6th March, 1956

WASHINGTON BULLETIN No. 1

FOUNDING CHURCH OF SCIENTOLOGY

Board of Directors:	President:	L. Ron Hubbard
	Treasurer:	Mary Sue Hubbard
	Secretary:	Richard F. Steves
Executive Administrator:		L. Ron Hubbard, Jr
Director of Processing, Hubbard Guidance Centre:		Julia Lewis
Assistant to Julia Lewis:		Jack Harness
Director of Training, Academy of Religious Arts and Sciences:		Kenneth D. Barrett

HUBBARD ASSOCIATION OF SCIENTOLOGISTS, INTERNATIONAL

Board of Directors:	President:	Julia Lewis
	Chm of the Board:	Kenneth D. Barrett
	Secretary:	Richard F. Steves
	Treasurer:	Mary Sue Hubbard
	Board Member:	Carol Bryans

CHURCH OF AMERICAN SCIENCE

Board of Directors:	President:	L. Ron Hubbard
	Treasurer:	Mary Sue Hubbard
	Secretary:	Kenneth D. Barrett

CHURCH OF SCIENTOLOGY, LOCAL, WASHINGTON

Board of Directors:	President:	William H. Young
	Secretary:	Elaine Nichols
	Board Member:	Earl R. Wood

CONGRESS OF EASTERN SCIENTOLOGISTS

Board of Directors:	President:	William H. Young
	Board Member:	Kenneth D. Barrett
	Board Member:	Earl R. Wood

SILVER SPRING BUSINESS SERVICE, INCORPORATED

(Note: Incorporation in progress)

Board of Directors:	(Subject to confirmation)	
	President:	Judy Breeding
	Secretary:	Marilynn Routsong
	Treasurer:	Mary Sue Hubbard
	General Manager:	Donald Breeding

HUBBARD DIANETIC RESEARCH FOUNDATION

(A non-active business organization.)

Board of Directors:	President:	L. Ron Hubbard
	Acting Secretary:	John Sanborn
	Board Member:	L. Ron Hubbard, Jr
	Treasurer:	Mary Sue Hubbard

THE FREUDIAN FOUNDATION OF AMERICA

(A non-active business organization.)

Secretary:

Marilynn Routsong

The following is a list of employees in Washington, and their duties:

The Academy of Religious Arts and Sciences

L. Ron Hubbard, Jr: Executive Administrator of the Founding Church of Scientology: Coordination of all activities of the departments and organizations in Washington and lecturing at the Academy.

Kenneth D. Barrett: Director of Training: Instructor of the Hubbard Certified Auditor Course.

John Sanborn: Instructor of the Indoctrination Course at the Academy and Editor of Ability Magazine.

Richard F. Steves: Instructor of the Hubbard Advanced Auditor Course at the Academy. Instructor, Dissemination Course.

Robert E. Nichols: Registrar of the Academy, and Church, Congregation and general communicator.

William H. Young: Religious Instructor at the Academy and Minister of the Church of Scientology of Washington, D.C.

Donovan Crandell: General Secretary of the Academy. Job consists of filing, taking dictation, writing letters, answering telephone, mailing and errands.

Hugh Neals: Accounting Department of the Founding Church of Scientology, which includes bookkeeping, disbursement of payroll.

HUBBARD GUIDANCE CENTER

Julia Lewis: Director of Processing: Dr. Lewis supervises the assignment of auditors, the procurement of preclears, auditors' conferences and testing.

Jack Harness: Assistant to Julia Lewis: Administers tests and supervises them, writes general correspondence, filing and other general secretarial duties.

Julia Lewis has a number of auditors working at the Guidance Center which fluctuates from time to time in ratio to the number of preclears.

SILVER SPRING BUSINESS SERVICE, INCORPORATED

Donald Breeding: General Manager. Manufactures tapes, and handles promotion for SSBS, Inc.

Judy Breeding: Handles the accounting of SSBS, HASI, HDRF AND CAS. Types the stencils for Ability Magazine and all other stencil typing.

Marilynn Routsong: Handles invoicing, banking, certificates, church memberships and receptioning.

Bill Fisk: In charge of the mailing department, that is, packaging, stamping and shipping books, tapes, etc.

