

# The Bridge

Administration Briefing Number 1

by Capt. W. B. Robertson

RON'S ORG, 25 JANUARY 1987

Hallo!

We have a group of people here from all kinds of different countries and of different levels of the Bridge, and the purpose of this little talk is not that I talk, but that we present the Bridge-chart here, which you have in front of you, and give you a little description and some success-stories of people having gone up there and doing some of those levels. And also answer any questions that somebody or anyone may have that can be answered without exposing confidential materials or restimulative materials, but actually answering in terms of the basics of Scientology. Why that part of the Bridge is there, or whatever they want to know about why it's there, how it's there, or what does it do. So we will be answering questions on that. But first, I'd like to welcome everybody here. We have at least seven or eight countries represented here from all over the world and so "Welcome everybody to Administration Briefing No.1!"

Ok. First thing I want to do is point out that we have a Bridge here which is going from a person who starts auditing on Assists even, or special cases, Resistive Case Handlings, Dianetics, Scientology Grades per C/S program and goes up to Clear. Then we have the normal OT levels I to III and those are exactly as Ron laid them out. And they work just fine. There are some – shall we say – benefits of Advanced Organization experience, experience that is applied on these levels, which is not generally known in the field today. Especially on OT III and in the handlings of making **sure** that a person gets through OT III and ready for Excalibur. And those things are covered on OT IV, V, VI and VII. These are things that may help a particular person increase his intention, right? Or handle certain problematic body areas, or handle the effects of drugs that may still be persisting, medicines or alcohols on the body or on him, and handle any valence problems that may be there. And those – after doing all that – you arrive at... Ready for OT 8, which is called by various names: Excalibur, Super VII, used to be called Super NOTs, but it doesn't really have much to do with that. It is OT 8 – we call it **Excalibur**. Now, it goes along with the thing called OT Life Repair, because right after Excalibur you do OT Life Repair to pick up any things that may not have been handled so far on the Bridge. And at the end of that, the person arrives at the state of self-determinism – freedom from other-determinism. So he has, actually, now **cleared all of his dynamics** of other-determinism and he becomes **first Dynamic** OT level, first Dynamic on the OT levels. From that point, on up he goes OT on various Dynamics, and he handles the

self-determined case or the self-determined charge, what things **he** got into and so on. It's not case that was **put** on him by another, or by an implanter or something, it's stuff **he** did and got messed up in and he has to now get himself out of it. And that goes up through 9, 10 and 11 – which is called the **Phoenix** – and the description on that is: "Opens the door to the OT's own Dynamics and what he did, and didn't do, on them." "Now with the Tech he can end cycle, so that everyone wins, including himself."

And OT 12 – Pre-Static Life Repair, OT 13 – Pre-Static Prior Assessment and the Clone Cycle Rundown – that's the next part of the Bridge – "is a Power Package that handles why an OT did not **remain** an OT." I might say at this point, that the Bridge **is** exactly as LRH has always written in his works. That a thetan **was** more powerful in the past, he was **much** more powerful in the past and he came down in power, down the spiral. We are just recovering those abilities and recovering that state, and it is an error to suppose that the person was never that big, because it is obvious that he **is** and can retain or regain that size of awareness. So people that are thinking that a person just has to "evolve" or "get bigger" and he "never was bigger", are **wrong**. I'm sorry to say, they're just incorrect and they are buying false data from whatever source that false data comes from. The fact is, the thetan **was** big, he came down the spiral and now we're getting him back up. And that's what Ron put in Scientology. It's one of the main differences of Scientology from any other philosophy, religion or science. It assumes that the thetan has always been at a higher state and now he's down at a lower state, and we're trying to **regain** that ability he once had. OK.

After that is the Commanding Officer Cycle Rundown – before OT 14 – and that handles the – "gets the person more in control of his body and then helps make it operational." It does a lot more than that, but that's what we can definitely say it does. And OT 14, 15 and 16 "reveal incredible data about the games thetans get stuck into and couldn't get out of – until now." That's what we can say about that, because you can look back to the basics of LRH's work and he says: "Life is basically a game." Well, I would only add one thing to that – it's basically a **series** of games – and so, you may find him stuck in more than one game. The "caselessness" occurs after the Super Static Rundown, which is at the end of OT 16. And after that, a person has no case and he **knows** he has no case, he absolutely **knows** that for sure and he doesn't need anymore auditing. He doesn't need any vias through the MEST universe, he doesn't need a via of a meter or a body, and so on. He doesn't need anymore auditing himself. He can certainly **do** auditing very well though. He can handle any other person's universe and do auditing in that person's universe very effectively, very effectively. So that brings us to OT 17 to 33 which are the "Administrative" levels. And they arise actually, naturally, on the pan-determined basis. Because you've handled other-determinism, self-determinism, now you move into pan-determinism. Now what is that? Well, that is taking full responsibility on all Dynamics and handling situations on those which are keeping people trapped in the games, and to finally end the game for all your friends and all the players that are in it. Now that is in progress at the moment, and this briefing is actually a step on that, on those levels, because it is giving people now the R-factor, or the Reality factor that there is a Bridge and a way to get **out** of these games. You see? So it's a first little R-factor on that.

Now, funnily enough, I discovered that, or re-realized, or re-cognited, that **after** all this technical business is handled on a person's case, he better study some Policy. Why? Because Policy is the Technology of handling the 3<sup>rd</sup> Dynamics and other Dynamics, and when

you're handling groups and so on, you have to know what are these groups, how do they work, how do you handle them, and so on.

Especially the FEBC Technology and so on, where LRH says in one of the early tapes of the FEBC, he says: "What happens when a person can get no further case gain from auditing? He can then get case gain from demonstration of competence." That's what he says in the tape – he can demonstrate his competence and get case gain from that. You see? Real **operating** state here.

So that moves on up to OT 33, and by the way, there's no real mystery about these levels. I can tell you exactly what they are right now. They are **handling the people still stuck on the bridge in the lower levels in the reverse sequence**. See? That's the answer. In other words, you are going to find a very few thetans that are stuck in – say – a higher level part of the Bridge – say – up around 14 to 16. You are going to find some people that are stuck in the things that are handled there. Now, for a thetan to get stuck at that level means he must have been powerful enough to get up there somehow to get stuck at that level. Therefore, he would be a worthwhile person to release from that and be able to play a bigger game. And then you might find people stuck in succeeding levels coming on down, until you find people who were stuck in OT III, and now you want to release those, so they can continue on up the Bridge. So you keep releasing these, and it gets to larger and larger numbers of thetans, and they can help handle the larger and larger numbers on the smaller and smaller levels that people are stuck. Until finally, you have millions of auditors across the universe that are handling people who are stuck, only because they can't "recall something" and they need ARC-Straightwire or something. You see what I mean? But you couldn't do it in reverse. You couldn't handle everybody that needs ARC-Straightwire first. Where are you going to get the auditors from? Because that's one of the first points on the Bridge, you have 4 billion people on this planet and you only have a few thousand auditors. No, you better handle the ones who are stuck somewhere on the Bridge, make them into players and auditors on the games and then **they** can help you handle the ones on the next levels down.

