT FORCE**, **project force** under the supervision of the Household Services Chief, handles galley and crew quarters, cleanliness, laundry, stewards assistance and other cycles as directed. (FO 3165) *Abbr.* SPF.

**STICKY GRAPH**, one that won't rise no matter what one does. Such a graph is made.

It is not a matter of omission. It is a matter of action. If one is putting heavy effort into pushing a graph up and it won't go up then there must be a hidden counter-effort to keep it down. (HCO PL 6 Nov 66 I)

Sticky Graph

**STOCK**, 1. a share issued by a corporation representing fractional ownership in the corporation. 2. a supply of materials, kept for current and future use. 3. total merchandise that a merchant has on hand to sell.

**STOCKBROKER**, an individual who, for a commission, handles a client's orders to buy and sell stocks, commodities or other property.

**STOCK, BUFFER**, a surplus stock of goods that a seller maintains as a buffer in order to fill exceptionally large orders or in case of product scarcity.

**STOCK CARDS**, **stock cards** for all equipment possession or issue in organizations shall be prepared by the administrative head of the organization. The idea of "company property" is both stupid and dangerous. That which is "owned by everyone" is actually owned by no one and falls apart. A car is not issued to "Department of Materiel." **It is issued to John John, who happens** also to be Director of Materiel. When a person is transferred, his possessions are signed for by the person, as a person, who takes over that position. If it exists somebody owns it and has signed for it -And until a

**STUDENT LITATION LIST**, HCO Bulletin 15 November 1974, *Student Rehabilitation List*. This is the one that g nt sailing, gets a blown student bt"~-`Itiitidkor back auditing. It even cures the revolutionary student!

**STUDY CORRECTION LIST REVISED**, HCO Bulletin 4 February 1972RC, *Study Series 7, Study Correction List Revised*. A real long work out for a person who won't study or who is having real trouble on a course. Goes after it in depth. Can be used as a second list to student rehab list or by itself. (LRH ED 2:1-37 INT)

**STUDY TIME**, a staff member is entitled to 2 1/2 hours study or auditing time per day. (HCO PL 2 Aug 71)

He does not know what a potato peeler is, he never checked out on the thing. What it is, is omitted technology. (ESTO 4, 7203CO3 SO H) 2. confusion is the basic cause of stupidity. To the stupid all things except the very simple ones are confused. (POW, p. 22)

**STYLE BOOK**, each newspaper develops its own **style book**. He'll tell you the type of stories (party line) and style the paper wants. (BPL 10 Jan 73R)

**SUBORDINATE**, an employee who is subject to the authority or control of another.

**SUB-PRODUCTS**, those necessary to make up the valuable final **products** of the org. (HCO PL 6 Apr 72)

Sub Products

**SUB -PURPOSES**, the **purposes** of the various sections or parts of the being, organism, group, race or species which forward the basic purpose. They must amplify, qualify and/or describe the action or procedure of the part of the whole in a brief and crisp way so as to hold them in function in their support of the basic purpose. They could also be called, the **purpose** of a part of the whole, or as we use them, the **purpose** of a post, unit, department or an org with a special function. (HCO PL 13 Mar 65, *Division 1, 2, 3 The Structure of Organization What is Policy?*)

**SUB-ZONE ORGS**, if a Zonal Org gets more than five orgs under it one of these is designated a **sub-zonal org**, taking under it excess orgs. (HCO PL 1 Mar 66 II)

**SUCCESS**, 1. **Success** handles interviewing all service completions and soliciting success stories from same. Putting all completions on the meter to ask key questions to verify satisfactory results. Routing back to Qual for correction and completions that are not happy or satisfied or that do not pass meter questions. Categorizes success stories

into types of successes and results. Distributes and posts success stories and makes such available for use in Div 6 and Div 2 promotion pieces and also for Div 2 and Div 6 Regs use. Sees that success stories are used. All these duties adds up to ensuring good word of mouth. (HCO PL 14 Nov 71RA II) 2. could be called a Qual function due to its flub catch aspects or a Div 6 function due to its promotion aspects. Thus question has arisen as to its org board position. Actually the argument is based on sub-products. Senior is the fact that success monitors word of mouth and therefore is a vital part of PR area control in Div 6. It is difficult for PR to succeed in the face of poor word of mouth. **Success** is the checkpoint that will ensure good word of mouth and wfl1 prevent persons with bad indicators leaving the org which will create bad word of mouth. When success functions are really in, good word of mout". s and a PRO can do his job with reality and it stumbling into bad word of mouth. An additional benefit is that success provided the vital information line on the results the org is obtaining with its services and this contributes to making PR real. Success is a type of PR area control. in itself and goes in as an ingredient to make up the whole of PR area control. Success monitors word of mouth = part of PR area control = Division 6. This finalizes the position of success. (HCO PL 5 Aug 71 II)

**SUCCESS DIVISION**, (Nine Div Org) Division 8 with Dept 22 Expansion, Dept 23 Population, and Dept 24 Success. (HCO PL 26 Oct 67)

**SUCCESS OFFICER**, one of the key public line posts in Div 6. He is the last tech police point in the org. It should not be al-

lowed to be unnaanned or held from above or, even worse, from the side by Qual. The Success Officer's purpose is: to help Ron get volume high communication success stories into the hands or notice Of the org's publics, enhancing and increasing desire for the Org's services. His immediate day to day function would be to. man the Success Officer desk on the public flow line, and interview each org completion, do the key questions meter test, to get the person to write up his success story in duplicate and to finally read and acknowledge the person for his success and congratulate him/her upon this achievement. (BPL 14 Jun 73R III)

**SUCCESS STORIES**, 1. the departmental stat of Dept 13. It is defined as the number of creditable success stories, less the number of people not passing key questions, less two for any ethics action taken on a student, preclear or staff member for the week. What is creditable? Deserving some credit or praise. The criteria would be: is the success story worthy of display or use or positive in its statements? If a success story is negative or critical or unhappy, it would not be creditable and would be an indicator of a cert or award which had been improperly given out. (BPL 14 Jun 73R I) 2. (Qual stat) total number of success stories less one for each flunk of key questions less two for any ethics action taken on a student, preclear or staff member for the week. In the Sea Org these titles became Supercargo and Chief Officer but the functions were similar. (WO PL 9 May 74) 2. the Supercargo, Dept 20, has general control and authority over Divisions 7, 1 and 2, and Departments 1 to 6, including communications, personnel, inspections, ethics, orders, publications, for hand-books, manuals, opera equipment, ship plans, crew edules. crew's records, books and papers, entering and clearing vessels. **SUPERINTENDENT**, a person who directs a company department or section and its employees and their work.

**SUPERIOR SERVICE IMAGE PROGRAM NO. 1**, 1. Instant Service Project is part of the **superior org image**. An org never backlogs PCs or students. Never makes them wait. Official orgs are really there to service groups, franchises and the public. They are supposed to be sources of superior service. The service must be **superior** to that available from groups, franchises and field auditors and should help them handle their rough PCs and students and assist them to function. An org isn't a competitor to groups, franchises and field auditors. It is the unit to which these feed people and to which those in the field look for help, data and training. An org isn't just another franchise. It must be a snap and pop senior that knows its business and does it. (LRH ED 78 INT) 2. **program** to establish and publicize the official org as the source of helpful standard actions. (LRH ED 54 INT)

**SUPER-LITERATE**, I've coined a word, super-literate. This is what a person who really *knows* what he reads is. A real scholar. People are literate. One who knows how to study is super-literate. That's what guys doing the study tapes are becoming. Not literate (able to read and write). But super-literate, one who really knows. (OODs 14 Apr 72)

**SUPERSTAT CLUB**, in the FBO network a very successful game was going for ten targets made in a row, with memberships offered in the Upstat Club for two targets in a row and Superstat Club for ten in a row. Special certs were made up and issued in addition to awards. This was very popular and very successful. (SO ED 309 INT)

He is not expected to *teach*. He is expected to get the students there, rolls called, checkouts properly done, misunderstandings handled by finding what the student doesn't dig and getting the student to dig it. The supervisor who tells students answers is a waste of time and a course destroyer as he enters out data into the scene even if trained and actually especially if trained in the subject. The supervisor is not an "instructor" that's why he's called a **supervisor**. (HCO PL 16 Mar 71R) 2. the supervisor is there to get the course materials fully understood and applied by the student. (BPL 11 May 69R) 3. as **supervisor** it is

**SUPPRESSION ON LINES**, a type of dev-t where lines get closed by arbitraries so that vital info does not get through or vital action is not ordered. (HCO PL 27 Jan 69)

**SUPPRESSIVE ACTION**, by definition a **suppressive action** is to award a down statistic and penalize an upstatistic. (6711C18 SO)

**SUPPRESSIVE ACTS**, 1. **actions** or omissions undertaken to knowingly suppress, reduce or impede Scientology or Scientologists. (HCO PL 23 Dec 65) 2. the overt or covert **actions** or omissions knowingly and willfully undertaken to suppress, reduce, prevent or destroy case gains, and/or the influence of Scn on activities, and/or the continued Scn success and actions on the part of organizations and Scientologists. (BPL 9 Aug 71R I)

**SUPPRESSIVE GROUPS**, those which seek to destroy Scn or which specialize in injuring or killing persons or damaging their cases or which advocate **suppression** of mankind. (HCO PL 29 Jun 68)

**SUPPRESSIVE PERSON**, 1. next door to the "theetie-weetie" case is the totally overwhelmed condition we call SP (suppressive person). When a living being is out of his own valence and in the valence of a thoroughly bad even if imaginary image you get an SP. An SP is a no-confront case because, not being in his own valence he has no viewpoint from which to erase anything. That is all an SP is. (HCO PL 20 Oct 67) 2. continuous overts, wrong target, non-completions of cycles of actions are primary manifestations. When accompanied by no-case-gain you've got him tagged. (SH Spec 73, 6608CO2) 3. no-case-gain, low OCA, bad ethics record, low production stats. (HCO PL 28 May 72) 4. now any thetan wants out. Even the SP himself, personally wants out. Only he, unfortunately, is sure that you are simply trying to put him in. You see, he knows he belongs in, and he is very described as somebody who is totally surrounded by Martians, regardless of who you are. You see, he is stuck in an incident which has personnel that have nothing to do with present time. Yet, all that personnel is in present time and you are that personnel, so that of course, you have to be held down. Therefore he commits almost continuous crimes in an effort to hold people down. A **suppressive** is in active attack on Sen. He commits overts twenty four hours a day. (SH Spec 73, 6608CO2) 5. it might interest you how an SP comes about. He's already got enough overts to deserve more motivators than you can shake a stick at. He has done something to dish one and all in. He's been a bad boy. Now the reason he got to be a bad boy was by switching valences. He had a bad boy over there and he then, in some peculiar way, got into that bad boy valence.