Elaine Nichols: Filing, addressing, memberships.

Woody McPheeters: Handles the mimeograph machine and odd jobs.

OFFICE IN IRELAND

Well, hello there. How do you like your PABs coming to you once a week?

What really happened was that I felt that I was getting out of communication with people, and as I was getting out information under a heading called Operational Bulletins it seemed to me to be a good idea to use these as PABs.

If you remember many years ago when the PABs started they were dedicated to setting up auditors and making them a healthy and respected class of professionals and so with issue 72 we immediately and abruptly resume this intention through this particular medium. In other words the PABs were dedicated to this in the first place and they go on now doing their best for the auditor.

When the Queen asked me to tip my cap and leave England as an insidious and Communist influence intensely disrupting the very best plans of the Home Secretary, I might have gone straight back to America. However the Founding Church of

Scientology in Washington, D.C. has never been in better shape. With His Nibs as Executive Administrator the situation is under good control. With Ken Barrett running the best academy classes that have been seen in the past year and Julia Lewis doing a bang-up job at the Clinic, with John Sanborn teaching indoctrination, and Dick Steves rolling an HCA class in good shape and keeping the Washington politicians at bay, and with Don Breeding getting an intensive, things could never be better.

I have a habit of turning up where I am needed or turning up data when it is needed and as England is not yet in perfect shape there at Notting Hill Gate and as enough British brass has interceded on my behalf to permit me on occasion to pop into London, it seemed to me that I had better spend my time setting up an emergency station for Scientology in a country that wasn't likely to get atom bombed. So here I am in Dublin, Eire, ten days and one completed office in operation deep.

The Irish spring shows signs of being late and we were freezing lately with the rest of you, even though we have a pretty and snug home here in the outskirts of Dublin in a fashionable suburb. Susie and the three kiddies are well and happy and the kids after being cooped up in a London apartment most of the winter are staggered and stunned at a huge yard to play in and are exuberant and boisterous along with the Irish wind. Downtown in the most fashionable square and professional address in Dublin we now have two large suites of offices. The address is 69 Merrion Square, South. Just across from one suite and just next door to the other is the American Embassy. In ten days with the assistance of Bernie Green we took an old spacious set of offices and painted them, laid in new linoleum, bought the 101 small items necessary to running things and exactly seven days from my landing had a going concern. We have two pretty Irish girls and a smart Irish office boy, and that lovely Canadian, Margaret Tousaw, and the ubiquitous Dr. Green. During part of last week, Mike Walker, the English shipping department, was over here helping out, and what with American, Irish, Canadian, English and Texan, we are quite international. Eleven days from my landing we have somewhere between fifty and a hundred and fifty applicants for a course, practically none of the applicants having previously heard of Scientology. All this sounds too fast and exaggerated but it is factually and precisely true.

What I am trying to do is this. I am trying to pilot a project in an area not previously noted for Scientology interests which can serve as a model for an auditor in any area of the world just to see how it is done and to pick up pointers. As Ireland has only 3,500,000 people in the total nation you can see that I am working in a relatively small population area which is at the same time noted for its poverty. I am of course taking advantage of the peculiar features of the place, such as the fact that the major export of Ireland is people and am making all the shots count. However we have a hurricane of activity going here without previous preparation.

I am having to write all the little brochures, enrollment cards, descriptions and et ceteras which are handed out and I am packaging all the course materials and slants of the subject, and all this material is being shaped up so that it can be packaged not only for the public in Ireland, but for the use of auditors elsewhere. Accordingly as soon as I am satisfied with this material and have the envelopes printed, I shall send one package of it, one of each piece, to every auditor in Scientology.

If the weather is cold the Irish heart is warm. The country and the people could not be improved upon. Unlike Communist-infiltrated England, where Russia has been active with anti-American propaganda in order to rob the crown of its only powerful ally to ready a later banquet for the Russian bear, Ireland is enthusiastically pro-American. Lacking things to fight, the Irishman has been shooting up Communism quite enthusiastically and so we don't even find the medical profession here antipathetic to Scientology. It's all good roads and good weather.