So there's no mystery about these levels, it's just an administrative handling. Because as this grows and grows, as the levels go on up, it grows and grows and gets bigger and bigger and bigger and as it gets bigger, you need more organization, you need more comm-lines, you need more auditors, you need more C/Ses, you need more duplication of materials, etc. You're into the problems of what is handled by studying your administrative Policies. So there's no mystery about 17 to 33. It's just a series of steps in reverse gradient down the Bridge and an increasing gradient of volume, until all the players can be freed from the games that they agreed to play.

These games are not implants – everyone that's in them agreed to play them. OK? And one way you can tell a player in the game is that he has "a case". If he's in the game and he was a player in the original agreement of the game, he has a case. It's so obvious. The case is composed – if you want to know what a **case** is, without giving you the details of everything – it just is – you can say it is the **accumulation of incomplete cycles of action that the thetan has since the beginning of the games he started to play. It's the incomplete cycles of action or the things that he has not-ised and doesn't look at anymore**. Whatever way you want to look at it, it's something that is a "backlog" handling. It didn't get handled yet. He has

to increase his awareness in both: **time and space**; in size of awareness and responsibility, and size of **confront** of time, and things that happened he did earlier than time, because there **are** or is a way to measure time earlier than time existed. And we found that to be true on the OT levels: You **can** measure time in a way of, how do you date it in a session, where you don't have time? – you see? – before the MEST-universe for instance!

Well, how **do** you date something back there? You don't have the time to date it with – you **can** date it by the number of games he was in. That's all handled on the OT levels. So he has to increase his span of awareness to get back to the earliest incomplete cycles he has and then when it's all finished, it's all finished, you see? And he can choose to either play the game again, leave the games totally or make new games. That's why we have at the top here OT 34 to 40. There are six or seven little levels here that handle the tendency, the interesting fact of a **tendency for a thetan to come into a game and contract**. Now **why** does a thetan necessarily have to contract when he comes into a game? You see? This handles that – the Games Master Data handles that. As you know, everything in Scientology is based on **expansion**, you know? Expansion up the grades – the Grade Chart – expansion of awareness, expansion of space, expansion of beingness, all of that is expanding – of knowledge, responsibility, control, ARC. All that is supposed to **expand** as you get into Scientology and go up the Bridge. And even Policy – all Policy – is **based** on expansion. And if you have studied the basic Policies, you know that. Now here is Ron putting to us a whole key important datum there; that if thetans are going to be better off and they are going to be more able and they are going to be sane and play better games, they had better **expand**. Across the Dynamics, awareness getting bigger all the time, their actual confront of space and time increasing all the time. Ok.

So, **why** did the guy contract in the first place? You see? If you can handle that, then you can handle his future and his future games. Therefore he doesn't have to contract in future games, you understand? And that course is what does that. Because even when a guy has no case, it is possible, if you get into another game, to go back down the spiral and contract some more and get built up other incomplete cycles and more things he not-ises and so on. It is possible, unless he knows the data of what lies in back of this tendency to contract, OK? And I may say that, also, that course is a **study** course. It's not auditing. Though there may be some things a person might cognite on, that **feel** like auditing. But the thing is, it removes the **basis** for a person actually **having** a reactive mind in the first place, or an analytical mind or a social mind in the first place. He doesn't need those things, he can handle it all by himself. Now his tendency to contract started from his denial of responsibility to himself. In other words he says: "Well, I'll sort of do it on a via or make something to do it for me... " or whatever, whatever. You see this all over in the Axioms and so on. You know – that thetans can create matter, energy, space, time, thought and life. It's all true, they can do that, they **have** done it – once more, they **have** done it. What you're looking at, if you're in the physical universe right now listening to this tape, you're looking at the physical universe, right? Well, it's a creation of – a combined creation of – all the players in the game. How it's put together and why it's so dense and why it's so solid, you find out all about it on the OT levels. Alright? So that gives you some basic understanding from above 33. It's better to play those games from 17 to 33 with the data that you don't need necessarily to contract anymore. You **can** expand and therefore you should do the Games Master Course after you do OT 16 and really get that **really** understood. And then you have the possibility also above that of playing **new** games, brand

new games, that have never been thought of before, and believe me, that will be – at the moment it's a bit difficult to think of any new games, because you've got to find out first how many games you **have** played and how complicated they were. But there was a **lot** of them.

I mean, you just look at this one planet and if you counted up the number of games going on, you might get into the thousands already, you see? I mean, look at them, all those games. You know, war, football, swimming, tennis, business, 2D, livingness in a certain city, being a national citizen of X, army, navy, airforce, science, chemistry – these are all games. Thetans are playing games in those areas. You start counting them up. You can count up every profession as a hat in a game, you see? Every part of your life has a game analysis to it. "What are you doing in your spare time?" "Oh, I like to play checkers." That's a game. There is even any sort of **minus** randomness games, like: "Well, I like to lie down and sleep awhile." Or go **out** of the game, you know, a negative game "Oh, I just sit there and I watch television to relax." That's alright, you watch **other** people play games. So there's also the possibility of just being a spectator at other games, but that in itself is a game, it's a game of being a spectator, you see? So remember, there's life and it's full of games. It's **basically** a game.

So anyway, what we are doing here is removing the tendency for the guy to go into a game and contract, because that's what makes a case. So you might say that we are in the business of running ourselves out of business. If we audit everybody until they have this understanding at OT 40, there won't be any more business for auditors. Well, that is meaning that you have to take a bigger responsibility than just running yourself as being in the game of being an auditor. You see what I mean? You have to get out of that game as well, you see? And want a new game that's totally expanding. And I tell you something else: That Scientology **itself** can be considered a game. The auditing part and so on. And Ron always said, on a tape or several times, he said that "in the end you will have to run out your track of Scientology auditing as well". Because it is that degree other-determined and is that degree of via through the MEST-universe. You know you had to use a meter and you had sit to in a room and the guy had to give you the time to be there and all that, and thus it's a bit... even though you **wanted** to do it, and even though you came **willingly** to do it – it still is a bit of a via and it's a bit other-determined, you see? So you **do**. There is a point in the Super Static Rundown where – it's one of those little points in there – where you run out your track of auditing. So you **do** get free of that as well and this shows you another thing that – I don't think we have to mention to you, but possibly somebody hearing the tape somewhere – there has been rumor around that Scientology is an "implant", you see? Well, to people who say that stupid statement, I can only say this: "I have run a lot of implants off of cases and off my own case and have never found an implanter who gave you all the data about how to get out of the implant. There is no such implant where they give you the data of how to get out of it. The intention of an implanter is to keep you in it." And Ron always said: "You have to run out the track of your auditing – when you don't have – right before you end up your case." And so we do that and now the good news about all this is this whole Bridge can be done full time – if a person wants to do it full time as a solo auditor or whatever – can do it in a **short** time of perhaps two years or three years or even shorter, depending on the amount of time he can spend and so on like that. That would be sort of coming full time and doing his sessions, five sessions a week or something like that. But he could, in two years, actually finish the whole entire Bridge from no auditing up to no case. That is possible. Some people, they have jobs and they have

other responsibilities and other games to play at the same time, so it may take them a little longer, alright?