Now he knows what he is-he's a bad boy. Man is basically good but he mocks up evil valences and then gets into them. You see, he says the other fellow is bad. The other fellow was bad and eventually he got this pasted-up other fellow and one day he becomes the other fellow, see, in a valence shift or personalitywhole, complete package of personality. And there he is. So now he is an evil fellow. He knows how he is supposed to act. He is supposed to act like the other fellow. That's the switcheroo. That's how evil comes into being. (SH Spec 73, 6608CO2) *Abbr. SP.*

**SUPREME TEST**, 1. the supreme test of a thetan is "the ability to make things go right." (HCO PL 30 Dec 70) 2. the supreme test of a thetan is "Can he start at A and go to B?" (7109CO5 SO)

survey as used in Public Relations terminology means to carefully examine public opinion with regard to an idea, a product, an aspect of life, or any other subject. By examining in detail (person to person surveying) one can arrive at a whole view of public opinion on a subject by tabulating highest percentage of popular response. (BPL 5 Dec 71) 2. to find out what people want or will accept or will believe one does surveys. In **surveying** you are in actual fact seeking to know what service that you can do will people consider valuable enough to give money or valuables for. (LRH ED 161 INT)

**SURVEY MEETING**, there are two types of meetings with prospective clients. In the first, called a survey meeting, you must find out what is needed and wanted. Your purpose with a survey meeting is to find out what is needed and wanted, and to let the prospective client know that you can provide it. You don't tell him how you will provide it, you only let him know you will provide it, with a full proposal to be presented to him soon. (BPL 24 Jan 73 I)

**SURVEYOR**, the surveyor contacts the people to be surveyed, asks his questions and makes notes of the answers given; he also makes sure he notes the reaction. He should write down the tone level of the reaction to each question. He doesn't handle anything-just the question, recording the answer and the reaction. (HCO PL 2 Jun 71 II)

**SURVIVAL**, **survival** could be said to be any change, whether in size or in age or in position in space. The essence of survival is change. (POW, p. 42)

**SURVIVAL CLUB**, 1. this is an idea. The only thing necessary to bring about a great political reform in a country is simply to raise the intelligence of all the people in the country a few percent. That is the crux of this idea. That is its political connotation. What we have to do is bring people together with the idea of **survival** by mutual activity to the benefit of the person himself surviving. There are a number of projects and programs on which such a club could act and enter all based on the motive of **survival**. Here then is a **Survival Club** idea. United **Survival Action Clubs**. The reason they're called that is just so you can say **USA Club** but the loose term is **Survival Club** -(5712C30) 2. we are engaging seriously, and not as any test, upon a program of raising the individual capability of every capable person in the United States, and more broadly on the world front, the capability of all capable persons in the vicinity of our International Offices. Toward this end we have organized the **Survival Clubs**. The actual goal of the club is to raise the capability of every person who becomes a member of that club. This can be done in various ways. It can be done by recreation. It can be

done by group participation. It can be done by training courses. It can be done simply by a clarification of ideas. The USA Clubs believe that individuals, each made more capable, banded together, can survive a national disaster. (CERTAINTY Vol 5, Number 3)

**SURVIVORSHIP**, the right of an individual who survives a partner or joint owner to the entire ownership of the enterprise that was previously ,owned jointly.

**TAKE A WALK**, this process is very easy to perform. When one feels tired on finishing his work, no matter if the thought of doing so is almost all that he can tolerate without falling through the floor, he should go out and walk around the block until he feels rested. (POW, p. 95)

**TECH BUREAU,** the Tech Bureau and Policy Knowledge Bureau of the GO have just been phased out. It is a vital thing for LRH Comms to get in "on-HCOB" tech. This is best done by having a Deputy LRH Comm for Tech for that office or org. The duties of the Tech Bureau mainly concerned checking refunds, following up out-tech on persons, and assuring that celebrities received correct and standard tech. These functions are contained in the GO hats for the Tech Bureau. All these functions and hats now apply to LRH Comms. The main pur-

pose of this transfer came from an evaluation in which it was found that policy responsibility was transferred to the Guardian Office and that this is primarily an internal org function. LRH Comms are therefore responsible for the tech quality and the exact application of HCOBs. They are also responsible for policy knowledge and use. To the degree that tech is exactly and precisely applied, per HCOBs, books and tapes, orgs expand and prosper. (LRH ED 205 INT)

(HCO PL 20 Aug 71 II) 2. **TELEPHONE INTERVIEW**, type of **interview**. An abbreviated version of the news interview. Because it is conducted by **phone**, the questions must be extremely clear and well defined. It is very important in this type of interview, as in all interviews, to apply an understanding of human emotion. The reporter must bear in mind that answers are the product he wants and his only barrier to this is human emotion and reaction. (BPL 10 Jan 73R)

**TELE SELLING**, coined word for selling done on the telephone.

**TELEX**, 1. this is a network of machines from city to city, connected like telephones are connected. A message can be typed in on one telex and instantly received at a recei-

ving telex. It is much cheaper and easier to administer than telephone. It is faster and more direct than telegram and has less vias. Telex is a very good method of fast communication. One can own a machine and have it hooked in to the international network of telex lines, like a phone. It is like a telephone -typewriter. (FO 2528) 2. A means whereby two stations can be in direct hookup with one another via the keyboard. The telex machine can also be used for telegrams and cables. (HCO PL 9 Aug 66) 3. that's a teletype like in the telegraph office. (HCOB 12 Aug 59)

**TELEX AND PHONE SECTION**, section in Department 2, Department of Communications. Telex **and Phone Section** handles all telexes, handles **phone** comm systems, liaison with GPO. (HCO PL 17 Jan 66 II)

**TELEX COMM CYCLE**, telexes have a definite comm cycle. That comm cycle is (a) order or question, (b) compliance or answer, and (c) ack. (BPL 12 Jun 73R II)

**TELEX LOG BOOK**, it is the duty of the telex operator to see that enough money is allocated for telex bills and to ensure accurate record is kept of all calls made and the time spent on each transmission. A log book is to be kept by the telex machine and each call out must be logged. Each W/E the telex operator counts total amount spent in transmission and what the bill will be for that week. (BPL 8 Apr 73 II)

**TELEX NUMBER**, the only **numbering** system is to be the date system which I use on my telexes. The only thing which is different is the symbol on the end of the **numbering**, depending on what is needed. Examples: Mission 4 WW would read 01061WW4. The reply would be 01062WW4. 01=day, 06=month, 2=2nd message sent, WW4 = name of mission. My telexes will have R after them, i.e.: 01061R. (FO 824)

**TELEX OPERATOR**, 1. the hat of the **telex operator** is to ensure the standardness of the telex comm cycle. He nudges telexes which have not been answered within 24 hours. He ensures that the origination is clear, concise and clean. In addition, in the case of a reply, he also ensures that it *does* answer the question asked. Telexes are returned to the originator or replier for rewriting if in violation of the points above. The telex lines are for high velocity, important comm. The **telex operator** as a communicator ensures the integrity of his line by doing the above. (BPL 12 Jun 73R II) 2. **telex operator** does not mean "message center." A **telex operator** receives the classified messages in a prepared folder (like OODs) and goes off early, cuts the tape, transmits it quickly, receives the traffic back and cuts the machine off quickly (the longer it runs the more it costs). (FO 1693) *Abbr.* Telex Op.

Telex Operator (Def. 2)

**TEMP**, a temporary employee usually hired only for a short period of time through an employment agency.

**TEMPORARY**, 1. a staff member who is newly hired is designated 0 (zero) status after his or her name on the org board. The person is classed as **temporary** until he or she has been to review after a few weeks on post. The **temporary** must obtain a slip

from their immediate senior saying they are doing fine on post and present this to Review. Review may require they have a knowledge of the org board and comm lines and their own department before passing them. A **temporary** staff member may be dismissed with or without cause by his immediate superior or by Review or a secretary or anyone senior to a secretary. (HCO PL 4 Jan 66 V) 2. an impermanent assignment, either for reasons of expediency or under trial. (HCO PL 13 Mar 66)

**TEMPORARY EXECUTIVE**, a **temporary executive** fills the post on a **temporary** basis, using the word **temporary** in the post title. He or she does not draw the executive post's units but draws former units or the units of a leading auditor, whichever is higher. He or she may be removed from post with or without cause by the Assn Sec at any time, or a qualified HCO Sec during the time that HCO Sec is handling a state of emergency. (HCO PL 17 Feb 61, *Staff Post Qualifications, Permanent Executives to be Approved*)

**TEMPORARY MAILING LIST**, this list contains the names and addresses of people who have expressed an interest in Dn or Sen. (BPL 17 May 69R I)

**TEMPORARY ORGANIZING BOARD**, a **temporary org board** is usually done on a large sheet of paper with the postings in pencil. Corrections can then be made. It is taped up over the old org board for crew display and use, then when corrected in use it is put into Dymo. (OODs 2 Feb 71)

**TEMPORARY STAFF MEMBER**, 1. a person who is on post but who has not yet been accepted as a permanent staff member; Organization Secretary or LRH can dismiss. (Staff Meeting of the Founding Church, 7 May 57) 2. a **temporary staff member** is one who is brought on and is going to be or has been here for some time and will be paid in units. He or she would be dismissible by

the Association Secretary. (HASI PL 19 Apr 57, *Proportionate Pay Plan*) 3. a person on post, but not yet accepted as a permanent staff member. This individual can be hired or fired by the department head with the permission of the Organization Secretary. (SEC ED 75, 2 Feb 59)

**TENANCY**, 1. the possession or occupancy of land or real property by title, under a lease or by payment of rent. 2. the period of time of a tenant's authorized occupancy, possession or use of property. 3. a habitation or dwelling held or occupied by a tenant.

**TENANT**, 1. one who temporarily holds, occupies or uses land; a dwelling or other property owned by another. 2. in law, one who holds or possesses ownership of land, dwellings or buildings by title.

**TENDER**, 1. a formal offer of money or services to meet the payment of an obligation. 2. an offer or bid in writing to contract goods or services at a specific price or rate. 3. that which is so offered, particularly money.