Probably the greatest oddity of the Irish adventure is that aside from one year's office rent, some transportation and shipping expenses, and a small loan from London, the entirety of the operation will be supported by Mary Sue's and my salary from the Founding Church in Washington. As these two salaries amount to slightly less than \$200 a week you can see that the Irish operation is not big in terms of staff or offices.

However pay is very low in this area and rent is quite cheap. We can then support this activity for some time but strangely enough without actually paying any of our bills yet aside from office rent and a couple of other items we have income in sight adequate to take care of the activity.

It does the old heart good to see people swinging in toward Scientology at this rate. I could always get an operation started and get things wheeling but we have made so much progress in technology and know-how in the past few years and since I last had to start anything from scratch that I had not realized the pulling power of Scientology itself. I could be very mean at this point and say that if we have within eleven days of my landing a hundred and fifty people lined up for a course who have never before heard of Scientology that somebody somewhere in some group or another has been loafing like hell. I might also say that the bulk of the calluses collected in the field must be on a private portion of people's anatomies, not on their palms and thumbs, for this operation has not in any way depended upon my own identity and reputation. It is Scientology itself and what it can do that is creating the stir. Ireland being somewhat out of the way has not heard my name. Furthermore no public lecture has been given in order to attract people in and no other mechanism or device has been used that would be peculiarly mine, except perhaps the ability to know how to do things and to make words work effectively, so I am sitting here at this moment wondering why there aren't eight to ten thousand member groups under the charge and control of every auditor since there would certainly be a fifty thousand member group directly under the Dublin office within five months if I continue the experiment in earnest. Perhaps the main difference here is complete security on my own behalf as far as Scientology information and capability is concerned and the fact I will freely admit that our auditors all too often lack initial financing capital. The Dublin operation duplicated in any large city would cost about \$800.00 done up well, the \$800 including the living expenses of the auditor and his while he got going. However \$800.00 is not very many preclears so it seems to me that an auditor could have immediately gotten some preclears and done some auditing—until he had \$800 or \$1000 and then could have launched into a wider operation on this pattern, or he might have talked his friends out of an investment in his venture. This I say with perhaps a superiority of know-how and ideas would be the chief difference in starting up the Dublin operation and somebody starting an operation say in Chicago. Well I could say all these things and it would be very mean of me so I won't say them. I will simply go on shaping this mock-up up until I have gained as much know-how out of it as possible and will let you have a blow by blow account of how it happened.

What you should know first is that the Irish adventure is your adventure being conducted on your behalf to help you square away Scientology in your area and put you on easy street, and what is more important to the rest of us, to put mankind in a position of self-defence for the first time on a planet confronted with atomic fission.

THE ATOMIC FIZZLE

Wouldn't it be very funny if the moguls and high mucky-mucks of the higher insane wards of government were to have their favorite threat—atomic fission—turn into an atomic fizzle. This would be the joke of this or any other century.

Because we're all professionals here, well schooled in Scientology, let me talk a little bit about past track. This is not the first time that a planet has been threatened by the development of atomic technologies. It is on the past track many places and times that planets have been scorched and made uninhabitable to all forms of life. This tells us as we read our E-Meter that life is capable of abandoning a planet and going to another planet, setting up the painful process of making lichens and moss to make soil out of the stones and building a gradient scale on up to moving beings.

Atomic energy has always been a tragedy. Atomic radiation burns savagely and furiously and life so burnt in this age and time then is incapable of procreating. In other words an atomic burn hits mainly at the second dynamic. The reason it does is the number of times planets have been wiped out in the past. When atomic radiation came all procreation became pointless. The genetic line was over-ended and done.

There was no use making new cells or new babies. There was no future into which they could go. Thus the appearance of radioactivity tends to aberrate the second dynamic. Its actual use brings about a total apathy on procreation. Radiation first and foremost when it burns is effective simply because the hemoglobin no longer makes new cells and so a person dies of acute anemia. The blood cells are, it is true, the most cowardly of all the body cells. Blood cells lake into the center of the body in a moment of fear or terror. They give up quickest when struck by atomic radiation.

I have been conducting a series of experiments, one of them almost fatal to myself on the auditing of radiation burns. I have found that we can make an enormous effect upon radiation burns and can cure them in a milder form. That means we are the only agency, the only people on the face of Earth who can cure the effect of atomic radiation. I expect to make further progress in this direction and the whole answer is not yet gained, for the whole answer would be to actually proof a body against radiation itself.