And the other thing is, that it is not that expensive to do it, because most of it is Solo. The levels from Solo-assists all the way up to III are Solo-auditing. The guy learns how to do that. He may have to have an occasional Review-session, but that's something else. Just IV, V, VI and VII they may start off as a Review-session and then turn the guy over to Solo to do it. So again, it's mostly his own responsibility to do it. On OT 8 there is a first groove-in part of auditing, to make sure the guy can do his own work on the level and then he's onto Solo. The Body-Straightwire can be done as an audited action or Solo. 9,10,11,12,13 all the way up to the rest, to the end of OT 16 and the Super Static Rundown, is Solo-auditing. Except in case a Review has to be done on the guy – he feels he's not quite good enough an auditor to do it himself. Or, Review is ordered by the C/S or something. But these are not long cycles these are... – as soon as possible we want the guy to **be back on solo** and do it on **HIS OWN DETERMINISM**. OK?

So, as I said, we're in the business of running ourselves out of business. But we have a lot of business because there is a hell of a lot of players in these games that have to be handled first, before we could approach that "going out of business"-point. And I think at that point we would have a much brighter and bigger game already started up and it wouldn't be any big loss to go out of business. So we would just end that game off and – Pff... - here's the next one.

Now I have some success-stories here... That's just a description of the Bridge, you see? They say: "Wah, wah, we don't believe that, because... eh, you know, how could he find that Bridge and so on like that..." – and so on, so on, so on, so on. Well, I'm only a person that has been in the technical side and administrative side of Scientology for, you know, officially working for them, for 16 years. So I've got a lot more time in there than a lot of people and that was **full** time and I did the Class VII, Class VIII Course and also the FEBC and also the Full Captain's Hat and all the Sea Org Courses and just about every course you can imagine down below that and also worked on the Flag Ship for 6 to 8 years and did missions all over the world and so on. So you might say, I know a little bit about the subject. And the other thing is, I do know that... – I just didn't imagine any of this stuff, because I always used Standard Study Tech and doing a checksheet three times through and studying and clearing up everything, before I did something. So I'm **not** interested – as some people seem to think – in "exchanging ideas" with other people. We don't need to exchange ideas, we have a Technical Bridge here, you see. Your case is your case, there is the Bridge and the processes which bring it forward to your awareness and allow you to handle it. That is all that is, there's nothing... "ideas" or anything about it, it's just the next steps to go on up and result in finally **no case**. So there's no "opinions" about this. It's not something you "exchange your ideas of the Bridge with somebody else's ideas of the Bridge" – you see what I mean? It's not that. That IS the Bridge. If "they" have the Bridge, they have the **same one**. If they don't have it, they won't make anyone that doesn't have a case and so they won't finish it. OK?

Now these success-stories are quite interesting. I'll just read a couple of them, because then I want to go to the questions and find out what people want to ask. I had some from Denmark here that I thought were very interesting, nobody has heard these yet.

### Success-Story on Excalibur and the Phoenix:

"I find it hard talking about my gains on Excalibur and the Phoenix without mentioning my wins as an auditor under Capt. Bill as a Senior C/S. In November, 1984, I started working with him at Ron's Org. The developing and co-auditing of Excalibur followed a few months later. Now that two years has passed, this is what has happened. I have come to be totally certain on the workability of the Tech, there are no cases which cannot be handled. I've come to understand the inner logic of the Tech. It is expressed in the Factors, the Axioms, and the Class VIII materials. The Bridge is constructed on the basis of this logic. Once one has grasped it, one can think with the Tech, be it below OT III or above OT 8. There is a straight line up to OT 16 and it is a logical line, it isn't "invented", just as LRH didn't "invent" the Tech."

So that's from an intern and so on. It goes on and on but you can read this, and if you ask for copies of these, you can get them. I'm just trying to find the ones from Denmark. They're quite interesting. Ah, here is one from Søren Visti. Jaa, this is up in Denmark. Oh, he's saying he's on OT 10. He says:

"The most incredible things happen on this level. Theta-perception goes way up, the exterior view on other universes, including MEST... " He says: "... (MEST are made of all the other universes)... " MEST is made, composed, of all these other universes. "... is more and more stable and best of all the certainty that we all will win and make it. And totally nothing can stop it. Standard Tech is the key – know it and use it and it will set you and I and others free. I hope to see my friends here soon." Søren.

Aha, here are the ones – here is the one. Here's another I wanted to see. This is one from a person who has finished OT 16 and the Super Static Rundown from Sweden.

"I've now completed the Bridge up to Super Static. I've completely handled ALL from beginning up to present time. I don't have, and will never again have, a case. It's finally finished. I've been in Scientology for 17 years and worked very hard on learning how to handle all in life. I'm finally at the point. I've aimed at that point for many, many years. I finally have a completely calm universe. I am now able to handle whatever will come up in the future. Nothing exists today on which I am not certain. The road to this condition is really tough. You really have to be a tiger and not Q & A with things you 'ought to do.' Don't Q & A with that, just do the Bridge." (That's what he did.) "I have had a lot of use of all the hours of TRs I did and all of the basics. I also trained hard on it. I now know that we have won the game against the evil. We are on the right side in the game. Now I shall see to it that all other thetans get out of this trap. If you also work hard at it you will soon be here. It will be very wonderful to meet you. I want to thank Søren and Per for their wonderful assistance and Bill Robertson, who has made the road out clear and, of course, a real **thank you Ron!** And I will say as he did: I will wait for you in the sky."

From Kurt Eck. You know him? First caseless guy in Sweden. Ok. Here's one from – oh, finished 9 to 11 – I think also from Denmark:

"After having finished level 9 to 11, it is felt like a big brush has been several times over the time track and totally cleaned away every bit of dust. It is felt like there is total calmness, happiness, love to fellow people. Like nothing can cave you in now and nothing can

effect you anymore. The responsibility and control in life is at a much higher state than before. Production in life is way up. My need for sleep is not so big anymore." (How funny.) "My ability to get the postulates through is much better, plus the perceptions. Each day at breakfast goals for that day are set up and these are easily reached, no small counter-intentions are now coming in. It was funny to run those levels, so hurry up, let's all do it. At last, I will thank all who helped me get so far."