**TENDER, ISSUE BY**, see ISSUE BY TENDER.

**TEN PER CENT ROYALTY**, LRH, an individual, owns, since he paid for the original research as well as later research and never received a salary for doing it, all copyrights, registered marks and trade marks and rights of Dn and Sen. Orgs send 10% to Saint Hill and this is used by HASI to administer orgs, paying for communication costs, administration, bulletins, etc., etc. It is invoiced to the Saint Hill Org and has never been given to LRH, an individual, a matter of record. Some U.S. 10% have been held by LRH, a trustee, and returned in legal in loans and other official matters to orgs in the U.S. Therefore the 10% royalty owed for use of name, materials and research by orgs has never in fact been paid. The franchise 10% is similarly used up by Saint Hill in giving service. No org or field auditor or

franchise holder has ever paid for its use of name, copyrights, material, writing and research. (HCO PL 21 Dec 65)

**TERCOM**, a terman who is acting as his own communicator. (HTLTAE, p. 122)

**TERMAN**, 1. an individual who is served by a communicator. (HTLTAE, p. 74) 2. an individual who is served by a comstation. The man or woman at the end of a comline. (HTLTAE, p. 122)

**TERMINAL**, 1. something that has mass and meaning which originates, receives, relays and changes particles on a flow line. (HCO PL 25 Jul 72) 2. a post or terminal is an assigned area of responsibility and action which is supervised in part by an executive. (HCO PL 28 Jul 71) 3. a point that receives, relays and sends communication. When people wear only their own hats then one has **terminals** in the org. (HCO PL 1 Jul 65 III) 4. the point at the end of a line which performs a specific function with a particle arriving on the line. (FSO 137) 5. hat. (HCO PL 10 Jul 65) 6. a group or section which is served by a comstation. Some individuals will not have stations of their own but will be served by the station of their group. **Terminals** can also be remote or roving. (HTLTAE, p. 123)

Terminal (Def. 2)

**TERMINAL ARBITRATION**, see ARBITRATION, TERMINAL.

**TERMINAL PEOPLE**, organization is composed of **terminals** and lines. The **terminals** are there with a common purpose but they are united by lines. There are really then terminal people and line people in the organization. They're two different breeds of cat. It's all right to give a line person a place to sit down but don't let him sit there very long. They are in motion. They are running particles up and down lines. If there is nobody there to chase particles up and down lines and separate particles and spread them out and do this and that with them and make sure that the flow continues then nothing significant really ever arrives at the fixed positions. The fixed positions are necessary to handle traffic to change it, to get it into the organization and get it out of the organization. A person moving line particles would see that a person went to the next **terminal**. That's not a function of the terminal. **Terminals** can't do this. There's a **terminal** and then another **terminal** and there's a line between these two **terminals**. (5812C16)

**TERMINATEDLY HANDLE**, when I say **terminatedly handle** I mean finishedly **handle**. That it is **handled** and that's all, boy! (HCO PL 4 May 68)

Terminatedly Handle

**TERMOTE**, 1. a terman who is remote from his comstation and who is in touch with it by telephone, radio, or duplicate, but

who does not handle or see the original white. (HTL TAE, p. 122) 2. remote terminal. (HTLTAE, p. 122)

**TERMS**, the exact conditions or stipulations that define the characteristics and limits of an agreement between a seller and a buyer.

**TEROV**, 1. roving terman and roving terminal. (HTLTAE, p. 76) 2. similar in function to a remote terman, but moving around. (HYLTAE, p. 122)

**TERRITORIAL POOL**, see POOL, TERRITORIAL.

**TESTIMONIAL**, 1. a written recommendation or letter on another's worth or character. 2. a written statement recommending a product or service which is used for sales promotion and advertising purposes. 3. something given as a tribute to a person's achievements or long service in an organization such as a testimonial dinner.

**TESTING**, 1. an examination of the quality and integrity of some product or thing often done by subjecting it to normal or abnormal stress or usage. 2. giving people a series of questions to fill out, the answers to which will determine such things as IQ, leadership potential, aptitude, etc.

**TESTING PROCEDURE**, the essence of testing procedure is (a) to get the person to do a test and (b) get him or her to come in to have it evaluated. From this follows his or her buying processing and training as sold to the person by PrR at the same time as the evaluation is done. (HCO PL 28 Oct 60, *New Testing Promotion Section Important*)

**TEST MARKETING**, see MARKETING, TEST.

**TEST SECTION**, 1. by means of advertising mailings and word of mouth, the public is brought in to be tested and evaluated. This is done by the test section of the PE Foundation. This **section** does everything possible to route new individuals into a PE Course.

(HCO PL 20 Dec 62) 2. contains all test files, all test supplies, E-meter for case assessment (done by Test in-Charge), broad arm type desks (or chairs and tables) and is arranged to test a large number of people at once. The door is plainly marked "Testing Section." The walls have signs which mention Scn with positive statements and test examples showing what Scn can do (before and after). (HCO PL 28 Oct 60, *New Testing Promotion Section Important*)

**T-GROUP TRAINING**, see TRAINING, TGROUP.

**THEETIE-WEETIE**, 1. a person who is very theetie weetie has a tremendous number of significances and has a very high OCA. They're kind of fey, it's all very significant (super-significances), i.e., "Ohhh, I was just wondering if you would come around and see me today because yesterday I sort of had an idea that I saw you looking in my direction and this told me somehow . . ." It's a sort of not quite with it or on it. Such a person with super-significance and a high OCA will fall on the OCA under processing to an extremely low left side and then a very low right side and then will come back up into normal range and be sane. (ESTO 3, 7203CO2 SO I) 2. goodie-goodie. (HCO PL 18 Sept 67)

**THEFT REPORT**, staff member report of the disappearance of anything that should be there giving anything known about its disappearance such as when it was seen last. (HCO PL 1 May 65)

**THEME**, a recurring pattern, the unifying pattern, the unifying factor of the issue, the basic push, "sell," goal or communications of the issue. (BPL 29 Nov 68R)

**THEORY**, **theory** covers why one goes through the motions. (HCO PL 24 Sept 64)

**THEORY COACHING**, there is theory coaching as well as practical coaching. Coaching theory means getting a student to de-

fine all the words, give all the rules, demonstrate things in the bulletin with his hands or bits of things, and also may include doing clay table definitions of Scn terms. That's all **theory coaching**. It compares to coaching on drills in practical. But it is done on bulletins, tapes and policy letters which are to be examined in the future. **Coaching** is not examining. (HCO PL 4 Oct 64)

**THEORY EXAMINER**, ensures students know their theory. (HCO PL 15 May 63)

**THEORY INSTRUCTOR**, assists the **theory** supervisor, acts as auditing supervisor. Handles all theory administration. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**THEORY SECTION**, training courses are divided into three, and only three, sections. These are: the **theory section**, the practical section, the auditing section. In the **theory section** is taken up all applicable theory in training. The student is given a checksheet on which all theory items are named. The student studies HCO Bulletins, tapes and texts as given in his checksheet. These are studied independently by the student, not in a group of students. (HCO PL 14 May 62)

**THEORY SUPERVISOR**, handles all **theory** instruction of the course and acts as auditing **supervisor**. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**THERMOFAX**, [brand name of a type of office copier for photostating. However, a *thermographic copy* is not strictly a *photocopy* as it uses the heat of infrared rays, rather than light, for exposure. The term Thermofax is used in HCO PL 12 March 1961 Issue III, *Duties of the Assn Sec's Sec in a Central Organization*.]

**THETA**, AOUK has a new ship, a 14-foot sailor named the *Theta*. (OODs 2 Sept 69)

**THETA COMMUNICATION**, one which is upscale; above 2.0. (5904C15)

**THETA GROUP AGREEMENT**, I differentiate between "bank group think" which occurs in the absence of leadership, and **theta group agreement** which is possible and a source of power when leadership exists. (FO 1844)

**THETAN**, 1. the living unit we call, in Scn, a thetan, that being taken from the Greek letter *theta*, the mathematic symbol used in Scn to indicate the source of life and life itself. (Abil Mag I) 2. the person himself-not his body or his name, the physical universe, his mind, or anything else; that which is aware of being aware; the identity which is the individual. The **thetan** is most familiar to one and all as you. (Aud 25 UK)

**THETAN-MIND-BODY-PRODUCT**, 1. the principle on which the org board was originally conceived. It is that of **thetan-mind-body-product**. If there is a **thetan**, a **mind** (organization potential not a harmful mass) can be set up, a **mind** which will organize a body which will produce a product. If any one of these elements (**thetan-mind-body-product**) is missing then an organization will fail. The **mind** must operate to form a body. This body is the MEST (matter energy space and time) and staff or the organization. This body must produce a **product**. This in the HGC, for instance, is resolved cases. (HCO PL 4 Dec 66) 2. the org board used by the Dianetic Counseling Group is philosophically based upon the most workable pattern that exists at present. Man is set up as follows. First there is the **thetan** (spirit, he himself) which is the source point of ideas and purposes. Then there is the **mind**, which can be likened to the data collection center and file. Then the body, which moves in the physical universe and creates effects initiated by the thetan, thereby creating a **product**. Thus the **thetan** conceives of an idea, the **mind** is referred to for data and to relate the idea to the environment which the person is operating in, and then the body is directed to put the idea into

effect and there is a resultant **product** which can be viewed and corrected or not by the thetan. Thus we have a pattern.

thetan

with the product matching the original idea of the thetan. (BPL 4 Jul 69R VI)

**THIN MARKET**, see MARKET, THIN.

**THIRD DEPUTY CHIEF**, see FIRST DEPUTY CHIEF.

**THIRD DEPUTY COMMODORE**, this is a post by temporary assignment or inheritance of duty in the absence of the Commodore and the First and Second Deputies in order that there will be an official representation of the Commodore when the Commodore and First and Second Deputies are absent. (FO 3342)

**THIRD DYNAMIC AUDITING**, admin now is on a plane with tech. The administrator is even more skilled as he has to handle numbers of people all at once whereas the auditor handles one at a time. Admin is **third dynamic auditing**. And just like auditing has its standard situations, the tech of admin is a high skill. (OODs 1 Jan 71)

**THIRD DYNAMIC DE-ABERRATION**, it's a wrong why that causes a group engram, and to de-engramize a group all you have to do is a complete competent evaluation and find the right why and handle it correctly and the group will disemote. In other words data analysis is **third dynamic de-aberration**. (ESTO 2, 7203CO1 SO II)

**THIRD DYNAMIC (GROUP) DRILLS**, an administrator or staff member, even when the group's tech is available and known, must be able to confront and handle the confusions which can occur and which invite a turn away and a squirrel solution. Even this situation of the inabilities to confront and

handle can be solved by **third dynamic (group) drills** and drills on the sixth dynamic (physical universe). The **drills** would be practices in achieving general awareness and confronting and handling the noise and confusions which make one oblivious of or which drive one off and away from taking standard actions. (HCO PL 25 Jan 71) See ADMINISTRATIVE TRAINING DRILLS.