It is rather foolish to believe that a flash of light which actually goes through and is not stopped by ten feet of concrete can yet do things of hideous magnitude to a body. That is all that alpha and gamma and the rest are—a flash of light. There must then be some cooperation on the part of the body to stop the flash which is not present in concrete. True, a newspaper held before the body interposed between it and an atomic flash can keep the body from being severely burned, but remember the actual destructive rays do actually go on through the newspaper and unless stopped by the body itself would go on through the body. On such reasoning I began to experiment to discover what the body was doing in connection with atomic radiation and discovered that it was actually stopping it.

I found out further the procreative aspect of atomic radiation came about because atomic radiation on the early track was used as a punishment mechanism. At first it appeared that atomic radiation was the basis of the second dynamic and its various wave-lengths, but this is not true. They were so identified because radiation was used in second dynamic punishments and activities. Radiation is the only thing capable of reaching in to the mock-up strata of a thetan and on this high wave length knocking apart his bank. There are many black fives around whose black screens are actually radiation hunger.

On the basis that the only havingness difficulty is under the heading of “not enough” I caused atomic radiation to be wasted (until the thetan could accept it). The difficulty was trying to operate with radiative mock-ups in the vicinity of bodies. Evidently the thetan has to change his mind very thoroughly before the body can be coaxed into letting radiation pass by. The body is apparently anxious for radiation punishment since it then no longer has to continue a genetic line.

The problem on which I am working is the actual proofing of a body against damage from bomb flash. That is between us auditors. To publication, however, it is actually factual that we are the only people who can do anything to alleviate or cure atomic fission. No serums or other mechanisms have proven effective. The most effective means of cleaning up radiation or radioactive dust in an area is the common water hose. That is the high tide of anti-radiational research. In Scientology using standard procedures and including in them an address to radioactive masses we can cure by remedying havingness with it radiation burns. Indeed it requires a very skilled piece of auditing with a great deal of havingness remedy but we can do it.

Now I want you—and by that you, I mean you, not a general editorial “you”—to send me at once any article in whatever publication or any book or pamphlet of whatever simple or complex nature you have, know about and can get, to me here at the Scientology Emergency Station, address “Scientology, 69 Merrion Square S, Dublin, Ireland”. Please send me as well any horror material you have. I do not even have a copy of John Hersey’s book on Hiroshima or any newspaper accounts on it. You can help by taking upon yourself personally the responsibility of being the only person who is going to send me any material here. As Ireland is well removed from any such threat, the material extant at this point is very poor. I need this material in order

to draw upon it for a book. This book will be called "Atomic Burns, Their Danger, Cure and Prevention", and it will be, we hope, in all the major book stores of the world and will be, I assure you, translated into the various languages.

You see the most frightening aspect of atomic radiation is that it is the very most basic ingredient in insanity and people close to it handling it or restimulated by it can be no better than totally insane. You see the threat we are up against? Now it may well be that the U.S. Atomic Energy Commission outlawed psychiatrists from its ranks and precincts simply because these who do at least know insanity when they see it might have been urging institutionalization of every leading atomic Scientist on grounds of paranoia, megalomania, and other psychotic symptoms. My own experience with these people would confirm it. The atomic scientist in the world today on grounds of security is removed from any skilled mental observation of any kind whatsoever. Nobody knows whether they are sane or not. Researches demonstrate that the stuff they are handling would bring about insanity in them in very short order. A light look at the subject demonstrates that they have a craving for the destruction of all life. They are totally careless and conscienceless when questioned on the subject of destruction of men, women and children in cities. They are equally conscienceless concerning the injury of their fellow workers. A symptom of this insanity visible to us every month or so from Enos, Oklahoma, is a man who was, for a long while, closely connected with atomic energy, and who between attacks on Scientology has horrible writhings concerning his own sanity and alternates attacks upon his auditor with grovelling begging to be relieved of the awfulness of his life. Nothing could be done for this man previously in Scientology as no research had been done on the peculiar aberration from which he was suffering—overdoses of radiation received while an observer at Eniwetok. The screens which covered his vision were radiation hungry. No one auditing him connected his past experience with atomic energy and his case since it was not known that there was any relationship. So we have had at least one case in our own midst demonstrating various types of insanity simply by reason of having been connected with atomic energy earlier in his career. There may be others. We know now that these surrender as cases if by auditing they are brought to create and destroy radiative masses in mock-ups. It is however a very dangerous piece of auditing and must be done very gently. You may, by the way, have wondered why I never really attacked this particular vilifier in Oklahoma. It was only that I was aware of the fact that his case was unsolvable and that Scientology had indeed failed him, and because I felt sorry for him. I am not the sort of a fellow to kick a dog when he is down and I knew what desperate shape that person was in. I am rather relieved now to know exactly what was wrong in his case and sometime or other an auditor can be sent down there. But if we have been caused lies and upsets in our own ranks by the side effects of atomic radiation then imagine what it would do when close up against a government which is being advised on atomic matters by persons who have long since passed the sanity point. Therefore it looks like thee and me have some work to do. Fortunately Scientology is already well entrenched in many atomic energy areas and many atomic scientist connections know of it and the materials which are developed concerning radiation cure can of course be applied to this particular problem with considerable benefit.