And here's one from Denmark as well. I'm reading these because these are people that didn't come from right here, so nobody can accuse me of beating them over the head to make these success-stories. They were done totally through Denmark and I didn't even know these people were on these levels or how they were doing it. I didn't even C/S them, but I trained the C/S to do them and then they sent these success-stories down here. So this is one from Ole Gerstrøm. He says:

"I completed Super 7 on the 20th of December 1986. I **had** audited around 200 hours on AA 7 during one year. And half a year then on Super 7." (He's talking about Excalibur here as Super 7, but before he did 200 hours of what they call AA7, whatever that is.) "I have had a lot of wonderful sessions with high affinity, realizations and intense communication. But the last session was the most incredible one. I ran into the basic for all this charge and the last bits disappeared magically. I experienced unfolding as a thetan, so that awareness which had been folded up and paralyzed for eons, returned. I knew then that I completed the level. The postulate from **then** explained why I sit here today. When I, since the completion, came into situations which used to give a banky reaction, nothing has happened – just a quiet calmness. I've also observed that when I put attention on things in the past, then the happenings appear a lot easier and in great detail. And other abilities start appearing. I have never experienced anything like this and I'm told this is only the beginning. My thanks to Ron will stand in eternity."

Yes, nice one. And I'll read one more. This is one from a person named Birgit Visti. It is probably the wife of Søren:

"I will try to describe what I have reached on 7 and 8." (Which is Excalibur and OT Life Repair. I guess that's what they call it up there.) "Right now I feel I'm floating in the air. It has been an incredible experience. Everything I've touched lately has succeeded very easily and with big success. I also feel a lot lighter, as I know the mass I have been carrying around is gone. I feel like loving all the world and I wish that everyone will reach this condition and I know we will get a wonderful world for everyone and I will do what I can to help achieve this."

I think we covered all the levels except somebody from 12 and 13. I don't think I read one from that level. I just want to find one, if there is one... There is one, you have one. That's right. That was a funny one too. «You want it? » Yes, we can read that one. I will handle any questions until Ulrich comes back with that one from 12 and 13, here's a good success-story from that. He just completed it recently. OK.

First of all, any questions about the Bridge? You've heard the R-factor on it, you've heard some success-stories. Anybody have any questions about it?

«Can you tell a little bit more about how you discovered that Bridge?»

Now, tell me who you are first.

«Ah, my name is Ole Halvorson, and I'm from Sweden.»

OK. So you want to know a little more about how I discovered the Bridge. OK. The first thing I took – Ulrich and I worked together – we took the existing materials that were known about up to that point, you see? On the Bridge. And we studied them very thoroughly three times through and checked each other out for a month and a half.

«That was a couple of years ago then?»

Yes, a couple of years ago. Everything we knew, you see? Up to that point. We are both technical people. And then we started auditing that. The last stuff that we knew was from LRH, right? And we started auditing that and applying on what we ran into – we applied also, when necessary, more Tech or Policy or Ethics to that. And from that came the Excalibur theory and practice of how to get through that level completely. The reason being that people had been running that for thousands of hours – the level used to be called... NOTs, I think. And then they – people used to run it for thousands of hours and years and all this stuff and they never quite got through it. Nobody could ever say: "Well, I'm through it." But then the guy, he says: "Yes, I completed it." And then he falls down the steps and breaks his head, you know? Or he goes nutty or PTS or something. Well, he didn't really. So the thing was, we figured there was something they didn't know about this stuff. Or there would have been a lot more completions and there wouldn't be such an endless type of thing.

So now we know why that was, it required knowledge of not only Tech, but Ethics and Admin as well, to get through the level. And you CAN get through the level. And we developed whatever was needed from LRH basics to handle anything we encountered on the level and you arrive at the state of having handled the biggest barriers, "most secret, most ancient barriers to OT. An organized attempt on the 7th Dynamic." Organized, see? One thetan can't go up against an organization alone, you see? He has to have some very powerful Tech to be able to handle that. And that's why nobody got out and got through it before. They didn't know you also have to add Ethics and organization to your handling and a good training program, so that you know how to do it. And after that – anybody who gets through that – will bump right into the next level. You can't help it, you understand? You don't have to look very far once you know you finished, that you just think: "Well, I wonder what... " – BOOM! – and there it is. You see what I mean? And if you have the technical data to analyze it, and the basic knowledge of what technical processes are needed to handle something like that, you just write them down and you try them and: "Oh, this is the best way through this!" – Boom – and you do it. Very easy! After that point things came off like – I mean, I could write up what was going to be on the next level. After I'd finished THIS level, I could then write up what was going to be on the **next**, because **I knew that had to be next**. I made one or two mistakes on the way and the next day I was smashed. I said: "Uh, I've skipped something, something I didn't get. What was it? What was it? Aaaaah, there is another aspect to this! I see, you have to do it this way now!!" Now I ran that – Aaaaah, VGIs, FTAs – fantastic, great, great, great. And then there is this other aspect. "Oh yeah, now I can do this." Now I hit this and – Boom – I can do it. It's very simple, you see? If you know the basics. And so you just – you can't help it – hit them. So they're right there in line – boom, boom, boom, boom, boom, boom, boom – and I didn't know, where it was going to go, but I knew **that** was next, **that** was next, **that**

was next, **that** was next and it just kept going one at a time. If people do their whole internships here, they see the development of this. How it goes from one level to the next. Didn't know what the next level was when you were doing this one, you see what I mean? But after you've finished this, you run right into it. It was **easy**. Things weren't meant to be this difficult. If it wasn't for all these Implanters they had around the games – they were trying to keep people's awareness down – a thetan could go Clear and start right in on OT 9, you see? It's only the implanting that kept them unaware. It wasn't supposed to be so difficult. It's a lot of fun. It's just handling all these incomplete cycles in your universe, in your games, on your Dynamics. No. Very easy. So they just came one after another and then finally you get to the end and – Boom! – you have no case and you realize: "Oh, I've no case now because... haha... because... well, that was it! Haha." It's very simple. So you show me somebody that got through Excalibur, and you have there a person who hit the next level. He will see it, there it is. It's self-determined.

I'll give you an example on a lower harmonic. Suppose you only had the Bridge up to the communication level. You're out in Africa somewhere in the jungle and somebody sends you Dianetics and you ran that and you did ARC-Straightwire and Engrams and Secondaries and all that and then you got this thing it said "Communication-level" and you ran that and you felt: "Great! Now I can communicate to everybody!!!" You see? And you start communicating and pretty soon people are coming after you with spears and trying to shoot you up and – bang, bang, bang, bang, bang – and you say: "God damned! This can't be all there is, you know? This communication is great, but man, look at all these problems I have right... " **problems**... ! It's the next level!! You see how easy it is? Well, there you are! Alright.

This is a success story from OT 12 and 13:

"Now, this is a hard one to put in words, without starting to look too unreal. I'd say, this level has taught me something about the fabric of this universe, or rather, universes. It has taught me how the universe is holding one, as well how I'm holding it. And from this I have become disentangled. As well I was taught something about space, about the limitedness of the MEST-universe space. About the vastness of my own space. And as well, I learned about expansion. It may sound funny, but shrinking is the wrong way to expand." «Then he says in parentheses:» "(That's a typical OT 13 joke.)"