**THIRD DYNAMIC TRIANGLE**, I wonder if there isn't a third dynamic triangle like the ARC Triangle that goes:

People

Maybe People are A, Service is R and Funds is C. Sort of a solid ARC triangle. Seems to work that when you drop out people you drop out service you drop out funds. An org that dismisses staff to save money drops service and winds up with a high debt. In an org when I manage one directly, I always push up numbers of staff, push up service and the money rolls in. There is a contrary fact. Governments use tons of people, absorb tons of funds and give no service and are largely out of ARC. So it isn't just numbers of people that made the A. "People" probably needs a special definition. It may be "beings" or "productive individuals" or people in affinity with each other. (OODs 6 Aug 70)

Third Dynamic Triangle (People – Service – Funds)

**THIRD (3rd) MATE**, 1. (flagship) the **3rd Mate** is in charge of Division 1 (Personnel Communications and Ethics-similar to a division 1 in a local org). (FO 2674) 2. Division 1, HCO, is known as the Communications Division and the **3rd Mate** is its divisional officer. (FO 1109) 3. is in charge of Division 1, the 3rd Mate is also LRH Comm for the ship. (FO 114)

**THIRD PARTY**, 1. one who by false reports creates trouble between two people, a person and a group or a group and another group. (HCO PL 15 Mar 69) 2. a **third party** adds up to suppression by giving false reports on others. (HCO PL 24 Feb 69)

Third Party (Def. 1)

**THIRD PARTY LAW**, the **law** would seem to be: a **third party** must be present and unknown in every quarrel for a conflict to exist. Or, for a quarrel to occur, an unknown **third party** must be active in producing it between two potential opponents. Or, while it is commonly believed to take two to make a fight, a third party must exist and must develop it for actual conflict to occur. (HCO PL 26 Dec 68)

**THOMAS PACKAGE**, see PUBLIC DISSEMINATION MANUAL.

**THREATENING SOURCES**, types of persons who have caused us considerable trouble. (HCO PL 27 Oct 64) See PTS TYPES A TO J.

**THREE BASKET SYSTEM**, all personnel assigned a desk and a specific stationary working space are to have a stack of **three baskets**. The top basket, labeled "in," should contain those items and dispatches still to be looked at. The middle basket, labeled "pending," is to contain those items which have

been looked at, but which cannot be dealt with immediately. The bottom basket, labeled "out," is to contain those items which have been dealt with and are now ready for distribution into the comm lines again, or to files, etc. (HCO PL 30 Mar 66)

**THREE (3) MAY PL**, HCO PL 3 May 1972, *Executive Series 12, Ethics and Executives*. (BPL 4 Oct 72R) [The 3 May PL lays down the steps an executive must take to get ethics in on a downstat area and lists out the steps of the First Dynamic Danger Formula and how an executive uses it.]

**THREE M's**, expression standing for "men, money and materials" and which is also written as "3 M's" or "MMM."

**THREE R's**, reading, writing and arithmetic. (FO 2013)

Three R's

**THREE TECHNOLOGIES**, we have three invaluable technologies. (1) Dn and Scn tech. (2) Organizational tech. (3) Mission and Missionaire tech. (FO 2431)

**THREE WAY CO-AUDIT**, student A audits student B who audits student C who audits student A. (BPL 26 Jan 72R VIII)

**THRESHOLD AGREEMENT**, an agreement to raise the salary of employees automatically as soon as the cost of living rises above a set level.

**THRIVING**, steadily growing membership and Scn activities being carried out regularly. (BO 37 UK, 26 Jan 74)

**THROGMAGOG**, the Great God **Throgmagog**. He doesn't exist. He's everywhere at once. He's in all drinking water. If we say the Great God **Throgmagog** caused it the condition can never be erased. People get very upset with it because they can never penetrate to the causation. Never being able to penetrate to causation they cannot eradicate the condition so the condition goes on forever. (5611C15)

**THROW-AWAY**, your promo is going out and gets received amongst thousands of other advertisements for soap, refrigerators, shoes and sealing wax. The public, deluged by this constant flow, tends to briefly glance at the promo and tosses it away. They see it and if it's not sharp enough, and if it doesn't push the right button fast enough, they pass on by. Promo that gets this treatment is called **throw-away**. (BPL 13 Jul 72R)

**THROW-AWAY TIME**, you can actually test the **throw-away time** of your promo with a stop watch. Shp a piece of your promo in a magazine and hand it to someone. **Time** how long they read your promo piece while flicking through the magazine. If they pass right by it, you know there is something wrong. (BPL 13 Jul 72R)

**THRUSTER**, a term designating an individual executive or company which thrusts forward aggressively in its operations and energetically employs opportunities to the greatest possible advantage.

**THURSDAY REPORT**, the **Thursday Report** should give (a) production personally accomplished since last **Thursday**. (b) org outnesses noted. (c) org outnesses personally corrected. (d) personal progress made in personal training and processing. (LRH ED 128 INT)

**TICKER**, an instrument for printing the quantity and prices of security transactions within minutes after each trade through the U.S. or Canada.

**TIGER**, 1. a pretended member (staff member) who has been repeatedly associated with goofed projects and operations and who actually has caused such to occur. He is a person who is a continued out-ethics person. He has failed to get ethics in on himself. (FO 872) 2. someone who is not about to let the org or staff succeed. (HCO PL 27 Feb 71 I) [This is the derogatory form of this term and when it is used by LRH is not always meant in the above sense. I

**TIGER LIST**, 1. persons on the **tiger list** may not go on missions or hold major exec posts. It has been found by correlating lists of people in goofed projects that a continual recurrence of several names occurs. So this way we have these people labeled and we will have the trouble sources isolated. (FO 872) 2. no-change or enturbulative personnel observed over a period of time. (FO 1324)

**TIGHT MONEY**, a situation where money is hard to come by and the money flow is weak. People are holding on to their money and not spending or investing due to lack of confidence created by unstable conditions such as a depression.

**TIME AND A HALF PAY**, premium salary rate which is one and one-half times the rate that the employee usually earns, and which is paid to him for overtime work (ordinarily over 40 hours per week) or for work done at an unconventional time such as on a Sunday.

**TIME-AND-MOTION STUDY**, a study of how long it takes and what motions a person must go through to complete a job. The data is used to get rid of redundant motions or inefficient actions and to set proper work standards throughout a company.

**TIME BUDGET**, see BUDGET, TIME.

**TIME CARD**, a standard card form, filled in by an employee or stamped when he inserts it into a time clock, recording his arrival and departure times each day.

**TIMEKEEPING DEPARTMENT**, the department in charge of handling, auditing and keeping the records of employees' attendance and number of hours at work.

**TIME LOAN**, a loan that must be paid back by a specific time.

**TIME MACHINE**, (Department 3) Inspection has a **time machine**. This is a series of baskets advanced one basket every morning. A carbon of an order is placed in today's basket. When the original comes in, the carbon is dug out of the basket (by date and color flash) and original and carbon are clipped together and routed to the issuing executive. Orders not complied with in one week of course fall off the **time machine** by appearing in the basket being emptied today. (It was filed one week ago and advanced once each day.) A copy is made of the order and it is sent to Ethics for filing in the staff member's ethics folder and counts as a report against the staff member. The carbon is returned to issuing executive to show his order has not been complied with, so that he can handle the situation. (HCO PL 1 May 65 II) *Abbr.* TM

**TIME NOTE**, a promissory note or similar contract specifying a date or series of dates for repayment.

**TIME NOTED**, a plus-point. **Time is properly noted.** (HCO PL 3 Oct 74)

**TIME ORDER**, see ORDER, TIME.

**TIME SPAN OF DISCRETION**, the period of time that an executive is able to function on his discretion before he makes an error of commission or omission big enough to have his superiors intervene.

**TIME STUDY**, a study and recording of how long it takes for someone to do a job so that job standards may be fabricated or so that the results can be compared against already established standards.

**TIREDNES**, the more failed purposes a guy has stacked up the **tireder** he will be. The fellow who has a tremendous ambition to be something or other, has got some fire to be it, and he's got some energy, and he's got some action, and he is driving forward toward being that thing. But the guy who wants to be something else which he never will be and he couldn't be in the first place, and you're trying to hat, will just get kind of tired, because you're keying in his failed purpose. But **tiredness** is failed purpose. Don't think it's anything else, it isn't. (ESTO 10, 7203CO5 SO II)

**TITLE**, a document that gives one the rights of ownership to a certain piece of tangible property or an intangible such as a patent.

**TITLE A**, there are three kinds of possessions in organizations. Title A are permanent installations, buildings, walls, radiators, anything fixed in place. (HCO PL 15 Feb 64)

Title "A"

**TITLE B**, valuable equipment which is not expendable. These are desks, typewriters, mimeo machines, blackboards, chairs, furniture, rugs, decorations, cars, etc. (HCO PL 15 Feb 64)

Title "B"

**TITLE C**, these are expendables. Office supplies, paper, chalk, stencils, dust rags, mops, etc. They are issued on the understanding they will get used up. (HCO PL 15 Feb 64)

Title "C"

**TITLES ORG BOARD**, you write up the functions of the org board of the division by departments on a separate model and add the valuable final products per HCO Policy Letter 4 March 1972. This gives you the functions to get out the VFPs expected. These functions will or won't get out the VFPs. What functions are needed to get them out? By blocking in these you have now a function org board. From this function org board you can now make up a **titles org board**. Each **title** has some of these functions. The

functions must be of the same general type for the title. When you have done this (with divisional secretary, divisional org officer and divisional Esto and department heads) you now have titles org **board**. (HCO PL 6 Apr 72)

**TOHS**, an agent of the spiritual world in primitive cultures. (LRH Def. Notes)

**TOLERANCE**, an allowable deviation from a certain standard, beyond which the item is classed as substandard.

**TONE 40**, now of course tone 40 isn't yelling. It is simply the degree of intention you can put into some of this. It's the amount of intention. Now you radiate that intention if your expectancy is good. You don't have to be loud and haughty or anything of the sort. It's just the normal action but your expectancy on what you say and so on can have a fantastic effect. (ESTO 6, 7203CO3 SO II)

**TONE SCALE**, a person in apathy rises through various tones. These tones are quite uniform; one follows the next and people always come up through these tones, one after the other. These are the tones of affinity, and the tone scale of Dn and Scn is probably the best possible way of predicting what is going to happen next or what a person actually will do. The tone scale starts well below apathy. In other words, a person is feeling no emotion about a subject at all. On many subjects and problems people are actually well below apathy. There the **tone scale** starts, on utter, dead null far below death itself. Going up into improved tones one encounters the level of body death, apathy, grief, fear, anger, antagonism, boredom, enthusiasm and serenity, in that order. There are many stops between these tones. A person in grief, when his tone improves feels fear. A person in fear, when his tone improves feels anger. (POW, pp. 77-78)

"Talent," "native skill," all sorts of factors are given. But if a person with all things considered in the first place is then found to do badly on that post, the second think of nineteenth century personnel was to transfer him to another post and yet another and another. **TREASURY INSPECTORS**, inspectors operate from the Treasury Bureau 3 of a Continental Liaison Office. The inspectors are a mobile team operating from the CLO, but with only external duties (outside the CLO). The inspectors can travel from one org to the next, without being attached to any org in particular, nor subject to any orders from local executives. (1) ← inflow,

Flow 2 is outflow, or self to another

(2) → outflow,

Flow 3 is crossflow, or others to others

(3) ↑ crossflow.