Well all entheta aside, please get that material to me fast.

IMMEDIATE CASH FOR AUDITORS

Associate Memberships are now available for sale by auditors to their groups.

The associate member is a member without time limit of Scientology. An associate member does not receive publications but does receive a pin and membership card.

An associate membership costs five shillings in the United Kingdom and areas under the London office, and one dollar in the U.S.

The auditor can purchase from the organization the pin and application form already assembled in lots of 25 with brooch backs or button backs for two shillings and

sixpence in the U.K. and its areas, or fifty cents in the U.S.

The auditor sends into the U.K. £3.2.6 to Scientology, 69 Merrion Square S, Dublin, Eire. He will receive in return 13 button back and 12 brooch back pins mounted on application cards. An auditor in the U.S. can send \$12.50 to Scientology, Washington, or for quicker delivery at this stage to me in Dublin, Eire and he will receive the same lot.

The auditor then sells these associate memberships to anyone but we hope to people who are taking or have taken a basic course. He keeps the totality of his receipts. The person to whom he sells the pin and card fills in the application form addressed to the organization provided with the card and has returned to him at once his membership card. The total clerical work on the part of the auditor is sending the order here, receiving and directly selling the card. The associate member newly made by the action is the one who sends in his application. This makes for minimal bookkeeping.

The pin is the lovely little S and double triangle pin designed by Bob Hollanbeck in Phoenix, Arizona. Some of you have already seen them. The design was taken originally from the dust wrapper of *Science of Survival*'s earliest editions.

Arrangements will be made at a later date for the sale of subscriptions to our improved publication line for general and special memberships, all of which can assist the auditor in financing his activities in Scientology.

The reason we want this membership to be widespread in existence is that the power of an organization is counted by the number of members it has. We must have a membership class which includes everybody and which permits people to be in no doubt as to whether they are with us or not.

A particular oddity of the associate membership card is that it is not renewable. It has no termination date and does not expire every year. It might be a good thing if some other classes of members also became associate memberships if they have any fear of lapsing, since they would at least be an associate member at all times. This however would not bring them publications or services.

You must be aware that at this price we are actually selling the card and pin at the actual cost of production.

As this is announced, the manufacture of the pin and card is already arranged and in the works. Acts of God, perils of the sea or strikes could delay the filling of your order for a few days but this is only an eventuality and by the time your order gets here the pins should be ready to ship to you.

As a point of incidental interest, I just happen to have by accident in my jewel box where I keep the keepsakes of value that people often send me from various parts of the world the original solid gold S double triangle pin made by Bob Hollanbeck. He sawed this out for me personally as a gift in Phoenix last year. If I owe him anything for copying it for everybody's benefit, I wish he would let me know since I don't have his address here in Dublin.

There was another slightly smaller S and double triangle pin made and issued from Phoenix a year ago, but it was not from this handmade design of Hollanbeck's which he intended for my personal wear. By the way, Bob Hollanbeck will make you a Mexican tie-tie with the S and double triangle in solid silver and very beautiful for I think \$15. When I have his address I will insert a PAB.