Shrinking is the wrong way to expand. I explained before, that expansion is the big thing. OK, next question?

«Yes, is it required at any time to read the Green Volumes as a prerequisite?»

Well, I think that people who are out there spreading rumors and wondering what's going to come and what to do and so on, would be better advised if they have access to a bookstore to buy and read the Red and Green volumes at any time during their life. Even if they don't have the money to spend on auditing and so on, they **can** always borrow a book, even from a library or a friend, and read. And there's no barrier on that. In other words it is good – that when the guy gets caseless, he – better start learning some basic administrative doingness, because he's going to find himself – whether he likes it or not – if he's staying in the game to help others out, he's going to find people **depending** on him. Because he's the only one that can be certain about what's happening, he's the only one that doesn't have a case, so

he's going to naturally become the guy who everybody is depending on to do something. So he better know what he is going to do. Now if he's not trained in the area of administration, or he has some former idea, that is not quite as efficient as what he can learn from the Policy Volumes, well, then he should read them. Yes. I would say so. However, it is also possible to – shall we say – take the Volume 0 and learn the basics of Policy, and from that one he can – well, after OT 16 a person would start cogniting like mad, he could almost sit down and write the rest of the policy himself.

This is the possibility you get into. You find out on this Bridge – **where** did LRH get the axioms from? They're not just HIS "idea", no way. **you** could sit down and write them, after you do the Bridge, you see? So we must thank him, because somehow he came into this game, into the area of this planet and he came in with the knowledge enough to be able to sit down and write those things, so you could start Scientology. And therefore he must have had a pretty caseless viewpoint about things. And I think you find that all through – he says: "An auditor should have no case. A staff member should have no case." And none of us should have any case, right? That's for sure. Because, when you really don't have a case and you've really handled all these things, **you** could sit down and write the Factors, **you** could sit down and write the Axioms. You can do it! Or you could write your own version of it, because you would know exactly how the guys got into this situation themselves, you know? You see? So you can – again, it says here on the side of the Bridge – there is a point of Clearness, OT-ness, Static Point and there's a Source Point up here. Well, that's what it means. After you become aware of all this and become aware of how to do the games, how to create games, how to make better ones and so on, then you can become a source of games, of new games and new ideas, right? That's all it is. OK. Any other questions?

«Yes, how would you define a Clear Planet? Just to raise another nasty question... »

That isn't a nasty question. Clear Planet – well, by the Grade Chart here – let's look at the two things: Are we talking about the beings **on** the planet or the planet **itself**?

«Well, I don't know. There was always this promo piece about the "Clear Planet" and apparently that's all we were into.»

Yes, that's a good thing.

«... at least we were totally aware and then... »

Let's assume this...

«... people decided it wasn't possible and all this, so maybe it wasn't defined correctly ever.»

Maybe not. It would be a first gradient actually – is to get people up to Clear. Say there is 5 billion people walking around in bodies on the planet. I mean, there may be others that don't have a body or are waiting in line for bodies, but there's around 5 billion on the planet now. And you could effectively Clear them, but they still wouldn't be caseless, they still wouldn't be OTs. They would be much better off, but you would have to put in a program to get them all the way up the Bridge, not just Clear, you see? That isn't quite enough. Why isn't it? Because there is a control mechanism on the 7th Dynamic right here at OT 8. And that control mechanism on the 7th Dynamic influences people's actions, governments, sciences,

whatever, it **influences** them. So even if the whole planet WAS Clear, they still could be influenced by the 7th Dynamic suppression. So it's better to get them all the way up to have **no case** and then they won't be the effect of that anymore.

Now, so that's a program which you say: "Hey man, that's going to take a long time." Well, when you can take one person up in two years and you can train twelve people or twenty people in a few months – especially after they have finished, they can train very quickly on how to do C/Sing, how to do auditing and so on – you can now expand at an increasing rate, because once you start handling groups, you get into the awareness of what a group is and what an opinion leader is, and, for instance, let's just take Islam for an example, right? If you got twenty, or let's say two, people very well trained in Islam – in Islam religious groups there they want to find out the truth – and you train these two guys very well to be auditors, C/Ses and so on, all the way up and you send them all the way up within two years – no case. Now, if you multiply that two, they go back there into their groups and they start training others – two, four, eight, sixteen – bam, bam, bam, bam – like that, this religious group which controls maybe 700 million people – you see, 700 million people – in a very short time, they could have the whole group going up the Bridge. Now if you find another group such as Buddhists – who are also very organized and so on like that – and they look for the truth too – and you train a few Buddhist auditors – do you know how many Buddhists there are on Earth? There is about a billion, there is about a billion Buddhists in the world, you see? Most of them are in the East, but there is still a billion. Hey, with that plus Islam, you've handled nearly a third of everybody on the planet and it would only take maybe 15, 20 years. If you could get it into there.

Well, the reason we couldn't get it in there before is because we didn't have anybody up here really operating on OT 17 to 33, except LRH, and nobody else was supporting him too well, because they weren't ready to do it and people made mistakes. But now, when you understand all this, you can do it just in the right sequence, the right gradient, and it goes and it just gets bigger and bigger and bigger. Then you can find other groups that might want to do it. Like, say the – for example – the old people. What's happening with all these old people in all these countries? They are quite bright, intelligent, they've had jobs all their life, they have experience and they are just sitting around waiting to die. Why don't we teach them Basic Scientology? And how to be auditors and they can audit each other, keep each other alive for a lot longer and be ready for the next life-time, if they want to, to carry on. Because they can get their certificates validated – any auditing they've done doesn't have to be done again or you'd overrun him – see? So they can start – and they're not doing anything! And they have the income to just sit there, or the Social Security. You could take old people. Now what is "old people"? There must be – well, 400 million old people all across Europe and America. See? Retired.

Now see, that's the cleverness, you look into what groups can you – no, you don't want to just get this guy down here and these little guys who go into the bar, that isn't going to make any effect on the planet – you have to do... Think of it logically: How would you do this – creating a Clear Planet? You find the largest groups that have organized comm-lines already, as 3<sup>rd</sup> Dynamics, and transmit the data down without alter-is and you train the top guys there and they go down, then carry it on, while these are going – now those are going – bam, bam, bam, bam, bam, bam – and you create a large effect, you see? Right now we are

getting in the people who **want** to come. Most of you, I know, have picked up that you had some kind of mission on this planet, to help out in this kind of thing. Well, that is true. But we're the ones that then have to direct the handling on how to do it and keep it going. Nobody wants to have a case. Nobody wants to have a case. It's only the implanters that want you to have a case. And I'll tell you – the money people are paying, the sadness, the grief, the pain they're going through, dying in the hospitals, and dying from all these diseases, and all that stuff – they wouldn't do that if they didn't have a case. They're paying a lot of money to have a case. It's much more economical to get rid of it. OK. Any other question?