In training this becomes: Flow 1-learning the data (inflow). Flow 2-applying the data (outflow). Flow 3-getting others to apply the data (crossflow). One learns the technical data of any level on an Academy or Saint Hill course. One becomes flubless in applying the tech to others by doing a properly supervised internship in the Qualifications Division of a Scn org or Saint Hill. One gets others to apply the data by doing a case supervisor course and apprenticeship for the level in an official Scn org or Saint Hill. Thus we have **triple flow training**. (BPL 26 Apr 73RI)

Each question that read is given two-way communication until each **question** that read has attained a floating needle. The instructor will ask the students alternately his questions and if either student flunks, both Runk the test. This system is called twin checking. (HCO PL 28 Feb 65, *Course Checkouts Twin-Checking*.)

**TWIN CHECKOUTS**, in Scn training we use a system called twin checkouts. Each student is assigned a "twin" to work with. The student studies his assigned material and is sometimes coached over the rough spots by his **twin**. When the student knows the material, he is then given a checkout by his twin. If he flunks, he returns to study and when ready gets a new checkout. When he passes, the twin signs the assignment sheet certifying that he has grasped it. The assignment sheet is turned in to the Course Supervisor at the end of the period. (HCO PL 26 Aug 65)

**TWO WATCH SYSTEM**, with the **two watch system**, either watch can handle a

departure or arrival without any changes of system. Example: the starboard watch has the watch, it is 7 a.m. and we are sailing. The starboard watch takes her out and within the starboard watch (which is in two parts) stands 3 hour sea watches, one part in the bridge. The other part on admin lines. The ship sails along, schools run, actions go on happening. First, the whole ship's company is divided in half. One half is called the starboard watch. The other half is called the port watch. These refer to sides of the ship. So the starboard watch berths and musters on the starboard side. The port watch berths and musters on the port side. When one of these has the duty it is of course all over the ship and the other watch is "below" (off duty). This is the way they are stood in harbor. When the ship goes to sea, the duty roster and time does not change. But the watch that happens to be on duty takes her into or out of harbor and at sea stands the bridge and admin watches. This is possible because each of these halves is again divided in half. This gives us starboard **watch** 1<sup>st</sup> part, starboard watch 2<sup>nd</sup> part, port watch 1<sup>st</sup> part, port watch 2<sup>nd</sup> part. Thus each of these contains 1/4 of the ship's company. (FO 895)

## U

**UNACK**, 1. the position in a comstation taken by a communication which has originated at this station and has not yet been acknowledged by the ACTAD. (HTLTAE, p. 123) 2. unacknowledged. (HTLTAE, p. 35)

**UNAUTHORIZED ISSUE**, means that the material does not have an authority for that purpose and is a misdemeanor. (HCO PL 22 Apr 65, *Office of LRH Design and Planning, All Promotion Functions in an Org, All Mailing Activities in an Org, Booklets, Handouts, Mailing Pieces*)

**TWO-WAY COMM**, (in training) two-way comm is not a rote process. That's why it is hard to teach. The trick is to get the person to talk, to keep him looking and talking until he has a cognition and very good indicators-and sometimes an F/N at the end (not vital). If you can listen you have it progressing. If you can get a person to talk about his troubles and listen and ack, you really can run it. (LRH ED 92 INT) *Abbr.* 2WC, TWC.

**TYPE S BEING**, a type S being is so devoted to stopping something that he has no time or energy to actually do his job. There is an exact point where a thetan goes mad. It is not a broad gradient. It is an exact point. It is the point when a thetan begins to be devoted to stopping something. When such a person is still able to reason, he is suppressive in a degree. The thing he is stopping has begun to generalize in quality so he stops many things without realizing what he is trying to stop. A type S S&D is vital. A type W may have to be run first. (FO 1174)

**TYPISTS POOL**, does any required typing for the Communications Unit or organization members who have no other typing service. (HCO PL 18 Dec 64, *Saint Hill Org Board*)

**UNAWARENESS**, a sort of blindness where the person looks like he is looking but sees nothing. Degrees of this exist. Mr. A appears to the observer to be noticing, smelling things and hearing whereas he registers no sights, has a blind nose and tunes out all sound. There are even degrees of registry. To **unaware** people, terminals, lines, particles and significances just don't exist. (HCO PL 16 Feb 71 II)

**UNCALLED CAPITAL**, see CAPITAL, UNCALLED.

**UNCERTAINTY**, uncertainty comes totally from lack of understanding. Understan-

ding is barred out by the misunderstood word. (LRH ED 154 INT)

**UNCLASSIFIED ORG**, get a small staff trained in technology at the nearest org. Get the legal staff of the org sound and regular, the proper corporation qualified with the International Board. Get some modest quarters in a population dense area. Distribute books in the area. Run a PE Course. Select persons to the nearest org. Get some Scn groups formed in 'round about areas. Get in org accounting policies as soon as operation starts so that it is easy to begin books-the first gap of poor accounting can cause one trouble. All selectee commissions go to org. Org on proportionate pay. Staff works mainly in the evening or weekends, perhaps only one on duty daytimes. Use a rudimentary org board. (HCO PL 6 Feb 66)

**UNCLEAR ORDERS**, (form of dev-t) an executive giving an **unclear order** puts uncertainty and confusion on the line right at the very beginning of the cycle of command. The safe way on an important program or action is to target it. (BPL 30 Jan 69)

**UNCOMP**, 1. an action originated here, which has not yet been completed by ACTAD. (HTLTAE, P . 69) 2. the position in a comstation taken by a communication which was originated at this station and has been acknowledged by the ACTAD but has not yet been completed by the ACTAD. (HTLTAE, p. 123)

**UNCONSCIOUSNESS**, we are talking about unconsciousness meaning just **unconsciousness**. You hit a guy on the head and he's **unconscious**. Not Freudian, you know. Hit him in the head, he goes out. Competence on any given subject is what a person is not **unconsciousness** on. We merely mean "knocked in the head" on. And those things he can't see, he is **unconscious** on. (ESTO 10, 7203CO5 SO II)

**UNCONSTITUTIONAL STRIKE**, see STRIKE, UNCONSTITUTIONAL.

**UNDERCAPITALIZED**, the condition of a company having insufficient capital for it to operate efficiently.

**UNDER -EMPLOYMENT**, the situation of a business not fully or correctly utilizing personnel by employing them on work that is below their ability, training and experience levels.

**UNDERMANNING**, the situation of a business having too few employees for it to produce at an optimum level.

**UNDERSTANDING**, one has to have some affinity for an object, some communication with it, and some concept of its reality, before he can **understand** it. His ability to **understand** any thought or object depends upon his affinity, his communication, and his reality. (SOS, p. 43)

**UNDERSTANDING INTENSIVE**, Word Clearing Method 1 **Understanding Intensive** (the public name for this), produces the most fabulous success stories when done right. High school and college students can actually pass exams they have flunked. People recover whole educations. IQ goes up. Knowledge increases. They feel clearer, brighter, lighter. They speed up. (LRH ED 152 INT)

**UNDERSTANDING MAGAZINE**, should be issued semi-monthly (fortnightly). Issues shall be used broadly as mailing pieces and are not to go just to the membership and be forgotten. The first *Understanding* of the month shall be an *Understanding major* issue, the second issue of the month shall be an *Understanding minor* issue. *Understanding major*: shall consist of informative technical material, advertisements and programs. *Understanding minor*: shall be dedicated only to programs such as extension course, such as training, such as processing results. *Understanding major* is mainly of interest to the membership and informed Scientologists. *Understanding minor* shall

be of interest to the broad public. (HCO PL 24 Oct 58, *Understanding Magazine*)

**UNDERSTUDIED**, apprenticed. (LRH ED 123 INT)

**UNDERSTUDY SYSTEM**, the system whereby a person is trained to do the work of another by working directly under an experienced person, studying his performance, acting in his behalf on assigned duties, replacing him during any absence, and eventually succeeding him or taking on the same or a similar job.

**UNDERWRITER**, 1. one who guarantees the sale of stock. 2. an investment banker who is the middleman between a company issuing new stocks and the public, usually forming a syndicate that buys outright the company's new issue and then sells to individuals and institutions. 3. in insurance, the specialist who assesses the risk involved for the insurance company and accepting certain applications for coverage.

**UNDIVIDED PROFIT**, see PROFIT, UN-DIVIDED.

**UNEARNED INCOME**, 1. income received from investments or dividend payments as separate from income earned from personal employment. 2. income received but not yet earned, as exemplified by rent received in advance, advance ticket sales, etc.

**UNEMPLOYMENT**, the condition of being out of remunerative work or jobless.

**UNEMPLOYMENT, FRACTIONAL**, unemployment of a short term nature which occurs due to seasonal ups and downs, fluctuations in sales or market demand, temporary lack of supplies or resources, etc.

**UNEMPLOYMENT, MASS**, the condition of large numbers of a nation's population being out of work or jobless and usually stated as a percentage of the total population.

**UNEMPLOYMENT, SPECIFIC**, unemployment being present in particular kinds of occupations or industries.

**UNEMPLOYMENT, STRUCTURAL**, unemployment caused by drastic changes in consumer demand for products and/or trade skills.

**UNEMPLOYMENT, TECHNOLOGICAL**, unemployment due to the installation of new or sophisticated equipment or streamlined methods of production.