AUDITOR INCOME FROM BASIC COURSES

All auditors everywhere in good standing with the academy or London are authorized to teach a basic course in Scientology.

In its program of assisting the auditor to finance himself and the advance of

Scientology the central organizations will do all possible to assist him in the teaching of this course.

The course should be a minimum of twenty hours including some eight hours of group processing and some twelve hours of instruction.

The instruction should be precisely cycle of action, the 8 dynamics, ARC, and what each element means, the tone scale, something about havingness and its relation to the tone scale and how to do an assist. The principal stock in course should be the most elementary and should be repeated often so that everyone in the course actually knows these principles. No other material such as past track, past lives, thetans, clears, or any other data should be introduced into the basic course. The essence of teaching a basic course is to make sure that everybody in the unit understands very well these basic elements.

I am at work at this moment on a Basic Course Manual. However you need not wait for it.

At the end of your basic course you should give an examination to all persons who were in it covering just exactly these points above and their definitions and uses. You should then ship with the address of this person that examination paper to London or Washington, depending whichever is your most immediate area. The central organization in London or Washington will immediately execute, if the exam was passed, a basic course certificate and send it at once either to you to give to your student or to the student directly as you indicate. Warning: these certificates will not be sent unless the examination paper and the student's address are included.

The organizations make no charge for this service.

It is expected that a basic course would cost at least £3.10.0 in the U.K. or \$10.00 in the U.S. It is also expected that this charge will be made and collected by the auditor and that the auditor will keep for his own uses and the financing of Scientology in his area the totality of basic course fees.

The only way you are going to accumulate a group that will stick with you and forward Scientology is by teaching that group a basic course. Group processing without training doesn't work.

We are very shortly going to publish a book as possessing the only effective cure for atomic radiation known to man. You will hear more about this later. The best and first thing to do is to create a large group and to teach it a basic course. Let's get this one out of the way fast. People are talking Scientology and demonstrating its adequacy in their own spheres.

One of the ways of gathering groups for a basic course is to teach for the first week something you will call a free course and which contains perhaps four hours of auditing and six hours of instruction, and give this free course to everybody but don't let anybody take the same free course twice, and then simply continuing the free course on up into another twenty hours or two weeks, covering these essentials much more precisely, teach a course that you charge for. Remember the organization does not care how much money you charge for this basic course. It would actually be surprised if you did not charge at least five guineas, or \$25.00. There are plenty of ways of accumulating groups. For such basic courses you will learn these as I tell you more about the Irish adventure in later PABs.

TRAINING COST CHANGE

After years of no alteration it may come as a bit of startlement to announce that it will shortly be generally announced and is effective immediately that training costs and charges are changed in the central organization.

For five years the cost of a professional course in the United States has been

\$500. In London the same course has cost you formerly £125. It is rather interesting how these two figures were arrived at. The \$500 fee was set by Parker Morgan in Elizabeth, New Jersey at the end of May in 1950. Parker Morgan besieged by requests of people who wanted to take a closer look at Dianetics invented a status whereby that person could hang around the office and watch what was going on in the Foundation as an intimate observer for one month for \$500. There were ten in the first professional course. The only chair case there was Ted Ottison, recruited up from St. Mary's College. After a few days I took pity on these ten since although they were interested they were getting very little know-how, and began to give them a daily lecture, and so started the first professional course in Dianetics and Scientology.

The figure was set in London at £125 because that was the cost of maintaining an instructor and quarters for a minimum class of two students over a period of two months and the general one month hangover of training. As I could not stand by London forever and had no idea that it would have many students, it was necessary that the school remain solvent. It was also necessary that a central organization continue to exist and that needed finance. Actually the £125 charge was not too far in error since the London office just barely did remain solvent during my long absence in the U.S. Commie critics which exist in vast profusion swept Scientology into its group propaganda about American dollars and was long active in pummelling this £125 fee as demonstrating that Scientology was a get rich quick scheme.