I might add, that there are great... (I was looking here, as there is a doctor in the audience)... so I was going to say, I might add... To the benefit of people who are interested in sciences and medicine, that there is the possibility of research and development and further discoveries and further methods of handling in all sciences and all medicine and all healing practices and any kind of technical work – these branches become so numerous, when you go up the OT-levels you start seeing, let's say, the underlying basics to everything. And you are going up there, as a person, who's maybe got a job already or you're an auditor or something, you don't have time to investigate all of these various interesting phenomenon and find out, how does that apply to chemistry or physics or new inventions or whatever. You don't have the time to do it, but you know other people who come up there will want this and will have the time to investigate it and handle it, you see? We have plenty of things that will be enough to ensure that there **is** a New Civilization.

The New Civilization can have a whole new art, a whole new music, a whole new aesthetics, just based on what you realize when you go up the Bridge. When you do, it makes the other stuff that's existing on this planet look very boring – very boring, very controlled, and very down-tone. Except for the occasional bright person that's coming up with a bright idea. And **they** never seem to get too far with it, you know? But otherwise, when you see this, you say: "**Man**, this planet could really be cooking, it could really be bright and brilliant, brand new aesthetics in advance of any other planet in the universe and be right at the forefront of progress and expansion." And that also would help to get people interested and going up that Bridge. If we do expand in all these other areas, there's a lot of possibilities there of life-long works. Listen, these other philosophies that come around, they have people that spend their **whole life** just getting the "interpretation" of "what the guy said", you know? And they make a whole work, a book, that interprets **only** what **one** guy said from another part of the religion or science, you know? And they do further investigations on **that**. Then you have full volumes of this stuff clogging up the libraries.

Now we have **new basics** to look at. Now from **that** can come all these other things: New inventions, new basics, new material, new ways to live, and ways to be healthy, and blablabla – anything you want to look at can be improved from the possibilities – shall I say – on the other Dynamics that are realized on the way up the Bridge. We've already noted down several of those, but we don't have time to do them, we need other people to do this. So we don't only need auditors, we need the whole element, all the elements, of a New Civilization. Because that is how it is going to be handled on this planet. Other planets will be **much** easier than this planet. They will be, because they don't have 193 governments on the planet. They only have one... and at the most two. So all you have to do is start at the top and everybody goes up the Bridge, OK?

The people here are so aberrated and so controlled by this level here – on the Excalibur level – they can't even... they are not **allowed** to see the benefits of Scientology. Not allowed to. Their case will not let them look at it and their cases will order them to invalidate it too, because Scientology **is** the way out. And if people are trying to keep you **in**, then they won't let you see the way out. Of course, of course, of course. If you're in a jail, right, then the jailor is **not** going to let you have the key, is he?? So you can look at it as a reverse analysis – looking down from the top – you see? Of course! Why didn't people... you know... why was all this effort against Scientology?... and why was all this efforting to get it applied into the world and so on?... Of course! It was the **key** to getting out. So it had to be resisted, be **re-sisted** by those who wanted to keep everybody shut IN, right? And that's what Excalibur handles, and once you pass that, **you control who has the key**.

Yes. Nobody can keep you locked in and you can free others, right? Whether they want to be freed or not, that don't matter, you understand what I'm saying? These levels are not something you have to effort to do. You don't have to effort to do this, you don't need billions of dollars to do it, you see? The guys who are keeping things going – enslavement on the planet – they think **they** need billions of dollars to keep you enslaved, they need to take all your money so you can't use it. So they have the goal, they have the money, they have the power, they have all the big machines. Fantastic, you don't need a single bit of that. What you need to do is to get caseless, so you can audit anyone, anywhere, and change **their** case and handle them at any distance. That is just a matter of ethically using that, so that you don't overwhelm yourself or your organization. In other words, if we want to have 500 people walk in here tomorrow, a couple of us could sit down – that have done some of the higher levels – and we could audit 500 people, you know, the locks off of them, you might say, that are keeping them in their "jails", open their doors and they would get here as soon as they could, in the next couple of days. But we don't have enough auditors to handle them. So we would be guilty then of doing an out-ethical thing. We would have a demand in auditing and training and everything, but now we wouldn't be able to to deliver it, so it would be an auditing, a NO-auditing ARC-break, a no-training ARC-break. So we **could** create an ARC-break like that.

So that's why I'm encouraging people to get trained and to be ready to handle the flow, because we CAN create the flow. We don't need to do all this promo and billions of dollars of advertisement. When you can **do** OT actions, you can **do** them and you **know** it. I mean, I've done it over the last year, that's how we are keeping filled up. And I'm concentrating **only** on people who are worthwhile to be trained. I'm not even asking for public. I just want people who can be trained and a steady flow keeps coming in. You might say: "Oh, that's amazing, how come a steady flow keeps coming in. You must be getting good results." Yes, we're getting good results. But remember, every time you get the people who **want** to do it, then you move into the next gradient of people who may **not** want to do it, or they're in doubt. Well, every time the flow slows down a little bit, I just pick out a few guys, who are in doubt, and I just audit something off of them and then they come in. You see? It's that simple. And this is how easy it can be to Clear a planet. We are not talking about a lot of effort and a lot of – uhh, uhh – required – you know – and a lot of: "Ah, you didn't get your Stats up this week and therefore you don't get any family-time and you got to clean out the cellar." We're not talking about **that** way of Clearing a planet.

We're talking about doing it from an OT level, or caseless level, where the guy can operate as a Static. Static state. "Instant thereness" is one way it is described, or "communication without vias" is another way it is described. "Vialess communication" or "vialess auditing" or whatever you want to decide. You see? Once you've finished Excalibur **you** are powerful enough to actually do what the implanters were doing. You're powerful enough after Excalibur to control the lives of many people through their monitoring systems, but that's still a bit of an Overt, you see? And the monitoring systems didn't work efficiently anyway. They are only about 40% efficient, only more efficient in the cities than they are in the towns in the country because people don't get so restimulated in the country. So the implanters always worried about: "Are these guys gonna break out or are they gonna get us... ", you know. They're not 100%. They just happened to be able to influence the top guys and they even had to put... they had to put some even **physical** control methods in to **ensure** that the monitoring systems would work. You know, you've read about that in "Sector 9". I mean, **that's** the physical control systems they put in. But it's not efficient, that system. It only works with effort, effort, effort on every level. When you're at the state of no-case and you have a Super Static idea of things, you don't need all this effort to do this. It's completely easy. It's *fast*. Totally certain. You have to know and do a good case analysis, you have to find out what the thing is you want to handle, and then you find it and handle it and it's almost a few **seconds** only and then it's **gone** and then the guy will experience: "Oh!", and then he'll move toward the Bridge if you want him to move toward the Bridge.