**UNETHIICAL PEOPLE**, are those who do not have ethics in on themselves personally. (HCO PL 3 May 72)

**UNFAIR DISMISSAL**, letting an employee go, for reasons that are biased, unjust or contrary to laws and conventions.

**UNHATTED ORGANIZATION**, an **unhatted org** is a madhouse to work in as no one knows what he's supposed to handle or what others should do. They don't go idle. They introduce Sahara sand storms of dev-t. An **unhatted org** is also a lazy org and refers everything to someone else. Bodies won't channel, correct materials won't arrive, money can't get in or out, production is destructive and the place unpleasantly goes insolvent. (HCO PL 27 Feb 72)

**UNIFORM A**, 1. navy blue wool jacket and pants with yachting cap, black shoes or boots with socks and white shirt with black tie. Women may wear a skirt of navy blue and natural colored hose and the remainder as above. (BO 21, 11 Jun 67) 2. ship officers dress **uniform**. (FO 2577)

The mess jacket is high collared and needs no shirt or ties. It fits down over the top of the trousers and comes into the waist and at the back has a center point pointing

down. A red cord epaulet is on the left shoulder. A Steward 3rd class has one strand of red cord, a steward 2nd class has 2 strands, a steward 1st class has 3 strands. Cooks' ratings are the same but carry a red half moon on the left sleeve. (FO 242)

**UNION**, a group of workers in the same trade or occupation joined together under accepted leadership to protect and further their interests through collective action. Unions act primarily to obtain increased or uniform wages and improved working conditions and benefits; a trade union or labor union.

**UNION DUES**, fees charged for membership in a union, due at regular intervals, and used for the operation of the union.

**UNION - MANAGEMENT COOPERATION**, the state of unions and managements working together toward the common purpose of better conditions, advancements and realizations for all concerned.

**UNION STATION**, havingness process current in 1955 and 1956. (Confidential LRH Briefing Notes, 3 Sept 70)

**UNIT**, 1. we have five members and their in-charge as a **unit**; **five units** and the section executive in a section; five sections plus the department's director in a department. (HCO PL 28 Feb 66) 2. at the moment they are dividing the sections directly into **units** but one fine day they will have to divide it

into subsections, divide it into **units** to subunits in order to make enough space for personnel. (SH Spec 77, 6608C23)

**UNIT A**, the SHSBC has a checksheet composed of 4 theory sections and a practical section composed of 5 units. The practical units are done part of the day, concurrent with theory study as in the original SHSBC. Unit A covers: (a) OT-TRO, TRO-9. (b) TRs/metering (daily). (c) basic auditing drills. (d) processing drills for ARC S/W Expanded. (e) auditing actions: flying ruds and ARC S/W Expanded on a PC. (f) TV demo passed. (g) electronic attest tape of a session passed. (BPL 18 Mar 75 I)

**UNIT B**, SHSBC Unit B covers: (a) OT-TRO, TRO-9. (b) TRs/metering (daily). (c) processing drills for Level 0 Expanded. (d) auditing actions: Level 0 Expanded on a PC. (e) TV demo passed. (f) electronic attest tape of a session passed. (BPL 18 Mar 75 I)

(e) processing drills for Level IV Expanded. (f) auditing actions: Level IV Expanded on a PC. (g) TV demo passed. (h) electronic attest tape of a session passed. (BPL 18 Mar 75 I)

**UNITED SURVIVAL ACTION CLUB**, the reason they're called that is just so you can say USA Club but the loose term is **Survival Club**. (AC-5, 5712C30) See SURVIVAL CLUB.

**UNIT E-ONE**, the Solo Audit Course Grade VI will be taught in the Technical Division, Department of Training, Saint Hill. It will be called **Unit E-One** and will be handled by the E-Unit Course Supervisor who, in case of numbers, may have an E-One supervisor under him to handle this course. (HCO PL 25 Oct 65)

**UNIT HEAD**, see SECTION HEAD.

**UNIT PRICING**, see PRICING, UNIT.

**UNIT RATE**, each staff member gets so many **units** according to the post he is holding. The total units are totaled for the whole staff and this total of **units** is divided exactly into the salary sum amount, thus you arrive at the **unit rate** for each staff **unit**. (HCO PL 20 Feb 63) [The above HCO PL was cancelled by BPL 10 Oct 75 IV.]

**UNITS**, 1. in 1965 the Saint Hill Special Briefing Course was organized as follows. It was divided into four units, Unit A covering Level 0. Unit B covering levels I and II. Unit C covering levels III and IV. Unit D covering Level VI. (HCO PL 27 Feb 65) 2. there are certain classes of auditors, there's Class Ia, Ib, Ic and 2a. These classes each connote certain types of auditing. Class Ia has no auditing; Class Ib has some type of auditing. The administration of the Academy depends upon the auditing requirements more than the classes. You get auditing something on this basis, you have a class of auditor and that requires certain checksheets, and you also have a unit and the auditor belongs to that unit. So an individual auditor is actually designated by his class, which would be Class Ia, Class Ib. Ic or 2a. That's his classification. What unit he appears in is determined by the current auditing he is doing and these units are Unit W, X, Y and

Z. The unit in which he finds himself is doing certain auditing actions and you will sometimes GAE somebody down from one auditing activity to another auditing activity, and although he still retains the classes he has he's doing another type of auditing. (HCO PL 17 Sept 62)

**UNIT STAFF MEMBER**, a **staff member** who is not a member of a production department but appears somewhere else on the organization board. (HCO PL 26 Jun 64)

**UNIT SYSTEM**, proportionate pay. (HCO PL 10 Dec 68)

**UNIT W**, (an arrangement of the Academy) what unit he appears in is determined by the current auditing he is doing and these units are Unit W, X, Y and Z. The Ws are brand new students. They're brand new and they don't do any auditing, nobody'd trust them near an E-meter, and a W is involved basically in just studying the fundamentals, just as undoubtedly you have it now. The number of Ws you have are divided into A and B, and you get the WA then and the WB unit. (HCO PL 17 Sept 62)

**UNIT X**, (an arrangement of the Academy) the Xs are the most fundamental and the tiny bit of auditing they do-they do something without any model session or something of this sort. They go through some auditing motions, and they are divided into the XA and XB, and that gives you your teams-A audits B and B audits A. (HCO PL 17 Sept 62)

**UNIT Y**, (an arrangement of the Academy) your Y is doing something on the order of a model session. They're doing something terribly fundamental like finding a havingness process and doing a model session. This is rather elementary type auditing but nevertheless gives them practice in this line. (-HCO PL 17 Sept 62)

**UNITY OF COMMAND**, the management concept that one person can have only one senior to whom he reports.

**UNIT Z**, (an arrangement of the Academy) your Z is doing the kingpin or the top activity that is done in the Academy, which is in this particular case, as we are dealing with HCA/HPA, a Problems Intensive, and when they can do a Problems Intensive from one end to the other of course that's your Class 2a auditor, but they're auditing in Unit ZA and ZB. (HCO PL 17 Sept 62)

**UNIVERSAL MEDIA PRODUCTIONS**, once proficiency was attained in still photography, the Photoshoot Org expanded into other fields of **media**, such as radio, television ads, billboards, cinematography and video as well as continuing still photography. A new name was picked to cover all the activities entered into, and the Photoshoot Org became the **Media Org**. Further expansion and planning has occurred again, and another name was surveyed for that Scn, and as well, non-Scn publics could relate to. The new official name of the **Photoshoot Org/Media Org** is: **Universal Media Productions**. (SOED 570 INT) *Abbr.* Uni-Med.

**UNLIMITED CERTIFICATE**, at the end of this course, if certifiable by all criteria, the student is granted a limited certificate, printed in black and white, on which the words "Limited, Expires Six Months From Date," is printed boldly. In order to gain an **unlimited certificate**, then, the student must, after graduation, release two persons, one of a mental condition and the other of a serious chronic somatic and must furnish to the Foundation incontrovertible evidence from a medical doctor and psychometrist that this has been accomplished. (HCO PL 2 Sept 70, *Instruction Protocol Official*) [The above excerpts is part of a paper issued at the beginning of Dn, 20 November 1950.]

**UNLIMITED LIABILITY**, unlimited liability means that a person's assets beyond

what he has invested in a business are subject to the legal claims of creditors. Thus in the case of a sole proprietorship the owner is not limited in his liability to his creditors. His personal and private ownings outside of the business are legally subject to the claims of the creditors of his business.

**UNLISTED**, a stock that is not a stock exchange list.

**UNLOADING**, the act of disposing of goods, especially by selling in great quantity at a low price; also known as dumping.

**UNMOCK**, take down or destroy. (HCO PL 13 Jul 74 II)

**UNPRODUCTIVE PERSONNEL**, a type of dev-t. Keeping a **personnel** on a post who is a flagrant dev-t source. (HCO PL 27 Jan 69)

**UNPRODUCTIVE TIME**, any amount of time spent in a manufacturing process that does not contribute to the production of the final product.

**UNREAL TARGETS**, a type of dev-t where targets are set and worked on which are not derived from any useful major target. (HCO PL 27 Jan 69)

**UNTRAINED STAFF**, a type of dev-t where staff not grooved in on the lines mainly deal in dev-t and although they even look busy seldom accomplish much. (HCO PL 27 Jan 69)

**UNUSUAL FAVORS**, using one's org connections to obtain special service or material **favours** for field or friends. (HCO PL 13 Jan 69, Unusual Favours)

**UNUSUAL SOLUTION**, 1. requests for authority to depart from the usual are dangerous when okayed as they then set up areas of difference and cause policy to wander and misfit at the joints. Juniors who propose **unusual solutions** generally don't know the policy or orders anyway. The proper thing to do is order a checkout on the appropriate

policy. (BPL 30 Jan 69) 2. abandonment of standard tech in favor of **unusual solutions**. This is always present when a collapse of tech occurs. An **unusual solution** is one evolved to remedy an abuse of existing technology. (HCO PL 10 Feb 66 II)

**UP MAGAZINE**, an early Advanced Org mag, in 1968. (FO 2802)

**UPPER INDOCTRINATION COURSE**, purpose: to attain ability to handle bodies, objects and intentions fully. (HCO PL 27 Nov 59)

**UPPER INDOC TRS**, the drills that teach the CCHs. The CCHs are then run on PCs. (HCO PL 17 May 65, *Tech Div Qual Div Urgent CCHs*)

Upper Indoc TR's

**UPSET**, ARC breaks. (BPL 26 Jan 72 VII-RA)

**UPSTAT**, one who has high **statistics**. (HCOB 8 Aug 71)

**UPSTAT CLUB**, see INTERNATIONAL UPSTAT CLUB.

**UPSTATISTIC**, 1. the purpose of the org is to get the show on the road and keep it going. This means production. Every division is a production unit. It makes or does something that can have a statistic to see if it goes up or down. Example: a typist gets out 500 letters in one week. That's a statistic. If the next week the same typist gets out 600

letters that's an up statistic. (HCO PL 1 Sept 65 VII) 2. the current number is more than it was. (HCO PL 16 Dec 65)

**UP TICK**, expression that refers to a stock transaction made at a price higher than the previous transaction. Also known as a plus-tick.