The actuality is that in both cases the central organization has to be maintained or auditing itself would go all to pieces everywhere and there would be no way of disseminating new processes, and that it takes far longer than a month, or two months or three months to train a professional auditor. He has to be trained by experience as well as formal instruction and the central organization always has the responsibility for this. As an example in Australia where an inadequate financing was done the HASI office has been in continual difficulty trying to maintain itself, and failing to maintain itself adequately, the professional auditor in the area of Melbourne has had a rather hard time of it. Part of that squirrel cage of course is the activity of squirrels in the area who always reduce the effectiveness of Scientology and blunt its progress, unable to understand evidently that not everybody shares their own enthusiasm for kicking the bucket. Of course a few of these squirrels were on the side of the allies during the late war. They evidently didn't get their fill of death, like the most of us who are more intimately connected with the hostilities. A squirrel has used these fees as a target rather continuously but this is not the reason they are being changed.

Because we can train an auditor today in the eight weeks allowed without having to pay for a great deal of continued training thanks to the invention of the indoctrination week and dummy auditing—of which I am quietly proud—we can actually afford to train now for less in the United Kingdom. We are going to extend U.S. training into a later retraining period and we are going to do several additional things for the U.S. auditor than we have done before so the training cost will remain the same for considerable additional service in Washington. In London the fee is dropped to £75.

In view of the fact that we have the basic course planned for auditors in the field and the shortness of distance in the U.K., no rights to train the level of HCA or HPA will be issued in the United Kingdom. This is actually a kindness since the grind of training auditors is not remunerative to the individual auditor and actually inhibits his income which should be much greater by reason of basic courses than it ever would be from teaching professional courses by our experience. This is heightened by the fact that there has only been one application to train made to us in England which denotes no field enthusiasm for professional training on its own behalf anyway.

In the United States all those rights to train which have been granted to auditors who have not at this date returned in full their percentages and fees to the central organization can be considered cancelled. The organization will certify persons in training to such persons after this date, but only those persons who are at this instant in training actually. No further persons should be enrolled. As soon as auditors with these rights to train engage upon the basic courses they will understand that the

teaching of basic courses is far more remunerative. We have had nothing but complaints from auditors with individual rights to train concerning their difficulties with finance. Students do not pay them. Central organizations can cope with this fact but the individual auditor cannot. It is beyond his means to train on charity or on the receipt of a third or half of the professional course fee. The central organization can struggle along with this or collect.

The chief reason the U.S. fee is not dropped is because the auditor being trained now is going to be sent into specific areas and is going to have placed in his hands any and all literature he will need to start things booming and will be assisted by special mailings to the area concerning him from Washington, all of which takes money and which had better come under the course fee. However as this service will cost about \$150 the Washington fee is actually reduced to about \$350 to be available for the actual training. We feel it is better in Washington to collect the total fee and use part of it to give the auditor a big push in the area assigned when he leaves, than to leave it to his initiative to scrape up enough money to get the literature and material and make the mailings.

BOOKS IN PROGRESS

I am writing or have scheduled the following books:

1. The Elements of Scientology—Basic Course Manual
2. Atomic Burns—Their Danger, Cure and Prevention. (This is the one we mainly need the bookstore list for.)
3. Scientology—The Modern Science of Ability (A rewrite of *Dianetics, The Modern Science of Mental Health.*)

Abilities by the half-ton, each one of them defining a word in Scientology or pertinent to life.

ACTUALLY HERE

I am actually and factually in Dublin, Eire. There is a terminal here. There are some mailboxes and desks to receive your communication. My body just now is in rather indifferent shape thanks to an auditing experiment on radiation but it nevertheless will sit in a chair and hold your communication in its hands and read it over very carefully. When you stamp on the floor or the street of Dublin, there is solid earth there and the wind blows and the air circulates and there are live people around and in short this is really a terminal and your communication will be acknowledged at once if you write. I will see if there is anything else I can think of to reassure you as to the communication formula. The truth of the matter is the swarms of people around here aren't Scientologists and I am a bit lonesome and you don't look around very good when I tap you on the shoulder so write me a letter and let me know your reaction to Associate Memberships and teaching a basic course and in turn every week I will keep you posted on the material from various parts of the world and in particular on the Irish adventure which may win or lose—see next week's installment—and upon the progress of several other mock-ups in which you have a very tightly vested interest.

CABLE FROM WASHINGTON