So I know this will be a very scary tape to people who are considering their own Missed Withholds and their own Overt-actions and their own implanter-type tendencies – this type of talk will be very scary to them, that they could be influenced or their mind could be read. But let me ensure them, the reason they're feeling like that is not because I'm saying this, it's because their mind is **already** being read, **already** they are being influenced and they **ALREADY** have so much case there, that they are caved in by it. And those monitor systems on those kinds of people who feel afraid by this have **totally worked**... they are one of the people who they are measuring in the "40% efficiency". It's totally efficient on you fellows, you **are** in it and you have been monitored and that's why you feel funny when I talk about this, because I'm starting to as-is part of it right now. You see what I mean? That reaction you feel when I'm saying I can read what you're thinking, and I pick up your ideas, and I know what your case is about; that's because you **already** have that case there, that monitor system there and you better go up the Bridge and do Excalibur, man, or you are never going to get free like the rest of us. So don't be afraid of people that are going up the Bridge. They're interested in basically the greatest good for the greatest number of Dynamics, ethical actions and getting people out of the games that they're stuck in and that they're losing badly. You know, the people that feel they're losing. You know... they're sick, and they're tired, and they're this, and they're that, and they don't like it, and so on – we **can** get people out of those games and they can play the ones they like and the ones they are interested in and they will do it with a lot less effort, Ok? And you have to only realize there are only really TWO intentions in anything you go into on the planet. So don't be fooled. There will be an intention **to trap you or to make you smaller**. And the good guys though, they will have a different one.

They will have the intention **to free you and make you bigger and expanding**. So don't get fooled by any of these "other practices" or anything, which have become popular in

these last few years. Anything that is trying to reduce your awareness, control you, to make you smaller, or to trap you, is operating with, or in agreement with the monitor systems that are already installed on the 7<sup>th</sup> Dynamic. Just remember that and know also, that now on this planet, we have a Bridge and we **can** get people **totally** up to the point where they don't have a case, and they can do things which are very effective in helping **others** not to have a case, and clearing the planet, and OT-ing the planet, and Static-ing the planet, and getting it all up, you know?

You see, one of the main games that you didn't handle on the way down the Bridge – the way toward more aberration – one of the things thetans didn't handle was **what they had created**. And that became the MEST universe. So the bits of your responsibility are laying in the MEST-universe and that's why you're in it. You have a job to do there, so you better get on up to the levels where that's done and finally finish the cycle on that, alright? Meanwhile it will remain here as a playing field getting thinner and thinner as people go up the Bridge and take the parts they're responsible for, out of it. And so, if you feel the MEST universe is getting a little thin or *slowly* changing or things are going unreal, or if things are getting a little bit out of hand and you don't understand why the political parties are acting differently than they were last year, or there are some *weird* cycles going on, on this planet, that you don't know anything about or you might hear about unidentified flying somethings around or strange effects happening in politics and so on like that – don't worry about that, don't worry about it at all. We're saying that it WAS all under control **before**, and you felt "secure" when you **thought** there was going to be a "one-world-police-state", but that isn't going to happen now. You are going to be **really secure** in your freedom and your independence and your ability to choose your own games and do it self-determinedly or pan-determinedly.

So there **are** changes happening, just as predicted in "Sector 9" and the "Debrief" I made a few years ago. And now there **are** changes happening that are – you can actually read about in the newspapers if you care to – and these changes are coming about because of LRH's Tech and because of the Bridge and people going up the Bridge. The monitor systems are being taken away bit by bit and so people are coming out from that suppression and things are starting to happen more on a pan-determined and self-determined basis. So don't be surprised. It's apparently a confusion. It **looks** confusing because the stable datum of the "one-world-police-state" is **not** there anymore, but the stable datum of **freedom and the bridge is** there for you. And if you come up the Bridge you will certainly start to understand – and as you go on up the Bridge – then you will fully understand what it was all about in the first place. Because people never were, or thetans never were, **bodies**. They **use** a body in the game, they use it, just as you would use a good tool to handle something in the game. But you're not the body, so don't let people tell you: "the body", you see? That kind of false data is what is keeping people trapped. They don't realize they are a spirit, or a being, or a thetan. They don't realize that they don't **have** to be told that they evolved from a lower form of life. No! All of that is **false**. The real truth comes when you go up the OT levels. You find out what the real truth is, and then the best indicator of that actually being the truth is: "Are you able to produce the result with it?" Damned right. There's a lot of results happening right now. OK. So if there are no further questions... anybody thought of a question while I was extemporizing there?

«Is there somewhere on the Bridge where you can heal people from a distance? People who basically never got any auditing and are having a lot of trouble physically? And you would like to help that person to stop that pain or something without going to the doctor until all is handled?»

Would you identify yourself, please, to the microphone?

«My name is Mohammed Bouderra... I'm from Morocco, but I'm helping people out at the moment in France.»

Very good, Mohammed. And "Inshalla".

«"Inshalla".»

It has always been a goal of people to be able to heal with a touch, and so on like this, and you've heard many stories of that in Bibles and so on. And I can tell you for true – that **did** happen, that IS possible, you know? I'm not saying **all** these stories were true, but they **can** be true and it probably **did** happen, in lots of cases, that people could heal by putting their hands, or prayers – or not prayers too much, but hands – and touching and intending whatever it was in that area of sickness to be well again and to help...

«Right!»

... help in a **good** sense. So this ability IS possible and you find out how it was done and why it was done and how it can be done. On the OT levels you do find this out. It can be done.

«Good!»

But it requires... what it requires is somebody to be at a high state of awareness regarding **life**. They have to understand that everything that exists was created by thetans and it has something to do with them and has something to do with life and so on. And you have to also be **willing** to have it audited, in a way. They wouldn't know... the healers **would** know only that they, as a being, were powerful enough to influence **that** particular life to being, were powerful enough to influence **that** particular life to come back to a normal state. Because they **wanted** it to and they got it **cooperating** with them. Now we're working on a different basis here – that the person **himself** will do this with his own body at this level here – the C/O Cycle Rundown. The problem is: How do we do it at a lower level?

«Right.»

You see, a person **can** do it himself by getting up to that level and do it with his own body and he could probably do it with another's body. **But** the key point is: Does the person have any counter-intentions to being healed?

All the stories I've ever read about great healers of the past – people who could heal by intention or by laying the hand on – the person always came to them. They always ask first: "Do you want to be healed? Do you believe?" Now if the guy did that, he was in agreement. The thetan, who was running that body, was in agreement with the guy who was doing the healing, so they could almost do a session there, you know? They were both on the same vector, the same intention.

«No counter-intention.»