**URGENCY ORDERS**, a senior comm member should not give direct orders to his junior comm member on the A routing. Direct orders may be given only with B routing and any direct order not following B routing is off-line except in cases of extreme urgency as in the case of books about to be shipped or a spinning PC. Such cases are called **urgency orders**. An **urgency order** given an A routing must be followed at once on slower channels (air mail) by repeating it with B routing through channels. (HCO PL 13 Mar 65 II)

**URGENT**, a form of cable. Urgent = costs twice ORD (ordinary) rate. Urgent takes about 15 minutes (travel). (HCO PL 9 Aug 66)

**URGENT DIRECTIVE**, 1. a senior executive who discovers a situation which may be disastrous to the org. Issues orders of a remedying or preventive nature instantly by directive, to remain in effect until all data is in. This is called an Urgent Directive. (HCO PL 31 Oct 66 I) 2. if an emergency situation develops, any member of that Ad Council could issue what is called an Urgent Directive. It's something that's got to be done right now, right now, it can't wait till tomorrow. His **directive** is only good until a Board of Investigation has investigated it and written a right directive. So these emergency directions then have a tendency to be wiped out. They have to be wiped out. (SH Spec 81, 6611C01)

**USED INVOICES**, those for which the service bought has been delivered in full. (BPL 3 Jan 72RA I)

**USEFUL SPACE**, one that promotes the org, may be used by the org, is heated or cooled properly, equipped for its purpose, clean, orderly and serviceable. It may only be scenic but it is still useful space. (HCO PL 6 Nov 66 II)

**USER**, those who will use or benefit from the program when it is realized and completed. (HCO PL 14 Sept 69)

**USING DEV-T AS AN EXCUSE TO CUT LINES**, a type of dev-t. An executive must really know what dev-t is and really say what the exact dev-t was in order to reject or handle dev-t. (HCO PL 27 Nov 69)

**USING POLICY TO STOP**, 1. they can do that by always applying the wrong policy letter. All you have to do is take the policy letter that applies to A and instead of following that find another one that doesn't really apply to A. But find something in it that can be construed as to apply to this and they say

**VALUABLE DOCUMENT FILE**, the (valuable document) originals shall not leave the safe save only to be photostated and then shall be at once returned with one photostat of it attached to each. The valuable document Me shall be another Me than the safe, shall be kept by the Org See and shall consist only of photostats in folders which say what the document in the folder is so that removing the last copy shall not thus injure the file. (FCPL 8 Jun 57)

**VALUABLE DOCUMENTS**, 1. all valuable documents are to be stored in a safe under the control of the Treasurer and the Organization Secretary. These include contracts, notes, official papers, awards, etc. The criteria of "valuable" is "would their loss financially or publicly embarrass the organization?" (FCPL 8 Jun 57) 2. Valuable documents are registry papers, seaman books, radio and safety certs, minute books of companies, etc. Basically they are any

"Well you see we can't do that." Policy was designed to tell people things they could do, and when it tells them not to do something it's trying to put edges on the channel so they won't go off of it. But what channel? The channel of doing something right. Now if a fellow doesn't know the policy that gives him the main channel and only knows the policy that tells him to stop then you will get people using policy to stop. (ESTO 11, 7203CO6 SO I) 2. a person not doing his post purpose will pick bits of policy out that seem to state the order given cannot be followed. If you track down such a person's post purpose you will find he or she hasn't got it and is using policy to stop. (HCO PL 27 Feb 71 I)

paper which proves one's identity, status or rights. (FO 1669) *Abbr.* Val Does.

Valuable Document (Def. 2)

**VALUABLE FINAL PRODUCT**, 1. something that can be exchanged with other activities in return for support. The support usually adds up to food, clothing, shelter, money, tolerance and cooperation (goodwill). (HCO PL 25 Mar 71) 2. could as easi-

ly be named a **valuable** exchangeable **product**. WO PL 25 Mar 71) 3. one you can exchange with the society for the wherewithal which the society has. By definition it is something for which you can exchange the services and goods of the society. (FEBC 12, 7102CO3 SO II) 4. something that can be translated into the society for the wherewithal to survive. WEBC 4, 7101C18 SO III) *Abbr.* VFP.

Valuable Final Product. (Def. 1)

**VALUABLE PRODUCTS OF AN ORG**, the basic **valuable products of an org** are auditors, preclears and money. They are the final **valuable products** that are the obvious ones. There are some additional ones. (FEBC 5, 7101C23 SO I) [Note: per HCO PL 6 April 1972, ESTO Series 15, *Product Correction*, "GI is really the Valuable Final REWARD for which the VFPs are exchanged."]

**VALUATION**, the process of assessing the value of something such as real estate, buildings or personal property according to certain accepted standards.

**VALUE**, **value** is established by things that are wanted. (FEBC 9, 7101C24 SO II)

**VALUE**, 1. monetary worth or price of a product or service. 2. worth in terms of usefulness or importance of a product or service to a possessor or client. 3. in mathematics, an assigned numerical quantity.

**VARIABLE COSTS**, see COSTS, VARIABLE.

**VERBAL SURVEY**, the questions are asked **verbally** person to person. Never by written questionnaire. (BPL 25 Jan 72R)

**VERBAL TECH**, about the most ghastly thing to have around is **verbal tech** which means **tech** without reference to an HCOB and direct handling out of the actual material. (OODs 9 Nov 74)

**VERTICAL COMBINATION**, see COMBINATION, VERTICAL.

**VESSEL**, something that floats in -water, in this case a ship. (OODs 29 Sept 71)

**VIABILITY**, 1. the longevity, usefulness and desirability of the product. (HCO PL 29 Oct 70) 2. survival value. (HCO PL 20 Jul 70) 3. "capable of living or growth." It is taken from the Latin vita which means life. **Viability** depends, in the main, upon exchange where economics are concerned. A

great deal of production can occur, but if it is not exchanged for anything then a group can become nonviable very rapidly. The group does not necessarily live on what it itself produces. A group needs things in addition to those things which it produces thus some of its own production must be *exchanged* with society for the group to survive. (OODs 20 Nov 71)

**VIABILITY OF THE ORG**, 1. its economic survival including its security from political enemy motivated attack. (HCO PL 23 Sept 70) 2. how long will it last economically, how will it expand, does income exceed outgo, etc. (HCO PL 29 Oct 70)

**VICTIM**, the basic definition of **victim** must be, unwilling and unknowing effect of life, matter, energy, space and time. (HCOB 3 Sept 59)

**VICTIM PROCESS**, in any overt act-motivator sequence there is a villain and a **victim**. If the auditor were to choose and run the "villain" then he would be violating the basic definition of operating thetan which is "to be willing and knowing cause over life, matter, energy, space and time, " and would be processing the PC at effect point. The basic definition of **victim** must then be, as an HCO staff auditor pointed out, "unwilling and unknowing effect of life, matter, energy, space and time." Therefore, to keep the PC at cause we have no choice but to process him in such a way as to face

him up to victim. A PC should be able to run, easily if lengthly on "From where could you communicate to a victim?" (HCOB 3 Sept 59)

**VIOLATED PURPOSE**, a type of dev-t- A division, department or staff member or materiel used for things it was not organized to do. It disrupts its normal lines. (HCO PL 27 Jan 69)

**VITAL**, things we can't operate without. (OODs 22 Jan 68)

**VITAL INFORMATION**, is **vital** because survival depends on it. Examples include: HCOBs, HCO PLs, books, tapes, course checksheets and packs, hats, OEC volumes, LRH EDs and FOs and other issues, Flag programs and EDs, stats, weekly reports, compliance reports, situation reports, CSWs, evaluations, even dispatches that contain important **information** that must be known. Also, an org requires other **vital** data like accurate CF and addressos, up-to-date files, broad, hardsell promotion and magazines, accurate accounts files and records, monthly statements, tech data that gives PC and student results, word clearing and cramming results, a Qual library, broad public dissemination and promotion to name a few. Data that is vital must be relayed, must be made known without alter-is or barriers. You can't survive without it. (HCO PL 19 Oct 74)

**VITAL INFORMATION RUNDOWN**, I have recently unearthed a widespread aberration that underlies the withhold or obstruction of **vital information**. It is, simply stated, dramatization of withholds. This is not

just the person with withholds, this is the person who dramatizes withholds by preventing the relay, exposure or free distribution of **vital information**. The **Vital ion Run-down** is the remedy for the dramatization of withholds. (HCO PL 19 Oct 74)

**VITAL TARGET**, under this heading comes what we must do to operate at all. This requires an inspection of both the area one is operating into and the factors or materiel or organization with which we are operating. One then finds those points (sometimes while operating) which stop or threaten future successes, and sets the overcoming of the **vital** ones as **targets**. (HCO PL 16 Jan 69)

**VOLUNTEER MINISTERS PROGRAM**, a **program** that undercuts all current reaches into the public. Ron's new **program** is called the **Volunteer Ministers Program**. It puts basic Dn and Scn tech into view and into use at the raw public level, much as did *Dianetics: The Modern Science of Mental Health in 1950* which continues to do so today. Surveys have been done in different parts of the world to determine what people really want to handle on a personal level. The basic tech for handling these problems has been compiled into a book fully suitable for raw public. This book will be broadly distributed on Scn and non-Scientology fines,

bought by the man on the street. He'll use some of the data, produce some miracles, save a marriage or two, rescue some kid from drugs, help his next door neighbor who's upset because her child's failing in school and couldn't care less, plus brighten up her yawning offspring and teach him to study, and handle Aunt Martha's dizziness with assists. (FBDL 424)

results. There were no checksheets beyond course regulations. (HCO PL 8 Dec 62) 2. (SHSBC) the **V unit** is a co-audit, one or two weeks long, three hours of auditing given and three received daily, 5 days a week.

It reads from left to right in horizontal lines and the white card is removed to the assignment board. Students who are **waiting** for auditing are also put on the **waiting list board** but their names are on a different (paler) shade of green from that of the auditor's names on the assignment board. **WANT**, very simply it is a person's desire to have or attain something. Specifically related to economics a want has been defined as something a person desires but which he hasn't the money or wherewithal to achieve. When he does have the money or capacity to achieve this want it is called a demand.

**WAR**, 1. an insanity which is achieved when a bad organization descends to a complete anxiety. (OS-10, 5611C15) 2. the history of war is the history of control. The end goal of war is to throw out of its control the population under a government. We are supposed to throw another nation's population out of control so that we can supplant the government or its attitudes and give them their population back in control again. (AAR, p. 89) 3. a means of bringing about a more amenable frame of mind on the part of the enemy. (SH Spec 63, 6506CO8) 4. the antipathies of organization. War is chaos. (SH Spec 131, 6204CO3) 5. it used to be war was a method of conquering terrain. You see, all it is, is the violence which ensues a diplomatic and political failure. That's what war is today. (7003C27 SO)

(FO 1109)

**WATCH QUARTER AND STATION BILL**, 1. a large board showing what **watch** a member of the ship's company is on, where his berth or cabin (quarters) is, what his **watch** duties are (**station**) and also what post he has on the ship's org board. (FO 2674) 2. a **watch quarter and station bill** is incomplete unless it designates exact duties on **station** as well as what part of the ship. It must also designate where the person is berthed. It includes every person's position and specific duty for every evolution and every drill. The basic **bill** is easier to keep if it is maintained in a standard form for the ship and only names and berthings changed. Stations, duties and drills do not change. (FO 1919) 3. every member of a ship's company has two general types of activities, one of these is as a member of watches, wherein he handles his duties of steering, lookout, engines, etc., including emergency drills. The other is his administrative duty with regard to the vessel. The **watch quarter and station bill** covers his ship duties, the org board covers his administrative duties. (FO 1109) 4. tells every member of the company where he berths, what his title and duties are as per the ship's org board, what his position and duties are for every evolution and activity and drill of the ship. It is a wide horizontal board with the names of the posts of the

ship in the left hand vertical column, the names of the personnel in the second column, the berthing space assigned in the third column. In a small craft the names can be horizontal and the columns of duties vertical to save space. In the next few columns are the Condition I all hands evolutions, such as cleaning station, docking, anchoring and entering and leaving harbor and readiness lists for port and readiness lists for sea. Also an entertainment **bill** in which all hands take part. And also a full bill converting the ship to a Scn org. In the next columns are the Condition I] port and starboard **watch** duties at sea (4 hours on, 4 off) and in port (24 on, 24 off). And any entertainment bill doubled so port or starboard watch can give a party. In the next columns are the Condition 111 (4 on 8 off) duties. In Condition ID there are three watches in port and at sea. This includes an entertainment which one third of the ship conducts entirely in each **watch**. The fueling and taking in and lowering boats assignments are which the first is man overboard, the second fire, etc., with the last an abandon ship. Then comes the landing party assignments for six different types of landing party, day exploratory from harbor and from sea, overnight from harbor and from sea. Then come shore party transport (of goods) which may require, in the main, manual labor. Additional bills are added by adding columns as before to the right. (BPL 4 Mar 71R)

**WELFARE STATE**, **1. the welfare state** punishes actively every producer. It fines him for producing. He's making money left and right so they take it away from him and give it to somebody who isn't working. In other words neglect the guy who is working and hand it all to the downstat. The cave in of any society beings with the reward of a downstat. (ESTO 9, 7203CO5 SO I) **2. that state** which rewards non-production at the expense of production. **well done** by the C/S-the session having concluded on F/N VGIs and the PC having F/N VGIs at the examiner immediately after the session, and no gross technical outnesses in the session. Total **well done hours** are to be counted as follows: (a) the number of paid "in the chair" **well done hours** produced by Div 4. (b) for every 10 paid **well done hours**, one staff **well done hour** may be added (10 staff VMHs for every 100 paid WDHs) provided it was actually delivered to staff by Div 4. (c) plus admin time up to 25% of (a) and (b) above may be added provided it was productive admin time actually done by auditors who did 25 hours "in the chair" auditing. **WHEN ISSUED**, short for "when, as and if issued." Where a security is authorized for issue but has not been issued yet conditional orders may be placed for it that take effect when, as and if issued.

**WHISPERING CAMPAIGN**, there are random individuals in the society who do not understand very much. This is expressed as a sort of malicious glee about things. Such pass on slanderous rumors very easily. In an illiterate society such people abound. Since they cannot read, the bulk of knowledge is denied to them. Since they do not know very many words much of what is said to them is not understood. This is not isolated to the illiterate only. What they do not understand they substitute for with imaginary things. Thus such persons not only listen to slander but also corrupt and twist even it. Thus a rumor can go through a society that has no basis in truth. When numbers of such

rumors exist and are persistent, one suspects a "**whispering**" This is not because people whisper thes; tl&gs but because like an evil wind it seems to have no source. (HCO PL 21 Nov 72 I)

**WHITE**, n. the completion copy of a communication. The actad's copy. (HTLTAE, p. 123)

**WHITE COLLAR UNION**, a union of persons employed in a white collar occupation such as a union of teachers.

(HCO PL 7 Aug 72) 2. white PR is engaged in idealization at all times to a greater or lesser degree. The better side of life or persons or dreams or hopes are the subject of **white PR**. (HCO PL 7 Aug 72)

**WHOLESALE**, the sale of large amounts of goods to retailers who then sell to consumers.

**WHOLESALE**, a middleman who sells in large quantities to retailers or industrial and commercial users but usually not to domestic consumers.

**WHY**, 1. the why will be how come the situation is such a departure from the ideal scene and will open the door to handling. (HCO PL 12 Aug 74) 2. any undesirable or desirable situation must have a real why. The why must permit a closer approach to the ideal scene. The why must always improve the existing scene toward a more ideal scene. (CBO 147) 3. it's always some huge enormous piece of stupidity, an out-point-any one of the various out-points. And it explains all other out-points as a common denominator. Once you find that one all the other ones are dependent on it.

It's like finding basic on the chain. The chain goes. (ESTO 12, 7203CO6 SO II) 4. the basic why is always the major out-point which has all other out-points as a common denominator and that's the real why, that explains everything. What is this everything? All the other out-points! What is this major out-point that explains all other out-points that I have found in this area? That could be the definition of a why. (ESTO 12, 7203CO6 SO II) 5. the real reason found by the investigation. (HCO PL 29 Feb 72 II) 6. we find what caused the situation which we call a why. (FEBC 2, 7101C18 SO I) 7. that basic outness found which will lead to a recovery of stats. (HCO PL 13 Oct 70 II)

**WHY IS GOD, THE**, when beings operate mainly on illogics, they are unable to conceive of valid reasons for things or to see that effects are directly caused by things they themselves can control. The inability to observe and find an actual usable why is the downfall of beings and activities. This is factually the why of people not finding whys and using them. The prevalence of historical man's use of "fate," "kismet (fatalism)," superstition, fortune telling, astrology and mysticism confirms this. Having forgotten to keep seed grain for the spring, the farmer starves the following year and when asked why he is starving says it is the gods, that he has sinned or that he failed to make sacrifice. In short, unable to think he says "**the why is God**." (HCO PL 31 Jan 72)

**WHY SHEETS**, why's found by aides are written up by aides on why sheets already issued and now being swiftly amended to show the number of the why in that pack, the time of occurrence of the reported situation investigated and a brief description of the state concerned. (CBO 65)

**WILDCAT**, meaning springing up anywhere. (HCO PL 5 Oct 69)

**WILDCAT STRIKE**, see STRIKE, OUT-LAW.

**WILL POWER**, self-determinism is entirely and solely the imposition of time and space upon energy flows. Imposing time and space upon objects, people, self, events, and individuals, is causation. The total components of one's selfdeterminism is the ability to impose time and space. His energy is derived from the discharge of high and low, or different, potentials to which he has assigned time and space. Dwindling sanity is a dwindling ability to assign time and space. Psychosis is a complete inability to assign time and space. This is, as well, will power. (Scn 8-80, p. 44)

**WINDING UP**, the action of settling or finishing the last business at hand, such as liquidating assets and apportioning them, before a business enterprise is completely dissolved.

**WIPE OUT**, informal expression denoting the entire loss of a business, property, finances or possessions.

**WITHHOLD OF NOTHINGNESS**, when an F/Ning student is interrupted by the supervisor he can be given a withhold of nothingness. The student may say "No, I've just been checked up" and the supervisor goes away. But the student now wonders "Am I trying to hide something?". "Am I really doing all right?" etc. A **withhold of nothingness**. (HCO PL 26 Jun 72)

**H ORGANIZATION**, interested in org or post and willing to communicate with or about org. (HCOB 19 Aug 63)

**WORD CLEARING CORRECTION LIST REVISED**, HCO Bulletin 21 July 1971RC, *Word Clearing Series 35R*, *Word Clearing Correction List revised*. Usually written "WCCL." This is the famous list that goes with method 1 **word clearing** or with any **word clearing** bog. Also corrects high and low TA when it occurs in a **word clearing** session. This is the word clearer's friendly friend. (LRH ED 257 INT) *Abbr.* WCCL.

**WORD CLEARING FESTIVAL**, the great word clearing festival! We are about to begin the greatest efficiency, happiness increasing party of all time. Every man, woman and child on this great ship is about to be word cleared method 1 on their education. Method 2 on their hats. Flag has 100 auditors Class III or above, 100! From this stel-

lar assembly will be chosen the most upstat fantastic auditors you have ever seen. For 12 stupendous days these auditors will be assembled in the largest space of the ship performing acts unduplicatable in any other galaxy. Three inch grins will be turned into 10 inch grins. VGIs will turn into VVVVVVVVGIs before your very eyes. The upstat crew is about to move up to the stellar band. (OODs 5 Sept 71)

**WORD LISTS**, (word lists for prepared lists) nearly every prepared list has all its words on a separate sheet, ready for word clearing on the PC. All the words on a list are cleared on a PC without repeating the same word or asking the list question. Such lists are issued for auditor convenience. (LRH ED 257 INT)

**WORD OF MOUTH**, 1. **word of mouth** is a public relations comm line superior to press, radio, television or Mr. Big. Radio, press and TV only seek to create "word of mouth." This term means what people say to one another. By standing for what people think is good and opposing what people think is bad greatly speeds word of **mouth**. (HCO PL 17 Jun 69) 2. there is internal communication amongst the publics and within each public, know as "**word** of mouth advertising" and "goodwill." (HCO PL 22 Jul 71)

(2) makes out a **work card** using a standard printed one, filling in: (a) designation-that is the short form of the post title which will handle the job. (b) date-that is the date when he logs the report. (c) information by terminal who sent the comm. (d) running number of job. (e) particulars. (f) if LRH order or any other needing compliance report. **WORKER**, a person who is gainfully employed or who performs work especially of a manual or mechanical nature.

**WORKER, GAINFUL**, a person who is normally gainfully employed. This holds true even if the person is not currently

employed or seeking employment but excludes the person who is normally unemployed or on welfare.