No counter-intention. Now the point is though – as the doctors will tell you – the problem is that **every** level of case – of course – has some points of counter-intentions that are unknown to the person in there. And if a **case** is influencing the **prolongation** of a disease, or the actual **beingness** of the disease, then you have a **very** hard time getting the person to handle the other-determinism that's coming on to this disease. And a lot of doctors will find the patient will get better, as long as **they** are totally with the patient. And they're doing this sort of "bypass" of the thetan, who's running the body, and sort of get him – you know – in their space and they handle this and that and that and that and the guy says: "Ja, ja, it's better, it's better." Then he walks out the door away from the doctor, who – remember – is another thetan, who wants to help that person get cured, right? But now the person goes out of his space and the old other-determinism comes in again, right? From his case, right? And so he goes out the door and he starts feeling bad again. So he has to come back to the doctor and feel good again, and so on, it goes like this. Now if a doctor really wants to heal someone and not just make money on the guy keeping coming back, you see – he **would** be interested in going up the Bridge and learning how to apply this data at that level of "a person not having had auditing". Now, we haven't worked out exactly how that can be done, but there are two doctors going up the Bridge now that will be able to do that. So I hope, in the future, we will have some technique to be able to handle – both physically **and** spiritually – an illness on a person who has had no auditing.

«I will become a doctor!»

You will be a doctor. OK. Maybe it will take two doctors, you know, maybe a Gang-Sec-Check or something (laugh). No, it **can** be done. It just needs to be worked out exactly how to do this at a lower level of the Bridge on somebody, yes? Combining the basics of Scientology and the basics of medicine... what's all these other-determinism points on the case that could keep the thing going, you know? Alright?

«Another thing we have seen. There's a lot of money spent on this "Cancer", and they didn't get a result of the ability to heal this kind of thing.»

No!

«So can we help people in the future?»

Again, the doctors believe that we **can** possibly do that when we have all of this – both the spiritual and the physical resources necessary. It **can** be done. I mean, one thing that bears some investigation, as we know in normal Basic Scientology, is if you try to handle an ARC-break that has an earlier similar, it won't resolve until you get to the earlier similar, you see? Or a chain of engrams will not erase until you get to the basic on the chain. I think, with these "unsolvable" diseases, they just never got to the basic on the chain. The disease **itself** may be **out of present time**. The life-units that are taking part in "being diseased" may be **themselves** out of present time. And they (doctors) just don't know how to get them into present time, so they can be cured, you see? I tell you one thing: Now you are certainly not going to get them into present time by radiating them. You might move them to a different part of the time-track, and they appear to get better, but they are really worse. So, you know, most people that have radiation treatment, they lose their hair and everything like that. Well, it did move their body to a different part of the time-track and now they're in a part of it where they're losing

their hair and they go anemic and other strange things happen, so they can't... it may have moved **some** of the cancer to that part of the time-track too, so it looks like the cancer is being handled, but they did just move it into another incident. So a lot of medicine is determined on the basis of: Which would be worse for the patient – to die from this, or this? Right? They do that. They have to find something that **won't** kill the patient, but **will** kill the disease. So if this **severely** affects the patient, but **kills** the disease, they go: "Ok, we'll try that." You see? The ideal scene in medicine is to find something that doesn't affect the patient at all, but handles the disease. But that's the **ideal scene**, it's an absolute. It's almost hardly obtainable. You have to have these things that they call, under the term, "side-effects". Now the side-effects are these other – shall we say – not-optimum states, that come from the administering of the cure for this other thing that you're trying to handle. So these side-effects, in some cases, can be a lot worse than the thing that you're trying to handle, you see? It's just a question of decision. But knowing that this happens, then they don't have the **full** handling, you see? A full handling would be to do it **without** side-effects. With the addition of Tech into medicine, you may be able to find the ideal scene in all cases by analyzing it spiritually **and** medically. Then you have an ideal scene combination where you can have... it gets handled **without** side-effects, you see?

«So all the doctors should be auditors in Excalibur. All the doctors should do Excalibur.»

Well, they should do the **whole bridge**.

«The whole Bridge, yes.»

So, yes, they should do the whole thing. That would make them very able. The thing is, that just healing by spiritual means alone leaves the dependency there. The guy didn't know how he did it, so he is going to say: "Hey yeah, you must be..."

«Allah!»

... Allah!" (Laugh) or "... something holy!", you know? Wait a minute: That's just creating **more** other-determinism here! It may be a **better** other-determinism, but again that's a side-effect, you see? From a miracle-cure you also have a side-effect. The side-effect is: Now the guy is going to go into another determinism or another practice. So that is also a side-effect. You see, the games are much bigger and much longer and much more remote than these small games that they're playing on this planet.

So these side-effects are like moving the thinkingness of a person from thinking about his disease, you know, to now thinking about all the things he has to do to keep up with his cult or whatever or religion or whatever he has now joined, because that handled his disease. Now which is worse on the case? Well, you have to decide again. You know? Again and that's a "side-effect". So you exchange one part of the track for another. Is the guy more interested in his spiritual freedom or his physical feeling? The Bridge takes into account **both** of those, all the way from Dianetics and up the Bridge. You have to take into account both sides – the physical and the spiritual. Now to combine that with medicine, we **can** do it properly, and we **CAN** find out exactly how to do it without side-effects. A side-effect can only come when the guy has a time-track or a games-track and it can only come when he has a case. If he doesn't have a case, he ain't going to have any side-effects. But the problem you

proposed was not that. The problem you proposed was: How do you handle a guy down the Bridge?

«Now we never before saw it all like that.»

Yes. That is the problem. So that is why the doctors are going up the Bridge to understand that. They've already researched in all areas of electro-psychometric medicine, naturopathic healing, all different normal medical techniques, and all of those other things, right? And they still have a certain percentage that will not respond properly. So we now want to get to a standard in medicine that will also be able to handle **any** case – resistive or not.

«Is that Dr. Prinz?»

He's one of them, yes, he's one. He's on Solo now – Solo-Excalibur. Ok? Any other questions? The tape is about over.

«I think it would be interesting for other people to know how many are on the Bridge now on the upper levels.»

Oh, thank you. That's very good. Yes. There's over a hundred people on Excalibur now at this date, and there must be a dozen or twenty people that have finished Excalibur and are onto OT 9 to 11. There must be at least twenty on that, and then maybe ten that are onto 12 or 13 or above, and there are, at this moment, there are about three people that have finished the whole Bridge and there are several others – about four more – that are right behind on the top-levels, right, almost finished the whole Bridge. So it's been going now for about a year, since we started off the call for people to come in and get trained on Excalibur. But I've finished for myself last June and then we really started getting cooking on it. We knew we **could** get out of the whole thing and then we got cooking on getting people trained to do it. OK?

So I thank you all for being here and taking part in this and I hope that anybody that hears this tape will also get the purpose that we **can** do something about the games and the planet and any condition that is non-optimum and have a lot more fun in the future. And so I want to thank everybody, that enabled this to happen, including LRH.

And of course, as a thetan, we call him Elron Elray, because that is the name he prefers – and I thank him and I thank all the people that helped all around here and supported us going up the Bridge: The people, the auditors, the C/Ses, the public that came in and did it, and the translators, and the people who did projects and everything, and from all the countries of Europe and from other countries, too: New Zealand, America, and so on, and other planets. Yes, don't forget that. And other Sectors – we have a few guys here from other Sectors. So, if there's no other questions? ...

That's the end of Administration Briefing No. 1.
